FLEET CARRIED KEY FOR D-DAY

ed everything on the fire power of the largest fleet ever assembled and were rewarded by the great success of the D-Day invasion is graphically told by C. S. Forester, noted writer of sea stories, in the current issue of The Saturday Evening Post.

Plane bombings at Dieppe has shown the British and America leaders that Nazi fortifications ed Nations invading the along the cliffs of the French shore were invulnerable to this type of attack. Accordingly, the plan was devised to smash the gun emplacements with level shelling from the heavy guns of warships, while aircraft spotted and reported positions of inland coastal guns. The efficiency this program and the precision of the naval gunners made possible for the large scale landing. Airborne troops were dropped behind the first line Nazi defences and they raced to put out of action troops and guns being rushed up by the defend ers. In this they were brilliantl assisted by aircraft that repeat edly sent directions to the ship guns for the blasting of large German forces being moved into

Concluding his article, M Forester writes: "The vital par which naval bombardment playto the world, just as its constito the highway opening tuted a tactical surprise for the

PROFITABLE PROMOTION

Newspapers are given highest rating with nation- briefly in the city from Vical advertisers, surveys in Canada and the United States show once again.

This means that those men who have the most to spend and desire the best return are not stinting on their advertising-war or no war. They are sold on the need of advertising - constant advertising. Even a bargain needs to be advertised.

In one American city, 38 businessmen are delighted at the resumption of publication of their local paper which had been compelled to suspend business.

"You never miss the water till the well runs dry," is an old saying applicable in this case.

There are many people in business who gain much from the efforts of their fellow citizens to build up the city and district, but who do little themselves other than grumble and complain. These are people who think advertising does not pay unless they can trace a direct sale to a special advertisement. They ignore the fact that to be successful you must advertise, advertise, advertise.

Successful advertising is due to the constant association of a name with a community of service. Big advertisers do not bother to trace sales. They want you to associate the word Hardware for instance with their name. Sooner or later you buy goods at the store whose name they know.

Advertisers do get results or our national and international advertisers would have quit instead of increasing their advertising.

Local merchants increase their business by doing more advertising, thus ensuring better publicity for their town as well as their wares. The increase in our circulation in recent years shows that the people here and elsewhere want to read the Daily News for its news and its advertisements.

GOOD NEWS

Ottawa may well deem it time they gave a little more thought to members of our armed services and those who have been discharged.

First came the announcement from Col. the Hon. Ralston, minister of national defence, that clothes allowances for discharged men would be increased from \$65 to \$100.

This will be applauded widely. It was not the Department of National Defence, however, that first discerned the need for the boost. The first sound came from the newspapers and it took columns and columns of type, together with pictures, to convince the department.

The newspapers are not seeking thanks for this, merely the recognition by the man in the street that newspapers still belong to everyone, ready to serve a good cause whatever the odds.

Better news still for the armed services is Colonel Ralston's announcement of a \$750,000,000 war service gratuity fund. Half the fund will be paid directly to the men, and the remainder will be used in connection with the Veterans' Land Act, military per-

Laurier's 34-Year-Old Promise to Prince Rupert is Being Fulfilled

Chinese Dishes

Levearch transformed last Iron

ALTHOUGH IT HAD BEEN PROVED by

laboratory experiments that the quality of

cast iron could be vastly improved by the

addition of Nickel, it remained for the

Canadian Nickel industry to lead the way in

putting this knowledge to commercial use.

In 1921 Nickel investi-

gators began intensive

laboratory research

on cast iron. They

reviewed previous

experiments car-

ried on by other

scientists. They

made countless

experiments of

their own. They

proved that cast

iron could be

made stronger, more uniform in texture and more resistant to corrosion and wear by adding Nickel. They sent out this information to buyers of castings. They instructed foundries how to use Nickel to get best results.

So Nickel alloy iron was adopted for scores of new uses. Another new market for Nickel had been developed to take the place of war markets wiped out in 1918.

Today Canadian Nickel is again diverted to war purposes, and again the industry looks to the future with confidence. Plans are ready to develop and expand old and new peacetime markets, so that the Nickel industry may continue, through its own initiative and enterprise, to make still greater contributions to Canada's welfare.

THE ACHIEVEMENT OF THE FUTURE THE INTERNATIONAL NICKEL COMPANY OF CANADA, LIMITED 25 KING STREET WEST, TORONTO

Smithers-

Retired Assessor Moving to Island

SMITHERS, Aug. 14-Mr. and Mrs. H. F. Noel, who have made their home in Smithers for the past 17 years, left Smithers by car Saturday morning to drive to Nanaimo, where they have purchased a business and intend to make their future home.

Mr. Noel lost his store building and a large part of his stock in the fire last May.

He reopened in the Masonic Hall building but has disposed of this business to Mrs. Margaret Warner and Mrs. James Silver, and is leaving the north country permanently after some

JUST FISHING!

Not Talking On

"Going fishing" up Ketchikan way, four executive vice-presidents of the Crown-Zellerback Paper Corporation, with head offices in San Francisco, passed through the city Friday.

They were H. L. Zellerback and R. A. MacDonald of San Francisco, O. Denman of Seattle, and F. N. Youngman of Portland. To a Daily News reporter who

sought them aboard ship. P.O. Box 274 McDonald was pointed out as the 10:00—CBC News party's publicity agent. He was 10:10-Elmore Philpott found playing rummy in the 10:15-CBC News Roundup after saloon with Mr. Denman 10:30-Bob Crosby while rain dripped on the deck 11:00-Silent

game which, he said, was "for | keeps," Mr. MacDonald admitted that his three friends had placed him in charge of "publicity." Ordinarily, he was merely executive vice - president in charge of sales.

Rummy Game Only Side Issue For Him

Mr. Denman, who had just 11:15-Message Period lost the rummy game, was fe- 11:17-Recorded Interlude sponsible for general supervision 11:45-Raymond Scott of the company's Seattle plant.

The party had stopped at 12:00-Great Music Ocean Falls on their way north, 12:15-Band Wagon where they had made their an- 12:30-CBC News nual business pilgrimage to the 12:45-Matinee Memories Pacific Mills Paper Company. They were going to Ketchikan to do some fishing, and would return next week.

Were they not also going to Ketchikan to investigate the prospects of building a new | paper mill at the Alaska town? Such a thing was probable, but it was not up to him to say that it was actually so, Mr. Macdonald indicated with re-

Somehow the conversation shifted around to the general topic of newsprint. Did the reporter know that west coast United States newspapers were allotted 18 per cent less newsprint than prior to 1942? That allotments were made on a quarterly basis? Mr. Zellerback and

Youngman marched through the quiet saloon. They were, Mr. Youngman explained, going up town to a picture show. The reporter stood up. He was,

he said, going up town too-to his office to dream up a story. He wished the fishermen "a tight line."

More people speak English han any other language.
