

INCINERATOR
TO BE TRIED

Disposal Subject of
Lengthy Discussion at Council
Meeting.

New incinerator installed
United States authori-
ties the Kalien Island high-
ear the city limits is to
a three months' trial
city for the disposal of
al garbage. This was de-
cided after a discussion of
length on the matter.

Subject came up with the
of communications
Col. D. B. Martyn, area
dant, and Col. F. W.
of the United States
The letter from Col. Mar-
ferred to an unsanitary
on arising from the open
ing of city garbage and
Lieut. Col. F. E. Coy,
medical officer, as stating
his practice defeated the
object of the incinerator
and might result in
demic endangering both
city and civilian population.
City was requested to take
necessary steps to remove
nuisance.

Communication from Col.
Adams offered the use of the
incinerator, the city to provide
gasoline for the engine
at the burner and the crushed
stoner or gravel necessary to
build a ramp which would en-
able city vehicles to get up to
the incinerator platform and
dump into the manholes.

Dr. R. G. Knipe, medical
health officer, said that ordi-
nary household ashes could be
handled through the incinerator
although large masses of
solid ashes could not be put
through. Bottles would have to
be separated but cans could be
burned. A man would be re-
quired to separate the bottles.
In answer to question, Dr. Knipe
said he was assured the incinerator
could handle all the garbage
arising in the city—municipal
as well as military.

Ald. Hills asked if it was not
a fact that the United States
Army was not putting all its
garbage through the incinerator
but was dumping some of it for
open burn. He (Ald. Hills) said
he was advised that the incinerator
was not capable of
handling all the army garbage,
let alone additional garbage
from the city.

Dr. Knipe said he believed
all military garbage was being
disposed of through the incinerator
but City Engineer G. S.
Hanes disclosed that as late as
last Friday the Americans were
putting garbage over the dump.

CITY BEING
HANDLED GIFT

Dr. Knipe suggested that the
city could not afford to pass up
what amounted to a modern
\$50,000 incinerator being handed
to it. In any case, something
must be done to alleviate an
unsanitary menace. It was an
easy way out to accept the use
of the modern plant at little
cost. If the council failed to act
in the matter, there might be
pressure from the Provincial
Board of Health.

Ald. Elliott did not like
threats. It seemed a shame that
the Army should be dumping
good food such as loaves of
bread to be burned. It would be
better if a piggery was estab-
lished to consume such garbage
and provide meat. As a matter
of fact, he believed that the
city garbage was needed in the
incinerator as fuel.

As for the piggery proposal,
Dr. Knipe said that health regu-
lations required that all swine
be cooked before being fed to
swine. It would be necessary to
separate the garbage so used.

Ald. Hills was in sympathy
with the idea of protecting the
health of the citizens but, be-
fore becoming associated with
the incinerator, he felt it would
be wise to make sure it was
practically workable.

Finally at the suggestion of
Dr. Knipe, it was agreed to give
the incinerator a try-out for a
period of three months with the
city engineer checking up. Ald.
Elliott and Ald. Arnold moving
to the effect. An amendment
by Ald. Hills that the United
States Army put all its garbage
through the incinerator for a

SHOW WINDOWS
BROKEN AGAIN

Downtown Plate Glass Comes
In For Another Beating.

Third Avenue's plate glass
windows, those eyes that mirror
the mercantile soul, caught it
again last night.

Two windows were broken.
The first was said to be in-
cidental to the efforts of the
management of a hotel to eject
a number of sailors from the
beer parlor at 10 o'clock. Due
to its inability to bend, a large
window broke during the dis-
turbance. The Navy shore pa-
rol is said to be holding three
sailors in connection with the
affair.

The second window smashing
had none of the roiling
verve of the first. A large pane
of glass in the front of William
Stone's clothing store was
broken apparently with either
the intent of theft or mischief.
City police are investigating
the act which occurred shortly
after 2 o'clock this morning.

City Lock-up Is

effect minor repairs, to request
that the goal be cleaned up and
kept in good condition and that
provision be made in the esti-

RECREATION
FOR YOUNG

Boilermakers' Union Asks City
Council for Venue—Need of
Combating Juvenile Delin-
quency.

George Stanton, president of
the Boilermakers' Union, ap-
peared before the city council
last night with the request that
the council do something, if
possible, to assist in making
available a hall or building for
recreational activities, particu-
larly among younger people,
which were being organized by
the sports and social committee
of the union. There was a cry-
ing need for some sort of a
gymnasium in Prince Rupert
to provide healthful exercise
and recreation and aid in com-
bating juvenile delinquency
trends which were developing
alarmingly here.

The first venture of the Boil-
ermakers' Union sports commit-
tee, Mr. Stanton said was a
boxing club which some thirty
or forty boys were attending
at the East End Hall and in
which much enthusiasm was
displayed. If a gymnasium
could be obtained, it was pro-
posed to extend activities to
other lines of participant sports
taking in both men and women.
In season outdoor sports would
be developed. Mr. Stanton said
the committee was prepared to
pay a reasonable rental for
such premises as might be
available and to provide equip-
ment.

Mayor Daggett had no suit-
able place in mind at the mo-
ment but assured Mr. Stanton
of the council's sympathy. Ald.
Arnold suggested the large play
shed at Booth Memorial School
and Ald. Elliot mentioned the
possibility of Seal Cove School
being obtained when it was
closed down after the opening
of the new Wartime Housing
school building.

Ald. Rudderham stressed the
urgency of something being
done to meet the juvenile delin-
quency situation. There
should be a restoration of pub-
lic playing grounds which had
been interfered with by the
military.

Mayor's Salary
Is Given Boost

Daggett to Receive \$2,000, an
Increase From \$1,200 Which
Watts Received.

Mayor H. M. Daggett will re-
ceive a salary of \$2,000 this year,
an increase from the \$1,200
which W. M. Watts, his prede-
cessor in office, was paid last
year. There will be no change
in the aldermanic salaries of
\$300. This is the effect of a
motion which was passed by the
city council last night with the
approval of the entire council
excepting Ald. Arnold whose
proposal should be the same this year as
last year failed to win even a
second.

Ald. Rudderham, who moved
that the mayor's salary be \$2-
000, the maximum allowed by
the Municipal Act, acknowl-
edged that last year's mayor
had given a lot more time and
work to the job than he had
been paid for. The town had
grown since former years and
there were so many problems
that full time on the part of
the mayor was required. This
involved neglect of business or
loss of remunerative work. He
felt it but fair that the mayor
be given full remuneration per-
mitted. Ald. Brett seconded the
motion that the mayor's salary
be \$2,000 and that of the alder-
men \$300. On the question be-
ing put, Ald. Arnold alone dis-
sented.

A study has been made of
the street lighting in the Seal
Cove area and arrangements
have been made for installa-
tion of improved lighting in the
vicinity of Booth School.

Co-operative

An option for one year be
granted by the city council to
Kalien Consumers' Co-operative
Association to purchase lots 13
and 16, block 18, section 1 at
their assessed value of \$5,235 in
consideration of cash payment
of \$523.50, which amount is to
apply on the purchase price if
the option is exercised and sub-
ject to release of this property
by the Civic Centre Association.
The property is at the north-
west corner of Third Avenue
and McBride Street.

Prince George, succeeding the
late Kenneth Matheson. Mr.
Swift joined the C.N.R. 23 years
ago and has served as police
sergeant at Vancouver since
1929. He is well known to the
travelling public passing through
the Vancouver station during
that time. Born and educated in
Ireland, Mr. Swift served in
World War I and was a pris-
oner in Germany for nearly a
year. Coming to Canada in 1920
he started with the C.N.R. me-
chanical department at Winni-
peg in 1921 and transferred to
the Investigation Branch as
constable a year later. He went
to Jasper in 1924 and the fol-
lowing year was moved to Van-
couver as constable. From 1927
to 1929, Mr. Swift was station-
ed at the Port Mann terminal and
returned to Vancouver as ser-
geant in the latter year.

of a new program being pre-
sented over CFPB every Mon-
day, Wednesday and Friday
evenings at 6:10. The feature
is called "Treasure Chest
Heroes" and is presented by the
Navy League of Canada.

Each story is true. The facts
may be found on the official
files of allied governments. The
adventures of the leading char-
acters include those of John
Boyle who gave his life saving
a tanker with a million dollars
worth of airplane gasoline and
Thomas Chaplin who was tor-
pedoed the day war broke out
and three times more since
then.

The program is being pre-

Canada's drive for membership
runs into the final phase. The
money subscribed by the drive
will be used principally to pro-

seamen and for recreation fac-

war in the near future. The Prime Minister was

happy. He asked that he be
given "some latitude" about the

Separate Peace Report...

Of course, it is inconceivable that Great Britain would make a separate peace with Germany. Nevertheless, there must be some considerable speculation as to why the Soviet newspaper Pravda, usually inclined to be conservative in its statements, particularly in regard to diplomatic matters, should have printed a report suggesting that British representatives had conferred in Spain with the German foreign minister on the subject of a separate peace.

Of course, Pravda went out of its way to explain that the report was entirely unofficial. The Soviet newspaper also played down the report by putting it inconspicuously on the back page. Nevertheless, it has received a good deal of play throughout the world and particularly on the Russian radio.

No doubt there was some propaganda purpose for the publication of the report but just what the object may have been appears obscure for the moment. If it had been published in enemy quarters we would immediately have dismissed it as being deliberately manufactured to cause distrust between the Allies.

Meanwhile we are assured in official quarters that there is no truth whatever to the report and Lord Halifax goes so far as to say that "people who believe it will believe anything."

Still we are at loss to know why Pravda sent up such a kite.

Rupert on the Air Map...

The proposed establishment of a commercial air line between Vancouver and Prince Rupert, as announced Monday, will bring us much more up-to-date in the matter of transportation. It is a service the instituting of which has already been unduly delayed. As a result of the establishment of this link, Prince Rupert will be connected with air lines north, east and south and will have direct contact with the air lines which are now transcontinental and, as soon as the war is over, will be transoceanic and globe-girdling.

The new service is one that will benefit and affect us all—whether it be to travel, to use for mail purposes or for the delivery of our goods.

In making announcement of the intention to start this service, Grant McConachie, manager of the Canadian Pacific Air Lines, comments that it will reduce the travelling time between Vancouver and Prince Rupert from 36 to four hours.

Of course, until we have a landing field here air service in and out of Prince Rupert cannot be fully complete. Such a field would make it possible for us to leave Prince Rupert early one morning and be in Montreal or New York early the next morning—or in less than 24 hours' time. And, after the war is over, we would be able to take a commercial plane in Prince Rupert this morning and be in London early tomorrow afternoon. Then there will be the trans-Pacific air routes which will take us in a couple of days or so to China or Japan or in three or four days to Australia or India. And, by the trans-Polar route, we shall leave here today and be in Moscow Thursday at the latest.

It is gratifying and interesting to think of the effects of Prince Rupert at last getting on the air map, a satisfactory step towards which will be the establishment of the Vancouver service and plans attendant thereto.

Has Big Job Overseas...

One example of where civilian experience plus bright adaptability fitted well into an army job is illustrated in the case of the Prince Rupert boy, Flight Lieutenant Allan Davies, son of A. M. Davies, a well-known veteran of the last war and secretary of the Canadian Legion here, whom they are describing as the Royal Canadian Air Force's "top mail man in the Mediterranean war theatre." Handling the mail is a big and important job for it is being more and more emphasized how receiving mail keeps up the morale of the men on service.

Some idea of the importance of Allan Davies' particular job is formed when it is realized that through his office goes all the mail for men of the Royal Canadian Air Force serving in North Africa, Gibraltar, Italy, the Middle East, Iran, Iraq and India. Davies heads a twenty-five man staff at the British Army base post office at Algiers handling thousands of letters daily.

Handling the mail is becoming something of a tradition in the Davies' family. In the days before the First Great War Allan Davies sr. used to dish out the mail from the general delivery wicket to the pioneers of Prince Rupert.

Twenty Years as Chief Warden in The Grace United Church.

PORT SIMPSON, Jan. 18.—On Saturday in the Epworth League Hall, Sam Hughes celebrated his twentieth anniversary as a chief warden in the Grace United Church of Port Simpson. The Port Simpson Concert Band was in attendance and a very fine program was rendered both by the Band and the younger set of the Village. It was a very enjoyable evening for all those present and will long be remembered.

The girls from the Crosby Home rendered some very fine music before and during a presentation from the Hudson's Bay Staff after which Mr. Hughes thanked the girls and the staff for their gift. When Mr. Scott, the manager of the Hudson's Bay, handed Mr. Hughes the present he also gave with it an envelope.

Among those present in the audience were two girls in Air Force uniform. The Master of ceremonies drew the attention of the audience to this fact and vtry hearty applause was

That's Why I Need Whole Grain Quaker Oats... Richest of All Natural Cereals in Growing Factor Protein!

Yes, real oatmeal leads all natural cereals in protein, the very thing that is meat's main element. Children must have protein for normal growth. Adults must have it for stamina and to help fight fatigue.

Nature richly stored so many important food elements in Whole-Grain Oatmeal. It stands alone among cereals. Give your family its wonderful protection daily, now that so many foods are scarce and rationed.

Get a package at your grocers today—start each day with this wholesome, delicious, Whole-Grain breakfast.

To the Health Seeker

Perhaps, a "Belief" exists that "everything has been tried and failed?" Has "faith" subsided to the low ebb of accepting as a fact, the belief that a disease is incurable? Meanwhile, a vague misgiving persists that: Somehow, somewhere there must be an answer to incurability.

Chiropactically, the greatest handicap to health restoration is: So many cherish a traditional faith or belief to the bitter end. Meantime, a simple disease descends into an indefinite and complicated realm of incurability. Thus faith and belief hinders, and denies, the natural self-curABILITY within themselves the rightful duty to remedy (meaning: to cure again).

Such statements, of disease, special or general are verified by an exhaustive survey. Over 93,000 persons turned, when disillusioned and disappointed, to Chiropact (Nature) as a LAST resort.

Some 410 qualified Chiropactors raised no question as to the merits of faith, belief or, the competency of any remedy, to cure again. Nature had preordained that everything was incorporated within. Nature's OWN Remedy substituted incur-ABILITY for cure or marked improvement in 79,000 cases; or, 85% of tiresome, intangible disease names.

A critical reader may question this astonishing record. For the needy there are two basic considerations: The belief that a condition is obstinately incurable as, against the Chiropact record with thousands of varied, incurable cases. Both cannot be right.

When faith and belief fails to move mountains, Mahomet must go to the mountain. Possibly, the earnest Health Seeker discerns, by the mountainous record, that everything has not been tried; that, high odds yet remain in his favor.

As Mahomet would resolve: If Chiropact eventually, why not . . . NOW!

J. L. CURRY, Chiropactor

INDIAN PILOTS TRAIN IN CANADIAN SKIES—All decked out in the latest Canadian flying kit Leading Aircraftman Balakumaran Manivelu of Tranjore, India, is about to take off on a training flight at an air station near Weyburn, Sask. He is one of a number of men of the Royal Indian Air Force who are training under the British Commonwealth Air Training Plan, in preparation for the day when they can help remove the menace of the Jap from their native land. Also at Weyburn is LAC Rejinder Singh Sandu, right, from Pakho Pur, India. A Sikh, LAC Sandu never shaves or gets his hair cut, but usually washes it daily before doing it up in the traditional turban. Here he studies the mechanics of a bomb sight.

COUNCIL AROUSED —

CONDEMNED BY LABOR

Federal Government Called Upon to Rescind One Order-in-Council and Refrain from Peremptory Legislative Method.

The Prince Rupert Trades and Labor Council, at a recent meeting, passed a resolution that all unions represented by or affiliated with the council "condemn without reserve" Order-in-Council 9384 and called upon the government to rescind this unfair and wholly fascist order. The resolution also asks the government to take steps to change the use of orders-in-council as means of making and enforcing laws and give Labor equal representation on all boards and committees.

A lengthy preamble contained "Whereas" as follows: "The people of Canada are supposed to have a government of the people by the people for the people by means of secret ballot and the majority rule, as well as freedom of speech.

The government now in power in Canada was elected to maintain these principles, as well as to carry on the Great War in defence of such liberties, by means of organizing our economic and labor powers so as the greatest production possible could be attained to carry on the war, as well as to serve the best interests of the people at home.

Canada is fighting the Great War against dictatorship of the few against many and to preserve representative government.

Orders-in-Council are supposed to be the means only whereby the government is able to carry on in an emergency and as a temporary measure only until Parliament convenes and approves or condemns the order in council.

The present Government in power has proceeded to issue orders-in-council which are given the force of laws and are acted upon with or without approval of Parliament, the representatives of the people, thereby abrogating the rights of the people and becoming dictatorial and fascist in nature which we as Canadians are bitterly opposed to in the present conflict.

The government, in dealing with labor and trade unions

have consistently ignored labor's rights to be equally represented with the employees on these boards and committees so as the voice of labor can be heard and justice done in dealing with the workers.

Orders-in-Council effecting labor's rights to organize to be heard or seek fair adjustment of working conditions by strikes if necessary have been passed and acted upon with Parliamentary approval.

P.C. 9384 is a particularly vicious order which without reference to Parliament or approval, takes away Labor's inadequate representation of the War Labor Board by constituting a board of six members (employers) and one employee, any three of which, together with the one who, may be absent, decide questions vital to Labor.

The whole purpose and trend of this order is the labor's hands and prevent, under dire threats and penalties, any action being taken to modify or adjust orders issued by the Board no matter how unfair or unjust they may be.

A trade license has been granted by the city to J. Van Wallegham for collecting bottles and a temporary license for a six months' period to J. V. Brietzke for shoe repairing.

MIDLANDS

Private Jack Waghorn of Cobourg has been killed in action in Italy. He was born and educated in Cobourg and went overseas in 1942. Twenty-four years of age, he was a member of the Hastings and Prince Edward Regiment.

Officers of the newly-formed Kiwanis Club in Cobourg were installed recently. W. H. McGuire is the president with Morris Daignault as vice-president.

An application from George Van Koughnet for a license to operate a dance hall on Fifth Avenue has been referred by the civic licensing committee to the City Engineer to ascertain whether the building was suitable for such occupancy.
