To the Health Seeker

Perhaps, a "Belief" exists that "everything has been tried and, failed"? Has "faith" subsided to the low ebb of accepting as a fact, the belief that a disease is incurable? Meanwhile, a vague misgiving persists that: Somehow, somewhere there must be an answer to incurability.

Chiropractically, the greatest handicap to health restoration is: So many cherish a traditional faith or belief to the bitter end. Meantime, a simple disease descends into an indefinite and complicated realm of incur-ABILITY. Thus faith and belief hinders, and denies, the natural self-curABILITY within themselves the rightful duty to remedy (meaning: to cure again).

Such statements, of disease, special or general are verified by an exhaustive survey. Over 93.000 persons turned, when disillusioned and disappointed, to Chiropractic (Nature) as a LAST resort.

Some 410 qualified Chiropractors raised no question as to the merits of faith, belief or, the competency of any remedy, to cure again. Nature had preordained that everything was incorporated within. Nature's OWN Remedy substituted incur-ABILITY for cure or marked improvement in 79,000 cases; or, 85% of tiresome, intangible disease names.

A critical reader may question this astonishing record. For the needy there are two basic considerations: The belief that a condition is obstinately incurable as, against the Chiropractic record with thousands of varied, incurable cases. Both cannot be right.

When faith and belief fails to move mountains, Mahomet must go to the mountain. Possibly, the earnest Health Seeker discerns, by the mountainous record, that everything has not been tried; that, high odds yet remain in his favor.

As Mahomet would resolve: If Chiropractic eventually, why not . . . NOW!

"Waste Not - Want Not"

Every scrap of food saved is a step toward the home-front victory

Grandmother used to say "wilful waste makes woeful want." Today we say "Buy wisely; cook correctly; eat it up." Right now when we need so much food for our armed forces, our Allies and the Red Cross, it's up to us not to waste a 'kitchen police" duties is to use up scraps of food in attractive dishes.

Those teaspoons of left-over vegetables, vegetable water, meat, and dried ends of bread can be made into a tasty meat loaf. Serve it hot for supper-then slice the leavings for the sandwich box carried by your family war worker.

In the panel you'll find a honey of a left-over meat dish, called 'Western Ranch Meat Loaf' because those hardy western men of our land swear by it.
