The "Military Idiots" ...

It is not a great many months since Adolf Hitler was complaining that he really did not have enemies who were smart enough to test his skill. It was in his Berlin address of September 30, 1942, that he declared: "If I had an opponent of adequate scope-of real military size-then I could actually calculate approximately where he would attack. But if one Thas before one military idiots, in such a case one cannot even guess where they will attack."

In the 15 months since that cocksure boast was made the "military idiots" have driven Hitler's armies pell-mell across hundreds of miles of Russian soil; they have chased his troops from one end of North Africa to the other; they have conquered Sicily, effected a landing in Italy, occupied Naples, threatened Rome and captured airfields, which are now being used to bomb the Balkans; they have pounded many of Germany's greatest cities into rub- OUARTERS ble, and they have forced Hitler to admit, in his latest New Year's Day proclamation to his people: "The OF WRENS New Year's Day proclamation to his property of More reverses." Not FEMININE

Here is another case of one of Hitler's famous bits of bombast coming home to roost. It cannot help the morale of the German people for them to be driven by their own leader to one or the other of two conclusions: Either that Hitler didn't know what he was talking about, at the height of his power fifteen months ago, or that his own generalship is so poor that "military idots" can outwit, outmanoeuver and life of a Canadian wren serv- Warren of Hamilton and Ottawa the Canadian and American Peter represented those of the rules and the other half under outslug him.

Naval Radio Broadcast On Sunday Here

A radio broadcast of interest to Naval personnel as well as music lovers will be made by Radio Station CFPR tomorrow at two o'clock when a rebroadcast of the first performance of "Convoy" will be given.

Opening with a theme which is heard repeatedly throughout the composition is a melody which might be termed a sea chanty. This is followed by quieter passage in which the strings play a prominent which contribute to the "salty" atmosphere which pervades the whole composition.

The close of the work is indicated by an intermingling o sound indicative of the emotion of the crew over the "Sale and imely arrival of the convoy."

Sensational Novel "Happy Land" Is Brought to Screen Here

A picturization of MacKinlay Kantor's sensational best-seller. "Happy Land," is coming Monday and Tuesday to the Capitol Theatre.

"Happy Land" deals with the effect of the war on one family in a typically American community. It is the story of the Marsh family-of Lew Marsh, in whose friendly drugstore a town's life and drama is played; of Agnes, his wife, whose courage conquered the cruelest thing that ever could happen to a woman; of "Gramp" Marsh who was destined to change people's lives, even if he had to change worlds to do sit; of 'Rusty' Marsh whose growing to manhood is the essence of the American story; and of Lenore Prentiss who made herself over into the image and likeness of the girl of "Rusty's" dreams.

"Happy Land" is as typically American as a soda at the corner drugstore.
