E. L. Mainguy. Canada acquired the Uganda from the British Navy, and the Ontario now is being built at Belfast Two aircraft carriers will also be sent if arrangements can be made for their acquisition.

LONDON-Allied warplanes have resumed their daylight pounding of Germany. According to the Nazi radio, Allied bombers converged on the Reich this morning from two directions. By enemy account, one bomber formation roared in from the south-presumably from Italian bases-while another armada of Allied planes swept in over northwestern Germany. Berlin said one of the targets was the great seaport of Hamburg-Germany's second largest city. The World's Food . . .

The world food situation has reached a most critical state. The armed forces of Britain and America have reached their peak. They have to be fed. More Allied armies are being formed in the liberated countries. They have to be fed. More and more liberated peoples are also having to be fed. World food production is stretched to the limit and the demands keep on piling up. Already 100 million more people are depending on the United Nations for food, as a result of liberation. There will be millions more. For the greater the Allied military successes, the greater the problem grows.

The present British meat situation, serious as it is, is only a part of the over-all food problem. Britain has already made a very substantial contribution to easing the Continental food shortage. Present food stocks in the U.K. as the Prime Minister told the House of Commons, have fallen to below six million tons. This was his answer to the rumor that they total 700 million tons. The Prime Minister added that shipments to liberated countries would reduce them to 4,750,000 tons by the end of June.

Practically all of the stocks that were built up, by careful planning and a considerable amount of belt-tightening, against emergencies were quickly released for use elsewhere as soon as the risk of U-boats and bombing became less. Great quantities have been handed over to General Eisenhower for distribution wherever needed on the Continent. Britain has also cut her imports of food, thus freeing both ships and supplies for others. British stocks firmly held.

Team from Boundary Bay for Northwest Service Command Contest

A Royal Canadian Air Force boxing team from Boundary Bay, Vancouver, with Flying Officer Foy as officer in charge, and 12 participants, arrived in Prince Rupert early today to participate in the Northwest Service Command boxing tournament.

Four additional entries to the tournament have been accepted. These include Barry Watson and Jim McDougall of the Kinsmen's Club, Arcangelletti and McRae of the Coast Artillery Regiment and Luck of the Soo Suds. Because of unforeseen circumstances, Wells of the Soo Suds team has withdrawn from the tournament.

Fred Lowe of the United States Coastguard has been appointed as an additional referee.
