Berlin and Hamburg have fallen. The Fuehrer is dead. Much of Germany is occupied. The Nazi war machine has fallen apart. The war cannot last long in Europe now.

After more than five years of it, we all find it rather hard to believe that such world-shaking events could actually be happening. It has all occurred with such lightning-like rapidity that we are dazed—almost unbelieving.

We find it difficult to picture the shambles of the Reich capital with the Red Flag flying over the chancellory.

With Berlin gone so, of course, is the heart and spirit of the Reich. It is only a matter of mopping up now and little in the way of further resistance is to be anticipated. It would be purposeless and completely futile.

So Victory in Europe is already here in full flush. All that is awaited is the official proclamation which we would imagine should come any hour

You Can't Escape the Challenge of His Eyes

And that same challenging look is in the eyes of thousands and thousands of young men who know the fury, the suffering, and the sacrifice of war.

These men of Canada . . . pilots, navigators, bombardiers, gunners and ground crew . . . have written the initials "R.C.A.F." indelibly across the pages of history.

But they are first to admit they are only part of a winning team. There's the Navy . . . the Army . . . the women in all services.

And to hasten final victory, that team needs the help of every man and woman at home to provide and build the weapons of war.

That is why he is looking to you to continue to help... by investing to your utmost in Victory Bonds.

First they keep the soil well cultivated, both to keep weeds eliminated and also to conserve moisture and encourage quick development in dry weather They thin those vegetables which need spacing in order that there is proper, even and speedy development. They harvest vegetables when they are at their best, just the right size for eating and before they start to harden and mature.

But that is not all. They keep a fresh supply coming on all through the season by making plantings 10 days to two weeks apart right up to the first of July. It is the greatest mistake, old gardeners point out, to sow all seed on a single afternoon Carrots, beans, beets and many other vegetables can be planted over a period of from three weeks to eight weeks in almost every part of Canada. If strung out in this ways the harvest is extended equally at the other end. To extend the season still further one can use early, medium and late varieties. Nowadays a few days of feasting on fresh peas is not enough. One can sunlight there is available there, Prince Rupert Roofing Co. for have that sort of luxury for a sun lamp has been installed in the Johns-Manville Co. W. H. weeks on end.

Flowers

An amazing showing can be made with a few annual flowers and with very little effort. Cosmos, giant marigolds, zinnias, petunias, portculaca, nicotine, alyssum, are easily grown almost anywhere in Canada. Some of the larger plowers like cosmos and marigolds and nicotine can actually be used in place shrubs. Seeds should be started early and in finely prepared soil Plants are transplanted to permanent quarters when they are well established with several sets of leaves. Some time can be saved by buying ready started bedding plants. For husky growth, tall cosmos, gladiolius, dahlias, giant marigolds and zinnias should have about two feet each way. Petunias, nasturtiams, medium marigolds, need about a foot apart for best results - smaller things like alyssum require six inches each way.

Old Ed doesn't say much, but when he does it's short and to the point. "Sacrifice!" he snorts when you talk about Victory Loans. "It's no sacrifice to buy Victory Bonds. I got two grandsons over there in the muck and mud. They're doing the sacrificing. As far as I can see it's a privilege and a bounden duty to help them."
