REVISION OF HALIBUT TREATY CONSIDERED BY COMMISSION

Revision of the International Pacific Halibut Treaty to make it a more effective instrument for the protection of the fishery and economic welfare of the halibut fishermen is the subject of a memorandum just issued by the International Fisheries Commission. The commission has reviewed the various requests by members of the various halibut fleets for extension of the Commission's authority under the treaty and finds that they would involve treaty changes to provide particularly for:

Molotov Heard

Speeches of Japanese Control and Secret of Atom Bomb. LONDON, Nov. 6.—Foreign Minister Molotov said in a broadcast today on the anniversary of the revolution that protracted control over Japan "has not yet been definitely solved... we are confident that peace-loving countries will certainly win a way out."

Telephone Superintendent Heard

Telephone Superintendent Sam... had informed him that military telephone equipment in the city is not suitable for general use on the city extension. Alderman T. B. Black of the council last night when the matter came up during discussion of the utilities committee.

Norton Youngs Candidate

Norton Youngs, manager of Spott-Evitt Ltd. and local representative of the provincial department of Mines, threw his hat in the aldermanic ring for the civic election next month.

Bulletins

ATLIN IS COALITION. VANCOUVER — The coalition government's majority in the B.C. Legislature was increased to 37 today with the election of W. D. Smith in the Atlin on the basis of a civilian vote—the count 288 for Smith and 281 for Cunningham, C.C.F. The coalition has won 37 seats, C.C.F. 10, and Independent Labor, one.

VICTORY LOAN TOTAL. OTTAWA — The national total in the Ninth Victory Loan hit \$1,199,296,000 today as the B.C.-Yukon unit became the first in the Dominion to go over the top.

FATAL VANCOUVER FIRE. VANCOUVER — Mrs. Ronald Anderson was burned to death and two men and another woman were also burned when fire destroyed a rooming house today. The rooming house caught fire when gas overflowing from a truck which was being filled caught fire.

COLD IN ALBERTA. EDMONTON — The temperature plunged to 20 below today Calgary recorded 14 below and Lethbridge ten below.

JEROME KERN VERY ILL. NEW YORK — Jerome Kern, famous composer, is critically ill after a cerebral hemorrhage.

Gen. Wainwright Not To Visit Vancouver. VANCOUVER, Nov. 6.—General Jonathan Wainwright, hero of the Philippines, will be unable to visit Vancouver as planned because of the illness of Mrs. Wainwright. He was to have been here on November 25.

HERMOMETER ITS LOW FOR THREE YEARS. Prince Rupert's Weather Man... has been suspected of being highly character, but his accuracy last night branded him as highly unpredictable. He pulled the bottom out of the thermometer letting the temperature drop to 21 degrees, the lowest recorded temperature since January 19, 1943.

Householders cast an anxious look at their waterpipes, wondering if they would freeze, then thought of the transportation equipment which will stop arrival of supplies from the interior at the end of the week. Weather forecast, however, states that warmer temperatures can be looked for on Wednesday. Highest temperature yesterday 36 degrees.

Windsor Strike Looking Better

Armistice With Italy

Terms Are Finally Disclosed After Long Delay—Took Complete Control

WASHINGTON, D.C., Nov. 6.—The Allies made public today the much-discussed Italian armistice, spiking some of the old rumors but failing to clear up entirely why the terms were kept secret for 26 months. The armistice discloses exhaustive unconditional surrender terms, officially still in effect and recently described by Secretary of State Byrnes as "harsh and obsolete," which were imposed on Italy. In practice, however, the Allies never invoked some provisions and modified others substantially at frequent intervals. The terms provided for no final disposition of Italian territory or property. United States government officials explained the secrecy on the armistice was due to belief that German and Italian Fascists could make propaganda use of the terms. Officials stressed that the provisions were still in effect but will be superseded entirely by the final peace treaty with Italy.

KEEP THEM INFORMED

Industrialists Should Be Constantly Contacted Regarding Possibilities Here

Importance of constant contact being maintained with the industrial department of important concerns such as railway, banks and power companies was emphasized in a letter from W. L. Burnie, industrial manager of the Power Corporation of Canada, which J. J. Little read at last night's regular monthly meeting of the Prince Rupert Chamber of Commerce. Opportunities for profitable development of resources of the area should always be kept to the fore. The letter from Mr. Burnie was referred to the local publicity council. Mr. Little also spoke of the "wonderful contacts" which had been made on a visit to Montreal of the community delegation which recently went east from here. "A great deal of benefit might well accrue to Prince Rupert as a result of the sending of the delegation, particularly if there is follow-up activity," said Mr. Little.

FROM HONG KONG—Sgt. Major Frank Logan of Winnipeg who has been a prisoner of war at Hong Kong where he served with the Winnipeg Grenadiers. He is expected here shortly to visit with his wife's parents, Mr. and Mrs. Charles Ashbury, Hays Cove Ave.

JAPANESE RESOLUTION DEFEATED

Alderman T. B. Black, who in his short term of office has achieved some prominence as an introducer of resolutions, last night brought one before Council which was received with a notable lack of warmth. In fact, it was defeated.

Alderman Black's resolution urged council to notify the Federal government "that it does not favor the return of Japanese nationals or those of Japanese origin to the coast region." It was opposed solidly by Aldermen Rudderham, Brett, Hills and Sinclair. "I thought the time for red herrings was past," Alderman Rudderham snorted. "You're bringing that up just to catch votes. The Federal government will dispose of that problem and we won't have any say in it." "I'm bringing it up in good faith because I don't want to see the Japs brought back to the coast," Alderman Black replied. Alderman McKay was the lone supporter of the motion. Aldermen Arnold and Sorensen were absent.

Important Conference With Labor Minister; City Council Warning

WINDSOR, Nov. 6 (CP)—Tension in the strike in the twenty-eight-day automotive strike eased today following a conference of Federal Labor Minister Humphrey Mitchell with Attorney-General Leslie Blackwell of Ontario, the policy committee of the United Automobile Workers of America (C.I.O.) and the Windsor city council. "It was an exceptionally good meeting," Mr. Mitchell said.

Meanwhile there was no immediate reaction by the union to a warning issued by the city council that failure to remove barricade of automobiles leading to the Ford plant might bring the use of military force to clear it away.

FIVE TOWNS FAVOR UNION

Prince Rupert's move to organize a Union of Northern B.C. Municipalities has met favorable reaction from five northern towns. At City Council meeting last night City Clerk H. D. Thain read letters from Stewart, Smithers, Terrace and Prince George which indicated that authorities there were in favor of such an organization. Purpose of the organization would be to give regional backing to motions presented by northern delegates to the conventions of the Union of B.C. Municipalities. Strongly in favor of the idea, Council however, tabled it for action by next year's council.

HIGHWAY UP AGAIN

Whether the attitude in approaching the public works department with a view to having a permanent and effective policy of maintenance of the Prince Rupert Highway established should be one of outright demand or diplomatic persuasion was a question of debate last night at the regular monthly meeting of the Prince Rupert Chamber of Commerce.

PROWLER ROBS WELCOME HUT

Forceful entry and robbery of the Welcome Hut of the Women's Auxiliary to the Canadian Legion to welcome returning veterans is the latest addition to the series of mean and petty crimes which have been plaguing local citizens lately. The incident was discovered by Mrs. M. Rothwell when she arrived to open the hut on the C.N.R. wharf to receive servicemen from the Princess Adelaide Monday afternoon.

REC COUNCIL "SATISFACTORY"

The program of the Prince Rupert Recreational Council is making "satisfactory progress" Alderman George Hills told city council last night when a progress report of the Rec Council was presented to the meeting. Alderman Hills is the city's delegate to the Rec Council's finance committee.

AMERICANS GET THE NEWS

NAIROBI, Kenya. — News broadcasts in headlines are now given from the Nairobi broadcasting station in no fewer than seven different African vernaculars. This is in addition to the normal broadcasts to Africans in their own language.

INDONESIAN COMPROMISE

Plan Presented by Government But its Acceptance is Admittedly Doubtful

BATAVIA, Nov. 6.—The government of the Netherlands East Indies, trying to restore order in this land wrecked by a struggle for independence, made public today a plan for "rapid development of Indonesia as a partner in a kingdom which will be constructed to guarantee self-respect of all member peoples." The program was presented more than a week ago to Indonesian nationalist leaders. It was reported, urged Governor General Van Mook not to release the document, fearing proposals, which are far short of their demands, would only increase the gulf between their people and the Dutch.

NOT HOPEFUL ABOUT ROAD

Terrace Man Fears That It May Be Closed All Winter—Many Slides Between Remo and Shames

Although he believes that present obstructions could be eliminated in a matter of ten days or so if there was the proper organization and equipment to do the work, Gordon L. Brookes of Skeena Motor Transport fears that the Prince Rupert Highway between here and Terrace may be closed for the rest of the winter as a result of washouts and slides which resulted at the end of the week from the heavy rains. He admits, however, that snow and other conditions might make it difficult to keep the road open under existing set-up.

Mr. Brookes, who is in the city with his wife for a brief business visit, reports that there are at least a dozen washouts on the road between Shames and Remo. Some of them are twelve or fifteen feet wide and as deep. There are also bad washouts on the Tye Hill between Tye and the Summit on this side.

Mr. and Mrs. Brookes got through as far as Tye last Friday before the washouts late that day and came on here yesterday on a work train. They hope to get back to Terrace tomorrow by work train.

Temperature

Table with temperature information. Columns: Maximum, Minimum.

AUSTRALIAN CAR MARKET. CANBERRA, —The Secondary Industries Commission, investigating the possibility of making cars in Australia, says there are no technical difficulties. But the main question is whether there are sufficient people in Australia to enable mass production at an attractive price.

CANADA'S FORESTS. The forest area of Canada is 1,220,405 square miles.

Council Names Revision Court

Aldermen Brett and McKay were appointed last night by city council to sit on the civic court of revision with Mayor H. M. Daggett. The court will sit on November 15 to make final revision of the 1945 civic voters' list.

CLEARING UP RAILWAY LINE

Encouraging progress is being made by 250 men and all available equipment in clearing no less than 30 washouts on the railway line between Pacific and Kwinitsa, Superintendent C. A. Berner said last night after receiving reports on the day's work. "I am very hopeful that the line will be cleared and traffic restored by Friday," Mr. Berner reiterated. The worst washout, the superintendent said, was just west of Pacific. The crews are working night and day on clearing the line. The arrival of clear and cold weather is facilitating the work.

Local Train to Shames Tomorrow

Tomorrow morning Canadian National Railway will send east its first train since Friday night, but it won't make any transcontinental connections. The train, with box cars and a passenger coach, will go as far as Shames where a slide obstructs further passage. It will carry passengers and baggage to local stations along the line, returning to Prince Rupert Thursday. It leaves Prince Rupert at 8:30 tomorrow morning. The regular way freight will leave Friday morning and, if the slide is not cleared by that time it will also go only as far as Shames, returning Saturday.

VANCOUVER IS MUCH WORRIED

More Alarmed About Isolation Situation Than We Are Ourselves

Considerable concern has, apparently, developed in Vancouver over the plight of Prince Rupert as a result of the interruption of traffic over the local line of the Canadian National Railways due to washouts at the end of the week. No less than three long distance calls were received at the Daily News office yesterday from Vancouver newspapers and the Canadian Press seeking the latest news on the situation here. One of the inquiries was if it was considered necessary to fly emergency supplies into Prince Rupert.

Adj. Gorrie Is Ministerial Head

Prince Rupert Ministerial Association, at its annual meeting Monday afternoon, elected Adjutant P. L. Gorrie, Salvation Army commandant, to be its new president and re-elected Rev. A. F. MacSween as secretary-treasurer. The meeting was held in First Presbyterian Church rooms with pastors of the Protestant denominations represented.

The Ministerial Association has taken responsibility for conducting the interdenominational Sunday school classes held in the East End Hall and appointed Adjutant Gorrie, Rev. R. A. Wilson of First United Church, and Rev. Gordon Smith of St. Peter's, Seal Cove, as committee in charge of the Sunday school. Leaders of the Sunday school are volunteer workers, drawn from the congregations of several churches.

**The Halibut Fishery . . .**

Since a matter of vital importance to Prince Rupert is involved, it is gratifying to learn that the International Fisheries Commission is seriously considering proposals for new regulations to meet the situation arising out of more intensive halibut fishing operation in the face of continued conservation measures. Prince Rupert has long suffered because of the increasing shortness of the fishing season in Area No. 2 where our smaller boats operate exclusively and have to share the fish with the larger boats which, when Area No. 2 quota is exhausted, can move on to Area No. 3. Now the season in Area No. 3 is also becoming uncomfortably short. In fact, the situation is becoming such that, if something is not done, the halibut fishing season will be so short and so intensive that it will be hardly worth anyone's while.

The International Fisheries Commission, which it must be admitted has through the years since its inception done a splendid job in building up the fishery, which would have long since become extinct from the physical standpoint, now has another difficult problem of different kind on its hands. Naturally, it must still be primarily interested in the conservation of the fishery but it has also

to frame regulations to meet a new economic aspect in the fishery.

Prince Rupert will be particularly interested in seeing that this port and its halibut fleet is adequately protected in any new regulations which may be devised.

**Future Warfare . . .**

Experience probably will dictate a compromise between those who think the atom bomb omnipotent and those who still think in terms of massed armies. When Mr. Truman asks whether Britain or Germany would have been wiped out had both possessed the atom bomb during the 1940 London blitz, he seems to answer that it would have been Britain, because the Germans possessed the air strength for cross-channel bombing.

But so did the British. And they had radar, probably in a more advanced stage than the Germans. The atom experts would simply say that neither country's ordinary military forces would have saved it—if the other had attacked without warning. They would add that the bombs could be shot by rockets or carried in in suitcases.

It would be foolish to assume that there is now no need of military forces. But it is no less foolish to assume that the business of war is going to be carried on in the same old way. Defense that shortens by only a year its time for readiness is not good enough. And military leaders must not act as if they had or were soon likely to find a military defense against atom bombing.

We still say that a factor deserving more urgent attention is the development of effective international controls—a defense against the common enemy, war.

**THIS AND THAT**

"Want any help, dear?"

**What City Council Did**

Council adopted a recommendation by the board of works that the city pay half the cost of rebuilding 50 feet of concrete sidewalk on Third Ave. at the front of Lot 4, Block 34, Section 1, at a cost of approximately \$150. The location is on Third Ave. near the Capitol Theatre.

Finance committee reported the sale of Lots 3 and 4, Block 19, Section 1, to Home Oil Distributors Ltd. for \$1,250. The property is at present occupied by a vacant United States warehouse.

A recommendation by the board of works that an asphalt sprayer be bought from the reserve trust fund account at an estimated cost of \$2,193 was adopted by council.

Licensing committee reported that the following license applications have been granted: Walter Cashmark, wood fuel dealer; D. S. McWhinney, electrical contracting; Roy Bouchard, taxi operator; Sam Marsh, taxi operator; G. E. Armstrong, taxi operator; P. Mazzei, taxi operator; Kathleen Davis, taxi operator; John Gurvich, bus operator; C. McIntyre, bus operator.

Council approved the action of the finance committee in making payment of September accounts totalling \$54,523.39 and in purchasing a \$100 Prince Rupert bond at \$102 and accrued interest.

Finance committee reported that an option for one year had

been granted to Fraser and Payne to purchase Lots 1 and 2, Block 31A, Section 1, a site on Third Ave. near Eighth St., for \$3950. Option cost was set at \$395.

Council adopted recommendations by the finance committee in which it asked that council concur in the action of the finance committee in purchasing \$28,000 in Ninth Victory Loan Bonds for the sinking fund account.

Police committee reported that the matter of Halloween disturbances has been discussed with Sgt. O. L. Hall of the city police and that the department is continuing its investigation.

Water pressures throughout the city are being checked by Fire Chief H. T. Lock and the city engineer is being advised of pressure conditions, utilities committee reported to council last night.

Utilities committee reported that a petition for installation of street lights on Eleventh Ave. near the military hospital barracks and on Sherbrooke Ave. near Brett Ave. is being investigated. Alderman Black recommended that the matter be referred to the Northern B. C. Power Co.

**UNJUSTIFIED HATRED**  
Although owls rarely if ever kill a bluejay, bluejays detest owls so greatly that they will attack a stuffed owl for hours.

**Lt Mary McCaffery Is Returning Home**

Lieut. Mary McCaffery, well known local girl, who recently arrived in New York after serving two years in France as an American Army nursing sister, is due to arrive in Vancouver this week and will be met by her mother, Mrs. M. P. McCaffery, who is leaving for Vancouver Thursday night on the Prince Rupert. Lieut. McCaffery, who flew from New York to San Francisco last week, is expecting discharge from the army and will return with her mother to Prince Rupert shortly.

**AUTUMN BEAUTIES**

To travel through Northern British Columbia in the fall of the year is a delightful experience which will paint pictures to be stored in memories album never to be erased.

As the road dips and climbs, turns and twists—so the view constantly changes and although one may pass through this district extending several hundreds of miles east from the coast many times, each succeeding trip becomes the more interesting and more enthralling. When autumn spills her paints with mountains, valleys and streams her palette and the sky-line like a studio back drop—deep blue and white, the eye becomes enchanted. Should a turn in the road or the climbing of a height of land unfold to the eye the still waters of one of the innumerable lakes, then, in deed, is a true landscape in technicolor. Be warned, however, you who would say: "Yes let's take a trip!" You cannot view Nature's artistic handiwork of a hasty thirty-mile-an-hour trip but must be prepared, like the true art lover, to dwell before each picture drinking in its grandeur, or sylvan loveliness.

Nature's art show is never ending but the serene and yellow time of year is when she hangs her choicest works, her galleries the skies. In the mountains and the woods all may walk in ecstasy—rich man and poor for the artist takes no toll, nor are her works for sale. None may barter them for silver but all share in the abundance, perchance saddened somewhat—knowing these gems of color will fade and pass but again consoled in the assurance that next autumn and every autumn forever—Nature's art galleries will open—to ail.

Nature, like a true showman, makes use of every trick—every

artifice—sound effects, the roar and splash of water, the sigh and rustle of trees, the grouse's drum, the owl's hoot, the smell of odorous pine, cedar and spruce, camp-fire smoke, the damp cool breeze of canyon stream, the still warmth of the open glade, the welcome cool of the silent woods. The winds play an aeolian orchestration, the dry timbers their harp, cathedral-like base notes, the sighing of a passing spirit—or the ululating roar of crowds. The stream chuckles like an elfin jester. Who is poor when all these we have, save he who cannot appreciate, or they who do not know the highways and byways of British Columbia? —H.P.

During a newspaper delivery strike in New York, people lined up for 17 blocks to buy their daily newspaper at the printing plant.

**MRS. BRASS IS HONORED**

Presentation Last Night by Queen Mary Chapter to Esteemed and Active Officer

Presentation of a beautiful wall mirror to Mrs. William Brass long an esteemed and active member of Municipal Chapter, Imperial Order, Daughters of the Empire, was made at the monthly meeting of the chapter held last night at the home of Mrs. D. Orchard McLeod, Leeds Apartments. Mrs. Brass, who resigned as Echoes Secretary, was officially farewelled by the regent Mrs. D. C. Stuart, who expressed the regret that all felt at the loss of such a valued member. Mrs. Brass will be leaving Prince Rupert shortly.

Business at the meeting included the presentation of an interesting and detailed report from the provincial delegate who attended the forty-fifth annual meeting of the national chapter.

I. M. MacKinnon, regional supply manager of War Assets Corporation at Prince Rupert, will be the speaker tomorrow at the weekly luncheon of the Prince Rupert Gyro Club.

**HOW CAN I ???**  
By ANNE ASHLEY

Q. How can I get best results when baking cakes?  
A. If too much flour is used in a cake it will crack on top. It will often rise over the top of the pan and be of very coarse texture if put in too slow an oven. If put in too hot an oven it will brown on top before it has risen sufficiently.

Q. How can I prevent a burning sensation on the feet caused by being too dry and harsh-skinned?  
A. A good remedy is to rub them thoroughly with olive oil, massaging it well into the pores.

Q. How can I clean mother of pearl articles?  
A. Do not use soap to clean mother of pearl articles. They should be cleaned with whiting and cold water.

*New drapes... three new prints... a pint of paint... and a stunning New Rug*

If you'd seen the room you would have been pretty dismayed, too!... the colors were nice... and the furniture was in pretty fair shape... but somehow it just didn't look right!

"First thing we do," I said to Jim, "is to get new drapes for the window. Then we'll put up the prints your Aunt Sue gave us..."

In no time at all the room started to take shape... but there was still something important missing!

"It's the floor," said Jim. "The room will never look right with a floor like that." "Don't be so sure," I said. "I've got just the idea for the perfect floor—and it's inexpensive, too! ... a Gold Seal Congoleum Rug." We got one the very next day. It will last years, too. The extra deep and durable wearing layer of heat-toughened paint and baked enamel is actually equal in thickness to 8 coats of best floor paint, applied by hand! It's smooth, easy to clean, and comfortable underfoot. Who could ask for more?

**EIGHT-HOUR DAY EFFECTIVE**

PRINCE GEORGE, Nov. 6.—Reduction of the working day to eight hours in the lumbering industry east of the Cascade mountains has become officially effective but its real effect will not become apparent until next spring. For the past several weeks operators have automatically adjusted themselves to the lessening daylight while others have acted on a decision of the Board of Industrial Relations. Following hearings of the Industrial Relations Board last September the board brought into effect regulations, as of November 1, eliminating the 54-hour working week in the lumbering industry.

LONDON, (P)—A member of the hosiery trade has said there is no hope of nylon stockings being made in Britain before Easter. Fully fashioned nylons will probably cost four coupons against the present rate of three.

**TO CLEAN ALUMINUM**  
The easiest and best way to clean aluminum cooking utensils is with a mild soap and steel wool.

**SMITHERS**

A crew of workers for the Government Telegraph Service has been in the district for the last few weeks rebuilding the telephone line from Smithers to Hazelton. The new line has improved the service much to the appreciation of local residents.

Snow from four to 10 inches deep is blanketing the Smithers district. Winter sports enthusiasts are hoping for a continued cold snap so that an early start can be made on skating, curling and skiing. Lowest recorded temperature at Smithers was eight degrees above zero.

A meeting of the Smithers Retail Merchants' Association decided to close their stores at 6 o'clock on Saturday evening during the months of January, February and March. Members turned down a suggestion that the Saturday 6 o'clock closing become effective immediately but this was dropped when it was pointed out that pre-Christmas shopping was just beginning which made early closing on Saturday night unsuitable.

**Agriculturalist Going to Ontario**

PRINCE GEORGE, Nov. 6.—District Agriculturalist J. E. Manning has left for Victoria in connection with boys' and girls' agricultural club affairs which will occupy three weeks before he proceeds to Toronto with four teams from B.C. entering in the national junior livestock judging competition.

**EARLY NEWS IS WELCOME**

Local news items, to ensure publication, should be in the office by 10 a.m. Contributors are asked to bear this in mind. Items of social and personal interest are always welcome.

**FALL BULBS ARE EASILY GROWN—READILY FLOWER WITHIN WINDOW**

Home gardeners who enjoy the experience of growing plants are well equipped to follow the modern fashion of window gardening. A great variety of flowers may be forced into bloom indoors with little trouble. Arranged on shelves or in a window box near

out drainage all the above, together with daffodils, early tulips, crocuses, freesias calla lilies, grape hyacinths and scillas. In pots with soil all the above can be grown, together with all garden tulips and narcissi, amaryllis and hyacinths.

From this list one may select a pleasing assortment of colors and shapes, to decorate the winter garden. By starting bulbs in succession, a bowl or pot may be replaced as soon as its flowers fade and a continuous display maintained throughout the season.

**Modern Etiquette**  
By ROBERTA LEE

Q. When giving an informal dinner, is it necessary for an unmarried woman or widow to ask one of her men guests to act as host?

A. It is not necessary, but she may ask some man whom she knows well to lead the way to the dining room with the woman guest of honor.

Q. How long before the wedding takes place should the ushers arrive at the church?

A. They should arrive at the church about an hour before the ceremony.  
Q. When seated next to a stranger at a banquet, or a large dinner, may a woman introduce herself?

A. Yes; merely say, "I am Mrs. Charles Blank."

**DAILY NEWS HONOR ROLL**

Your Assistance Invited

The Daily News is completing a Roll of Honor which is hoped may contain the name of every man and woman of this city to serve with the armed forces at sea, on land and in the air. To make this list complete, it is essential to obtain the co-operation of the public as a whole in submitting the names.

It is impossible for the Daily News or any one person to compile the list complete so we are asking YOU to be responsible for the submission of the name of YOUR boy, YOUR girl or YOUR friend.

The following is the information we would like you to fill in and send to—

ROLL OF HONOR EDITOR  
Daily News,  
Prince Rupert

Name .....

Service (Army, Navy, Air Force) .....

Rank .....

Next of Kin .....

Relation .....

Address .....

Date of Enlistment .....

Date of Discharge .....

If Casualty, Nature and Date .....

Remember, if YOU do not submit a certain person's name, no one else may. You are responsible.

ADVERTISE IN THE DAILY NEWS FOR BEST RESULTS

HERE IS THE "LILY," BRITISH PORTABLE SEADROME — Just released from the British secret list is the "Lily," portable seadrome invented by R. M. Hamilton, who was a Royal Navy petty officer at the start of the war. It consists of a number of buoyancy cans with hexagonal surfaces, so linked together that they can give in a controlled manner, to the motion of the sea from any direction, and yet remain sufficiently rigid to take the weight of heavy aircraft. A Swordfish (above) lands on the "Lily" leaving a depression on the surface. The "Lily" undulates with the waves (lower photo) as a motor launch passes at high speed.

concentration of fishing by a larger fleet could ultimately bring about the landing of halibut at rates in excess of 30,000,000 pounds per month while both areas are open and of 10,000,000 pounds monthly when Area 3 alone is open.

**Effect of Short Season**  
The shortened season of fishing, particularly in Area 2, has already reached the stage where it interferes with the attainment of the protective and conservational objectives of the present treaty which imply securing the maximum yield from the stocks of halibut.

vision for its possible use in the future may be advisable.

The other proposal is the adoption of a system of control over the fishing operations of vessels similar to that employed by the fleets themselves from 1933 to 1943. The fleets had reasonable success with their program but abandoned it during the war. The experience of the fishermen has shown that the method provides a practical way of extending the season in the interest of better utilization and maximum yield.

The system of control, employed by the fishermen and vessel owners, consisted of the application of tie-up periods between trips and limits upon the amount of fish that could be landed per man per trip. It provided for adjustment of tie-up periods to compensate for trip-limit overages and shortages and for other factors. Its only significant weakness was the inability of the fleets to provide effective and uniform enforcement on all parts of the coast.

At different times between 1933 and 1938, various sections of the fleets petitioned the Commission to provide needed legal support for enforcement of their voluntary program. In 1938, when the fleets were unanimously in favor of such action, the commission submitted to the two governments a supplementary treaty which would give it the required authority.

The commission was reluctant to assume for solely economic purposes the responsibilities of such additional powers and only acted in 1938 because of the strong and unanimous demands of the fleet. It is not hesitant about requesting and, if secured, applying the same powers in the interest of better utilization of the halibut stocks. The commission was established for this purpose.

Because of the administrative and enforcement problems involved, the commission would not undertake to put into effect such a comprehensive program of control as was applied by the fleets, unless that program had the general support of the fleets and unless the enforcement facilities required to assure the equitable application of the program were available. However, if the fleets failed to support a comprehensive program, or enforcement facilities for its application were inadequate, the commission would be prepared to apply tie-up periods between trips to prevent a complete breakdown of control in any season.

**Control of Halibut In Other Fisheries**  
The terms of the present treaty authorize the commission to permit, limit or prohibit in any area closed to halibut fishing the taking or retention of halibut caught incidentally while fishing for other species. Under this authority, the commission has allowed setline vessels to secure "permits" to retain and sell a limited amount of halibut caught incidentally during fishing for other species in areas closed to halibut fishing.

Developments in the halibut and associated fisheries has rendered this authority too restrictive. Broader powers are necessary to make possible the application of the "permit" principle to open as well as to closed areas and to give the commission more freedom in determining the amount of halibut that may be retained by vessels fishing for other species.

**THIS AND THAT**

"Darling, I brought your mother to spend a couple of weeks with us!"

**Application of Permit Principle**  
The great growth of the trawl fishery for flounders and other bottom species and the increased interest of this fishery in halibut have made control of the capture of halibut by vessels primarily fishing for other species an important problem.

Treaty changes are needed to provide for control of the capture of halibut by vessels fishing for other species in open as well as in closed areas and the commission is considering the opportunity of controlling the capture of halibut by vessels fishing for other species on the basis of merit rather than lack of authority.

It has been suggested that treaty changes should allow the designation of areas or parts of areas where the permit provisions would or would not apply.

As an indirect means of extending the season during which halibut is caught and landed in appreciable quantities, the commission has been urged to increase the amount of halibut that vessels, fishing primarily for other species in areas closed to regular halibut fishing, may land under "permit." This cannot be done under the present treaty which restricts the halibut that may be landed in conjunction with such fishing to those that are caught "incidentally."

The commission has examined this proposal and believes that it does not offer an effective solution of its present problems. Nevertheless, because of the time required to secure treaty changes and the unpredictability of future needs, it is considering the advisability of requesting a change in treaty wording which will give the commission greater freedom in deciding how much halibut may be landed under "permit."

**Enforcement Procedures**  
It has been found that enforcement procedures under the present treaty and penalties provided in the present enabling acts fail to compel compliance with present regulations. They would be totally inadequate for securing compliance with regulations extending the present permit system or governing any program designed to lengthen the fishing season. The commission is seriously

**ANCIENT ROCK PAINTING**  
GEORGETOWN, British Guiana. —On a rock face in the Mazuruni district of British Guiana, bordering Venezuela, are paintings in pigment, mostly of animals and hands. This discovery has aroused considerable interest in archaeological circles.

considering proposals that it request the governments to provide for the licensing of fishermen and dealers, as well as of vessels, and for the suspension and cancellation of licenses for violation of regulations issued under the halibut treaty.

**CLEANING UP OF GUNSITES**

The Prince Rupert Chamber of Commerce joined last night with the Junior Chamber of Commerce in urging the city council to seek from the military authorities restoration to their former natural beauty of points in various parts of the city which were used as gun sites during the war. At present these abandoned sites constitute "unsightly blots" on the landscape, the Junior Chamber's communication seeking endorsement of its proposal asserted.

Al Berner, C.N.R. superintendent, informed the chamber that he had been assured that, as far as the site in Totem Park was concerned, it would be restored to the condition in which it had been found before its war use.

There were other gun sites around the city which had been left in an unsightly condition, it was pointed out in discussion.

**AFRICANS GET THE NEWS BACKYARD DIVING**  
SYDNEY, N.S.—Wally Kirsop, 42, amateur diver, teaches young people the art of diving in the backyard of his home. Pupils are fitted in a safety belt and when they dive from the springboard, steel wires, connected to the belt and to pulleys, take the strain and allow them to land gradually in a sand pit.

Scientific studies reveal that among the best-read advertisements are those in comic strip form, those containing recipes, and these with a war message.

**Returning Service Personnel Records Are Being Sought**  
The Daily News is anxious to completely record the arrival of all service men and women returning home from the war. Accordingly, it is requested that information be made available to this office regarding the date of arrival home, the service with which the veteran has been identified, in what theatres of war, if wounded, ill, etc. If inconvenient to call at the office, the information may be written or telephoned in. Pictures would be particularly welcome. Street and Postal addresses and telephone numbers are also requested.

CANADIAN GIRLS WITH DUTCH EAST INDIES FORCE—Some of the feminine charm of British Columbia congregates in Australia preparatory to performing duties in Netherlands East Indies territory. Upholding their Dutch heritage, but ever conscious of Canadian birthplace, are (left to right) Cpl. Theresa van de Wint, Vancouver; Sgt. W. Vandenberg, Vancouver; Cpl. Kattie Staverman, Victoria; Cpl. Ann Beetstra, Vancouver, and Cpl. Alice van de Wirt, Vancouver. These girls joined the Women's Army of the Netherlands East Indies Forces when it formed up in Canada in 1944.

Chamber of Commerce Hears Report on Committee Activity

Representations which have been made by the radio committee recently with a view to further improving radio broadcasting service in city and district were reviewed in a report to the Prince Rupert Chamber of Commerce at last night's meeting on behalf of the committee by J. J. Little, one of its members.

A letter had been received from Hon. J. J. McCann, minister at Ottawa, under whom the matter of radio service comes. Improvements in radio service in central and northern British Columbia would receive full consideration, said Dr. McCann's letter.

Also read was correspondence between Mrs. T. W. Sutherland of Revelstoke, member of the board of governors of the Canadian Broadcasting Corporation, and the local radio committee which had urged her to use her influence towards having the commission permanently take over the local station. She was also asked to do what she could to head off "certain interests" from acquiring the station. An invitation was also extended to Mrs. Sutherland to visit the city and district to see the situation at first hand. In reply, Mrs. Sutherland gave assurance that she would give all the help possible in maintaining good radio service here. She stated that the whole matter of radio service through the interior of British Columbia would be coming up at a meeting of the board of governors November 28. A visit to Prince Rupert was something to be looked forward to.

After the reading of the radio committee's report, President George Mitchell appointed J. J. Little as chairman of the committee succeeding D. C. McRae, who asked to be relieved, and Jack McRae was added to the committee.

**COMPULSORY EDUCATION**  
KANO, Nigeria, @—Mallam Muhammadu Muhtar Dawaki, in charge of Shabuchi School here, states the Emir of Kano has decreed compulsory education for boys and the father of any child who fails to attend will be fined or imprisoned.

**Basketball—**  
**Yanks Take Stars Again**

**Americans Make Farewell Basketball Appearance Here**

The Acropolis Hill Yanks took the basketball measure of the Prince Rupert All-Stars at the Acropolis Hill Gym last night by a score of 44 to 31. The game started slowly with the Yanks using an effective zone defence. During the second quarter, Helge Holkestad, All-Star forward, found a flaw in the Yanks' defence and the game speeded up with the half ending 15-14 for the Yanks. The second half started fast with locals grabbing a shortly-held lead of 21-20 but the Yanks shook Boots Diess and Kalonivitch loose for some fast basket work and ended the game on the long end of a 44-31 score.

Diess and Kalonivitch were high for the Yanks with 11 and 12 points respectively. Holkestad was high for the All-Stars with 11. Dominato made a couple of nice long shots. Houston played an effective defence game even after a long lay-off from the sport during his military duties.

Lindsay played a mustering game but his shooting eye must have been spent in the first game at the "Y" gym last Thursday night.

According to Lieut. Farmer, coach of the Yanks, last night's game marks the last of a long series of Yanks vs. All-Star games. Most of the Yank players are scheduled to leave for the States during the next few days.

**Intermediates Stage Thriller**

In the preliminary game the Intermediates again put on a thriller with the Macey basketballers crushing the Co-op in fast overtime 31-25. Full time score was 2-21 and five minutes overtime was played with the Macey

melon tossers finding the basket for 10 points to the Co-op's four. This game was the Co-op's first of the season and they put up a fine show. They have the makings of a team that, combined with Macey's and High School, should make the Intermediate League the most interesting to follow since the last civilian league of 1941. Outstanding for Macey's last night were Menzie and Holkestad with Hogan and Murray potting the telling baskets. For Co-op Vierick was outstanding and also was high scorer for the evening with 15 points racked up.

Individual scoring was as follows:

Yanks—Diess 11, Ernst 4, Kalonivitch 12, Thompson 0, Horn 5, Farmer 2, Randall 6, Jacobs 2, Askerooth 2, Total, 44.

All-Stars—Lindsay 1, Brown 2, Armstrong 3, Houston 1, Morgan 5, H. Holkestad 11, Gurvich 2, Bill 2, Dominato 4, Total, 31.

Macey's—Menzie 7, Hogan 3, Murray 6, Arnsten 4, Teng 0, R. Holkestad 6, Simonsen 0, Total, 31.

Co-op—Sharp 0, Vierick 15, Sheppard 0, Husik 0, Smith 4, Menzie 2, M. Holkestad 4, Total, 25.

**Basketball Buzz**

Thursday night will see another big night of exhibition basketball games to be played at the Y.M.C.A. Gym. These will be the last exhibition matches. Regularly scheduled league games will start next week subject to an executive meeting soon.

Thursday night the High School girls will meet the Kinette team in a return match for the opening game. The second game will see High School oppose the Co-op. Third game will spot the first senior game

**LADIES' BOWLING LEAGUE RESULTS**
