Norway's Nazi Puppet Is Guilty of Treason

Execution May Take Place Within Three Weeks Although Notice of Appeal Has Been Given

LONDON, Sept. 10 (CP)—Oslo radio announced today that Vidkun Quisling had been convicted on charges of high treason and condemned to death.

Under a new law creating the death penalty in Norway, sentence would be execution by a military firing squad composed of ten soldiers firing ten bullets.

Quisling, under the law, can appeal to the Supreme Court which can commute the sentence but cannot reverse it.

The presiding judge at Quisling's trial, however, was Erik Solem who is also a Supreme Court justice and thus one of the group which would pass on any appeal.

The 58-year-old Quisling was a major in Norway's pre-war Army and former minister of defence.

The prosecution, during the three weeks' trial, accusing Quisling of meeting Adolf Hitler, Grand Admiral Erich Raeder and other high German officials in December of six years ago and urging them to invade Norway.

JAPANESE CRIMINALS

Anti-Militarist Nips Are Assisting Allies in Drawing Up Blacklist

TOKYO, Sept. 10—Anti-militarist Japanese intellectuals are drafting their own list of war criminals and some believe it should include former Premier Tojo, two members of the present cabinet and both of the Emperor's signers of the surrender document.

One government source made the startling suggestion that "the Allies should announce their war criminals list soon so the Japanese people can consider and perhaps add some more names."

These sources declared there were hundreds of actual war criminals among militarists ranging downward from Tojo.

DERAILMENT BY WASHOUT

Four Freight Cars Leave Track at Sockeye When Flood Undermines Track

Fed by Sunday's heavy rainfall, waters of a stream at Sockeye station, 13 miles east of Prince Rupert, washed out 30 feet of railway track causing derailment of part of a freight train, and delaying arrival of travellers on last night's passenger train from the east. There were no injuries.

Four box cars of the freight train were derailed at 1:55 Sunday afternoon and the obstruction made it necessary to transfer passengers to another train on this side of the washout when the westbound passenger train arrived at the spot at 10:30 last night. The transfer train arrived in the city at 1:30 this morning.

An obstruction in a culvert caused the waters of the swollen stream to back up and flood the roadbed, washing out 30 feet of grade to a depth of five feet. It was learned at the office of Superintendent C. A. Berner this morning that the track was expected to be made possible by this afternoon.

The engine and four box cars of the freight train, which was proceeding to Prince Rupert, left the rails. None of the train crew was injured.

The two trains left stranded on the eastern side of the washout were expected to be brought to the city this afternoon. Passengers took cheerfully the inconvenience of leaving the coaches of the regular train and transferring to the emergency train. Mail and express was also transferred and brought to the city last night.

The two old coats were taken from the office of 123 Taxi Company sometime by marauders who kicked in the door of the Cow Bay taxi business.

MICKLEBURGH OPENS FIGHT

Slashes Out at Coalition, C.C.F. and Pattullo

"Those who are spreading the fable that wage-cuts, mass unemployment and business slumps are inevitable now that the war is over are playing the game of reactionary forces who would dearly love to drive the people back to the 'Hungry Thirties'." Bruce Mickleburgh, Labor-Progressive candidate for Prince Rupert, stated as he addressed a meeting of party members over the week-end.

"Wartime wage levels must not be slashed. On the contrary the purchasing power of the people must be increased. The government, must assume the responsibility for providing that measure of full employment by which business falls down on the job. Full employment and business prosperity cannot exist in B.C. without cheap power, the most modern transportation facilities and a steel mill on the coast. In addition, the people not only need to live but to live decently. This means large-scale government, low-cost housing projects and full social security."

Mickleburgh struck out at the coalitionists for capitalistic tendencies, charged the C.C.F. with having not produced a single constructive post-war suggestion in Prince Rupert and called upon Pattullo to retire.

"The future of Prince Rupert demands a democratic coalition government," the L.P.P. candidate asserted.

CEYLON HERO IS LIBERATED

Wing Commander Leonard J. Birchell Back in Allied Hands

MANILA, Sept. 10 — The hero of Ceylon, Wing Commander Leonard J. Birchell of St. Catharines, Ontario, is back in Allied hands after more than three years in Japanese prison camps.

Wing Commander Birchell is the Canadian flier who was piloting a Catalina when he sighted a huge Japanese fleet on its way to attack Ceylon. The Canadian, who then was a squadron leader, flew closer to the enemy fleet to get more information but was attacked and shot down by the Japanese fighters. He was rescued by the enemy and taken prisoner. However, his warning saved the island from invasion.

Wing Commander Birchell was promoted to his present rank while a prisoner of the enemy.

Two Surrender Regimes . . .

The essential difference between the surrender regimes in Japan and Germany is that, as regards Japan, defeat has not destroyed the governmental fabric or political cohesion. In Germany both had been obliterated. Therefore in Japan the State is maintained under Allied control. In Germany Allied control is the State. But in dealing with Germany and Japan alike, the Allies emphasize their future depends on their development of a democratic way of life. In proportion as that is achieved the two peoples will regain their sovereignty and independence.

Like the German act of surrender, the Japanese is a brief document dealing with the execution of military orders but without prejudice to all further conditions which the Allies may decide to impose. These further conditions, which remain to be defined, will be carried out by the Allied supreme commander, assisted on political questions by the Allied Advisory Commission, which it has recently been decided to set up.

Thus Japan is given, like Germany, a chance of purging her guilt in the fire of democratic regeneration. Circumstances enable Japan to embark on this course under lesser

political handicap than that which the disintegration of the Third Reich has imposed on Germany. But whatever progress Germany may make towards development, the fact cannot be disguised that in Japan inveterate anti-democratic doctrines are deeply rooted in the nation as a whole.

Clash of Politics . . .

This would be a flat and monotonous world if we all thought and acted alike and the Creator evidently never intended us to do so. Otherwise He would have populated the earth with a species of human ants. As it is, He has made us all different and endowed us with intelligence, emotions and individual will power. The clash of minds in politics, and even in religion, is a healthy condition. It saves us from stagnation and perhaps from extinction, and it makes for progress.

This mutual antagonism, indeed, is strictly in accordance with the laws of nature and of the universe. Gravitation would crush this planet and all upon it to a dead mass if it were not for the centrifugal force which opposes it. Between these two forces the earth is maintained in a free state of variability and order, which are necessary for the production and preservation of life.

In politics we have the same two opposing forces which, while they are antagonistic, are in reality co-operative in maintaining the balance of society. The revolutionists may be said to be the explosive force and the conservatives the force of gravitation. When either one gets full control there is social chaos or social stagnation.

Whifflets From The Waterfront

Over 400,000 Cases of Salmon on Naas and Skeena—24,000,000 Pounds of Halibut From Area 3

The total canned salmon pack for the season up to September 1 for the Naas and Skeena Rivers amounts to 407,260 cases, according to the weekly bulletin issued by the chief supervisor of fisheries at Vancouver. Pinks formed the greatest number of the total with 218,834 cases while there were 120,926½ cases of sockeye, 29,903½ cases of coho, 24,009 cases of chums, 2,529 cases of springs and 1,058 cases of steelheads.

Fair catches of coho continue to be made on the Naas with the average catch per boat during the past week amounting to 25 fish. About 75 boats are engaged on that river at present.

Reports from the Queen Charlottes indicate that fair catches of chums are being made there. The season's pack of chums in other areas besides the Naas and Skeena Rivers in District 2, which includes the Queen Charlottes, has reached a figure of 65,874 cases so far, the highest in that area in five years.

The records of the International Fisheries Commission show that for the period from May 1 to August 31, 1945, the following total amounts of halibut were landed in Pacific coast ports from Area 3:

U. S. fleet	21,441,000
Canadian fleet	2,562,000
Total	24,003,000

For the month of August 1945, the following amounts of halibut were landed:

U. S. fleet	3,904,000
Canadian fleet	1,019,000
Total	4,923,000

Landings from the closed Area 2 during August were restricted to that halibut caught incidentally while fishing with set lines for other species under permit and amounted to 208,000 pounds.

MANY YANKS ARE COMING

Mrs. Robert McCarthy Very Enthusiastic After Visit to Bulkley Valley

"We had a simply wonderful time," enthused Mrs. Robert McCarthy this morning following her return Thursday night with Mr. McCarthy after ten delightful days in the Bulkley Valley during which they attended the annual Labor Day Barbecue at Telkwa and the Fall Fair at Smithers. People from all over the country gathered for the two events and Prince Rupert, now that the highway is open and gas ration lifted, was particularly well represented.

Mr. and Mrs. McCarthy were guests of Mrs. F. V. Fisher at her ranch near Telkwa. This farm has been sold to an American Army man who plans to take over soon now that the war is over and is going to bring in a large amount of new and up-to-date equipment.

Mrs. McCarthy reports that many Americans are planning to come in to the Telkwa and Smithers district to take up land after the war. They see great opportunities in agricultural development there.

MOVING OF MATELOTS

Will Sling Hammocks in Baggage Cars to Relieve Congestion

Using all possible means to expedite the movement of Navy personnel out of Prince Rupert in pursuance of the announcement last week that H.M.C.S. Chatham is being closed down, Navy transportation officials have arranged with the railway company to permit sailors on draft to sling their hammocks in the baggage cars on trains leaving for the east.

With sleeping car and steamship accommodations extremely difficult to secure the idea of letting sailors sleep in their hammocks seemed to Navy officers as much superior to travelling by day-coach.

Other matelots, who are drafted to the south, may travel to their destination on minesweepers or other warships that may be sailing to the ports where they have been transferred.

MUSIC and MUSICIANS

Frank Mansell, the nomadic pianist, is getting ready to move on again after spending several months in Prince Rupert. The Edmonton wizard of the keyboard, who has stopped at cities from Toronto to the west coast for a time to do dance work, is now going to give Vancouver a whirl.

Mr. Mansell, one of the best jazz pianists Prince Rupert has had in some time, played for Pete Wambach's production "Music and Muskeg," and has done a good amount of dance work here, which included sitting in at a number of K. of C. Thursday night jam sessions.

The best Canadian dance band, Mansell feels, is Toronto's Bert Niosi combination, and in this he shares the views of most musicians who have heard the man who built the Palais Royale.

Word from the south indicates that Vancouver will launch an ambitious series of concerts beginning next month sponsored by such organizations as the Vancouver Symphony Society, Hilker Attractions and the Women's Musical Club.

For the opening of the orchestral season, October 7, Izler Solomon, director of the Columbus (Ohio) Symphony Orchestra, will be guest conductor, followed by Gregori Garbovitzky of Vancouver, on October 21 and William Steinberg, November 18, December 2, January 6 and 20.

Leonard Bernstein will conduct concerts February 3 and 17, and Antal Dorati will be musical director March 3 and 17. Prince Rupert music-lovers might make a note of these dates in case they happen to be in Vancouver the night of a concert.

Next Wednesday at the Strand Theatre in Vancouver a concert featuring Ezio Pinza, the distinguished basso of the Metropolitan Opera, will be held as the first of the Hilker Attractions this season.

The New Westminster Civic Orchestra, R. T. Bevan, conductor, has commenced rehearsals for its coming concert season with W. D. Graham as concert master.

FAVOUR

WHEN the housewife calls at the grocery store and orders a supply of provisions, she is not asking a favour... she is buying goods for which she will pay on delivery... purely a matter of business.

So with your bank. It is a business proposition just as much as the grocery store.

The grocer deals in groceries... the banker deals in credit. And as the making of loans is one of the principal ways by which his bank derives its revenue, he is as anxious

to sell his credit as the grocer is to sell his groceries. And like the grocer, the banker naturally wants to know that he is going to be paid for his goods... that his loans will be met when they fall due. That, too, is only good business.

When you have occasion to ask for a loan, look at it this way. Come to the Bank, not feeling that you have to ask a favour, but to offer the manager a sound business proposition which will be of profit both to you and to his institution.

"NAVY EYES" DURING WAR

District Men Thanked for Highly Important Work in Protecting Coast Shipping

Appreciation of the highly important and heretofore unpublished services rendered by a group of civilians on the West Coast of Canada, has been expressed by the Minister of National Defence, Hon. Douglas Abbott, it was announced today by Lieutenant-Commander F. N. Eddy R.C.N.V.R., Naval Control Service Officer, Prince Rupert.

In the early days of Japanese aggression in the Pacific it was of the utmost importance that naval operations should have the fullest information on the shipping in our coastal waters. The naval control service officer at Prince Rupert and J. H. McLeod, collector of customs, appointed suitable men in northern British Columbia ports and they were known as naval reporting officers. It was their duty to report promptly the arrivals and departures in their respective ports so that naval operations would have full information on shipping in coastal waters.

Trained in naval coding, they sent all reports by coded message and they became so efficient in their duties that naval operations were always fully informed as to the whereabouts of all coastal shipping.

The naval reporting officers were located at all ports no matter how small on the West Coast and these officers acted as the "eyes of the Navy" in addition to their usual occupation for the duration of hostilities with little or no extra remuneration.

Each of them has just received a letter from the Minister of National Defence himself as follows:

"On the victorious conclusion of the war in the Pacific theatre, I desire, on behalf of the Royal Canadian Navy, to express to you its gratitude for the valuable services which you have rendered in connection with the reporting of merchant shipping.

"Without the great co-operation and assistance which the Navy has received, it would not have been possible to operate the complicated system of shipping control which was so necessary to ensure that valuable ships, and the more valuable lives of the men who manned them, were kept as clear as possible of danger through enemy action."

The organization in this area under the direction of Lieutenant-Commander Eddy, comprises all British Columbia ports north of Nanaimo, those who served being:

- Oscar Bainbridge, Bella Bella.
- R. Hart, Butedale.
- L. W. Hogan, Klemtu.
- Clarence Martin, Massett.
- Charles Wood, Namu.
- J. Wynne, Ocean Falls.
- W. J. Nelson, Ocean Falls.
- D. M. Cuthill, Port Simpson.
- W. G. Broad, Stewart.
- D. T. R. McColl, Queen Charlotte City.

UNITS ARE DISBANDED

Canadian Overseas Army Being Rapidly Demobilized—Many Veterans Arriving

OTTAWA, Sept. 10 (C)—Returning overseas units of the Canadian Army are to be disbanded almost immediately upon arrival at their respective home stations across the Dominion.

Defence Headquarters says that personnel as far as possible have been territorially cross-posted overseas so that the majority of men in any one unit should be returning to the same military district. In the case of exceptions the depot concerned will arrange immediate disembarkation leave for such personnel and will instruct them to report to their home depots.

Almost 18,000 Navy, Army and Air Force personnel reached Canada during the week-end in four big transports which docked at the ports of Halifax and Quebec City. A Defence Headquarters statement also discloses that two baby flat-tops are due to reach Montreal on September 8 and a third on September 12.

Terrace In Happy Mood

Board of Trade Gratified Over Electricity and Highway

TERRACE, Sept. 10—With good humor prevailing throughout in view of a number of satisfactory developments, Terrace and District Board of Trade held its monthly meeting on Thursday night in Willie's Hotel. There was a very good attendance of the members. President Harry King was in the chair.

One cause of satisfaction was the recent announcement from the B. C. Power Commission that it will take Terrace under its wing and set up a power plant sufficient for present needs. It is understood that their men will arrive during the present month to supervise the installation.

Another subject which made everyone feel in good humor was the highway. Recent reports thereon are that the road to Prince Rupert is now in quite good condition, hav-

ing been attended to by the public works department. The meeting decided to send a letter of appreciation to the heads of the department—Hon. Herbert Anson and Chief Engineer A. L. Carruthers—to let them know that Terrace thanks them for the good work on the highway.

It was decided to make a survey of the district and to bring in a report of the business turnover. A committee was appointed by the chairman for this purpose, the idea being that the present time seems opportune to try to get one or other of the banks to open a branch in Terrace. The Bank of Montreal closed its branch here some years ago but the meeting thought that things would appear very different in a business way today to what they were a few years ago. To mention only the increase in numbers as shown by the issue of ration books, the population has trebled in the past four years.

Other matters were touched on at this meeting, including a deposit of clay in the near neighborhood which offers real possibilities. Recent tests have shown that brick and tile of the very best can be made of this local material.

Capt. C. J. Norrington spoke on behalf of the Reserve Army. The meeting was sympathetic and it is likely that the younger members at any rate will before long enrol in a unit which it is hoped may be established in Terrace.

A. E. Goodenough and Olaf Hanson spent Saturday in Terrace.

Shorty Coldwell, Earl South and Henry Snager of the U.S. Army spent the week-end in Terrace.

I Married an Angel!

YESSIR, the sweetest, cleverest, most reasonable little gal in the world. Knows what's what about good food, too!

So when she said "Postum's a grand-tasting drink—you'll like it, honey!"... I was willing to give it a try. Just for her sake, mind you!

I had to be convinced... and am!! Boy! What a flavor! Rich and hearty and satisfying—not like tea, not like coffee, just a grand drink.

Angel says that even children can safely drink it. Because Postum hasn't a trace of caffeine or any other drug to affect heart or nerves or digestion.

Even I can make Postum. You just add boiling water or hot milk right in the cup. And for all that, it costs less than 1¢ a serving.

We can say this in three words...

MULTIPLY A WHISPER BY A MILLION-

AND YOU'VE GOT INFLATION

Let's not deceive ourselves by the belief that the danger is over—just because the war is won. And let's remember that inflation is always followed by deflation with its misery of bankrupt businesses, mortgage foreclosures and unemployment.

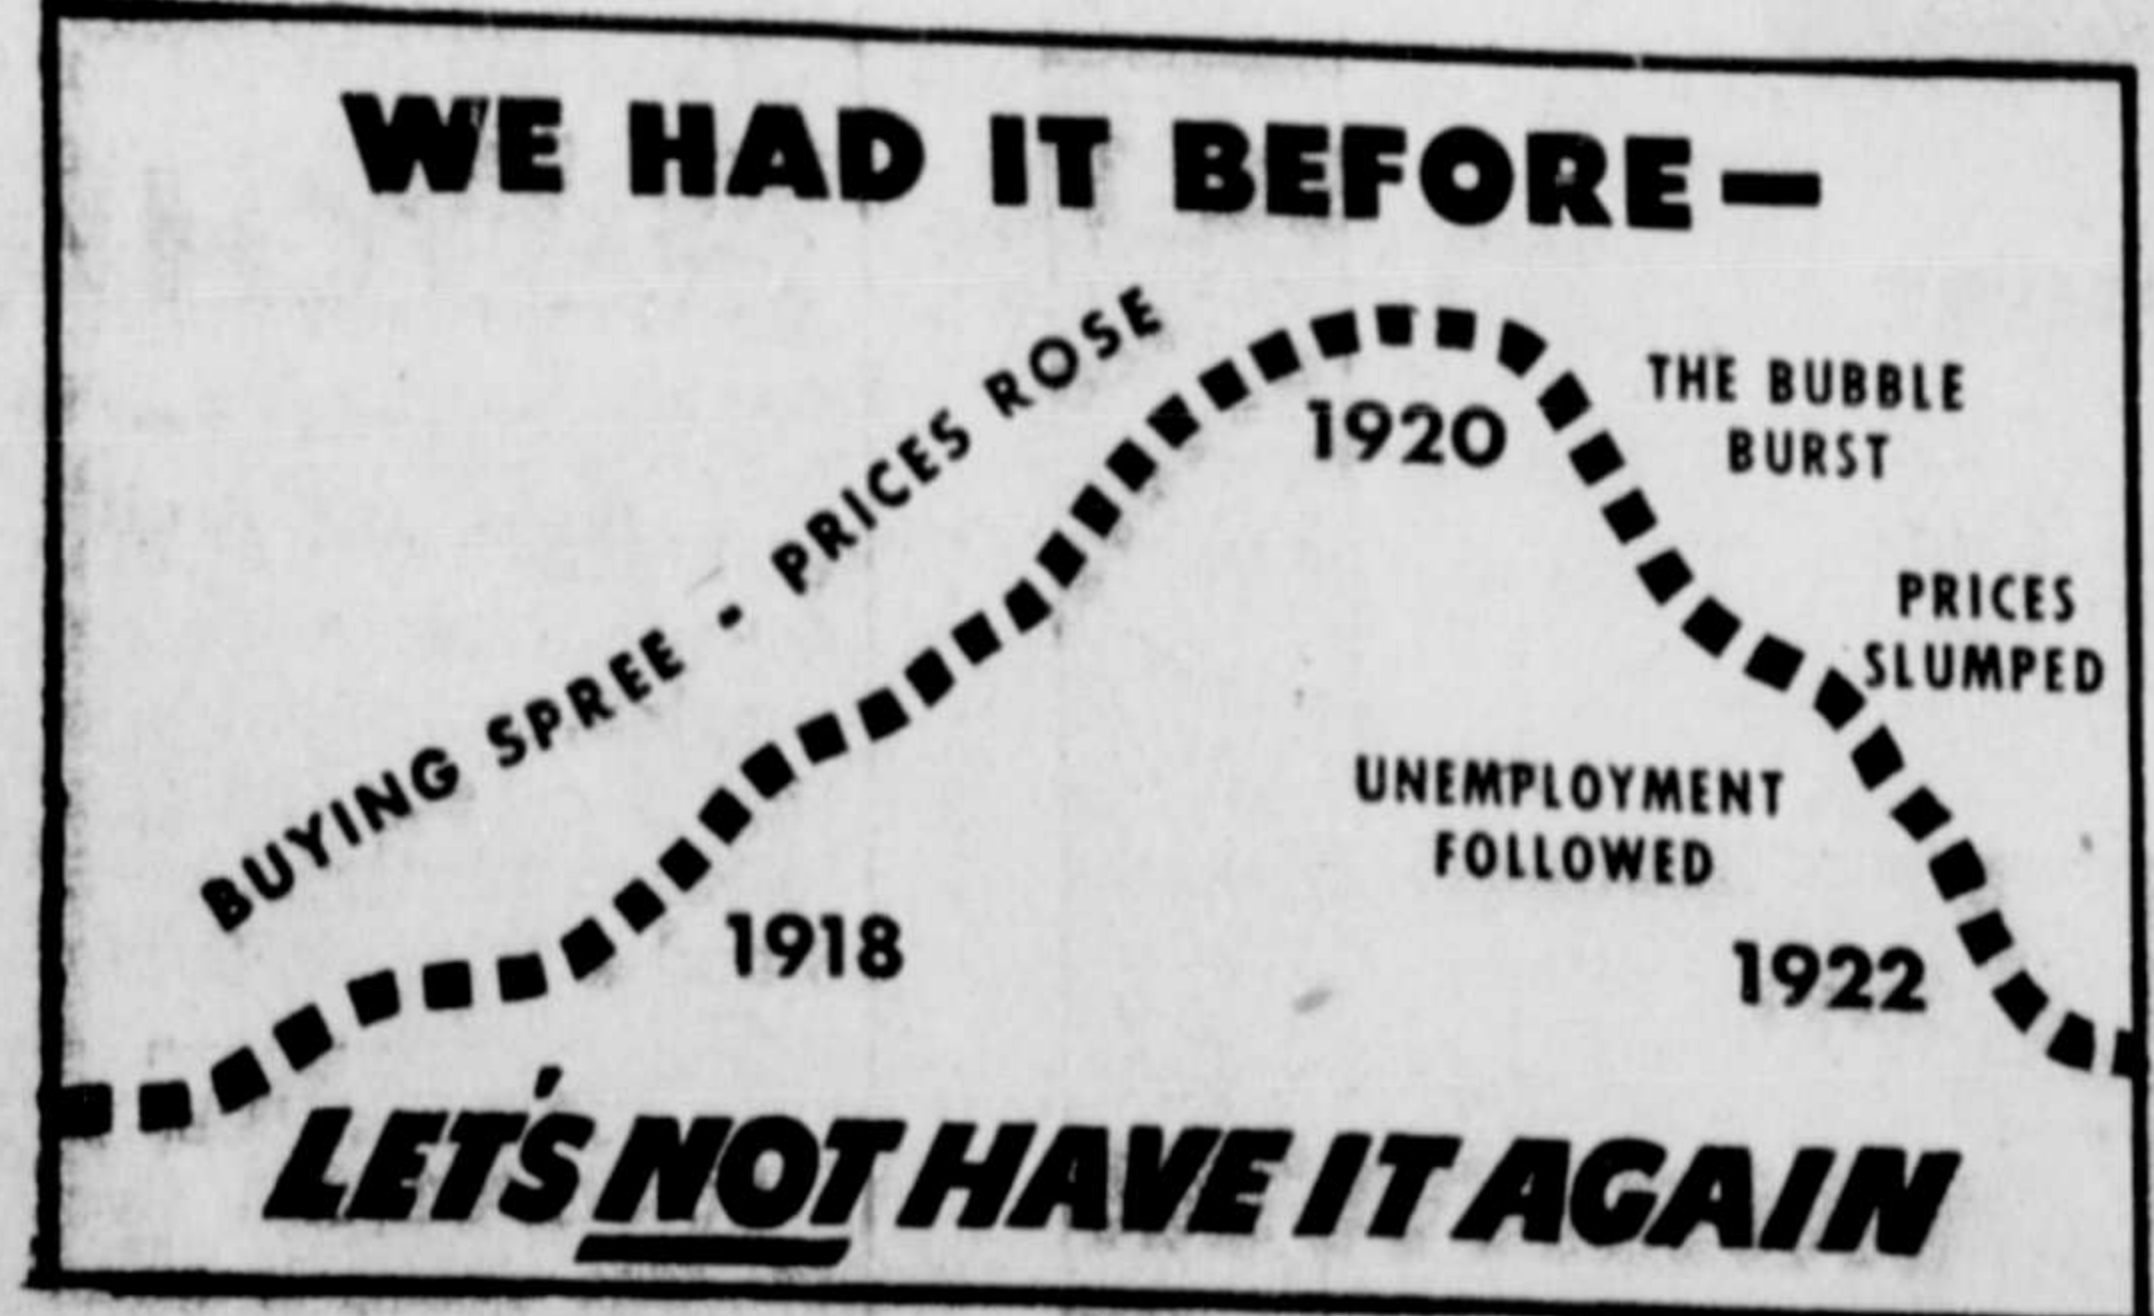

It's your job and your savings that are at stake.

The danger of inflation, with its black shadow—deflation,—will remain as long as goods are scarce and insufficient to meet demands. That may be 6 months, 12 months, 18 months. Only time will tell. As quickly as controls are unnecessary, they are dropped.

After nearly 6 years of war, industry cannot switch over to normal production of civilian goods by a snap of the fingers. That takes time. The whole system of raw materials, labor and production has to be re-gearred.

In the meantime, price ceilings, rationing and other controls are the safeguard for every one of us. It's everybody's responsibility to help make them work.

SO—Keep on watching your buying. Don't rush to buy scarce goods. Keep on saving your money. Put it into Victory bonds and War Savings certificates. Keep on supporting wage and price controls, and rationing. Keep on fighting inflation and its black shadow... deflation.

CASTILLOUX KEEPS TITLE

Defeats Ralph Walton with Technical Knockout

MONTREAL, Sept. 10 — Montreal's Dave Castiloux successfully defended his Canadian welterweight title yesterday at Sorel, Quebec. The champion stopped a fellow-Montrealer, Ralph Walton, with a technical knockout in the fourth round of the fight. Castiloux was given the decision when Walton failed to resume the fight after an alleged low blow.

Walton dropped the first round by a good margin but was strong at the finish.

The two were swapping blows in the middle of the ring in the fourth round when Walton went down. Taken to his dressing room, he was examined by a doctor who said he could see no outward sign of injury. He advised Walton, however, not to continue the fight.

CLUB PLANS ACTIVITIES

Kinsmen Club Resumes Meetings For Season

The Prince Rupert Recreational Council's instructor, George A. McGregor, is about to start work in Prince Rupert within a week, William Noble reported to the Kinsmen's Club at their first fall meeting.

Don Forward, area secretary of the Y.M.C.A. War Services, is endeavoring to have the facilities of the "Y" building made available to the city's youth until it is formally taken over by the Civic Centre, Mr. Noble added.

The Halloween Shell-Out, which was held to raise money for the Milk for Britain Fund during the war, will still be held this year but the proceeds will go to local charities.

Providing that a woman's basketball league is formed this season in Prince Rupert, the Kinsmen are interested in sponsoring a team of former Bo-Me-Hi girls, it was decided in answer to a request from the athletes for sponsorship.

Hal Munsey was named chairman of the seal committee to distribute and promote the sale of Christmas seals for the B. C. Tuberculosis Society. Members of the committee are Maurice Irving and Stan Saville.
