There is, however, another very large group who do not need

training and who are not suited for land settlement as provided

under the Veterans' Land Act. After long months or years in uniform,

these veterans will need assistance also. There will be those who

normally would have owned their own homes had it not been for

their service. There will be those who own homes but who have

been unable to carry out needed repairs and alterations. There will

be veterans who sold businesses to enlist and who want to resume

them, and others who are fitted for a business of their own but who

need assistance in financing. The Re-establishment Credit is designed

for this latter group, and primarily is an alternative to training and

the ten years following discharge for certain specified purposes as

outlined in this advertisement. The grant is called a "credit" because

Legislation for this type of re-establishment was provided early in the war. any district office of the department. Application for the war service gratuity is made to the branch of the armed forces with which the veteran served and forms may be secured at any armed forces depot or at any office of the Department of Veterans Affairs.

STUDY ALL MEASURES BEFORE APPLYING

It is important that every veteran shall have made a definite decision as to future plans before applying for the re-establishment credit. Payment of the re-establishment credit debars the veteran from educational and training grants and benefits under the Veterans' Land Act, since on application for the credit the veteran elects not to take advantage of these other benefits. Any benefits under the Veterans' Land Act and payments to, or on behalf of the veteran for training or continuation of education already granted are charged against the credit. Do not apply for your re-establishment credit until you have studied all other rehabilitation measures. Advice of department officials is available to assist you.

PURPOSES FOR WHICH CREDIT MAY BE USED

Grant of the credit may be authorized for the following purposes:

(a) To assist in home owning; (b) To assist in building a home;

(c) To assist in home repairing or modernization; (d) To buy household equipment and furniture;

(e) To buy tools, instruments, etc., for trade, profession, or husiness;
