### EXCHANGE OF NATIONALITY

MOSCOW, July 9 (P)—It has been announced that Russia and Poland have signed an agreement permitting the exchange of nationality and residence by tizens of either country. The agreement opens the way for the return to Poland of many persons now living in the Soviet Union. According to the new pact, all Poles and Polish Jews who were citizens of Russia before September 17, 1939, are given permission to abandon Soviet citizenship and settle in Polish territory.

"Red" Hill Runs Niagara Rapids, Police Order Notwithstanding

NIAGARA FALLS, Ont., July 9 (CP) — Dare-devil William "Red" Hill today nurses a severely injured and bruised left arm as the memento of his two-hour ride in a barrel yesterday through the rapids of the Niagara River. Hill took the ride to raise funds for a double memorial to his father consisting of a permanent memorial and mobile lifesaving equipment to carry out rescue work in the river. He used the same 750-pound barrel in which his father had run the rapids in 1910, 1930

and 1931. people lined the shores of Niagara River to see the 32year-old Hill accomplish the feat in defiance of a police notification that he should not attempt the stunt withou a permi. The police were waiting at Maid of the Mist Landing, where he had intended to start, so, instead, he climbed into the barrel further downstream at the whirlpool bridge. Twice during the run he opened the hatch of the barrel and waved. Once a boat came alongside and pumped water out of it. The sevenmile ride through the rapids to Queenston dock took two

### The New Bishop Here . . .

A happy appointment appears to have been made for the new Roman Catholic Bishop of Prince Rupert in the person of Rev. Anthony Jordan, O.M.I., formerly one of Vancouver's best known pastors, now in Ottawa.

Succeeding the late Bishop Emil Bunoz, O.M.I., who died June 3, Bishop-Designate Jordan has the ad-

vantage of comparative youth for he is only forty-three years of age.

Nor does his youth imply lack of administrative experience since, after leaving Vancouver, he has for the past four years been head of the Holy Rosary Scholisticate in the Oblate Seminary at Ottawa. In Vancouver, where he spent ten years he was not only in charge of St. Augustine's Parish but was treasurer of the province of English - speaking Oblate Fathers in Canada.

Born in Edinburgh and coming to Canada as a youth to be educated at Edmonton, he is fully Englishspeaking and that should be an advantage in a diocese such as this.

It is expected the new Bishop will be coming to Vancouver soon and thence to this city to assume his ecclesiastical seat.

HORROR CAMP MOVIE AMUSED NAZI WOMAN—This German woman was one of the civilians in the village of Burgsetinfurt who was ordered by military government authorities to view the actual motion pictures showing the horrors of Belsen and Buchenwald camps. On leaving the theatre after the showing, she laughed. She is shown here being ordered to return to view it for a second time. Capt. A. Stirling, the district assistant provost marshal, motions the callous woman back ino the theatre.

# e found what makes the Planets move

As a boy Isaac Newton (1642-1727) built a clock, a mechanical carriage, and dreamed of sailing through the air. One of the most brilliant mathematicians of all time, be discovered the binomial theorem and the elements of the differential and integral calculus. He studied the heavens, carried on experiments in optics and color, and built a reflector telescope. Observing an apple fall from a tree in his mother's garden, he began to ponder on the attraction of mass to mass, and so evolved the theory that the law of gravity governs the whole universe.

Just as a falling apple suggested to Newton a line of research which had far-reaching results, so such things as a broken gear, a worn-out grinding plate or a burnt-out heating element have started industrial scientists on researches which have saved thousands of dollars to users of a great variety of products.

Research on Nickel has helped industry in scores of ways to save money by using Nickel and its alloys. That meant more Nickel could be produced and sold from Canadian mines.

Now, as after the first World War, International Nickel is continuing to co-operate in research in order to find new uses and markets for Canadian Nickel.

The information collected by International Nickel from the whole field of metal research is available at all times to Canadian engineers, designérs and metallurgists.

Thus will science and industry, working together, build a wider use of Canadian Nickel so that still more benefits will come to Canada.

## Quick Results

A Daily News classified ad brought quick results for an ambitious young war veteran last week. He brought his ad into the office one morning seeking a private tutor in science. The paper was hardly out in the afternoon when a teacher called. By early evening the tutorial arrangement was made.
