IL BEURD

THE Federal election on June 11th will be one of the most portentous in all the colourful history of our country. It will decide for a long time to come whether democratic representative Government is to continue to prevail as a ruling system, or whether we are to abandon it in favour of socialism, and allow the thin end of the wedge of crude Dictatorship to be driven into the heart of the body politic.

Theorists, without the authority of proven, practical experience, are busily spreading doctrines which deliberately misrepresent the true spirit of individual enterprise and the faith and courage by which our Province has been brought to an enviable status in the Dominion. They try to belittle the vital importance of our post-war Overseas trade, the resumption and expansion of which means so much to every family in the country.

No one can deny that in B.C. our carefully developed industrial strength has given us relatively high general living standards. Through long years of ups and downs, Government, business leaders and workers have striven together against many adverse conditions, economic and geographical, and have made bold strides toward a balanced economy, and a satisfying level of living comfort and security which compares favourably with any part of the world.

The preservation of our industrial strength and earning power is the only basis on which we can build our hopes and provide for our future welfare.

Loyal and thoughtful British Columbians, now enjoying the realization of half a century of adventurous initiative and boundless energy, will not allow themselves to be imposed upon by specious theories and promises, which at best are a gamble, with personal freedom and our accomplished living standards as the stakes.

Parliamentary Government, as we know it today, despite some imperfections, ensures for us and those who follow, the precious constitutional safe-guards of freedom and popular representation, and it has given us and can continue to give us progressive legislation based upon the people's will. It should be wholeheartedly supported in our Federal election decision as a basic and essential living principle in the continued development of our country.

No man in Canada is better fitted to achieve this national necessity than Mr. Bracken who have already demonstrated in Manitoba his ability to create harmony and understanding and the ability to work together for a common purpose between individuals preciously disunited. There have been many forces making for disunion, chief among which has been the manpower policy of the Liberal government. The King Manpower Policy -

"The Greatest Hoax ever perpetrated on a Nation."

"It is a national disgrace and a blight upon the good name of Canadian citizenship. To give political considerations priority over the nation's interest is intolerable and unforgivable."

The Bracken

Dominion-wide disunity is today the gravest danger facing Canada. The political abasement of the King Government's Manpower Policy reaped in wartime the seeds it sowed in peacetime.

"King or Chaos" of the 1940 election campaign has been King AND Chaos ever since. National unity, to which the King Government has paid only lip-service, was sold for political advantage in time of gravest national emergency.

THE PRICE CANADA HAS PAID for the unequal burdens of the King Manpower Policy is beyond measure. Army statistics tell the story. Tragically, the casualty lists bear mute witness to it.

THE PROGRESSIVE CON-SERVATIVE PARTY HAS CONSISTENTLY CONDEMN-ED THE INJUSTICE OF A

PURELY POLITICAL MA POWER POLICY. We do n hesitate therefore to describe King Manpower Policy, and the furtive political manipul tions which characterized the ministration of that policy, as gross miscarriage of social, pol tical and economic justice. our forthright, progressi leader has said, it was - and - "the greatest hoax ever per petrated on a nation."

NATIONAL UNITY AND WELFARE MUST COME BE FORE NARROW POLITICAL ADVANTAGE. Divide-and-rul policies have no place in framing the basis for peace-time govern ment. Only a party that wil recognize equality of opportun ity for all in time of peace as well as equality of service and sacri fice in time of war can solve the problem of national unity with the confidence of all Canadians

Wise Words of WARNING!

THE DAILY NEWS

Saturday, June 2, 1945

. . from Abraham Lincoln

Those who are being hypnotized by the lavish promises in the C.C.F. program of State Socialism should bear in mind that this visionary Utopia is almost as old as Methuselah. Almost a century ago Abraham Lincoln, familiar

PAGE THREE

with povery and discouragement said: "That some should be rich shows that others may become rich, and hence is worthy encouragement to industry and enterprise. . . . Let not him who is homeless pull down the house of another, but let him labour diligently to build one for himself, thus, by example, assuring that his own shall be safe from violence. . . . It is best for all to leave each man free to acquire property as fast as he (legally) can. Some will get wealthy. I don't believe in a law to prevent a man from getting rich. It would do more harm than good."

. . . and from Winston Churchill

On May 4th, 1908, more than a third of a century ago, came this warning:

"When we are told to exalt and admire a philosophy which destroys individualism and seeks to replace it by 'collectivism,' I say that this is a monstrous and imbecile conception,

which can find no real foothold in the brains and hearts-and the hearts are as trustworthy as the brains-in the hearts of sensible British people.

"The Socialists put before us a creed of universal self-sacrifice. They tell us that we should dwell together in unity and comradeship. But they preach it in the language of spite and envy, of hatred and uncharitableness." There, from the lips and hearts of two patriots,

comes the whole gospel of democracy — a gospel which needs now to be spread again before Canadians of every class and creed—for the simple reason that it is founded on plain, common-sense.

On election day Canadians will be asked to decide whether or not they want Canada to embrace "State Socialism" — hence they should appreciate its meaning and OBJECTIVE.

Good-bye Freedom!

Briefly the Socialists propose that we turn over to the C.C.F. politicians not merely the running of our government, but complete and permanent control of our everyday lives. They would control and regulate all production of farm products; all manufacture of goods; all distribution and pricing; all placing of employment, wages, etc. They propose to do this gradually, starting with banks, insurance companies, and "Big Business", but eventually the "State (which are the present C.C.F. candidates) would regulate

everything to fit into their so-called "National Plan". Any such plan could only be carried out under an absolute dictatorship—either by one man or a small group (as in Italy, Germany and Russia). In its execution three out of every five citizens would probably end up working for the government, and one in every five would be a government "cop" checking up on us to be sure we stayed in line. That's what "State Socialism" means.

So, Vote AGAINST C.C.F.!

Hence if you want to preserve your liberty of actionyour individual freedom-where to work-where to livewhere and how to spend your money, you simply cannot vote for ANY C.C.F. candidate—even though he be your personal friend-because every C.C.F. candidate is definitely committed to that program. If he falters or wavers in his support of it he is expelled—as has happened already. So get out and vote-against the C.C.F. candidates, and urge everyone you know to do the same. Let's completely destroy this threat of dictatorship once and for all.
