CHLORINATION

What may be the final phase in the long-drawn-out "battle of chlorination" was deferred by city council members last night when Acting Mayor Brett and aldermen tabled a letter from Provincial Public Health Director Dr. G. F. Amyot, urging that the wartime water-purification measure be retained by the city for peacetime use.

The aldermen tabled the request until the full council could discuss it. Mayor Daggett and Aldermen Hills and Arnold were absent from last night's meet-

Dr. Amyot's letter said that, since the war measure which made chlorination necessary is 'sure to be rescinded in whole or in part" and that the federal government will not carry on with the cost of processing water after "a certain date," the city should take over the plan.

"Evidently they are trying to put the onus on the city to operate the chlorinator," Acting Mayor Brett commented.

Alderman Rudderham moved that the matter be tabled until it can be considered by the full council.

"I have opposed chlorination in the past and may do so again but I think the full council should consider it before any decision is reached," he said.

Council adopted Alderman Rudderham's resolution with an amendment by Alderman Sorenson that the city engineer prepare a report on the costs and technical advisability of continuing the chlorination of city

They keep fit by felling trees and cutting turf for the farmers. There are no restrictions.

Some have married Irish girls. They go to the local dances where they are greeted by their first names or nicknames. They get an abundance of milk, eggs, beef, butter and pocket money. And they do not want to go back to Germany.

The Eirie government has stated it would like to get rid of these guests, but so far none of the Allied governments has claimed them.

A Real Good Road . . .

We were over the Prince Rupert Highway as far as Terrace over the Labor Day week-end and can assure our readers that, in its present condition, there is no better gravel road in the country and probably few as good. The partial washouts on the Tyee Hill have been filled up and, as a result of the attention from a couple of graders during a few days last week, the entire surface all the way into Prince Rupert has been smoothed out. Every Labor Day holiday motorist to the interior, and hundreds of cars made the trip, people from Prince Rupert going out and people from the interior coming in, was happy to find the road in such good shape.

So we have been shown what can be done to keep the road in condition if a proper maintenance program is initiated. No doubt, now it has been started, the good work will be kept up.

Of course, if it is to be a real tourist and traffic artery, it will have to be eventually black-topped or

The Yanks Go Home . . .

The Yanks are moving out and we are all going to miss them, not just because they brought business and activity to our town but because they proved mighty good friends who won our affection and esteem.

They brought new ideas and, with their enthusiasm and vim, stirred us up. We can recall many occasions when they rose to assist us in putting on community affairs, giving freely of their time and talents in connection therewith.

Prince Rupert is going to be a quiet town when the Yanks are gone but we know they are going to take good accounts of us to their various homes all over the union. They are going to tell their home folks that we have a good town and a good country up here, a town and a country worth seeing. Consequently, we expect to have our very good friends from across the line back to visit us in the happy days ahead, bringing their dads and mothers, sisters and brothers with them.

We may be losing them now in their wartime capacities but we shall see many of them back again and, remembering the days which we spent together under the vicissitudes and difficulties of wartime conditions which were not altogether unhappy, we shall always be glad to welcome them.

BRITISH AMERICAN OIL

TO BE SERVED BY

Independent Canadian Company's coverage now extends coast to coast

It is with great pleasure that The British American Oil Company Limited announces the purchase of the physical assets and marketing facilities of The Union Oil Company of Canada in British Columbia and Alberta.

To the thousands of motorists, who have come to rely on Union service and products, B-A pledges a continuation of their high standards. As time goes on these customers will come to endorse the proud slogan: You always buy with confidence at the sign of the big B-A!

Already B-A's credit card facilities are available not only coast-to-coast in Canada, but also throughout the United States, through arrangements with three other great, independent Oil Companies - Gulf Oil . . . Mid Continent Petroleum . . . Union Oil of California.

To the hundreds of Union Oil dealers, B-A promises a franchise with a value second to none. To them it is a pleasure to announce that gasolene of pre-war power and economy is already available. And, as new type engines are produced, immeasurably superior gasolenes - product of wartime research and manufacturing capacity—will be at your disposal.

In conclusion The British American Oil Company Limited, as it enters the Pacific Coast market, looks forward confidently to the same happy relationship with the Public and Trade as it has enjoyed in every other part of the Dominion. This Company will do its best to deserve it.

TO THE CANADIAN PUBLIC

WE SAY

URING the war, so happily ended, the Canadian National Railways, as Canada's greatest transportation system, had a gigantic task to do.

Our ability to fulfill this duty to the credit and satisfaction of the Nation is due not only to the skill, devotion and zeal of those who are our workers, but in large measure to the Canadian Public who, by their generous responses to appeals for help and their uncomplaining acceptances of restrictions and controls, lightened our burden.

We wish to thank the Canadian Public sincerely for their help-the millions of passengers who used our trains and steamships, the shippers of freight and express, the guests in our hotels, the patrons of our telegraph and other services and the unnumbered citizens who refrained from travelling needlessly as their contribution to the common cause.

The surrender of the last enemy has ended the fighting but it has not ended the war job of the Canadian National Railways. The men and women in the Services have to be brought home without delay and for that purpose we shall continue to employ all our available passenger equipment. Millions of tons of materials must be transported for industrial reconversion.

So in saying "Thank You" we express the hope that in carrying out these and other extensions of our war job, we may continue to enjoy the understanding of the Canadian Public.

Desserts For September Meals Use Apples, Peaches New Ways

This is the mellow season of bake until the custard is set, To preserve your pots and pans the year. The clear blue skies, about 35 minutes. Six servings, slow changes in temperature the multicolored fruits and vegetables-these are the signs that autumn is here.

Autumn meals should match the days. Seasonal foods like corn on the cob, stuffed green peppers and vine-ripened tomatoes belong to these amber days. Desserts, too, are full of the fresh flavor of the seasonal peaches and the first apples.

Today we give three dessert recipes using peaches and apples in new and different ways. is a specially good choice for a meatless meal; the cottage the needed protein of the meal.

ECOMES THRU

Hank Switala's smooth Port Edward Americans took their first step toward retaining the Area Senior Softball championship they won last year by defeating Fortress 6 to 3 last night at Port Edward in the first game of the final series.

The Yanks collected six hits in the first two innings off Rube Sher, the Fortress team's pitcher, to produce five runs and although they secured only three hits throughout the rest of the fixture they kept their margin with heads-up play in the field.

Hitting star of the game was Carl Kryszanowski, the Canadians' third baseman, who cellected two doubles and two singles in his last engagement of he season. Kryszancwski is leaving tonight on leave for his home in Saskatoon.

The Fortress club threatened to rally in the seventh when Leask led off with a walk, Banner singled and, after Trickey grounded out third to first, Kryszanowski doubled scoring Leask and Banner, but the next two batters. flied out to end the in-

Dave Cody hurled the entire contest for the Yanks and pitcher steady ball, walking only one and striking out six, the same number as his rival, Sher.

For this game the Fortress management moved "Frenchy" Martel from shortstop to his old position behind the plate and put Joe Gefucia at short. Martel prevented the Americans from stealing a single base and he threw out one runner, Marlowe, in the third frame as he was trying to steal second.

SERGEANTS WIN OVER CORPORALS

"Grudge" Game Results in Score of 5 to 2

In a replay of the 17-inning "grudge game" they played last week, the Sergeants defeated the Corporals 5 to 8 in a softball fixture between United States Army teams last night on Acropolis

Just as their previous game was outstanding because of its length, the rivals' latest collision was made notable by the fact that neither club scored more than one run in any single inning and at the end of the nine! frames the scoreboard showed seven "cigars."

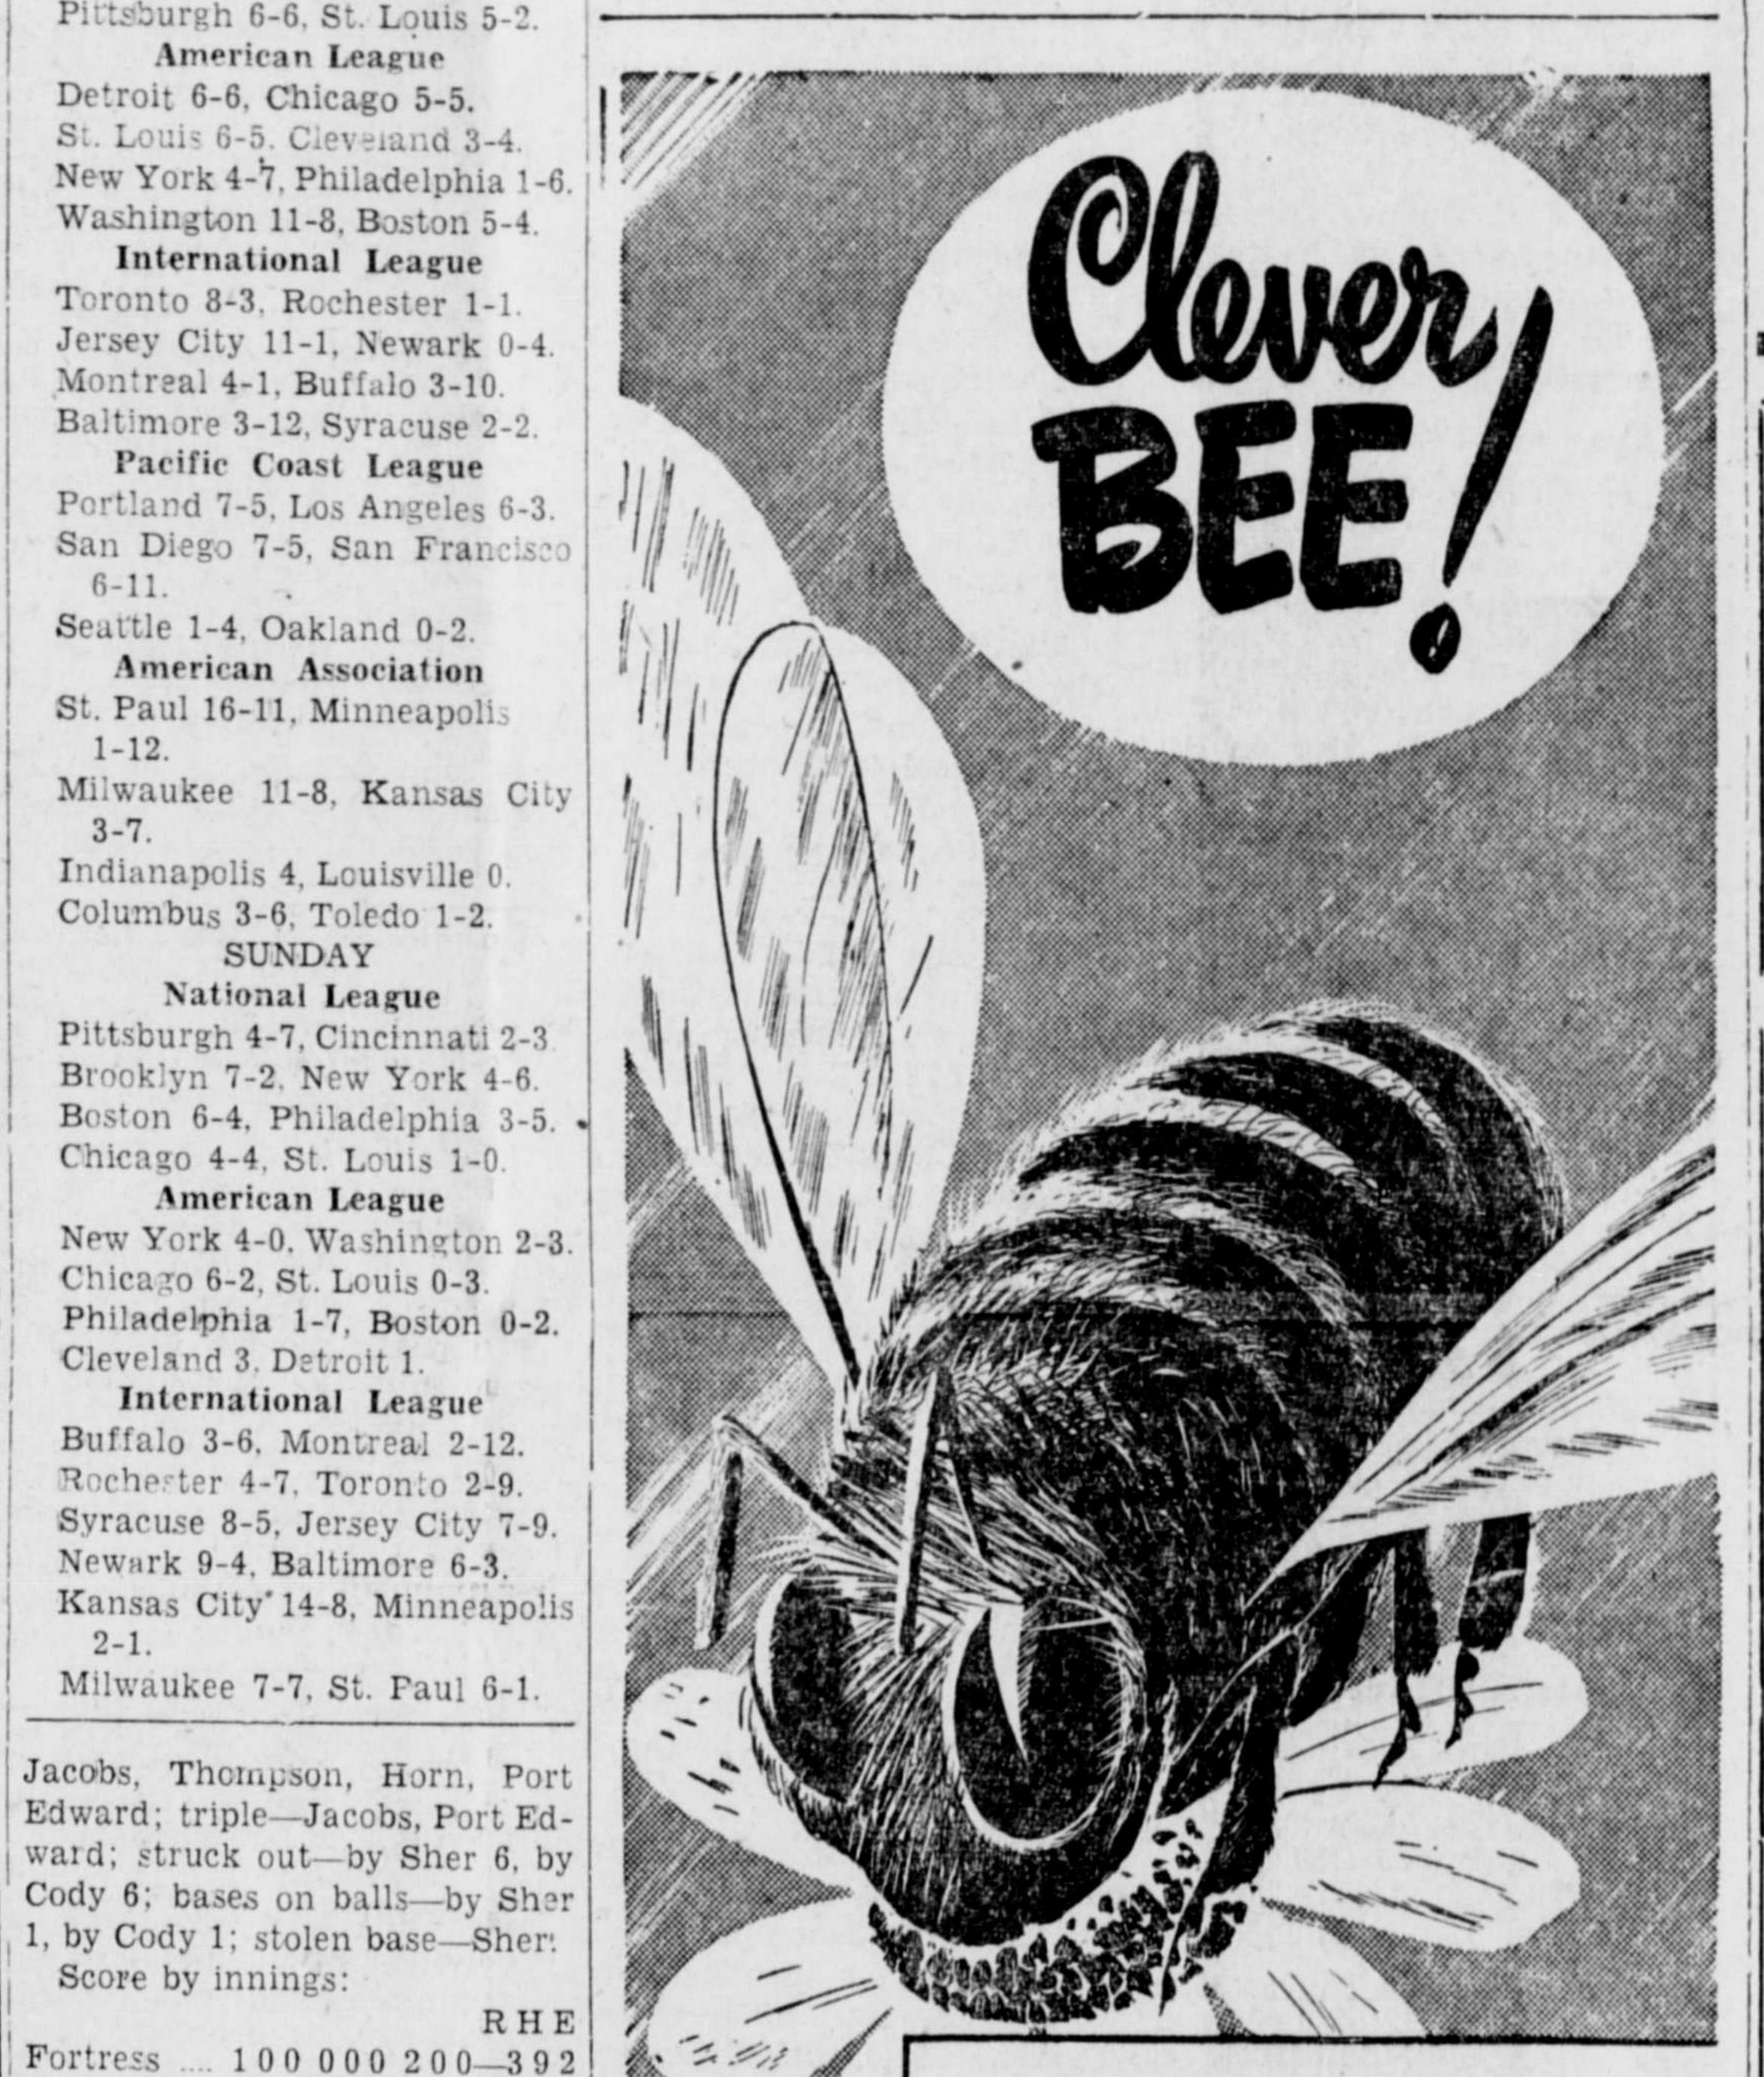

Johnny Ofsanka of the Sergeants connected for the only home run in the eight.

Cook ,the winning pitcher, yielded nine hits while the loser, Fryman, gave up 13. Score by innings:

Sergeants001011011-5 Corporals 100 000 001-21 Batteries: Sergeants — Cook and Stockstill; Corporals-Fryman and Randall.

GREAT FISH USERS

Japan is normally the world's leading fish-catcher and con-

ONLY while flowers are blooming can the busy bee gather the honey which is its food. And so it puts aside a generous supply which is not touched until it is really needed. The bee survives because it is provident. We should take a lesson from the bee. Let us continue to buy Victory Bonds and War Savings Stamps every time we get the opportunity. But most importantlet us keep them until we really need them.
