School Cadets Join in Hunt for Missing Vancouver Boy—Father Receives Mysterious Note

Day Call Off Plebiscite on Power Question

VANCOUVER, Nov. 7 (CP)—The council decided at a meeting yesterday that it will not submit a plebiscite on the proposed purchase of the British Columbia Electric Railway at the December civic elections if it involves the issuance of bonds by the city.

COL. MELLON, PORT COMMANDER, TRANSFERRED TO SAN FRANCISCO

Commander of the Prince Rupert sub-port of embarkation for the last twelve months, Col. J. H. Mellon, U. S. Army Transportation Corps, is leaving Sunday for San Francisco where he will become deputy commander of the transportation base at Fort Mason. His position here will be filled by Lieut. Col. J. McNamara, who has been commanding officer of the troops stationed at Acropolis Hill.

Omitted His Duty?

Charge Laid Against McBride Doctor Following Fire Death of Woman

VICTORIA, Nov. 7 (CP)—Dr. Donald W. Beach of McBride will appear in police court in Prince George on a charge of omitting to perform his legal duty as a doctor. The charge is laid in connection with the death of Mrs. Rose Soule who, with her two-year old son, was fatally burned when a gasoline lamp exploded and destroyed their home at McBride October 4.

Provincial Holiday But Not Dominion

VICTORIA, Nov. 7 (CP)—Next Monday has been proclaimed a public holiday under the provincial Factories Act, Shops Regulation Act and Weekly Half Holiday Act. However, officials at Ottawa said Monday would not be a Dominion holiday for the observance of Remembrance Day.

Grocery Store Window Smashed

A plate glass door window in the Overwatera grocery store on Third Avenue was smashed some time between 11:30 last night and 2 o'clock this morning but police report said there was no attempt at entry or theft from the building.

Mrs. B. Rochester returned to the city today on the Prince Rupert from a trip to Vancouver.

Looks Like Settlement

WINDSOR, Ont., Nov. 7 (CP)—There should be some definite indication today as to whether a quick settlement of the Ford strike is possible. Federal Labor Minister Mitchell is apparently optimistic about the situation. He said yesterday that he has definite hopes of getting the company and union representatives together today. Presumably, he and Ontario's attorney general, Leslie Blackwell, will attend that meeting.

Members of the United Automobile Workers of America (CIO) today began removal of a barricade of 1500 motorvehicles assembled Monday outside the strikebound plant of the Ford Motor Co. of Canada to prevent any effort by police reserves to force entry through the picket lines for Ford security guards.

Decision of the officials to clean up the barricade lent new support to the feeling that there are definite prospects of an early settlement of the strike.

APPEAL DISMISSED

Court of Appeal Not Interfering With Death Sentence of Alex Prince, Indian

VANCOUVER, Nov. 7 (CP)—The British Columbia Court of Appeal yesterday dismissed the appeal of Alex Prince, 22-year old Indian, sentenced to hang November 29 for the murder of Eugene Mesmer, northland trapper, early in 1944.

New York's New Mayor

City Voting in United States Seen as Endorsement of Roosevelt Policies

WASHINGTON, Nov. 7 (CP)—Chairman Robert Hannegan of the Democratic national committee says the voting in yesterday's municipal elections in the United States proves the popular will for a government pledged to carrying on the policies of the late President Roosevelt.

Four Thousand Internees at Santo Tomas Camp in Manila Deliberately Starved

MANILA, Nov. 7 (CP)—An American resident of the Philippines has added another chapter to the mass of testimony against the former Japanese war lord, Lieutenant General Tomoyuki Yamashita.

PRISONERS ARE FREED

TOKYO, Nov. 7 (CP)—The Japanese government has released more than 500 political prisoners and has discharged some 5,800 Japanese gendarmes under a directive from General MacArthur.

Former Prime Minister Would Not Share Secret

Does Not Believe Russia Would Reveal It Were Positions Reversed

LONDON, Nov. 7 (CP)—Former Prime Minister Winston Churchill told the House of Commons today that he believes Russia would not share the atomic bomb secret if she alone held it and urged that Prime Minister Clement Attlee in his forthcoming talks at Washington bring "no pressure" on the United States to divulge production details.

TROUBLE AT FRENCH PORT

LE HAVRE, Nov. 7 (CP)—A small gang of rowdies was held responsible by leading citizens of Le Havre for recent outbreaks of violence involving Frenchmen and American troops.

The United States Army barred all American troops from public places during daylight hours and declared the city itself out of bounds between hours of 6 p.m. and 6 a.m. Restrictions were ordered by Col. Thomas J. Weed, American commandant at the port, following nine successive days of shooting.

An editorial appeal by the local French daily, Le Havre Libre, asked American authorities to do something about "the insecurity of our streets."

Army officers for the most part blamed the situation on homesickness on part of soldiers coupled with adverse living conditions in war-blasted Le Havre, conditions which have strained the patience of its citizens.

Bulletins

ASSURE VETS OF JOBS OTTAWA—Veterans Minister Mackenzie has informed the House of Commons that an order-in-council has been passed assuring members of the interim forces of reinstatement in their civilian jobs after discharge. The order was made on recommendation of Labor Minister Mitchell and is expected to be tabled in the house today.

SNOW IN VANCOUVER VANCOUVER—Snow started falling here early today and continued throughout the morning, entirely covering the ground. Two inches fell in Victoria.

TO ADDRESS CONGRESS LONDON—During his visit to Washington, Prime Minister Attlee will address a joint session of United States Congress. The speech will be broadcast throughout the United States and Canada and probably to the United Kingdom.

FINANCE TREATY LONDON—The British government is hoping that a rough financial treaty between Britain and the United States will have been reached by the time Prime Minister Attlee arrives in Washington. The Labor party leader is expected to arrive in the United States capital Saturday for discussions with President Truman and Prime Minister Mackenzie King on atomic energy.

EIRE AND BRITAIN DUBLIN—Prime Minister Eamon de Valera has explained Eire's attitude toward Britain. He says his country has no intention of severing her link with the British Empire and that the aim of his party is to maintain good neighborly relations.

R.C.A.F. CRASH LONDON—The crash of an R.C.A.F. Flying Fortress in Germany is reported to have taken the lives of four Canadian crew members. Details of the crash are not yet available although an official statement is expected to be issued in Ottawa soon.

STREET CAR CRASH TORONTO—Twenty persons were injured today when an old type street car ran through an open switch on the way to the Exhibition grounds today. It jumped the track, ran into a pole and overturned. Most of the injured were service men.

TRAINING VETERANS OTTAWA—The federal labor department announces that the government has launched a program to educate veterans in the possibilities of employment in meat packing houses, woods operations, sawmills, coal and gold mining, foundries and other industries. The department re-emphasizes that there are, in its own words, plenty of jobs going begging in these lines of work.

PRISONERS OF JAPAN DISPLAY THEIR HOMEMADE FLAGS—When more than 250 American, Dutch, British and Canadian prisoners of war arrived at a Yokohama railroad station, Japan. After their release, many of them had their countries' flags which they had made while interned. Holding these flags (left to right) are: Spr. Ray Burridge, London, with a British flag; Cpl. Kenneth Gaudin, Quebec, with a Canadian flag; Chief Radio Mate Tom W. Gordy, Richmond, Ga., with an American flag; Pte. Ernest Irving, Washington, D.C., with an American flag, and Cpl. Leo Ferentz, of Holland, with a Dutch flag.

Clear Out Big Slide

Public Works Department Throwing Entire Force on Road Repair Work

The provincial Public Works Department at Prince Rupert has thrown all its men with extra equipment into the job of moving the big, 200-foot rockslide at Ansonb View, 16 miles east of the city, and it was expected this morning that the job would be completed by tonight.

It was understood from the Public Works office this morning that an estimate of the situation on the western end of the road should be available with the return of the road crews to the city tonight.

The situation along the highway further east was not clear at the Public Works office. Public Works Engineer J. C. Brady is still in the district between Hazelton and Pacific where some of the worst slides have come down. However, it was understood, work on the highway will be pressed with the object of clearing it as soon as possible.

HIS CLAIM DISMISSED

Suit of Capt. Charles H. Clarke against the federal government for \$3,589 was dismissed in the Exchequer Court by Mr. Justice Sidney Smith.

Clarke contended he was entitled to repayment of \$1272 for reconitioning of his boat, Western Girl, after 14 months' use by the Army and \$2,317 fishing profits he lost by delay in getting the vessel into service.

Mr. Justice Smith said that Clarke accepted return of the boat from the government as being in the same condition in which the Army had received it and could find no misrepresentation by the Army.

Weather Forecast

North Coast, Mainland and Charlottes—Fair to partly cloudy today becoming cloudy tonight and Thursday, with light rain or rain and snow mixed Thursday afternoon. Cold today, slightly warmer Thursday. Winds light to moderate.

VICTORY LOAN PROGRESS. QUOTA RESULTS \$700,000. RESULTS \$830,700.

AT LEAST 15 SLIDES ON HIGHWAY BETWEEN PRINCE RUPERT - TERRACE

Highway communication between Prince Rupert and Terrace is obstructed by a barrier of at least fifteen rock-and-earth slides while stretches of highway surface hundreds of yards in length have been eroded away by water which poured over the road at the week-end. A description of the havoc done to the road by what is believed to be the heaviest short-period rainfall on record in the area west of Terrace was given to the Daily News by Tom Olsen of Terrace who walked over 30 miles of the damaged road between Terrace and East Kwititsa on Saturday and Sunday.

IS NOT TO BE HANGED

Appeal Court Alters Murder Verdict and Sentences Daniel Harrison to Life Imprisonment

VANCOUVER, Nov. 7 (CP)—A murder conviction against Daniel Harrison, former soldier, was changed by the British Columbia Court of Appeal yesterday to one of manslaughter and the sentence changed to life imprisonment. He had been scheduled to be hanged November 28 for the slaying on May 17, 1944, of Clifford Lennox, aged 21, formerly of Winnipeg.

Loan Still Moving Up

Cumulative Total to Date is 119 Per Cent Over Primary Quota

Taking into account yesterday's subscriptions of \$25,000, the cumulative total for the Ninth Victory Loan to date stands at \$830,700 or 119 per cent of primary objective of \$700,000. This is a great increase over \$667,050 at a corresponding date in the Eighth Loan campaign.

Dangers in Suspicion . . .

When Prime Minister King, Prime Minister Attlee and President Truman meet in Washington to discuss matters relative to the atomic bomb and atomic energy development and control, they will have clearly before them the indications that Russia soon will be in possession of the scientific formula for the bomb, if she does not now have the required knowledge, says the Victoria Times. The three leaders of state can have few illusions over the possibility of keeping the secret. Nor need they expect that Russia will be the only power to join them in shared knowledge.

They will know, too, that the potential dangers of the atomic bomb will be vastly increased by the growth of international suspicion. It will be safe to assume, therefore, that their discussions regarding atomic development will be colored essentially by consideration of means to eliminate the suspicion which can pervert future use of this great power. As long as distrust exists between nations, atomic energy is a Frankenstein. It can gain its rightful, honest place in world society only when nations capable of producing it trust one another.

Crisis on Local Highway . . .

The first winter testing which the Prince Rupert Highway has had and which has demonstrated its deficiencies indicate that this road, before it can be regarded as a consistent and dependable artery of traffic, must have extensive construction reinforcement and improvement. It must be more than the mere emergency military highway as which it was built. A permanent commercial and tourist highway demands more than that so it must be handled in a different way.

First, of course, the question of

its status must be settled once and for all and it would be well that we should press with that end in view. It is not to be expected that any authority the jurisdiction of which is not permanently established will assume the responsibility for a program of repairs or maintenance such as has already become involved through the widespread damage which was done during the last week.

In a way the Prince Rupert Highway is a matter of unfinished business. We have now been shown that more than mere maintenance is involved in the work that must be undertaken.

Meanwhile it looks like the highway is out of business for the winter at least and we will have to concentrate our insistent representations on first having the question of jurisdiction settled so that responsibility for its completion and permanent maintenance may be definitely fixed. If the matter is not taken in hand it is quite possible we may have no through highway left at all.

A Third Term? . . .

Mayor H. M. Daggett has received the blessing of the Civic Labor Federation for his third-term candidature for the mayoralty. There are few who will not agree that His Worship has given Prince Rupert good, conscientious and honest service during his tenure in the mayoralty. Probably that is why there appears to be a general disposition to accord him an acclamation for the further term.

The mayor has always enjoyed the blessing of the labor interests although he does not seem to have been definitely tied down or committed to them in any way.

Of course it is quite a long time to election day now and there may be new developments. In the meantime, since it is generally acknowledged that he has done a decent job, there appears to be no general objection to the continuation of Mr. Daggett as the guiding officer of municipal affairs.

Evidently, the electors are to be given a wider choice in the selection of aldermanic material with a full Civic Labor Federation slate already in the field as well as independent candidates also announced. And, after all, it is in the ranks of the council where civic policy is really decided.

THIS AND THAT

The George Matthew Adams Service, Inc.

"Think we'll have much trouble getting your parents' consent?"

Letters to the Editor

MAYOR'S APPRECIATION

Editor, Daily News:

I desire to express my appreciation of the fact that the pupils of the Booth Memorial High School accepted my challenge and have repaired the damage done to the Gyro playground on Halloween.

I am sure that the public will appreciate as I do the co-operation of the pupils in this matter and, on my own behalf and of the citizens generally, I extend to all those who shared in the labor thanks for what has been done.

I understand that there were more volunteers than were required and twenty-four were chosen from the number to do the work.

Boys, I thank you and appreciate this more than I can express in words.

H. M. DAGGETT
Mayor.

NATION AND SABBATH

In your issue of October 27 you reprint an article by W. L. Belton under the heading "Sabbath Loss Grave Peril." Since every man is entitled to his own opinion and one man's opinion is as good as another, we will waste little space with our opinion. What really matters is the truth.

In John 17:17 it is recorded that Christ in his prayer to His Father said "Thy Word is Truth." To us the Bible is just that and we claim what is needed today is not interpreting the Bible but believing the Bible as it is written. Scientifically proven facts are also beyond question.

We agree with much that Mr. Belton says and we believe that science has proven that it is profitable from the standpoint of health, wealth and happiness to rest one day in seven. But, when we turn to such serious thoughts we should be sure our preoccupation is sound.

Referring to the Sabbath day he says we are losing it, possibly not knowing that we lost it as far back as 321 A. D. on March 7, to be exact, when Constantine decreed for the first time that the "venerable day of the Sun" (the ancient day set aside by pagan sun worshippers of Egypt, Greece Rome, etc.) be observed officially as the Sabbath. Though God's word states plainly (Exodus 20: 10) "The seventh day is the Sabbath of the Lord."

The command was to remember the Sabbath. The reason, "For in six days the Lord made the Heaven (Gen. 1, 6 to 8) the Earth the Sea and all that in them is, and rested the seventh day. Wherefore the Lord blessed the seventh day and hallowed it."

Almost identical language is

used in Genesis 2:3, "And God blessed the seventh day and sanctified it because that in it he had rested from all his work which God created and made."

Is it any wonder few men believe God created the earth etc. much less in six days, when the memorial has been lost these 1600 years? Then the assumption that Canada is "a Christian nation" must be based on tradition rather than fact for we read in Acts 11:26 "The disciples were called Christians first at Antioch," thus directly indicating that true Christians are disciples of Christ. Are we Canadians, by and large, disciples?

After all, what does it matter which day we keep or whether we keep any if we are not disciples of Jesus? He said, "I am the Way, the Truth and the Life, no man cometh unto the Father but by Me." (John 14:6) and "I am the Resurrection and the Life, he that believeth in Me though he were dead, yet shall he live." (John 11:25).

John states plainly "he that hath the Son hath Life, and he that hath not the Son of God hath not Life." (John 1, 5:12).

THE CARPENTER

NEW WOUND TREATMENT BOMBAY—The Department of Pharmacology here, investigating treatment of war wounds, has evolved a technique of dressing wounds with a cod-liver oil sulphamide paste and a sulphamide impregnated pad. The method was given an extensive clinical trial in Burma and is being adopted as a routine treatment.

At Least 15 Slides on Road

(Continued from Page 1)

the Terrace-Prince Rupert highway. This slide is more than 200 feet long and is composed of rocks and trees which filled the highway and overflowed onto the railroad below. There are many places on the highway in that area that are partially covered.

So violent were the floods and slides that rocks and boulders pounded down the creek beds piling up at the bridges while the waters carved their way around the bridges. Two small creeks west of Amsbury ripped away the approaches to their bridges.

"At one place there is a little bridge loaded with boulders like the back of a truck. The water has torn away the approaches and the creek no longer passes under the bridge but along one end of it," Mr. Olsen said.

Shames River Bridge Tilted

Piling at the northeast end of the big Shames River bridge was washed away and now the bridge stands tilted. Of extremely sturdy construction, the bridge can be repaired, Mr. Olsen believes.

Describing conditions in the mountains west of Terrace on Friday night when the floods and slides were at their height, Mr. Olsen said that the mountains were "roaring with water and that a hot wind which blew up the valley melted the snow on the higher levels quickly."

"The wind was so warm it seemed like steam," he declared. At Terrace, Nigel Sherwood, who keeps the weather records, recorded a rainfall of 3.7 inches on Friday, Mr. Olsen said.

"Mr. Sherwood said that it was the heaviest rainfall ever recorded at Terrace and it rained heavier farther west," he added. Between Amsbury and Shames there were six slides, some of them large, while there were two smaller slides on the highway between Extew and Salvus.

Between Salvus and Kwinitsa there are many places where the

highway surface is washed away to a depth of three feet while this same condition exists between Salvus and Tye, 20 miles east of Prince Rupert. Highway equipment at Terrace consists of a bulldozer and two graders, which may be required to repair damage to logging roads in the Terrace district, rather than to repair the Prince

Rupert Highway. Mr. Olsen said he would not hazard an opinion as to the length of time it would be required to repair the highway but felt that it could be done in a comparatively short time if "planting equipment" were put into operation. At least two major slides on the highway in the area between Tye and Prince Rupert. In the area immediately east of Terrace there are rockslides, Mr. Olsen said.

KAY SUNBERG PRETTY BRIDE

St. Andrew's Anglican Church was the setting for a pretty ceremony last Thursday which joined Kathleen Maida (Kay), daughter of Mr. and Mrs. Charles Sunberg of Prince Rupert, and Sgt. John Hamilton (Blackie) Leask, son of Mrs. E. J. Leask of Fort Erie, Ontario.

Bishop J. B. Gibson officiated. Given in marriage by her father, the bride looked lovely in ivory crepe with panels of lace, with a veil caught by a Mary Queen of Scots headdress. Tallsmann roses fashioned the bridal bouquet.

Attending the bride was her sister, Ann Sunberg, as maid of honor in pink and white net and taffet. Miss Evelyn Hatton, as bridesmaid, wore ice blue crepe. Little Irene Rowe, niece of the bride, as flower girl, was gowned in pink satin and net. All three carried Colonial bouquets of carnations. Groomsman was Corporal Jim Hill.

A reception was held at the home of the bride's parents where the rooms were tastefully decorated in pink and white. The bride's table was centred with a three-tier wedding cake. The bridal couple were assisted in receiving the guests by the bride's mother, who was gowned in a black two-piece crepe afternoon dress and wore a corsage of carnations.

Capt. H. C. Flood proposed the toast to the bride and groom. The happy couple were the recipients of many lovely gifts. Telegrams were received from the groom's mother at Port Erie and grandfather and aunts at Simcoe, Ontario.

Sgt. and Mrs. Leask are leaving for the East where they will make their home.

Home After Serving On Two War Fronts

After serving overseas for three years, going unscathed through the campaigns in Sicily, Italy, Holland and Germany with the Thirteenth Field Company, Royal Canadian Artillery, Lance Corporal Ernest Fitzpatrick arrived here at the first of the week for a visit with his parents, Mr. and Mrs. E. J. Fitzpatrick. He crossed the Atlantic on the Queen Elizabeth. L/C Fitzpatrick enlisted in Trail where he had been in the service of the West Kootenay Power & Light Co. since 1935. For six years prior to that he had been here in Prince Rupert.

Another of the Fitzpatrick sons, Eugene, is still overseas, serving with the Regina Rifles in the Army of Occupation.

The two brothers had the good fortune to be on leave together in London on V-E Day.

TEMPERATURES AT FREEZING FOR 24 HOURS

Overnight temperatures dropped to a minimum of 21 degrees again as clear cold weather continued for the third day. Highest temperature during the 24 hour period yesterday was 32 degrees, making it the first day of the year in which freezing temperatures continued around the clock.

Reports were prevalent of water pipes freezing in some city homes although generally most householders are weathering the cold snap without any great hardship.

Weather forecast is for clear and cold with light to moderate winds.

PIONEER OF NORTHWEST

Mrs. P. Curry, Mother of Dr. J. L. Curry, Passes Away

The death of Mrs. Patience Curry, mother of J. L. Curry, Prince Rupert entrepreneur, at the home of her son here Tuesday afternoon severed another of western Canada's links with the historic days of the Riel Rebellion of 1885 in Saskatchewan. While visiting her son here, Mrs. Curry passed away at the age of 81.

Born in Nottingham, England, Mrs. Curry came to Canada by sailing vessel in 1884 and went to North Battleford in what was then the North West Territories. She moved to Lethbridge the following year, where she was married in 1889. Her two sons, J. L. Curry, of Prince Rupert, and Cyril Curry, of Vancouver, were born at Lethbridge.

She was predeceased by her husband, who was a general merchant at North Battleford and Lethbridge, 20 years ago in Vancouver. During her lifetime Mrs. Curry won a wide circle of friends on the prairies and in Vancouver.

The body will be accompanied to Vancouver Thursday night by Dr. Curry. Burial will take place at Ocean View Park with Mount Pleasant Undertakers in charge.

LONDON (C) — The Women's Adjustment Board has set up a training centre for domestic servants. Food cooked by them is served in a restaurant and the proceeds will be used to pay for the training.

HOW CAN I ???
By ANNE ASHLEY

Q. How can I give a better flavor to coffee?
A. The flavor of coffee will be more delicious if it is allowed to stand for a few minutes after removing from the fire. Pouring a little cold water into the spout will also have a settling effect.
Q. How can I clean rubber raincoats?
A. Use lukewarm water and white soap. Wipe off with clear water and hang out to dry. Never use benzine or gasoline on rubber.
Q. How can I soften egg shells?
A. By putting the eggs in vinegar for about twenty-four hours. Longer is necessary.

Aussie Buffaloes Go to the Pacific

DARWIN, Australia, Nov. 7 — In Australia's Northern Territory buffalo hunters used to ride after the herds with sawed-off shotguns and shoot the bulls for their hides. The hides weigh about 65 pounds each, worth about eight dollars before the war.

Next year the hunters plan to ride after the calves, lasso and tame them, and ship them to the Philippines and Netherlands Indies to replace the water-buffaloes slaughtered by the Japanese.

First to think of the idea was Frank Gaines of UNRRA who found a shortage of 100,000 work-link buffaloes in the Philippines alone. Major William (Buffalo Bill) Grainger, formerly of the Australian Army and now of UNRRA, has worked out the details.

Early next year when the northwest, or wet, monsoon lets up the buffalo-busters will set out. They expect to gather in 5,000 buffalo calves and youngsters the first season and are to receive \$35 a head for them.

A six weeks' survey by plane, launch, motor truck and horseback showed huge herds. There has been no buffalo hunting since the Pacific war began.

RUTHIN, Wales, (Reuters) — Alderman Edward Thomas, 81, has withdrawn his acceptance of the mayoralty of Ruthin, due to advancing years and the condition of his health.

WOMAN DRIVES MINING TOWN

Fighting Ann Shipley Guides Destinies of 24,000 People in Kirkland Lake

By JIM HORNICK
Canadian Press Correspondent
KIRKLAND LAKE, Ont., Nov. 7 — Fighting Ann Shipley, reeve of Teck Township, is making history both for herself and the rich gold mining camp over which she has civic jurisdiction. She has been in public life for seven years.

One of the very few women in Canada today to have attained such high office in the municipal arena, Reeve Shipley controls the destinies of some 24,000

people in the area which has never been incorporated — not even as a village.

Although the population of Teck Township has long been sufficient to bring it city status and its chief magistrate the rank of mayor, this has never been done due to the added tax burdens it would bring.

Kirkland Lake is neither village, town or city. It is just an over-sized settlement which serves as capital and showplace of the township. This is where Ann Shipley and her all-male council holds forth.

A widow since 1941 when her husband, Dr. Manley Adair Shipley, died, the reeve has won for herself a reputation of accomplishment and ability which has no parallel at least in this part of Ontario. She has also won for

herself an affectionate nickname—“The Lady of the North.”

It was at the recent annual conference of the Association of Ontario Mayors and Reeves that Premier George A. Drew pinned the new title on Teck Township's widely known municipal chief. The association's president, Mayor George R. Inglis of Niagara Falls, and others, concurred. The title has stuck since.

Reeve Shipley was chairman for two terms of the Association of Mining Municipalities of Northern Ontario and as such was instrumental in extracting from the government a promise that the vexing mines taxation structure would be altered. This is a problem on which mining centres have been urging action for the past decade.

It was in 1398 that Mrs. Ship-

ley first decided to toss her hat into the ring. She was elected to the public school board. The following year she was re-elected and in 1941 became a member of the council. The following year she was defeated in her first reeve-ship fight but was successful in 1943.

Throughout the war when mining expansion was throttled by federal restrictions on men and materials, Kirkland Lake suffered more than its share of severe setbacks. Tax revenue could not begin to keep up with the upkeep costs of modern municipal services which had been instituted during the days of plenty.

Through the work of Reeve Shipley and others in council, Teck Township went unger prov-

incial supervision with the Ontario government underwriting the entire cost of operation—thus saving this community from becoming a poverty stricken ghost town.

Now that all centres of gold mining are experiencing new booms, workers returning to Kirkland Lake are finding everything in good order. Details have been ironed out for the opening up of new residential sections to relieve the already acute housing situation and the municipal staff stands ready with the blueprints and the experience to do their part in the big conversion program.

Just 47 years of age, Ann Shipley is the mother of three children. She was born near St. Thomas.

Government Holds Big Dundee Project

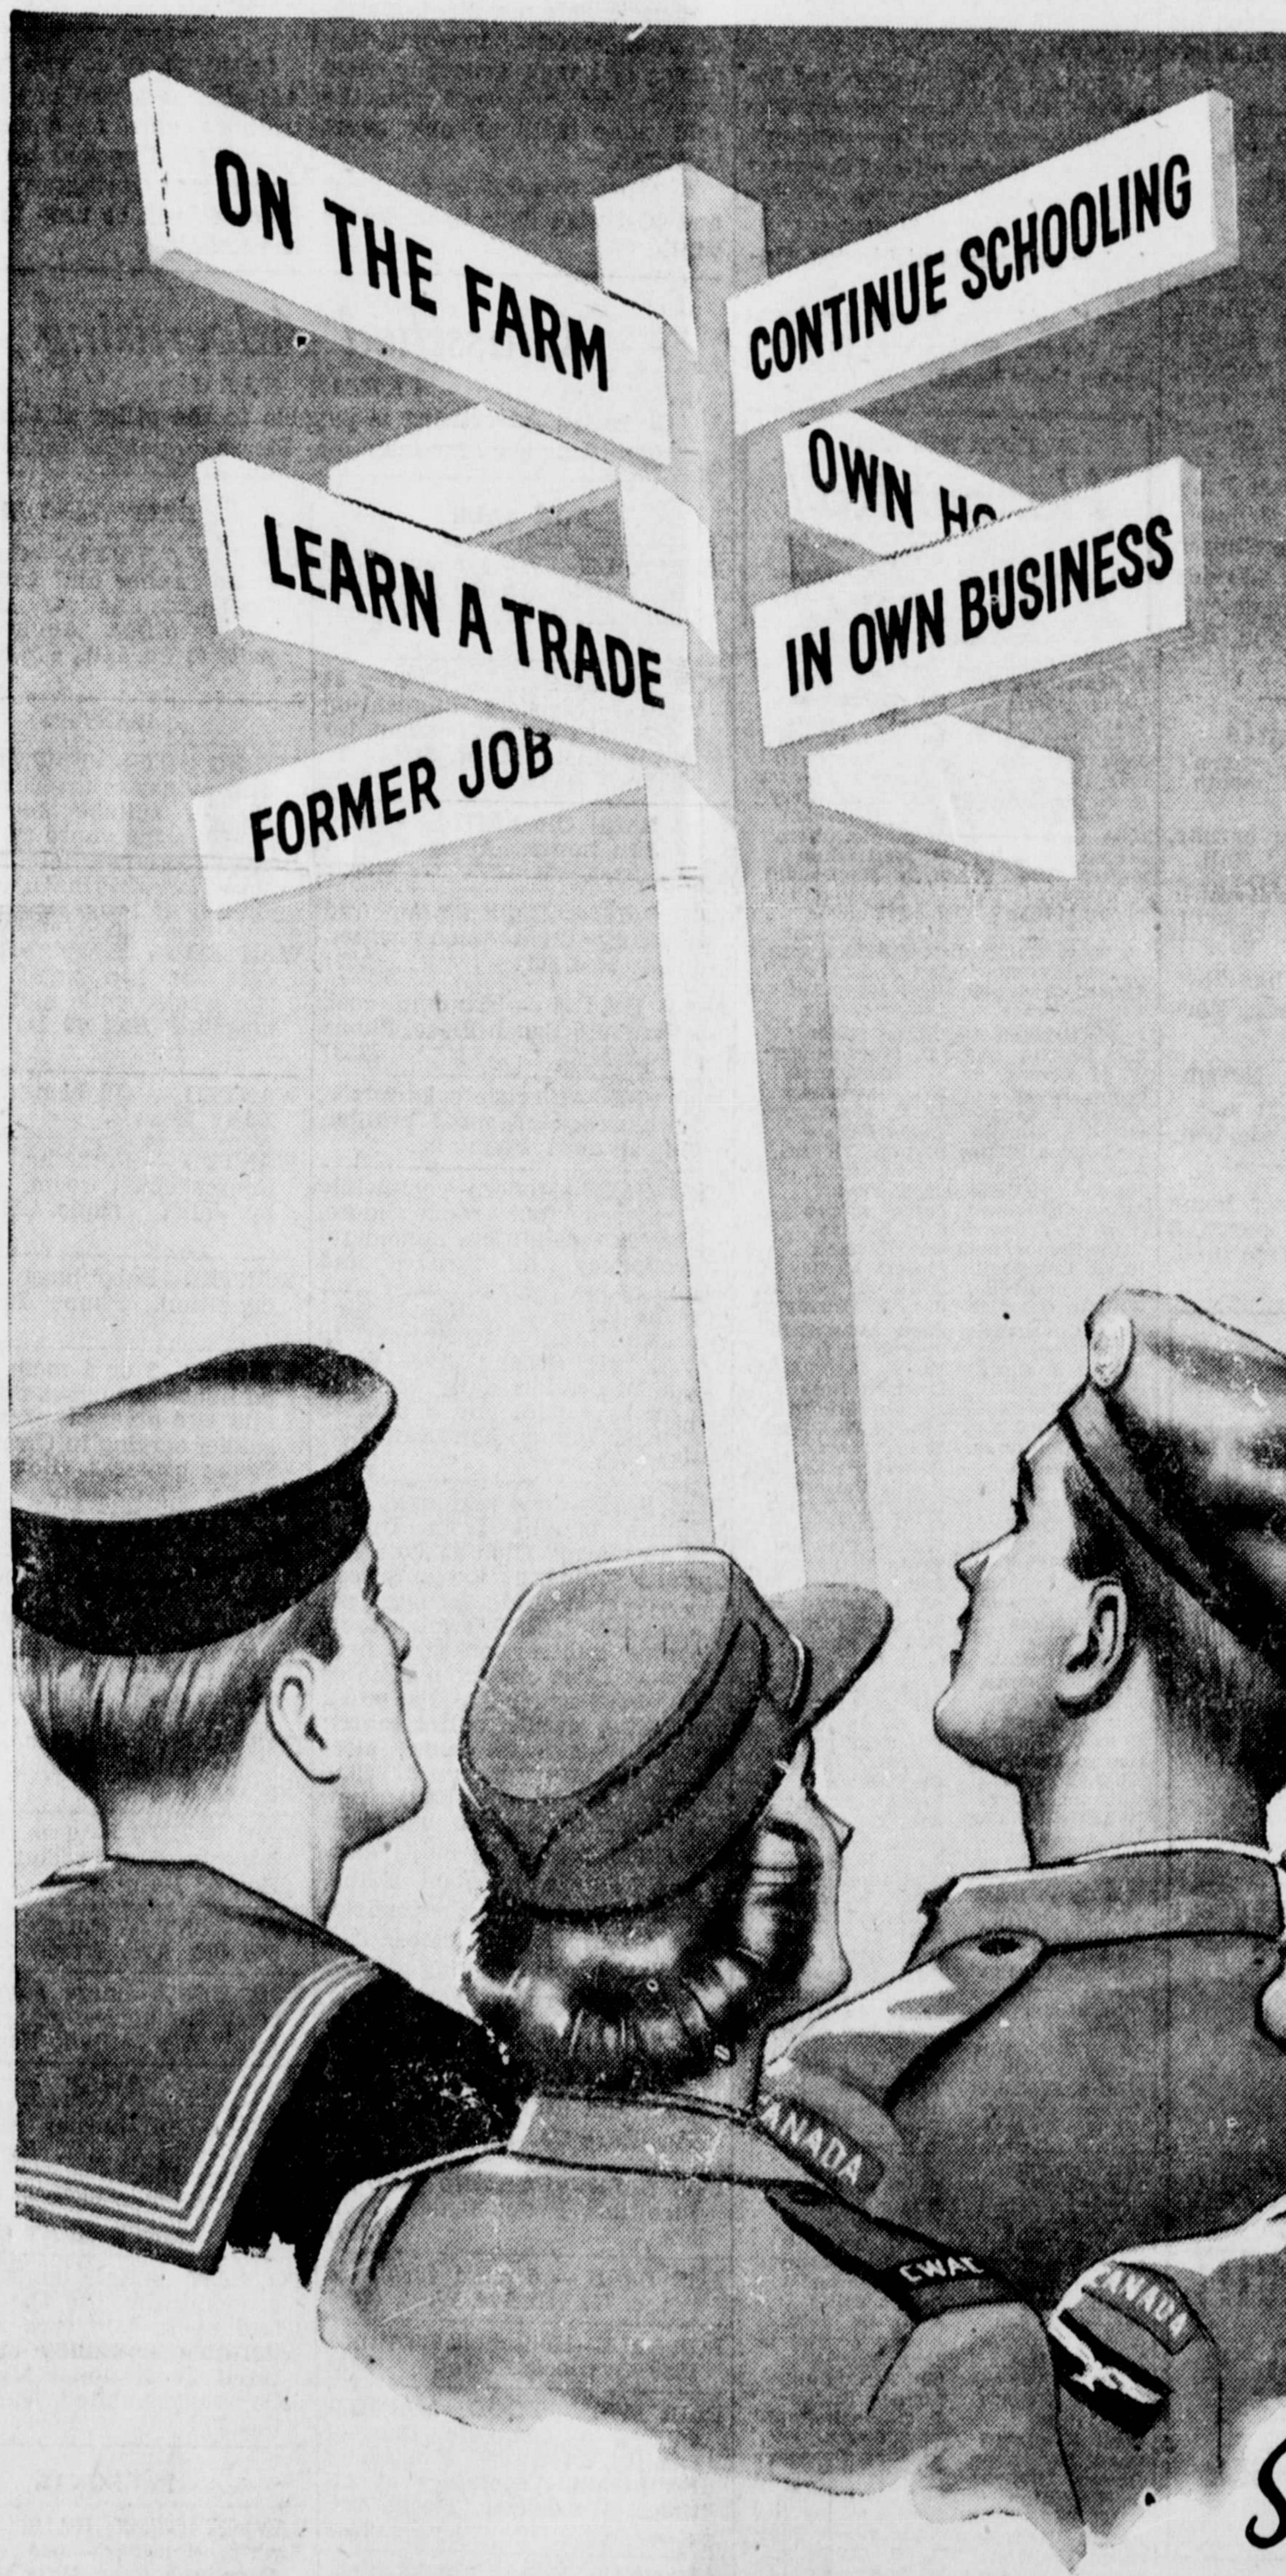

— DUNDEE, Scotland, (Reuters)—Two ambitious Dundee projects must wait. The ministry of war transport has formed the city a project bridge over the Tay river and given only a low priority. The ministry said it was doubtful whether the needs of through traffic would be met by the proposed traffic bridge as the north traffic route was through Perth.

The Scottish home department has informed Dundee trustees that it is unlikely can be proceeded with soon. Proposed drydock.

Birds on battlefields are upset by shellfire than men.

CROSSROADS

Whatever Road They Choose . . . We Owe Them Our Help!

THEY'RE AT THE CROSSROADS—back from the hardships of war—changed perhaps in their outlook. Not so much older, but wiser by far. What they look forward to in Canada is freedom and opportunity. For that's what they dreamed of as they were out there on the battlefield, or zoomed into the flak over the target, or took up battle stations when the sub pack threatened.

Now they're back to seek and find that opportunity—opportunity you can help give them. A chance to complete their education, to own their own farms, their own homes, to learn trades or go into their own businesses. To pick up the threads again and start anew on the road of life.

Yes, your purchases of VICTORY BONDS help provide that chance—for the 9th Victory Loan will be largely used to finance rehabilitation. So dig down deep this time and buy more Victory Bonds than ever. And you'll not only be helping to pay the debt we owe these men and women, but helping to assure your own future by your savings.

Remember, there will only be one Victory Loan in the next 12 months—so you can buy double the amount with the same deductions from your pay envelope, extended over 12 months.

CHINESE REDS CLAIM MAJOR WIN OVER GOV'T

CHUNGKING, Nov. 7 (C)—Chinese communists said today that their forces had decisively defeated 70,000 government troops in fighting along the Peiping-Hankow railway during which they captured the Hopeh Province rail junction of Tzeshien on October 25.

The Communists said that the government forces consisted of eight divisions including three "equipped with American arms and noted for their combat powers." The Communist claims, if true, meant that the movement of President Chiang Kai-Shek's armies along the Peiping-Hankow railroad toward north China and Manchuria had been smashed.

Mrs. S. D. Johnston returned on the Prince Rupert today from a trip to Vancouver.

U. S. SEAMEN SEIZED BY COMMUNISTS

SHANGHAI, Nov. 7 (C)—The reported seizure by Chinese Communists of several American crewmen from an American liberty ship in the Chin Gang Tao region today brought a prompt news blackout in United States Army headquarters at Shanghai. Newspapers, dependent on British sources, were told that some seamen were seized by Chinese Communists, but some were released with apologies.

The known facts are that the presence in north China of United States marines and the operation of several liberty ships is arousing considerable resentment among the Communists.

Douglas Payne, son of Mr. and Mrs. J. J. Payne, and Gordon Fraser, son of Mr. and Mrs. G. H. Fraser, returned today on the Prince Rupert from Vancouver where they received their discharges from the Royal Canadian Navy.

Surprise Birthday Party Is Enjoyed

Well-wishing friends of Mrs. Bertha Gammon, 427 Fifth Ave. West, joined last night in a happy surprise party to wish her many happy returns of the day on the occasion of her birthday. Features of the evening's proceedings was the presentation to Mrs. Gammon of a beautifully done-up parcel containing many lovely handkerchiefs. On behalf of the company assembled, the presentation was made by Mrs. Kinslor, who voiced sentiments suitable to the occasion. The birthday cake which the guests brought was made and decorated by Mrs. Myham.

Bob Rudderham, son of Alderman and Mrs. George Rudderham, returned today on the Prince Rupert from Camp Nanaimo where he received his discharge from the army after serving for two and a half years overseas with the Royal Canadian Corps of Signals.

FIRST TRAINS TO MOVE ON LINE MONDAY

Through service on the Canadian National Railways line out of Prince Rupert is expected to be resumed Monday night, according to an announcement from the office of Superintendent C. A. Berner this morning. Railway crews are now working east of Terrace where two major slides and several smaller ones obstruct the track.

Freezing temperatures in the interior have created further difficulties to the harrassed road crews by hardening the earth and making it necessary to loosen the ground with picks before it can be moved by the heavy machinery.

Trains are expected to arrive in Prince Rupert and to leave here Monday night.

Mrs. J. R. Wainwright, of Oakville, Ontario, arrived in the city today on the Prince Rupert to pay a visit to her sister, Mrs. R. L. McIntosh, 310 Fourth Ave.

GARDEN 'NOTEBOOK'
MANY GARDEN CROPS ARE EASILY STORED FOR WINTER

As freezing weather approaches vegetables which remain in good condition in the garden may easily be stored safely for winter use. Kale, Brussels sprouts, parsnips and salsify will stand freezing, and are usually left in the garden and harvested as needed, until just before the ground freezes deeply.

If parsnips and salsify are dug at this stage, washed and enough for one meal packed in a paper bag, the bags can be stored out-

which is provided with a ladder or steps. A door should be fitted to the entrance, preferably two doors with an air-space between them, to keep out the frost. In such a pit the fruits and vegetables may be stored in boxes, bins or on shelves.

Where the quantity to be stored does not warrant a large pit, various adaptations of the idea may be used, as shown in the illustration. Vegetables stored should be in

Easy Methods of Storing Vegetables

doors in any convenient place where they will remain dry and safe from animals. They can be taken into the kitchen and thawed out as needed.

Carrots, beets, turnips, rutabagas, potatoes, apples and cabbages can be stored in unheated garage or shed for several weeks, until the outside temperatures have fallen to several degrees below freezing. If the carrots, beets and turnips are placed in boxes packed in soil which is kept moist in the protection of the garage or shed they will keep well in any extremely low temperatures. Sand is not good for this packing, as it does not retain moisture well. Potatoes should not be packed in this way.

A better method is a cold cellar, or basement room, in which the temperature can be kept down to as near 34 to 38 degrees as possible, and ventilation provided. In such a room, the vegetables should be stored on shelves, racks, slat bins or solid boxes, raised off the floor. A concrete floor should be sprinkled every few days, and an earth floor kept somewhat damp.

Pumpkins, squash and sweet potatoes should be stored in a temperature between 55 and 65 degrees, which is often found in a heated basement. The crops requiring lower temperatures may be kept in heated basements for some time if they are packed in boxes with wet sand about them.

Where basement storage is not practical, an outdoor storage pit may be easily constructed by digging a pit as large as desired and deep enough to stand in. Lay heavy boards over the pit, even with the surface, and cover the boards with a mound of earth. A ditch should be dug around the mound, to lead surface water away from the pit entrance.

good condition, not too old or too immature; and tender vegetables which have been exposed to frost should never be stored. Avoid vegetables with bruises or skin punctures, as decay will start from these, and never store vegetables which are wet. Even the hardiest vegetables should not be stored if they have been frozen.

Do not close outdoor root cellars tightly until the temperature inside has dropped close to freezing, and do not cover vegetables in earth pits until the soil has cooled off thoroughly.

British Columbia Settings for Picture "Son of Lassie" Coming This Week-end

A feature of particular interest in connection with the fine animal picture "Son of Lassie," coming this Thursday, Friday and Saturday to the Capitol Theatre, is that much of it was photographed on Vancouver Island and in the Canadian Rockies around Banff, Lake Louise, Moraine Lake and Victoria Glacier. Personnel and sets were moved from Hollywood to British Columbia lock, stock and barrel so that natural scenery might be obtained. To give the Air Force atmosphere, which is an essential part of the story, there was also considerable of the filming done around Patricia Bay near Victoria.

In technicolor, "Son of Lassie" is a continuation of the popular "Lassie" series. Donald Crisp, Nigel Bruce, Peter Lawford and June Lockhart have the leading roles.

"Son of Lassie" tells of Laddie, a foolish pup who grows up to follow his daring young master into many dangers and passes the true test of courage when courage means life itself. It takes the audience from Yorkshire, Lassie's home, to an air mission over occupied Norway, where Laddie and his airman master are forced to parachute into danger and dog and flier spend perilous days battling the enemy.

DOG TRAILS BRING TOWN PROSPERITY

Handlers Spend Average of \$3,000 Each in Three Month Trials

GAINSBOROUGH, Sask., Nov. 7.—A simple sign at the crossing of a couple of trails seven miles from this southeastern Saskatchewan town points the way to a playground of millionaires. The sign says "Trials" and the dog trails that go on at the end of the trail bring the cream of American setters and pointers into this part of the country.

Around little Gainsborough, 91 miles east of Estevan, where the sport has been popular for 35 years, the same people have been coming back with dogs for so many years that everyone is quite neighborly about it all. Two handlers showed up so often that eventually they bought property nearby and make the district their summer home.

The others who come in year after year from the United States, handling dogs owned by wealthy and influential Americans, bring much business. Their average expenditure in the three months they were here this year was \$3,000 a camp—and there are five camps in the district.

So, such sponsoring organizations as the Dominion Field Trial Club of nearby Pearson, Man., and the Great Northern Field Trial Club of Gainsborough are more like glorified boards of trade than clubs in the accepted sense of the word.

Those interested in the sport have their own publication—The American Field—and a staff writer represented it at this year's trials. Dogs and trainers arrive three months before the trials open, putting the animals into condition for the big events.

At Gainsborough this year 50 professional trainers arrived, each bringing from 40 to 65 dogs. Trainers rent buildings from farmers in which to house their dogs, and rent or buy horses for use in riding through the countryside behind their dogs.

Canine Aristocrats

The trainers also pay the Saskatchewan government a licence fee of \$25 for five dogs and \$1 for each dog above that number. The animals themselves are treated like film stars. They eat such things as shredded wheat, fresh meats, commercial dog foods and fresh tripe.

They go out during the trials to see how many birds they can spot, how they can stack up against the other dogs for form. Dogs are run in pairs. Judges, trainers, handlers and spectators follow on horseback. Trainers direct the dogs over the course by word of mouth or by whistle in pursuit of legitimate game—pheasant, partridge, prairie-chicken.

When a dog spots a bird it "freezes" or points, and its handlers yell "Point." Judges then pass on the dog, use a whip to flush the birds from before him. In the course of a day's work the judges and trainers may go 45 miles on horseback.

Prize money ranging from \$50 to \$30 is offered in the different trials and this goes to the handlers of the winning dogs, with a percentage going to the sponsoring club.

While all this is going on the men who own the dogs sit in their offices in Miami, Chicago, Birmingham, Ala., or some other American centre directing the affairs of industry.

Trainers take the dogs from one trial to another, starting here each summer and working south, and the better their charges show at the trials the more valuable they become, either to the owners as pets or for breeding purposes. Some are valued at \$2,000. The Gainsborough trials rank today as the third best on the continent. The National Trials held in Tennessee are considered the best.

Returning Service Personnel Records Are Being Sought

The Daily News is anxious to completely record the arrival of all service men and women returning home from the war. Accordingly, it is requested that information be made available to this office regarding the date of arrival home, the service with which the veteran has been identified, in what theatres of war, if wounded, ill, etc. If inconvenient to call at the office, the information may be written or telephoned in. Pictures would be particularly welcome. Street and Postal addresses and telephone numbers are also requested.

THIS AND THAT

The George Matthew Adams Service, Inc. GENE HAZELTON

SPORTS

Jack Chesbro, one of baseball's leading spitball pitchers, died at Conway, Mass., 14 years ago. He led National League pitchers in 1901 and 1902 while with Pittsburgh, and in 1904 hung up a record for games won with 41, while playing for the New York Yankees.

The British are going to be out again looking for Canadian hockey players. They are going to send scouts to Canada this winter to negotiate for players in preparation for Britain's 1946-47 hockey season. But the British Ice Hockey Association does not intend to raid Canadian hockey clubs. Harold David of Wembley Stadium in London says that his association is anxious to co-operate with the governing body of Canadian hockey and will sign players only with the permission of the Canadian association. Before the war, most British hockey teams consisted mainly of Canadians who crossed the Atlantic without any agreement with the Canadian Amateur Hockey Association. Now it will be different.

Other news from British sports circles tells of a threatened soccer strike in England. Soccer is Britain's big sport and the soccer players have threatened to go on strike after November 17 unless they get increased pay. They have set next Monday as the deadline for an answer to their demands. The players want their pay increased from the equivalent of \$36 in Canadian money to \$54. And they also want year-round contracts.

In Canadian football, the latest Canadian Press compilation still shows Royal Copeland of Toronto Argonauts of the Inter-Provincial League leading the individual scorers. Copeland has forty points but he has no chance to better his mark now because the Argos have finished their regular schedule. Next to Copeland, with thirty-eight points, is Annis Stukus, of Toronto Indians. Stukus has a chance to get ahead of Copeland because the Indians have one more game. Next to Stukus is Tommy Ford of Balmy Beach who has thirty points.

The next game between Toronto Balmy Beach and Toronto Indians will finish the regular schedule of the Ontario Rugby Football Union. The Beches and the Indians meet at Maple Leaf Stadium on Saturday. It was thought earlier that next Saturday's game might be con-

OAKLAND WINS HOCKEY OPENER

W. GOLDBLOOM "THE OLD RELIABLE"

RUSSIANS RESTORING WATERWAYS

LENINGRAD, Nov. 7.—Russia's great northwestern riverways are coming back as thousands of workmen repair the devastation wrought during the German occupation.

The target for this year's navigation season is 50 per cent above that of 1944 although the ice break-up was later than usual. All cargoes are urgently required for feeding the people and restoring war damage.

Grain, oil and salt are being carried from the south; timber and fish from the north; and sand, stone and other building materials from the southwest.

Russia's inland waterways can be compared with those of Canada. Sixteen hundred miles of channel are sailed by ships of the Northwestern Shipping Line. The Baltic Sea is linked with the Volga and the Caspian Sea along the Neva River, the Ladoga Canal, the Svir River and the Minsk water routes. Through Lake Onega and the White Sea Canal the Baltic is linked with the White Sea. Through the Volkhov River the waterways reach southwestward to Lake Ilmen.

Hundreds of ships use the water route to the northwest. At Leningrad, one glance may take in a steamer clearing the dock for the mouth of the Neva, Peterhof and Kronstadt; a tugboat

hauling barges of bricks and sand for rebuilding a city; passenger steamers moving toward Schlusselberg; and a flotilla of windjammers coming in with a catch of live fish from Novaya Ladoga.

Much damage was done to the waterways system by the Germans. However, last year Leningrad rivermen had completed restoration of the Oikhovitsk, Novgorod and Schlusselberg shipyards and 40 vessels salvaged from the river and lake bottoms now have been put back in service. New docks and piers have been built from the ruins and this year the port expects to handle 1,200,000 tons of cargo.

Modern Etiquette

By ROBERTA LEE

Q. When a girl is marrying a very wealthy man, and her family is in poor circumstances, isn't it all right to let her bridegroom pay for the wedding?

A. No. The bride's family, or the bride herself, should do so.

Q. If a sales person has shown one a display of articles is it necessary to thank him?

A. While it is not exactly necessary, the well bred person never fails to do so.

Q. How long after a breakfast should a guest leave?

A. From 15 minutes to an hour after eating.

CLIMACTICALLY SPEAKING

In climate, 100 feet of altitude is equivalent to going north one degree of latitude.

HE HAS HIS MOTHER'S CHAMPION BEAUTY... BUT DOES HE HAVE HER FIGHTING HEART?
