**New Offensive Continues** 

PARIS-Today's communique from Allied Headquarters in Paris announces for the second consecutive day that the First Canadian Army offensive southeast of Nijmegen continues to make good progress. General Crerar has sent spearheads smashing into the earth-works of the secondary belt of the Siegfried Line defences. A front dispatch says Canadian troops are barely three miles from Kleve. In the first day of the offensive Canadian First Army forces captured fourteen towns. The attacking British and Canadian troops have widened their assault line to about fourteen miles. The furious British-Canadian assault is only part of the Allied blows aimed at the Germans along a section of the western front. American First Army troops have outflanked the big Roer River Dam in a drive paced by a tremendous artillery barrage. The Germans are reported to have opened the spillways of the dam and flooded the lower reaches of the Roer. This enemy action is intended to half the American Ninth Army drive towards the Rhine.

#### Battle of Berlin

LONDON-The Russians still are maintaining silence regarding the battle for Berlin now raging some 30 miles east of the city. But the Germans admit Soviet troops have moved over to the west side of the Oder River and have cut off all Nazi communications between the three cities of Kuestrin, Frankfurt-on-Oder, and Fuerstenberg. The Nazis claim to have prevented the Russians from throwing a condon around Kuestrin. Dispatches from Moscow announce that Marshal Konev has stepped up his attack on the southern end of the front in order to split the German Torces in Silesia. The Germans describe these operations as a gigantic offensive and say the Russians have reached the suburbs of a manufacturing city on the Berlin-Breslau railroad.

#### Another Attack On Japan

WASHINGTON - American superfortress bombers have made another attack on the Japanese homeland. The giant bombers carried out a daylight attack on vital Japanese war industries on Honuhur Island today. Details of the raid are not yet available.

#### Japs Wanted to Lose Manila?

MacARTHUR'S HEADQUARTERS-The Japanese would have us believe that the American capture of Manila is just what they wanted. An enemy broadcast claims the general trend of developments on Luzon Island thus far has been "exactly as envisaged and superbly planned." The Japanese, however, still are putting up an extremely tough fight in the Philippine capital: MacArthur's forces are inching their way from the Pasig River towards the harbor through stiff enemy defences. The Japanese have mined the streets and are shooting down at the Americans from the windows of office buildings.

#### Burmese Skies Swept Clear

NEW YORK-British and American aircraft have swept the Burmese skies practically clear of Japanese planes in support of the British-Indian land drive on Mandalay. This is reported by the British information service in New York.

There is now talk that it may be deferred until fall which, under special circumstances such as the emergency of a war crisis, it would be constitutionally possible to do. However, in view of Mr. King's own statements prior to the Grey North by-election, it is hardly likely that the contest will be much further delayed. The situation for the government may not seem particularly auspicious at the moment but it seems to have already committed itself to the calling of an early election and it would be surprising if it did not go through with it.

In some ways an election at this stage of the war would seem to be wholly undesirable and the fact that the Prime Minister appears to be pledged to it does not make it any more desirable.

This figure was not subsequently corrected by the Mayor at the Council meeting on February 12 and the statement by Alderman MacKay that the deficit amounted to \$50 per day was on the strength of the Mayor's own statement and was not challenged by the mayor

Rae Bros. Ltd nor any alderman. If such a figure was later found incorrect upon a study of the city's books, such correction should have been made to the council at a regular meeting and not by means of a letter to the press.

> It would seem now that the figure of \$15,000 deficit was the joint operation of the garbage and night soil accounts. This latter account shows a deficit of approximately \$5923.90 for 1944. Deducting this amount from the total deficit on the two accounts the figure now given as \$8538.87 is for garbage only but deficit is a deficit even if split into two different accounts. These two deficits have not included share of administration costs such as engineer's salary and mayor and aldermen indemnities.

Alderman Robert McKay. Alderman Nora E. Arnold.
