WAR NEWS

Seventh Army Taking Brunt

PARIS-The American Seventh Army is bearing the brunt of a new German counter-offensive in Lower Alsace. In 24 hours of violent fighting, the Seventh Army has dulled the edge of a German spearhead jabbing towards the Saverne Gap, a vital supply life-line for all Allied forces in northeastern France. In the last five days, the resurgent Nazis have plunged 15 miles into the Vosges Mountains but the German drive has been stopped and turned back near the Maginot Line city of Haguenau. In Belgium, British and American forces, now under the command of Field Marshal Sir Bernard Montgomery, are hammering at the northern flank of the German bulge along a twenty-one mile front. Today's communique says the Allied attack from the north is continuing in face of still and determined opposition. On the south flank, heavy enemy pressure by tanks and infantry persisted. Allied patrols were active yesterday along the Maas River in Holland where the Canadian First Army last was reported in operation.

Hanover and Berlin Targets

LONDON-A great force of American bombers has returned to the attack on Germany by daylight today. The Reich was battered during the night by more than fivethousand tons of British and Canadian bombs. The German cities of Hanover and Berlin were the main targets of the British and Canadian overnight raiders.

Canadians Take Town

ROME - Canadian forces pushing northward through Italy's eastern Po Valley have taken the town of Sant Alberto. The town is located eight miles north of Ravenna on the Adriatic sector. Elsewhere in Italy, sharp fighting has been resumed south of the big rail and industrial city of Bologna after a protracted spell of comparatively quiet. The Germans have attacked the foremost tip of a Fifth Army spearhead pointed at Bologna with artillery and mortar fire.

On Eastern Front

MOSCOW-Soviet announcements say that the German drive to relieve the trapped garrison in Budapest has made only small penetrations of Red Army lines. Northwest of the Hungarian capital, the Nazis threw 300 tanks against the Russian lines, but Moscow says the enemy penerations were cut off and destroyed. Inside Budapest, Russian shock troops have smashed into the city's race track which the Germans had been using as a small-plane landing field. The entire eastern front may be stirring into action. Marshal Tito has disclosed that his YugoSlav Partisan forces have crossed the border into Austria to threaten Nazi positions between Klagenfort and Graz. Berlin broadcasts say that Soviet forces are being grouped at the Vistula bridgehead near Baranov, 120 miles below Warsaw. Berlin thinks this may be the preparation for an all-out Russian drive through Poland.

WASHINGTON - American superfortress bombers have stepped up their attempts to knock out war production centres in the Japanese home islands. A War Department communique says China-based superfortresses hit industrial targets on Kyushu in a daylight assault today. Details regarding the striking force, specific targets, and damage have not yet been announced. Meanwhile, the Japanese radio has told of a new raid on Tokyo by a force of between seventy and eighty superfortresses. The enemy broadcast declared the raiders attacked the western part of the Japanese capital this morning.

Japanese Retake Town

CHUNGKING-The Japanese have retaken the Burma Road border town of Wanting which the Chinese claimed to have recaptured on Wednesday. The Chinese claimed that the town was clear and that enemy remnants were fleeing southward. Before the Japanese invasion of Burma, Wanting was the site of a Chinese customs station.

These products are low in cost that, whereas pulp products constantly are replacing other materials for various uses, there is little danger pulp or paper being displaced by substitutes. This gives the industry a high probability performance.

From the national standpoint. pulp and paper are important, as the industry helps provide employment for a great many workers and contributes in major way to the activity of other important industries. Its bulkness means that transportation is a big cost item, and the industry pays \$60 millions a year for transportation. The industry also is a major user of power, one of the biggest buyers of heavy machinery, provides winter employment for farmers as well as using many workers in the mills.

A problem is in possible future competition with subsidized mills of other countries. Kellogg suggested it may be neccessary for Canada, to maintain its true position in the world markets, to attempt to make some agreement with other pulp and paper manufacturing and exporting countries to pre-LONDON (P)—A British vaccine | LONDON, (P)— Arrangements | vent ruinous and uneconomic

in negating their responsibility. Mr. Thain seels that the amphasis placed by the Act on protecting the child is wise. "However, we do our best to

keep the youngster from becoming a public charge by taking every means, including legal action, to make the parents assume responsibility for it."

For some reason unknown to Mr. Thain, the cost of maintaining children of Protestant parents in 1943 was 92 cents a day while the cost for Catholic children was 90 cents a day. Cost of maintenance for the year was \$338 for the former and \$331 for the latter.

Since the city must assume responsibility for the support of such children until they are 18 years of age, the 18 year cost on the 1943 basis would be \$6,096 for a Protestant child and \$5958 for a Catholic youngster. Average cost would be \$6027.

Allied Forces Digging In On Marinduque Closer to Luzon

PEARL HARBOR, Jan. 6 (CP) - Allied invasion forces in the Philippines are digging in today on the newly invaded Island of Marinduque, Just twenty miles south of Luzon Island and one hundred miles from Manila.

MacArthur's communique says the Allied forces seized Marinduque Island without opposition from the enemy. Control of that island gives the Allies direct contact with the southern coast of Luzon.

The Tokyo radio said today that Japanese planes had spotted an Allied convoy including one hundred and twenty landing barges west of Luzon Island.

Tokyo radio said today that "the Americans may have landed on Luzon Island." The statement was recorded in London after Tokyo had reported the big American armada including 120 landing craft off Luzon which is the main island of the Philippines. Tokyo said that another strong convoy was sighted west of Panay Island and a third was moving south of the neighboring island of Negros.

Polish Government Issue to Be One of Problems For Big Three Conference

LONDON, Jan. 6 (P)-Russia's action in formal recognition of the Lublin government of Poland makes a clean break with the Polish government in London which still is recognized by Great Britain and the United States, thus bringing to a head one of the thorniest questions facing the impending Big Three conference.

The broadcast announcement of Russia's action came within four days of a joint announcement by Great Britain and the United States that they stand by the Polish government.

In Washington yesterday the United States reiterated recognition of the Polish government in London.

Temptations of the Press . . .

The press is subject to certain temptations which it is necessary to recognize. A newspaper exists by making itself attractive to its readers and by providing news that interests them. And we cannot ignore the fact that war makes better news than peace, destruction better news than construction, antagonism better news than harmony. As a consequence a newspaper is naturally tempted to give tortion of news to which the public is cipal electors. entitled, but to the studied avoidance of the inflammation of public opinion, and with the constant and resolute aim of damping down suspicions and antagonisms rather than fostering them. To make a sensation out of inflamatory speeches or provocative acts they must not be made sensational because that simply makes a bad business worse; that way comes disaster. Nevertheless, the public demands the news.

NEW TYPE HUT FOR THE ARMY-The Hut Age has arrived on the battle fronts of Europe. First there were the Nissen huts, pre-fabricated houses, portal houses and now comes the Moody Hut. It is the brain child of Major H. H. G. Moody, of Winnipeg, serving with the Royal Canadian Engineers. It is practical because it can be constructed with materials always at hand. Square mesh track, such as is used in laying plane runways, is overlaid on a steel frame. The mesh is then covered with sack cloth, and two coats of cement. Top picture shows a Moody hut in course of construction and lower shows the completed hut. Four men can construct a Moody Hut in an hour and allowing the cement to dry, it is ready for occupation in about five (Canadian Army Overseas Photo).

"Gung Ho" Depicts Memorable United States Marine Engagement in South Pacific

History of the present war in the Pacific is recorded in the picture "Gung Ho" which come as the feature offering to the screen of the Capitol Theatre here next Monday and Tuesday. It depicts the first offensive action against Japan in the daring United States Marine Corps Randolph Scott plays the role

of the picture prototype of Col. Carlson whose specially trained group of 219 Marines destroyed every Jap and every enemy installation on Makin in the South Pacific. Noah Beery jr. and David Bruce take the parts of the half-brothers who are rivals for the affections of Grace Mc-Donald in the romantic portion of the film.

Alan Curtis, Sam Levene, J. Carrol Naish, Richard Lane and Milburn Stone have featured roles as members of the daring guerrilla band that struck terror into the hearts of the Japanese garrison.

Realistic battle scenes include those aboard a giant submarine and also hand-to-hand slaughter of Japanese.
