Warehouse Raid To Equip Boat Is Stopped By Police

Two youths with a desire to enter the commercial fishing business used unorthodox methods to equip their boat and found themselves in trouble with the police today. According to a police report, the two boys were caught by constables last night in the act of raiding a waterfront warehouse where War Assets property is stored. Police recovered loot valued at about \$100, consisting of a quantity of rope, a fire extinguisher,

and other articles. The boys admitted that they were endeavouring to equip their boat to go fishing. One of the boys was held in

the city, and police efforts to locate his mother were unsuccessful.

Hesitation in Spring

MALE ARE CONCERNED about the scandalous behavior of April. All this display of airy caprice and gay uncertainty before a tired, grim world that has to make up its mind about German industry and the atomic bomb! All these freakish flutterings and wanton reversals and irresponsible crises of wind and sun and rain!

The world hangs in a delicate balance these days. It's bad enough to have the balance of power between East and West threatened, without having to face this other precarious balance between March and May, the blustering last words of winter and the warm reassurances of spring.

Robert Frost pointed up the problem nicely in his "Two Tramps in Mud Time" when he wrote of a typical instance:

The sun was warm but the wind was chill You know how it is with an April day When the sun is out and the wind is still, You're one month on in the middle of May. But if you so much as dare to speak, A cloud comes over the sunlit arch, A wind comes off a frozen peak, And you're two months back in the middle of March.

Of course, the weather is not unlike the climate of public opinion, which seems to veer lightly between pessimism and optimism, with crisis blowing up as swiftly as April squalls and golden moments of hope breaking through suddenly to entice people to take off their coats and relax prematurely in the sun. There's not much logic to April and its tentative, unpredictable whims-but behind the uncertainty of transition is the irreversible logic of the advancing year.

"International cooperation will depend on collective mental health" and a "person's environment will be the whole world and he must live with people of the world," he declared.

Dr. Winslow told the workers that their job on each home visit was "more than the bandaging of cut fingers."

"If the nurse does her job, she will make a social diagnosis of the family-observing nusocial, and mental problems, and then get the co-operation of the family in solution of these difficulties."

CHALLENGE MAY YIELD SOCCER

The Arney versus Woodside soccer fued has cracked wide open. Preliminary verbal scuffling, carried on largely through the sports page, has resulted in Woodside marshalling his Wonders and accepting Arney's challenge for a game tomorrow.

"Weather permitting," said Mr. Woodside profoundly, wet-

ting a finger to the north wind. Up to this morning, Mr. Arney had nothing to say for publication. His challenge was carried direct to Mr. Woodside.

The latter has issued a clarion call to his players to wind up their affairs and prepare for battle on the Roosevelt Park grounds Sunday atternoon. His first line will consist of Herb Morgan, Roi Judge Bill Murray, Darrow Gomez, Ken Yelland, George Ferguson, Nick Pavlikis, Doug Christison, Johnny Murray, Dave Murray, Bob Armstrong, Oscar Mercer and Bill Faulkener.

The Arney aggregation is expected to include such stalwarts as Bob Moxley, Eddie Dawes. Jack Eby, Rupert Holkestad, Nick Haugan, Glen Smith, Bruce Simundson, Doug McGreish, Mel Holkestad, Joe Davis, Ted Jerstad and Harold Dunean.

CHOOSING UP SIDES—IN GREECE—Baseball seems to be catching on with the younger generation in Greece, where there is little to cheer about these days. At the Y.M.C.A. in Athens, these youths are engaged in a performance that will be seen in Canadian and U.S. playgrounds in a couple of weeks. The equipment was supplied by the world youth fund of the Y.M.C.A. Purchase of more equipment and restoration of "Y" buildings for such youths in 22 war-torn countries will be financed by the \$8,650,000 national campaign of the world youth fund of the Y.M.C.A. this spring.

SAVES LABOR

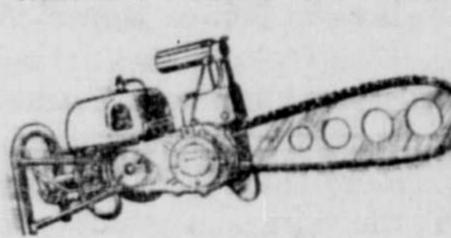

POWER CHAIN SAW

Weighing only 35 to 37 lbs. with full tank, the P.M. One-Man Power Chain Saw is well balanced for carrying and for minimum strain on the operator. The swivel arrangement of the carburetor provides easy operation in either horizontal or vertical cuts. Laborious hand methods or large,

expensive machines are no longer necessary.

This powerful, one-man saw SAVES TIME required to clear land, cut cordwood, fence posts, construction timbers or wood for home use. 14, 20 and 26" cutter-bar lengths are available. A P.M. SAW SAVES MONEY too, because it is economical on fuel . . . the built-in oiler lubricates the saw in action and replacement parts are easily available and inexpensive. Act today . . . INCREASE YOUR PROFIT on felling or bucking lighter timber . . . with less labor.

RANSLATED it simply means "Asphalt Shingles." But here in British Columbia, most people would insist on calling them "Duroid" shingles. At least, that's the way they seem to feel about Duroid.

Actually the name "Duroid" is a famous trade-name that appears ONLY on shingles made by Sidney. Genuine Duroid Shingles

are made with a base of the finest rag-felt. That's why they're so well known for dependability and long wear.

For your own home, ask for Genuine Duroid shingles by name. Make doubly sure of getting the real thing, by looking for the Sidney Seal of Quality on every bundle.
