Soccer manager Syd Woodside, whose squad, except for dirty work by the weatherman, might have retrieved the Hanson Cup from the navy at the week-end, fails to be impressed by indirect challenges from what he terms ghest" football teams.

"If people want to issue chalbenges," said Sydney, "let them ssue them officially. So far I have heard nothing of this game which Ted Arney was supposed to have challenged us to:-I think Teddy and his boys were having a pine dream." Arney, via the sport page, an-

Woodside continued, "but, that bunch has any intention of playing soccer, we would like to meet them before the game in a little session to mark out the grounds and fix the goal posts."

This latter, presumably will be right in line with Mr. Armey's intentions, since he announced during an interview that it was the burning ambition of himsef and his team mates to revive foctball in Brince Rupert.

"I think the challenge was extremely well timed-except for the fact that so far there is no equipment, no uniforms, and it is about two weeks too early in the season," Mr. Woodside said by the way of final comment.

He said that it was his intention to have a football meeting called later this month so that play might possibly get started shortly after daylight saving time comes into effect on April 27.
