## DEVELUPED IN NEW ZEALAND

### No Hint of Details Is Yet Revealed

AUCKLAND, New Zealand (CP) - A secret weapon that may play a vital part in world affairs because it is so powerful that it is said to have capabilities approaching the atomic bomb in effectiveness is reported to have been developed in New Zealand.

Although there is no hint of what the secret weapon may be, it is stated that one means of application would have some similarity to one method of using the atomic bomb.

Reports of the powerful weapon have been made in the press which published accounts- on "excellent authority" of development and work during the war, on this weapon, the nature of which is still a top secret.

The project was originally the idea of a Wellington, New Zealand, man who communicated was arrested following investi- his plan to Great Britain and the United States. Both counyoung girls who were playing on tries immediately went ahead the sidewalk in front of his with laying the foundation for

## Transportation Epoch

A NOTHER EPOCH in Prince Rupert's transpor-A tation commences with the inauguration next

week by Canadian Pacific Airlines of scheduled air service between this city and Vancouver. Back in 1907 or so the first scheduled steamship runs were started to Prince Rupert. Seven or eight years later there was railway communication with the outside world. Nearly three years ago we achieved highway connection. Now it is scheduled air service—official this time ater a season of more or less regular service on charter basis.

To be able to be in Vancouver four hours or so after leaving Prince Rupert and vice versa, making the trip one day and returning the next, will be a boon to local business which, with reasonable fares now provided, will, doubtless, be used to such an extent that one eighteen-passenger plane a day soon will not be sufficient. Then, when an air strip is established here, it will be possible to further speed up the service with even larger and more comfortable planes.

Now we have the scheduled passenger service, the next thing will be the mail and there is reason to suppose that it will not be long deferred.

We have been a long time waiting for our regular air service. Its establishment at this time synchronizes well with the new era of development which is evident at every hand as far as Prince Rupert is concerned and which everybody is recog- son Wallace, Harold Hampton, Gillis Royer laft last night on power cruiser Fusilier. They

Isolation was at one time regarded as one of Prince Rupert's handicaps. The establishment of air service on a permanent and regular basis just about completes the removal of that handicap.

### GOOD WORK, GYRO CLUB

OSSIBLY a few words of commendation might not be out of place for the Prince Rupert Gyro

Club which has been engaged in children's playground development and providing supervised playground activities during the summer for so many years that it has come to be taken almost a matter of course. Other organizations may come and go in doing something on behalf of the children of the city but the Gyro Club, which pioneered such work more than twenty years ago now, seems to go on forever.

This year the Gyros have budgeted for over \$600 in connection with playground work and the figure will probably go to a good deal more than that particularly if further playground development, which is being considered, should be proceeded with. In addition to all that, the club has made an institution of its \$600 per year toward the operation of recreational activities and physical education classes within the Civic Centre.

So it is not inappropriate that we should congratulate the Gyro Club on its consistent and valuable activity and express an appreciation of work which, while it might at times seem to be taken for granted, is none the less, we are sure, appreciated by all the community.

### PAYING FOR ANTICIPATION

DRINCE RUPERT was not entirely without a few hopeful folk who held Irish sweepstake tickets

or at least an interest in same. They won nothing but, with a good deal of philosophy, told their friends that, if Lady Luck neglected to come their way, it was worth a few dollars to picture what they would have done had they actually made a financial killing. Happy anticipation may be worth a few dollars in cash after all.

BETTER, SAFER HOME CANNING ALWAYS with a

PRESSURE COOKER

For safety and economy in your home canning (and cooking, too) use the scientifically designed, perfectly constructed NATIONAL PRESSURE COOKER. Leading food authorities say that pressure cooking is the ONLY safe way to preserve non-acid foods, including vegetables, meats, fish and foul. A NATIONAL PRESSURE COOKER makes foods safer to eat because high heat under pressure kills spoilage agents and bacteria.

Zinnias are among the fastest growers in hot weather.

Take zinnias for examplefrom a garden of annuals. There are the small-flowered singles, 9:00-Continental Varieties the small lilliput doubles, the intermediate or "pumila" type and the giant flowered varieties. They give an abundance of pink, red, orange and yellow varieties with a few lavenders. A whole border might be planted mostly | 11:00-Weather and Sign Off to zinnias, provided one used enough ageratum, centaurea and cynoglossum to induce the need-

ed blue tones. There is no reason to confine your sowing to the quickest germinating subjects. All annuals can be sown at this time and will bear flowers by mid-July. They grow much faster in warm weather and their flowers are finest in the last half of the season, usually improving until frost arrives.

### Jolson Story Shows Here \*\*\*\*\*\*\*\*\*\*

Remarkable Career of Famous Entertainer Depicted

"The Jolson Story," with Larry Parks, Evelyn Keyes, William Demarest and Bill Goodwin, opens tonight at the Capitol Theatre for a showing extend-

ing to next Thursday. Filmed in technicolor, it is an extravaganza based on the music, the magic and the times of one of America's greatest entertainers. Proclaimed as a colorful and rhythmic panorama of American show business, the screenplay carries through forty years of Jolson's remarkable career. Dramatically revealed are the steps leading to his success. In New Orleans, he has become tired of the traditional routines of a minstrel show; the new -fangled "blues" music fascinates him, and deep inside the is developing a technique all his own to fully capture the rhythms of jazz. Audiences excite him-he wants to get ever closer to them, to make them feel what he feels in his blood. When he gets his first crack at Broadway. he is ready with his new-found style and creates a sensation.

"The Jolson Story" is largely told in music, many beloved melodies are heard, tunes like "Swanee," "You Made Me Love You," "April Showers," "By the Light of the Silvery Moon," etc. Larry Parks is said to give a spectacular performance in the title role. Virtually unknown when the film was born more than three years ago, ne is being acclaimed today as a top-flight star. The way he has cloaked himself with Jolson's personality in the film is said to be uncanny. Gorgeous Evelyn Keyes has the romantic lead opposite Parks.

Shelby Saunders of Nanaimo sailed last night by the Prince Rupert on his return south after spending a few days in the city. He purchased and took south with him the bowling alleys which were operated on Fifth Avenue East during the war.
