teen Persons Are Killed and ions of Dollars Damage Done

ON (CP)-A swirling hurricane that killed and did millions of dollars worth of propuction blew itself out today over flooded bound Britain. The Air Ministry forecast eather today but with considerable rains

later.

ceping in from the way lines were out of service; mountainous snowdrifts still 98 miles an hour, es, de-roofed build- paralyzed transportation in houses and churnparts

Scores of persons were injured ilous cauldrons the in more than half by falling walls and trees. Birmingham police reported dam-

of families were age to 74 houses, 61 stores and their homes across two churches. None of London southern part of itself was under water, but many cores of highways nearby villages were inundated, and some branch rail- and some were reported isolated.

BOR LOBBY

Synopsis

A-A lobby of two aborites buttonbers of the Legismorning. They the Canadian Labor and C.I.O. to the secret strike was expressed.

FLOOD IN CALGARY CALGARY - A sudden thaw flooded. In a nearby district houses had to be deserted by the rise of streams still filled with ice.

intermittent light rain in north-WEATHER ern section, cloudy in southern Wind light. Little section. change in temperature. Minigeneral wind circ

words Albert **REGAINS VOICE AFTER 36 YEARS**. Burke, 82, Bridgeport, Ohio, had uttered in 36 years were miracle." A former railroad engineer, Burke suffered from paralysis of the vocal cords as the result of piosonous fumes inhaled when his engine was stalled in a tunnel. Specialists callhis case "hopeless." Shown here with his daughter-in-law, Burke said that "something told me to speak." He tried, and found his voice restored. He'll use it in a campaign for a seat on the city council.

Announcement of Minister of Lands in Legislature Last Week Given in Full In enthusiastically announcing in the Legislature ing as the real aim of life, de-

week successful culmination of negotiations for ploring the tendency to secular-

yesterday when the moderator the General Assembly, Rt. Rev. W. G. Maclean of Winnipeg, unveiled, with solemn and impressive rites, a memorial scroll, containing 85 names which will occupy a prominent place in the church for perpet-

Before a congregation which crowded the church and includd the mothers of four of the glorious dead, Mr. Maclean withdrew a large Union Jack

from the scroll and made brief but appropriate remarks of dedication. There was a solemn pericd of silence in memory of the fallen after which "The Last

Post" echoed from the lips of Bugler William Rance from another part of the church. The National Anthem concluded the dedication ceremony after which J. A. Teng sang "in Flanders Fields."

Veterans of two world wars, assembled by the Canadian Legion under president V. G. Houston and with Harry Calderwood and E. Woodward as flagbearers, attended in a body, march ing to and from the church.

"Peace and War" was the sermon subject of Mr. Maclean who rade a stirring plea for a recognition of values sacred and last-

ind table syrups and blended able syrups are now available with price ceilings unchanged. There is now plenty of corn

syrup although can syrup is still in short supply. Removal table syrup from ration wi make more coupons available

for honey, jams and jellies and will further ease the sugar situation following the increase ration announced last week.

YOUTHFUL BANDIT VANCOUVER-After a spectacular chase, a sixteen-yearwhere isolated ammunition storold youth was arrested on a charge of car theft. The po- age chambers, blasted from the lice pursuit was from Eighth rock, will soon be part of and Cambie to Sixth and Birch.

DISFUGAL OF BODIES NUERNBERG-The secret is out regarding the disposal of the bodies of Herman Goering and ten others executed leading Nazi war criminals. They were cremated October 16 in a civilian cemetery and the roar of dynamite blasts. ashes sifted into a stream at Munich.

Brince Rupert Daily Dews Monday, March 17, 1947

An independent daily newspaper devoted to the upbuilding of Prince Rupert and all communities comprising northern and central British Columbia. (Authorized as Second Class Mail, Post Office Department, Ottawa) Published every afternoon except Sunday by Prince Published Ltd., 3rd Avenue, Prince Rupert, British Columbia. G. HUNTER, Managing Editor. H. G. PERRY, Managing Director. MEMBER OF CANADIAN PRESS - AUDIT BUREAU OF CIRCULATIONS CANADIAN DAILY NEWSPAPER ASSOCIATION ----- SUBSCRIPTION RATES -----By City Carrier, per week, 15c; Per Month, 65c; Per Year, \$7.00; By Mail, Per Month, 40c; Per Year, \$4.00.

Changed Conditions

RINCE RUPERT PEOPLE will find it necessary now to attune themselves to a new condition of community economy along permanent lines as a result of the entry at last of industry on a major scale. It is going to make a lot of difference to the ways of carrying out of business and rendering of service here. To meet the new situation, the business people at least, will have to gear along new and expanding lines. There will be no standing still now. It will be either go ahead or drop out.

Prince Rupert is now to be an industrial community of substantial proportions. The fishing village days are over. Nor is this new condition going to be just a boom as we experienced during the war. At last we are face to face with building and planning along sound and lasting lines. The industry about which we have become excited during the past few days is based on a perpetual plan. We would do well to be thinking at once of what me must do to keep pace with the changes it will involve for us.

SUGGEST MORE TREES FOR PARKS

Prince Rupert's public parks may be given added verdure this summer under a tree glanting scheme designed to increase their attractiveness. The city Parks Board will follow up a suggestion made on Friday night by Mayor Nora Arnold to the effect that efforts be made to get such park trees as oak and maple through the forestry department to "dress up" the city's parks.

It was the first meeting of the year of the 1947 Parks Board. There was an inspection by the board of all parks and playgrounds after which definite plans for the year will be considered.

C. P. Balagno was re-elected chairman of the board with W. D. Lambie, secretary. Other members of the board present at the meeting were Mayor Nora Arnold, Ald. George

BLOOD IS LIFE

NE of the major factors contributing to the U causes of death in the Dominion is the lack of adequate transfusion facilities in our hospitals to cope with accidents and other illnesses.

To meet the needs of Canadian hospitals, the Red Cross is establishing, as part of its peacetime program, a completely free Blood Transfusion Service. This new activity will eventually make it possible for every hospital in Canada, and the patients they serve, to obtain a constant supply of whole blood and plasma free of charge.

Those who remember the part played by blood heard a group of children cryplasma and blood products in saving lives during the war will realize the importance of this peacetime service. Every day there are instances of civlake in which several children ilians, mothers in childbirth, victims of fire and were struggling near an upthose suffering through accident, illness and disease, needing blood to save their lives. The majority of Canadian hospitals find difficulty in providing sufficient blood to meet emergencies. This is an important Red Cross service and a costly one with results measured in terms of lives saved. More than one fifth of the \$5,000,000 budget required by the Society in 1947, for which budget a national drive concludes this week, will be used to ensure the availability of life-saving whole blood and plasma through our hospitals to all Canadians from coast to coast.

N.H.A. HOME-OF-THE-MONTH

Simple and straight-forward in design, this N.H.A. Home-ofthe-Month selection is a two-storey dwelling offering interesting possibilities for variations meeting individual requirements. It should provide sound ideas for Canadians who plan to build with N.H.A. or private financing. Working drawings and cost estimates for a house of this type may be obtained from a local architect or builder.

Under the National Housing Act, loans for new houses are made on a basis of joint participation by Central Mortgage and Housing Corporation and an approved lending institution. All negotiations are conducted through the lending institution selected by the borrower.

This two-storey design could easily be adapted for use as

THE THINGS THAT MONEY CAN'T BUY

HEALTH; A HAPPY HOME; opportunity for your children; your own peace of mind -these are priceless gifts. You can't buy them with money.

But reasonable financial security, based on a planned programme of personal saving; can help to guard and guarantee them.

Take your Victory Bonds, for example. Pretty reassuring to have them tucked away as a financial reserve, always "on tap" in

time of opportunity or need. Pretty convincing proof, too, that you really can save when there's a real saving job to be done. Perhaps today's rising costs or other factors are making it hard for you to carry on your savings programme. By the time you have met all your expenses, perhaps there's mighty little left for that all-important item marked "Savings".

your budget list. Owe yourself amount each month, and make m collect it. It means careful budgein putting off buying a good many things like to have. But never forget-this share of what you earn. This is the of your income which will help to a for yourself and your family all their that money can't buy.

. . .

G

PERHAPS YOU are already one d. hundreds of thousands of thrifty Caus who have a savings account with the la Bank. If not, we invite you to come its open one. Perhaps your first depost have to be small; don't let that worry you. The important thing is to start. It will be a Try putting savings first, not last, on pleasure to serve you.

THE ROYAL BANK OF CANAD

semi-detached or row housing. Conversion to a semi-detached type house would merely require changing the position of the bedroom windows while row housing would also need a different location for the grade entrance and omission of garages.

The fairly large living room opens directly off the front entrance vestibule. Access to the kitchen, dining room and upstairs rooms is gained by passing through the living room but if this is considered a serious disadvantage an entrance hall could easily be added by cutting 3' 6" off the length of the living room. The three second-floor bedrooms are slightly above minimum requirements under the N.H.A. and each has an ample clothes closet. A linen closet is located in the upper hall and a towel closet in the bathroom. The latter could be omitted and a shower stall substituted if desired.

The house was designed for economy and ease of maintenance. Exterior walls are of concrete block or cinder block with a stucco finish. The lower portion is plain stucco and the upper part simulates wood siding. The attached garage may be omitted or retained as desired.

Cubage is approximately 16,000 cu. ft., exclusive of garage.

it was not until the last seconds of play that they snatched the victory, 40-36. Starting off the first drive the two rivals battled through to a 9 to 9 tie after the first eight minutes. Then Macev's put on the pressure and moved slowly out into the lead. The score stood at 20-16 at the half. Then Co-ops got the range and battled steadily to tie the game up 28-28 at the three quarter breather. As the last period got under way Macey's broke loose with Bob Menzies dropping in three quick baskets. From here on in it was an up hill drive for the Co-op. Fighting hard they battled to within two points. Then Macey's dropped in another basket and,before Co-op could get rolling again, the game was over.
