If you want to look your youngest, slimmest, and loveliest in the new fashions . . . you must watch your diet. And, in any safe diet to gain and keep a lovely figure, you should eat certain special foods because of their "protective" qualities.

That is why Kellogg's Att-Bran is

included in the new scientific weightcontrol menus. All-Bran is made only from the outer layers of the wheat grain. This is the vital part so rich in iron and certain other "protective" food elements your body must have if you want to keep your vitality . . . your very joy in life.

You will be glad to know, too, that All-Bran is guaranteed, on a double-your-money-back basis, to keep you regular naturally. Natural regularity is always advisable; diet or no diet. Ask your grocer for a package of Kellogg's All-Bran today.

# Britain's Economy

TH the budget balanced for the first time in ten years and a substantial surplus on the right side, Britain, with all its troubles, at least has ternal fiscal crisis, it is revealed by the British cellor of the Exchequer. Britain's crisis, as we pointed out before, lies not in the lack of whereal to purchase but in the shortage of goods and ices to purchase. Those goods, including many er food and living essentials and the raw mals for her factories, come from abroad and, tain them, she must produce and export her-These goods unobtainable, through inability urchase them, she goes down economicallyort or expire," Mr. Dalton puts it. So Britain maintain her credit by her production, by the ient and unselfish application of her labor. here is no easy road, Britain finds, to national omic security. The Labor government of Brits meeting the same old problems and finds no ian means of overcoming them. Hard work forbearance—austerity—are still the constits of the solution.

# Arms Embargoes

ITED STATES helped to supply the arms and munitions that were shot back at her in two great wars. So did Canada and Great Britain. President Truman, in an historic message to gress yesterday, calls through revision of neuty for the authority to embargo the shipment struments of warfare to unfriendly nations. one remembers the hue and cry that certain

lents raised and rightly so before the last war le shipments of materials that could be and were against us abroad. Some of us were complacetenough not to worry much about it then. We ight of the paltry dollars we could make and which we paid for with precious blood a few rs later. We know who President Truman has nind when he proposes arms embargoes now. suppose that those who were so loudly in favor uch embargoes against the likes of Germany Japan will be equally as enthusiastic now.

## Prince Rupert's Civic Centre Held As Model for all Parts of Province

Prince Rupert's advanced position in the Community Centres picture in British Columbia makes it a model which other communities watch closely, Civic Centre Director Don Forward said Wednesday on his return from Vancouver where he attended a conference of community centre leaders.

"It's hard to realize just how\* much the people in the south lumbia extension department is hold our Civic Centre as a model also willing to sponsor two-week for their own projected centres," classes in home-making or crafts

As an illustration of this interest, Mr. Forward told how he made a 20-minute speech before the conference, and as a result the planned program for the rest of the morning was dropped and he was asked to make a detailed administration and program functionings of the Prince Rupert Civic Centre.

"They kept me talking for an extra hour and a half, explaining our financing arrangements and administration set-up," he

Mr. Forward retired from the position of vice-president of the provincial. Community Centres Association which he held last year, and was elected publicity chairman for the group.

"Every community in British Columbia, large or small, has plans for building a civic centre," he said. "Vancouver has been zoned into 20 areas and plans are being made to build a centre in earch zone."

Among chores which Mr. Forward completed while in the south were the making of arrangements for the purchase of a complete set of gymnasium aparatus which will be installed in the Civic Centre in time for the fall season.

THE Smart LOOKING, Smart HANDLING 1947 OLDSMOBILE

Oldsmobile Series "76" (or "78") Club Sedan

Three full lines to choose from, all offering

The 1947 Oldsmobile is smart in more ways than one. Smart styling . . . certainly. But it's a smart investment, too. An investment in the dependability and quality for which the Oldsmobile name is famous. An investment in the riding comfort of Quadri-Coil Springing and 4-Way Stabilization. An investment in the matchless driving ease of GM Hydra-Matic Drive\*-the only drive that shifts gears automatically and eliminates the clutch pedal entirely. Choose the low-priced Oldsmobile "60" (either a six or an eight)—or the popular-priced "70" (also with a choice of engines) -or the luxurious "98" Custom Cruiser. Whichever it is . . . you'll be making a smart choice!

The demand for new cars is still so great that it may be some time before you take the wheel of your new Oldsmobile. Make sure your present car keeps rolling. The better its condition; the safer you are ::: and the higher its potential trade-in value:

Clathing, Food Not Scarce, Says Former Toronto Girl

TORONTO @ - Norway is a land of plenty where prices are high, but not higher than in Canada, reports Mrs. Hans Peter Flaaten, who recently visited her family here before returning to her adopted home in Oslo. When she left for Norway more than 15 months ago, Mrs. Flaaten packed sufficient clothing and food for herself and baby Ellen Jane, now 21 months. "Food-and clothing in Norway were scarce then but now you can buy almost everything—if SEA SERPENT you have the money."

She brought greetings from SAID HERRING other Canadian girls and thought all the "discontented" ones had returned to Canada, while those remaining were satisfied with living conditions.

"I was one of the lucky girls," she smiled. "We share a house with my husband's brother and his English war bride."

Mr. and Mrs. James Van Zanten lost their entire shipment of 200 baby chicks by fire the other night and their new home might well have gone up in the flames. The chickens were put in a home-made brooder with a glass coal oil lamp for warmth in it. It was watched carefully for several hours and it burned steadily, so they went to bed. In the early hours Mrs. Van Zanten woke and found the house full of smoke and a flickering light on the ceiling. She woke her husband who picked up the whole brooder and carried it outside. The walls of the house were scorched and blackened. lamp had exploded inside the brooder and the burning coal oil flooded over the floor of the brooder.
