**P.G.E. Extension Gets Attention**

**FISHERMEN'S STRIKE OVER**

LUNenburg, Nova Scotia.—Fishermen of Nova Scotia's far-famed deep sea fleet today prepared to go back to sea after voting to end their 12-week-old walkout. The strike will be officially over Sunday midnight.  
The vote to resume fishing was taken at a meeting of 400 members of the Fishermen's Union (Trades and Labor Congress of Canada) members Wednesday after Capt. Ben Mackenzie, union president, told them that they were no longer able to keep their families "alive and well without earnings."  
The fishermen, paid in shares of their catches instead of wages, said they were willing to return to work under arrangements in force when the strike was called December 28 to enforce demands for an increase to 60 from 50 percent in shares.

**Five Drowned At Red Deer**

River There on Rampage—Many Animals Swept Away—\$80,000 Damage  
RED DEER, Alberta.—The turbulent Red Deer River was still rising today after its ice-packed advance yesterday during which five lives were lost and horses, cattle and sheep were sucked into the mast-moving stream which is normally a placid river.  
The river rose 14 feet yesterday when thick winter ice cracked. Property damage is believed to exceed \$80,000.  
Four bodies have been recovered from the flood waters of the ice-jammed river here and it is believed that a child is still missing.  
Drowned yesterday when the river rose 12 feet were Mrs. W. Harp, aged 25, and her children, Stanley, 4, and Donald, 2, and Mrs. Harp's sister, Mrs. Clark, 26. The body of a one-month-old baby is still unlocated. The family, living in a shack beside the river, had come here from the Slave Lake country and the women were awaiting their husbands.

**TWO KILLINGS ARE CHARGED**

SCREIBER, Ont.—Double murder charge is being laid by the Ontario provincial police against Charles Martin, aged 35, former Vancouver resident, following the finding yesterday of the body of a prospector, Marcel Duchesneau, 28, formerly of Quebec, in a snow bank not far from the spot where Monday they had located the bullet-ridden remains of Joseph D. Grant, 70-year-old Toronto prospector. Previously it had been announced in Port Arthur by Crown Attorney P. V. Ebbelson that a murder charge would be laid against Martin in connection with the death of Grant. The charge will be read tomorrow when Martin appears in Port Arthur for preliminary trial on a forgery charge.  
The motive of the slayings is unrevealed but it is believed it may have been a robbery.  
Provincial Police Inspector F. Kelley said Grant had been shot through both eyes and in the chest. It was not said at first how Duchesneau had died.

**Totalitarianism Is Threatening**

OTTAWA.—Prime Minister W. L. Mackenzie King said in an address Wednesday that Canada, as other countries, was menaced by the "terrible threat of totalitarianism." The Premier told United Church members of the House of Commons and Senate that "the spirit of the Christian Church is disappearing all too rapidly and in its place is growing the terrible threat of totalitarianism."

**France Must Obtain Coal**

Will Not Agree to Other Matters at Conference Until Assurance Given  
MOSCOW.—France notified the council of foreign ministers today that she could not agree to economic reconstruction of Germany unless other powers agreed to her demands for guarantee of German coal.  
Foreign Minister Bidault said last night that he was directed by his government to state "we cannot be parties to an agreement on other problems raised such as economic unity, level industries and reparations, without previous settlement of a scheme for export of coal in a sense which is in conformity with our request."  
Russia agreed yesterday to a larger share of German coal for France.

**To Be Discussed with Rail, Federal Heads**

**Premier Hart Continuing Activity With View to Tapping Peace River Country**

VICTORIA (CP)—Proposed extension of British Columbia's Pacific Great Eastern Railway into the rich Peace River district, costing more than \$22,000,000, will be discussed with national railway and federal officials, Premier John Hart said today. Mr. Hart is expected to propose that the railway, now

**Bulletins**

PENTICTON FIRE  
PENTICTON—Damage estimated at \$200,000 was done in the destruction by fire of the Pentiction Sawmills plant, chief source of supply of the boxes for the fruit industry. Large stock of lumber in the yard was saved.  
BRITISH IN PALESTINE  
LONDON.—Rt. Hon. A. V. Alexander declared today that the government policy would be to keep British troops in Palestine until the United Nations had reached a settlement of the problem of that country. There will be no reduction in British armed forces.

**BIG GAMBLING IS DESCRIBED**

VANCOUVER.—Louis Tisman, self-admitted large scale gambler, told the public session of the police commission yesterday that he had cleared about \$5,000 per month in the operation of a gambling concession in the downtown Pacific Athletic Club, where he had such a concession in 1940. He said he had split the take with the owner, Jack Pattison, on a 50-50 basis. He estimated Pattison's 60 per cent of the gross at \$6,750, "if we had a good month."  
Associated with his brother, Harry, and others, Tisman said he had been interested in games in various downtown hotels and apartments.  
One young man had made more than \$7,500 in his first attempt, said Tisman, in giving evidence of incidents of large scale gambling.  
Earlier Tisman declared that substantial payments had been made for police protection.  
Dugald McAlpine, counsel for suspended police officers, describing the session of the police commission as a "public pillory," demanded an investigation by Royal Commission of the police commission itself and the circumstances and motives leading up to the recent purge.  
Chief of Police Walter Mulligan, testifying today, said that gambling places could not be operated without police knowledge and co-operation.  
Chief Mulligan disclosed to the police commission that 150 vice establishments operated here until recently. Included in the list were 37 gambling places in Chinatown, twelve disorderly houses and at least fifty major bootlegging places.

**THE WEATHER**

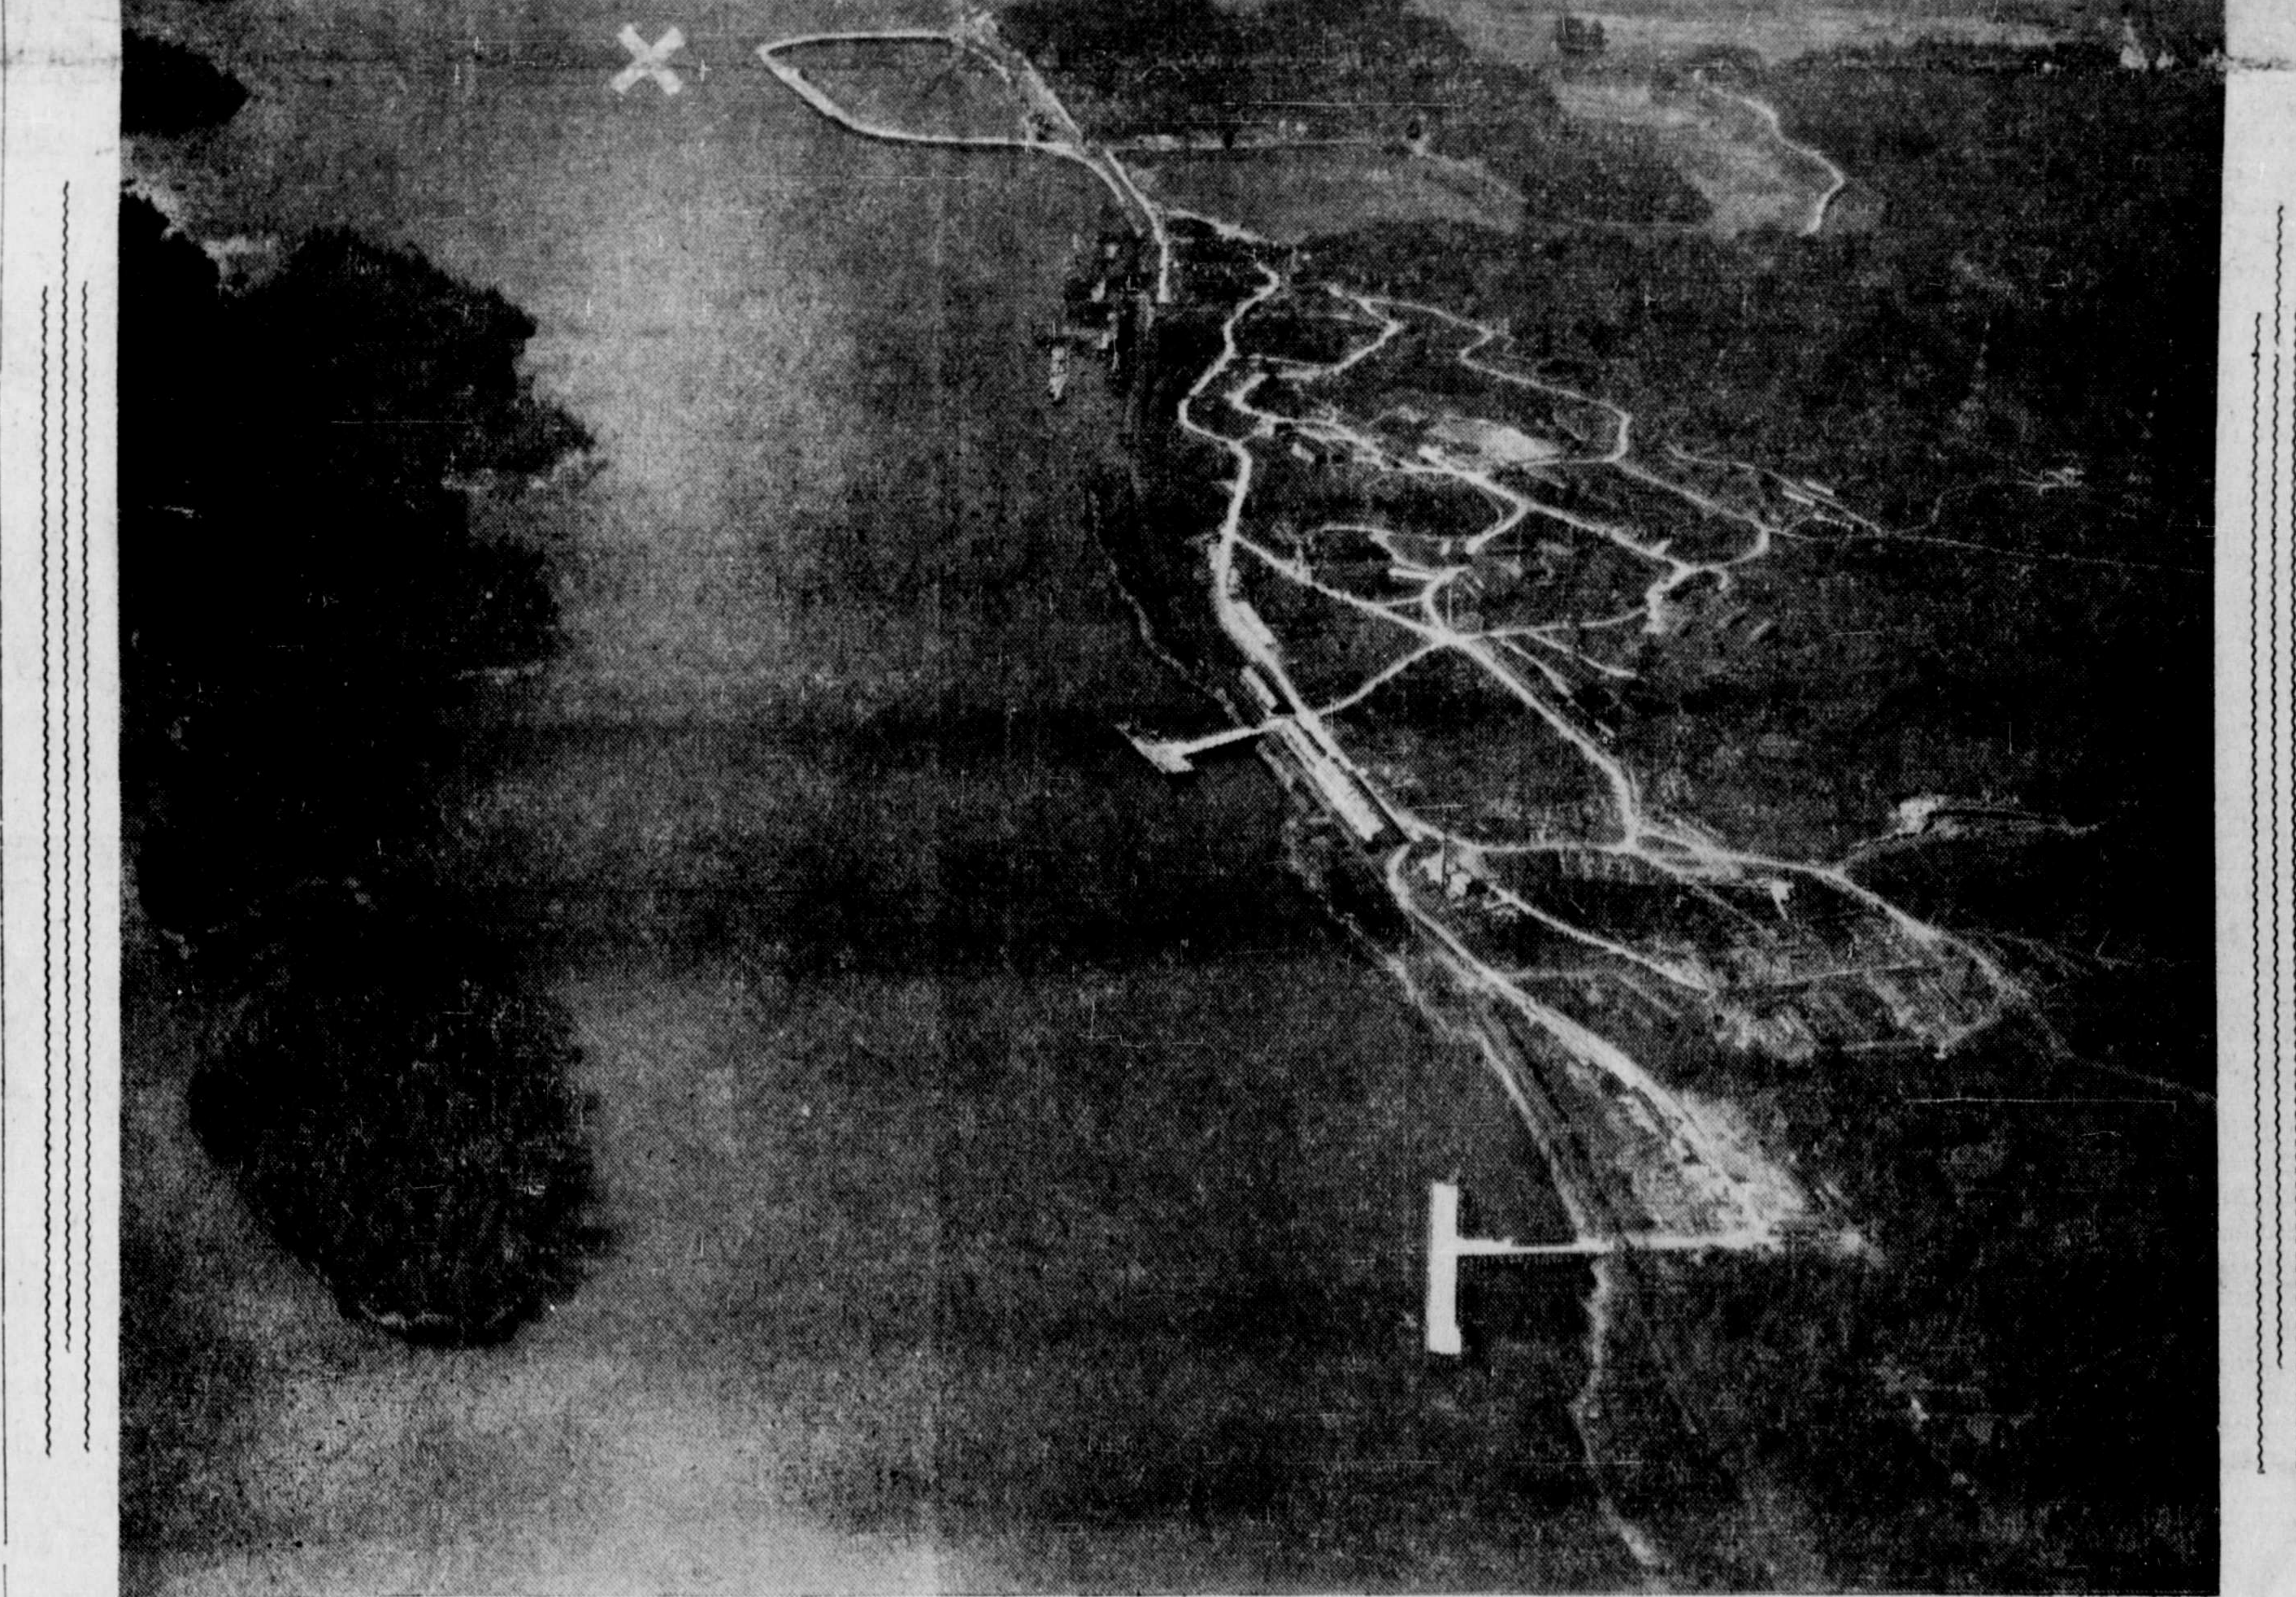

Synopsis  
A storm moving rapidly inland over northern British Columbia has brought rain to the northern coast during the night. Fog is general along the southern and central coast this morning but is expected to clear out today. However, a flow of moist air at high levels will bring increasing cloudiness to the western half of the province today and Friday. The eastern section of the province continues to enjoy clear weather.  
Forecast  
Prince Rupert, Queen Charlottes and North Coast—Overcast with intermittent rain today, becoming cloudy this evening. Overcast tonight and Friday with widely scattered rain showers. Southeasterly winds (20 miles per hour), shifting to southwesterly (25) this afternoon. Little change in temperature. Lows tonight—At Port Hardy, 40; Massett, 45; Prince Rupert, 43. Highs Friday—Port Hardy, 48; Massett, 52; Prince Rupert, 50.

**NO CHANGE IN DAIRY PRICES**

OTTAWA.—Hon. James G. Gardiner, minister of agriculture, indicated in the House of Commons yesterday that any increase in dairy products will not come until the mid-April meeting with the advisory committee on agricultural prices. Mr. Gardiner spoke during a clause-by-clause study of the bill to continue for a year the wartime board's need to fill food and community contracts with the United Kingdom.

High	0:57	19.3 feet
	12:50	20.4 feet
Low	6:51	6.1 feet
	19:10	3.3 feet

PULP MILL SITE—Here is an aerial view of Port Edward with Watson Island at top where Celanese Corporation of America will build a \$15,000,000 pulp mill. Beside the cross (upper left) is the 1,200-foot horseshoe dock, from which, it is expected, deep sea vessels will load pulp cargoes for transport to the Eastern United States celanese manufacturing plants. The horseshoe dock, immediately adjacent to the mill site, extends into the harbor from Watson Island, where the mill will be built. Canadian National Railways transcontinental line runs across the island from Port Edward to Prince Rupert, giving the proposed plant rail connection with continental lines and providing opportunity for rail shipments of pulp to the celanese fishing plants. Watson Island itself is connected to the Port Edward townsite by a causeway over which trains and road vehicles pass. Fifteen acres of its rocky surface will be levelled to make room for the pulp plant. The view shows the well-protected Port Edward harbor, sheltered by Ridley Island and other small islands. The dock at the lower right is the Canal Dock, which at present is up for sale by War Assets Corporation. At upper right can be seen the Canadian navy signal towers and above them, the road which runs from Port Edward to Prince Rupert. Nelson Bros. cannery docks and plant can be seen in the upper centre, just below the horseshoe dock.

**YOUTHS FIRED SCHOOL HOUSE**

VANCOUVER.—Two youths, aged 11 and 12, who, fire department officials said, broke into a school here and started a fire in a storeroom, are expected to face arson charges when they appear in juvenile court March 27.  
A policeman, who saw flames reflected in a school window, was credited with saving the building from total destruction.  
Estimate of the damage has not yet been made.

**BRITAIN STILL WEATHER LASHED**

No Relief From Kams—Are Even Heavier  
LONDON.—"Critical" and "disastrous" are the words being used in describing the flood situation in Britain. The river Thames, which has reached unprecedented heights, and the Ouse Valley are the hardest hit as continued rain acids to melted snow to create floods which are becoming steadily worse with no diminution of the torrential rains. There are fifty yard gaps in some of the levees.  
In the Yorkshire town of Bentley, six miles north of the Humber river, 1,000 persons are marooned and have been without food supplies for 24 hours. Appeal has been made to the government to send supplies to them by power boat as the swirling flood waters are too strong for row boats.  
MAQUINNA AGROUND  
VANCOUVER.—The steamer Princess Maquinna, inbound from Victoria and the west coast of Vancouver Island with fish cargo, went aground in fog this morning on a sandbar off the mouth of the Fraser River. She was expected to be relocated on the rising tide this afternoon. An American Liberty ship, Lawrence Victory, is aground 20 miles from Victoria.

## SCORING LEADERS IN BASKETBALL: STATISTICS FOR SEASON ARE ISSUED

The Senior "A" hoop league's last game drive for the top scoring berths did not change the standings very much although it did shift a few of the players. Ted Arney of the Savoy squad managed to stay up on top although his teammate, Herb Morgan, was giving him quite a run for the spot. Don Hartwig got bounced out of his second place berth in Tuesday night's last league game and slid right down to the number four spot with Bobby Houston of the Packers squad nosing him out in third place. Sev Dominato of the Packers was close behind Hartwig and Mel Thompson of the High School ended up in the sixth slot, only two points behind Arney.

In the top ten of the scoring, Savoy had four players, High School had four and the Packers had two.

Although Jack Lindsay netted himself 19 points in his one appearance last week, he does not rate a spot in the high ten because of his late start.

The last complete scoring standing is made without names of those players that have left the league, regardless of the number of games they have played.

The Rainiers won the second half of the league with six wins in eight starts while Savoy were right behind with six wins in 10 starts. The Packer squad started off the second half with a fairly weak squad but although they only won one game in their eight attempts, their chances in the play-offs are now considered fairly good.

### GURNEY TOPS

SENIOR "B"  
A. Gurney of the Port Edward squad easily walked off with the high scoring spot for the Senior "B" division, being six full points up on his nearest rival, Haugen of Macey's. Macey's took five of the top ten; Port Edward, two, and Co-op, three.

The Macey quintet ran wild in the second half, going undefeated through the 10-game schedule. But there was a race for the cellar between Co-op and Port Edward. Tuesday's last league game was to have broken this tie but as Port Edward failed to field a team the tie was not broken. Nevertheless, Co-op, by downing the high flying uptown lads in a close exhibition match, showed that the play-offs were not going to be a walk-away for the Macey gang.

### JACKIE BUDINICH

OUTSTANDING GIRL  
In the ladies' section of the league, Jackie Budinich was easily the highest scoring individual and her team, High School, was definitely the most powerful. Still People's Store were in there fighting all the time and, although all their wins were against the newly formed Sweet Sixteen quintet, People's did make the Rainbirds get out and hustle in most of their meetings. Sweet Sixteen began to become more and more familiar with the arts of basketball and, by their last game, they were giving all their rivals at least a good showing.

### DON SCHERK

TOPS JUNIORS  
Don Scherk of the Gyro Club was well out in front of the Junior scoring during the second half although, in the last few games, "Tiny" Carlson of the Legion was beginning to move up the ladder. Legion also copied the number three spot with T. Boulter edging out J. Haugen of Gyro.

Legion and Gyro each had three players in the stellar register of the hoop loop with Grotto and Watts & Nickerson sharing the remaining four spots.

In the league standings the only race was for the cellar and Grotto and Watts & Nickerson had a lively contest for that dubious honor. Gyro was way out in the lead with nine wins in their 10 tries. Legion won an

even half of their games to hold a firm grip on the number two spot.  
It's not a very safe thing to try and prophesy the future but, from all signs, next year will see quite a reshuffling of players going on with most of this year's squads broken up or reformed. The Senior "A" loop might have a tough time having as good a league as was displayed this season but in the Senior "B" or Intermediate "A" there will be some very strong squads.

### SENIOR "A"

Senior "A" second half scoring standings as at the league's last game:

	G.	Pts.	Ave.

## SHELBURNE, N.S., FINDS COMMUNITY CENTRE IN EX-SAILOR'S UNIQUE RESTAURANT

Conversion of ex-R.C.N. Petty Officer Raymond Standefers' home to a modern inn has gained a thriving crafts centre for Scotia, a new deluxe restaurant for south shore tourists, and spirited community centre for Strander's home town, Shelburne. His \$18,000 investment was made possible by re-establishment credits, D.V.A. assistance and a \$5,000 loan by the provincial government who now pay a craft instructor to teach at Standefers' "Woodlands" resort. Typical teen-age group (lower left) learns clay-modelling in the Marine Lounge.

Standefers (upper left) is himself an artist and craftsman and assists with instruction. Jim Gallion (upper right), British West Indian chef, gained culinary experience in hotels, railway and steamship lines. Mrs. Leonard Weir, 76, shown at lower right in Woodlands Skyline Room spinning on her century-old spinning wheel, is representative of many old folk keenly interested in the centre, which helps members to market as well as produce handicrafts.

### Basketball Trip To Ketchikan Off

Arrangements which were being made to send a local girls' basketball team to Ketchikan for a series of games this week definitely broke down yesterday afternoon. The team, up to almost the last moment, had been standing by in readiness to proceed last night to the Alaska town.

### FLYING CLUB INCORPORATING

Prince Rupert Aero Club, whose members are looking forward with considerable enthusiasm, plans to purchase, or otherwise come into possession of, a clubhouse. At the club's meeting Wednesday night, a committee was appointed to investigate the prospects for a club house. Committee members are George H. Stanbridge, chairman; J. H. McLeod, Sr., Hugo Kraupner, and N. R. Young.

The club also plans to incorporate in order to make itself eligible for membership in the Royal Canadian Flying Clubs' Association, under which it will enhance its chances for guidance and possibly to obtain equipment and material. The R.C.F.C.A. is sponsored by the federal government to promote civilian flying.

The membership committee has been active, it is reported, and there are prospects for several new members. Present at the meeting were 15 members.

### Whifflets From The Waterfront

In the course of an unscheduled voyage to various coast points, the Frank Waterhouse freighter, Chilliwack, arrived in port at 4 o'clock this morning from Port Simpson, and, after discharging and loading cargo locally, is leaving this afternoon for Port Edward to load United Kingdom-consigned canned herring for Vancouver. On the way here, the Chilliwack had called at Massett and Port Simpson with coal. She picked up canned clams at the Millard plant at Coal Cove today.

Lieut. Eric Jones, naval staff officer here, returned to the city on Tuesday night's train from a trip to Ottawa on official business. Having been married while away, he brought his bride with him.

with President George Stanbridge as chairman.

## LETTERBOX

### SORRY TO PART

Today as my service with the Naval Service at Prince Rupert terminates, and I am to leave your city, my thoughts travel back over the past two years, and I think of all the acquaintances, both business and personal, that I have made here, of the enjoyable times that I have had in your city, and of how much I have enjoyed your much-talked-of weather. There may not be as much of the summiness of "Old Sol" that some of those to the south of us boast of, but there is a sunniness of the north country that is far warmer than that of the south.

During my stay in Prince Rupert, I have enjoyed real happiness, in enjoying others' lives with them in their homes, and I will treasure this past two and a half years as the happiest in my life.

It is indeed a pleasure to hear of the construction of the new pulp mill at Port Edward, and I feel sure that this is only the beginning of a new industrial era for Prince Rupert and the north country.

As time will not permit me to personally say farewell to the many people I have come to know in Prince Rupert, I would like to express, on behalf of my wife, my little daughter, and myself, our sincerest thanks for the pleasure that you have given us during our stay here, and we wish you one and all every success for the future.

If any Prince Rupert person is visiting in Victoria, we would consider it an honor if they would contact us and we will try to repay some of the kindness shown to us here.

GILBERT L. BROWN,  
C.T.O., R.C.N. (R)

DURHAM, Eng. 20—A road and bridges scheme estimated to cost £250,000 (\$1,000,000) will slice the city in two and alleviate traffic problems created by the town's ancient, narrow streets.

A. E. Wood, secretary of the Oddfellows' Lodge, writes to the effect that the weekly Saturday night dances held in the Oddfellows' Hall are not under joint auspices of the Oddfellows' Lodge and Harmonizers' Orchestra. The orchestra merely rents the hall and the Oddfellows' Lodge is in no way connected therewith.

### Queen's to Assist Science Freshmen

KINGSTON, Ont. — Science freshmen will be given a new kind of reception when they report at Queen's University next fall. Under plans approved by the Engineering Society, the freshmen will be met at the train on their arrival in Kingston. They will be given a considerable amount of guidance during their first days at university. Each new student will be assigned a mentor from among the senior students who will give him all needed advice throughout the term. The freshman team will continue to be compulsory for first year students.

### TOO LATE TO CLASSIFY

FOR SALE—"Welcome Hut" on C. N. Dock. Prompt removal essential. Submit tenders in writing to Canadian Legion, Box 628, Prince Rupert. (69)

WANTED—Man for steady travel among customers in Prince Rupert. Permanent connection with large manufacturer. Only reliable hustler considered. Write Rawleigh's Dept. WG-C-166-131, Winnipeg, Canada.

WORK WANTED — Married woman will care for child of working mother. Phone Blue 325. (69)

"This is not necessarily all agricultural, and reports are not all published yet, so we cannot give figures of arable area."

"Soil surveys will probably be concentrated in the Peace River area in 1947 because of the increasing demand for settlement lands there."

"If we have learned anything from past years then we have been impressed with the fact that, in order to win, we must have abundant natural resources and we are also reminded that employment in peacetime is equally dependent upon such resources. By building up the productivity of our forests and fully utilizing the materials therefrom, we must ultimately attain that guarantee so essential in the first instance as well as the obvious necessity of the second."

"With the co-operation of the Agricultural Department's land-clearing machinery, it will now be possible for the new settler to participate in the use of this equipment as well as the old-established settler."

### SIX MONTHS ON THEFT CHARGE

Charged with the theft of jewelry from the apartment of Mrs. Violet Urlick, Fraser Street, March 16, Stewart Ryan was sentenced to six months in jail in city police court Wednesday. Victor Larochelle, charged with retaining stolen property in connection with the same affair, received a sentence of one month. Mrs. Urlick's apartment was entered last Sunday night and jewelry valued at \$75 and \$25 in cash stolen. Most of the jewelry was later recovered.

## AMATEUR NIGHT NETS \$145 FOR KIN PROJECTS

Prince Rupert Kinsmen Club netted \$145 from its amateur night concert two weeks ago. Committee Chairman Alex Bailey reported to the regular meeting of the club held in the Civic Centre last night. The money will be added to the boys' summer camp fund.

The meeting was given an outline of past activities by Dan McDonald, publicity chairman, who reported that stories of these activities and pictures of club functions will appear in an early issue of the Kinsmen magazine.

The club received assurance from Robert Gordon that his property at Lake Lakelse was available again this year as a site for the boys' summer camp, which is the club's main project. A tag day to raise funds for the camp will be held on April 5.

Bert Horgan was appointed club treasurer to replace Maurice Irving, who submitted his resignation from the organization.

Following the meeting, which was attended by 14 members, R. G. Moore showed colored motion pictures of the Tweedsmuir Park region. President R. E. Montador was chairman.

## Family Accompanies Fiancee Down Under

SYDNEY, Aus.—A 19-year-old American girl who arrived here recently to marry a Queensland-er, brought her family with her to live in Australia. She is Mary Halikis, of Pittsburgh, who is engaged to Con Bogiatzis of Townsville. With her come Mr. and Mrs. Emanuel Halikis and their 21-year-old son, Skyros.

The family thought Mary might be lonely without them, so they packed up and left with her, hoping to settle permanently in Australia.

The young couple met and became engaged when Bogiatzis was on leave from the Australian army in California a year ago.

## Francois Lake News

### FRANCOIS LAKE BOARD MEETING

Roads Come in for Discussion  
At Farmers' Institute  
Gathering

FRANCOIS LAKE—The first general meeting of the Farmers' Institute was held at the hall on Wednesday evening when the Burns Lake and District Board of Trade officials were present by invitation. District Agriculturist George Axens was also present. There were 25 persons in attendance.

There was an interesting discussion as to whether an electric plant should be installed at the hall. Most of the members were in favor of the plan, and a committee was formed to co-operate with the directors who will meet and go into the matter thoroughly regarding finances, type of plant, and operation.

The Board of Trade was asked to advise the Public Works that there was no warning sign at Petersen's Corner to show where the road turned west. It was suggested that a checker board or a reflector be placed at this dangerous corner where there have been several accidents.

Attention of the same department was to be drawn to the dangerously narrow road this side of Nicholson's Mill where it is impossible to see an approaching vehicle and too narrow to pass. School children are brought along this road and the driver feels that he cannot be held responsible for their safety at this dangerous point.

After the meeting was closed the secretary of the Burns Lake and District Board of Trade, V. Montaldi, spoke briefly on its activities during the past year on behalf of the surrounding districts as well as Burns Lake. The ferry service here has been greatly improved, the road round the head of the lake has had some work done on it, and a promise has been given that there will be more work on it this year.

Mr. Montaldi also told the meeting that there is a possibility of a Health Unit at Prince George, and this would serve this district. The tuberculosis bus is expected again this summer, probably in June.

## THE CALENDAR SAYS SPRING AROUND CORNER

The Weatherman Confirms it  
By Restrained Equinoctial  
Antics

The weatherman, who usually keeps his tongue in his cheek even while absorbing the most ardent compliments from his local admirers, betrayed his unpredictability last night by throwing what meteorologists call an "air mass" in a fit of mild tempered fury.

This air mass took the form of a 34-mile-an-hour wind to which the weatherman thoughtfully added a spot of rain—just to keep the spring flowers from parching, no doubt. It was just a shower, however—47 of an inch between 10 p.m. and 9 a.m. Local unofficial weather students, disregarding the cyclonic storm theory which is an accepted part of weather forecasting, have come to the conclusion that they know where the weatherman has his hide-out.

The weatherman lives, they argue, southeast of Prince Rupert, because that is where practically all local storms, including today's, come from. The idea has not been copyrighted. There is another school of thought that declines to accept this theory as relevant or important. Rain, they declare, is an inevitable result of killing spiders and strong winds are the accumulated waste products

from saxophones. Neither of these theories have been proven conclusively.

However, it is a matter of record that the northern hemisphere is on the verge of the Spring equinox, an annual point of time when the days officially become longer than the night and lambs start to gambol. The equinox usually is accompanied by weather disturbances which reach varying degrees of violence. Prince Rupert officially enters the equinox at 6:13 tomorrow morning.

You can tell by the calendar that it's Spring.

### BANK TO OPEN, TERRACE, SOON

The Royal Bank of Canada is making arrangements for the opening of a full time branch on a permanent basis at Terrace, where, for the past few months it has been operating a sub-branch from Prince Rupert with office in premises adjoining the Skeena Mercantile store. The staff at Terrace will consist of manager and clerk.

Arnold Flaten, manager of the local branch, and William Barton are at Terrace today conducting the weekly banking day.

### SEES ANIMALS AS IMMORTAL

Unusual Subject of Clergyman  
In Addressing Service Club

Speculation on the immortality of the animal world was the unusual subject of Rev. Basil S. Procter, rector of St. Andrew's Anglican Cathedral, in speaking before the Prince Rupert Gyr Club at luncheon yesterday. Mr. Procter ruled out the possibility of forms of animal life but found basis in the intelligence and personality as developed by association with man of the higher animals—the horse, the dog, the cow—for the thought that they might, as an entity with man, have a form of immortality. The principle of immortality the speaker defined as the direction of the soul towards the source of all life.

President C. G. Ham was in the chair at the luncheon and the speaker was introduced by Frank Skinner and thanked for his talk by A. J. Dominato. A luncheon guest was Harold Thom.

## BIG BAY SAWMILL MAN SUCCUMBS

Death Comes Suddenly to  
S. E. Sunbury of Big Bay

Stricken suddenly with a recurrent heart ailment, Selah Ellsworth Sunbury, manager of the Georgetown Lumber and Box Co.'s sawmill at Big Bay, between Prince Rupert and Port Simpson, passed away in the Prince Rupert General Hospital at 8:30, Wednesday night, four hours after having been rushed here from Big Bay by Dr. R. G. Large and W. R. McAfee, who went out on the F. H. Phipper after receiving an emergency call.

Mr. Sunbury, born in Sherbrooke, Quebec, in 1889 and a veteran of World War I, having served overseas with the Canadian Forestry Corps, is survived by his wife who is at present in Vancouver receiving medical treatment.

Mr. Sunbury came to Prince Rupert in 1924 from Hutton in the Prince George district. Following his return from the war, he had previously been in the southern interior and on Vancouver Island.

He became filer at the Big Bay mill and, in partnership with W. R. McAfee, several years ago formed the Georgetown Lumber and Box Co., to take over the Big Bay Lumber Co. sawmill interests.

In addition to the widow, Mr. Sunbury leaves an aged mother, Mrs. Martha Sunbury, in Sherbrooke, and three brothers in the east.

Funeral arrangements will be announced later.

### FOR CIVIL RIGHTS

VANCOUVER, B.C.—Establishment of "civil rights" in Canada where they are at present "poorly defended or inadequately protected," is the aim of a new University of British Columbia group—the Canadian Civil Liberties Union.

### FUNERAL NOTICE

SUNBURY—Selah Ellsworth Sunbury passed away at the Prince Rupert General Hospital, March 19, 1947, in his 58th year. Served with Canadian Forestry Corps overseas in World War I and resident of Big Bay since 1924, where he was mill manager for Georgetown Lumber and Box Co. Survived by his widow of Big Bay, his mother, Mrs. Martha Sunbury in Sherbrooke, Quebec, and three brothers in the East. Funeral arrangements in hand of B.C. Undertakers, will be announced later.

**ALWAYS  
READY FOR  
HER MEALS**

SCIENCE has proved there are certain food elements everyone needs for health. If there aren't enough of them in a child's food, serious things can happen—such as loss of appetite, stunted growth, soft bones, poor teeth, faulty nerves, defective eyesight.

Ovaltine supplements the diet with elements frequently deficient in ordinary foods. Three servings of Ovaltine furnish a significant portion of a child's daily requirements of Vitamins A, B<sub>1</sub>, C, D, Riboflavin (B<sub>2</sub>), and Niacin and Minerals Calcium, Phosphorus and Iron.

In addition it provides the basic food substances—complex proteins to build muscle, nerve and body cells—high-energy foods for vitality and endurance. It thus acts as an insurance against food deficiencies that retard normal growth.

So if your child eats poorly, is thin, underper, perhaps nervous, why not try delicious Ovaltine for normal growth and better appetite.

## Attlee Faces Up

THE Britain's labor government has its back to the wall in a national economic crisis and can do nothing else but face the facts of an increasingly realistic state of affairs, we cannot but admire the courage with which Prime Minister R. Attlee is measuring up to the situation. He may or may not be fair to criticize the labor government for not having apprised the people sooner of the seriousness of the situation but it is to be doubted if any other government would have done much differently. It is not many political administrators who are apt to tell the people distasteful things before they are compelled to and the labor government was so young and so much was expected of it, rightly or wrongly, that it was hardly to be expected that it would be breaking bad news to the people any sooner than possible.

But now Mr. Attlee, no longer clinging to any "milk and honey" dreams of a socialistic state (if ever really had any very serious illusions along that line) is telling Britons that they must work hard and long to produce, with their personal earnings and privileges relegated to secondary consideration, if the nation is to survive. That is what a Labor government has found in Britain and has to face up to. Even it has found no rosy path to economic well-being such as some of us might be inclined to hope would spur from a socialist government. It is to be hoped that the people of Britain who supported the Labor party in the hour of its promise will continue to back it up in the hour of its trial and adversity. It is a criticism for the old Motherland. As Mr. Attlee said enough says "difficulties which face the nation are too serious, too challenging and too important to engage in party scores."

\* \* \*

## ILLING OUR WEATHER

PRINCE RUPERT people are getting more than a little fed up on the daily weather reports supplied to press and radio which persistently assure this place with the same foul weather conditions which prevail so much in Vancouver. It is irritating to say the least of it to have the Vancouver newspapers report and the radio announcers declare (even through CFPR sometimes) that there is rainy weather along this part of the coast when actually the skies are blue and clear and the sun is shining brightly. Prince Rupert people can be expected if they become irked, after all these years of weather malignment, at having our fine meteorological conditions, so gloriously exemplified during the first of February and so far along in March, continually and carelessly labelled. Therefore, we are constrained to raise our voice in protest.

Not only are the present meteorologists in Vancouver making a deplorable botch of their forecasts half of the time they are not even recording us fairly. Possibly, the best solution of the thing would be the establishment of a local weather bureau at Prince Rupert so that true and accurate reports of forecasts would be forthcoming. Certainly we think Prince Rupert rates a better weather service than it is getting. They are spending enormous amounts of money on weather research even in the other regions. Surely here in Prince Rupert, where weather information is vital to so many people in the pursuit of their business one way or another, we should be entitled to something better than to submit to having our fine weather labelled and slandered to a point where quite a few people are beginning to think it is being done deliberately.

\* \* \*

## KENNEY, THE MINISTER

WHILE the outstanding feature of the speech of Hon. E. T. Kenney, minister of lands and member for Skeena, in contribution to the budget in the Legislature last week, was the announcement of the \$15,000,000 celanese pulp mill project for Prince Rupert, the northern member and minister dealt with many other aspects of his departmental activities. A perusal of his speech, which we have unfortunately been unable to publish in full owing to its length, indicates the splendor of grasp that Mr. Kenney has taken of the multiplicity of matters which come under the purview of his very extensive portfolio. Those who know Mr. Kenney are well aware of his assiduity and capacity for study and assimilation of considered facts so are not surprised at the apparent success he is making as an administrative legislator.

Outstanding feature of the legislative program emanating from Mr. Kenney's department this session is, of course, the enactment of the sustained yield policy in connection with the future utilization of British Columbia's forest resources. It is interesting in that connection that the celanese pulp mill project for Prince Rupert (or Port Edward to be more exact) is to be the first major permanent industrial undertaking based on co-operation of government and industry on the plan of perpetual timber supply by sustained yield.

Mr. Kenney's speech dealt with many other aspects of administration of the land which he rightly enough said "is the basis of all natural resource development but particularly of agriculture and forestry." Mr. Kenney disclosed some interesting information in regard to facilitating future land utilization by way of encouraging settlement on suitable land through such means as carrying out surveys and making necessary information available.

## In Honor of Naval Heroes

### Plaque to be Provided From Funds of Old Naval Reserve

Memory of four members of the old Royal Canadian Naval Volunteer Reserve who gave their lives in the service of their country with the Navy during World War II is to be honored in perpetuity. The Corvette Club, holding organization for the old reserve, has appropriated a sum of \$100 to finance the fashioning of a handsome bronze plaque which will bear the names of the four heroes—Albert Lloyd Keays, Harry Munkley, Allan K. M. Davies and Harold Russell Ponder. Danny MacDonald has been named chairman of the committee to look after providing of the plaque, which will probably be placed in the Civic Centre.

The Corvette Club met on Monday night under chairmanship of Harry Robb with William Murray as secretary and 18 members present.

A social event is to be held later.

## COMMITTEES OF HOSPITAL

### Arnold Flaten Finance Chairman; Dodds, House, And Morin, Grounds

Ald. C. G. Ham, chairman of the board of directors of the Prince Rupert General Hospital, has named standing committees for the year as follows:

Finance—Arnold Flaten, G. F. Forbes and Thomas McMeekin.  
House—B. R. Dodds, T. B. Black and Dr. W. L. Kergin.  
Grounds—J. R. Morin and W. O. Fulton.

## OFFER FOR EQUIPMENT

### Hospital Board Would Purchase Military Wing Fixtures—Monthly Meeting Held

The board of directors of the Prince Rupert General Hospital, at its monthly meeting, made an offer of \$1,909 to War Assets Corporation to purchase equipment consisting of sterilizers, electric refrigerator, etc., in the military wing of the hospital which is being taken over for incorporation into the general hospital.

The report of the finance committee for the month of February showed 192 patients admitted with 23 out-patients treated. There were 1,590 hospital days at \$5.74 cost per diem.

Present at the meeting were Ald. C. G. Ham, chairman; Arnold Flaten, Thomas McMeekin, J. R. Morin, B. R. Dodds, G. F. Forbes and Ald. T. B. Black.

## LUMBAGO (Lame Back)

When your back is stiff and sore to touch and it's an effort for you to stoop or bend, take the remedy that has brought swift relief to thousands—Templeton's T-R-C's. Don't suffer from the nagging misery of Lumbago a day longer than you have to. Get T-R-C's today. 50c, \$1 at drugists everywhere. T-39

## Smiles'n Chuckles

Needing a new secretary, the firm's manager decided to have applicants judged by a psychologist. Three girls were interviewed together.

"What do two and two make?" the psychologist asked the first. "Four," was the prompt answer.

To the same question the second girl replied: "It might be 22."

The third girl answered: "It might be 22 and it might be four."

When the girls had left the room, the psychologist turned triumphantly to the manager.

"There," he said, "that's what psychology does. The first girl said the obvious thing. The second smelled a rat. The third was going to have it both ways. Now, which girl will you have?"

The manager did not hesitate. "I'll have the blonde with the blue eyes," he said.

"Hello, Bill. Why are you looking so blue?"

"Oh, my wife found out that I'd been fooling around with my stenographer."

"Gee, that's too bad."

"Oh, that was nothing. But he went and told the maid about it. Then there was hell to pay!"

"I'm a bit worried about my

wife," says Guy Middleton. "She was talking in her sleep and saying: 'No, Frank, no, Frank.'"

"Well, what are you worrying about?" demands his friend.

"She said 'No,' didn't she?"

Master (to new cook): "We want you to show what you can do tonight, Jane. We have some rather special people coming for a musical evening. Do your level best, you know."

Cook: "Sure, sir, that I will. It's a long time since I did any singing, but you can put me down for a couple of comic songs, if you like."

A pretty young lady who had a poodle dog in her lap was riding on a street car. A blue-nose sitting next to her remarked: "What a nasty little dog. Don't you think, young lady, it would look nicer if you had a little baby in your lap?"

"No," the pretty one replied in calm, even tones, "it wouldn't. You see, I'm not married."

Humorous Man (in street car): "Has anyone dropped a wad of notes with an elastic band round them?"

Chorus of Voices: "Yes, I have!"

"Well, I've just picked up the elastic band."

I had sworn to be a bachelor. She had sworn to be a bride. But I guess you know the answer.

She had nature on her side.

The manager heard that a \$30-a-week clerk had a car, and asked him how he could afford it, with four children.

"Oh, that's easy," said the clerk. "There are 500 of us employed at this factory. I raffle my wages every week at 25c a go."

Bob: "Say, Pop, how soon will I be old enough to do just as I please, do you think?"

Pop: "Son, nobody has ever lived that long!"

Father: "Now, son, tell me why I punished you."

Son: "That does it! First you pound the life outa me and now you don't know why you did it!"

A touring American go-getter noticed an old Indian chief lolling at the door of his wigwam somewhere out West.

"Chief," remonstrated the go-getter, "why don't you get a job in a factory?"

"Why?" grunted the chief.

"Well, you could earn a lot of money. Maybe thirty or forty dollars a week."

"Why?" asked the chief.

"Oh, if you worked hard and saved your money, you'd soon

have a bank account. Wouldn't you like that?"

"Why?" asked the chief.

"For heaven's sake!" shouted the exasperated go-getter. "With a big bank account you could retire, and then you wouldn't have to work any more..."

"Not working now," pointed out the chief.

"I'll teach that boy to tell lies!"

"I wouldn't do it now, dear; wait and let him hear the ones you tell when you come in late tonight."

#### Local Hoop Talk

Saturday night is the big light at the Civic Centre with the semi-finals of the local hoop league getting under way. There will be one sudden death game and two opening games of a two-out-of-three series.

In the sudden death match, Gyro and Grotto of the junior league will mix it up, the winner of this match moving into the final with the winner of Tuesday night's Legion-Watts and Jackson knockout match.

Gyro is the favored squad as they have only been defeated once during their ten games in the second half. But, that one defeat was at the hands of this same Grotto squad that is to do battle with them on Saturday. So all in all it should be a hard-fought tussle.

In the opening game of the Senior "B" semi-finals, Co-op will meet Port Edward in the first of three games. Co-op are flying pretty high right now, as Tuesday night they downed the mighty Macey squad. Then again, Port Edward had a couple of players of the All-Native championship squad and they will not let this match go without fighting pretty hard.

Up in the Senior "A" division, High School will be having a much needed rest while Savoy and B.C. Packers start their three-game series on Saturday. Savoy were, up until a week ago, highly favored in these playoffs, but, with the return of Jack Lindsay and the rumored return of Sonny Beynon, the Packers have a strong squad to go into the battle with. Most of the players on the Packers' squad are making this their last year and what could be finer than to win the Senior "A" finals in their last active year on the old maple court. On the other hand, it was this same Savoy squad last year who upset the

powerful High School outfit after the Rainmakers had coasted all through the second half undefeated. They might be out to do it again this year!

The Ladies' League finals do not get started until Tuesday night with People's Store and High School doing battle for the ladies' championship. This match should keep the fans on their toes as these two rivals are rivals in every sense of the word. The girls' teams are a little different than the boys' teams, in that they have a tendency to play more with their emotions than with their heads. They fight hard and they fight

## SHORT SPORT

Britain's black year of sport in 1946, in which the country was trimmed at cricket, tennis, golf and horse racing, has whipped up gossip around the pavilions and bars of the Old Country that it might be better for everybody's peace of mind if Britons quit the international sports arena for about 10 years and allowed a new batch of athletes and horses to mature. Cricket-playing countries will shout against such a drastic step, but the fact remains that there is a large body of sports lovers who would like Britain to step out for a few years and then come back with a breed of athletes who could more than

hold their own against the rest of the world. It's an old alibi that Britons don't get enough food to build world beaters on the playing field. But this "let's quit for a time" attitude is based on a desire to see Britain get back in front of the rest of the world in the sports field. A positive step in this direction already has been taken by the British Ice Hockey Association. This body entered a team for the coming world championships at Prague, and when it was found it could not get players good enough sent an intimation that Britain would not be playing. Said Secretary A. F. Ahern: "What's the good of us going there to take an awful beating? We're looking ahead to five years from now."

hold their own against the rest of the world.

It's an old alibi that Britons don't get enough food to build world beaters on the playing field. But this "let's quit for a time" attitude is based on a desire to see Britain get back in front of the rest of the world in the sports field. A positive step in this direction already has been taken by the British Ice Hockey Association. This body entered a team for the coming world championships at Prague, and when it was found it could not get players good enough sent an intimation that Britain would not be playing. Said Secretary A. F. Ahern: "What's the good of us going there to take an awful beating? We're looking ahead to five years from now."

Golfer Henry Cotton, who has prematurely been reported as captain of Britain's Ryder Cup team to play against United

States professionals next November, seems to hold similar views. Cotton has pointed out that the war has checked development of young golfers and he rams home the point that Britain's team against top-flight American pros will for the most part have to be picked from golfers who were knocking around the courses back in 1939.

Club and pavilion gossipers went into action anew as they read an interim report from the British organizing committee for the Olympic games to be held in London in 1948. This report dealt with plans that have so far been made for the various events which all told may be witnessed by 1,000,000 persons. Olympic games always have had bitter opponents in Britain—people who have long been sick of the international squabbles they breed. It's a strong point with the "let's quit for a time" section that Britain will not be

in shape to put top-flight athletes on the tracks in 1948, and they would have preferred that Britain did not act as host country or even participate in the 14th games.

The various sports bodies, apart perhaps from the Football Association and the Amateur Boxing Association, who will nominate men for pre-Olympic trials, don't appear to be too hopeful that Britain will make a good showing in these 1948 games. A great deal of the present "let's quit" feeling can be traced to the beating the England cricket team has taken from Australia. In the coming summer months a good showing by Britain against the comparatively young South African cricket side that will be here, a win in the Walker Cup matches against the amateurs of the United States on the St. Andrews links, and a better showing by British tennis players during the Wimbledon fortnight may dissipate this present day gloom.

**IN THE SUPREME COURT OF BRITISH COLUMBIA** IN PROBATE IN THE MATTER OF THE "ADMINISTRATION ACT" and IN THE MATTER OF THE ESTATE OF ROBERT WEBSTER, DECEASED TESTATE

TAKE NOTICE that by Order of His Honour W. E. Fisher, made on the 21st day of February, A.D. 1947, I was appointed Administrator with Will annexed of the estate of Robert Webster, deceased, and all parties having claims against the said estate are hereby required to furnish same, properly verified, to me on or before the 28th of April, A.D. 1947, and all parties indebted to the estate are required to pay the amount of their indebtedness to me forthwith.

DATED at Prince Rupert, B.C., this 7th day of March, A.D. 1947. GEORGE H. HALLETT, Official Administrator, Atlin, B.C.

## UPPER DECK CROWDED IN "A" BOWLING

Practically everybody got in to the act at Monday night's ladies' "A" five-pin session, with three teams coming out with unblemished records. Savoy Swingers, Lucky Strikes and Annettes deposited respective blankets over Toilers, Miller Bay and Orange, with the Swingers running up the highest aggregate score of 2,779.

Highest individual scoring was the handiwork of Mrs. MacPhee of Savoy, who turned in a semi-phenomenal 738 for three games. Her single game score of 313 set a record for that category.

Game Scores: Savoy Swingers 3, Toilers 0. Lucky Strikes 3, Miller Bay 0. Annettes 3, Orange 0.

Moose 2, Ideal Cleaners 1. Variety Store 2, Big Sisters 1.

**BRITAIN EYES WAGERING FOR NEEDED FUNDS**

Government Studies Methods Of Getting Revenue From Betting Turnover

LONDON (Reuters) - Russia's Nikolai Lenin once remarked that there never would be a revolution in Britain as long as the working man had his beer and his racing guide.

The beer is watery now, but gambling still is Britain's biggest business and the government, despite Lenin's advice, is known to be studying methods of deriving revenue from the estimated £500,000,000 (\$2,000,000,000) annual betting turnover.

Up to now bookmaking has not been taxed in Britain. Apart from large bookmaking firms doing a licensed business, about £250,000,000 annually is handled by bookies on street corners who accept shilling bets as readily as pound notes.

These "two-bit" bookies have been a factor in Britain's social life for decades and many feel they would strongly resent any official efforts to cut in on their take.

Those smaller bookies operate as agents for the legal "credit bookmakers" who work within the law and make their profits from the illegal cash bets of small betters. The street corner business is well-known to police.

**POPULAR CLASSIC** - Betting on horse racing reaches its peak with the running of the Grand National classic in March, an event which to some extent touches nearly every man, woman and child in Britain.

Football pools-participated in by one of three British adults who each week place a "two-bob" bet in hope of winning prizes ranging from ten shillings (\$2) to £40,000-account for a turnover of another £50,000,000 a year. All the spectator has to do, and its legal, is fill out a form forecasting the results of 44 major league football matches in combinations ranging from three to 14 results.

Another £200,000 annually is wagered in pari mutuel machines at greyhound tracks and this may be the first target of Hugh Dalton, chancellor of the exchequer, since the betting is spread over a large section of the country and would be less restrictive on an individual bettor or bookmaker.

Betting on the "dogs" is at the top of the list of various anti-gambling groups, who would like to see it curbed in some way because it is the largest gambling medium of them all.

## TRANSFERRED TO POWELL RIVER

Popular young banker and ex-naval officer, Ronald D. Minnion is being transferred from the local branch of the Bank of Montreal to Powell River where he will assume the duties of accountant. Accompanied by his wife and little daughter, he will leave tonight on the Prince Rupert for his new duties at the paper town down the coast. Mr. Minnion first joined the local branch of the bank in 1937, enlisting for active service in the Navy soon after outbreak of war in 1939. Serving both on Pacific and Atlantic coasts, he obtained his commission and, after his discharge, returned to Prince Rupert last April to resume his duties in the bank here. Departure of Mr. and Mrs. Minnion from Prince Rupert will be regretted by many friends. Mr. Minnion's successor here is Ian Dunbar who has arrived from Prince George.

## BRITAIN EYES WAGERING FOR NEEDED FUNDS

Government Studies Methods Of Getting Revenue From Betting Turnover

LONDON (Reuters) - Russia's Nikolai Lenin once remarked that there never would be a revolution in Britain as long as the working man had his beer and his racing guide.

The beer is watery now, but gambling still is Britain's biggest business and the government, despite Lenin's advice, is known to be studying methods of deriving revenue from the estimated £500,000,000 (\$2,000,000,000) annual betting turnover.

Up to now bookmaking has not been taxed in Britain. Apart from large bookmaking firms doing a licensed business, about £250,000,000 annually is handled by bookies on street corners who accept shilling bets as readily as pound notes.

These "two-bit" bookies have been a factor in Britain's social life for decades and many feel they would strongly resent any official efforts to cut in on their take.

Those smaller bookies operate as agents for the legal "credit bookmakers" who work within the law and make their profits from the illegal cash bets of small betters. The street corner business is well-known to police.

## UPPER DECK CROWDED IN "A" BOWLING

Practically everybody got in to the act at Monday night's ladies' "A" five-pin session, with three teams coming out with unblemished records. Savoy Swingers, Lucky Strikes and Annettes deposited respective blankets over Toilers, Miller Bay and Orange, with the Swingers running up the highest aggregate score of 2,779.

Highest individual scoring was the handiwork of Mrs. MacPhee of Savoy, who turned in a semi-phenomenal 738 for three games. Her single game score of 313 set a record for that category.

Game Scores: Savoy Swingers 3, Toilers 0. Lucky Strikes 3, Miller Bay 0. Annettes 3, Orange 0.

Moose 2, Ideal Cleaners 1. Variety Store 2, Big Sisters 1.

**TOILERS** - M. Smith 121 135 145 G. Richard 89 --- 101 C. McLeod 211 123 221 J. Menzies 143 192 158 J. Hill --- 120 158 B. Ellison 135 82 --- Handicap 94 93 99

## GERRARD AND BRUNO WALTER SHARE BATON

World-famous conductor Bruno Walter and the Vienna Symphony orchestra figuratively stood at the shoulders of Conductor Neville Gerrard and the Prince Rupert Symphony Orchestra while the latter laid diligently into Hayden's "Symphony in G Major" ("military") during its weekly practice session in the Civic Centre Monday night.

Conductor Gerrard employed an instruction technique often used by orchestra leaders to familiarize players with difficult classics. He played recordings of the Hayden masterpiece on a phonograph while the orchestra listened. Then the orchestra played the symphony, movement by movement, while the recordings were repeated at intervals.

The players found the method valuable in understanding the interpretations of inflection and idiom as portrayed by the Vienna orchestra. However, they were also made aware of their lack of instruments, and are repeating their appeal for instrumentalists to fill out their

## 25 YEARS AGO March 20, 1922

H. C. Strong, Ketchikan cold storage and cannery owner, urged before a congressional committee in Washington that a car ferry be established between Prince Rupert and Ketchikan. As railway terminus, he said, Prince Rupert was draining Alaskan fisheries money because American fishermen favored this port.

The new Canadian National dock, 850 feet long, was expected to be completed by April 1. The work was being done by Simmons Construction Co., of Winnipeg.

The provincial government road connecting Third Avenue with Cow Bay was opened for traffic. The project cost \$6,500 and gave direct connection to a number of business houses with the downtown area.

**PINEAPPLE-LIKE FLAVOR**  
The fruit of the pandanus plant resembles the pineapple in flavor.

There were 13 orchestra members at Monday night's practice.

## HOT BEDS AND WINDOW BOXES

Where one cannot buy started plants or where one wants to start ones own, the hot bed or window box supplies the answer. In these, seeds are planted in March and, after transplanting and hardening off, they are ready to set outdoors when the weather and soil are warm. Such things as cabbages, head lettuce, etc., are handled this way, among the vegetables, and petunias, zinnias, cosmos among the flowers. Indeed, any plant that will transplant can be started in these beds and from three weeks to a month or so of extra growing season added.

The hot bed consists of a deep layer of fresh horse manure to supply the heat. Over this is placed a rough frame of boards, and on top is placed a window sash. A good government bulletin will supply all details. On the manure is placed about two inches of good garden soil and in this, after the manure has heated and cooled again, the seed is planted in rows about three inches apart.

In the window box, which is a shallow affair about three inches deep, only good soil is necessary.

After the seed has sprouted and developed a second set of leaves the plants are thinned to about two inches apart. On warm days some ventilation should be provided and the soil should never be allowed to dry out.

After the plants are about two inches high they are usually transplanted to roomier quarters, and for at least a couple of weeks they should be hardened or made ready for permanent planting outside by being exposed to full weather.

## JUSTICE WITH SMILE BETTER

Black Market and Civil  
Cases Centre of Hull Court  
Interest

HULL, Que. — Black market and civil cases have replaced the bootlegging and gambling trials of the wide-open '20's in this Quebec city across the river from the national capital.

For 25 years a Hull district magistrate, Judge Honore Achim, 65, says there has been a 50 per cent reduction in crime here in the last 10 years. He attributes the reformation to high employment and comparative prosperity.

Famous for his witty remarks from the bench, Judge Achim has directed his humor at counsel, court officials, newspaper men and spectators alike.

"One can administer justice with a smile now and then without affecting the dignity of the court," he says. "It makes life more agreeable for all concerned."

## BOOZE BILL PROFIT

WINNIPEG, @.—Manitoba liquor profits for the year ending April 3, 1946, were the largest in the history of the liquor control commission. They showed a net profit of \$6,101,352.

## NURSERY STOCK

All shrubs, trees, bushes, vines, etc., that are grown or started in a commercial nursery are termed nursery stock. There is a wide range in price and just as wide in quality. The real test is whether or not the stock will grow quickly and sturdily. If the roots are dry and the upper part of the plant shrivelled, brownish and lacking buds, then one can be quite sure he paid too much for the stock. It will probably die or take three or four years to get really growing. Healthy stock, on the other hand, will come along quickly with hardly a check, especially if handled carefully. Plants, shrubs, vines, etc., should be kept cool and moist and if they cannot be planted in their permanent location right away they should be "heeled in," that is temporarily planted in a trench with the soil heaped up well above the roots. When replanting it is advisable to supply plenty of water and keep watered for the first few weeks. Planting is best done in the cool of the evening or on dull days, and some shade from hot sun is advisable with tiny things.

## GOOD COMBINATIONS

For the average layout, use a combination of vines, shrubbery, trees, perennial flowers and annuals. At the back against the house, vines and tall shrubbery, the latter planted in clumps, make the best background. In front of this groups of smaller shrubs and larger perennial flowers can be planted with the room between, especially when the shrubbery is still small, filled in with clumps of annuals. Along the front tiny edging plants are used, then will come a piece of green lawn. Use clumps rather than straight rows and a wavy edge along the front of the bed is preferred to straight edges.

## Home-Grown Wheat Increases in U.K.

LONDON @.—Deliveries of home-grown wheat to flour mills increased in the United Kingdom in January and helped to counteract delays in overseas supplies. Dr. Edith Summerskill, food ministry parliamentary secretary, said deliveries to mills in the five weeks ending Feb. 1 were 220,000 tons against 23,000 tons and 112,000 tons for the four weeks ending Dec. 23 and Nov. 30 respectively. Harvesting last autumn was made difficult by rainy weather and the food ministry now permits millers to accept wheat containing up to 50 per cent of sprouted grains if it is otherwise sound.

## LIQUOR CHARGE BRINGS FINE

Charged with supplying liquor to an Indian, Lloyd Wader was fined \$100 in city police court Tuesday. A charge against Wader of contributing to juvenile delinquency, involving an underage native girl—is being heard by the court.
