MAN'S GREATEST PROBLEM

ALTHOUGH BING CROSBY defines the world's
most urgent problem as "peace" and Joe E.
Brown describes it as "man's unfriendliness to
man," both screen and radio stars agree that youth
and their faith in God and in humanity can help
build a better world.
Writing in the recently published 1947 edition
of The Book of Knowledge Annual in answer to
the question: "What do you consider the world's
most urgent problem, and how can young people
help to solve it?" Mr. Brown says:
"The greatest problem the world has to solve
is 'man's unfriendliness to man.' Without a doubt
our young folks can help a confused world, even
lead the movement.
"We must see that our children have high ideals
passed on to them, then impress on them the im-
portance of clinging to those ideals through thick
and thin. They must know that decency means the
building of character and a happier world. We
must respect the opinions, faith and acts of the
other person so long as he does not break the laws
of our country or humanity.
"We must teach our youngsters that God placed
us on this earth for good and we must justify the
love of our parents.
"We need 'world citizens' with the knowledge
that all people are created equal, that borders must
not be barriers to understanding.
"They must be taught that a peaceful and con-
tented world will depend less on the three R's than
the three L's. Learn to live and laugh with and
love all people.
"Then we grown-ups must live by our teachings."
Because the older generation is "hog-tied" by
man-made instead of moral regulations, Mr. Crosby
looks to youth to lead the way in solving the prob-
lem of peace. He writes:
"Peace, through co-operative effort for the good
of all, is undoubtedly the world's greatest problem
today.
"Not only can young folk help—it may be their
job. It is apparent the older generation is mired
down, has tried too many newfangled dreams, is
hog-tied by so many man-made regulations it may
never get back to the true highway. Many believe
they must travel the crooked road in order to exist.
"Moral, rather than civil, regulations are the
answer. Belief in right, rather than force, causes
people to do right.
"Young folks can find the answer in most any
good church."

FREQUENCY
MODULATION

JASPER.—Frequency modulation, a new type of radio broad-
casting which commercial radio
stations are showing more than
passing interest in, came in for
its first large scale test in Can-
ada here this week when special
programs were arranged for and
carried out in connection with
and as features of the annual
convention of the Canadian
Association of Broadcasters at
Jasper Park Lodge.
The general opinion of the
members is that the experiments
tried out here will be tremen-
dously useful and constructive
and much will be learned. Most
impressive features are that the
new type gives great clarity of
reproduction and faithful tone.
Various companies interested in
the manufacture of radio equip-
ment have co-operated in put-
ting on the test here and the
staff has been from the Calgary
and Edmonton radio stations.
"Frequency modulation has
this week had the largest listen-
ing audience ever assembled in
Canada to hear the new system
and we are more than satisfied
with the results. The tests have
been made under difficult con-
ditions as high mountain levels
are not conducive to good
broadcasting as a rule. We are
all impressed with it as a new
medium of broadcasting and
have learned a great deal from
our week of experiment at Jasper." This is the manner in
which prominent officials sum-
med up the experiment.
Frequency modulation is com-
pletely static free and there is
no interference, but its coverage
is at present limited to what is
termed "horizon coverage," a
matter of from 40 to 75 miles.
Under the existing system of
broadcasting the transmitter is
located outside a city and height
is not a particular factor. Under
the new type of F.M. broad-
casting the transmitter will be
located right in the city from the
highest building available.
"It is something that has
great possibilities and so far we
don't know just what the future
holds but tests so far have been
of a most promising nature,"
radio experts report.

Mining Notes

The Duthie mine camp near
Smithers has been rehabilitated
to accommodate 75 men. Under-
ground work has been resumed
and on the Canary and Hum-
mingbird claims diamond drill-
ing has been performed.
The 1,300 level crosscut at the
Silver Standard property near
New Hazelton has intersected
No. 4 vein at a total length of
about 1,325 feet. A well-defined
quartz vein has a width of nine
feet.
\* The April production at Pol-
aris-Taku amounted to 2,023
ounces in gold. This has brought
the total output since the re-
sumption of milling in the sum-
mer of 1946 to 13,285 ounces.
The April figure is 500 ounces
higher than for March.

The net smelter return of Sil-
bak Premier for April came to
\$57,568. This was April produc-
tion after treatment of 6,219
tons.

## The PRICE TAG of OPPORTUNITY

There are a number of occasions in most every man's life when some "Cash at the Right Time" is really "The Price Tag of Opportunity." In most instances, the element of gain may not be important. The fact that you have immediate cash to take advantage of opportunity at the right time is the important factor.

A great many economists believe that the man who puts away "Inflated Money" now, and "Has Some Cash" at the right time, will be in a most advantageous position at some future date. What is your guess as to what \$100.00, put away now, will buy in six—eight—ten—twelve—fifteen years?

We believe that everyone has a better chance to have "The Price Tag of Opportunity" at the right time if he has "A Definite Plan" of accumulation to follow.

Let us show YOU the plans we have to HELP YOU SAVE TO HAVE.

## TO NORWAY VIA PANAMA CANAL

Dr. and Mrs. Jens Munthe Are Leaving Prince Rupert Tonight

To revisit his homeland for the first time in seventeen years, Dr. Jens Munthe, Norwegian vice-consul here, is leaving tonight on the Prince Rupert for Vancouver where he will embark on the motorship Bataan of the Fred Olsen Line for Hull, England, via Panama Canal. He will be accompanied by Mrs. Munthe. From Hull Dr. and Mrs. Munthe will proceed to Oslo in which city and Bergen they will visit. It is at Bergen where Dr. Munthe's 86-year-old father, former general in the Norwegian Army, resides. They expect to be away for three months.

The Bataan is the first post-war Norwegian-built ship to arrive in British Columbia and she reached Vancouver yesterday. Captain Jens Holmsen is master. The ship was almost ready for launching when the German invasion of Norway began so further construction stopped forthwith until the return of peace. She sails 18 knots, is 508 feet long and accommodates twelve passengers in all. The voyage from Vancouver to Hull will take one month.

SKI TRAINING IN MOUNTAINS

Olympic Teams of Canada and United States at Jasper

JASPER—Several members of the Canadian and United States Olympic ski teams have just completed their last fling of training in preparation for next year's Olympic games in a special training session in the Columbia Icefield in Jasper National Park.

Members in the party are all well known to the ski world and are the Misses Rhona and Rhoda Wurtele of Montreal; Harvey Clifford, Ottawa; Paula Kann, Conway, New Hampshire; Gene Gillis, Oregon. The instructors were Herbert S. Schneider, North Conway, New Hampshire; Charlie Everall, Vancouver and Johnny Anderson, Toronto, both of whom instruct in the Laurentians.

The party made their headquarters at the Columbia Icefield chalet, located immediately in front of the icefield glacier. Tony Matt was particularly enthusiastic about the icefields as a ski area and declared the late spring snow conditions were perfect for training purposes and the general terrain was admirable to give the skiers a real test as well as instill confidence.

SHORT SPORT

In the first inning Savoy almost earned a square on the score sheet of Tuesday night's league baseball game in which Watts & Nierson beat Savoy 2 to 0. Bruce Simundson got on base when he was knocked by a Lambie hook. Two errors advanced him to third and put Arney and M. Simundson on the other sacks. Lambie then put three good ones past Pavlikis and Foster's driver to the infield was played home, forcing Simundson out at the plate. Lambie then faded Morgan and the Savoy hopes for that inning. The Clothiers' first run was scored by Benny Windle. He walked to first and went around to third on Antone's single. With Lavigne at bat, Benny left third before the pitch and Lavigne came through with a beautiful sacrifice bunt. Shier scored the final run of the game in the eighth.

Table with 5 columns: Name, AB, R, H. Rows include W. & N., Shier, Kerr, Lambie, Windle, Antone, Deminato, Lavigne, Smith, Beynon, Savoy, B. Simundson, Arney, M. Simundson.

SHIPS AND WATERFRONT

The sailings of the Briggs Steamship Co. vessel Southeastern between Prince Rupert and the ports of Alaska are not affected by the Jones Act as the steamer operates under American registry with American crews. No passengers are carried. The plan is to have Juneau businessmen buy carload lots for shipment from St. Paul and Minneapolis over the Northern Pacific and Canadian National Railways direct to Prince Rupert. Juneau merchants have already stationed two men in the twin cities to co-ordinate the buying.
