Watch Being Kept For Mysterious Intruder

Prince Rupert's coal bin prowler remained safely inactive last night while vigilant police and householders maintained watch in hope of nabbing him in the act of entering some home in the residential area east or west of McBride Street where he has been practicing his puzzling pastime for the last month.

Tension among householders in the area between Fourth and Ninth Avenues reached a new height last night following the prowler's entry into the residence of J. Carpenter, 615 Fifth Avenue East, Thursday evening. HOW COUPONS

In keeping with his usual tactics, the marauder ransacked the Carpenter dwelling but made no effort to steal any articles of value. He entered through the attached coal bin at the rear of the house.

Three telephone calls to police headquarters reporting suspected prowler activity were received from residents of Eighth Avenue East last night, but immediate investigation by the police failed to give basis for the fear that the coal bin prowler

Passenger Steamer Sinks After Collision in in Yangtse River Off Woosung

VOL. XXXVI, No. 15.

SHANKHAI (P)-Four hundred Chinese were reported drowned today when a small passenger steamer, the Chekiang, collided with a tug and sank in the Yangtse River off Woosung. The Chekiang carried 1000 passengers. Relatives of the passengers charge that the vessel had been dangerously overloaded.

# WERE SALVED

Imaginative Schemes Revealed In Court at Ottawa Yesterday

OTTAWA, (P) - Imaginative devices for saving food ration coupons from the whirling knives and churning lids of a chemical vat for illegal sale were described in court here yesterday as five men pleaded guilty to complicity in a ring termed by the crown to have been responsible for "huge black market operations."

The police said that some workmen got specially built baskets which they inserted in the vat to catch the coupons as they were inserted in the vat, thus catching the coupons as they were dumped and keeping them out of the knife blades and liquid. A system of nets and sieves salvaged others.

### Used Car Ceiling May Be Boosted

OTTAWA ()-It is reported here that ten per cen increase in the price ceilings of used cars will be announced by the Wartime Prices and Trade Board shortly, possibly on Monday. A similar increase was allowed on the prices of new cars last month and it is considered likely that an adjustment for old cars would be a natural conse-

Seven Persons Killed When San Francisco to Los Angeles Flyer Hits Split Rail

BAKERSFIELD, Cal., (9-Seven persons are known to have been killed and many others were injured when a Southern Pacific passenger train, the Owl, struck broken rail near here early yesterday, the engine and four coaches being derailed. It was feared that others might be buried in the wreckage. Three of the known dead were women. Fifty of the injured were treated at the scene of the wreck. The train was bound from San Francisco to Los Angeles.

couver Province, in a dispatch ton-were killed yesterday affrom Norman Wells, Northwest ternoon in the crash of a plane Territories, said Friday that on a training flight four miles there had been mysterious dis- north of here. The plane was appearance of at least \$100,000,- out of Stevenson Field, Winni-900 of Canol oil project property. peg. It was suggested that there might have been removal by prospectors and trappers in the northland.

The one good asset which now remains of Canol stands at Whitehorse in the form of the refinery which cost \$25,000,000, the Province says. Apart from the refinery the most that remains is 2 great collection of broken down bulldozers, badly wrecked trucks, a great many motor cars, and a fleet of river craft—the most of it not seaworthy.

It was announced at Washington this week that the United States government now proposes to sell the assets of Canol which cost \$133,000,000.

At Ottawa 11st night Commissioner S. T. Wood of the Royal Canadian Mounted Police said there had been "no reports of darge scale theft in the area" and that most of the equipment was "far too heavy" to remove. He denied that the Mounted Police had guarded the refinery as the Province said. Other officials stated that the entire Canol property was owned and under the responsibility of the United States.

# veals Are Completed

With Saskatchewan, New Brunswick, Manitoba, Nova Scotia

OTTAWA (CP) - Provincial Treasurer Fines of Saskatchewan said yesterday that he believed by the end of the month "seven if not all nine provinces" will have concluded new taxation agreements with the federal

government. Fines' statement coincided with announcement that Saskatchewan, Manitoba and New Brunswick had concluded negotiations for subsidies in lieu of taxation privileges.

"Most satisfactory progress" was stated by Minister of Finance Douglas Abbott to have been made. An arrangement for equitable subsidies was understood to have been reached.

Following the completion of the negotiations the representatives of the three provinces will

report to their cabinets. Premier Angus Macdonald of Nova Scotia is also on his way back to Halifax with a new offer

to place before his cabinet. Meanwhile Premiers Jones of Prince Edward Island and Manning of Alberta are coming to Ittawa to meet Mr. Abbott next

The new agreements are supposedly on the formula which was reached between Minister of Finance Abbott and Premier John Hart of British Columbia.

Nothing has yet been heard from Ontario or Quebec as to the acceptability to them of the new formula.

### PLUMBING IN PARLIAMENT

Use of Iron Instead of Copper Pipe is Having Costly Rejuvenation Sequel

OTTAWA, (P)-The staid and majestic House of Commons has its plumbing troubles like any other house, only more of them and more often.

Apparently the builders used iron piping for plumbing instead of copper either through oversight, lack of planning or due to metal shortage arising from the First Word War. The result has been the iron pipe has corroded and every so often one section will give way entirely. A conservative estimate says that \$30,000 to \$40,000 has been spent in plumbing in the intervening

# A Great Boost

FEVER A STRONG CASE was made out as to why Prince Rupert instead of Vancouver should be made the real administrative and supply centre for the industry and business of this great hinterland it is certainly done in the memorandum which has been presented to the Air Transport Board in support of Canadian Pacific Airlines application for a scheduled air service charter between here and Vancouver. We have been running this highly interesting and informative memorandum in successive installments of extracts and today we publish the section having particularly do do with Prince Rupert and the Queen Charlotte slands. It is therein that the submission is made that Prince Rupert is the supply centre for the Queen Charlottes and the Stewart mining area, that supply house subsidiaries should be shifted from Vancouver to Prince Rupert as the consumption centre and that financial risks involved in operation in this area would be greatly decreased if supplies and replacement parts were available here and not five hundred miles away at Vancou-

The memorandum further recognizes that "the area surrounding Prince Rupert is one of the richest in Canada in every necessary raw material for Friday. industrial activity."

If there were a main line air service into Prince Rupert, the memorandum asserts, "transfer of head offices of industries operating in the area to Prince Rupert (from Vancouver) would become entirely practical with consequent shift of population and increasing efficiency of direction."

Such statements as these fit in very well indeed with the new theory which was advanced here this week by Col. H. F. E. Smith, the new provincial industrial and trade representative from British Columbia to London, England, that it is time, in the economic interests of the country, that there was a decentralization from Vancouver to a second site and channel of trade, industry and traffic on this coast which would logically be here.

It is particularly significant that such admissions as these, which we have long advanced ourselves but like a voice crying in the wilderness, should now be spontaneously made in such a wayby a responsible trade representative of the government and by the subsidiary concern of Canada's second great transportation system which, so far at least, has never had much of a stake in these

It is all very encouraging for us to find support in such new quarters as these for the campaign which we have long been waging for recognition, p.m. development and on-the-spot exploitation of our resources and strategic economic position.

### Cardinal Villeneuve

ARDINAL Jean-Marie Rodrigue Villeneuve, whose passing in Los Angeles is mourned, was born the son of a shoemaker but became a prince of the Roman Catholic Church before he reached 50, overcoming obstacles incident to humble birth by determination and devotion.

Successively college professor, superior, bishop and archbishop, he was elevated to the Sacred College of Cardinals by Pope Pius XI March 31, 1933. the fourth Canadian appointed to the cardinalate.

Known as a scholar of high literary attainment, His Eminence wrote numerous articles on religious philosophy and, after he became a cardinal particularly, evinced a keen interest in public affairs.

Referring to "separatism in Quebec," he said: "I believe that the more the Frenchspeaking people will be themselves, with their proper spirit and ancestral peculiarities, the more they will nourish in their hearts their deep, precious love for Canada. That is the only kind of separatism we teach."

During the Second Great War Villeneuve urged enlistment of Canada's young men in the armed forces.

"We are legally at war and we are bound to fight," he said in 1941. "That is why also it does not suffice to lend one's money. We are bound to contribute to victory by raising men and it is a national patriotic duty to supply this necessary contribution."

Speaking to Canadian servicemen at Westminster Cathedral in London in September that year, Cardinal Villeneuve paid a special tribute to the fortitude of the British people under the onslaught of German bombers.

"Nothing has filled my heart

### SNOW SQUALLS COVER CITY

Weather Man in Prince Rupert Still Temperamental

Carrying on with his January tantrum, the Weather Man exploded an overnight combination of wind, hail and snow on the city that sent headgear flyinch of snow on city streets that had been cleared of snow by a thaw only a few hours earlier.

The wind, reported to have reached gale force in outside coastal waters, blasted at the city in gusts which reached peak velocity of 29 miles an hour from the southeast between ternoon.

Often the wind bore in with squalls of stinging hail which made pedestfian travel extremely miserable and which, during the night, covered the city with a fresh snow blanket an inch in

in gusts this morning. The snow underfoot remained soft and wet, making so far no great hazard to motorists who are now conditioned to the worst that the Weather Man can offer.

Overnight temperature in the city was 31 degrees, mild enough. despite its one degree of frost, to keep the snow blanket from becoming dangerously frozen.

Local forecast today was for snow squalls, although it was not expected that the wind today would be as strong as on

Official precipitation reading for the 12 hours ending

The late Mr. MacLeod for the residence of H. Lincoln, 1020 fairly lengthy discussion of the subject. It reeked of being a half - hearted resolution but, wife-like, I closed my eyes to its discrepancies and answered in just the proper tone: "You are clothesline? being very sensible, dear. Anydo needs a holiday."

> Everybody likes to be told they work hard. They like not only readily and will last much to be respected for it but to re- longer. ceive just a suspicion of sympathy with that recognition. And it worked like a charm. So everything was settled and lovely-I ning paper rattled to the floor and the resolution of an hour pair is substantial. before lay with it. "I've changed my mind. I'm not going!"

It went on for days. One by one the things for which men are indispensible were held up before my eyes and investigated thoroughly. The fires - who would light them? And if it dropped again to 28 degrees below zero in Prince Rupert (as has been reported) how could a mere woman keep the house warm? As for the garbage and getting it to the street, well-

Finally he got around to the biggest one. Won't you MISS me, if I go?" he asked sort of pathetically, I thought. Now, there was a stickler. What was I to say—and how? If I said 'No' he would leave absolutely crushed. But if I said 'Yes' as if I really meant it he was likely to rush | to the phone and cancel his reservation. I tried to steer for the middle. "Oh, yes-I'll miss you a bit, I suppose." Then changing the subject quickly, "Do you know, I finally threw out those old slippers of mine!"

All the same, I wasn't quite sure about anything until the subject of packing came up. It was early-three days earlywhich left plenty of time for another relapse but somehow I felt that the struggle was over. It was the sad finality of tone that was most convincing, I think. That, and the fact that some gentlemen are never in a

The same is supposed to be true of a lady but I know of one at least whose packing can be made a speedy matter of minutes. The difference may lie in the things that are packed or it may be due to the popular trend that places comfort above style or at any rate attempts to combine the two.

Anyway, three days early, the brown cowhide bag came out of long hiding. With diligence worthy of the occasion, I folded up the long woollen legs, tucked in the arms and laid the garment in one corner. The socks went in another, pyjamas and

FORD TRACTORS WITH FERGUSON SYSTEM AND IMPLEMENTS

It is with pride that we announce the appointment of this "livewire" automobile firm to represent us in this community. Being newly-appointed representatives for Ford and Monarch cars and Ford Trucks, they hold themselves especially responsible for owners or owners-to-be of these Ford of Canada products. But owners of any make of car or truck will find here the kind of service they've been looking for.

With completely up-to-date methods, trained mechanics and a sincere desire to please, we are confident that this firm will make a worthwhile

contribution to the motorists of the community. Ford of Canada invites you to meet their new representatives - and joins with the many local friends in wishing them every success for the future.

Vancouver Plant of Assembly Re-opening

HAS LONG BEEN POPULAR CAR IN PRINCE RUPERT DISTRICT

VANCOUVER—Reconversion operations at the Ford Assembly Plant in Vancouver which was returned to the Company by the Army late last summer are now nearing completion, Ralph K. Johnson, Vancouver Branch Manager of the Ford and Monarch Division, said today when commenting on the ap-

pointment of Bob Parker Ltd. as their dealers at Prince Rupert. Production machinery and assembly lines which were removed to provide room for army repair depots when the plant was released to the armed services early in the war have been reinstalled and the plant is practically ready for operation. Actual assembling at the Vancouver plant will be delayed until there is an improvement in the general steel situation.

Re-opening of the assembly plant will help boost Ford production by relieving the main Ford factory at Windsor, Ontario. Vehicles supplied to Britsh Columbians last year were thipped direct from Windsor. ford is the only automobile manufacturer to assemble in this province.

The parts depot will also be re-opened early in 1947 enabling dealers to secure genuine Ford parts promptly when needed.

The information was given by Mr. Johnson in announcing that Ford cars and trucks, including the new Monarch and the revolutionary Ford Tractor Ferguson system, will be sold and serviced at Prince Rupert by Bob Parker Ltd., who have recently taken over the business of S. E. Parker

We welcome Bob Parker Ltd. is an authorized Ford and Monarch dealer," Mr. Johnson said. We have been particularly fortunate in having Stan Parker represent us in Prince Rupert. Sian Parker has been a Ford dealer since May 1 1,923. By conucting his business in a straightforward, efficient man; ner, he has earned for himself a very favorable spot in both the business and community life of Prince Rupert. Now with his son. Bob, taking over the business, we look for a continuation of the same friendly, conscientious service to the motoring pub-. Owners of Ford products can drive into Bob Parker Ltd. with every confidence that they will receive automotive service to their satisfaction.

"They waited a long time until been more Fords purchased in line of Imperial Oil products. Parker Ltd. their names came to the top of the Prince Rupert district than were at the head the list," he said. "However, I any other make. We greatly aplist of applicants felt gratified that they were preciate this confidence in Ford

congratulates

LIMITED

of Prince Rupert

Nothing is finer, nor more progressive and deserving of community praise than a Father-to-Son business. Along with "Bob Parker Limited" comes a newly established Ford and Monarch Dealership and Gutta Percha Tire Dealer franchise.

The old and the new are milestones of achievement—and we extend every wish for continuous success to the management of this expanding enterprise of Prince Rupert.

principle, it works in the same way as the vacuum bottle you take on a picnic. The cold air outside can't cool down the air inside and thus it can't cause moisture to form.

The ignition system in the new 1947 Fords has been improved in other ways, too, Mr. Parker adds. Synthetic rubber has been used on ignition wires for insulation because it won't crack in extremely cold weather and is oil resistant. This idea came out of the use by high-altitude airplanes of synthetic rubber insulation.

Water splash from wet roads can't stall the engine because new plastic sleeves tightly seal the ignition wires.

And the problem of ignition "When you come out on a cool Bob Parker of Bob Parker Ltd., wire insulating breaking down under the attack of ozone gas When moisture forms in the which is formed by the highdistributor, it causes hard start- voltage current of the ignition ing. # FLYING BODY OF CARDINAL TO HIS HOME

LOS ANGELES-Remains of Rodriguez Cardinal Villeneuve, almonds sprinkled over all. Canadian ranking prince of the Roman Catholic Church, whose death occurred yesterday in a convent near Los Angeles, where he had arrived only Tuesday for further rest following recuperation after a long illness, left by plane today for Quebec, his ecelesiatsical seat, where full funeral honors of the church will be paid. He had been first stricken last July and for some time then hope of his recovery was despaired of but he rallied although he had been virtually in failing health ever since.

Cardinal Villeneuve rose from the humble rank of a shoemaker's son to the highest Roman Catholic rank in Canada Before Pacelli was elevated Pontiff, Villeneuve had been mentioned as a possibility.

Villeneuve's death leaves one Cardinal in Canada-J. C. Mc-Guigan of Toronto.

Prime Minister W. L. Mackenzie King of Canada, in Ottawa, paid tribute to Cardinal Villeneuve, saying that his death was a great loss not only to the process. Serve plain or with church but to Canada.

# Why $a \cdot \cdot \cdot$ Self-Winding Watch?

Many people wonder if a self-winding watch could be reliable.

These watches are not really new but it was not till about 1930 that they came into quantity production.

The timekeeping parts are similar to the regular watch with the addition of the self-winding attachment which is a swinging weight which operates by a ratchet when the wearer's arm is moved.

Some advantages are that the watch is always fully wound making a constant . tension on the stem mainspring, preventing breakage of springs and stem.

There is a special device to keep the watch from overwinding. We have a very satisfactory model at

\$37.50. Also the famous Mido at \$60.00. Omega has recently produced their master at \$82.50. All plus tax,

### Home Recipe

"Dusky Ice Cream" is a favored dessert for any Valentine party. Chopped almonds give the delightful crunchy texture. To make it extra gala, serve it with a checolate sauce and chopped

### Dusky Ice Cream

- 2 cups evaporated milk 2 cups table cream or half cream and half top milk Few grains salt
- ½ cup granulated sugar 3 tablespoons unsweetened
- 1 tablespoon cornstarch
- 2 teaspoons vanilla extract 1/2 cup finely chopped unblanched almonds

Combine exaporated milk, 1/2 cup table cream, salt and sugar, in top of double boiler, and scald over hot water. Blend cocoa and cup cream. Add cornstarch and eggs and beat with rotary ocater until smooth. Stir cocoaagg mixture into hot milk. Cook and stir 2 or 3 minutes. (Do not allow to boil.) Remove from heat and stir in remaining cream and flavoring. Cool. Add almonds. Pour into refrigerator tray. Place in freezing unit and freeze. Stir mixture 3 times during freezing chocolate syrup. Serves 6.

TOO LATE TO CLASSIFY

PLANT FOOD PLACEMENT

ground, leaving it in a "honeycombed" condition.

In borders in which deep-rooted perennials or bulbs-are DEAL APPROVED to grow, plant food may be spread evenly over the area and spaded under, where it will be in a favorable relation to plant roots and soil moisture. This method is also preferable for annual flowers which are grown in masses rather than in rows.

For vegetables and flowers which are grown in rows, the most effective method has been proved to be "placement," in a band on each side of the row. near enough to the seed to give results in the early growth of the plant but not so near as to injure the infant seedlings, which usually suffer from an overdose of nitrogen. Beans and peas are especially sensitive to fertilizer injury in their early growth.

There are technical advantages in the placement methods. which have been proved to result in the same amount of plant food giving results double those from a similar amount which has been broadcast. The food is placed where it is easily reached by the roots of growing plants, consequently slowly available to need special feeding when they are small, more than in their

The method recommended for a 40-footer for Bert Sheppard, whence she will return here to- in small gardens is to stretch the line to mark the row in which seeds are to be planted. TERRACE (Special to Daily News)-In a plebiscite held in Terrace school district Thursday, the vote was heavily in favor of the purchase of a new school site and three large buildings thereon in the old Army camp here and to borrow the sum of \$3,765 to meet the district's share of the cost.

The vote in Terrace was: Against

Outside points so far reporting were as follows:

Against

In addition to Terrace there was voting at Remo, Copper City, Usk, Pacific, Dorreen, Cedarvale, Woodcock, Kitwanga, South Hazelton, New Hazelton, Kispiox and Four Mile, all of which points are within the Terrace school district.
