Public Works Appropriations

For Public Buildings and Wharves in this Area

OTTAWA — Supplementary estimates, presented to Parliament by Minister of Finance Douglas Abbott, include provision for further amounts to complete public buildings at Ocean Falls, Prince George and Smithers as well as for wharves in other parts of Prince Rupert and central interior districts.

Following items are included in these estimates:

- Ocean Falls, to complete public building, \$48,000.
- Prince George, addition and alteration to public building, \$25,000.
- Smithers, further amount for public building, \$25,000.
- Alice Arm, wharf reconstruction, \$32,000.
- Fraser Lake, wharf construction, \$23,000.
- Port Clements, to complete wharf repairs, \$8,000.
- Stewart, to complete wharf repairs, \$14,000.

ON THE DOUBLE — Members of Canada's Reserve Army swing into action in a training exercise. They are using a wartime Bren gun carrier. Almost all reserve units are under strength. (C. P. Photo)

ESSINGTON FAMILIES ARE JOINED

A candle-lit altar, backed by a profusion of white lilies and multi-colored gladioli formed the pretty setting for the wedding at St. John's Anglican Church, Port Essington, last Saturday of Mr. and Mrs. James Reid, to Leo Bernhard Korhonen, son of Mr. and Mrs. Ben Korhonen.

The ceremony joining the two well-known Port Essington families was performed by Rev. Charles Lomas of the Anglican mission boat Northern Cross.

A gown of duchess satin, styled in princess lines with puffed sleeves and gathered skirt below a puffed hip-line and slight train, was worn by the bride as she entered the church with her father. Her costume buttoned down the front from neckline to hip line, with beaded flowers from neckline to the hem, was set off by a full length veil and bouquet of red roses.

Miss Margaret Harris, of Hazelton, a cousin of the bride, was maid of honor and Miss Venetta Marshall, also a cousin of the bride and Miss Iya Kohonen, sister of the groom, were bridesmaids.

Miss Harris was gowned in pink, silk taffeta with flared skirt and small hat of matching material. Her bouquet was of yellow carnations. The two bridesmaids wore gowns of matching design, Miss Marshall in yellow taffeta and Miss Kohonen in blue taffeta with shoulder veils. Their bouquets were of pink carnations.

Alf Korhonen, brother of the groom was best man and John Reid, brother of the bride was usher. Nuptial music was played by William Spalding.

Cunningham's hall was the scene of the reception which followed the wedding rite. The hall was beautifully decorated with colored streamers and flags. Receiving the guests were the mother of the bride, in a dress of blue crepe with grey accessories and corsage of rose carnations and the mother of the groom, whose costume was a wine-colored two-piece crepe dress with black accessories. Her corsage was of white carnations.

A four-tier wedding cake centred the bride's table which was spread with a beautiful, cutwork linen cloth, made by the bride's mother.

Following a toast to the bride and groom, refreshments were served. The wedding cake was cut by the bride's aunt, Mrs. Rita Watson. Serviteurs were the Misses Vennetta and Myrna Marshall, Johanna Koford, Mamie and Rena Lawson, Mrs. Doreen Harris of Hazelton, Mrs. Dorothy Marshall and Mrs. Robert Perry of Terrace.

Master of ceremonies was James Lawson of Cassiar canyery.

The young couple have taken residence at Port Essington.

Iron and Steel Mills, Coast to Coast, Close

PITTSBURG (CP)—Strike by half a million C.I.O. United Steel Workers of America today shut down iron and steel mills from coast to coast. The free pension and insurance walk-out dispute dealt a crippling blow to American industry. Coupled with the three-weeks-old coal mine strike, it threatens to disrupt the entire American economy.

Picket lines at the mill gates in twenty-seven states were generally small and quiet in the first nation-wide steel strike since 1946.

The strike, which began at 12:01 a.m. Eastern Standard Time, closed fifty-three steel companies and 50 iron ore mining firms in what may prove to be one of the most quiet steel strikes in American history.

TRAIN DELAYED BY DERAILMENT

The westbound passenger train, scheduled to arrive here at 10:45 tonight, will be 17 hours late into Prince Rupert because of a freight train derailment which blocked the tracks, the C.N.R. divisional superintendent's office said this morning.

An eastbound freight train, carrying lumber, was partly derailed near McBride causing delay in the passenger schedule. Eight cars were off the track. They are now back on the rails. The passenger train will arrive at 3:15 Sunday afternoon.

THE WEATHER

Synopsis
Most sections of the province were cloudy this morning. In a few interior valleys skies cleared overnight and temperatures dropped to about 35. Little change is expected in the general weather picture today with des clearing occasions this afternoon.

Forecast
A weak weather disturbance moving south along the Alaskan panhandle is expected to bring increasing showers to the North Coast this afternoon and to the south coast and northern interior tomorrow.

North Coast Region—Cloudy with showers today and Sunday. Wind light becoming southerly (15 mph) this afternoon. Winds northwest (15) tomorrow. Little change in temperature. Lows tonight and highs tomorrow—at Port Hardy, 46 and 55; andspit and Prince Rupert, 48 and 57.

Wide Variety of Fall Foods If Price Fits Pocketbooks

(By The Canadian Press)

Canadian housewives can select their food from a bountiful supply this fall—if the price-level fits their pocketbooks.

A Canadian Press survey shows a plentiful supply of fruit, vegetables and meat. And the supply prospects became even brighter this week with announcements that restrictions on imports of fresh fruit and vegetables from the United States would be lifted October 1. These have been in effect since November, 1947.

But the price situation is different. Canadian food prices are at their highest level in 23 years. Food from the United Kingdom and other sterling area countries may drop in price as a result of currency devaluation. But food from the U.S. will probably go up 10 per cent because of the devaluation of the Canadian dollar.

The Bureau of Statistics food index has been climbing since spring. It reached 205.4 October 1, 1948, at that time a record high compared with its 1935-39 base period. It then declined, reaching 198.5 by April 1, but started up again. It added nearly five points in June alone to reach 202.2 at July 2, and two more points to 209.2 at August 1, the latest figure available.

The next figure, in early October, will cover the month of August.

In Newfoundland, Canada's newest province, the potato crop is reported heavy. Most other vegetables and fruits are more plentiful than last year.

Nova Scotia reports a good apple crop with favorable domestic prices. In New Brunswick butter sales are climbing after an earlier sampling of margarine. Legislation restricts the coloring of the butter substitute and housewives are reported going back to butter.

In Ontario and Quebec—where there is a demand for old-country fancy jams, marmalades, biscuits and candies—residents are looking forward to buying these sterling-area products more cheaply. Domestic crops are good in quality and quantity. Eggs are higher than a year ago.

Throughout the west, table crop yields and availability of fruits and vegetables vary.

In southern Saskatchewan many rural and urban gardens were destroyed by both grasshoppers and mid-summer

ports, no food scarcities.

British Columbia fruit and vegetable crops compare favorably with previous years and, except for apricots, there is no shortage of either fresh or canned fruits.

Across Canada merchants report little change in family eating habits. In many centres food orders are about the same in both quantity and quality. Housewives, they report, are watching their cooking methods more closely and are cutting down on waste.

In rural communities housewives are buying up their customary winter supplies on schedule. In British Columbia, after a fruit industry strike threatened, many lay-away stocks were purchased for home canning from early crop yields.

SCOUT TROOP IS BUILDING WALK TO PICNIC SPOT

Grassy Bay, a favorite picnic spot at east side of Kaiaen Island will have more convenient entry to holiday groups thanks to the efforts of the Third (Presbyterian) Prince Rupert Boy Scout Troop which today is building a sidewalk from the nearby highway to the foreshore.

Some time ago the desirability of such a walk was pointed out by the Daily News.

The work started this morning after a month's preparation in which members of the troop gathered a number of sections of used sidewalk which they planned today to take by truck to the point of approach on the highway and lay along the trail.

The material at hand, however, is not sufficient to complete the job and they are looking for other sources of used planking and lumber.

Distance from the highway to the beach is a little more than a quarter of a mile which has been rough and deep in muskeg in spots. Installation of a proper sidewalk, the boys believe, will make Grassy Bay a more convenient local picnic spot.

The Third Troop's efforts are being carried on under leadership of Scoutmaster Dennis Garon and it was anticipated that boys from other city troops would take part in the work.

HOME ARTS COURSE AT SMITHERS

SMITHERS—Smithers Parent Teachers' Association will sponsor a two-week course in dress-making and "home rejuvenation" in the lunch room of the elementary school October 3 to 17. The classes will be directed by Miss Cross of the Extension Department of the University of British Columbia.

Rug making, art in varying forms and other subjects will be studied, and if a sufficient number enrol in the leatherwork class, a second instructor will be sent from the south.

Products from the 1948 class which Miss Cross conducted last fall won prizes at the Smithers fall fair and many were on public display in a village store.

Bulletins

SECESSION PROTECTION

VANCOUVER—The International Woodworkers of America (C. I. O. - C. C. L.) concluded their thirteenth annual convention yesterday by overwhelmingly endorsing a resolution to protect the Union's 100,000 members from any future attempts by revolutionary groups to secede from the organization. In future cases of secession, it was decided that appointed administrators would take possession of property and funds.

SET UP COMMIE PARTY

OTTAWA—Communists will set up their own labor body in Canada and the United States next year, Sam Baron of Montreal, Canadian director of the Textile Workers' Union of America, predicted today at the Union's annual conference. The declaration came as the Canadian Congress of Labor prepared to throw out the left wing international union of Mine, Mill and Smelter Workers and discipline other factions.

BREAK WITH YUGOSLAVIA

LONDON—At least three other Balkan satellites are expected to sever treaties with Yugoslavia following yesterday's renunciation of friendship pacts with Premier Tito by Poland and Hungary. Other cominform countries certain to follow Russia's lead in telling Tito that they are no longer friends are Bulgaria, Czechoslovakia and Rumania. Despite the break-offs, the Tito government appeared undisturbed.

Uses Old Beef Bone For Ivory Repairs

MONTREAL — Thomas Lamoureux, 76-year-old native of Kingston, Ont., is a craftsman who for 20 years has used an old beef-bone in his business. He uses it to patch up broken pieces from ivory statues.

One of the last of the once-common home-craftsmen, Lamoureux has been repairing damaged crockery, fine china, glassware and crystal ornaments since he learned his trade from his father at the age of nine.

He came to Montreal 20 years ago and continued his trade here. Working in his rear basement room, he claims he has used the same beef bone for repairs for 20 years now.

He says he never charges by the value of the damaged objects but by the rivet. The most expensive object he ever patched up was a pair of Chinese vases worth \$5,000. He charged \$3 for the work.

Earthquakes Recurrent on Queen Charlotte Islands

After having experienced no less than 107 tremors since the big earthquake shock of the evening of August 28, people of the Queen Charlotte Islands, particularly the Cumshewa Inlet area, continue in a state of more or less tense nervousness. The disturbances are still reported to be of almost daily occurrence. Some of the people are becoming inured to them. Others become more and more restless. People are even moving out of the Cumshewa Inlet logging camps which bore the brunt of the big quake and where subsequent tremors have done further damage such as the toppling of chimneys and the breaking of dishes. A week ago tonight there was another heavy shock at Cumshewa.

Around Massett Inlet, the ground has sunk as much as six inches at some points. On August 28 fissures as wide as six inches were opened up.

Pound and Politics

CUTTING THE POUND was like splitting the atom. Britain's devaluation set off a chain reaction. It has been exploding beyond the financial and economic departments of British and even international life. The vastness of the responsibility for devaluation may be matched by its depth as its political aspects show themselves.

Naturally they take their more obvious and immediate effect in Britain.

There are reports of spreading strikes and slow-downs. These, while motivated by economic considerations as simple as the price of bread, have portentous political implications for a Labor government.

From France, too, the crackling can be heard. The comparatively mild devaluation of the franc has started the volatile French working class thinking about higher prices, and consequently, about higher wages. As in Britain, so in France the government is heavily dependent on worker votes, and has a considerable Socialist commitment.

Fortunately the Communist element and the other extreme of de Gaulism in France have been notably deflated since the Marshall Plan got under way. In neither Britain nor France is the political effect of currency devaluation likely to impair the basis of western defence, as it might once have done.

Though Americans did not tell the British to devalue, yet American policy toward currency questions has played an enormous part in this economic and political shake-up in the western world.

At home, however, British leaders must bear their responsibilities without reference to external influences. What Britain appears to need at this moment is leadership that can make the people as aware of an enemy when the foe is in trade statistics as when he stands in uniform on the Channel. It would be a help to have someone around who can talk of a Briton's dinner pail as convincingly as Churchill talked of a Briton's freedom.

For it is evident from British reports that the average Briton does not know his country's security and his own are besieged. If Parliament meets and if elections must follow, we may see a clearing of the air which for the moment appears to have been only super-charged by pound devaluation.

Services in the Church

DIRECTORY

Services in all churches at 11 a.m. and 7:30 p.m.; Sunday School at 12:15 except as shown.

Mrs. Dugald Campbell, after a visit of a couple of weeks here with Mr. and Mrs. William Cruickshank, sailed Thursday night on the Prince George for her home in Vancouver. She was accompanied south by Mrs. Cruickshank who is her sister.

Mr. and Mrs. Jesse Bridden of Massett were passengers aboard the Coquitlam last evening returning to their home on the Queen Charlotte Islands after a trip to Vancouver where Mrs. Bridden received special medical treatment.

SATURDAY SERMON

PRAYER

By BISHOP ANTHONY JORDAN, O.M.I.

Some of the most beautiful pictures that haunt the heart of men are pictures of prayer. There is, for instance, the picture of Our Lord praying in tears at the grave of Lazarus, the man He loved; or of Our Lord lonely in the shadows of Gethsemane, praying the longer because of His agony. There is the picture of Mary interrupted at prayer by the angel announcing to her that she is to be the Mother of God. More personal pictures of prayer are scattered through our lives. Memory shows us prayer brightening the beginnings of life as we stumbled through our first prayers with grave, anxious eyes fixed on the loved face of a mother who was teaching us the first steps in the Christian way of life. We see prayer sweetening the end of life in the picture of an old woman lovingly fingering her rosary. Again and again throughout our lives, the crises of the years are marked by the prayers we said.

Conversation supposes a speaker and a listener. Two texts from the psalms give us the right perspective "I will speak to my Lord whereas I am but dust and ashes"; "Speak, Lord, for Thy servant heareth."

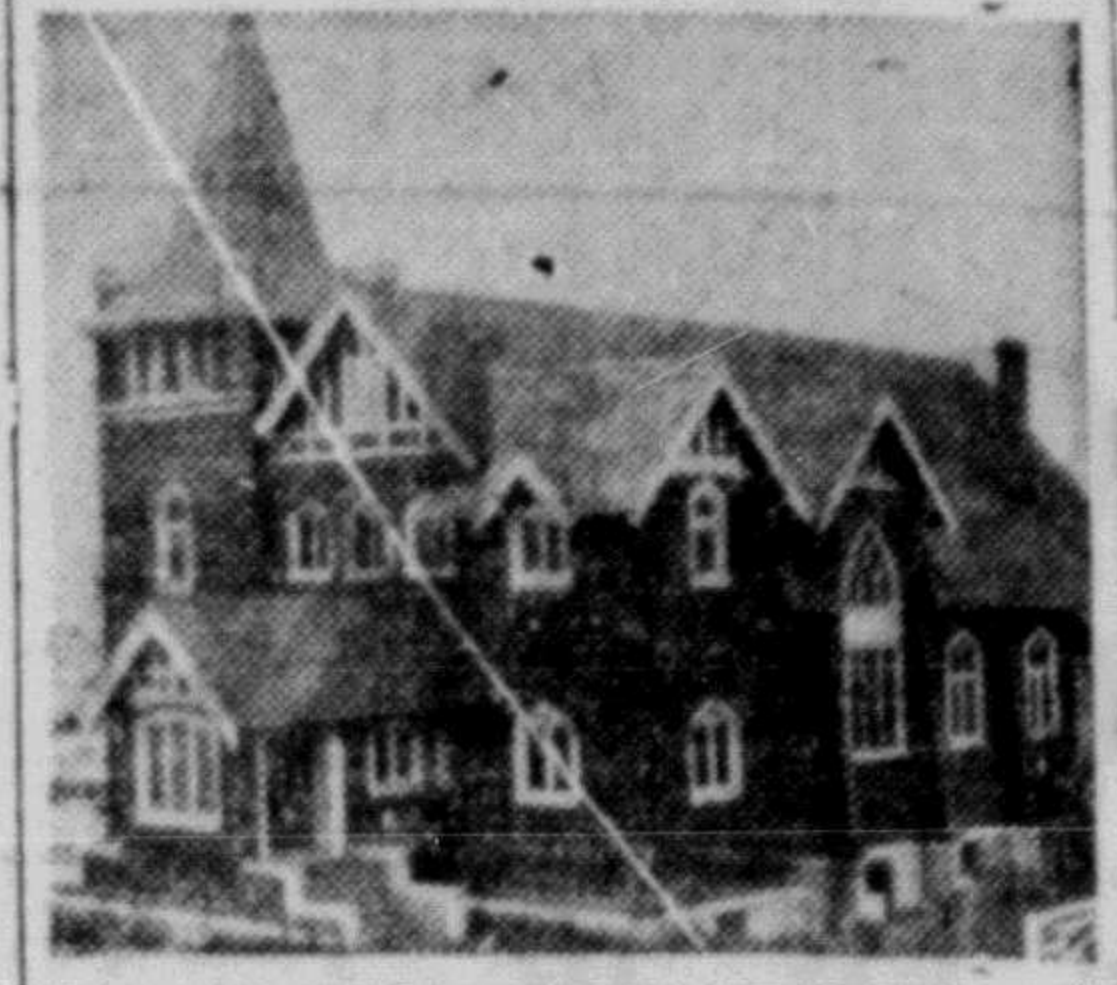

While it is true that the word "Prayer" often means that we are "asking God for something," there is a much more fundamental attitude of mind that denotes the real purpose of prayer.

We have not missed the beauty in these pictures of prayer, but that beauty has perhaps tended to create in our minds a misconception of what prayer is. Prayer has been regarded as emotion run wild and rejected as too utterly sentimental to be fostered by he-men. It has been called a weakness, cowardice, something unworthy of God and man; a case of God playing favourites, or of men trying to load the dice with which they play the game of life. Prayer is none of these things. Prayer is conversation with God.

This fundamental attitude of the mind is born of the realization that we come from the Hand of God, that we are sustained at every moment by Him, and that we inevitably go back to Him when this earthly sojourn is ended by death. Recognition of our complete and entire dependence on God from first to last is the very essence of religion. We call this recognition ADORATION and it is the very highest form of prayer. The man who keeps this conviction of his dependence on God constantly before his mind, and subjects his will to the Will of God (Cont'd on Page 6)

WE BELIEVE AND PREACH THE OLD-TIME GOSPEL

The Family That Prays Together Stays Together

THIS IS AN INVITATION TO ALL CITIZENS OF PRINCE RUPERT

The Catholics of this city are sponsoring a Rally at the Civic Centre on Sunday, October 9th at 2:30. This Rally will be the climax of a CRUSADE FOR FAMILY PRAYER. In the obvious state of chaos in the world at the present time, we turn to our common Father in Heaven to pray for the precious boon of Peace. We are seeking to revive the practice of prayer in the homes of this city. It is by prayer, chiefly by the prayers of father and mother and children together, that the consciousness of God is kept alive in our hearts. We would be more inclined to live according to the Divine Law of God, if we kept constantly in mind this fundamental truth that we came from the creative Hand of God, that we are at every moment sustained by His Power, and that we all go back to God when we die. Every day, when the family sits at the table, it is to receive a gift from God. This is only one of the multiple gifts given to all His creatures by God our Father at every moment of every day.

Since we receive God's gifts as a family, it is only right that in the privacy of our own homes, we should as a family praise God and thank Him for His goodness to us. The benefits of Family Prayer are numerous, but one of the most precious is that it creates and fosters harmony and peace.

The RALLY in the CIVIC CENTRE on OCTOBER 9TH will call public attention to the Crusade of Family Prayer. We earnestly invite all our fellow-citizens to join us in the spirit of Christian brotherhood. This is a Rally for Prayer. The language of prayer is one that we all speak—and God understands it.

On behalf of the Committee,
Family Prayer Crusade,
N. R. Young, Chairman.

Mavis Colclough announces re-opening of her dancing school for children. Information and appointments Blue 480. (235)

Mr. and Mrs. D. T. Perry sailed on the Prince George Thursday evening on a holiday trip to Vancouver, Victoria and eastern points.

Ratepayers, Parents, Aldermen, Teachers, Trustees, meet at Booth School Tuesday, 8:15 p.m. to 10 p.m. for forum discussion of school bylaw. Under sponsorship and direction of Parent-Teacher Association. (231)

Mrs. A. Eastwood, who has been visiting here with her son and daughter-in-law Mr. and Mrs. J. W. Eastwood, left by today's plane on her return to Victoria.

We do not spend money on education. We invest it. Building character and citizenship and training our young people for effective living is an investment. Statistics show that it costs more to care for a prisoner for a year than it does to provide a year's education for one pupil. Invest in the future of our boys and girls. Vote "Yes" for the School By-law, October 6th, 8 a.m. to 8 p.m., Civic Centre. (11)

Inspector of Schools Joseph Chell sailed Thursday night on the Prince George for a trip to Ocean Falls on official duties. He was accompanied by Mrs. Chell.

Mr. and Mrs. J. D. Smith and daughter are sailing by the Coquitlam tomorrow night on their return to their home in Seattle after a visit here with Mrs. Smith's parents, Mr and Mrs. Fred Grimble.

Mr. and Mrs. Thomas Wallace, after having spent the past summer at Sunnyside Cannery on the Skeena River, sailed by the Prince George Thursday night on their return to their home in Vancouver.

A. J. Lancaster sailed by the Prince George Thursday night on his return to Vancouver after a visit here with his son-in-law and daughter, Mr. and Mrs. E. J. Smith.

Rev. I. G. Sieber of Prince Rupert, Rev. P. H. Mallett of Terrace, Rev. A. W. Lawton of Port Simpson and Rev. J. Matthews of Hazelton were among several delegates who sailed Thursday night on the Prince George for Ocean Falls to attend a session of Prince Rupert Presbytery of the United Church of Canada.

Peter DeJong, for many years in business here and now identified with the B. C. Packers, travelled from Wadhams in Rivers Inlet to Namu on the steamer Coquitlam Thursday night. He is engaged in stock-taking at cannery stores and will be in Prince Rupert later this month.

Col. A. Hamilton Grant, who has been stationed here for the past couple of years as Department of Veterans' Affairs representative at the local Unemployment Insurance Commission office, sailed Thursday night on the Prince George for Vancouver enroute to Kamloops to become personnel officer in the ammunition depot of the Royal Canadian Navy. He was accompanied by Mrs. Grant.

Wanted—Metal, copper, brass, and car batteries. See B. C. Furniture. Good prices. (254)

AGED FURNACES, HEAT ROBBERS

The owner of an average heating system five or more years old is warned by National Warm Air Heating Association that the odds are 7 to 10 his winter heating bill is at least 10 percent more than necessary.

This is because 7 out of 10 older type systems of heating are in need of repairing and cleaning. Air leaks in and around furnace combustion chamber, soot in the chimney or furnace, warped burned bars, corroding smoke pipe all create loss of heat right in the furnace itself. Therefore using more fuel to keep the proper temperature. Heating experts report that home owners are "robbing Peter to pay Paul" through use of improper firing methods and negligence in furnace maintenance.

The majority of costly repairs could have been avoided if owners had followed a regular program of having heating systems inspected each year says the heating association. Minor repairs can add longer service to heating systems and insure health and safety of families.

CITY ART CLUB HOLDS MEETING

Prince Rupert Art Club held the first of its monthly meetings of the season Thursday evening at the home of Dr. and Mrs. L. M. Greene, Borden Street. Members welcomed the return to the city of the club's honorary Vice President, Miss Jeanne Faure.

Resignation of Miss Geraldine Cade as president was received with regret and Mrs. J. T. Harvey was elected to succeed her. Mrs. L. M. Greene was elected to replace Mrs. Harvey.

Work done by members during the summer was displayed. It was decided to hold the October meeting at the Civic Centre, at which sketching from a live model a fisherman, will be done.

A the conclusion of the meeting, refreshments were served by the hostess.

Mr. and Mrs. W. H. Derry, formerly of this city and now residing in Kelowna, arrived in the city Thursday night for a week's visit. On the way here they visited in Prince George and Burns Lake. Next Thursday night they will sail for Vancouver on their way home.

Col. A. Hamilton Grant, who has been stationed here for the past couple of years as Department of Veterans' Affairs representative at the local Unemployment Insurance Commission office, sailed Thursday night on the Prince George for Vancouver enroute to Kamloops to become personnel officer in the ammunition depot of the Royal Canadian Navy. He was accompanied by Mrs. Grant.

Ray Reflects and Reminisces

The Marquis of Milford Haven, Britain's most preferable bachelor, and Mrs. Romain Dahlgren Pierce Simpson have become engaged. Mrs. Simpson, eh!

Two St. Johns lawyers are sitting in the Federal Parliament, Newfoundland having become Canada's tenth province. And doubtless endowed with salty wisdom.

Why do people of consequence, in Vancouver, seem to be trying to establish hot cakes as British Columbia's typical dish? Oh, the poor plebeian folk! A well browned flapjack, with plenty of butter and a double dash of maple syrup, taken on a frosty morning goes well, it must be admitted. But a regal province like British Columbia should be able to think up something unusually good, and more in keeping.

Another little thing to make you wonder if you're becoming old and drowsy. It's when you read that little notice in banks concerning the "encashment" of cheques, and mildly ponder Sounds like first cousin to "enplaning".

Introduction of a bill in the Quebec legislature to legalize lotteries, the profits to help support education and hospitals is attracting attention in more parts of eastern Canada than Quebec. Toronto for example, feels that one effect would be the building up of Quebec revenues through purchase of tickets by Ontario residents. Another city, alive to the situation, is Ot-

tawa. The city of Hull, in Quebec, and situated just across the river from Ottawa, realizes there is nothing to prevent Ottawa citizens from going to Hull, and buying tickets. If anyone is in Ireland he can legally buy a ticket for the Irish sweep, and the same principle would apply to the lottery in Canada, but it would of course be contrary to law for tickets to be sold in Ottawa. Premier Duplessis has stated his belief that the probable revenue from a provincially-directed lottery would amount to at least three, or possibly four million dollars.

Situation In Bowling

Ties for Leadership in Men's and Mixed Leagues

With the completion of two rounds in the Men's Bowling League Friday night and the first round of the Mixed League on Wednesday evening, a true picture of the standings in the two leagues can now be obtained.

In last night's Men's Five-Pin League, five teams won total points of 4 each. They were Manson's, Brownwoods, Home Oil, Commercial Hotel and Scotians who defeated Rupert Motors, Canadian Legion, Triple C's, Cold Storage and Oddfellows' respectively. Ambassadors and Thom Sheet Metal split 2 points apiece. J. Paul of Manson's had high single with a 309 and F. Mansell of the Commercial Hotel team had high 3-game total of 794. Next bowling in the Men's Five-Pin League will take place on Monday.

In Wednesday's Mixed League Bowling teams with last year's league experience under their belts pulled through on top although it should be noted that handicaps were not available at the time. Due to the fact that

PENNANT RACE IS TIED AGAIN

NEW YORK ©—The American League pennant race was tied up again today as New York Yankees defeated Boston Red Sox 5 to 4. Tomorrow's game will decide the issue. Johnny Lindell scored a home run with none on board for the Yankees today. Joe Page pitched 6 2-3 innings and allowed only one hit.

In the National League today St. Louis Cardinals lost 3 to 1 to Chicago Cubs and it looked like the Brooklyn Dodgers were going down to defeat at the hands of Phillies the score in the ninth inning being 6 to 4. There are still prospects of a play-off in this league, depending upon the outcome of tomorrow's game.

When the Athletics beat the Yankees 4 to 1 yesterday, the A's had a barrage of telegrams suggesting that they were going to lay down. Young Earl Mack, son of old Connie, switched the pitching line-up from Phil Marchildon to Dick Fowler.

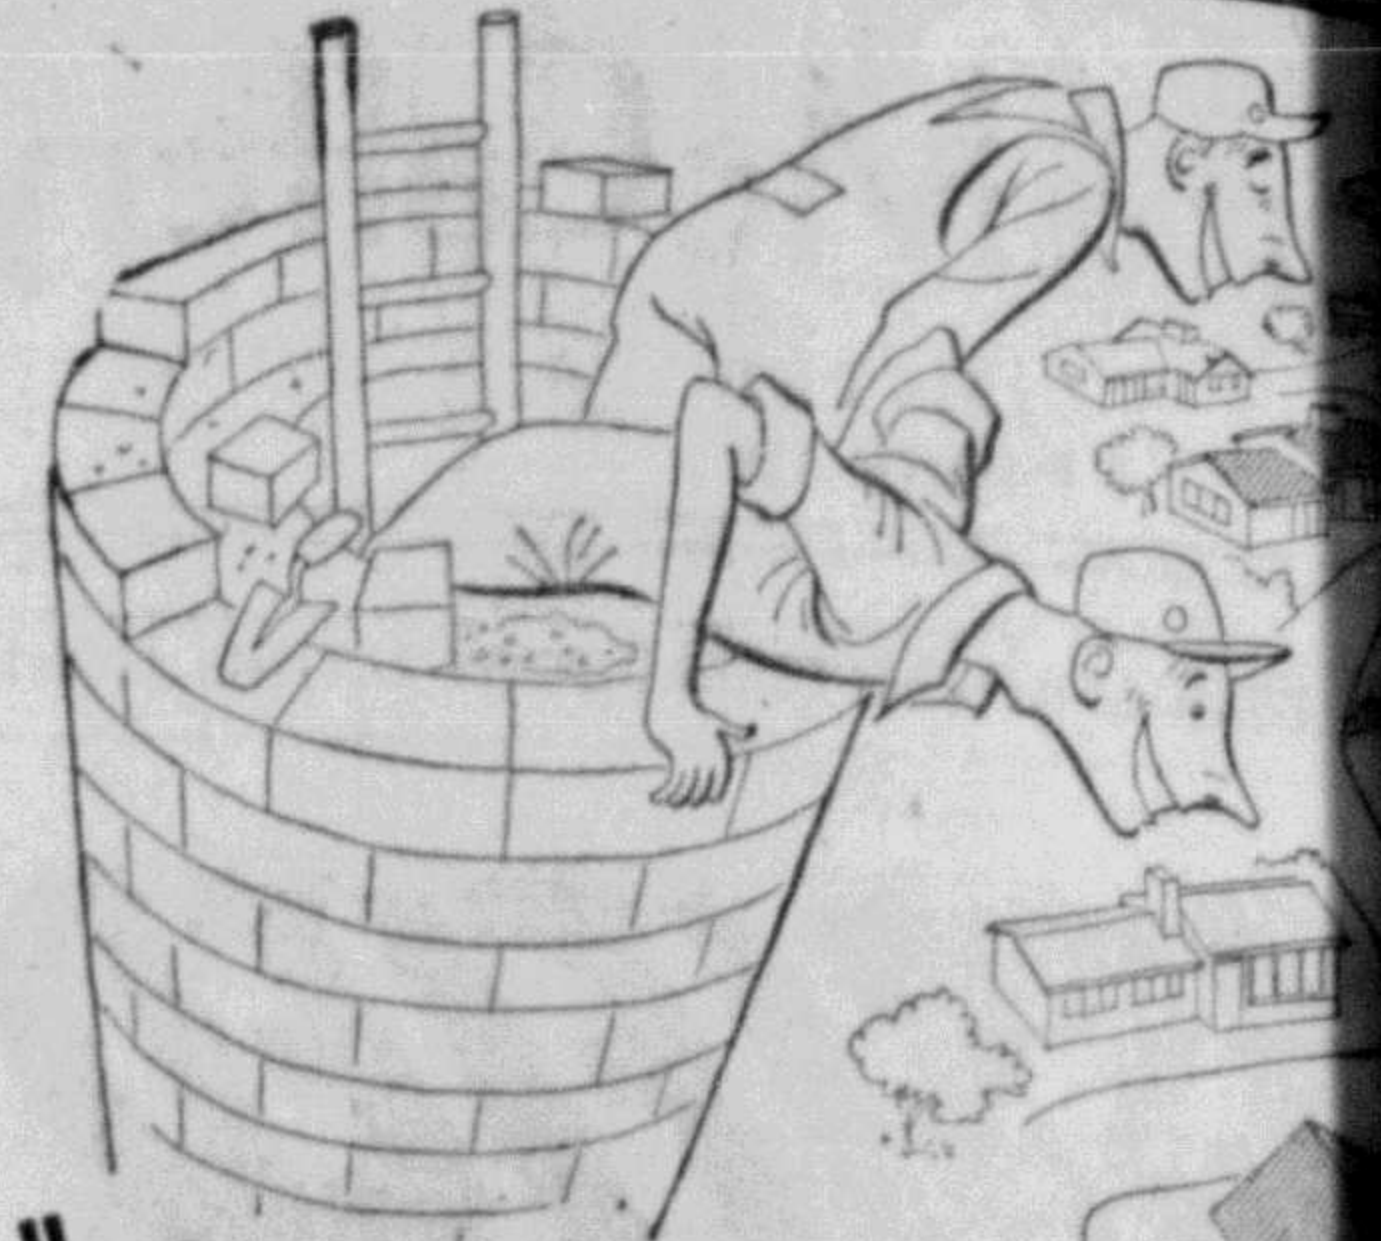

CHRIS PARKVOLD, HALIBUT SKIPPER, PASSES AWAY

Christian N. (Chris) Parkvold, considered the dean of west coast halibut fishermen, died here Friday evening, less than 24 hours after he had re-entered hospital suffering from a heart condition. He was 57 years old.

A fisherman and halibut skipper for more than 30 years, Mr. Parkvold was born at Bo, Norway on May 17, 1892, and came to Canada with his family as a youth of 17. He settled at Sylvania, Saskatchewan, where he remained for seven years before going to Seattle, where he entered the fishing industry as a halibut fisherman.

In 1922 he came to Prince Rupert and in 1928, he built the halibut boat Takla, with which he was credited by his colleagues as bringing in the largest catches to be landed in Canadian ports since the old dory-

schooner days. As a fisherman, he had innumerable hair-breadth experiences with disaster. Once, while fishing from one of the old schooners, his dory was lost for several days. He and his companion, Al Woie, also a well-known halibut man, managed to find the schooner. During the '30's the Takla caught fire but was later re-

Text Book Rental Plan Deprives Students Of Rich Experience

Have you ever stopped to think of the gross injustices that is being inflicted on thousands of students by this new "Text Book Rental Plan"? They are being deprived of the enlightening and extremely educational experience of owning a second hand text book. How interesting and informative it was to read of dozens of love affairs in brief on as many consecutive pages, in the short and simple form of "Tom loves Mary".

There were also lengthy exercises, inserted by the former owners of the volume, which read as follows: "If you want to know what my name is turn to page 395—turn to page 78—to page 1246—page 9—" and so on until one had flipped over each page in the book several times. When you finally reached the required destination you were greeted with a barrage of insulting names, which was the pen man's way of telling you not to be so silly as to do everything you're told to do.

As well as being amused and insulted you were also educated by those inexperienced authors. For is it not educating to wit-

ness the wonders of art that are contained in many an old school book? Such design, such symmetry, such originality, such doodling as is displayed therein is only accessible to those who have the good fortune to be possessors of such priceless volumes.

You also obtained experience in the art of debating. You compare history books with your friends' and argue as to which type of mustache was most becoming Marie Antoinette and as to whether Hitler should have a short pointed beard or a long bushy one. Your imagination also was developed rapidly when you were forced to guess, on very short notice, the words behind that huge ink blot or on the missing page.

Herein has been stated only a few of the many advantages of second hand books; but what, may I ask, is the advantage of a rented book?

STAFF

EDITOR—Bernard Garrod
REPORTERS—Carol Moorehouse, Irene Hansen, Anna Beketov, Neil McAr, Arnold Olsen

Personalities

FRANK McFADDEN
Students Council President
Frank, better known as "Buck" is this year's popular president of the Students Council. He was born in Armstrong, B. C., May 21, 1931. He received his primary education at Lord Nelson School, Vancouver, and also at King Ed School here. Frank has attended Booth Memorial since Grade 7 and has been on the Council in grades seven, eight, and nine. He is taking the High School Graduation course. Frank plays basketball and likes boating and shooting next to girls. He has no special plans for the future except for chasing women, unquote. Frank has belonged to the Naval Reserves for a year. His only complaint concerning school organization is that students are not allowed to chew gum.

Student Council Plans Future

This term's Student Council has now had two meetings. At these, among other things, a few activities have been planned for the future. A "Get-Together Dance" sponsored by the council is scheduled to take place on October 14.

The school Bylaw has, as most of us know, spurred the council to a great amount of action which will continue until a new school is forthcoming. The council will also try to bring about more of the students wishes in regard to school affairs.

The council, still in its infancy has not been able to plan much in advance, but, as we all agree, the council has done well so far, and if it continues, all will be well this year.

Journalism Club Begins

The Journalism Club this year is under the direction of Mr. Hurst. They plan to meet once a week at lunch hour. They will use half a page or more in this paper each Friday with articles about what goes on in the school and everything of special interest to students. The editor-in-chief is Donna Kerrigan, the editor of the weekly is Bernard Garrod and the editor of the annual is Irene Hansen.

Junior Council Holds Meeting

The Junior Council which held its meeting on September 13 discussed organizational work, but intends to proceed with other work at their next meeting. The Council represents Grades 7, 8, 9. Members are: Jim Flewin, Robert Hemmons, Jack Leighton, Fred Kristianson, Gordon Marshall, Lawrence Friedland, Yvonne Kildal, Annette Windie, Jaqueline Moore. Jack Leighton was elected President, and Yvonne Kildal, Secretary.

divided according to 1949 assessments; 1951's according to 1950 assessments; and so on. From each year's school requisition on the City, the amount of principal and interest for which the City is responsible will be deducted, leaving a net amount to be turned over to the Board for their expenses.

The Provincial government have agreed to pay 50% of the total cost of the project, and taxpayers in the City and rural areas are asked to provide the

other 50%. The total cost can be broken down as follows:
Provincial Govt. \$407,515.00
City of Pr. Rupert 341,701.00
Rural Portion 65,814.00
of District \$815,030.00

It is interesting to note that assessments in the rural area increased to such an extent last year that, from 12.56% of the City and rural portion or an amount of \$51- (Cont'd on Page 6)

Tax Rate Key To Financing Proposed New City Schools

By W. J. SCOTT
Chairman, School Board Finance Committee

In any discussion of the School Building program one of the first questions that arises is, "How much will it cost?" To answer by saying, "An estimated \$815,030.00" might satisfy some, but I doubt if it would stop further discussion on finances, with the average ratepayer. It is only part of the answer, and of little use to one who is interested in the effect on the tax rate. Before breaking this figure down into proportionate costs, and ultimately to the annual levy that might be necessary to finance the program, may I briefly outline the method of raising and paying back the monies borrowed for school building purposes.

To cover the cost of the City

and District portion of the school building program total estimates are presented. Under the Public Schools Act, the City must float a bond issue themselves in their area, while School Boards float the issue for villages and rural areas. In our district this means two separate bond issues totalling the local share of the program. A division must be made and the proportions are calculated according to the official taxable assessments of the previous year. By this method the amounts of City and School Board bond issues are determined.

On request, the City council prepares a By-law to be voted on by the City voters, and the Board prepares a By-law for the rural voters. Each party conducts its own polls and a 60% "Yes" vote is required for the entire area to carry the program.

The Council and School Board negotiate sale of their bonds separately to raise the total amount authorized.

Each year in their annual budget, the School Board provides for that year's principal and interest payments on both bond issues. The total cost of the school operations, including debt servicing, is then divided between the partners according to the assessment totals of the previous year. That is to say, 1950's principal and interest are

HURDLER— Next winter Bill Larochelle will be a hurdle and relay delegate to the British Empire Games in New Zealand, but he has other things on his mind this fall. A second-string halfback with the University of Western Ontario Mustangs last year, Bill has moved to a first-line backfield spot with Ottawa Rough Riders, Eastern Canada football champions. (C. P. Namu and Butedale Close—
New Tug on Haines Run

Having cleaned up the final drum seining catches from the Queen Charlotte Islands, Namu and Butedale canneries in the central coast region are now in process of "packing up" for the season. Fair fall catches were made at both plants, the former belonging to the B. C. Packers and the latter to Canadian Fishing Co. Gardner Canal provided some of the final fish for Butedale cannery. Native cannery workers are now returning to their villages along the coast while other employees are proceeding to their homes in Vancouver.

Union steamer Coquitlam, Capt. William McCombe, arrived in port at 5:30 last evening from Vancouver and waypoints and sailed at 10 p.m. for Massett Inlet points whence she will return here tomorrow morning to sail at 10 p.m. on her return south. After her next voyage, the Coquitlam will be withdrawn from service for annual overhaul and her run will be taken over for the winter by the Camosun. Later the Coquitlam will go on the Prince Rupert-Alice Arm-Stewart route while the steamer Catala goes off for her annual overhaul.

The ocean-going tug Donna Foss, owned by the Foss Launch and Barge Co. Tacoma, has replaced the tug Shinn in towing the Alaska Freight Lines barge plying between Prince Rupert and Haines with 2000 cargoes

Waterfront -- Whiffs

for interior Alaska. The Donna Foss made its first trip here Friday morning and sailed again for Haines with 19 carloads of produce this morning.

CALIFORNIANS 'SOLD' ON COAST

Omar J. Swegles, prosperous Laguna Beach, California furniture dealer, is another of many Americans who have become so intrigued with the refreshing beauties of the British Columbia and Alaska coasts that he is becoming a perennial traveler north through the "Inside Passage."

Mr. and Mrs. Swegles made their first trip last year to Alaska aboard the steamer Princess Louise and were so impressed that they immediately resolved to come back this year. Accordingly they are making the round trip to Prince Rupert and the Queen Charlotte Islands this week on the steamer Coquitlam, having been here northbound last evening. Having now traveled by both Canadian Pacific and Union lines, they are already planning to be back next year, possibly on the new C.N.R. liner Prince George.

Mr. and Mrs. Swegles are high in their praises of the courtesy and service offered on the finely appointed Canadian steamers.

Miss A. Goldsmith, R.N., of the Prince Rupert General Hospital nursing staff returned to the city on the Coquitlam yesterday afternoon from Vancouver where she has been spending a two months' vacation visiting with relatives.

TAX RATE

(Continued from Page 5)

184.00, they are now responsible for 16.15% or \$65,814.00. With an industrial development program such as is now under way in the Port Edward area it is only reasonable to assume that assessments in the rural area will show a tremendous increase within the next few years and as a consequence the District will bear a much greater proportion of school costs and the City a corresponding decrease.

The monies that it will be necessary for the City to borrow will be amortized over a twenty year period; an annual payment of between \$25,000 and \$26,000, the amount varying slightly from year to year. With the present mill bringing in \$5.014 this means that approximately 5 mills will have to be levied to take care of this principal and interest payment. However, this does not necessarily mean an increase in the mill rate of 5 mills.

At the present time we are paying on old school bonds \$6,119.90 in principal and \$7,304 in interest. With the reported state of the sinking fund it will be unnecessary to make any further payments on principal after 1951 and the interest payments will cease in 1955.

The debentures of the proposed By-law will be dated July 1950 so there will be no payment in that year. The first payment will be made in 1951, and based on present figures, there may be an increase, in that year only of 5 and a fraction mills. There being no further principal payments on the old school loan after 1951, the total amount to be raised for School By-laws will be reduced by \$,119.90 in 1952 and the years following. After 1955 the amount will be further reduced by \$7,304.00.

If the financial aspect only were considered it would appear to be a good investment; a building program in excess of \$800,000.00 of which the Provincial Government and rural area will pay 60% and probably a good deal more as values in the rural area increase. But aside from the financial angle, the dire necessity of the program to relieve congestion, the fact that good schools bring industry, attract and hold good teachers and innumerable other

velops an awareness of God that is a strong incentive to a holy life. Such a man knows the meaning of the words of Our Lord: "Without Me, you can do nothing"; but he also knows the meaning of St. Paul's words: "I can do all things in Him Who strengthens me."

Adoration of God leads naturally to a keen appreciation of the goodness of God and gives birth to GRATITUDE for all the Divine gifts; of life and daily bread; of home and friends; of redemption through the sacrifice of Jesus Christ on the cross; of the constant hovering over us of the Spirit of God. Who inspires us to do right and avoid what is evil. Gratitude is a noble sentiment which incites us to be worthy of Him Who showers such gifts upon us.

Adoration and Gratitude do not embrace the whole scope of prayer; we are all too conscious of our daily needs of soul and body, and we are prompted to ask God to help us. This is not weakness; it is recognition of our condition. And did not Our Lord Himself encourage this kind of prayer when He said: "Ask and you shall receive; seek and you shall find; knock and it shall be opened unto you." These words, besides giving approval to the prayer of PETITION, are a guarantee that we shall not ask in vain. But notice that Our Lord did not say: "Within twenty-four hours." We obtain what we pray for at precisely the time when we should receive it. There is a time, known to the wisdom of God, when it will be best for us to receive the favour we ask.

CHRIS PARKVOLD
(Continued from Page 4)

and had been in poor health since that time. He was taken to hospital early Friday morning.

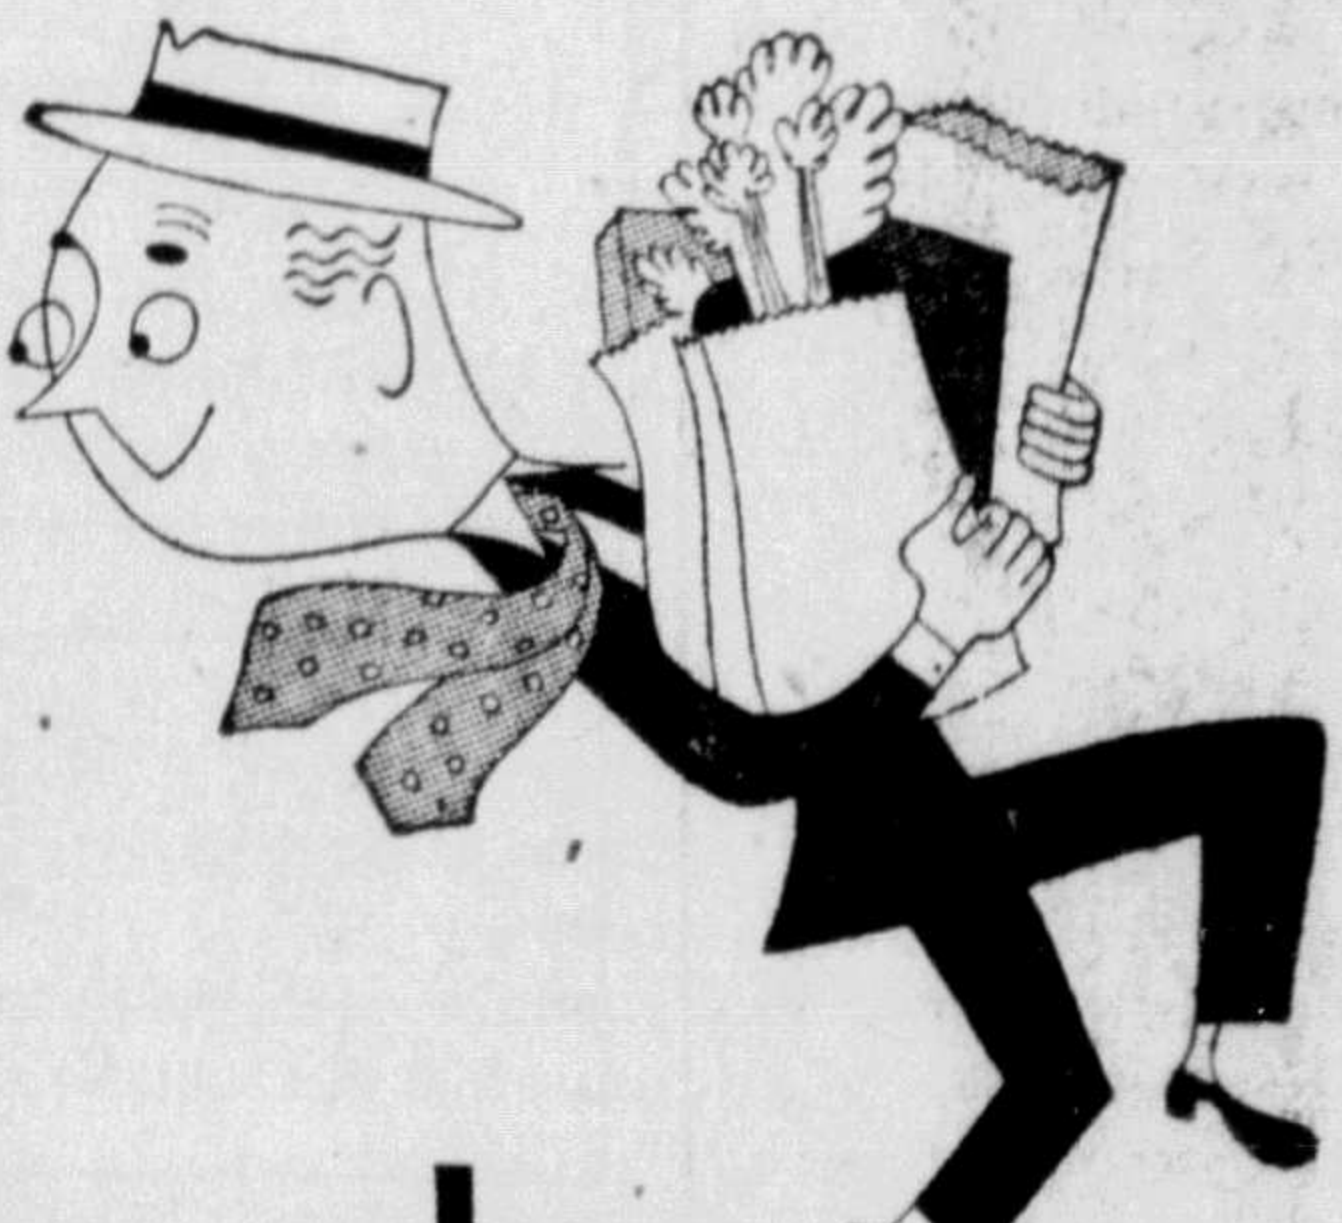

In 1943 he married Margit Maria Hallberg of Prince Rupert, who survives him. There are no children.

Several months prior to his death he began construction of a new home at 1949 Atlin Ave. He was in process of moving into the new house when he suffered his final illness.

In addition to his widow, he is survived by one brother, Peder Parkvold, at Bo, Norway and a sister, Mrs. Gudren Ivarson in Vancouver. A nephew, Peter, lives in the city.

Funeral arrangements will be announced later.

Mr. and Mrs. Max Heilbroner are sailing tomorrow night on the Coquitlam for Vancouver en route to Phoenix, Arizona, where they plan to spend the winter.
