New Tactics Planned To Bring An End to Fighting

THE SUCCESS (CP)—It appeared today that plans to negotiate a cease-fire with the Chinese Communists in the Korean war have been abandoned. A group of Asian and Arab nations—the same which had fostered the cease-fire attempt—are now planning new moves to appeal to the Chinese Reds to stop fighting by mapping out a possible political settlement of Far Eastern problems. Sir Benegal Rau, chief Indian delegate to the UN and leader of the mediators, has summoned representatives of 11 other countries to meet in New York tonight.

Parliament Opening Set

Prime Minister Discusses Many Matters in Press Conference OTTAWA—Prime Minister L. S. St. Laurent yesterday announced Monday, January 29, as the date for the calling of Parliament. The special session of Parliament, which adjourned late last summer, will be prorogued on that date and the 1951 session will be started the next day. The government will place before the House "concrete proposals" covering "everything we think of concern to the Canadian public at this time." In a press conference last night the Prime Minister spoke of many matters of current importance. He indicated that the government intended to send Royal Canadian Air Force squadrons as well as a tank regiment to Europe. The Second Battalion, Princess Patricia's Canadian Light Infantry, will remain in Korea and all of the special force of 10,000 men may go there. The first of several R.C.A.F. fighter squadrons will be sent to Europe next month. As for the sending of the

Mr. St. Laurent said the government has not yet considered fully the Canadian Legion's call for compulsory service in Canada's reserve forces. DOES NOT SEE WAR In spite of the tense international situation, Mr. St. Laurent, who will be 69 on February 1, said he did not expect to see another world war in his lifetime. "I have said that before and I feel the same way now," the Prime Minister told reporters. Mr. St. Laurent is off to visit Lloyds (of London) "coffee house" next week during a meeting of Commonwealth Prime Ministers. Lloyds are quoting 50 to 1 odds against a general war before September 1, 1951.

NOTICE . . . Manson's Jewellers ANNUAL JANUARY CLEARANCE SALE will commence Wednesday Morning at 10 The Management and Staff of Manson's Jewellers wish you and yours a very Happy New Year

An independent daily newspaper devoted to the upbuilding of Prince Rupert and northern and central British Columbia...

An Old Year And A New

IF WE RECKON our blessings in material things, we can write down 1950 as one of Prince Rupert's best years...

A year ago in these columns we ventured to predict a healthy continuation of industrial development and the sustained progress of our timbering, our mining, our fishing, our civic improvement and our community building...

So we have much to be thankful for from 1950—much to be confident of in 1951.

A year ago today, of course, we were not faced with, or at least not realizing, a tense international situation which, in the latter half of the passing year, has projected itself into the affairs of us all...

Vicissitudes and anxieties notwithstanding, it is well that we should face 1951 with cheer and confidence—appreciative too that here in Prince Rupert we reside in one of God's favored spots in one of the world's most singularly blessed lands.

We should stand prepared to face with courage and resolution the events which may come even though they may mean trials and sacrifices. In our easy way of living, possibly we have not yet accepted a realistic appreciation of the situation and have not commenced to govern ourselves accordingly.

Here in Prince Rupert we are well embarked on a new era of industrial development. There is no need to worry about the future from that standpoint. While the international situation, better or worse as it may turn out to be, must of necessity affect us in a very direct way and we may not expect to go on in the old easy way, if there is any point we may make as 1951 dawns it is that Prince Rupert people should essay in the next twelve-month to keep pace with new developments, both at home and abroad, and see that we are not left behind in the fast-moving course of events.

For many years we had hoped for and worked towards such good times as we now enjoy. Now that those good times are here, it is for us to keep up with them. That might be an appropriate thought to bear in mind as we enter 1951—a new year and a new half-century.

New Stamp Is Comprehensive

OTTAWA — Charges that Canada's new \$1 postage stamp, devoted to the fisheries, ignores the fish of the western lakes brought a curt rejoinder yesterday from J. R. Carpenter, superintendent of the stamp division.

"The stamp does, too, represent the inland fisheries," Carpenter said, adding that officials are careful about the accuracy and comprehensiveness of their representations. Carpenter is a native of Regina.

50-TO-1 FOR 1951?

LLOYDS OF LONDON will lay you odds of 50 to 1 that there will not be a world war in 1951.

I wish I could be as sure as the Lloyds experts.

Personally I would not bet more than even money that an all-out war would not begin before January 1, 1952. Most calculations by western experts seem to me to be based on most dubious reasoning.

All we need is time, says President Truman. Then why should the other fellow give President Truman that time?

AS 1950 ENDS AND 1951 begins we see an international picture the like of which has never been seen before. In Korea the UN army, headed by the United States, is at war with Communist China. Specifically, troops of the U.S.A., Britain, Australia, the Philippines, Siam, Turkey have already clashed with the armies of China, and suffered heavy losses at their hands.

Yet not even the United States, whose forces comprise over nine-tenths of all the UN contingents, has formally declared war on China. This is, at one and the same time, the most hopeful part, but also the most confusing part, of the picture.

The fact is that the U.S. and Red China ARE at war. But the U.S. Congress has not so far taken the obvious step and declared that a state of war exists. This is chiefly because the allies of the United States, especially Britain, Canada and France, have exerted every possible pressure on Uncle Sam not to declare such a war.

THE REASONS why Britain, France and many other countries have influenced U.S.A. not to declare war on China are these: 1. The United States itself was guilty of provoking China by proclaiming its armed protection of the CHINESE island of Formosa a few hours after the war started

Ray Reflects and Reminisces

Chinese Reds are said to have already executed 1,579 handiogs and jailed more than 2,000 others. Pretty tough, we'll say. Even more effective than rent control.

Some Canadians are rushing into print to predict that this time next year, if not earlier, the dollar will have a value of thirty cents, if not less. Where did feeling cheap ever do a fellow any good?

Emphasis is given the statement that in the event of a Soviet attack on the west coast, Vancouver would be the chief target. No other port is spoken of at all. But then, non-mention would hurt even more than A-bombs.

Wheat clearances in southern B.C. ports have dropped from 2,085,000 bushels in 1949 to 1,834,336 bushels in 1950. In Prince Rupert, the drop was not so pronounced.

Vancouver's plebiscite on the question of Sunday observance remains a live issue. It seems the vote was too much a "Yes—No" affair. What's wanted is more middle ground and acceptance of what is reasonable and sensible without affecting the sanctity of

Old and New Testaments to share Jesus viewpoint. We shall have to discipline ourselves with obedience to his requirements. We shall have to trust Him, believe Him and so find security and power in Him to be released from guilt, morbidity and fear. That definition of faith is good which runs: Taking God at His word.

Now the happy New Year may not take place Cinderella-like at midnight Sunday... tomorrow, but it can take place to make the year new.

Happy New Year

Like a wet New Year's Prince Rupert. Today dawned clear after yesterday's storm — the sun is even shining — the sun's instruments forecast a different tale for tomorrow. At 8 a.m., he says, there is increasing cloudiness and advance of a new Pacific front that prospect continues Year's morning. Time last year, Prince was shivering in its boots, were complaining about temperature, which hovered the 15 degrees above zero they did not know then confronted with the January most people have found here. This season's mild temperatures have been mixed with a amount of moisture. The old year comes to a close, anyone looking forward wearing dry weather thing had better check gear. Chances are they it.

Clark Gable and Barbara Stanwyck are the romantic protagonists of "To Please a Lady," an unusual love story with a thrilling automobile racing background, which comes next Monday, Tuesday and Wednesday as the first feature picture at the Capitol Theatre here.

The events filmed in connection with the filming of the exciting drama include three mid-get car tours, the annual Arlington Downs, Texas, dirt race and time trials preceding the Indianapolis race and the 500-mile classic itself.

Gable plays the part of a hard-boiled ace automobile racing driver and Miss Stanwyck is an equally ruthless columnist and radio commentator—both out to win and get results regardless of the means. How their hearts often soften is the sequence that brings the piece to a satisfying climax.

Principal supporting part is that of a cynical syndicate manager, Adolph Menjou, who is Miss Stanwyck's chief.

Mr. and Mrs. Edward Antonelli, who have been spending the Christmas and New Year holiday season in the city, will be returning to Seattle on the Prince George next Thursday.
