One Million Americans Are On Strike

Reds Plan Complete Knockout Of Nationalists

Communists Moving Ahead After Canton

Are Expected to Drive Eastward and Westward From Fallen Capital CHUNGKING (CP)—Canton slipped quietly into the widening orbit of Red China today and the Nationalists asked: "Where next?" Some quarters predicted twin Communist drives to knock out the government once and for all, one against Chungking, the new Nationalist capital; the other against Kunming, 400 miles to the southwest.

The Reds are already threatening several minor Nationalist positions along the east coast. Official reports say the Communists, in a big amphibious operation, have established a beachhead on the northern corner of Amoy Island, 300 miles northeast of Canton. About 1200 others landed at Kulangsu between Amoy and the mainland. Degree temperature having been

REPORT SAFELY MISSING PAIR

VANCOUVER (CP)—Two persons missing since Friday afternoon in a single-engine plane in Fraser Canyon were reported safe and uninjured yesterday at Chilco ranch near Williams Lake. They are Pilot Max Sheridan of Yakima, Washington and Mrs. Dorothy Terry of Portland.

The couple crash-landed on a meadow when a blinding rainstorm threw them off their course.

The safety report resulted in the calling off of Royal Canadian Air Force planes for a mammoth search. Eight Royal Canadian Air Force planes were already in the air when Sheridan telephoned that he was safe.

The plane was flying from Quesnel to Yakima via Vancouver.

Olympiad Screened

Four Hundred and Fifty Civic Centre Members Thrilled By Impressive Sports Record

Civic Centre members were thrilled last night in the Capitol Theatre with the two-hour showing of technicolor moving pictures of the 1948 Olympiad, a veritable athletic pageant of the nations. Including the winter sports at St. Moritz, Switzerland, and the principal events at Wembley Stadium in London the screen document is undoubtedly the most complete and impressive sports record ever to be filmed.

Gorgeous settings, enhanced by their depiction in marvelous color photography, dramatically thrilling action in the full gamut of sporting competition and dramatic narrative combine to make it a superlative pictorial achievement.

CONFERENCE AT OTTAWA

OTTAWA—A conference of commanding officers of naval divisions across Canada, which opened here today, is the second meeting of its kind, the first having been held last Fall. Besides the divisions, the sessions will be attended by the Reserve Training Commanders from the Atlantic and Pacific Commands and heads of various Directorates at Headquarters.

LOCAL TIDES Tuesday, October 18, 1949 High 10:40 19.1 feet 22:53 19.7 feet Low 4:23 5.2 feet 16:51 6.9 feet

CRASH TAKES FIVE LIVES

RIVERSIDE, Cal. (CP)—A United States Air Force B-26 bomber crashed into rolling hills, 20 miles southwest of here, last night with five men aboard. Police said that four bodies, one that of a civilian, had been found. Officers believe there are no survivors. Low clouds are covering the hills and hampering the search for bodies.

BUILD HOME FOR QUADS

SAULT STE. MARIE (CP)—Townsperson from the mayor down put their heads together. They are planning to build a house for the Hargreaves quadruplets.

Operation will swing into high gear with the opening of a house fund which civic officials predict will be widely supported by junior citizens from this northern Ontario steel centre.

THE WEATHER

Synopsis Temperatures took a tumble throughout the province overnight. Lowest reported from the interior was 19 above at Nelson and Dog Creek. On the coast, Vancouver reached a minimum of 33. The answer for the cold clear weather lies with a northerly drift of air from the Yukon. Present crisp fall conditions will last for the next two days at least.

Forecast North Coast Region—Clear today and tomorrow. Continuing cold with ground frost in low areas tonight. Northerly winds (15 mph). Lows tonight and highs tomorrow—at Port Hardy, and Prince Rupert, 35 and 52; Sandspit, 40 and 52.

Disabled Ship Reaching Port

Salvage King and Panamanian Freighter Due in Vancouver Tonight

VANCOUVER (CP)—Pacific Salvage Co.'s huge tug Salvage King is expected here tonight with the 10,000-ton Panamanian freighter Navigator in tow.

The Navigator lost her propeller last Tuesday in mountainous seas a 1000 miles off the British Columbia coast. She drifted helplessly until the Salvage King, under command of Capt. Arthur Thomas of Victoria, reached the scene.

Last night both vessels were 300 miles off Cape Flattery and were proceeding at a varying four to eight knots.

Reds Well Disciplined

Occupation of China Taking Place in Orderly Manner Canadian Envoy Says

VANCOUVER (CP)—It's "business as usual" in the Communist-occupied areas of the Far East, T. C. Davis, Canadian ambassador to China, said on his arrival here last night.

Davis said that the Communist advance in China was almost entirely without incident and business areas, residential sections and industrial installations were left strictly alone by well-disciplined Red Troops.

FROSTY WEATHER REPLACES RAIN

Following almost a week of changeable weather—some of it reaching a peak of violence unequalled in months—this morning dawned clear and frosty, 33 recorded.

The last hint of rain had disappeared and everywhere it was calm and undisturbed. From up river, over the week-end came reports of continued cool days and nights, with expectation of sharper temperature. Arrivals from as far east as Prince George told of snow flurries in that city.

COLLISION, DERAILMENT

DAUPHIN, Manitoba (CP)—Two Canadian National freight trains crashed head-on Saturday about 57 miles west of here but no one was seriously injured.

Locomotives of both trains and four box cars were derailed and toppled into a ditch.

The wreckage tied up traffic for almost 24 hours.

TRIES DRAMATIC ESCAPE—George Franklin, 32, self-confessed thief and suspected shopbreaker broke out of a court cell in Toronto's City Hall last Wednesday afternoon, eluded pursuers and crawled onto a narrow window ledge three storeys above the street. As hundreds of spectators gathered below, city firemen were called to raise an aerial ladder while Franklin threatened to jump. A policeman climbed the ladder and while he attracted the man's attention other police officers managed to grab him from the open window. It was Franklin's second bid in 20 minutes. He tried to break away while being led into court earlier. (C. P. Photo)

TO DISCUSS NEW OTTAWA FEELS PHONE RATE PLAN EARTH TREMOR

A revised schedule of telephone rates prepared by Telephone Superintendent J. F. Edwards will be considered by city council at a special meeting tonight. The new rate structure is designed to tie in with a plan for rehabilitating the telephone system over a period of years, which Mr. Edwards and the telephone technical staff are preparing.

ACCUSED ARRIVES—Wedged between hefty provincial detective Martin Healy and a constable in uniform, thin, long-nosed J. Albert Guay, 32, Quebec jeweller accused of the killing of his wife by planting a bomb in an airliner, is rushed into court for his preliminary hearing. The crash at Sault au Cochon on Sept. 9 killed 23 persons including Mrs. Guay. (C. P. Photo)

American Workers Join In Coal-Steel Tie-Up

UNITED STATES GOVERNMENT OFFICIALS ARE DEEPLY CONCERNED—MAY MAKE 5,000,000 IDLE

PITTSBURG (CP)—Idle workers in United States neared the 1,000,000 mark today as 16,000 C.I.O. members struck in nine plants of the Aluminum Co. of America.

The Aluminum workers joined 480,000 striking steel workers and 380,000 striking soft coal miners.

More than 55,000 workers of Allied industries have been laid off.

HIGHER LEVELS GETTING WATER

The city started carrying water by truck today to higher residential areas which have been completely without normal supply since last Friday morning when the water main between Woodworth and Shawatlans Lake was carried out by a landslide. A large tank-equipped truck started moving along the high streets and residents brought out their buckets and the barrels to be filled up.

The emergency water service will be maintained as long as the present situation continues where these parts of the city are unable to obtain water through the taps.

Meanwhile, City Engineer Donald Stewart and Waterworks Foreman Carl Gustafson and extra gang of 12 men are pressing the work of main replacement at the scene of the break. First operation was to move in a derrick, belonging to the Northern British Columbia Power Co., which is being used to handle the new pipe lengths. Other repair machinery had also to be moved in.

Mayor Arnold, speaking this morning, would hazard no estimate as to when the repair service restored to normal might be completed and water Complicating the water situation is an obstruction in the intake line at Shawatlans Lake where the pumping station draws its water for the city mains. The pumping station's 1,000,000 gallon-a-day capacity is being reduced by debris from the lake bottom which is choking the mouth of the 14-inch intake line.

The obstruction is reducing the already inadequate amount of water which the pumping station is able to deliver to the city mains.

City Engineer Stewart said today that it might be necessary to either break or cut the 14-inch line back from the intake if no other way could be found to free it of the material which is blocking it.

City water foreman Carl Gustafson and a crew of 12, six city employees and six from the Northern B. C. Power Co. which owns the 45-inch line, went to the job Sunday on a scow loaded with equipment to repair the break. One of their heavier jobs will be to move the power winch from the head of Shawatlans Lake to the site of the break in order to handle the heavy sections of pipe.

The crew will put in a temporary cribbing to support the line where the mudslide and the rampaging Shawatlans Creek took out its support. Then they will re-connect the line and later put in permanent piers for it to rest on.

Cold weather and cessation of rain on the Shawatlans watershed have reduced the flood level of the watershed to normal size, the city engineer, Mr. Stewart said.

Three shift crews consisting of an engineer and fireman are operating the pumping station for the city's water supply.

Oil Hunt Extended

British Columbia Government Grants More Licences to Royalties

VICTORIA (CP)—The British Columbia government has granted two more oil prospecting licences to the Royalty Oil Co., Hon. E. T. Kenney, minister of lands, said today.

The licences involve 16,000 acres on eleven Gulf Islands in the Gulf of Georgia and Vancouver Island where they will hunt for oil and natural gas.

The Gulf Islands are located between Vancouver Island and the British Columbia mainland.

"The area will be carefully geologized by Royalty preparatory to selecting location for an initial well," said Mr. Kenney. He declined to give information as to what sums the company planned to spend.

Royalty has already instituted work preparatory to drilling for oil on the south end of Graham Island in the Queen Charlottes.

Next Step In Street Work

Weather May Catch Up With Civic Improvement Program

Before rainy fall weather commenced to interfere with the work, city public works department had completed the first coat of hot mix hard surfacing on Second Avenue for the dozen blocks from McBride Street to the far side of Morse Creek bridge.

To follow now will be similar treatment of McBride Street from Second Tenth to Seventh Avenue and Third Avenue between McBride and Second Streets.

The McBride Street work is to be carried out for the provincial government under the arterial highway program.

The Third Avenue work will have to await the filling in of excavations which have been in progress for some time in connection with tunneling for sewer replacing, which is nearing completion.

Contingent upon weather conditions a second seal coating of asphalt sprayed hot with gravel thrown on and rolled is to be applied on Second Avenue.

Man today can fly like a bird, but he will never be able to sit on a barbed wire fence.

HUNTER, Managing Editor, H. G. PERRY, Managing Director. SUBSCRIPTION RATES: City Carrier, Per Week, 20c; Per Month, 75c; Per Year, \$8.00. By Mail, Per Month, 50c; Per Year, \$5.00.

### A Challenging Emergency

IF DISASTER OR DESTRUCTION—by earthquake, fire or some such terrible circumstance—came to Prince Rupert today, there would almost certainly be a prompt and substantial recovery. Means, we may safely assume, would be readily found to provide new utilities services, new streets and sewers, new schools, yes, even new telephone service. Everything would be modern and up-to-date, and there would soon be a creditable city to which we would point with pride.

Fortunately, we have so far had in Prince Rupert no catastrophe to wipe out the city and its services and appurtenances. Yet, from the standpoint of our municipal equipment, we are none the less decaying and disintegrating. We might as well be honest and realistic about it, even if it may not be particularly good publicity. Streets are dilapidated and high impassable, sidewalks in many parts of the city are unwalkable or non-existent, sewers are broken down and odoriferous, schools are dangerous and dilapidated, telephones are obsolete, uncertain and inadequate.

Last week's storm pointed up to the weakness of some of our municipal services and gave us some cause for reflection. It made us think that it is high time if not long overdue that something effective was being done about it all. The situation is reaching a state of emergency through age, decrepitude and obsolescence just as much as if there should have been sudden and widespread disaster. The position has been reached where tinkering and patching up the old machine will no longer do. It looks like Prince Rupert will have to start from scratch again with large scale and long-range planning which, of course, involves a new idea of financing.

Certain it seems that there shall have to be some new and drastic outlook and view of things since what we are doing now and have been doing for some time has, apparently, been ineffectual in even staying the progress of deterioration. If we are to keep Prince Rupert a habitable city, much less a creditable one, we are going to have to do things in a bigger and more expansive way. The industrial development which is now under way demands that we be something more than an unkempt and broken-down community such as this is today particularly from the municipal standpoint. Maybe there will have to be some drastic changes in our outmoded ideas and ways of doing things.

But something is going to have to be done about it. There will have to be a new deal somehow or other. We only regret that, like the rest of people, we realize all the needs but, in the perplexity of their mass and magnitude, it is a little difficult to perceive the way of going about things. Maybe that is because we are all so loath to change our views about the mechanics of getting things done.

The easy thing to do is blame those who have been in charge of affairs—the early city fathers with their big ideas and extravagances, the petty politics in the days of adversity, the commissionerships with their superthrift and economies and the later perplexed regimes with their inability to meet the fast deteriorating conditions. After all, who of us would have done any better? And how many of us are more prone to criticize than do anything to be actually helpful?

The present state of affairs is but the natural result of the vicissitudes through which we have been passing from those days forty years ago when we laid our plans for an immediate large and thriving community only to be frustrated by a variety of unfortunate and untimely circumstances. The whole scene has changed today, yet we still have the foundations even if it seems, in our municipal development, we almost have to start from scratch again.

Building Prince Rupert from here on is going to be a big job but it is a job that must be faced up if we are going to continue to live comfortably and modernly, not merely existing, here. With confidence, courage, ingenuity and vision, ways and means will be found of doing the job. But it will require the best of our talents, the utmost of our service and, above all, mutual helpfulness and co-operation with the long-range goal in view. It is time for all to put the best foot forward and give of our time and our talents in the building up of a better community. It is no time to be indifferent or carpingly critical. To be either is only slowing up the wheels of progress. This is a job for all and not just something to talk about what the other fellow should do.

OLD RELIABLE—In striking contrast to the many hundreds of tractors and pieces of modern motorized farm equipment at the International Plowing Match near Brantford this week is the somewhat outdated yoke of oxen. Owned by Hubert Caruthers of Eau Claire, Ont., the oxen showed their capabilities during the plowing events of Tuesday. (C. P. Photo)

Mr. and Mrs. William Beynon are sailing on the Catala Tuesday on a trip to Vancouver.

Miss Shirley Lipsin, of Vancouver is a visitor in the city as the guest of her mother, Mrs. E. Lipsin. She arrived in the city last week and will be here for another week.

### Young Artist Is Acclaimed

Prince Rupert to Hear Donna Grescoe of Winnipeg Soon

A twenty-one year old Canadian violinist, who has already been acclaimed by the world's leading musicians and critics, will appear in Prince Rupert on October 28, in a concert recital sponsored by the Business and Professional Women's Club. Miss Donna Grescoe is on a concert tour covering Canada from coast to coast and during the months of October and November will play thirty-one concerts in cities from St. John, New Brunswick to Prince Rupert.

Miss Grescoe is a Winnipeg girl, who has had phenomenal success from the day a door-to-door salesman first stopped at her home a few years ago and Donna Grescoe received her first violin a five dollar model. At the age of ten her progress was so great that she was awarded a \$5,000 scholarship for study at the Chicago Conservatory. Today she is the owner of a \$12,000 Montagna violin, presented to her by her father, city, Winnipeg, a violin orthy of her extraordinary talent, which she now uses.

Miss Grescoe made her Carnegie Hall, New York, debut at the age of twenty, with Leopold Mittman as her accompanist. On hearing her play at a private audition, a collector and dealer of rare violins, offered her the use of a \$45,000 Stravarius for

the concert and she had it in her possession for two months. Before a large and enthusiastic audience, Donna demonstrated her usual qualities and was held for three encores. News-men recorded the event on a newsreel which was rushed to Canada and the United Kingdom.

Since then Miss Grescoe has been acclaimed at one recital after another, the highlight being her recital at Winnipeg's Town Hall, where she played to an audience of 4,500 people, with several hundred more turned away from the overcrowded auditorium.

The Business and Professional Women's Club considers itself fortunate to be able to present an artist of this calibre to the music-lovers of this city.

Frank Clark, Liberal organizer from Prince George, who has been in the city for the past several days, is leaving by this evening's train on his return to the interior.

Mr. and Mrs. William R. Sampson and family will be returning shortly to their home in Port Simpson after having been in the city for the past year while Mr. Sampson was receiving treatment for a serious leg injury sustained in a tow line accident. Mr. Sampson plans the building of a new home at Port Simpson.

### FOURTEEN TAKE UP FIRST AID

Fourteen city men are receiving instruction—some of them refresher courses—in the St. John Ambulance industrial classes which are being held Tuesdays and Fridays at the city fire hall. R. E. Eydolson is instructor.

Some of those receiving instruction already hold "B" or "C" certificates and are working for advancement toward "A" certificates. Others are hoping to obtain "C" certificates. The courses emphasize industrial safety and emergency treatment of industrial accidents and fit the trainees to take responsibility for such treatment on the job when emergencies occur.

Those taking the courses are J. S. Franks, John MacLean, J. C. Ewart, D. K. Llewellyn, Neil Mintenko, Magnus Eydolson, Hans Schmidt, Thomas Elliott, W. H. Hill, Milton Hauser, J. C. Furness, K. R. Slater, George Redhead and Robert Wood.

### TESTING RATS FOR PLAGUE

Prince Rupert's rat population is under scientific scrutiny to determine whether or not the local rodents are infected with bubonic plague or other diseases communicable to humans.

The survey is being carried out by Eric Smith of the Department of National Health hygiene laboratory at Kamloops who is working in conjunction with the provincial Department of Health. It is part of a province-wide investigation.

Samples of the rats, following an autopsy, are sent to the laboratory at Kamloops for microscopic and guinea pig tests.

Most of the rats are being caught at the city garbage dump.

Court whist was played during the evening, prize winners being Mrs. H. Muncy and Mrs. Thomas Glenn. Refreshments were served by the hostesses following the card session. Committee members present at the meeting were Mrs. G. Foster, Mrs. P. Welter, Mrs. H. Muncey, Mrs. S. Haugan, Mrs. C. Collins, Mrs. W. Terry, Mrs. J. B. Skinner, Mrs. Hoskins, and Mrs. F. de Blass. Mrs. Elizabeth Blair and Mrs. Thomas Glenn were guests.

**WEEK'S RAINFALL SETS SOME SORT OF WET RECORD**

Anyone found carrying an umbrella during the rest of the winter can do so without fearing the wrath of the Prince Rupert Chamber of Commerce, because last week proved that such implements are useful if not downright necessary.

The reason is explained in the Digby Island Weather Station records for the period starting at 10 a.m. last Saturday, and ending 10 a.m. Saturday, October 15.

During that seven-day period, 9.49 inches of rain fell on Prince Rupert. And if anyone does not think that is a considerable amount, a few comparisons might change their mind.

That 9.49 inches is more than has fallen in the city in any 30 day period, except two, this year. The two exceptions are the month of January, when 12.11 inches fell and April when 14.73 inches of liquid came down.

**SITUATIONS WANTED**

**SITUATIONS WANTED**—Bookkeeper, able to take complete charge, trial balance, financial statements, profit and loss, etc. General Delivery, Prince Rupert or phone 544. Miss Whitely. (246)

Committee members present at the meeting were Mrs. G. Foster, Mrs. P. Welter, Mrs. H. Muncey, Mrs. S. Haugan, Mrs. C. Collins, Mrs. W. Terry, Mrs. J. B. Skinner, Mrs. Hoskins, and Mrs. F. de Blass. Mrs. Elizabeth Blair and Mrs. Thomas Glenn were guests.

**MISS EUROPE**

Lovely Paris model, Juliette Figueras, 20, who had been "Miss France," won out over other European beauties in an all-night competition in Palermo, Sicily, and emerged as "Miss Europe."

Featured in revealing bathing suits during the competitions, lovely Miss Europe is also a standout as a best-dressed gal.

"Mom, I asked Tommy to sleep here tonight!"

Mr. and Mrs. A. J. Attree are sailing tomorrow on the Catala on a trip to Vancouver. Mr. Attree has been ill of late and is going to Shaughnessy Hospital for further treatment.

**GENERAL ELECTRIC LAMPS**

Stay brighter longer

Examines any two makes of lamp—they look alike, don't they? And yet you'll notice the difference in your home and in your office when you switch to General Electric lamps. They stay brighter longer... give you greatest lighting value. That's why it's important to ask for G-E Lamps by name.

second vice president of the Union of B. C. Municipalities, an honor which is normally construed as a step toward the presidency. Despite ill health earlier in the year, Mayor Arnold is busy again both in business and civic life.

The name of former Mayor Harry M. Daggett—now an alderman—has been mentioned as a likely mayoral candidate, al-

though so far he has offered no public comment on his plans. His aldermanic term still has one year to run.

Four aldermanic seats normally will come up for election in December 15 elections. They are those of Alderman T. B. Black, W. F. Stone, George Rudderham and George B. Casey. The first three were elected two years ago, while Alderman Casey went in for a one-year term last December on a by-election.

**60 YEARS OF ACCOMPLISHMENT**  
1889  1949

In place of the old wooden tub, wash-board and wringer the modern washing machine and the commercial laundry have come to the assistance of the housewife of today. "Monel," an alloy composed of 3/4 Nickel and 1/4 Copper, is today in general use for washing machine tubs, and for washers and other equipment in modern laundries. Being rust-proof and corrosion resistant, it eliminates trouble from stains and verdigris. Its hard, glass-smooth surface removes all danger of injury even to the most delicate fabrics. Because it is strong and tough as steel, "Monel" equipment is unusually durable.

**Canadian Nickel sold Abroad brings in U.S. Dollars**

Since more than ninety per cent of the Nickel produced in Canada is sold to the United States and other countries, it brings a constant flow of dollars back to Canada. In fact, Canada's Nickel industry is one of our chief sources of U.S. dollars so essential at the present time to maintain our foreign trade and make available products not produced in this country.

These dollars help pay the wages of the 14,000 Nickel employees, and help provide the dollars which make it possible to pay millions in freight to Canadian railways, to buy timber, steel, coal, machinery and supplies amounting to many millions each year. These millions, flowing into all industries through the length and breadth of Canada, help create jobs for Canadians.

## It Can't Happen Here

Oh softly we tread as we enter the room  
And silently steal to a chair  
The air is as hushed as the air of a tomb—  
Oh softly we tread as we enter the room  
And never a trace of detectable gloom  
Can be found in the company there.  
Oh softly we tread as we enter the room  
And silently steal to a chair.

## Senior Matrics Meet

The bi-monthly meeting of the Grade 13 Letters Club was held Wednesday evening at the home of Eric Moore, who gave a report and analysis of the poetical works of Rupert Brooke. A discussion followed. While refreshments were served the Matrics, nine of whom attended, compared self-composed Triolettes. Next week students are required to present their version of a Ballade.

## Personalities

### STUDENTS' COUNCIL

Mona Lykegard is secretary of the Students' Council. She was born in Atlin, May 13, 1932. She came here in 1942, after attending McDonald Elementary School in Vancouver. She is taking the Commercial Course and plans to be a stenographer. Last year she was Vice-President of the Council. She is currently captain of the Bo-Me-Hi Rainbirds for the second year. Mona's other sports interests are swimming and skiing. She does most of the latter with the local Ski Club of which she is a member. This is her last year of school, a year which we hope will be her happiest.

### THE PRESIDENT OF THE JUNIOR COUNCIL

Jack Leighton, well known Grade 9 student, is this year's Junior Council president. This is his second year at Booth and his first on the council. Previous to coming here he attended Templeton Junior High in Vancouver. He was born on March 3, 1935 in the same city. Lacrosse basketball and hunting comprise his main sporting interests, while he claims he has no hobbies except that of writing to his old girl friends. Jack is a member of the local Sea Cadets and of the Civic Centre. He intends to go fishing when he has finished school. He has no complaints beyond those that probably occur to every student at some time or another, the main one being the small number of school parties and dances.

### YVONNE KILDAL

(Secretary Junior Council)  
Yvonne Kildal is secretary of the Junior Council. She is five-two, has blonde hair, blue eyes and is better known as "Midge". She was born in Prince Rupert in 1935. Yvonne attended King Edward School, came to Booth in grade seven and is now in grade nine. She is taking a Commercial Course and future plans are to be a stenographer.

## Foreigner In Canada

I've climbed your peaks and valleys,  
I've crossed your mighty plains,  
I've roamed your western forests,  
I've seen your prairie grains.

I've rode your lovely railroads,  
I've sailed your rivers wide,  
I've flown your lofty skyways,  
I've jumped your Great Divide.

I've tasted your northern wilderness,  
I've felt your western peace,  
I've eaten the meat of your cattle,  
I've worn your sheep herd's fleece

And now that I've seen your country,  
I can easily understand,  
The greatness of your nation,  
The mightiness of your land.

Yvonne belongs to the Civic Centre and attends Rup-Rec Class. She plays basketball and softball and likes swimming.

### JANET RAKOW

(Secretary Treasurer of the Senior Council)  
Probably the hardest working member of the Senior Council is Janet Rakow, the secretary-treasurer. She is well qualified for the work she does, being a Grade 11, graduation course student. Janet is sixteen, and was born on September 6, 1933 in Prince Rupert. However, she spent the first eight years of her life in Usk where she went to public school for her first three grades. In 1941 she came to Rupert where she took grades 4, 5 and 6 at King Edward and the remainder at Booth. When Janet has finished her education, she will find employment in the Kingdom of office workers. At the moment she is gaining valuable office experience by working part time at a local establishment. Her personal life is taken up by a steady boy friend, all types of sports, and sewing. This is her first year as a council official, but, we are sure it will not be her last.

## Rainmakers 1949 Edition

This year the Bo-Me-Hi team in the Senior Basketball League has two three-season veterans—Glen Carlson and Ray Spring—who are playing centre and forward respectively.

There are also two second year players—Mickey Webster (forward) and Syd Scherk (guard). Although entering his first season with the High School, Eric Moore is the fifth member of the first string, playing at guard. The other members of the team are substitutes in their first year, with Danny Bill at centre, Jack Sharpe and Billy McChesney at guard and Bud Ratchford at forward.

As the team has lost all members of the first string with the exception of Ray Spring, there has been little comment as to how they will do in the Senior League.

The coach, Jack Evans, is placing much emphasis on endurance and shooting.

## Happy Days Again

When school re-opens in the fall  
We all are filled with joy.  
We pupils press into the hall  
When school re-opens in the fall,  
Forsaking gladly bat and ball,  
Each eager girl and boy.  
When school re-opens in the fall  
We all are filled with joy.

### Futility

To be ever in style  
Seems futile, said she,  
I try for a while  
To be ever in style  
But the skirts drop a mile  
And mne don't agree.  
To be ever in style  
Seems futile, said she.

### The Impossible

I can not write a triolette  
No matter how I try.  
Any money I will bet  
That I can't write a triolette,  
No original thoughts I get,  
Immediately or by and by.  
I can't write a triolette  
No matter how I try.

### OLYMPIAD SCREENED (Continued from Page 1)

of all Canadians, the thrilling skating achievements of Barbara Ann Scott.

All the drama of the opening and setting of the games at Wembley Stadium are caught as the track and field, aquatic, swimming, diving and sailing events are presented. The climax comes in the dramatic marathon with its surprise finish victory for the courageous Argentinean, Cabrera.

An audience of about 450 persons saw the pictures last night. Forty-three new Civic Centre members were signed up at the door, making 250 for the weekend and over 1000 so far in the current membership campaign.

## Jonezy's Little Lamb

Anywhere that Jonezy went  
He travelled with his lamb;  
No bitterness was ever meant  
Any where that Jonezy went  
But Jonezy's little lamb was lent  
From a butcher known as Sam;  
So everywhere that Jonezy went  
We travelled on the lamb.

**A GOOD HOST IS A MIND READER**

Because Burnett's is an extra-dry (unsweetened) gin it lets you mix every drink to individual taste—adding sweetness for those who like it or leaving it out for those who like their gin drinks dry.

Next time you entertain serve the ope gin that has the right answer for every taste preference.

**BURNETT'S LONDON DRY GIN**

Distilled in Canada and distributed by The House of Seagram
