HYDERABAD GOING BEFORE SECURITY COUNCIL

Indian Army Meeting Stubborn Resistance After Early Advances

Considerable Ground Gained at First by Hindus in Aim to 'Save' Princely State

PARIS (CP)—The United Nations announced today that the security council will meet Thursday to consider the invasion of Hyderabad by India. The security council has been called at the request of Hyderabad by Britain's Sir Alexander Cadogan, president of the council, for September. It will be the first

FRANK HALL IN STRATEGY MEET

MONTREAL (C)—The Gazette said today that Frank H. Hall, vice-president of the Brotherhood of Railway and Steamship Clerks, suspended recently by the Trades and Labor Congress of Canada, was now in Winnipeg for a strategy conference with western union officials. The paper said that Hall was expected by Montreal supporters to make another important statement concerning future plans.

Council to "Prod" Gov't High Cost of Living

In Housing Survey—Barking Parking Worry Aldermen—Gravel Delivery Expected

Living became a live issue last night when a letter was read from the Association of Port Alberni asking for a campaign designed to arouse public indignation that the government take some of the rising costs as they affect the con-

building for any other use than that of a school. The discussion arose from a letter received from the Chamber of Commerce asking that a member of the city council be appointed to work on a housing survey committee of the Chamber. Alderman Black agreed with the request and was appointed to represent the city.

Another letter from the Chamber of Commerce asked the council to consider the possibility of installing two more pay telephones in the Rushbrook Heights area. The letter stated that there is one pay telephone in the area. In view of the shortage of residential telephones for those who requested them, the Chamber felt that residents of the district should have the use of more pay stations. Superintendent A. B. Love is to be asked to investigate the situation and report to the utilities committee which was given authority by the council to take the necessary action.

The method of purchasing supplies for the Pioneer Home was a matter of importance to (Continued on page 3)

TRUMAN TO GET LABOR

William Green Expects President Rather Than Dewey to Be Favored

COLUMBUS, Ohio (C)—William Green, president of the American Federation of Labor, said here yesterday that he believed the most of organized labor support in United States would go to President Truman and that the labor vote would have an important bearing on the color of the next Congress. He said that he did not believe the Republican candidate, Thomas Dewey, was a friend of labor.

UNIONISTS ARE BARRED

Not Only Communists Are Being Kept Out of United States

TORONTO (C)—The Globe and Mail said today that a general bar against the movement of Canadian trade unionists to the United States appears to have been imposed by the American immigration service here.

This was indicated with the disclosure yesterday that Fred Dowling, Canadian director of the United Packing House Workers of America (CIP-CCL), well known C.C.F. supporter and insistent anti-communist, had been refused permission to travel in the United States.

The Globe and Mail story said that, although United States screening had been supposedly designed to keep communists out of the country, several non-communist trade union members had recently been prevented from entering.

MacKAY IS HEAD OF INDIAN DEPT

British Columbia Man Receives Important Appointment

OTTAWA — Announcement was made yesterday of the appointment of D. M. MacKay, one-time Member of the Legislature in British Columbia and later Commissioner of Indian Affairs for that province, as director of Indian Affairs in the Department of Mines and Resources.

THE WEATHER

Synopsis

The storm centre which has remained nearly stationary off Vancouver Island during the past 24 hours is intensifying as pressures continue to fall over the southern British Columbia coast. An influx of moist Pacific air is expected to bring increasing cloudiness and some rain to the coast and lower mainland during the next 12 hours. Variable cloudiness is present over the interior with little indication of any marked change today but showers should spread into the southern interior tomorrow afternoon. Temperatures are expected to be a little lower than those recorded yesterday.

Forecast

Queen Charlottes and North Coast — Overcast today with showers and intermittent rain beginning this afternoon. Cloudy with widely scattered showers Wednesday. Winds easterly (25 m.p.h.) in the exposed areas, light elsewhere. Little change in temperature. Lows tonight and highs tomorrow: Port Hardy 52 and 56, Massett 49 and 56, Prince Rupert 50 and 58.

ROAD 'PASSABLE,' SAYS CRAVETTO

The Skeena River Highway between Kwinitsa and Salvus may be said to be "passable" and, from there on, it is in fairly good shape, says Pete Cravetto who returned to the city early yesterday afternoon after spending Sunday in Terrace. Most of the time spent in driving up-river was favored with the best of weather. Terrace is active and it has been a fine fruit season to judge from the look of apple and plum trees.

D.P.'S WORK ON RAILWAY

TERRACE—About 20 displaced persons are working on the Canadian National Railways at Terrace. They are prisoners of war who were in the occupied countries and forced into the German army.

C. Elsey of Seattle and F. Schroeder of Vancouver are visiting their niece, Mrs. H. B. Rochester, for a few days and plan to do some hunting in the Prince Rupert area before returning home.

Keep Haines Cut-Off Open

Prince Rupert Chamber of Commerce Makes Recommendation to Associated Boards

The Alaska Development Board of Juneau last night won the support of the Prince Rupert Chamber of Commerce for a resolution urging Canada to maintain the Haines Cut-off as a round the year road so that there may be a proper flow of commerce between southeast and interior Alaska. A large section of the Haines Cut-off between the port of Haines and the junction with the Alaska Highway passes through Canadian territory. The resolution will be sent to the Associated Boards of Trade of Central British Columbia with a recommendation for its approval at the convention to be held next week in Juneau.

The resolution of the Alaska Development Board, adopted at Anchorage a few weeks ago, is as follows:

"Whereas, the sole connection by highway between Southeast Alaska and Interior Alaska is provided by the Haines Cut-off, and

"Whereas, year-round use of this road is necessary to the proper flow of commerce between those two important sections of the Territory, and

"Whereas, the physical problem of keeping the Haines Cut-off open for use throughout the year would not appear to be great, and

"Whereas, all efforts by Alaska citizens and officials to obtain proper winter maintenance on the Canadian section of the cut-off have been unavailing;

"Now therefore be it resolved by the Alaska Development Board that the proper Canadian officials at Whitehorse and Ottawa and the proper United States officials at Washington, D.C. be urged to make suitable arrangements immediately to maintain the Haines Cut-off for use throughout the winter of 1948-49 and in succeeding years."

PRIME MINISTERS MEET OCTOBER 11

LONDON — October 11 has been set as the date for the opening of the conference of British Commonwealth Prime Ministers here. Prime Minister W. L. Mackenzie King, who left Ottawa yesterday for New York to sail on the Queen Mary, will attend. The Prime Minister of Eire will not be present.

The more efficient use of Canada's port facilities and an immediate investigation of the facilities and possible uses of the port of Prince Rupert in the interests of all Central British Columbia and Southeastern Alaska.

Vigorous and persistent action towards the obtaining of a first class national TransCanada Highway from coast to coast as an urgent need the present lack of which is causing a loss of tourist money to Canada.

The immediate establishment by the government of Canada of a coastguard service on Canada's Pacific Coast with the cooperation of the Royal Canadian Air Force.

The bringing of coastal freight rates under supervision similar to that required for railway freight rates by either the Board of Transport Commissioners or the Canadian Maritime Commission.

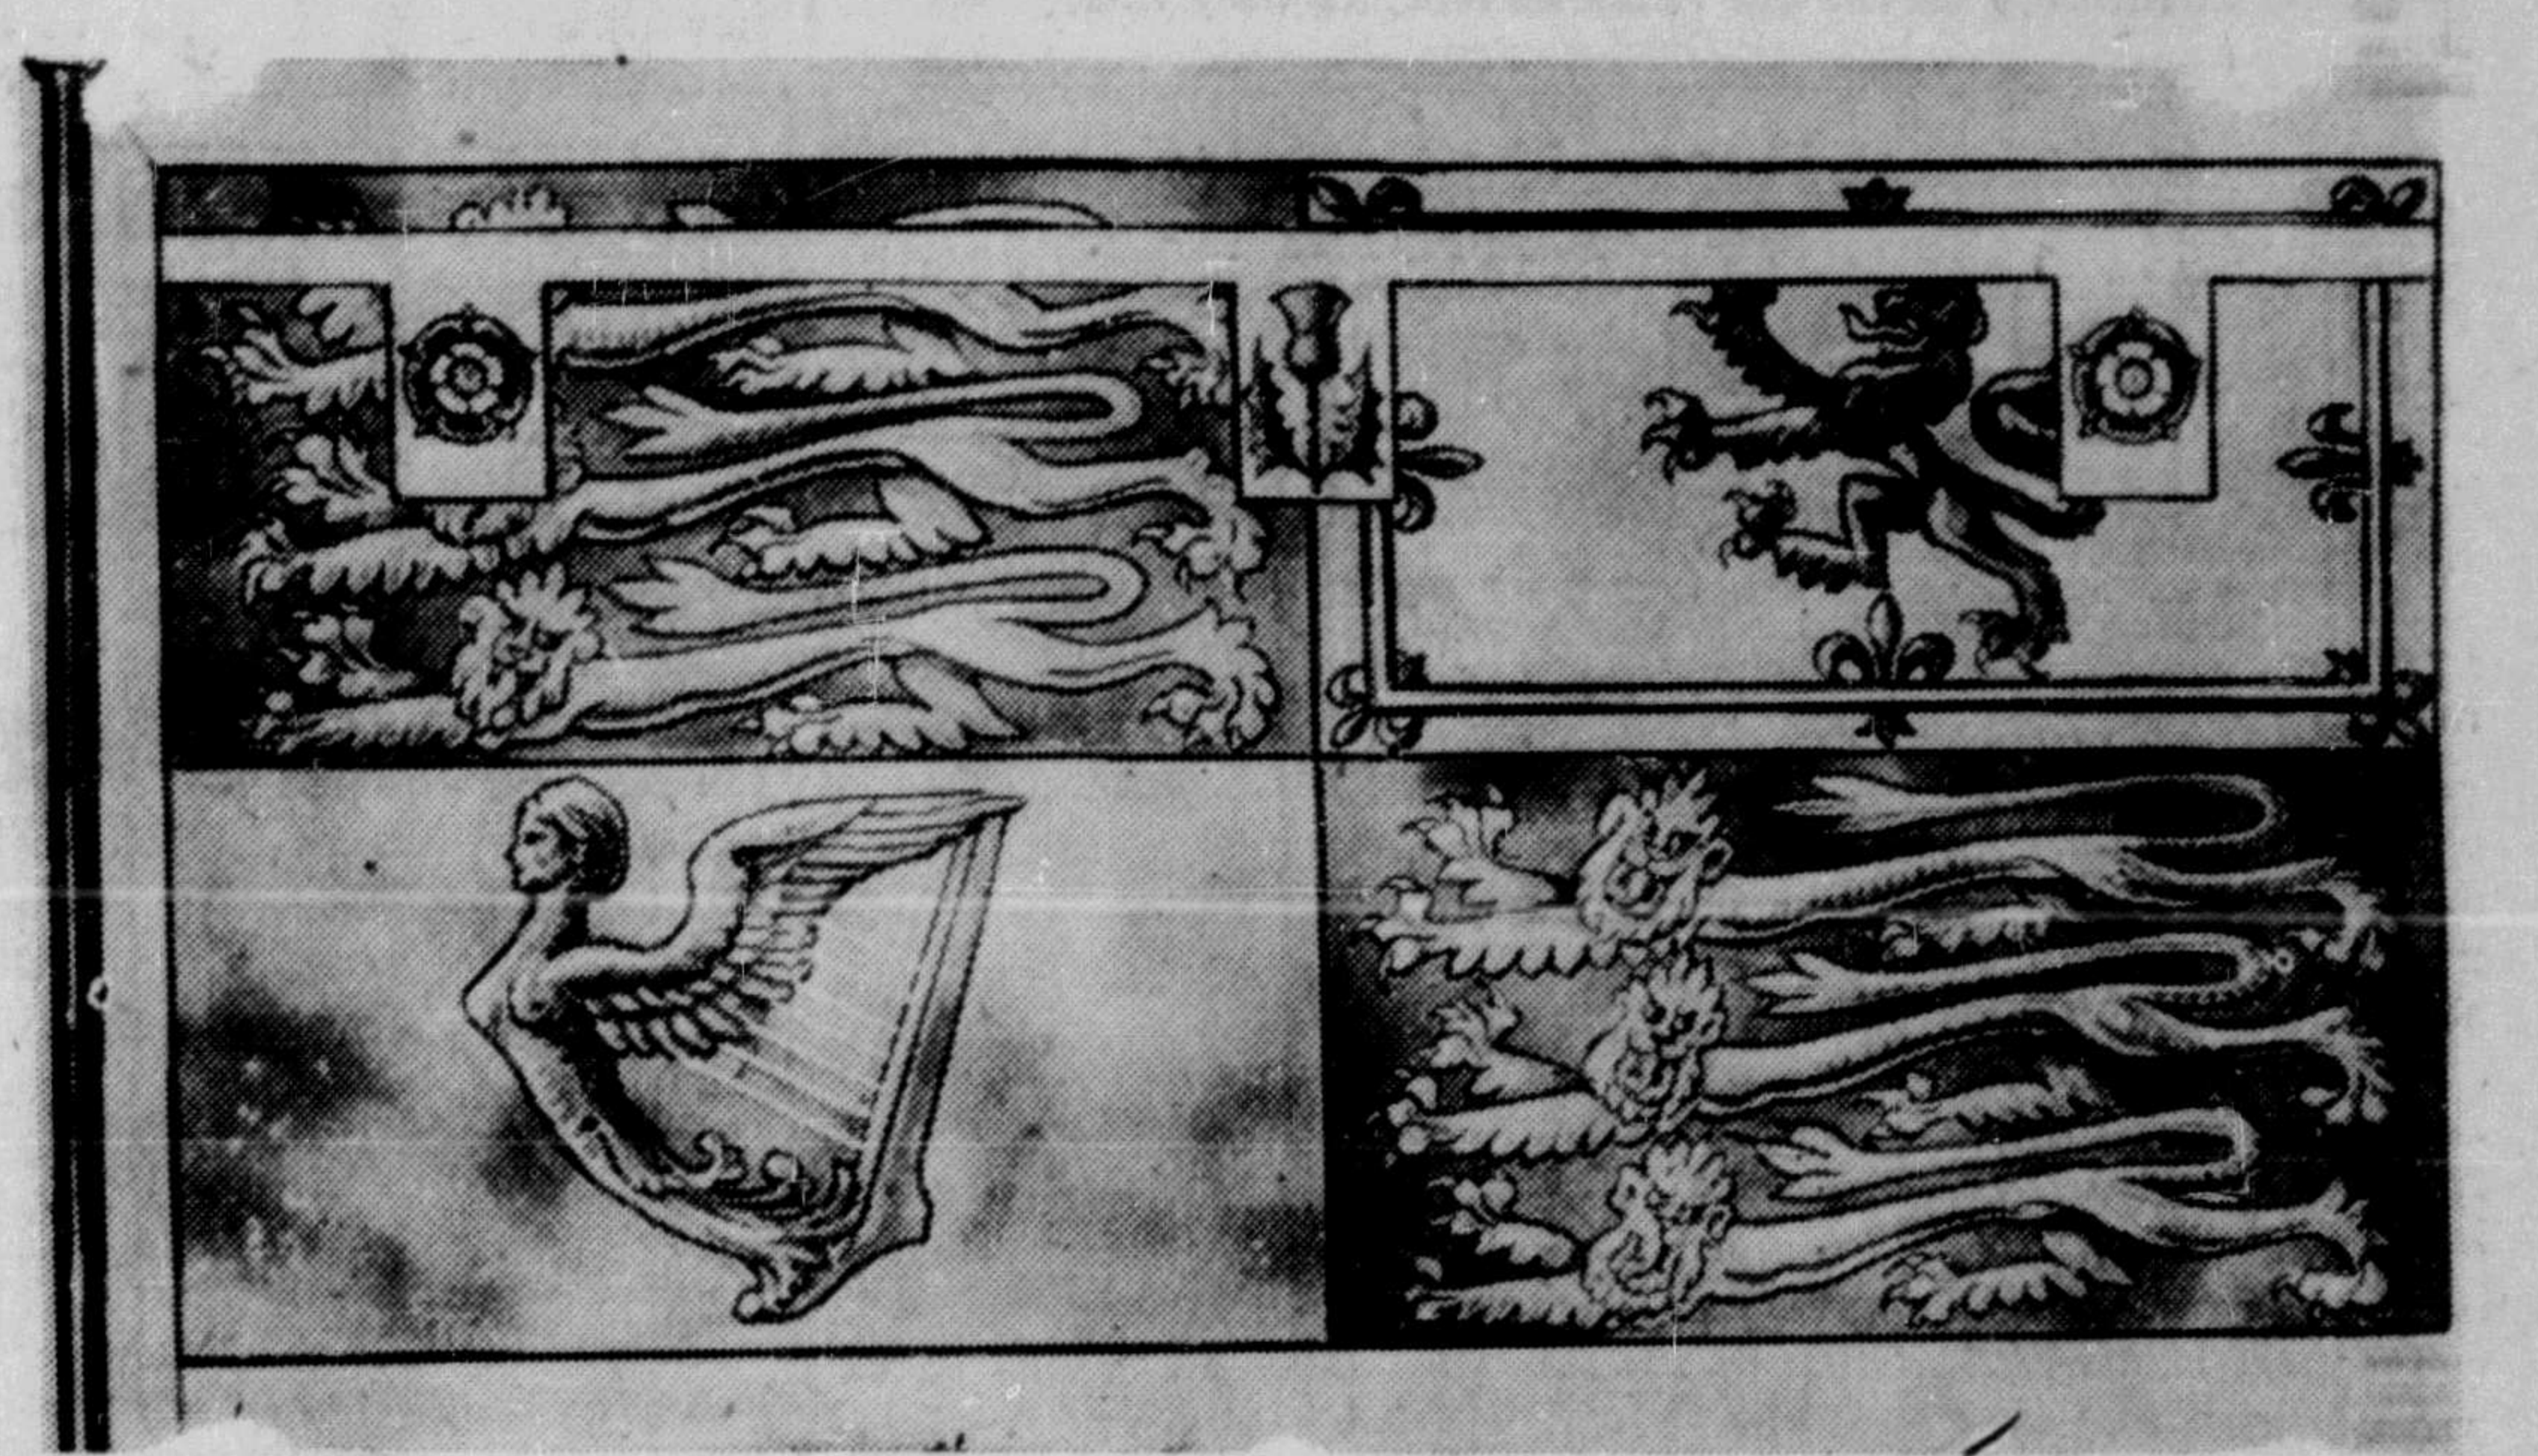

The establishment of a committee of the federal cabinet of Canada for the rectification of cases of unnecessary inconvenience, delays and annoyances to legitimate trade and travel between the United States (including Alaska) and Canada.

The urging upon Canadian authorities at Whitehorse and Ottawa of the necessity of making proper arrangements immediately to maintain the Haines Cut-off for use throughout the winter in view of the essentiality of this road the year around to the proper flow of commerce between Southeast Alaska and the interior of Alaska.

The continuous working upon by officers of the Associated Boards of resolutions on certain subjects without passing of similar resolutions year after year at succeeding conventions.

OFFICES FOR REGISTRATION

VICTORIA — Registration offices under the British Columbia Health Insurance Act will be set up in fifty-eight centres throughout the province. The deadline for registration in outlying portions of the province has been extended from September 15 to September 30.

PRINCESS MARGARET NOW HAS HER OWN PERSONAL STANDARD—On reaching her 18th birthday, Princess Margaret Rose of England received the right to use this personal standard, granted on her coming of age. The design consists of her coat of arms, approved by King George in 1944, and the Royal arms difference with an argent label of heraldic devices indicating her position as a daughter of the sovereign.

USE OF PORT OF PRINCE RUPERT, ESTABLISHMENT OF COASTGUARD, AMONG RESOLUTIONS FOR JUNEAU

Seven resolutions will be presented by Prince Rupert Chamber of Commerce to the convention of the Associated Boards of Trade of Central British Columbia at the annual convention in Juneau next week. They were approved by the Prince Rupert Chamber at its regular monthly meeting last night. The committee consisting of E. T. Applewhite and J. T. Harvey which drew them up was appreciatively commended for its work.

\$100,000 FIRE IN BURNABY

VANCOUVER (C)—Damage estimated at more than \$100,000 was done by fire which swept the Riverside Shingle Mill in suburban Burnaby late yesterday. The dry kiln, in which 5000 bundles were being steam dried, was destroyed and two box cars laden with shingles. New machinery and a loading platform was also burned. Telephone lines were burned down before the fire department could be summoned.

It was the second shingle mill blaze in less than a week in the area. Last Saturday an early morning blaze of undetermined origin roared through \$75,000 worth of shingles stored in a warehouse of the Clearwood Shingle Co. here.

DOESN'T SEE WAR

BERLIN—General Lucius D. Clay said today: "I don't think war is just around the corner." The United States military governor added that he did not think the Russians "will make Berlin the final issue of the German problem."

BRITAIN'S DEFENCE

LONDON — Home Secretary Herbert Morrison today called upon Parliament for new defence measures in view of the international situation. There will be a slowing down of demobilization, intensification of recruiting for active and auxiliary services and a doubling of production of fighter planes. King George today opened a ten-day session and asked Parliament to curtail the ancient power of the Lords.

NON-UNION MEN ARE BEING HIRED

WASHINGTON — Announcement was made last night that the United States Army will hire workers outside of union channels in the attempt to handle army cargo while the present maritime strike is on the west coast. They will be paid pre-strike rates of wages.

Army Secretary Kenneth Royall said that all but one company had declined or failed to indicate intentions in regard to carrying out contracts to move army cargo. The companies are refusing to have anything further to do with Communist-influenced unions.

OFFICES FOR REGISTRATION

VICTORIA — Registration offices under the British Columbia Health Insurance Act will be set up in fifty-eight centres throughout the province. The deadline for registration in outlying portions of the province has been extended from September 15 to September 30.

NOTICE TO SUBSCRIBERS

For obvious reasons, the principal one being increased cost of production, it has become necessary for the Daily News to announce a long cherished but small increase in circulation rates to be effective on and after October 1, 1948.

The new rates will be:

CITY CARRIER DELIVERY:
Per Week, 20c; per Month, 75c; per Year, \$8

BY MAIL
Per Year, \$5; per Month, 50c

Payment may be made up to and including September 30 of any arrears or of advance subscriptions at the present rates of 65c per month and \$7 per year for city delivery and \$4 per year by mail. Thereafter both arrears and advance payments will be at the advanced rates.

Subscribers are advised to check up their accounts and take advantage of the old rates as long as they last.

MEMBER OF CANADIAN PRESS ASSOCIATION BUREAU OF CIRCULATIONS CANADIAN DAILY NEWSPAPER ASSOCIATION

SUBSCRIPTION RATES:
City Carrier, per week, 15c; Per Month, 65c; Per Year, \$7.00;
By Mail, Per Month, 40c; Per Year, \$4.00.

RIGHT OR LEFT

POSSIBLY, it is not quite so clear to everybody what is meant by the terms right, rightest, left and leftist which are bandied about so much today in the discussion of matters political. And it is not surprising that there should be some confusion over the terms. Indeed, a definition is not quite as simple a matter as it was when the terms came into use to describe the conservatives who sat to the right of the presiding officer in a European legislative chamber and the radicals who sat to his left. Today we have the spectacle of extreme rightists or fascists who in some respects seem closer to extreme leftists or communists than either is to the moderate conservatives or progressives just right or left of centre.

The issue is further complicated by the word "liberal." In the classic English sense it is used of one who stresses individual rights and laissez-faire capitalism and who today is somewhere to right of centre. In the new sense it is used of one who stresses social justice and a controlled economy and who today is somewhere to left of centre. In the fullest and truest sense it may mean one at the centre who balances the freedom of the individual (R) against the requirements of society (L), rights (R) against duties (L), stability (R) against change (L), special privilege (R) against forced equality (L).

To the reactionary and revolutionary alike the centre position is a milk-sop one, blowing neither hot nor cold. To the individual who tries to hold it, however, it requires the toughest, clearest kind of thinking, the courage to espouse values either to the right or left when the whole tide of current emotion is running the other way. The right, in general, looks to the past. The left, in general, looks to the future. The liberal centre both reads history and dreams dreams. It is the hinge between yesterday and tomorrow. It puts its faith in today.

'BLESSED PLOT'

BRITONS are much-travelled people. Since the days when first sons made the "grand tour" and second sons went to the "colonies," the sons (and daughters) of Albion have roamed the earth with imperturbable self-assurance, invincible accents, and free-ranging stride. In pith helmet or casual tweeds, hunting tigers for sport or wrestling with Pullman windows for fresh air, the Englishman abroad has taken England with him wherever he went.

Now, for the most part, he is staying at home. Currency restrictions hedge him in, as he was once hedged in by

the silver sea
Which serves it in the office of a wall
Or as a moat defensive to a house,
Against the envy of less happier lands.

But the world is coming to England, particularly the New World and specifically Americans with dollars to spend. The British are highly gratified by the volume of tourist trade this summer, though one London paper has just gone out of its way to welcome Americans as friends and not merely as dollar prospects.

The role of "mine host" is a fitting one for the descendants of Chaucer's pilgrims. And Americans with dollars in their pockets will find much to warm the heart and stir to deeper thought beneath the threadbare surface of what is still "this blessed plot, this earth, this realm, this England."

—Christian Science Monitor.

KETCHIKAN MEN JOIN SHIP HERE

Some seventy or so delegates from Prince Rupert and interior points all along the line as far as Prince George will be joined by a delegation from Ketchikan when they embark next Monday night for Juneau aboard the steamer Chilcotin to attend the annual convention of the Associated Boards of Trade of Central British Columbia.

The Ketchikan party, which may be as high as fifteen strong, will fly into Prince Rupert to join the excursion. The ever-irritating Jones Act makes it impossible for them to journey direct from Ketchikan to Juneau on a Canadian ship.

Lakelse Lake Resort Taken

Eastern Men Option Old Hotel Property and Acreage

According to the Omineca Herald, an option was recently taken on the Lakelse Lake Hot Springs Hotel by Arthur S. Johnson of Boston, Mass., and Robert J. Bryant, Woodland, Washington. The option includes 30 acres of land owned by Little, Haugland & Kerr. It is intended to establish a hunting, fishing and tourist lodge, with licensed guides.

TO CHECK UP ON LOAD LINE MEET

Prince Rupert Chamber of Commerce will follow up a report which was heard at last night's meeting that a session is to be held this week in Vancouver at which the matter of the international load line will be considered. The local Chamber has been working for years on representations that Prince Rupert should be brought under the same international load line status as Vancouver and other southern British Columbia ports. This would involve an amendment of the international convention which now sets the load line slightly south of this port. The latest information which the Chamber had was that a conference on the load line was to be held in London, England.

Telephones and Light Unchanged

The Daily News was glad to be reminded today that, contrary to a statement in an editorial yesterday to the effect that prices of everything in Prince Rupert had advanced, prices of electrical light and power and telephone services had remained constant for many years.

Reminiscences and Reflections

By W.J.

Margie says people are pretty much the same once they become their real selves. It has been her good fortune of late to meet and mingle with persons of prominence all the way from Prince Rupert to Los Angeles, as well as facing audiences. The eminent, once they unbend, are not unlike the neighbor next door. All people, substantially, are alike.

Every time a strike tie-up involving Alaska's ports occurs, reaction on the Prince Rupert waterfront happens fast. For this is a short-cut city. Using Prince Rupert instead of Seattle saves about 600 miles. Isn't this worth saving? Trying to prevent water from finding its own level is a long and tedious job.

The Omineca Herald says a Prince Rupert visitor, enjoying tea and conversation, heard a strange sound from somewhere near. She hastened to the window to perceive a cow that had just given voice to the indisputable fact that milking time had once more arrived. A cow! A real live perfectly lovely cow with horns, contented look n'everything. What a story to tell the home folks back in the coast metropolises!

Perhaps what we call the ocean dock will be put to real use, if Alaska salmon, in quantity, comes this way to the American markets over the Canadian National. It was originally known as the "salmon dock." That's what the warehouse was called when, years ago, fresh from the hands of the contractors, the building was opened to the public. Perhaps not so far out, after all!

Drownings at or near Prince Rupert are frequent. As a matter of fact there are far too many and the only way to reduce the number is to learn

how to swim. Find out, and do it now. Once you do so, there is no forgetting. Years may elapse between plunges but the know-how is still there. Most dumb creatures can swim, naturally. It should be that way with human beings.

Police court fines in Prince Rupert for August totalled \$4,136.70, said to be the highest figure in recent years, if not top figure since incorporation. Prosperity beams! It's not so simple to make whoopee with desolate pockets.

C. A. Berner, C.N.R. divisional superintendent, returned to the city on Saturday night's train from a trip to interior points as far as Vanderhoof.

Harry Archibald, M.P. for Skeena, returned to the city on Saturday night's train from a trip to interior points as far as Vanderhoof.

HAVE YOUR HOT WATER OR STEAM HEATING UNIT INSPECTED NOW!

We'll send a man to your house now to make a complete check-up on your furnace.

He'll make repairs where necessary and then, comes the first day of cold weather, you'll be all set—no trouble, no worry, just light the fire.

No trick at all to turn "hopeless" gloomy surroundings into an enchanting, cheerful room. Yes, even on a slim-Jim budget! Try a gay print bedspread... wallpaper trim around the windows... a cozy writing nook. But be sure you start with a sparkling new Gold Seal Congoleum rug! That's the way to get a floor covering that lends excitement to your whole color scheme... that is smooth, easy to clean, comfortable underfoot. Best of all, it's such a good "buy"! For Gold Seal Congoleum—both rugs and by-the-yard—has a wear-layer of heat-toughened paint and baked enamel equal in thickness to 8 coats of best floor paint applied by hand! But remember—without this familiar Gold Seal—it isn't Congoleum! So look for it before you buy! You'll be surprised how much quality you can buy for so little money.

Gold Seal Congoleum is a product of Congoleum Canada Limited, Montreal.

Your dealer may be temporarily out of Congoleum because supplies are still very short. Please try him again, as he receives limited shipments from time to time.

"Dear, whatever became of those fancy suspenders I used to have? I believe I'll start wearing 'em again."

COUNCIL TO "PROD" GOVT.

(Continued from Page 1)

Alderman Casey, Alderman Brooksbank stated that each retailer was given a share of the business but sometimes a manager who was a stranger in the city failed to locate all the retailers even though a list of city businesses was supplied to him. Aldermen Black and J. R. Morin suggested that a better system would be to deal directly with the wholesalers.

IRRITATED BY CANINE CHORUS

Dogs were worrying Alderman William Stone and he wanted to know if there wasn't something the council could do to help eliminate the very disturbing noise or barking dogs. He was not objecting to one or two but felt that a chorus of eight was too much. Stray dogs and dogs without licences entered the question but the aldermen were of the opinion that little could be done in this regard without hiring a "dog catcher." Alderman Casey suggested that the police could combine this with their other duties but Alderman Black declared that he thought the police had enough work to do now. Parking regulations were brought up by Alderman McKay who wanted to know what was being done to carry them out. He declared that cars should not be permitted to park for so long in front of the Post Office as is the case now. "Some are parked there all day," he declared. Discussion on the subject revealed that city police are handicapped by not having detailed regulations pertaining to parking within the city limits so the licensing committee was instructed to draft a set of regulations for the approval of the council.

Alderman McKay reported greater efficiency in the delivery of gravel to the city by the Highway Construction Company for use on street improvements is now evident although matter of supply is largely dependent on the weather. Alderman Casey said there was an improvement in the type of gravel being delivered but that there was still a considerable amount of wood fibre in it. In the absence of Mayor Arnold, Acting Mayor A. S. Nickerson presided at last night's council meeting. William Long has been acting as city clerk while H. D. Thain has been in the south on city business.

Local News Items...

● Lewis's fresh-killed boiling chicken. Phone Black 949. (220)
● S.O.N. meeting, Wednesday, 8 o'clock. (11)
Mrs. W. S. Kergin and family, after spending the summer in the Gulf Islands, returned home on the Camosun Sunday night.

Peter DeJong left on the Camosun Sunday night for a trip to Alice Arm and Stewart.

William Cruickshank was last night appointed chairman of the Prince Rupert Chamber of Commerce railway transportation committee in place of W. L. Armstrong who recently left the city.

Mr. and Mrs. Hugh Boswell of Smithers are in the city for a few days on vacation. They are expecting to leave by Friday evening's train on their return to the interior.

Louis Amadio returned to the city on Sunday by car after a five weeks' trip to Vancouver and Seattle. He travelled through the Okanagan and reports that roads were in good shape except between Terrace and Tye.

Lloyd W. Lefler, local wholesale hardware salesman, was elected to membership in the Prince Rupert Chamber of Commerce at its meeting last night. Grant Stewart, manager of the Royal Bank of Canada, was welcomed as a new member.

Appreciation of the new publicity folder recently produced by the Prince Rupert Public Relations Council was expressed in a communication from the Government Travel Bureau read at last night's Prince Rupert Chamber of Commerce meeting. The Bureau advised the Chamber that copies of a new industrial brochure produced by the province would shortly be made available.

Business at the regular monthly meeting of the Canadian Legion last week was largely of routine nature. President Ralph Smith was in the chair.

Mr. and Mrs. W. A. Antilla are arriving in the city on tonight's train from Burns Lake. Mr. Antilla is leaving Thursday night for Vancouver to attend a forestry school. Mrs. Antilla will spend a couple of weeks here visiting with her mother, Mrs. Robert Gordon, before proceeding south.

Mr. and Mrs. Orme Stuart, who have been on a month's honeymoon trip through southern and central British Columbia following their recent marriage, returned to the city at the end of the week and have taken up residence on Atlin Avenue, Westview. The bride was formerly Miss Zona Hedley.

Radio Technician First Class Henry Bennetts is arriving in the city on the Prince George tomorrow morning from Victoria to take charge of care and maintenance of naval radio equipment in this area. Until recently he was aboard H.M.C.S. Crescent.

J. T. Harvey reported to the Prince Rupert Chamber of Commerce at its meeting last night that the industrial survey committee of the Chamber of which he is chairman was still working on the gathering of information now available. On completion of this the committee would meet to consolidate the data.

Basketball Association, Civic Centre to Co-operate Closely

Annual Meeting Expresses Appreciation of Last Year's Operations—Despite Undertakings, Finances Sound

At the Prince Rupert Basketball Association's most harmonious meeting in years at the Civic Centre last night, over forty members expressed appreciation of the basketball executive and the Civic Centre officials for the way in which last season's league games and out-of-town exhibition series games were conducted. A motion was passed unanimously thanking Art Murray, League president, Secretary Nick Pavlikis, Treasurer Alex Bill and Civic Centre Secretary Don Forward for their services during the 1947-48 season.

Showing complete confidence in the Civic Centre staff, the Association decided to operate with out of town teams under Civic Centre sponsorship for the coming season. The league operating committee will be composed of three elected members from each league—Junior, Intermediate, Senior and Ladies—acting with Civic Centre sport's representative Jack Lindsay, and secretary, Don Forward. This committee will be appointed at the next general meeting to be held October 18. In the meantime an interim committee was appointed by President Art Murray consisting of S. P. Woodside, A. M. Hurst, Betty Hamilton, Angus MacPhee, Jack Lindsay and Don Forward.

Tentative plans call for year's inter-city and B.C. Bas-

LAWN BOWLING TROPHY IS WON

Angus Macdonald Rink Captures McClymont Prize for Three-man Rinks

Another trophy competition of the Canadian National Recreation Association Lawn Bowling Club was settled in Sunday's fine weather when Angus Macdonald's rink captured the McClymont Trophy for three-man rink play.

Macdonald's rink won 25 to 10 over a rink skipped by Jock McGreish while a rink led by Dave MacPhee took the measure of another skipped by William Rance 25 to 18.

The rinks were: Angus Macdonald, C. Dixon and Neil Cameron.

Jock McGreish, W. E. Denning and C. L. Youngman.

Dave MacPhee, J. S. Irvine and William Rance.

William Rance, S. C. Thomson and William Reid.

As soon as weather permits concluding play in the singles and doubles tournaments, deferred for some weeks owing to inclement conditions, will be run off.

ketball Association play.

The meeting ended with a general discussion on rule changes with considerable interest shown in the status of junior players who, under present regulations, are required to be under the age of 16 years as at October 30 of this season. This contentious bylaw is to be studied by the interim committee which will bring in their recommendations to the next general meeting.

SAILOR'S CATEGORY

Sailing ships are classed according to their rig, that is, the combination of spars, sails and cordage.

Sport Shots

Time was when Canadian amateur hockey teams did their player hunting secretly but this procedure has changed. If a club had its eye on a sharp-shooting winger in the old days he was approached quietly by officials. A secret meeting was arranged and, if terms were satisfactory, the winger signed on the dotted line. Soon, however, players were hunted openly. When a club spotted a man they liked in another city or town, a letter was written asking him to drop down for a practice—expenses paid. And if everything went all right the club had a new man patrolling the ice lanes.

"But even this latter method may become passed before long, judging by the advertisement we came across a few days ago," says Harry Eisen (London Free Press). "It seems there is a scarcity of senior calibre hockeyists around Kitchener (an Ontario Hockey Association Senior League entry). And apparently there are few established senior stars on the loose elsewhere. So the Kitchener coach, hoping that he'll unearth some hitherto undiscovered ivory in the hinterlands, has advertised that the Kitcheners will be only too happy to give prospects a trial."

Eisen says he thinks the idea has plenty of merit and that the advertising department of the newspaper will agree. "Just imagine looking through the help wanted: 'Wanted—Right-winger, must be able to skate and shoot well. Between the age of 19 and 26. Experience not necessary, but an asset. Please state full particulars in first letter.' Now, really, wouldn't that be something?" asks Eisen.

CALVERT 1622 *Famous Families* YOUNG 1799

In 1818 John Young, Scottish immigrant, wrote "Letters of Agricola" to the press which were instrumental in stimulating agriculture in Nova Scotia. His two sons, Sir William and George Renny, lawyers and statesmen, were both members of the Executive Council and Speakers of the Assembly. George founded the newspaper "Nova Scotian" while Sir William became Premier of the Province and later Chief Justice, a position he held for twenty-one years. A notable record of a truly distinguished Canadian family.

Great Families Create Great Nations

Distinguished English Statesman and Secretary of State to King James I, Calvert, head of the famous Calvert family, founded pioneer colonies in Newfoundland and Maryland early in the 17th Century. Calvert and his descendants encouraged their settlers to clear and cultivate their land. The Calvert family also introduced principles of freedom and tolerance, hitherto

unknown in the New World. These Calvert ideals were perpetuated down through the succeeding generations of the Calvert family. The family is the corner-stone upon which great nations are built. Let each of us promote within the great Canadian family, the same concepts of freedom and tolerance pioneered by the Calvert family over three hundred years ago.

The Experts Say...

By Kay Rex
 Canadian Press Staff Writer

SCHOOL DAYS AGAIN—Probably most of the kids in the country right now are grousing over their lessons. They don't realize that mother has her "homework" too. Daily preparation of school lunches is no picnic for the mother of one or more children. She must provide variety to stimulate young appetites, and at the same time choose dishes that have the highest nutritive value and stay within the limits of her food budget.

A good lunch has at least one food from the following groups: Milk—to drink, or a milk dish; Meat—fish, poultry, eggs, cheese, dried peas and beans, peanut butter or nuts; Whole Wheat—or Canada Approved bread, bran muffins or oatmeal products; Fruit—or vegetable, raw or cooked.

Use a well-ventilated metal lunch box which should be thoroughly scalded each day. Such foods as milk puddings or salads should be put in tightly covered containers.

While sandwiches are the established form for school lunches, health experts suggest including a "hot dish" to give the child added nourishment. The food may be placed in a glass jar labelled with his name. At school it can be easily heated in a hot water bath.

Suggested "hot dish" lunches: creamed beef, along with raw carrot, brown bread, cookies and milk; vegetable scallop, along with cheese sandwiches, orange, cookies and milk; potato scallop with sausage or bacon, and brown bread, apple and milk; baked beans, brown bread, orange and milk; cream of vegetable soup, meat sandwiches, cookies and tomato juice.

COOKIES—As cookies are the most popular form of "sweets" in the lunch, mother had better have some new recipes on hand. Try this one for butter-scotch slices:

Ingredients: One-third cup chicken fat; one-half cup of brown sugar; one egg; one-quarter teaspoon vanilla; 1½ cups pastry flour (or 1½ all-purpose flour); 1½ teaspoons baking powder; one-half teaspoon salt.

Cream fat and sugar, then add vanilla and egg. Beat well. Mix in flour sifted with baking powder and salt. Shape in roll about two inches in diameter and wrap in wax paper. Chill thoroughly. Cut in one-eighth inch slices. Place cookies on a lightly-greased baking sheet and bake at 375 degrees Fahrenheit for eight to 10 minutes. Makes nearly four dozen cookies.

Mrs. Joseph Slaggard called on the Princess Adelaide last night for Vancouver where she will be the guest of her brother-in-law and sister, Mr. and Mrs. T. Morgan.

Seasonable Ideas for Housekeepers

MELONS AND GRAPES HELPFUL IN PLANNING ATTRACTIVE MEALS

During the summer and early fall months, the Canadian housewife has a rich and abundant supply of healthful and colorful fruits and vegetables from which to choose in planning attractive meals for her family. It is the wise homemaker who takes advantage of this fact and uses Canadian-grown products when they are in season and least expensive.

One of Canada's most plentiful crops comes from her bountiful vineyards which overflow with luscious purple, red and green grapes at this season of

the year. The early settlers of this continent found wild grapes flourishing in such abundance along the New England coast that a section of it was given the name "Vineland."

Another welcome addition to the early fall menu is the delicious golden melon with its sweet luscious flavor. The melon belongs to a very large family and its various members are found in all parts of the world. Melons were a food of the ancients and references to it are found in records of the Persian courts. It is believed that the chief varieties of melons used today are of Persian origin.

Most homemakers use large quantities of both of these fruits and everyone knows how attractive a bowl of grapes may be if placed in the centre of the table where each member of the family can help himself. Grapes are always acceptable at the picnic supper and are proven favourites with those who like to have their supper out-of-doors. Chilled melon is delicious either in a salad or dessert and is particularly so when topped with ice cream.

Home economists use both grapes and melons to advantage in these delightful recipes which they hope you will enjoy.

Timely Recipe

CHEESED RICE
 One cup of raw rice; two cups of white sauce; one cup grated cheese.

To Cook Rice—Put one cup rice, one teaspoon salt and two cups cold water in a two-quart saucepan and cover with a tight fitting lid. Set over a hot flame until it boils vigorously. Then reduce the heat as low as possible and simmer for 14 minutes more, during which time the water will be absorbed, making the rice deliciously tender. Remove the lid, permit the rice to steam dry to the desired consistency and the grains will separate and fluffy. Never stir rice, but lift rice gently with a fork when testing its consistency.

To Make White Sauce—While the rice is cooking melt four tablespoons of butter or margarine in the top of a double boiler or in a heavy saucepan. Blend in four tablespoons flour until a smooth paste. Gradually add two cups of milk and cook and stir until the sauce is smooth and has thickened. Season to taste with salt and pepper.

To Assemble—Put a layer of cooked rice in a greased baking dish, using about half of it. Cover with half the white sauce and sprinkle on half the grated cheese. Then add another layer of rice, another of white sauce and end up on grated cheese.

Place in a 375 degree oven and bake until the dish is bubbly hot and has browned slightly over the top.

Serve with stewed tomatoes or a tomato sauce—or just as it is as a main dish or vegetable.

MELON ICE

1 cantaloupe
 1½ cups water
 ¾ cup sugar
 ¼ cup lemon juice

Remove rind and seeds from cantaloupe and force pulp through a colander. Make a syrup of the water and sugar and simmer 5 minutes. Cool. Add the cantaloupe pulp and juice and the lemon juice. Freeze in an automatic refrigerator tray stirring occasionally. Yield: six servings.

GRAPE SOUFFLE

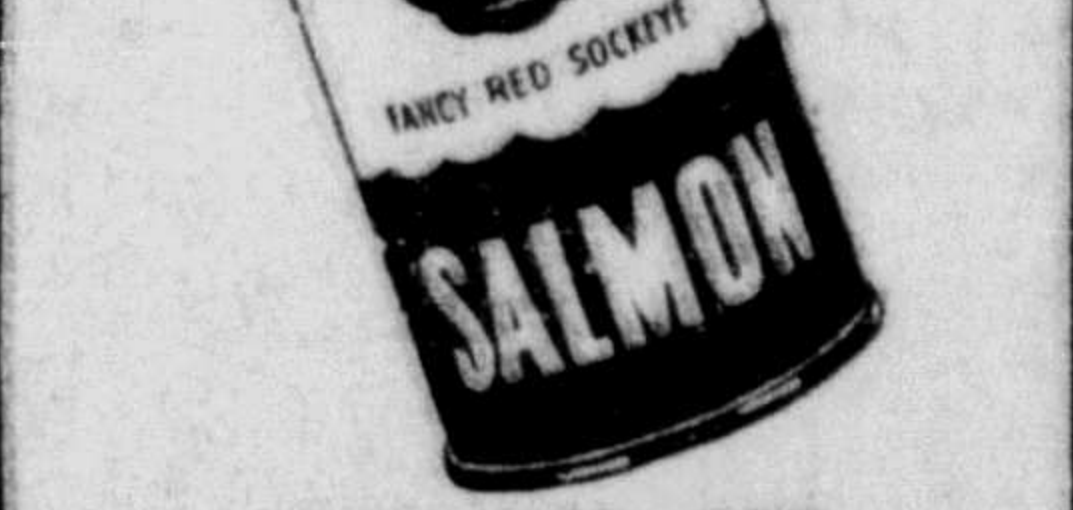

3 cups blue grapes, stemmed and washed
 ½ cup sugar
 ¼ teaspoon salt
 2 tablespoons cornstarch
 3 egg whites

Crush grapes in saucepan with fork. Simmer for about 15 minutes or until soft. Press through sieve. Mix sugar, salt and cornstarch. Add to sieved grapes

BLACKHEADS

Simply dissolve and disappear by this one simple, safe and sure method. Get two ounces of peroxide powder from any drug store, sprinkle on a hot, wet cloth, and apply gently—every blackhead will be gone.

MINSTREL SHOW PLANNED AGAIN
 Local male voices are organizing with a view to staging this fall another minstrel show. Such as was presented a few months ago with good success, and a concert next spring. With Fire Chief H. T. Lock presiding, there was an organizational meeting last Friday evening and this Friday the first rehearsal will be held. There was a turnout of thirteen at Friday's meeting and others have expressed interest. C. P. Balagno will again act as conductor.

CITY PARCEL APPRECIATED

Council Hears from British Women Who Received Food

Mrs. R. Hall of Dorset, England, who describes herself as a "British working woman," has received two of the food parcels sent for the people of Prince Rupert to the people of the United Kingdom at the time of Princess Elizabeth's wedding.

A letter from Mrs. Hall was read at the meeting of the city council last night. Mrs. Hall told in her letter of receiving a pleasant surprise upon arrival

of tinned food from Canada. Her first parcel was delivered in July and the second in August both of which she was very happy to receive and expressed her thanks to the senders.

Mr. and Mrs. F. H. Brooksbank of Port Alberni arrived by car yesterday and will spend several days visiting at the home of Mr. Brooksbank's parents, Mr. and Mrs. Arthur Brooksbank. Mr. Brooksbank is skipper of the Provincial Police patrol boat stationed at Port Alberni.

Mrs. Paul Postulo and Mrs. E. Canal sailed on the Princess Adelaide last night for Vancouver.

Word On Rupert Overhaul Waited

Prince Rupert Chamber of Commerce is awaiting reply from Bernard Allen, manager of Canadian National Railways for British Columbia district, to representations recently made with a view to having the railway company's local yard used in the carrying out of a major overhaul job on the steamer Prince Rupert. The matter had been also taken up with R. C. Vaughan, president of the railway, who said in a letter to the Chamber last night that it was being given consideration, suggesting, locally, that the subject be pursued with Mr. Allen.

SHIPS AND WATERFRONT

One of the largest single consignments of canned salmon ever delivered here from Alaska was the 46,000 cases which the Alaska Transportation Co.'s Clove Hitch delivered between Sunday and Monday afternoons. The value of this single cargo is estimated at upwards of a million and a quarter dollars. The Clove Hitch, after discharging, headed back to the Ketchikan district to bring in another load to Prince Rupert.

Northland Transportation Co.'s Liberty ship Chief Washakie is now loading at Sunny Point and will take a large consignment of canned salmon from that area to Prince Rupert.

The Denali, operated by Alaska Steamship Company, has already been here with 30,000 cases.

The Sword Knot, owned and operated by Alaska Transportation Company, is also scheduled to make the Prince Rupert run.

In addition to these larger vessels, the packers Dagny and Sidney, which have been hauling frozen fish and canned salmon to Prince Rupert throughout the summer, will continue their packing operations.

The motorship Southeastern, which Philip G. Briggs introduced into a special service last

year between Southeastern Alaska and Prince Rupert, the undertaking being later suspended owing to a variety of obstacles, is back on the run into Prince Rupert, pressed into service with many other vessels to rush Alaskan canned salmon here instead of strike-tied Seattle for transshipment East. The Southeastern, now operating on a special charter, arrived here at 5:30 Saturday night and, after discharging two carloads of frozen fish and 6,000 cases of canned salmon, sailed Sunday on her return north.

C. P. R. steamer Princess Adelaide, Capt. Fred McGraw, arrived in port at 8:30 last evening, sailing at midnight on her return south after discharging local cargo.

A number of boats are still after tuna and at latest reports they were concentrated 15 to 18 miles off Tasoo Inlet which is about half way between Skidegate Inlet and Cape St. James on the west coast of Moresby Island. On Thursday the high boat had 130 fish. Friday top boat was 170 and Saturday the largest catch was 180 with low boat catching 40. By Sunday morning average for the fleet was 40 tuna per boat.

YOU CAN'T BUY A BETTER MOTOR OIL

M. S. Beringer
Vice-President, in charge of manufacturing,
The British American Oil Company Limited

M. S. Beringer, vice-president in charge of manufacturing, is a man who has spent the better part of his life supervising the manufacture of petroleum products. Years spent in Rumania, in most of the United States and in Canada, provide him with a background which is unexcelled in the oil industry in this country.

Mr. Beringer says: "Science knows of no process that can produce a lubricating motor oil of finer quality than Peerless. No matter how much money you spend, it's impossible to buy a finer motor oil."

PEERLESS MOTOR OIL IS BETTER - "it's Alloyed"

QUALITY
PEERLESS QUALITY rates above all others because it is refined from better crudes... with the latest scientific knowledge known to the oil industry... and because PEERLESS, and only PEERLESS, IS ALLOYED.

To improve PEERLESS MOTOR OIL and give it the stamina to stand up longer under a wider range of temperatures, an "alloy" is added which forms a protective film around each molecule thus eliminating breakdowns. "It's alloyed"

PERFORMANCE
PEERLESS PERFORMANCE improves engine performance. No matter how high the temperature PEERLESS won't "thin out"... will provide maximum compression seal at all times... resulting in greater power and greatly improved oil mileage.

ECONOMY
PEERLESS ECONOMY starts with better lubrication... follows through by keeping motor costs down and giving your motor longer and longer life. PEERLESS is the all-season, all-temperature, expense reducer because it reduces the cause of many motor failures.

AIR PASSENGERS
To Vancouver—L. M. Rice, H. Suiker, D. Larssen, A. Rands, Mr. Cotton, A. H. Cross, H. McDonald, E. H. Parr, O. Moscrip, W. Holyk, W. Erickson, J. Maurice. To Sandspit—Mr. and Mrs. MacDonald, Mrs. Alexander, C. Duval.

From Vancouver—G. Martin, C. Lowe, A. R. Govett.

From Sandspit—Mrs. W. T. Redway, G. Campbell, F. Gale, Mrs. Gagnon, Mrs. Callow.

You saw it in the Daily News!

ROYAL ROMANCE?—Romance between Princess Margaret Rose, youngest daughter of King George and Queen Elizabeth, and the youthful Marquess of Blandford has been hinted by "reliable sources." Princess Margaret Rose, who is 18 years old, and the marquess are pictured in the royal box at Ascot during a recent race meeting. A proposal of marriage was said to be one of the pretty princess's birthday gifts—with official acceptance and announcement being withheld until the King and Queen return from their projected visit to Australia and New Zealand this winter.

John. KePrighan has purchased the residence of W. H. Priest on Fifth Avenue E. near Seal Cove. Mrs. Priest and son sailed this afternoon on the Camosun for Vancouver to join Mr. Priest who was formerly with the Daily News typographical staff, and is now with a Vancouver custom printing concern. They will make their future home in Burnaby.

Mr. and Mrs. G. C. Sessions will take up residence in the house on Pacific Place vacated by Mr. and Mrs. W. L. Armstrong who have moved to Edmonton. Mrs. Armstrong and daughter, Mary, left last week for the Alberta capital to take up residence.

Weak, Tired, Nervous, Peppless Men, Women

Get New Vim, Vigor, Vitality

Say goodbye to these weak, always tired feelings; depression and nervousness due to weak thin blood. Get up feeling fresh, be peppy all day, have plenty of vitality left over by evening. Take Oxtrex. Contains iron, vitamin B1, calcium, phosphorus for blood building, body strengthening, stimulation. Invigorates system, improves appetite, digestive powers. Costs little. New "get acquainted" size only 50c. Try Oxtrex Tonic Tablets for new, normal pep, vim, vigor, this very day. At all druggists.
