End Gale Claims American Boat Near Here; Rescue Five Men

Nearby American seamen were brought to shore Saturday night after spending twelve hours in a storm-lashed beach 25 miles southward from a 93-foot ship foundered after losing its way in a 55 mile-an-hour gale. The quintette, members of the Ketchikan boat Discoverer, happened then I felt the ship start to bump on the rocks and I knew we were in for trouble," he recalled.

The Discoverer went aground at the south end of Lewis Island about two miles from Herbert Reef, where an American Army tug struck a week ago. She struck on boulders at half-tide, battered by a heavy surf which stove in her bottom and did severe damage to her hull.

Between the ship and the shoreline was 100 yards of white, boiling surf breaking over boulders and the men stayed aboard the tortured ship until 7 a.m., unable to get ashore. As the tide rose, the vessel was battered inshore until they were able to lay a plank onto the rocks.

First ashore was George Butterfield, who made solid ground at 7 o'clock. The others followed him at intervals.

"That was certainly six hours of hell," said Gilpin S. Sessions, who had been seasick on the trip. He made a grimace every time he thought of the ordeal.

DESPAIRED OF LIVES

When the ship struck, the men tried to make shore in a life-boat but it was swamped and blown away almost immediately. They were forced to remain on the Discoverer, in fear for their lives until it settled precarious.

INJURED MINER BROUGHT HERE

An injured Alice Arm miner was flown to Prince Rupert for hospital treatment Sunday by a C.P.S.S. plane.

The man up all the northern mining town after a flight from Sandspit. Brought here for treatment for burns to his face and hands was C. E. Mousseau, who received his injuries when a can of calcium carbide ignited in the Torbrit mine several hours earlier.

Apparently, Mousseau was opening the can and had his miner's lamp nearby. The chloride was damp and gave off acetylene gas which burst into flame, burning him. Mousseau was taken to hospital from the Seal Cove air base in the city ambulance.

Princess Adelaide Makes Final Voyage

Elderly princess, whose career has paralleled that of coastal British Columbia for the better part of a century, made her final visit to Prince Rupert last night, then headed southward for retirement without fanfare and with only a minimum of publicity.

The Canadian Pacific Princess Adelaide, making her trip in 38 years of service, will terminate a voyage between Vancouver and Prince Rupert in which she has sailed for the last 15 years.

The final cargo is unloading on Thursday at Victoria harbor to join her sister ship, the Princess Alice to her final home.

She will become the twin of the company officials hope that it is likely to be scrapped.

During her long career, she has travelled better than 2,000,000 miles and has carried practically every senior employee of the company's coast service. On her final trip she was under command of John Campbell, youngest of the C.P.S.S. coast skippers.

To her 70 crew members, retirement of the Princess Adelaide is an occasion colored with sadness, like the departure of a familiar old friend. Her First Mate, Edward Woodman put the

TERRACE MAN DENIES CHARGE OF STEALING

A purse lost in a downtown cafe Saturday night and repercussions in city police court today when a man who allegedly found it was charged with theft of the \$107 it contained.

Charged with theft was Charles Browning, Terrace logger, who pleaded not guilty and was remanded for hearing for eight days or earlier. The police charged that Browning found the purse, which belonged to Lief Sandhals who had dropped it in the cafe, and spent \$67 before being apprehended.

T. W. Brown appeared as counsel for Browning.

David Cecil, a naive youth, entered a plea of not guilty in police court today to a charge of creating a public mischief. The complaint alleges that Cecil made calls to the city police office from Coy Bay, pretending that there was trouble in the area. His case also was adjourned.

Western Powers Asking U. N. to Call Upon Russia to Withdraw Blockade of Berlin

Red Purge Sustained

C.C.L. Convention Backs Up Executive on Miners' Suspension

TORONTO, CP—The Canadian Congress of Labor voted yesterday, at its annual convention here, to sustain its executive council's action in suspending the International Union of Mine, Mill and Smelter Workers. President A. R. Mosher urged all subsidiary unions to rid themselves of Communist leaders whose first allegiance was to Soviet Russia rather than to the workers.

ERECT CAIRN—Known far and wide as "Cap'n Bob," Robert Abram Bartlett, Newfoundland-born seafarer who gained fame as an explorer and navigator in Arctic waters, died in 1946. Recently, the residents of his native town of Brigus on Conception Bay, Newfoundland, erected a cairn in his memory. It was from Conception Bay that "Cap'n Bob" sailed on most of his expeditions into the north for the U.S. government. Shown unveiling the cairn is James Dooling, one of the crew who sailed under Bartlett. Capt. Bartlett visited Prince Rupert years ago with his schooner Effie Morrissey while on a scientific expedition trip to the Aleutian Islands and Bering Sea.

Canada's Envoy Speaks Out Bluntly About Soviet's Attitude and Actions

PARIS (CP)—Great Britain, France and the United States have prepared a resolution for submission to the Security Council of the United Nations seeking lifting of the blockade of Berlin by Soviet Russia. These nations have already declined to engage in further direct negotiations with the Soviet on points of difference in Berlin and occupied Germany until the blockade has been lifted.

Meantime it was announced from Moscow today that Russia would not lift the blockade until Western Powers withdraw their currency from Berlin. Thus the deadlock continues and the difficulty of the crisis for the United Nations deepens.

Great Britain, France and the United States would prefer to have one of the neutral powers call for a lifting of the blockade but are prepared to take the initiative themselves if necessary.

The joining of Great Britain, France and United States today in the move to speed up security council action in the crisis coincided with the return to Paris of Secretary of State George Marshall from his talks at Washington with President Truman. The three big western powers, apparently, have departed of success for mediation efforts by the so-called Little Six of the Security Council by drafting their resolution for firm action to lift the blockade.

Illness Hits Premier King

Canadian Prime Minister Unable to Go On With Conferences

LONDON—Condition of Prime Minister William Lyon Mackenzie King of Canada, suffering from a blood condition aggravated by an attack of influenza which he contracted while on his way across the ocean, is causing concern and he has been ordered to take a complete rest. He will be unable to take part in the British Commonwealth Conference of Prime Ministers or to return to Paris for further meetings of the United Nations. Lord Moran, president of the Royal College of Surgeons and physician to Former Prime Minister Winston Churchill, is attending Mr. King who is confined to bed in his hotel in Park Lane and must stay there for several days.

WORLD SERIES—CLEVELAND INDIANS TAKE WORLD SERIES WITH 4-3 WIN OVER GAME BRAVES

Boston Makes Valiant Stand Until Very Last When Double Play Nips Them Off

Composite Summary for Series:

	H	E	W	L
Cleveland	38	3	4	2
Boston	43	6	2	4

BOSTON—Cleveland Indians are the world baseball champions for the 1948 season as a result of a 4 to 3 victory over the Boston Braves yesterday. It was the sixth game of the series and the game margin was four for Cleveland and two for Boston. Bob Lemon, although taken out of the box in the eighth after a Braves' uprising had yielded two runs to bring them within one run of a tie, was given the credit as winning pitcher. Gene Bearden saved the day. Bill Voiselle was the losing pitcher, being relieved in the eighth by Warren Spahn who gave another sparkling display of relief pitching, especially in the strike-out line, fanning three straight in the ninth inning.

It was the second time in twenty-eight years that the Indians had won a World Series. Their last victory was back in 1920 when they defeated the Brooklyn Dodgers.

There was a capacity attendance of 40,103 for Braves Field.

The day was dark and gloomy in keeping with the spirits of the luckless Braves who made a game and valiant effort to extend the series to the limit and win the championship against the odds which always stood against them.

Smart fielding again saved the day for the Indians who came through with four double plays, all at crucial moments in-

Union Has Red Issue

Knockout Battle at Trades and Labor Congress Convention

VICTORIA — Knockout battle over communism in the Trades and Labor Congress of Canada is proceeding today after having been stalled off temporarily yesterday after the T.L.C. convention indicated it would support its executive in an internal wrangle over Red influence.

With a roaring 6 to 1 vote the convention yesterday backed up President Percy Bengough in a preliminary skirmish over the question of reinstating a union which the executive had thrown out for defying Congress policy in an anti-communist manoeuvre.

First convention test on the

Bulletins

STRIKE AT SANDSPIT

One hundred and twenty loggers are on strike at the Northern Pulpwoods logging camp at Sandspit, Queen Charlotte Islands. The strike is against a \$2.50 per day charge by the company for board and lodgings. Recently a 13c increase in wages was granted. The strike is reported to have been called last Wednesday by the new British Columbia union breaking away from the I.W.A. A number of married men with families living at Sandspit are involved in the strike.

HUNTING TRAGEDY VICTIM

VICTORIA—Major James Campbell MacDonald, a member of the British Columbia Public Utilities Commission, is dead as a result of a shooting accident near The Pas, Manitoba, while hunting with two brothers. He came to his death from the discharge of a shotgun.

CONFERENCE REARRANGED

LONDON—Illness of Canada's Prime Minister, Rt. Hon. W. L. Mackenzie King, has resulted in rearranging of the British Commonwealth Prime Minister's conference to which Acting Prime Minister Louis St. Laurent will come from Canada tomorrow. The Canadian Prime Minister was ordered to bed Sunday suffering from a circulatory condition aggravated by a bout with influenza last month. Mr. King was reported to be resting quite comfortably today.

OAKLAND WINNER

OAKLAND—Casey Stengel's nine old men, champions of the Pacific Coast League, defeated Seattle twice on Sunday to give Oakland the Governor's Cup play-off and a \$30,000 pot. Oakland had won the opener 11 to 1 and the second game 4 to 1. The twin victory, which was featured by excellent pitching by Lou Tost in the opener and veteran Jack Saiveson in the finale, gave Oakland the series four games to one.

ADANACS WIN OPENER

TORONTO—A fighting last period rally gave the New Westminster Adanacs the first game in their battle to retain the Mann Cup and the Canadian senior lacrosse championship. The Adanacs came roaring from behind last night to beat the Hamilton Tigers 11 to 6 in the opener of the best of five series after trailing the champions through two periods.

Montreal Wins Little Series

MONTREAL—Montreal Royals won the Little World Series here yesterday with a 7 to 2 victory over St. Paul Saints. St. Paul had taken the first game, the Royals then making it four straight to take the series. Royals were the International League pennant winners while St. Paul took the American Association flag.

Canadian Navy Off to Hawaii

ESQUIMALT—Five units of the Royal Canadian Navy here left yesterday for a training cruise to Pearl Harbor. They will be away until early in November. The ships are the cruiser H.M.C.S. Ontario, destroyers Cayuga, Athabaskan and Crescent and frigate Antigonish.

Continuing Fight

TO DEVELOP Prince Rupert as a world shipping port must, it seems, be a long and continuing fight. First one obstacle and then another crops up. With Pacific Coast grain shipping receiving a filip this season, we had thought there might be a reasonable chance for Prince Rupert to share in an increased movement to the United Kingdom and the delivery of new orders to India and South Africa.

As for the possibility of shipping through here to India and South Africa, we are told that high ocean freight rates from this port as compared with Vancouver ruled out Prince Rupert.

In regard to the United Kingdom shipments, the reason suggested is that there are no part cargoes of timber organized for shipment from here.

These are matters upon which further work evidently must be done, even though there might have been considerable time and effort already expended thereon. As to the ocean freight rates, there is one matter of the international load line which appears to be reaching a point where discrimination against Prince Rupert may soon be removed under international convention. Other things such as aids to navigation adjacent to this port of Prince Rupert also affect freight rates.

At the recent convention of the Associated Boards of Trade of Central British Columbia at Juneau attention was focussed upon the urgent necessity of developing export lumber shipments through the port of Prince Rupert if the lumber manufacturing industry of the central interior is to be saved from high railway freight rates. The Associated Boards also initiated agitation toward having this port equipped so as to be able to handle lumber shipments and supply vessels with coal. These will be important steps toward the general end of equipping Prince Rupert to handle mixed cargoes including wheat, lumber and canned salmon. Efforts must also be continued to interest shipping companies in coming to this port.

Meanwhile, a letter from W. G. McNamara, assistant chief commissioner of the Canadian Wheat Board, to the Prince Rupert Chamber of Commerce indicates that the policy in regard to grain deliveries to Prince Rupert is largely that this port will only be used when the problem of additional space for the storage of wheat is faced. We have long complained that Prince Rupert should only be used as an overflow port after such ports as Vancouver cannot handle what is offered or only for storage purposes when there is a glut in other elevators on the coast. Although we should be appreciative that the Wheat Board did consider the possibility of making some of these latest shipments to India and South Africa through Prince Rupert, we cannot but feel that its general policy is not one of developing Prince Rupert as a primary port for the handling of wheat but only of making it secondary to Vancouver and New Westminster.

As we have already suggested, of course, there are also efforts that we must be making ourselves. The powers-that-be will not be helping those who do not help themselves.

THE LARGER WISDOM

THERE HAS NEVER been any danger in free speech. The danger has always lain in the uninformed, unquestioning, intellectually lazy, irresponsible listener.

It is that belief that makes it difficult to sympathize with the refusal of United States authorities to grant a visa to the "Red" Dean of Canterbury to travel and lecture in the United States. Dr. Johnson's views on communism are well known.

Dr. Johnson has as much right to hold his views, as other have to believe the opposite. We will not limit the spread of communism by keeping the "Red" Dean from speaking. Before he speaks his opinions have been fully presented and widely distributed. You can make him speak from other pulpits, but you cannot close the ears of the world to what he says.

As beauty is in the eye of the beholder, so truth is in the ears of the hearer. The obligation is not to restrain. The obligation is to listen and question and assess and prove. If Russia is working "towards a happier world," we should know it. What is the evidence? Is it the Iron Curtain containing men's minds as well as their bodies? Is it the ruthless exploiting of innocent people? Is it the denial of all religion and science and art and literature that do not follow the Lenin-Stalin line? Is it the concentration camps where men are still dying in their tens of thousands? Is it the crafty manoeuvring of the Battle of Berlin? Let Dr. Johnson make his case. If it will stand, then let it stand. No man or nation is stronger than the truth.

Somehow, thinking of this official action refusing even to hear a case we turn to the larger wisdom of a North Carolina judge. In the face of widespread prejudice he sentenced the miscreants who had bombarded Henry Wallace with rotten eggs to write five hundred times the sentence attributed to Voltaire:

"I wholly disagree with what you say, but I will defend with my life your right to say it."

No Grain For Prince Rupert

Differential in Ocean Freight Rate Given as Reason for Ruling Out Shipments

Canadian Wheat Board has been giving consideration to the possibility of routing wheat to Prince Rupert elevator this crop year but has now advised the Prince Rupert Chamber of Commerce that it does not seem as if circumstances will permit this being done, says a communication received by Earl Gordon, chairman of the grain committee of the Chamber of Commerce, from W. G. McNamara of Winnipeg, assistant chief commissioner of the Grain Board.

At the time contracts were being completed with the government of India and the wheat board of South Africa for the shipment of approximately fifteen million bushels of wheat from Pacific Coast ports, consideration was given to Prince Rupert as a shipping point but, on account of additional ocean freight involved, the buyers were not prepared to take delivery at this port, Mr. McNamara explains.

"While it is difficult to secure firm rates," says Mr. McNamara, "our investigation into the situation indicated that the additional freight for the shipment of wheat from Prince Rupert to India would be in the

neighborhood of \$1 per ton and Prince Rupert to Africa approximately \$1.50 per ton over the Vancouver rate."

It is also stated by Mr. McNamara, referring to shipments of wheat to the United Kingdom, that the bulk of such shipments from this coast are made in Timber Control vessels which also take timber cargo at the ports of Vancouver and New Westminster.

"Although the western Canadian wheat crop is considerably larger this year than last, the demand for wheat is very urgent and it does not appear that the supplies available will be in excess of the quantity that can be sold and shipped as transportation permits delivery to seaboard," continues Mr. McNamara's letter. "We are, therefore, not faced with the problem of additional space for the storage of wheat."

"We appreciate the desire of the Prince Rupert Chamber of Commerce for the elevator facilities of the port to be used but trust you will appreciate the difficulties surrounding the use of the port under present circumstances."

Mr. and Mrs. Kenneth Grant returned to the city Monday evening from Vancouver where they spent the last two weeks holidaying.

LETTERBOX

LIQUOR AND CHILDREN

Editor, Daily News:
As a mother of a teen-age family, I am writing to protest against all those parents and so-called "guardians" who allow their sons and daughters to go to parties in homes where there is no supervision—and then are either out themselves or asleep when their children return.

Do they know (or don't they care) what goes on at some of these parties?

Do they think it right to allow boys and girls from 14 to 18 to be alone in a house with all the beer and whiskey that they can drink?

It is a sin and a disgrace to our city that such things can happen.

Where do these youngsters get the drink? Who sells or gives it to them?

I know of two young people who were invited to a birthday party which turned out to be a drinking party of the most shameless kind. Although thoroughly disgusted they seemed so under the influence of the "crowd" that they would not give the names of those who supplied the drinks or who drank.

Someone is to blame and it is not only the poor boys and girls who are going to suffer—our whole nation will be affected

FUNERAL OF MRS. MARY MORRISON

Rev. George E. Sendall of First Presbyterian Church officiated Friday afternoon at the funeral of Mrs. Mary Morrison, wife of John Morrison, whose death had occurred earlier in the week at the Prince Rupert General Hospital. Mrs. E. J. Smith presided at the organ to the hymns. Mrs. Morrison was a hairdresser and made her home at the York Hotel.

James A. Ham returned to the city Saturday afternoon on the Catala from Klemtu where he spent the summer as office manager of the J. H. Todd and Son cannery.

Can we expect heads of families and honorable citizens to be produced by such wild night life?

I don't know what can be done about it but surely there is some way of preventing the sale of liquor to children.

MRS. K. LAIRD.

A CLASSIFIED AD IN THE DAILY NEWS WILL BR

HERE'S WHERE WE STAND ON NEW-CAR SELLING

General Motors Dealers' "Foursquare Selling Policy" assures you a Fair Deal when you buy a new car

Let's bring this subject right out in the open. Many conditions still exist which encourage the "gray marketing" of automobiles. You don't like this — and neither do we. There's no law against "under the counter" deals — demanding a bonus for early delivery. There's no law against loading cars with accessories the customer doesn't want or need. There's no law against selling to buyers who make it their business to resell new cars at inflated prices.

But we don't do it because it's not good business. All dealers buy cars at clearly established factory prices which with the exception of transportation, are the same, model for model, all over the country. All start on a fair and equal basis — and should therefore sell at these fair and reasonable delivered prices. So we're making public announcement of our code of fair dealing. Our foursquare selling policy, simply stated, is this:

1 NO PADDING OF PRICES
We guarantee our delivered prices to conform with the manufacturer's recommendation and to contain nothing but standard charges which, of course, include Sales and Excise Taxes. You receive an itemized bill of sale. All prices are an "Open Book" — they are available to you and we sell at these listed figures.

3 TRADE-INS DESIRED — BUT NOT COMPULSORY
We will take your order for future delivery, without requiring a trade-in. However, we have many valued used-car customers who also depend upon us to supply them with automobiles. For this reason we would like to have your trade-in, and we'll give you a fair and reasonable allowance for it.

2 NO LOADING OF UNWANTED ACCESSORIES
All cars are offered with factory-installed accessories only and prices are figured to cover these. We pledge ourselves to add no "extras" except those each customer orders — and to avoid using "extras" to increase the delivered price.

4 NO COLLUSION
While we cannot prevent our customers from reselling new cars, we will not knowingly be a party to such transactions. Our only interest is to deliver new cars to bona fide customers.

We wish to express our sincere appreciation to our loyal customers and friends for their patience in awaiting their turn for delivery of new General Motors cars. Although the popularity of General Motors cars is unprecedented, and the supply is lagging far behind the demand, we are doing our utmost to be fair and equitable in their distribution.

We present this platform because we believe it's good business to keep our customers informed. It's a platform that gives you a fair deal when you buy a new car — exactly the same kind of a deal and treatment you got before the war. If you wish additional information, it will gladly be supplied by any dealer whose name is signed to this announcement.

LOCAL DELIVERED PRICES of Canadian produced General Motors Cars include Standard Factory Equipment, five new type low-pressure Tires and Dominion Sales and Excise Taxes, not including License Fee or Provincial and Municipal Taxes where these apply.

Prince Rupert Gyro Club will be in regular monthly business session at tomorrow's weekly luncheon. The executive met today.

Re-opening of the Mavis Colclough Studio of Dancing. Students will be enrolled Saturday, October 9, 1:30 to 5:30 p.m. 1161 Ambrose Ave. Res. Blue 480. Business Blue 322. (327)

Mr. and Mrs. R. G. Hoyt and son and daughter sailed Sunday night by the Camosun on their return to their home at Laguna Beach, California, after a visit here with Mrs. Hoyt's mother, Mrs. P. I. Palmer, Fourth Avenue East.

ATTENTION ALL LEGION MEMBERS. REGULAR MONTHLY MEETING, (with initiation of new members) Canadian Legion Hall, Wed. Oct. 13, 8 p.m. Important matters to be discussed. (241)

Frank Skinner, general agent for Union Steamships Ltd. here, returned to the city on the Cardena Sunday night after spending Saturday afternoon on Saturday afternoon. Leslie Smith, who relieved here during Mr. Skinner's absence, returned south on the Cardena this afternoon and will now take over duty as purser of the steamer Chelohsin.

N. B. Walton, executive vice-president of Canadian National Railways from Montreal, arriving in the city on the Prince George tomorrow morning from Vancouver in the course of a western inspection tour, will be paying only a brief visit here. Within an hour or so after arrival he will proceed to the interior by freight train to make a personal inspection of damage which was done by spring floods.

Moose Whist and Dance Is Enjoyed

The weekly whist party and dance of the Loyal Order of Moose in the Temple Saturday night was the usual success, being enjoyed by a large crowd. Winners at whist were Mrs. J. McDougall and Mrs. E. Hildebrand for the ladies and M. A. Blair and H. Woodside for the men. Dancing to music provided by the Moose Orchestra brought the evening to a close. During the intermission delicious refreshments were served and the prizes were distributed to the winners at cards.

Glen Lee, former agent here for Canadian Pacific Air Lines and more recently in the service of Northern Pulpwood Co. at Sandspit, arrived in the city on Saturday's plane from the Queen Charlotte Islands.

Mr. and Mrs. Richard Mills returned to the city Saturday afternoon on the Catala from Klemtu, where Mr. Mills is storekeeper at the J. H. Todd cannery. Mr. Mills returned to Klemtu on the Cardena today.

Remember time and place. Thursday and Friday, October 14 and 15, Moose Temple for Moose Bazaar. Bazaar Thursday at 2 p.m. and on into evening and Friday afternoon. Home Cooking, Needlecraft and White Elephant booths, afternoon tea games and entertainment. Dance to music by Four Dukes from 10 to 1 o'clock a.m. Friday night at the Civic Centre where drawing of prizes will take place. (242)

WORLD'S LONGEST PIPE
 The China-Burma-India pipe line, longest in the world, is about a fourth longer than the famous "Big Inch" pipe line in the United States.

ISLAND COUPLE MARRIED HERE

Miss Winnifred Young of Skidegate becomes Bride of Coleman Casey of Queen Charlotte City

Miss Winnifred Emily Young of Skidegate and Coleman Allen Casey of Queen Charlotte City were united in marriage by Rev. R. A. Wilson at a quiet ceremony at 5:30 Friday evening in First United Church.

The bride, who wore a smart grey gabardine suit, was attended by Mrs. C. Wilson. Both bride and matron of honor carried bouquets of pink and white carnations. The groomsmen were C. Wilson of Skidegate.

Mr. and Mrs. Casey left on Friday evening's train for a honeymoon trip to Vancouver. A wedding supper preceded their departure.

Mr. and Mrs. Gus Mostad and Mr. and Mrs. T. Malm are sailing by the Cardena this afternoon for a trip to Vancouver.

Timely Topics from Terrace

Mrs. C. R. De Kergommeaux, Terrace Reporter

C. J. Norrington motored to Terrace on Sunday, returning the same day accompanied by Mr. and Mrs. G. E. Moore who were the Norringtons' guests for the week-end.

At a meeting of the executive of the Civic Centre Association on Thursday night, of the two applicants for the canteen concession, A. Frederickson's offer was accepted.

Mr. and Mrs. Robert Cooper were visitors to Prince Rupert last week.

Mrs. J. Haaland and son Aaron spent the week-end in Prince Rupert.

Collections for the Foreign Bible Society, undertaken by the ladies of Terrace churches, has been met with a fairly generous response by local residents.

Mr. and Mrs. Norman McNab were passengers on Saturday's train to spend the week-end in Prince Rupert.

A High School bowling team has been chosen to play in the Community League. On it are Jim Proctor, Norma Perry, Pat Tumilsno, Gunnar Paulson, Francis Gavan, Denis de Kergommeaux.

The people of Terrace have given very generously of their fruit and vegetables to the local hospital.

Mr. and Mrs. W. H. Spencer made a business trip to Prince Rupert last week.

Ann Mollor, Grace and Mary Little left on Tuesday's train for a few days in Prince Rupert, returning on Friday night's train.

H. Philip is expected back this week from Vancouver where he went by plane to spend Thanksgiving with his father.

The regular dinner meeting of the Kinsmen Club was held on Thursday evening in a local cafe. Vice-President D. G. Little was installed by Past President J. McLeod. Will Robinson, guest speaker of the evening, gave a very interesting talk on the "Grizzly Bear People of Kitse-las." Being historian of the people, his talk was traced back to mythology to the present day.

There was a very good turnout at the Drama Club meeting on Thursday night in the Civic Centre clubroom when there was an audition of all those present by a casting committee consisting of George McAdams, Steven Howlett and Mrs. C. J. Howlett. Rehearsals will start immediately on three plays with a presentation before Christmas. It is hoped to stage three plays — one one-act, comedy, one one-act romantic and a three-scene supernatural play. The directors are G. McAdams, S. Howlett and Miss J. Wade.

THIS AND THAT

"Here, Jamie, if you wanna help, you can hold the nail!"

TERRACE PARENT-TEACHERS' MEET

Much Business Dealt With at Latest Session of Group

TERRACE — Much business was dealt with at the regular monthly meeting of the Terrace Parent Teacher Association which was held in the primary school last Thursday evening. There was a very good attendance and the new members, including a number of parents of this year's beginners at school, were welcomed by the president, Mrs. P. Van Stolk. The tag day report was given and the children taggers are to be rewarded with a show ticket.

It was decided to adopt the recommendations of the auditor, C. J. Norrington, in regard to the treasurer's books and a vote of thanks was ordered sent to Mr. Norrington for the work he had done on the books.

Mrs. Haaland reported on the hospital meeting at which she was the P.T.A. delegate.

Last year's judges for the school display of work at the Parent Teacher tea are to be asked to be the judges at the next spring tea and exhibit. Mrs. Campbell, Grade One teacher, gave a very interesting talk with illustrations on modern reading methods, all of which was new to some of the members.

The soup program, as worked out last year, came up for much discussion and it was finally decided that a questionnaire be sent out to the parents of the primary school children to ascertain their attitude towards the hot soup lunches. In the meantime, the matter was left in the hands of the executive.

With a bank balance of over \$180, the method of using it to the best advantage was debated and it was finally decided to purchase a gramophone for the beginners' classroom, some winter play equipment for the primary school and some library books for the elementary school. It was also decided to cooperate with the school in putting on a school concert early in December.

All future meetings are to be held in the Credit Union Hall with the members contributing to the refreshments. However, next month's meeting will be held in a downtown hall and will be in the form of a social and a movie entertainment at which P.T.A. films will be shown.

Following the close of the meeting at a late hour, refreshments were served.

Two-Year Trip For Geography Teacher

VANCOUVER, B.C. — Geography lessons are going to be particularly enthralling for one class of Sapperton students this year.

For a teacher they have 21-year old Lucy Varty, whose first hand knowledge of the remote places of the earth rivals that of many an old salt.

Miss Varty arrived home this summer after a two-year sea Odyssey aboard the Rev. John Antle's Reverie.

This summer she spent with the "Grenfell of the west coast" navigating the intricate "inside" coastal waters.

She finds she must take a landlubber's occupation to make a living.

"I think some day she'll be off to sea again," muses Lucy's mother. "It will be difficult to keep her on dry land forever."

ROMANCE ENDED MUSICAL CAREER

Presidential Candidate and His Wife First Met at Chicago Singing Contest

By Marianne Izsak
Canadian Press Staff Writer

NEW YORK, N.Y. — A woman who once toured the United States in George White's "Scandals" may become the next First Lady of the land.

There was a time when stardom on Broadway was the ambition of Frances Eileen Hutt. But when she met young Tom Dewey at a singing contest in Chicago in 1923, she forgot about that. When she married him in 1928, the only career she thought about was that of wife and mother.

Now her husband, governor of New York State, is Republican candidate for the presidency, for the second time.

Mrs. Dewey was born in Sherman, Texas, in 1903, but her family moved to Sapulpa, Okla., shortly after. They still live there.

From early girlhood she studied singing. Her teacher was so impressed with her voice that she urged her to come to New York for further study.

This Frances did and was well on the way to becoming a singing star when she met Dewey. But she says she has had no regrets at not climbing to the top of the theatrical ladder.

"Every woman should follow her own bent," she says. "My bent for years has been toward being my husband's wife."

Slender, about average height, with delicate coloring and features, Mrs. Dewey would be numbered among the more attractive wives of presidents. Her manner is gracious and warm but not over effusive.

SENSE OF HUMOR
She has a sense of humor that enables her to laugh at herself and a wit that often surprises those who consider her reticent.

Since her marriage, Mrs. Dewey has lived in a 2½-room flat in New York, a more commodious apartment on Fifth Avenue, and the Governor's Mansion at Albany, New York. The Deweys also have a farm at Pawling, N. Y., which they visit whenever possible.

The second floor of the governor's mansion is strictly private for the Dewey family. Mrs. Dewey has had it redecorated—bright chintzes predominating, with a different color scheme in each room.

In the sitting room is Mrs. Dewey's own piano, before which she and her husband sometimes sing together.

The two Dewey boys, Tom, 15, and John Martin, 12, are like any other boys. They bring their friends home and often raise a rumpus. They like to have a quick swim with their father before dinner—when he gets home early enough. There is a pool, installed during

Reasonable Ideas for Housekeepers

DESSERTS FOR CHILDREN COME HIGH IN PLANNING OF MEALS

Planning meals for a child is a good idea to think of first and on this point the necessary precautions to take are as follows:

As the piece of resistance as the children are growing up and may even have a tendency to get into habits from the first years.

Remember the fact that children are not as well-balanced as the adult, the child needs one or all of the following to be an important part of the meal.

There are several desserts that can be enjoyed by all members of the family. Home suggestions using milk are as follows:

Sweet Squares
1 1/2 cups cold water
1/2 cup water (1 cup less tablespoons)
1/2 cup sugar
1/2 cup salt
1/2 cup crackers, finely cut

Dash of salt
1 tablespoon butter, melted
1 tablespoon lemon juice
1 teaspoon grated lemon rind
1/2 cup cream (whipped)

Beat egg yolk until lemon-colored and thick. Add sugar, salt and melted butter and beat until sugar is dissolved. Add lemon juice and rind and beat until blended. Chill thoroughly. Shortly before serving fold in whipped cream. Yield: six servings.

Baked Apples With Oatmeal
6 medium-sized apples
1/2 cup cooked rolled oats
1/4 cup brown sugar
1/2 cup water

Wash and core apples, place in pan and fill centres with cooked oatmeal to which has been added half the brown sugar. Sprinkle remaining sugar over the tops of the apples, pour water into pan and bake in a moderate oven, 350 degrees F., until apples are tender, about 45 minutes. Serve hot or cold with cream, top milk or custard sauce. Yield: six servings.

Fruit Blanc Mange
6 tablespoons cornstarch
1/4 cup sugar
1/4 teaspoon salt
1/2 cup cold milk
2 cups hot milk
1/2 teaspoon almond extract
2 cups frozen or canned fruit

Combine cornstarch, sugar and salt and blend with cold milk. Add slowly to hot milk in top of double boiler and cook, stirring constantly, until mixture thickens. Cook for 3 minutes. Remove from heat and add flavoring. Chill well. Beat with rotary beater until smooth. In the bottom of each serving dish arrange fruit (if frozen, partially thaw) then top with blanc mange. Serve with top milk or cream. Yield: six servings.

WHAT CAN I ???

ANNE ASHLEY

Q How can I make Melba toast?
Q Melba toast is made merely by slicing sandwich bread thin, cutting off the edges, and placing in the oven to brown.

Q How can I avoid a cloudy appearance of glasses that have been milked, when washed?

Q How can I remove stains from china?
Q Salt will usually remove stains from china.

NOTTINGHAM, Eng.—Great-grandmother Mrs. Ellen Parker, 73, won a beauty contest. Calling in "to see what was going on" in Meadows' Old People's Club, she found herself in the parade for over 60's.

It Pays to Advertise: Advertise in the Daily News!

THE PRIDE OF INDIA—Since the death of Gandhi India's adulation goes to the first Indian governor-general, Chakravarti Rajagopalacha. Rajagopalachari, generally referred to as "C.R." or "Rajaji" at most, on his recent tour of south India, huge crowds turned out to see him and many of the women took gold necklaces from him and put them over the neck of their loved "C.R." Rajaji is pictured here. This was a gesture that had been made to Mahatma Gandhi. This picture was taken in Mysore, the most progressive of India's states. It was here, capital of Mysore, that Rajaji received his college diploma.

New Outfits For Autumn

Skillful Use of Reversible Linings, Change-over Capes and Buttons Provide Variety

By Muriel Narraway Canadian Press Staff Writer

LONDON, C.—Quick-change ensembles of ingenious design were featured at London's fall fashion shows.

One lovely example started with a straight-skirted, stone-biege polo dress with soft raglan shoulders and standup, long-pointed highwayman collar. The narrow three-quarter sleeves ended in stiff, stand-out cuffs which with collar and very deep belt were piped in dark mole brown.

To this could be added a self-colored apron skirt. Buttoned under the belt, it could be fastened to the waistband of a wide bell-shaped finish. This design was effectively used in a cocktail suit of water-marked moire. The basque, yoke and neckline were accentuated by black velvet piping.

A cafe-au-lait suit with the straight-waisted jacket continuing to low knee length had straight skirt and shot taffeta blouse of dull brown with under color effect. This had deep, off-the-shoulder quilted neckline, quilted hip turnup, narrow sleeve and tight waist.

For the teen-ager's first party dress there was a white slipper dress trimmed with black lace. With tightly swathed off-the-shoulder bodice draped with wide black lace collar and big, straight, hip accentuated skirt of the "80's" swept back in large bustle drape which lifted intriguingly to show a black lace insert.

SELL WORSTEDS AT LOW PRICES

HUDDERSFIELD, Eng.—English worsteds in South Africa have to compete with a Japanese product similar in weight, quality and design, and selling from 8s. to 10s. (\$1.60 to \$2) a yard cheaper, says a report to a Huddersfield firm. The report, compiled by the firm's South African representatives, was submitted to the Huddersfield Chamber of Commerce. The chamber decided that if samples of the Japanese cloth substantiated the charge, a protest would be made to the Board of Trade.

Ly near the exposed rocks which formed the shoreline. The Discoverer came to rest wedged between two rocks with her stern hanging over deep water. There was imminent danger that she might slip into the depths.

"That is why we did not salvage any of our personal property," Sessions said. "We were afraid we would be trapped if we went below."

Sessions was a heavy loser in the wreck, because part of the Discoverer's cargo was household furniture belonging to him. He was moving from Ketchikan to Seattle.

Capt. Thornton managed to save most of his personal property.

"We certainly were glad to see the P.M.L. 15 come along," said Capt. Thornton. "We had no food and there was practically no shelter on the island. When they took us aboard they went all out to make us comfortable. We are grateful for the fine treatment they gave us."

Skipper Good saw the vessel on the rocks from a great distance and headed the P.M.L. close in to Lewis Island to investigate. It was not until they were quite close that they could identify men on the beach.

The wreck victims retrieved their half-submerged life-boat and rowed out to the police boat.

All the men were chilled and near exhaustion, but otherwise in good shape with the exception of Clare Randall, the mate, who had caught a severe cold.

The Discoverer is owned by Lawrence Erickson, Ketchikan businessman, and has been engaged in a freight service between Ketchikan and Seattle. Salvage possibilities are being investigated by Armour Salvage Co. of Prince Rupert.

WEEK-END GALE

(Continued from Page One)

Listeners Develop Skilled Musicians

Authority Says Great Audiences as Important as Great Teachers

MONTREAL, C.—It takes good listeners as well as competent instructors to make skilled musicians, said Ria Lenssens, a pupil and former voice instructor at the Royal Conservatorium of Music in Brussels, when she came here to join the McGill Conservatorium.

Miss Lenssens, who in private life is Mme. Heyninx-Lenssens, said the creation of great singers and musicians depends on the "atmosphere" which she defined as the enthusiasm for music prevailing in some countries.

"I would stress two things as being very important for a nation to develop fame in music—excellent teachers and a favorable atmosphere for performance," she said. "This favorable atmosphere is created by a love for music on the part of citizens who are non-professionals but who are, nevertheless, keenly interested in music."

"It takes great audiences, as well as great teachers to make great concert stars."

WROTE OWN CONCERTOS

George Gershwin never played a piano concerto until he wrote one.

CHANGE OF LIFE?

Are you going through the functional "middle age" period peculiar to women (38 to 52 yrs.)? Does this make you suffer from hot flashes, feel so nervous, high-strung, tired? Then try Lydia E. Pinkham's vegetable compound to relieve such symptoms. Pinkham's Compound also has what Doctors call a stomachic tonic effect!

Oh My - what Goodness!

JELLO
What's found only in Jello? That "locked-in" Jello Flavor!
There are seven famous Jello-O flavors

SUPPER SALAD RING
1 package Lime Jell-O
1 cup hot water
1/2 teaspoon salt
1 1/2 cups grapefruit sections
1 cup grapefruit juice and water
Tuna-fish salad

Dissolve Jell-O in hot water. Sprinkle salt over grapefruit; drain thoroughly, add water to juice to make 1 cup, add to Jell-O. Chill. When slightly thickened, fold in grapefruit. Turn into ring mould; chill until firm. Unmould. Fill with tuna salad.

A Product of General Foods

GAY, colorful and appealing, here's a dish to catch the eye and capture the fancy of even the most sophisticated. Jell-O desserts and salads have most of everything. More appealing color . . . more attractive consistency . . . more fresh, fruity flavor. The only jelly powder with the exclusive "locked-in" flavor. Insist on the kind with the big red letters—"JELL-O"—on the box.

"Jell-O" is a trade-mark owned by General Foods, Limited

WHEN YOU BUY A WATCH

Keep this in mind—you mustn't expect to get something "high grade" unless you pay a decent price.

By a "decent price" we don't mean that you really must pay a lot of money.

Watches haven't advanced as much as lots of other things.

At least ours haven't—we bought the bulk of our stock quite a while ago.

Railroad watches have actually been selling as low as before the war.

But for a reliable watch it isn't safe to go below \$30.00 to \$40.00.

If you come here that much will get you a watch good for 15 to 20 years.

If you've been thinking of watches even a little bit, it's time you called on us.

DOGS ROAM IN FOOD STORES

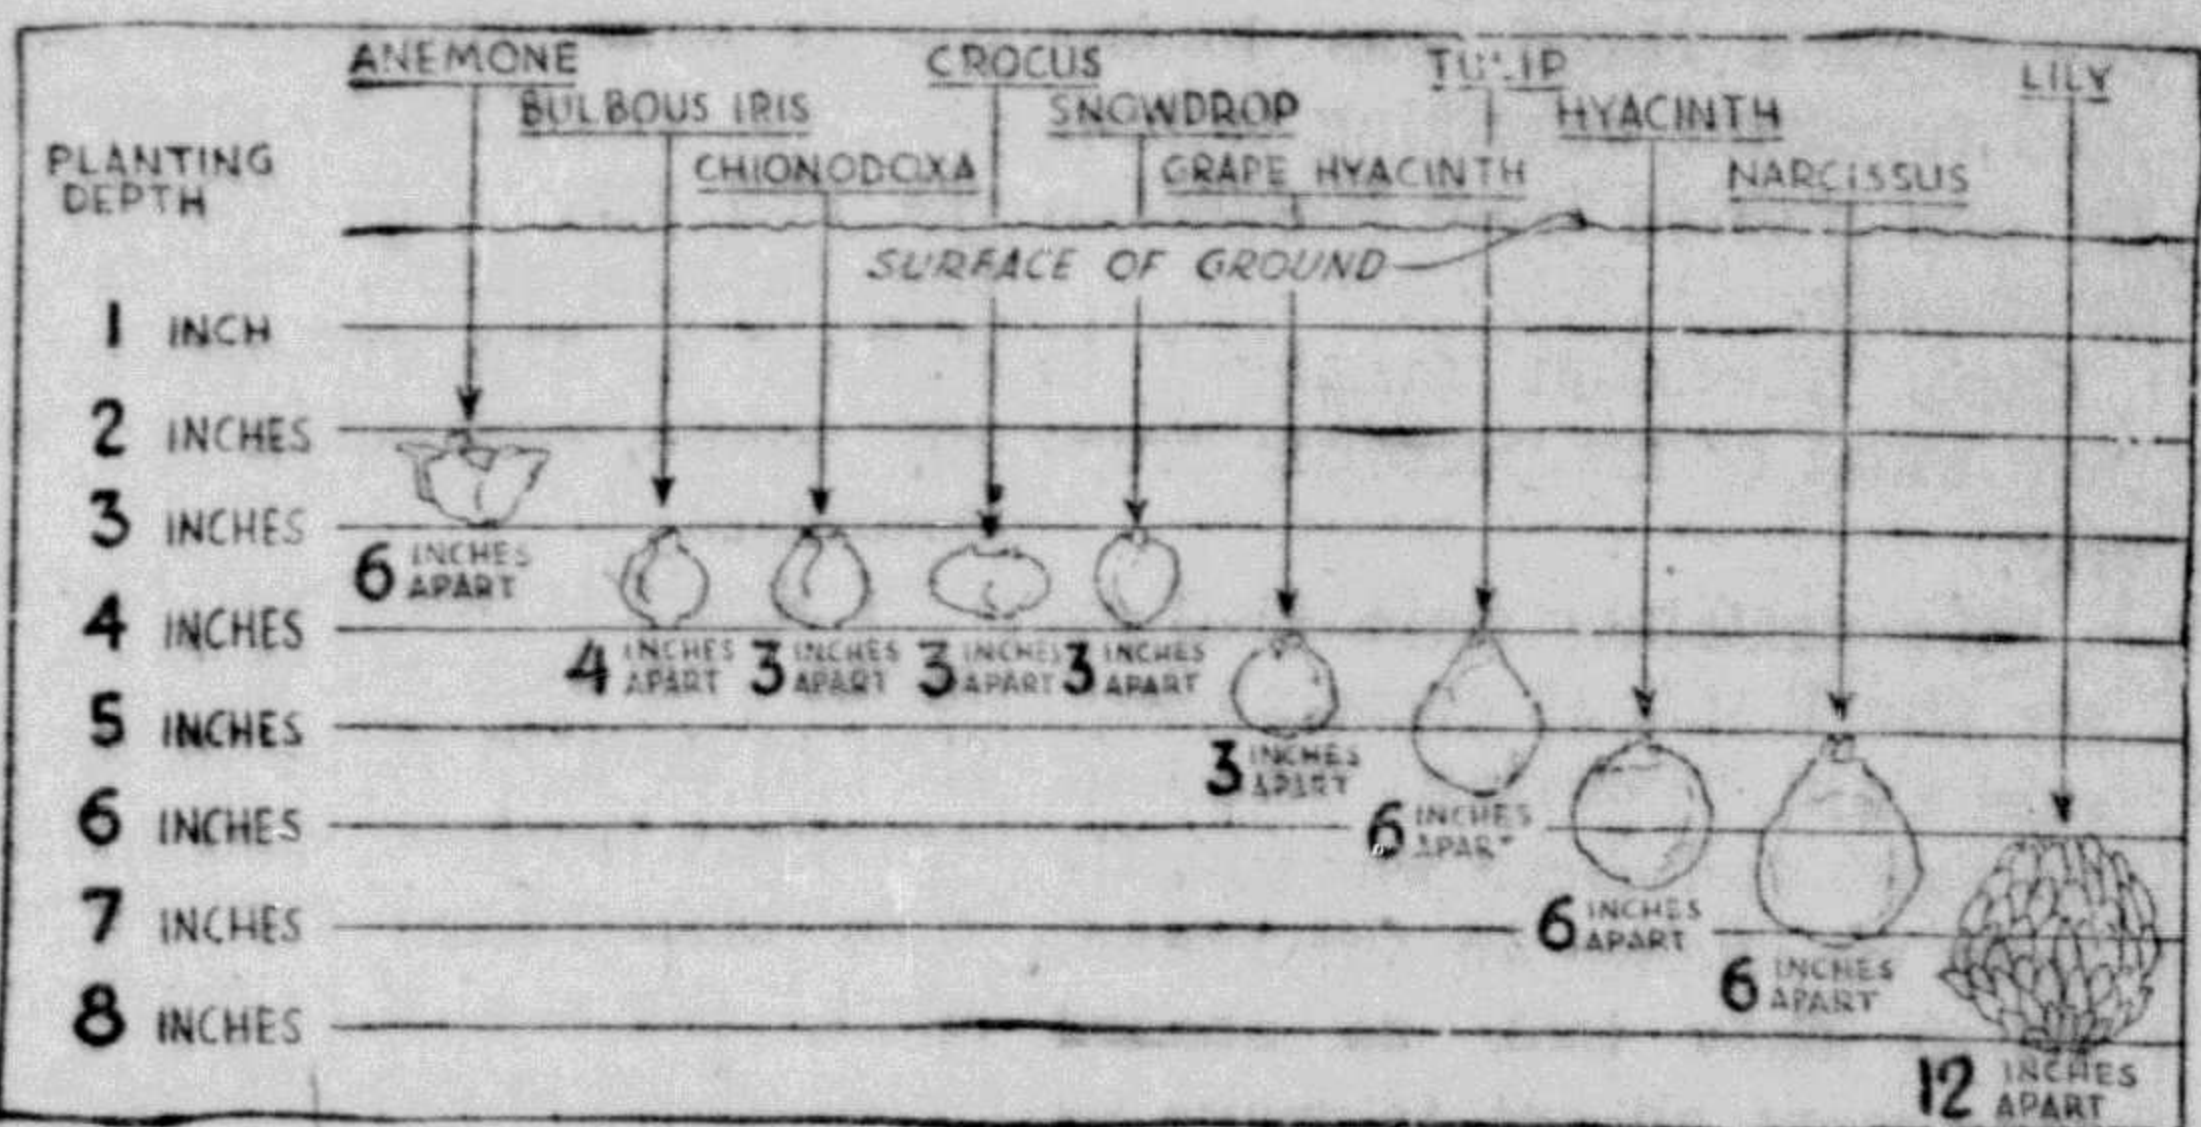

Dogs will be dogs even among the delicacies of the food stores and the Prince Rupert Chamber of Commerce, since "no dogs admitted" signs do not appear to be respected, thinks something should be done about it. The question of the canines in the food dispensaries was brought before the Chamber of Commerce at its meeting last week by Vice-President G. R. S. Blackaby. Attention of the authorities such as the police and sanitary inspector will be drawn to laxness in this matter which it was suggested existed.

Magdalenes Are Now Constituency

OTTAWA—For the first time the Magdalene Islands will now be represented as a separate constituency, having been placed on this basis in the 1947 redistribution. Formerly, these islands formed part of the riding of Gaspe in Quebec. They are situated in the Gulf of St. Lawrence, and are closer to Newfoundland than Quebec. As might be expected, they possess an economic mainstay, and it is fish.

RIGHT DEPTH OF PLANTING IS VITAL WITH BULBS IN AUTUMN

Keep This Bulb Planting Depth Chart. It Will Be Helpful

Fall bulbs should never be planted in poorly drained locations. If your garden is low, lacking a place where water never stands, but always quickly runs or drains away, then such a place must be created by elevating a bed six inches or more above the surface.

Remember that newly turned soil settles; so heap it above the bulbs, an inch or two, to avoid leaving a depression when it packs down. The depths of planting given in the table may be considered minimums; deeper planting may often be advisable. One of the chief hazards for all bulbs is "frost heaving," due to alternate freezing and thawing of the soil, which may lift shallow rooted plants out of the soil. Bulbs planted so late they cannot make roots in the fall are likely to suffer from it; and large bulbs not set deep enough will often be injured. A mulch placed over the bulbs after the ground has frozen will keep the frost in, and reduce frost heaving.

When it is intended to allow tulips to remain where you plant them several years rather than dig them up after they have blossomed and their leaves have turned yellow each summer, they should be planted two or three inches deeper than the normal depth.

Deep planting may cause flowering to be somewhat later, so all bulbs which it is desired shall blossom at the same time should be planted the same depth.

The lilies which need deep planting (7 to 10 inches) are those that make roots on their stems above the bulb. The Madonna lily, which does not do this, needs shallow planting, 3 to 4 inches down.

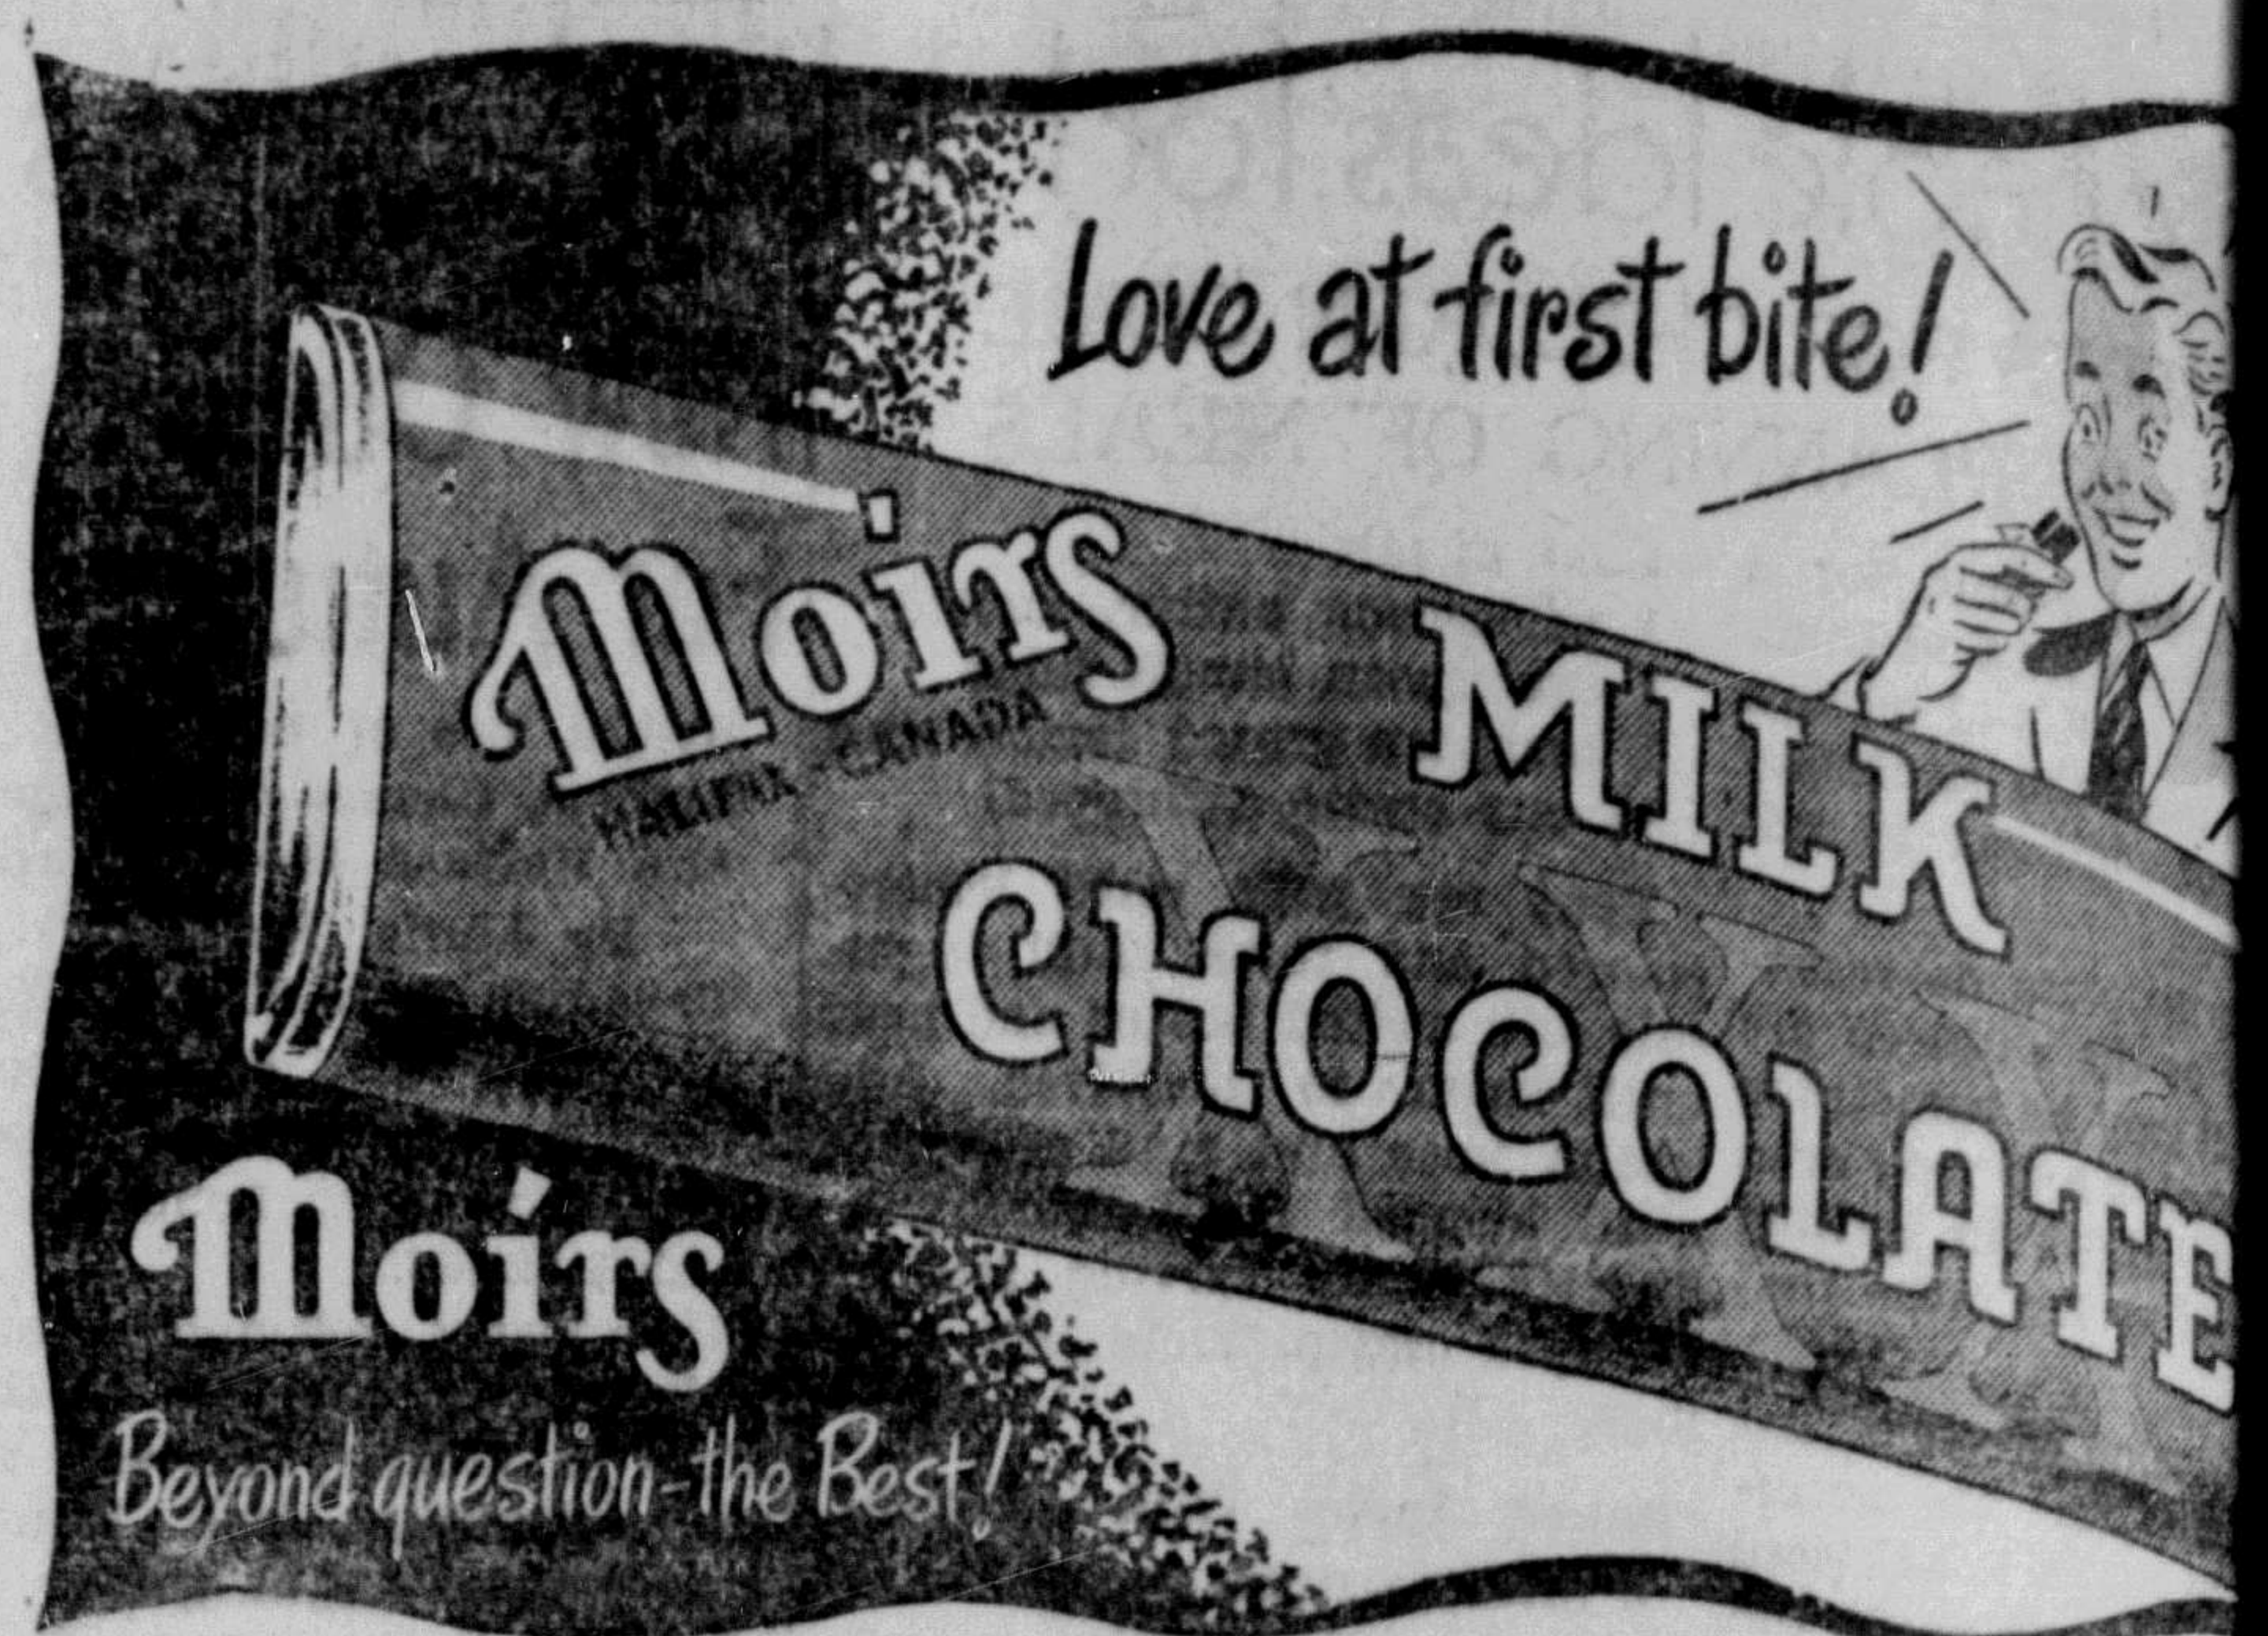

SEVENOAKS, Kent, Eng. ©—Mrs. Rosina Jane De Coster, who died last March, never told friends her age. In her will she said "My age is not to be put on the coffin or in the papers." She left £5,842 (\$23,368).

Eight Plane Owners Get Town Airfield

ROSETOWN, Sask., ©—When Oscar Merritt of this eastern Saskatchewan town bought an airplane last year, he was like a man with a cigar and no matches. The town didn't have an airfield. But a pep talk to the local board of trade was followed by eight fellow townsmen acquiring aircraft and the plane owners now use an air strip the board of trade wheedled from town council. The owners prepared and maintain the strip and Rosetown has been issued a temporary license to operate a municipally-owned airport. Not a day passed this summer that some guest didn't drop in at the airfield.

How better magnets make jobs for Canadians

In ancient days, the lodestone was the available permanent magnet and was known in almost every country. In 1492, a piece of this mineral actuated the compass which guided Columbus across the Atlantic.

Today man, through research, has learned to make magnets to suit many of his requirements. Recently a small experimental magnet was made which lifted 4450 times its own weight. This magnet was made of "Alnico" an alloy of aluminum, nickel and cobalt with iron.

Because of its increased efficiency, this new magnet is being employed for a wide range of uses. It has brought about a revolution in the design of meters, instruments, radios and generators, and is finding its way into numerous other industrial applications.

The growing demand for magnets of this kind provides an entirely new market for Canadian Nickel. This new market creates new jobs for Canadians both in the Nickel industry and in industries which make magnets and products containing the magnets. Thus does research develop better products, create more employment.

DUE FOR RETIREMENT
(Continued from Page One)

sentiments of her complement into words when he said: "All of us are sorry to see her go off this run and out of service. She has been a good ship and her retirement makes some of us begin to feel old."

Her history has been one of solid service and contained few glamorous or spectacular incidents such as have been the lot of the Princess Kathleen or other of the company ships. The early part of her career was spent on the Vancouver-Victoria run, and it was only occasionally that she advanced to the triangle route which includes Seattle.

At times, she travelled north

in the Alaska service, but until she was placed on the Vancouver-Ocean Falls-Prince Rupert service, her sailings were mainly in the south.

No major mishaps have beset her, and it was only occasionally that she had minor ones. Once, a few years ago, she went aground at Port Hardy, but damage was light.

Her outstanding departure from routine, and one which might qualify her for the laurels connected with war service, was in 1943 and 1944 when she was placed at the disposal of the American Army to carry troops and supplies to Haines and Skagway.

Her normal sleeping capacity is 300, but on the daytime runs between Vancouver and Victoria, she was permitted to load as many as 800, which she sometimes did. It was only on rare occasions, however, that she operated at capacity on the Prince Rupert trip, one of the reasons for the cancellation of her run.

On her arrival here at 7 o'clock last night, she carried only a dozen passengers and about 60 tons of freight. Ocean Falls always has been her heaviest loading port. Normally, she has taken on about 500 tons of paper on her weekly sailings.

Officers on her final voyage were:

Capt. John Campbell.
First Mate Edward Woodman.
Second Mate Herbert McAnaran.

Third Mate Robert White.
Fourth Mate William Warden.
Chief Engineer John MacKay.
Second Engineer Archie Lamb.
Third Engineer Jack Butcher.
Purser Archie Wolett.

Cost of operating the ship for a single trip to Prince Rupert, according to her officers, is about \$6,000, half of which is required for the 1,000 barrels of oil which she consumes and half for wages and other expenses.

Her cargo handling facilities may have the slowness of an earlier generation and her speed may be below that of newer ships, but to thousands on the coast she is an old and faithful friend and her passing will be marked with that tribute.

NURSE BRIDE OF BUSINESS MAN

Miss Marion Wanda Scott and Douglas Payne United

A pretty and highly interesting wedding took place Monday evening at 7 o'clock in the First United Church when Marion Wanda, younger daughter of Mr. and Mrs. T. M. Scott of Regina, became the bride of Douglas Hugh Payne, only son of Mr. and Mrs. J. J. Payne of this city. The church was decorated with fall flowers for the ceremony which was conducted by the Rev. R. A. Wilson, pastor of First United Church.

The bride, in the absence of her father, was given in marriage by R. G. Hopkins. Her gown was of oyster satin and her finger-tip veil fell from a tiara of net and orange blossoms. She carried a bouquet of deep pink roses. A cameo pendant, the groom's gift, was her only adornment. The bride's gift to the groom was a ring.

The bride's attendant, Miss Edith George, wore salmon pink with blue feather hat and carried cream carnations.

The groomsman was James Haddon and ushers were Gordon Fraser and Albert Phillipson.

Organist was Mrs. L. Dakin. At a reception which followed at the home of the groom's parents, the guests were received by the bride's mother, owned in wine crepe with corsage of pink roses, and the groom's mother, wearing blue crepe, with corsage of deep pink roses.

Included among the guests was Miss Florence Armstrong of Dublin, Ireland.

Mrs. J. D. Fraser and Mrs. R. G. Hopkins presided at the urns and serviteurs were Mrs. H. M. Foote, and the Misses Netta McLeod, Verna Stevens, Kay Keith, Jean Muirhead, Gwen Williams and Margaret Hinchev.

The toast to the bride was proposed by Rev. R. A. Wilson and responded to by the groom. Neil Stromdahl proposed a toast to the bridesmaid with James Hadden responding.

For a honeymoon trip to Vancouver and Victoria, the bride travelled in a burgundy suit with navy accessories. Upon their return, they will take up residence at 726 Fifth Avenue West.

The bride has been on the nursing staff of the Prince Rupert General Hospital and the groom is the manager of the Universal Trading Co. store. He has lived here since boyhood and served in the Royal Canadian Navy.

Mrs. Hazel Stacey Buried at Kitwanga

Funeral of Mrs. Hazel Stacey, whose death occurred in the city jail last week, took place at Kitwanga, interior native village, during the week-end. Prior to the remains being sent to the interior on Friday night's train, a service was held at the chapel of the B.C. Undertakers with Major Yurgeson of the Salvation Army officiating.

GEO. P. MELROSE,
Deputy Minister of Lands.
Department of Lands and Forests, Victoria, B.C., October 1st, 1948.

SHIPS and WATERFRONT

Union steamer Cardena, Capt. William McCombe, arrived in port at 2 o'clock Monday morning from Vancouver and way-points and sailed later in the morning for Alice Arm, Stewart and other northern points whence she is returning here this afternoon on her way back to Vancouver. After this voyage, the Cardena will be operated on a somewhat altered schedule which will reduce the service to Stewart to fortnightly while the weekly calls northward from here to Port Simpson and Alice Arm will be maintained. The hour for sailing north from here Sunday nights will henceforth be 11 o'clock while the vessel will still sail from here at 1:30 Tuesday afternoons for the south.

Carrying 130 passengers, including two for Prince Rupert, to the treasurer's books and a Princess Louise, capt. Fred McGraw, docked here northbound at 12:15 Monday, sailing two hours later for Skagway. The vessel picked up five passengers here for Alaska ports. They were Mr. and Mrs. J. W. Dyef, who are making the round trip to Skagway, and Mr. and Mrs. G. M. Phillips and small daughter, bound for Juneau.

Story weather notwithstanding, Union Steamer Camosun, Capt. Alf Aspinall, returned to port at 7 o'clock Sunday night from her calls at south Queen Charlotte Island points, inaugurating the new service out of Prince Rupert, and sailed on schedule at 11 p.m. for Vancouver via Butedale and Namu. She brought in about 20 passengers from the Island logging camps and added another on the way for the voyage south. The Camosun will be here again this Friday and this week-end will make a run to Masset Inlet.

INTERIOR MOOSE TAKE BEATING

Moose in the Babine Lake country have been taking a beating of late as the big game hunting season hits its peak but they do not seem to profit by the misfortunes of their mates. Hunters, on the other hand, are "making a killing."

Youthful Alastair Duffus and Lloyd Findlay returned Monday with an 800-pound bull moose tied to their panel truck and Gunnar Selvig who visited the same area—The Babine Lake north of Topley—also brought home a sizeable trophy.

Duffus, who picked off his moose with a single shot of his .303 rifle 21 miles north of Topley, said that within recent days, 16 moose have been taken from along the road.

Quite a number of hunters from Prince Rupert and Smithers took advantage of the Thanksgiving week-end to take an advance stock of winter meat. Much of it will be placed in cold storage.

CLEVELAND INDIANS WIN
(Continued from Page One)

scored. Gordon popped out to Elliott. Keltner struck out. One run, two hits, no errors.

Fourth Inning (Boston)—Earl Torgeson flied out to left field. Bob Elliott's infield hit could not be held by Lemon. Marv Rickert's long fly was taken by Mitchell. Salkeld walked, Elliott to second. McCormick drilled a hard one over second. Gordon, although trying desperately, failing to get it, Elliott scoring. Stanky was walked to load the bases. Voiselle's grounder was taken at first for the out. One run, two hits, no errors.

Sixth Inning (Cleveland)—Gordon, first up, sent a long fly over the left field fence for a home run. Keltner popped out to Elliott. Tucker walked. Robinson sent a solid hit into right, Tucker going to third. Hegan grounded and got to first when Robinson was tossed out at second, Tucker scoring. Lemon grounded out to first. Two runs, two hits, no errors.

Eighth Inning (Spahn pitching for Boston)—Gordon drove out to Rickert in left field. Keltner, grounded between Spahn and Dark for a base hit. Tucker singled to right field. Eddie Robinson's single to right field scored Keltner. Hegan struck out. With Lemon up, Tucker was nipped off at home plate. One run, three hits, no errors. Eighth Inning (Boston)—

Holmes' drive to centre field went for a base hit. Dark's drive to right field was taken by Doby. Torgeson lined to right field for a two-bagger. Elliott walked to load the bases. (Gene Bearden now pitching for Cleveland)—Glint Conatser, replacing Rickert, drove out to centre field but Holmes scored after the catch. Masi, replacing Salkeld, doubled to left field to score Torgeson. Grounded out runs, three hits, no errors.
