WOULD BOMB MANCHURIA

LONDON — General MacArthur's communique claiming that United Nations forces in Korea are facing an "entirely new war" was interpreted today by diplomatic observers as clear evidence that he would demand permission to carry out bombing of bases in Manchuria.

SOVIET GLOATS

BERLIN — The Soviet bloc in Europe resounded today with the claim that United States has suffered a military catastrophe in North Korea. Russia's official occupation newspaper in East Germany summed up the front line news: "MacArthur's great offensive ends in wild flight." Communist editors and broadcasters throughout Eastern Europe expressed jubilation.

BOUDREAU TO RED SOX

BOSTON — Boston Red Sox announced today that Lou Boudreau, manager of the 1948 champion Cleveland Indians, has accepted terms and would join the team as a player. Boudreau was replaced recently as manager of the Indians by Al Lopez. Boudreau's terms were not disclosed.

RUSSIA GETS U.S. BARGE

ANCHORAGE, Alaska — A dozen or more barges carrying millions of dollars worth of cargo for military sea transport service have been sunk or lost in Bering Sea as storm raged over waters of the sea. One of the vessels is believed to have fallen into Russian hands although military authorities would not say so for security reasons.

BOUNCING BABY

LONDON — Mrs. Irene Brady has high hopes for her infant daughter Sally. At the age of eight months, Sally can walk, talk and sing.

L. H. Eyres Tells of Progress of Province In Industrial Development

VICTORIA — "British Columbia can only be strong in proportion to the energy and expended by each and every one of us to produce wealth from our natural resources," said of Trade Leslie H. Eyres in an address last it is indeed encouraging to know that there

in Canada.

"At one time British Columbia was largely dependent on the export of her raw materials, but the enterprising development of natural wealth, which is a part of our heritage; the extensive industrial expansion from our natural resources, and the continued influx of capital and population, are rapidly establishing British Columbia as a great manufacturing province.

"Indicating the progress British Columbia has made in this direction is the record of production values, and the increase in the number of people employed in the manufacturing industry. In 1949, for instance, 105,000 people were employed in 3700 manufacturing establishments in the province, almost as many people as were employed in all four basic industries of forestry, agriculture, mining and fishing. The approximate payroll of these establishments was in the neighborhood of \$200,000,000 and the gross value of production climbed to the amazing total of almost one billion dollars. In 1950 we are confident this will go over the billion dollar mark.

RAPID PROGRESS

"British Columbia's economic progress has increased at a rapid rate during the last 10

Situation In Korea Grave

Flash

Members of the United Nations Secretariat in Korea were among the first to contribute to U.N. Blood Bank No. 406, operated by Red Cross volunteers. Two U.N. donors are shown here with Red Cross nurses watching their colleague make her contribution. The Blood Bank was organized last July in the space of six hours by 36 women of seven different nationalities to meet emergency needs.

U.N. Blood Bank in Korea

Alaska Railway May Go From Edmonton, Bypassing Northwest

SEATTLE (CP)—Pacific Northwest Trade Association delegates heard last night that there is a real possibility that the railroad to Alaska might start from Edmonton and bypass the Pacific Northwest.

Thomas Braidwood, Vancouver business man, said mid-west interests appeared much more interested in the development of the Canadian north and land along the Alaska Highway than in Washingtonians or British Columbia residents.

Mr. Braidwood said the Northwest would stand to lose much of the present Alaska business if the rail line is constructed north from Edmonton.

How Rupert Woman Died

Saanich Police Officer Could Not Help Striking Her, Fellow Officer Says

VICTORIA — Suspension of Constable Robert Coleman of the Saanich suburban police following the death of Mrs. Caroline Smith after being struck by his patrol car Saturday night, is routine for such cases until inquiry is completed.

A police report said that Mrs. Parkin attempted to run across the road in the path of the car as rain and mist made visibility poor.

Deceased, who had lived in Prince Rupert for many years and was the widow of the late A. T. Parkin, pioneer electrical contractor there, suffered fracture of both legs and one arm, internal and head injuries. She died in hospital three hours after admittance.

Judging by measurements, Coleman did not have a chance, said Sgt. Jack Hamilton, who investigated at the scene. He praised Coleman's efforts to avoid the unfortunate woman and his efficiency in bringing help.

Coleman was immediately suspended pending official investigation.

How Rupert Woman Died

Rolf Walker Dies In East

Rolf E. Walker, who was resident of Prince Rupert since 1910 and for the past three years lived in Kitchener, Ontario, passed away on Thursday of last week in the eastern city. News of his sudden passing will be received with regret by many old friends here.

Born in Kincardine, Ontario, Mr. Walker was 65 years of age. He came here as a young man and was waterworks superintendent for the city. Then for many years he was engineer first for the city and later for the Northern B.C. Power Co. at Shawatlans Lake and Falls River plants.

He is survived by his widow whom he married in Prince Rupert in 1912. He attended the Baptist Church and was a member of the Masonic Order, belonging to Tsimpsen Lodge.

The funeral took place on Saturday from the Schreiter Sandrock Funeral Home in Kitchener with interment in Walkerton Cemetery. Rev. H. E. Morphey officiated.

Allied Forces Retreat Before Chinese Hordes

Crisis Beyond Military Authority Now, General MacArthur Declares

ON THE UNITED STATES EIGHTH ARMY FRONT IN KOREA (CP) — The United States Eighth Army was in retreat today. The offensive to end the war by Christmas has failed. United Nations forces have been defeated decisively in their first major attack against the troops of Communist China and were being overwhelmed everywhere today.

All along the line the Eighth Army is pulling back and in some sectors is fighting desperate rearguard actions to prevent the front from caving in completely.

The offensive, personally launched last Friday by General Douglas MacArthur, has been smashed mostly by Chinese troops but the latter had some help from North Koreans. They accomplished this feat in three savage night attacks.

In Tokyo, General MacArthur said in a special communique that "we face an entirely new war" because of Chinese inter-

vention in Korea. He placed the aggregate strength of Chinese Reds in Korea at 200,000 with thousands more pouring across the frontier.

"This has shattered high hopes we had that intervention of the Chinese was only of token nature on volunteer and individual basis as publicly announced," MacArthur said.

Now the Chinese are building up forces in Manchuria and are pouring them by tens of thousands into battle across the international frontier which has been respected by the United Nations.

MacArthur declared that the issue of Chinese intrusion in Korea must now be settled on diplomatic levels — by the United Nations and governments of the world. The situation now posed a question beyond the authority of the military command, MacArthur was believed to be hinting at the question of bombing enemy bases in Manchuria.

Late tonight MacArthur began a secret conference with his two top field generals — Lt. Gen. Walton H. Walker and Major General Edward M. Almond. He suddenly summoned them to Tokyo from their Korean headquarters.

Field dispatches said that the Eighth Army — 110,000 battle-hardened Allied troops — were in retreat all along the flaming 75-mile-long northwest front.

Eighth Army intelligence has identified 14 Chinese Communist divisions along the front but now Chinese divisions swelled the number in the last 24 hours. A Chinese division has from 8000 to 10,000 men.

As the war reached its gravest crisis, Allied air power pounded the Communist forces. Planes blasted vehicles and mule train convoys, gasoline dumps. Communist troops and gun positions.

Demolition Is Going Ahead

Dismantling and removal by Soren Madsen, Edmonton, of the former United States Army warehouse in the CNR yards continue. From the exterior, that part of the huge building at the eastern end looks to be much the same. Demolition to date has been at the west end and where the ramp spans the tracks to connect with the wharf. Nothing is known as to any developments in the future or if a reconsideration of removal of the entire block is possible.

United States Charges Russia U.N. Security Council In Dramatic Session

NEW YORK (CP)—United States decided today to charge Communist China with aggression in Korea and the American delegation at the United Nations was so advised by John D. Hickerson, assistant secretary of state. Thereupon Warren R. Austin, chief United States delegate, formally charged Communist China with outright and naked aggression. He called upon the United Nations Security Council to face the consequences squarely.

Hickerson's brief to the United States delegation gave instructions to press for immediate adoption by the United Nations of a resolution which would:

1. Call on Chinese Reds to get their troops out of Korea.
2. Assure them that the United Nations seeks only peace and Korean independence.

In one of the most critical moments in the history of the council, the chief United States delegate spoke directly to the representative of Communist China, Wu Hsiu-Chuan, who arrived here Friday.

Russia's Jakob A. Malik delayed the United States speech for more than an hour.

The council finally voted down Russia's demand to hear the Chinese Communist delegate first. The vote was one in favor, eight against, and two (India and Yugoslavia) abstaining.

The Chinese Communists made a dramatically timed entrance into the United Nations political committee's debate yesterday on Formosa.

The Reds took their seats as Russia's foreign minister, Andrei Vishinsky, was calling on the United States to recognize the Chinese Communist regime. He introduced a resolution calling on the General Assembly to condemn American action in Formosa and requesting the United States to end its blockade of the island.

THE WEATHER

Synopsis

Weather remains mild in the moist Pacific air which covers the coast and southern interior of the province. Cloudy skies and scattered showers will persist in this region through tomorrow. In the Cariboo and northern interior of the province the weather will remain cold with variable cloudiness and a few snow flurries.

Forecast

North Coast Region — Cloudy with scattered showers today and tomorrow. Little change in temperature. Winds southerly 15 miles per hour. Lows tonight and highs tomorrow — At Port Hardy, 36 and 46; Sandspit and Prince Rupert, 30 and 40.

New Imperial Oil Manager

George Green, for the past four years resident manager for the Imperial Oil Co. here, is being transferred to Vancouver as manager of waterfront sales. His successor here is Robert W. Gardiner who has been resident manager of south coast with headquarters in Vancouver.

Mr. Green, accompanied by his wife, will sail Thursday night on the Prince George for Vancouver.

Mr. Gardiner, who arrived Sunday on the Camosun from Vancouver, will be joined here after Christmas by his wife.

AS MILL NEARS COMPLETION— Sales Arrangements for Local Pulp to Provide 18 Percent U.S. Supply

Columbia Cellulose Company Limited, Canadian subsidiary of Celanese Corporation of America, has appointed Bulkley, Dunton Pulp Company Inc. selling agent for the market pulp of its plant near Prince Rupert, which will come into production early next year. Dr. R. H. Ball, general manager of the cellulose division of the latter company, announced today. Dr. Ball is a visitor in the city.

"Cellulose, key material in the manufacture of rayon yarns, plastics and explosives, currently is in short supply," Dr. Ball said, "and immediate prospects are for little improvement of the situation, due to anticipated increased demands from both military and civilian areas. The cellulose supply picture has been further distorted by the smallest United States cotton crop since 1946, which, it has been estimated, will reduce the amount of cotton linters available for the 1950-51 season by approximately 30 per cent."

"As a consequence of the tight supply situation in cellulose, prices of both dissolving pulp and cotton linters have risen sharply. Acetate grades of pulp currently are 23 per cent above

Canada Needs Immigrants

THE Canadian Chamber of Commerce believes that world political conditions, our own potential but undeveloped natural resources and our strategic place in world affairs give Canada both an opportunity and responsibility in the matter of immigration.

Pointing up the fact that Canadian industry has undergone a decade of unprecedented expansion and diversification, reference is made to the need for stepping up the tempo of Canada's preparations for defence and, as a result, there are many opportunities for both heavy labor and skilled artisans in the tremendous construction program now under way.

"We are now in the midst of the greatest era of growth since Confederation," states a Canadian Chamber memorandum. Apart from industrial expansion, there is a need for workers to develop our natural resources and the statement suggests that there is still room for new agricultural settlement.

Other arguments adduced to support the chamber's policy are that Canada's governmental, communication and transportation systems as well as other servicing facilities were developed for a much greater population than we have today and, similarly, the burden of taxation which has grown from our efforts in two world wars and from the cost of various social measures enacted in Parliament, can only be lowered on a per capita basis if there are more people.

Immigration will mean greater diversification and efficiency in production and greater domestic consumption. "Greater stability, higher efficiency, more production and greater consumption almost always have been our experience in the past when there was a heavy inflow of immigrants," states the memorandum.

Few things are harder to put up with than the annoyance of a good example.

LIGHT UP FOR CHRISTMAS

MAYBE this year might be a good time for us to resume those pre-war practices which brightened up towns and cities across Canada during Christmastide.

Lighted trees in our houses and on lawns can be supplemented to make a noteworthy community plan. Well-lighted shop windows and individual or group lighted trees outdoors in our shopping districts can make a colorful display.

Many communities which strung colored lights across Main Street in preparation for one Christmas have found them so attractive that they have been retained as permanent fixtures, arousing favorable comment from many visitors.

In some of our smaller cities, elaborate lighting plans are worked out in conjunction with the city and public utilities. These include the decoration of public buildings and special shades for street lights in the shopping area.

With purpose and co-operation, any town can become an attractive spot for Christmas shopping, drawing people from miles around to see the sights. Most of them will stay to buy so a "Light Up for Christmas" campaign could be an effective promotional activity.

Letters to the Editor

BAND NO LURE

Editor Daily News: I would like to request your co-operation in permitting this answer to Mr. Faure's letter to be published in order that your readers are not misguided as to the reasons for the formation of a Naval Band.

Mr. Faure's supposedly brilliant comparison of young men joining the Reserve Forces to "rats in Hamelin" is extremely poor taste. Possibly Mr. Faure is not aware that the Reserve Units form the nucleus of our Armed Forces when the need occurs.

The proposed band for the Naval Reserve is not a scheme dreamed up to hinder in any way the Shrine Band. Every reserve unit in Canada is authorized to recruit bandmen in order to assist training reservists.

There are numerous musicians in the city who are not presently taking an active part in any band and if by now they have shown no desire to join the Shrine Band I doubt if they have any intention of doing so.

Mr. Faure also states in his letter that the navy is paying a bandmaster, which is not correct. The bandmaster, if a qualified person is available in Prince Rupert, would join the reserves as a warrant officer bandmaster and receive the same basic allowance as other members of the Reserve Force.

Possibly Mr. Faure did not fully familiarize himself with the facts and motives behind this project and, in order to prevent the general public from sharing his reasoning, I was prompted to write this letter.

GEORGE BROWN

"ANCIENT" AGAIN

Editor, Daily News: When "Ancient" first wrote on the subject of teen-agers he was started off by a letter in the News written by a teen-ager, who inferred that some one should donate the necessary equipment whereby he or she should be able to go in for some game.

It is going to be difficult to go into all the related matters, and I would not wish to impose on the Editor. I wish it were possible for all those who wrote in reply to this idea to sit down in a friendly discussion and see where we could get.

From "Dynamite's" letter it would seem there was at least one who had what it takes. More power to you. Also "Useless" has something on the ball. Then there is J. Baines who thinks the woman in question must have been five other women.

Upon reflection, possibly I should say: "God help the parents." Just what are they doing—judging by the fact that we have domestic and mechanical instruction in the schools today.

Speaking about the schools of today, and parents, etc., brings to mind the last country school "Ancient" attended, when fourteen years of age.

Please get these details well in mind, and form your own conclusions. This school house likely cost much less than \$1000 and was good and adequate.

required to teach above the eighth grade but found it no hardship to do this for those who wanted higher education. The teacher was paid \$40 a month. She was also her own janitor.

Speaking about games, and pleasures, pick up almost any paper, or listen to the radio, and you see crowds of ten to fifty thousand people attending some game.

"Ancient" thought it a good idea to get 40c an hour—the same as the "dock wallpapers" (longshoremen) were getting for packing timbers ashore on their backs.

A reasonable amount of pleasure is good, for those who do not get pleasure by accomplishing something useful. But did you ever think about what we are up against in the matter of Russia, or even any of the European countries?

How can Canada and U.S.A. pay the high wages they pay, and then export to foreign markets in competition with slaves and cheap labor? Give away billions of dollars worth; sell to foreigners at half price AND charge us double price, and tax us to pay for the gifts.

City Asking For Construction Of 150 Houses Under Gov't Plan

City council last night decided to request the federal-provincial housing authority, which has been exploring the possibilities of construction of low-rental housing here, to construct 150 houses in Prince Rupert—50 for sale purposes and 100 for rental. Request is also being made for copies of proposed plans for the project.

What City Council Did

City council last night confirmed a recent transaction whereby lots on Eleventh Avenue are purchased by Mr. and Mrs. Forbes Lee. Back in 1942 this property had been bought by one A. F. Carpenter who never completed the transaction.

Potato chips cannot be sold from a truck in Prince Rupert. City council, on recommendation of the public health unit, declined last night to grant Mrs. Arsenault, who had made application, a license to carry on such a business.

On recommendation of the licensing committee, the city council last night granted a license to Reginald C. Wagner to conduct a messenger service.

Police expenditure for the month of October totalling \$695.61, less recovery of \$432.33, was ordered paid to the Royal Canadian Mounted Police by the city council last night on recommendation of the police committee.

Robert Simpson Is Opening Here

With renovation of the premises now complete, Robert Simpson (Pacific) Limited will open a mail order branch here on the ground floor of the former Canadian Legion building on Third Avenue on Friday of this week. Keith DeWitt of this city has been appointed local manager. Charles Jaggs of the mail order concern for British Columbia, and J. W. Jackson, supervisor of mail order offices for British Columbia, will be here for the opening. L. W. Turner and Miss Frances Brydone-Jack arrived by air yesterday from Vancouver.

MORE CHRISTMAS TREES

BRIDGEWATER, N.S.—The Hofert Christmas tree yard, in operation for many years, has more Christmas trees this season than ever before. Thirty thousand and bales were stacked in the yard in mid-November and the company hopes to ship 100 carloads to the United States.

Formal application of the city for the construction of the houses follows the receipt recently of over 150 applications from local individuals for housing—either on rental or purchase plan—and a visit to the city of J. E. Brown, housing commissioner for British Columbia, during which inspection was made of various possible sites for block housing projects. Ald. Wilfrid McLean, chairman of the council's housing committee, reported last night that possible sites for building projects included: Second Avenue in Westview, 50 homes; Eleventh Avenue, east and west of Conrad Street, 50 homes; Seal Cove and other locations for smaller numbers of houses. Ald. Casey added that it was believed there was sufficient serviced property available for the construction of at least 150 houses. Sites had been also proposed for possible apartment houses. The council will supplement its application for housing here with a report from Dr. Duncan Black, medical health officer, who was reported to have found existing housing conditions here even worse than had at first been suggested.

As a convenience to employees of the Columbia Cellulose Co. who are now working a 48-hour week with no afternoon off in order to rush completion of the Watson Island plant, city banks will be opening each Friday night from December 1 for the purpose of cashing cheques. The period for this night opening of banks will be until February, it is announced.

A letter from A. P. Gardiner & Co., Vancouver chartered accountants and auditors, announced to the city council that a branch office was being opened at 324 Second Avenue here and that a bid would be made for the city's audit work next year. The communication was referred to next year's council. Crehan & Meredith are the present city auditors with Scott McLaren, C.A., at present carrying out the work on their behalf.

An annual rental of \$262.50 plus land taxation by Long Motors Ltd., covering a site occupied by a building at the Seal Cove air base was set by the finance committee in a recommendation accepted by the city council last night. It was recommended by the committee that the Mayor and City Clerk be authorized to sign a sub-lease.

At an assessed value of \$850, sale of Lot 1, Block 3, Section 1, to T. Nerton Youngs on behalf of F. Koshe was reported by Ald. Black at the city council last night by the finance committee.

In view of the fact that L. G. Ness is an ex-serviceman and is building a residence for his own occupancy, \$37.50 was refunded as 50% of the price paid for Lot 10, Bk. 5, Sec. 7, the city council.

Banks Opening Friday Evening

As a convenience to employees of the Columbia Cellulose Co. who are now working a 48-hour week with no afternoon off in order to rush completion of the Watson Island plant, city banks will be opening each Friday night from December 1 for the purpose of cashing cheques. The period for this night opening of banks will be until February, it is announced.

finance committee reported last night. Ex-servicemen have the privilege of buying city property at 50 percent of assessed value.

• Regular Moose meeting Tuesday, Nov. 28, 8 p.m. Initiation of candidates. (11c)

Exemption From Tax Payments?

Exemption from city taxes was asked by Prince Rupert General Hospital for six lots near the hospital.

Although these lots are not occupied, the hospital wishes to retain them for future expansion. But the hospital commission will not accept payment of such taxes as a legitimate operating expense.

On the suggestion of Ald. T. B. Black, the matter was referred to the finance committee to determine how much would be involved.

Possibility of a grant to cover the taxes was suggested. Straight tax exemption would require reference to the rate-payers.

JULIUS WAS FIRST
Among Roman emperors there were 12 Caesars, from B.C. 102 to A.D. 96.

Your Friendly Pick-Me-Up

Bake this tasty **CHEESEBREAD** easily, speedily with new **Fast DRY Yeast!**

• New bread and bun treats are a treat to make with the new form of Fleischmann's Yeast! Never a worry about yeast cakes that stale and lose strength... new Fleischmann's Dry Yeast keeps full strength and fast-acting right in your cupboard. Get a month's supply.

CHEESEBREAD

• Scald 3 c. milk, 1/4 c. granulated sugar, 1 1/2 tbs. salt and 4 tbs. shortening; cool to lukewarm. Meanwhile, measure into a large bowl 1/2 c. lukewarm water, 1 tsp. granulated sugar; stir until sugar is dissolved. Sprinkle with 1 envelope Fleischmann's Royal Fast Rising Dry Yeast. Let stand 10 mins., THEN stir well. Stir in cooled milk mixture. Stir in 4 c. once-sifted bread flour; beat with a rotary beater until the batter is smooth. Cover and set in a warm place; free from draught. Let rise until doubled in bulk. Work in 2 c. lightly-packed finely-shredded old cheese and 5 c. (about) once-

sifted bread flour. Knead on lightly-floured board until smooth and elastic. Place in greased bowl and grease top of dough. Cover and let rise until doubled in bulk. Punch down dough; turn out on lightly-floured board and divide into 4 equal portions. Cover lightly with a cloth and let rest for 15 mins. Divide each portion of dough into 3 parts; knead and shape into smooth balls. Place 3 balls in each of 4 greased loaf pans (4 1/2" x 8 1/2"). Grease tops and sprinkle each loaf with 1/4 c. shredded cheese. Cover and let rise until doubled in bulk. Bake in moderately hot oven, 375°, 45-50 mins.

Ray Reflects and Reminisces

Speaking at a banquet in Sydney (Australia) Dr. Geoffrey Fisher, Archbishop of Canterbury, said press magnates cannot resist the writing of screaming headlines and that reporters are not adequately educated. The two, he declared, do more harm than any other single thing on earth. Well, Jeff, there was a time when we could not spell cinnamon. And we'd stop anywhere there to dig into a murder mystery.

War in Korea, it is said, has not created any popular songs or songs. It does not appear to be that sort of war.

While doubtless hard put to it to endure the blizzards and bitter blasts, victims of last week-end storms in eastern United States and Canada showed undoubted fortitude. They could but think of the people along the coast of Skeena. But no one could wish to imagine what the situation must have been actually like in the East.

It was thought this time a year ago that by now Prince Rupert might have been responding to the doorbell or tap on the door to discover what the mailman had. But it seems the mail carrier is still to be hoped for. There's nothing new at the post office.

Completion of Prince Rupert's second theatre should be seen early in the New Year, and it certainly is not too early. It ought to be a factor in future development. Construction adjacent to or convenient to McBride Street has been urged since earliest days, and while this did not always follow, the drift has unmistakably been in that direction. Only time can tell how much of a line-up the Totem Theatre will show as time goes on. The one at the Capitol, if not exactly a hindrance to sidewalk traffic, is nevertheless in the very heart of the business area, which is also true of Third Avenue and First Street, although to a lesser degree. But the coming of the second place of amusement, all the same, cannot but relieve certain times daily, an inconvenient situation.

As I See It

By ELMORE PHILPOTT

CORTISONE OVER-PLAYED

PEOPLE OFTEN write me about as follows:

Is it true that you have arthritis? If so, have you had the cortisone treatments?

The answer to the first question is "yes."

The answer to the second question is "no."

I have had arthritis ever since I got shot up near the end of World War One. For ten years afterwards I had a pretty bad time—in and out of hospital, and never putting my foot on the ground without agony. But for the last twenty odd years the disease has been pretty well under control. (touch wood). Haven't missed a day's work due to illness since about 1927.

Why have I not taken cortisone treatments? On the first place because I could not afford them, even if I were convinced that they were necessary.

In the second place there are scores of thousands of rheumatic cases in Canada who need drastic remedy more than I do and it seems to me a good place to apply the principle "worst first."

But the main reason I have not tried to get such treatments is because it seems to me that cortisone gland extract is still very much in the experimental stage. Many of the best doctors in the world are using cortisone. But there are still many things about it they do not understand.

THE TOP DOCTORS OF THE Arthritis and Rheumatism Foundation recently called in the New York Times. They wanted the public to know that Cortisone and ACTH gland extracts have been "overplayed" in newspaper publicity.

Here is the warning by Dr. Ralph H. Boots and Dr. Charles Ragan, arthritic specialists at Presbyterian Hospital, and Dr. Currier McEwen, dean of New York University Medical School: (See page 78, New York Times, Nov. 12, 1950.)

The use of gold salts for the treatment of new cases of arthritis is to be preferred to the use of cortisone or ACTH.

Dr. Cecil said remissions occurred in 79% of new cases treated with gold and that remissions lasted from two to five years. While cortisone and ACTH had produced dramatic effects in the relief of symptoms and pain of arthritic patients, the longest remission after this treatment had been 120 days.

THE ABOVE WARNING DOES not minimize the epoch marking discovery of the nature of arthritis. The doctors who got the Nobel Prize for the discovery of cortisone certainly deserved it. For now, after thousands of years, mankind is really closing in on the Great Cripple.

We know now that arthritis is connected with some upset in the working of little glands of top of the kidneys. The American College of Surgeons also announced (October 27) that "furan, derived from furfural, a by-product in milling flour and soybeans . . . prods the adrenal glands to produce cortisone. This

Hospital May Require Help

Prince Rupert General Hospital notified the city council last night that it might be necessary for it to seek assistance from the city in connection with the financing of \$119,000 capital building and equipment outlay which was being budgeted for next year. The Dominion and provincial governments had agreed to pay \$69,000 of the amount but the remainder would have to be raised locally. The hospital board had discussed ways and means of raising such money but, in the event of failure, might have to come to the city. The matter was in the hands of a committee.

Ald. T. B. Black, chairman of the finance committee, asked if the idea of a bond issue had been considered to which Ald. W. A. McLean replied there might be certain difficulties. The matter was left over for the attention of the 1951 council.

The capital projects being considered by the hospital board include completion of the new nurses' home and new boiler house as well as equipment necessary in the opening of certain new sections of the hospital.

TEACHER'S TROUBLES

PALMERSTON, Ont.—Teacher Shirley D'Alton has a billy-goat in her one-room country school near here. A few days ago she removed a herd of cows, and boys removed a group of fighting pigs. But the goat won't be driven away. He sleeps through most of the lessons.

prodding is what ACTH does."

GIVEN TIME THE RESEARCHERS will unravel the rest of the mystery—why the kidney glands fall down on their job.

Meanwhile we in Canada may be thankful that we have the Canadian Arthritis and Rheumatism Society on the job.

Victoria Report

by J. K. Nesbitt

May Be Rough and Tumble in Esquimalt—Conservatives and Liberals Could Oppose Each Other

VICTORIA.—There's going to be a real rough and tumble battle for Coalition nomination in Esquimalt riding when it comes time for a by-election to fill the vacancy caused by the death of Charles T. Beard.

The by-election will probably come in late January, as the government will want the seat occupied when the Legislature opens in February.

It could well be that Liberals and Conservatives could split over this nomination. Since 1945 Esquimalt riding has been a sharp-pronged fork in the Coalition's side.

We must go back a bit to give you the complete picture. The Hart-Maitland formula for coalition said that sitting members should have the first choice for nomination. So, in 1945, that should have meant E. V. Finland, a Conservative. But in some sort of odd hanky-panky the nomination went to C. T. Beard, a Liberal—and he got elected.

In the 1949 election there was an undignified scramble for the coalition nomination. Finland wanted it, but his leader, Herb Anscumb, much as he wanted Esquimalt in the Tory fold, was tied down once more to the Hart-Maitland formula—and so, of course, the nomination had to go to Beard.

Defiantly, Finland ran as a straight Tory. Anscumb probably in private admired this show of Tory spirit but he had to use the coalition whip to publicly chastise Finland. He read Finland out of the party. Even

Petition Filed, Signatures Short

Petition of a number of property owners for a sewer and road on Eighth Avenue between Alfred and Conrad Streets cannot be acted upon by the city council as a local improvement project since it was insufficiently signed. City Clerk H. D. Thain reported to council last night that twenty-one lots concerned are owned by the city and five by the provincial government. The petition was accordingly filed.

EARLY BUILDERS

The Gothic Cathedral at Rodez in France was begun in 1277.

Thomas E. Parkin, northern representative of the United Fishermen's and Allied Workers' Union, makes it clear that the new union being formed here to cover fishermen apart from shore workers is a new "local" rather than a "union." Both "locals" are under the aegis of the United Fishermen's and Allied Workers' Union.

MISSIONARY PRAISES NORTH—Miss Monica Storrs, 63, is returning to her native England after 21 years as an Anglican missionary in northern British Columbia—"the finest country in the world." She is shown here aboard the Cunard-Donaldson liner Ascania on the ship's last sailing from Montreal this season. Miss Storrs said when she first went to Fort St. John, B.C., there were only about 70 families. She settled with a pioneer family and later built her own log house. Now there are 15,000 inhabitants. She is sorry to leave the 3,000-square mile parish, but feels a younger person should carry on and that new missionaries should be Canadians. (CP PHOTO)

DON'T LET THIS HAPPEN TO YOU!

Wrap PARCELS carefully!
It's a shame to see gifts broken in transit yet it happens so often because they haven't been properly wrapped for mailing. Avoid possible damage to parcel contents by using a strong container. Protect documents, pictures, etc. with stiffening boards. Tie securely with strong cord or twine.

Send a POSTAL MONEY ORDER instead of cash!
Envelopes can accidentally break or tear in handling and money be lost. Whenever you send money through the mails, it's safer to use Postal money orders. You can get them at your Post Office.

CORRECT POSTAGE saves embarrassment!
Be sure to use the correct amount of postage. If you are in doubt, always have your letter or parcel weighed because the recipient must pay double the deficient postage. This is especially important on overseas air mail.

Be sure ADDRESS is clear . . . correct and complete!
You can help your Post Office by writing clearly when you address letters or parcels. Full name, street address, Post Office Box number or Rural Route number and return address in top left hand corner should always be included.

YOUR Post Office is your friendly servant.
Ask for help with your postal problems at any time . . . and ask about the various services available, such as: Air Mail, Canada Air Letters, special delivery, registration, Rural Directories, insurance of parcel post, C.O.D., gift parcels for overseas, international and Imperial reply coupons, and the Post Office Savings Bank.

AVOID DISAPPOINTMENT . . . MAIL EARLY FOR CHRISTMAS!

They discovered Aluminum!

AN "INSIDE STORY"

1900—It wasn't only Grandma's cooking that drew the crowds. She had the first aluminum saucan in town! In many other Canadian homes, too, this was the beginning of a bright, new era of better cooking utensils.

1925—When mother got married, she already knew how to enjoy life with aluminum. She brewed Dad's coffee in an aluminum pot. . . cooked those big family meals more easily in quick, even-heating aluminum.

1950—Today, daughter's kitchen belongs to the "aluminum age". She enjoys a larger selection of aluminum utensils. This "food-friendly" metal also protects the flavour, quality and purity of the foods she buys.

HINTS TO THE HOUSEWIFE
Whenever you see aluminum on the outside of a food or a drink, there's an "inside story" of cleanliness and purity.
Aluminum utensils clean easily. To remove natural deposit left by foods and water, use a tablespoon of vinegar in boiling water.

ALUMINUM COMPANY OF CANADA, LTD.

Merchants' Problem—

To Open or Not To Open

In a petition which City Clerk H. D. Thain advised represented well over fifty percent of the merchants concerned, retail boot and shoe merchants, clothiers and leather goods dealers sought from city council an amendment of the Early Closing Bylaw so they may keep their stores open until 9 o'clock Friday night each week as an accommodation to employees of Columbia Cellulose who are paid Fridays and for the cashing of whose cheques city banks have agreed to remain open. The council decided that it should have further information before taking action in amending the Early Closing Bylaw to permit of the request being met.

Explanation was made to council that, since cellulose plant construction work had gone on a six-day, 48-hour basis, it was impossible for the men to get into town during regular shopping hours and, accordingly, a good deal of business was being lost, especially in the trade categories mentioned.

Ald. Douglas Frizzell felt that it might be inconsistent to permit certain categories of merchant remaining open. He felt that the views of merchants opposed should be obtained. The council took the stand that it should know the views of the Prince Rupert Retail Merchants' Association as a whole on the matter and, accordingly, decided to defer action until more information was available.

It was mentioned that, according to press reports, the Retail Merchants' Association had voted against the proposed opening proposal.

City Clerk H. D. Thain advised the council that it had the authority to permit the extension of store opening hours to categories a majority of whom asked for such extension.

MORE PROCESSING
(Continued From Page 1)

years. For example, production of our forest industry during this period has skyrocketed from \$88,000,000 to \$332,000,000 in 1949. Agriculture, now second in value of our basic industries, trebled in a decade to \$140,000,000. Fisheries more than tripled their production in a 10-year period to almost \$37,000,000 in 1949. Mining more than doubled in the same period to a 1949 production of \$133,000,000.

"Keeping pace with the increased production and purchasing power in British Columbia is the increase recorded in population, which no doubt has been brought about by our attractive living condition, our advanced social and labor legislation, our favorable climate, and our progressive educational program. Up to the early part of 1950 British Columbia's population had risen to an estimated 1,138,000 from that of 772,000 in 1939, an increase of almost 44 per cent.

"I believe it behooves us all to become truly conscious of our duty in encouraging by every available means the growth, development, expansion and use of British Columbia products, so that we can make the fullest possible use of our raw materials, and by doing so, create the greatest possible employment of our people. The confidence which we express in the possibilities of our province and the support we extend to those industries which are doing so much to help build up our industrial structure have an important bearing on keeping within our province our most valuable asset—our young men and women who have been trained in our universities and technical schools. We must all increase our buying of British Columbia products, for the making of those products will provide work for our sons and daughters.

"The government, which has always favored and encouraged free enterprise, is fully aware of what industry means to our citizens in providing employment on an ever increasing scale, and at the same time swelling the industrial payroll. Taking into consideration the new developments taking place today in all phases of industry and enterprise, I am of the firm opinion that everything points to continued progress and expansion throughout British Columbia in the immediate years ahead if we support B.C. products and build B.C. payrolls."

N.C.C. COMMENDED—L. Cpl. Michael Chimko of Kelvington, Ont., has been commended by the army chief of staff, Lt. Gen. Charles Foulkes, for his courage and initiative in a plane crash in the Yukon last February. When a U.S.A.F. Dakota cracked up on a mountainside while searching for a C-54 missing with 44 persons aboard, Cpl. Chimko took command, even to supervising the building of a protective snow cave for the injured. This Army photo shows him stepping from a rescue plane after the five-day ordeal. (CP PHOTO)

Would Build On First Avenue

Mattson's Upholsterers would purchase property on First Avenue between First and Second Streets from the Canadian Legion for the purpose of erecting a building to be used in the manufacturing of upholstery, mattresses and such goods but first requires to know if they can obtain a permit for the construction of a frame building for that purpose and a licence. When the application came up at last night's city council meeting, it was referred to the utilities committee and city engineer for report.

Birthday Dinner At United Church

Commemorating the twenty-fifth anniversary of the United Church of Canada and celebrating the renovation of the local church by the Men's Club and the laying of a new carpet purchased by the Women's Auxiliary, membership of First United Church enjoyed a congregational turkey dinner last Thursday night. The appetizing meal was served by the Women's Auxiliary of the church. Two hundred persons were present.

Following the meal, remarks appropriate to the occasion were made by Rev. L. G. Sieber. A short program followed including the showing of two brief moving picture features.

FERNHAM, SURREY, ENGLAND—School girls are fashion-conscious too. The senior at a local school declined free milk because they want to keep slim.

Parallel Parkers Are Hauled Up

Tickets to ten Prince Rupert car owners were given by city police Saturday afternoon for ignoring the parallel parking by-law on Third Avenue.

A fine of five dollars and two dollar costs were paid by Kenneth Hardy, Murray MacDonald, A. S. Mitchell, John R. Currie, R. McFarlane, R. P. Stuart, E. P. Dale, D. Galbraith, E. A. Krook and J. J. Comadina.

Cpl. A. S. Wellens says that prosecutions will continue against car owners "until we straighten them up."

"We have warned drivers time and again, now we're going to teach them," said the corporal.
