Stolotov Too Busy Holidaying To Talk Peace

Can Envoy Is Told Will Receive Him

Internal Difficulties Continue
Berlin—Germans Not Enthusiastic About Red Aid
(CP)—Foreign Minister V. M. Molotov of undetermined duration" so to discuss the European situation with Smith, United States ambassador to had sought an interview to discuss the opening talks. A deputy foreign minister of Stolotov's work.

CELANESE MILL ENGINEERS DUE

S. B. Roberts, chief engineer of the Celanese Corporation of America, and Charles Klotz, liaison engineer, are due in Prince Rupert August 4 for a visit of inspection in connection with the inauguration of further stages of construction work for the celanese pulp plant at Port Edward.

President Of Hungary Quits

Communist Pressure too Much for Tildy—Son-in-law Under Arrest
BUDAPEST, (CP)—President Bolton Tildy of Hungary abdicated today. The communist-dominated government had accused his son-in-law, Victor Csornoky, until recently minister to Egypt, of espionage and treason.
Tildy a Methodist minister, belongs to the small holder party which had an elected majority before the communist coup in May of last year. First president of postwar Hungary, he had been under communist pressure for a year.
Csornoky is under arrest.

Run Holding Up Well; Fishers in District Now

weather notwithstanding, the run has been well maintained off the Skeena the past week while the overdue run of herring is showing. Latest boat average is placed at 66 sockeye and 15 pinks. The last week was 735 with the top boat to date 1900.

SETTLE U.S.-BRITISH WAR CLAIMS — U.S. Secretary of State George C. Marshall, signs an agreement in Washington settling war claims with England. British ambassador Sir Oliver Franks waits to add his signature to the document closing his country's \$31,000,000,000 lend-lease account and other obligations.

B. C. FARES BADLY IN OLYMPICS — U. S. WINS HOOP GAMES — PROTESTS

LONDON, (CP)—British Columbia's representative Canadian Olympic team fared badly today as preliminary heats were run off. The only British Columbian to pass the first test was Dr. George Athans of Vancouver, who finished thirteenth in Compulsory dives of the springboard diving competition, and Irene Strong of Victoria who qualified for the 200-metre breast stroke.

The United States basketball team easily defeated Switzerland 85 to 1 today in the first round of the Olympic round robin. The speedy Philippines squad opened the tournament with a top-sided 102 to 30 victory over the inexperienced Iraq team.

Egypt filed the first protest of the games as the claim was allowed, in the water polo game when she was defeated by Hungary 4 to 2. The game will be replayed tonight with new officials.

Olympic wrestling officials complained of chaos in the wrestling organization. Officials were not provided with copies of the draw until some time after the draw was scheduled to begin.
Yale's four-oared shell, on a time trial, sank an Italian single sculler. The Italian craft was raised and repaired.
The Eire team was reported tonight to have walked out of the Olympic Games. The reason was not immediately known.

36 DAYS AND NIGHTS

World's top-flight athletes today began sixteen days and nights of down-to-earth competition after the King yesterday officially opened the 1948 Olympics before 6,000 athletes and 82,000 spectators. Seven thousand pigeons were released to whirl aloft, signifying peace, as the fourteenth Olympiad of the modern era got under way. The Olympic torch, carried three thousand miles from Athens, was lit.

Today Jimmy Brien of Toronto and Ted Haggis of London, Ontario, took positions in the 100-metre heats.

The memory was recalled of peerless Percy Williams of Vancouver who 20 years ago yesterday electrified the sports world with his thrilling victory in this event.

DAYTON STRIKE CRISIS EASED

National Guard Called For By Mayor of Dayton

DAYTON, Ohio (CP)—The situation eased today after Mayor Louis Lohrey had asked Governor Thomas J. Herbert to assign National Guardsmen militia to the scene of the mass-picketed Univis Lens Co. plant. Earlier, Police Chief Rudolph Wurster reported the situation "out of hand."
The request for troops came before police had, apparently, restored order at the plant where several hundred employees for the fifth day attempted to return to work. The police broke up street fighting between pickets and non-strikers with the use of tear gas bombs.

STILL DIGGING BLAST RUINS

Death Toll at Farben Plant Now at 138

LUDWIGSHAFEN, (CP)—Weeping women waited today as working parties gouged into the I. G. Farben chemical plant wreckage for bodies of men missing since Wednesday's disastrous explosion.

The latest official French figures show 138 known to be dead, 200 to 250 missing and possibly dead and more than 2300 injured.

Germans, investigating the disaster, brushed aside charges by communist newspapers in Berlin that the factory was making war materials illegally and said that preliminary findings showed the blast had been touched off by ethyl chloride, an industrial chemical.

MAYOR BACK FROM REGINA

Drove 3500 to be Made Canada "Woman of the Year"

Mayor Nora Arnold was back at her desk in the city hall today while below, on Fulton Street stood her mud-spattered car bearing testimony of 3,500 miles of travel which took her to Regina where she became Canada's "Woman of the Year" two weeks ago.

The honor was bestowed upon her by the Canadian Federation of Business and Professional Women's Clubs in recognition of her achievements as a business woman and civic leader. Margaret Hayndman, K.C. of Toronto, president of the federation, officiated at the annual convention at the prairie capital.

Mrs. Arnold's travelling companion was Mrs. Basil S. Prockter. They arrived back in the city last night.

"Central British Columbia isn't the only place that has rough roads," Mayor Arnold commented. "We arrived in Saskatchewan just at the end of a drought when rain storms made the roads simply terrible for driving."
Regina and other prairie cities represented at the convention outdid themselves in hospitality for the visiting delegates who came from all parts of the country, Mayor Arnold said. More than 200 women were at the convention.

"I'm not much of a convention-goer but they certainly made that one pleasant," she recalled. "The Saskatchewan government, the city of Regina, Regina Board of Trade and several other organizations took turns in looking after us."
Mrs. Arnold and Mrs. Prockter drove to Prince George, then shipped the car to Jasper, motoring to Banff, then to Calgary, Medicine Hat and Regina. They returned via Lethbridge and the Cross Nest Pass.

Victorious Israeli Demands More Territory In Palestine

TEL AVIV, (CP)—Israeli has demanded new territory in Palestine, possibly including Jerusalem, as a result of Jewish victories over Arab armies. Foreign Minister Moshe Shertok served notice yesterday of Jewish demands in an address before the Israeli state council.

Bulletins

ARAB RESPONSIBILITY—The boundaries fixed by the United Nations is no longer practical and we must insist on changing them by adding territories and not by diminishing them.
Further fighting ruptured the Palestine truce yesterday. Israeli Army reported that Egyptian attacks assumed the character of a general attack against Israeli positions in south Palestine and said that the Jewish Army was taking appropriate steps.

REPORTING ON NEWFOUNDLAND

Opposition to Confederation With Canada Crumbling
OTTAWA (CP)—A party of Canadian observers has returned from Newfoundland and will report to the cabinet. They are expected to report a crumbling of opposition to Confederation in the island colony, since it is now generally accepted that Canada will soon proceed with negotiations to admit Newfoundland as a tenth province.

RAIN HELPS GRAIN CROP

General Improvement Noted on Prairies
WINNIPEG—Rain has been fairly general over the Prairies during the past week and, as a result, crop conditions are improved, according to the weekly crop report of the Department of Agriculture of the Canadian National Railways.

Conditions are excellent in Manitoba with all grain filling well. In Saskatchewan conditions are improved in all areas except the district northeast of Saskatoon where rain is still needed. In the west-central district, conditions are such that at least feed will be obtained. In Alberta a fair crop is in prospect in most areas, rain having been received in all sections except north and west of Edmonton.

The weather has been cooler with heavy rains in the Okanagan and all crops are progressing favorably. It is expected the cherry crop will be about 25 percent below last year's figure.

The new price of wheat, which is an increase from \$1.55 per bushel, results from Canadian contract with the United Kingdom.
Today Rt. Hon. C. D. Howe, minister of trade and commerce, announced that Canada had succeeded in fulfilling its second year commitment of 160,000,000 bushels of wheat to Britain.

THE DEMOCRATIC PARTY TICKET—Harry S. Truman, left, who succeeded to the office of U.S. chief executive in the spring of 1945 and who now has the choice of attaining office through his own efforts and those of the Democratic party, is shown with Senator A. W. Barkley, who was chosen as his vice-presidential running mate.

NO DECISION FOR WHILE

OTTAWA (CP)—A cabinet source says that no decision can be expected for two or three weeks on the arguments which were made recently by representatives of seven provinces in protest at the 21 percent increase in railway freight rates which was allowed in March.

All the provinces except Ontario and Quebec joined in an appeal to wipe out the last increase but offered to postpone the appeal if the government would appoint a royal commission to study the transportation problem. They prefer this to a general freight rate inquiry which the Board of Transport Commissioners has been ordered to start this fall.

Meantime the Board of Transport Commissioners now has before it the latest application of the Canadian railways for a freight rate boost, fifteen percent interim and 20 percent permanent, which came hard on the heels of the recent 17c per hour increase in wages to employees.

Strategy Of Republicans

WASHINGTON D. C. (CP)—Republican strategy today threatened to bog down the United States Senate in a filibuster against civil rights legislation. It would virtually end the hopes of any progress on anti-inflation, housing or any of the measures for which President Truman called Congress in.

The Republicans, who control Congress, plan to call as first business item the anti-poll tax bill, least important of all domestic measures recommended in Truman's message.
In seven other states, the tax is a prerequisite of voting and cuts off many negroes in the low income groups. This measure is the one most certain to start a filibuster which could go on for weeks with nineteen leather-lunged southerners ready to talk from now until Christmas to prevent a vote.

THE WEATHER

No disturbance is now in a position to affect adversely the warm summery weather which the province should enjoy today and Saturday.

Forecast
Queen Charlottes and North Coast—Clear. Fog banks at sea, occasionally drifting onshore at night. Winds northwest (15 m. p.h.) during the afternoon, otherwise light. Little change in temperature. Lows tonight and highs Saturday—At Port Hardy—50 and 65, Masset 50 and 65, Prince Rupert 50 and 65.

AIR CRASH IN TERRITORIES

EDMONTON—One man was killed and another slightly injured in the crash of a Royal Canadian Air Force Catalina flying boat at Kittigazuit, Northwest Territories. The plane crashed and sank while attempting a landing, the Northwest Air Command said.

Reports say the big plane was, apparently, caught in a cross wind while approaching a water landing. One float dug deeply into the water.
Seven other passengers escaped injury.

Mr. and Mrs. A. Dickens, popular pioneer residents of Prince Rupert, are observing their golden wedding jubilee today. The event will be celebrated at a family reunion tonight.

BUTTER FAMINE IS EXPECTED

Vancouver M.P. Thinks Oleo-Margarine Will Go On Sale

VANCOUVER, (CP)—A Canadian-wide butter famine next winter was predicted by a spokesman of the Western Canada Produce Association of Vancouver who said British Columbia would be the hardest hit.
Blaming the federal government for allowing Ontario and Quebec buyers to pay one cent higher a pound than in British Columbia, the spokesman, Wemyss Reid, said the shortage would be four to five pounds per person in British Columbia. He said the dairy industry estimates there will be a 25,000,000 pound shortage in Canada between August 1 and next May 1.

James Sinclair M.P. for North Vancouver predicted that oleo-margarine would go on sale this fall at 40c to 50c per pound.

ALBERTA NEXT

WITH the Quebec election over, political eyes will be turning to Alberta's general provincial election. There are signs that the Social Credit Party has lost some of its hold on the Province and internal dissension has added to its troubles but, in spite of this, there are few who predict the defeat of the Manning Government.

Created as a province in September 1905, Alberta had a Liberal government for 16 years, a United Farmers of Alberta government for 14 years and the Social Credit government has ruled for the 13 years since 1935.

The Progressive Conservative Party has withdrawn from provincial affairs in Alberta but it is generally believed that the Party supporters will vote "independent." The independents are expected to have about twenty candidates for the sixty seats in the legislature.

The Liberals will contest at least 50 seats and profess some hope of defeating the government.

The C.C.F. socialists' prospects are difficult to assess. After their heavy loss of rural seats in Saskatchewan (they lost 16) they are not expected to make any inroads in the 50 seats outside of Calgary and Edmonton.

CANADIANS 'DUMB'

CANADA has entered the greatest economic crisis in her history, but her closest friends, the Americans, do not appreciate its gravity because Canadians are the "dumbest" of all civilized peoples in making known the affairs of their nation to the world. So declares Bruce Hutchison, associate editor of the Winnipeg Free Press, in The Reader's Digest for August. "I use the word 'dumb' in its original sense," Hutchison says. "Our tongues are tied. When it comes to telling the world about our Canadian civilization, we are a society of mutes."

Canada's crisis, according to Hutchison's article, condensed from the American Mercury, is the result of European nations' inability to buy Canadian goods as in the past. Canada formerly exported much more to Europe than she imported from Europe. With the revenue from these exports she bought from America most of the goods she needed for industrial expansion and for maintaining a living standard second only to that of the U.S. Now, with European markets for her exports cut off, Canada is unable to pay for U.S. imports on the former scale. Seeing the threat of bankruptcy, she has already clamped an embargo on U.S. imports and arranged her first American loan.

As the strategic land mass between the U.S. and the Soviet Union, Canada is more important to America than any country in the world, Hutchison says. Canada's present crisis will damage American industry, which has long counted Canada as its best customer.

An expansion of American markets for Canadian goods is imperative, Hutchison contends. A reciprocal tariff plan between the two countries is also urged, though the author emphasizes that an exclusive customs union would mean "inheriting American tariffs against the world and would transfer Canada's economic sovereignty from Ottawa to Washington."

BEST FIVE CENTS WORTH

NEWSPRINT, which has been gradually increasing in price, is costing well over \$100 a ton today after sales tax and other incidentals are taken into consideration. There has just been a jump of \$4. Effective in August, it will be \$99 a ton at the mill.

Everything entering into the production of newspapers has become subject to larger outlays. This has been going on for years now. Services, labor, material, correspondence—everywhere, in one way or another, the greater the outlay.

The press is a necessity. Despite all that is said about radio and other forms of quick communication, the press, more than ever before, is a vital requirement. The newspaper is sold to you on the street, and is read in the air, on trains and boats and in busses. It is delivered to your home address in the city, or anywhere else. Five cents buys precious little, these days. But, if there is any article of trade that gives you more, for less money, it is not far fetched to suggest that the daily newspaper is entitled to, at least, honorable mention.

NOTICE TO TAXPAYERS

A penalty of 5% will be added to all taxes remaining unpaid at August 1st.

Final date for payment is SATURDAY, JULY 31st.

For the convenience of taxpayers the city offices will be open from 9 a.m. to 5 p.m. for payment of taxes only. Remittances post marked not later than July 31st will be accepted without penalty.

H. M. FOOTE
Collector.

NICKNAMED NOTABLES

"Vermin" Bevan is Latest of Crowd in Britain

By JAMES MCCOOK
Canadian Press Staff Writer

LONDON (C)—"Song-in-the-heart" Dalton and "Bootless" Wilson have a new companion in the company of nicknamed notables. He is "Vermin" Bevan. Other veteran members are "Tinker's Cuss" Shinwell and "Bathless" Gaitskell.

The granting of unappreciated titles to public figures has been a British custom since Parliament began. Nowadays nicknames are advertised and sometimes invented by music hall comedians and light BBC programs. In the Commons, references to boots, rats, tinkers, songs and baths are all invested with a special meaning every member remembers.

Dalton, when Chancellor of the Exchequer, spoke of facing Britain's financial future with a song in his heart. Soon afterwards, the economic crisis struck with full force, new austerity was imposed and overseas buying curtailed. The Chancellor's heart song became a dirge in the alert memories of his political opponents.

Wilson, as president of the Board of Trade, in a moment of oratory, spoke of difficult days before labor came to power and cited the tragedy of barefooted schoolchildren in his north of England schooldays. Said children, now of man's estate, denied they were ever shoeless and Wilson, in a published letter, indicated he was sorry about the whole thing.

Fuel Minister Gaitskell, appealing for economy in the use of fuel, said he had found he could get along with fewer baths and thus cut down coal consumption. He has since made plain in the Commons that the subject of baths wears him excessively.

War Minister Shinwell, former fuel minister, was quoted as saying before a Margate meeting:

"We know the organized workers of the country are our friends . . . as for the rest, they don't matter a tinker's cuss."

Prime Minister Attlee later told the Commons Shinwell asked him to explain he did not want

LETTERBOX

AGREES WITH MRS. ARNOLD
Editor, Daily News:

Recently we have noticed a few things in the News that show that there are still a few people who have not gone crazy. We might remind Mr. Wallin that Mrs. Arnold is not the only person who has very definite views along these lines. In fact many people have come to despise the Unions and all the parasites who are going about pap-feeding so many mollycoddles at the expense of the public. The governments have gone batty—plus.

You are right; "both old parties are in need of rejuvenation, to be of further use, or even to survive." (Mr. King and Mr. Johnson please note).

Unfortunately, Mrs. Arnold touches only the fringe of the labor situation when she says "less work for more money." We would be ashamed to accept all the things the Labor Board etc., demand for the poor down-trodden, helpless, ignorant, infantile workers of today. God help the poor employers of today, not to mention the consumers.

We note that Ottawa firemen have requested to be placed back on a 56 hour week.

Also the Barbers' Advisory Board has notified the barbers that they must remain open from 8 a.m. to 6:30 p.m.

In another place they have launched a "Let Us Alone Week." That is the result of the gimme guys having stuck out their hands so often during recent years.

Possibly it might be a good thing if all the gimme guys, racketeers, unions, and governments woke up to the fact that you can fool some of the people all of the time, but not all of the people all of the time.

The question is: Have we come out of our trance soon enough to save the pieces? DISGUSTED.

VOICE OF ELIJAH

LONDON, (C)—Rev. Elijah P. Scholfield, a London congregational minister, used his ventriloquist's dummy, "Jimmy," to tell Bible stories at special children's services.

THIS AND THAT

"Now, don't get impatient. None of her other dates do."

Tells About Navy Life

An autobiography by Jack McRae, which incorporated interesting highlights of his wartime career as a navy officer, comprised the entertainment program at the weekly luncheon meeting of the Prince Rupert Rotary Club at the Broadway Cafe Thursday afternoon. Guests at the meeting, welcomed by club president D. C. Stevenson, were R. A. Fraser, Vancouver, Capt. J. L. Stuart, Toronto and Jack Marchant, Prince Rupert.

You saw it in the Daily News!

ROTARY GIVES \$250 TO CITY BOY SCOUTS

A \$250 donation to the Prince Rupert Boy Scout's Association was authorized by the Rotary Club Thursday at its weekly luncheon meeting. The grant was made at request of District Boy Scout Commissioner F. E. Anfield to advance scouting in the city. One of the projects of the Scouts is a proposed series of camps at Digby Island this summer.

There is a possibility, too, that the Rotary Club may take over sponsorship of the Boy Scout and Wolf Club groups in the city. Of three recommended projects which club members will vote on next week, one is a proposal made by Mr. Anfield that the club take over such sponsorship.

Other proposed projects are the improvement of Roosevelt Park, suggested by P. H. Linzey and providing financial aid for needy students, proposed by Robert McKay.

The three proposals were selected by the club directors from 15 suggestions for club projects for the coming year.

BURNS MEET GOES "WET" STIRLING, Scotland (C)—During debate on whether the (Robert) Burns Federation should go "wet" or stay "dry," one member said: "The national bard's memory could be revered in water. His halo would be just as bright as if whiskey were used. But the federation meeting here, voted "wet."

ARMSTRONGS FAREWELLED

Club Party and Presentation Yesterday Afternoon

A final farewell party was held at the Prince Rupert Club yesterday afternoon in honor of Mr. and Mrs. W. L. Armstrong who are leaving soon for Edmonton to make their future home. Mr. Armstrong, who is president of the club, has been transferred to the Alberta capital in the service of the Canadian National Railways.

Feature of the farewell party was the presentation to Mr. and Mrs. Armstrong of a beautiful service plate and fruit bowl set in the new hand-wrought white gold centred with limoges China. The presentation was made with expression of appropriate sentiments by W. D. Lambie, vice-president of the club. Mr. Armstrong replied appreciatively. Mrs. Armstrong opened the package containing the gift after also making brief remarks of thanks. Members of the club and their wives attended the party.

Mr. Armstrong is leaving for Edmonton next Monday. Mrs. Armstrong and daughter, Miss Mary Armstrong, will leave later.

BAND CONCERT IN OPEN AIR

First Appearance Made in Snappy New Uniforms

Nattily attired in their brand new uniforms of scarlet tunics and grey-green Australian gabardine trousers, the Prince Rupert Shrine Club's city band appeared in open air concert at the Court House grounds last night. It was an unsettled, showery evening which held down the size of the crowd. Yet there were general praise-worthy comments for a delightful variety program which indicated the continued progress of the band under the capable leadership of Bandmaster Peter Lien. It was some time since last the band had been heard in public and its further attainments in the various types of selection was appreciatively noted. The program was a versatile one. The concert was under the sponsorship of the City of Prince Rupert.

The bandmen, under the direction of Peter Lien, sat near the Court House main entrance while scores of music lovers, in cars and in groups, remained near for the full program which lasted until about 9:30.

The program of selections included "Connecticut," "The Southland," "Minuet" (Don Juan), "Sons of the Brave," "Old Ireland," "Dawn," "Soldiers' March," "Carleton," "Man on the Flying Trapeze," "High Park," "Faith of Our Fathers."

S. L. Galloway of the Daily News mechanical staff, who has been holidaying at New Hazelton, returned to the city last evening.

TYPICAL SCENE ON CANADIAN BEACHES—Here is a scene that is being depicted on many Canadian beaches as Canadians flock to swimming places to dodge the heat.

CIVIC CENTRE'S FAME SPREADING

Leadership of Prince Rupert's Civic Centre in community and youth projects is coming to the attention of an increasingly wide circle of cities and towns in the United States and Canada and Civic Centre Director Don Forward has received a number of requests for local techniques used in community work.

Latest of these is from the New York State Youth Commission, an official government office, seeking literature and information on the operation of Prince Rupert's Civic Centre.

"It has come to our attention that you are doing outstanding work with the children and with the family," wrote J. Gordon Crowe, educational director of the New York State Youth Commission. "If you have descriptive material of your programs, we would like to have it."

This letter, Mr. Forward says, is representative of several received by the Civic Centre here. Information has been sent to cities in British Columbia, including Prince George and Trail, eastern Canada, and to such places in the United States as San Bernardino, California.

"Word of our Civic Centre is being spread widely by the tourists who visit it," Mr. Forward said. "We look on tourist visits as one of the best types of publicity. They carry the word to their homes with the idea that if Prince Rupert can do it, so can we."

To assist in publicizing the work done by the Civic Centre, a pamphlet has been prepared by the staff, listing capacity of the building and statistics relating to its use last year.

TIMBER SALE X-45116

Sealed tenders will be received by the District Forester, Prince Rupert, B.C., not later than noon on the 16th day of August, 1948, for the purchase of Licence X-45116, to cut 684,000 feet of Spruce, Hemlock and Cedar Sawlogs, on an area situated Mosquito Lake.

One year will be allowed for removal of timber. Further particulars of the Chief Forester, Victoria, B.C., or the District Forester, Prince Rupert or Ranger Scott at Queen Charlotte City, B.C. (11)

GOSPEL RALLY BRINGS MANY TO CIVIC CENTRE

Old time gospel religion, complete with lyrical hymns and testimony of salvation, came to Prince Rupert from the north last night, then left with the promise of an early return. Its sponsors were the Fox party of evangelists who held a musical evangelistic rally at the Civic Centre while enroute on the Prince Rupert from Ketchikan to Vancouver.

Rev. Lorne Fox, leader of the party of four and a gifted pianist, assured the congregation of 200 that in the near future the group would return to lead a more prolonged fundamentalist revival.

With him were his wife Ruth, contralto soloist and piano accompanist, Mrs. Alyce Wakefield, soprano and piano accompanist and Cecil F. Carathers, who led the hymn singing.

Although the rally was mainly musical, it was climaxed by a testimony of salvation delivered by Rev. Mr. Fox in which he related his experiences which included a long period of serious illness in his early life, which, he said, was cured miraculously by faith.

"That is the reason I have never commercialized my musical talent," he declared. "The Lord restored it to me when I was on the verge of death and I re-dedicated it solely to his service."

Mr. Fox' talent was clearly revealed on the piano keyboard in his renditions of several numbers, particularly an expressive composition of his own entitled "The Storm" in which he described musically the tempest on the Sea of Galilee which was stilled by Christ.

Another of his own compositions was the "Conqueror's March," which he played with vigor.

Gospel harmony songs by Mrs. Wakefield, Mrs. Fox and Mr. Carathers, interspersed with congregational singing of favorite hymns made up the musical portion of the program.

A curb-stone observer took a look at a suit-dressed visitor the other morning and offered the suggestion that the ladies might have got their idea for the now old "new look" from the men. There may be something in it. For some time now designers of men's jackets have been ruffling their curly locks and wrinkling their manly brows as they labored over the problem of giving men that "tall look."

They have acquired considerable success by making the jacket loose-fitting, lowering the regular pockets and sticking ticket pockets on the right side and by lowering the buttons. Whether you like it or not, men, you are going to appear to increase in stature this fall, if you choose one of these new styles. In England where perhaps there isn't quite so much suit material available, the style trend apparently still runs toward shorter coats with closer fitting waists.

People who like animals can have just about everything Noah had in his Ark if they visit the stores of Third Avenue. And you won't have any feed bills, all these little animals need is a place to park. You can have china ducks or glass cranes, spotted pottery cows or plastic bears. The latest in this line is a hollow bronze horse complete with leather bridle and leather saddle. This nic-nag is just about six inches high and the very thing to help give that outdoor atmosphere to Dad's den.

The life of a radar expert is full of the unexpected. A young business man of Prince Rupert who specializes in that line of work seldom knows when he will be called to do a job, how long he will be on it and sometimes he doesn't know where he will be when he does finish. Recently he was seated at the dinner table when the phone jingled. The radar set on a coastwise vessel was out of order, would he drive to Watson Island wharf? A fish packer would meet him there and take him to the ship tied up at Cassiar. By 8 p.m. he was busy testing and making adjustments to the delicate apparatus.

Meanwhile the ship finished her cargo handling at Cassiar and continued on her way. Her run up the river depended on the tide and she couldn't afford to fall behind schedule. The ra-

dar technician lost count of the number of stops the ship made but by midnight his work was finished and, after a cup of coffee and a well-earned snack, he sought the Captain.

The young man had no idea where he was nor how he was to get back to his car at Watson Island, but it wasn't much of a job to the skipper. He said he would let the radar man off at the first handy float and phone to a cannery where a small boat was standing by to make the run into Port Edward. And so it was; the technician was left on a tiny float, and told to wait for a boat with the initials F.M. on the bow.

On shore he could see a few lights of what he took to be a cannery but it was shut down for the night. Twinkling lights out in the channel indicated the passage of fish boats but the lonely watcher wondered how anyone was going to find him in what seemed like just another black spot in the night. When he was thoroughly chilled and about ready to believe there wasn't a boat coming for him, he heard the sound of a high-speed motor and saw a mast light approaching the float. He didn't see F.M. on the bow but he decided if the boat was going anywhere near Prince Rupert or Port Edward they were going to have another passenger from there on. However the skipper of the little boat was looking for him even if he did have to arrive with a boat that hadn't been expected. The radar man got into his bed about 2 a.m.

Want to baffle the heat and get more of it to warm your house instead of all outdoors? We aren't guaranteeing anything but a manufacturer in Selkirk, Manitoba, has a special stove pipe that is designed for that sort of thing. It has five 1 1/4 inch tubes built into it on a horizontal plane and at varying angles to each other. The tubes are open at both ends and, according to the plans, the more or less waste heat in the stovepipe warms the tubes and the air in them thus setting up a hot air circulation system in the room.

**Passes Medical
Council Tests**

Dr. John A. Hopkins, son of Mr. and Mrs. R. G. Hopkins, has been successful in passing his Medical Council of Canada examinations which entitles him to practice medicine anywhere in Canada. Dr. Hopkins, who is a graduate of University of Manitoba medical school, has completed a year's internship at Vancouver General Hospital and has joined the medical staff there as resident in surgery.

Timely Topics from

Mrs. C. R. De Kergommeaux, Terrace

Mr. and Mrs. C. C. Warren of Victoria who have been visiting the latter's brother and sister-in-law, Mr. and Mrs. G. McAdams, left for their home on Thursday driving to Prince Rupert with Mr. C. Adam. Mr. and Mrs. McAdams accompanied them to the coast.

John Tomate had the misfortune to have his leg broken while at his work in the woods on Monday and is doing as well as can be expected at the local hospital.

Canon H. C. Hinchliffe and son David are the guests of Mr. and Mrs. G. Dover and will be leaving for the coast on Saturday.

Mr. and Mrs. Kinsley Hall returned by car to their home in Seattle after a ten days' visit with the latter's parents, Mr. and

**MISS JANET YOUNG
IS TERRACE BRIDE**

United in Marriage to Joseph Feiber at Quiet Ceremony

TERRACE—A quiet wedding was solemnized on Wednesday evening at 7 o'clock at the Greig Avenue home of Mr. and Mrs. H. Pache when Miss Janet Young, A.T.C.M., became the bride of Joseph Feiber. Rev. J. McAllister officiated.

Gowned in an afternoon dress of pale pink jersey silk which set off her fair beauty the bride wore a matching hat and a corsage of white roses. Her only attendant was Mrs. H. Pache who wore a blue gown and a corsage of pink sweet peas.

Henry Pache was groomsman. The room was tastefully decorated with flowers and the archway was decorated with pink and white streamers and a large white bell under which the happy couples stood to make their marriage vows.

Sandra and Teddy Pache were the only other attendants.

Following the ceremony, Mrs. Pache entertained the newlyweds at a delicious chicken dinner. The lace covered table was centred with white violas and nasturtiums flanked by tall white tapers. A beautiful three-tiered wedding cake, made by Mrs. Glass stood on a lace covered side table and was duly cut by the bride.

The happy couple, well known residents of Terrace, will make their home here where the groom has a fine home on the Eby road. The bride is a local teacher of music.

**Quesnel Gets
Plywood Mill**

VANCOUVER—John B. Benes yesterday announced plans of his company to build a new plywood mill at Quesnel in the Cariboo district. One hundred men will be employed. A timber management licence has been granted the company.

Moose Deliver Second Defeat To Savoy Squad

BRIGHT EXHIBITION OF BASEBALL SEEN LAST NIGHT

MOOSE 6, SAVOY 3.

Even horses can be enthusiastic. Harry Buckle, 16-year-old brother of the leading northern apprentice D. Buckle, rode his first winner at Carlisle, Cumberland, when Lyrical Lad literally ran away with the Border Handicap. With the lightweight jockey up, the Lad just galloped and galloped. He didn't stop running until the winning post was half a mile behind. The winning tote dividend represented odds of 206-1.

A vastly-improved pari-mutuel now in the experimental stage. may revolutionize the whole system of pool betting, its inventors claim. Each ticket will carry the time at which the investment is made and at the same time will know the return he can expect instead of waiting for this vital statistic until after the race. It is not expected the machine will seriously affect bookmakers' business.

IN THE SUPREME COURT OF BRITISH COLUMBIA IN PROBATE In the Matter of the "Administration Act" and In the Matter of the Estate of Ingrid Borghill Johansen, Deceased Intestate. TAKE NOTICE that by Order of His Honour Judge W. O. Fulton, Local Judge of the Supreme Court of British Columbia, I was on the 26th day of July, A.D. 1948, appointed Administrator of the Estate of Ingrid Borghill Johansen, late of Atlin, British Columbia, who died on or about the 18th day of May, 1948, at Whitehorse, Yukon Territory. All persons indebted to the said Estate are required to pay the amount of their indebtedness to me forthwith and all persons having claims against the said Estate are required to file them with me properly verified on or before the 15th day of September, 1948, failing which distribution will be made having regard only to such claims of which I shall have been notified. DATED at Atlin, British Columbia, this 27th day of July, A.D. 1948. ALBERT EDWARD RODDIS Official Administrator Atlin, B.C. (189)

Twenty Years Ago in Sport

Football—The delightful uncertainty of sport was shown when the Regiment, playing with ten men, defeated the Terminus 3-0 in the City Football League. The Regiment's strong defence. The victory was chiefly due to Both teams had many changes, the Terminus being without Warren, Chenoski, Angus Macdonald and Spiro Gurvich and playing Burdett, Howe, Harris and Dido Gurvich instead. The Regiment were without Ross, Baphe, Bye and Doherty with Frank Russell, Alf Hodgkinson and Allan Davis turning out. Goals for the Regiment were scored by Allan Davis, Wilson and Tinker. Brand kept a splendid goal and saved a penalty kick.

Teams: Regiment — Brand, Lamb, Norrington, A. Hodgkinson, T. Kelsey, F. Hodgkinson, Wilson, Russell, Tinker, Davis. Terminus—D. Gurvich, Skinner, Donald, Hill, Currie, Harris, Harrison, Strachan, D. Dickens, Burdett, Howe.

Lacrosse—In the city juvenile lacrosse league, Rangers won a closely contested game from the Rovers 4-2. Charlie Woods with 3 goals and E. Johnson with 1 scored for the Rangers while Joe Gillis got both the Rovers' goals. R. S. Woods refereed.

Rangers—Charles Woods, A. Dominato, R. Gillis, B. Brooksbank, A. Stegavig, E. Johnson, B. Smith. Rovers — E. Antonelli, Joe Gillis, E. Gorson, C. Erickson, J. Campbell, P. Mazzei, A. Gillis.

SHADES OF YESTERYEAR

The old 'shell game'

His drawing "Ladees... and Gentlemen... all you have to do is guess which shell hides the pea." He never really fooled us. But, we enjoyed watching him work. With his high hat, fancy weskit, "ceegar" and slick handling of silver dollars we had grudging admiration for him. He is gone. But, affectionately remembered by many of us.

Those with long memories have remarked on the never-changing qualities that characterize Princeton Beer as the beer a man can count on, year in, year out. Today, as in 1901, it is brewed of the finest grains, the continent's most prized hops and the diamond-clear Tulameen waters. We take pride in this consistency of product... and pride, too, that our friends through the years, know they can count on Princeton Beer.

**Reminiscences
and Reflections**
By W.J.

There are twenty-four letters forbids disclosing the name. For two words, that's a lot, and, incidentally, the despair of headline writers. There is no elastic in type. And you cannot do any condensing worth a hang. "Prog-Cen" has a meaningless, stupid look and sound. "P-C" makes you think of Privy Councillor. "Foy" is the right length but has the wrong taste. Under the banner of "Conservative," the party scored its greatest achievements. That meant progressiveness, if it meant anything. Why not pack it around?

Cars from far places roll through the streets of Prince Rupert, and yachts, redolent of anifold comforts, linger in the harbor. Holidaying, this way, is getting closer to both country and people. There is more leisure and space. Fewer are hot and bothered. Woes of the world seem a long way off.

The first hundred years are the hardest, in the case of Edmonton, announced Thursday to have a population of 125,000. The city's history does go back some where around a century. For generations there was little there, other than a fort. She has known ups, and a good many downs—away down when the C.P.R. was built through Calgary. However, Edmonton had Frank Oliver, who could take a lot of beating and whose ability to use strong language was plainly a gift.

George Bernard Shaw, who was 92 years of age last Monday says there are three great men in the world. One is named Stalin. Another is Einstein, the scientist. The third is a playwright, but an inborn modesty

MARQUIS IS IMMIGRANT
CAPE TOWN, South Africa —A British settler, the Marquis of Tavistock, heir to the Duke of Bedford, bought a \$100,000-farm here recently. The marquis said on arrival that he had come to South Africa primarily to give his four children "a better chance of life than they could obtain in Britain.

Only part of the spacious, rugged west is served with smooth roads, which take time, people and money. Skeena cannot hope to equal California just yet, but unthinking people hold that notion. All things considered, and with due allowances, Skeena has not done too badly. There will be fewer jolts and jars, as time wags on. The old song "Wagon Wheels" gives you the idea.

Frank Capra, in Prince Rupert, yesterday, told the Daily News he was always being mistaken for Farnk Capra, the distinguished Hollywood producer. He said, further, that because of the confusion, he might change his name. No chance. Most of us never have his luck. There is quite a relish in being taken for a celebrity. That's only human.

WATERFRONT**

A notice from the Department of Transport advises that the acetylene fog gun at Green Island has been replaced by a diaphone fog signal which gives one blast of three seconds duration every 30 seconds.

On her regular ten-day voyage from Vancouver via Queen Charlotte Islands, Union steamer Coquitlam, Capt. Alex McLellan, arrived in port at 630 this morning and will be here until tomorrow night when she will sail on her return south over the same route. In addition to local passengers, the Coquitlam has a considerable number of round trip tourists.

Ketchikan motorship Dagny, Capt. Joe Burdette, was in port yesterday discharging three carloads of frozen fish from Ketchikan for transshipment East over Canadian National Railways.

FISHES FOR TOURISTS
SYDNEY, Australia —The tourist minister of New South Wales is going fishing abroad—for tourists. He's taking a color film of big game fishing off the New South Wales coast to lure American and British travellers.

Alaskans Would Use Prince George—Local Official Back
Not only the hundreds of tourists which she is carrying but the people of southeastern Alaska ports are highly delighted with the new Canadian National Steamship Prince George, reports William Cruickshank, general agent, passenger department here, who is back in the city after making a round trip to Alaska on the new ship. Indeed, the Prince George has made a great hit and the local people of Alaska are clamoring for accommodation for their own travels which it is, of course, impossible to give to any great extent at this time in the height of the tourist season. The tourists also speak highly of the new ship and the service she is giving. Alaska towns are again cashing in on the tourist business this year on a scale which they had not done since before World War II and it is proving a distinct boon to them.

Mr. Cruickshank had the opportunity to travel as far as Whitehorse, Yukon Territory, while the Prince George was at Skagway. Whitehorse is a thriving town today of a population estimated at from 3500 to 5000 persons. It too, is feeling the benefit of an active tourist traffic as well as being a transportation hub where rail and ship meet. The Yukon River steamers are having an active season. The local official was impressed with the rugged grandeur of the railway trip from Skagway over the White Pass line.

**PRINCE RUPERT
YEARS AGO**

Twenty-Five Years Ago
A tender from Ernest H. Shockey for the moving of the old provincial court house from Third Avenue to Bowser Street for conversion into a Masonic Temple was accepted by the building committee.

The gasoline cruiser Vaquero, owned by Col. R. N. Stewart O.B.E., was taken to the dry dock after submerging when beached in Island Bay, Wark Canal. The vessel was caught in shallow water when the tide dropped and filled with water when it rose again.

Word was received in the city that Dr. J. H. King, federal minister of Public Works, would visit Prince Rupert August 1 and 2. Arrangements were being made to interview and entertain the minister.

MAKE LOTS FOR EVERYBODY!
**Get 50% MORE Jam or Jelly
from your Fruit with
CERTO**

RESULTS ARE SURE!

WHAT IS CERTO?
Why does Certo give you so much more jam and jelly? And why do Certo jams and jellies look better... taste better?
It's all quite simple. Certo is nothing but "fruit pectin"—the natural substance in fruit that makes jams "jam" and jellies "jell". It's extracted and refined to help you make better jams and jellies more easily and quickly.

THE CERTO SHORT BOIL
With Certo you don't have to boil and boil and boil your fruit to make it set. A one-to-two-minute full, rolling boil is enough for jams... a half-minute-to-a-minute for jellies.

CERTO DOES THIS
1 Gives you 50% more jam or jelly because you save all the precious fruit juice that wastes away in steam in long boiling.
2 Cuts to a fraction the time spent over the stove.
3 Retains the lovely, natural fresh-fruit taste and colour. That's still more important because with Certo you use fruit at its peak of flavor and colour—not the under-ripe fruit used in long-boil recipes.

**SUCCESS SURE —
EVEN FOR BEGINNERS**
However inexperienced you may be, you'll have no failures if you follow exactly the recipes provided with Certo. Different fruits need different handling. There's a separate kitchen-tested recipe for each one.
