

# Couple Alive and In Good Shape After Crash

## Prince Rupert Airman Hero of Big Search

### Jarvis McLeod Found Couple—Are To Be Evacuated Soon

VANCOUVER (CP) — Five days in a jungle forest hemmed in by towering mountains may end today for Pilot Bill Grant, 30-year-old Vancouver airman, and a 28-year-old student nurse, Sheila Cure. Survivors of a mountain crash late Monday, the two have been positively identified by rescue forces of the Royal Canadian Air Force and the crew of a United States helicopter. "They are in good physical condition," said Lieut. A. H. Raumer of Port Angeles, Washington, pilot of the United States Coastguard helicopter.

The couple were first sighted by Flying Officer Jarvis H. McLeod of Prince Rupert and the crew of his Royal Canadian Air Force Canso search plane. They sighted the wreckage of the plane on the mountain and then saw smoke coming from a rocky ridge about six miles from the scene of the crash.

Three avenues of rescue were considered possible today for the couple whose plane crashed on the last leg between Pentiction and Vancouver of a plane flight from Alberta to British Columbia. In the expectation that the two persons sighted by the search planes are Grant and Miss Cure, these preparations were made:

1. A United States helicopter was moved to Hope to possibly attempt the evacuation tomorrow.
2. Three Royal Canadian Air Force para-rescue men jumped and landed near the spot on snow-capped Mount Homozee in Washington State where Grant's plane crashed. They will seek to join Grant and Miss Cure who have been dropped clothing, food and medical supplies.
3. A party of loggers from a camp eleven miles from the scene of the wreck has set out to reach the two persons who were spotted yesterday from the air.

### PEACE MOVE FORD STRIKE

DETROIT. (AP)—A peace move on the strike of 65,000 Ford workers was instituted by Dearborn's Mayor Orville L. Hubbard today. He proposed a meeting with Ford and United Automobile Workers' officials at his office for a "supreme civic effort" to end the walk-out. There was no early reply from either company or union.

### FALSE ALARM AT ASPHALT PLANT

The fire department was called out again to the city asphalt mixing plant yesterday afternoon but, according to City Engineer Don Stewart, there was not a fire—just smoke and steam.

Hot asphalt which had been put through the machine once was put in for a second mixing so that the mixture was much hotter than usual, resulting in a good deal of smoke and steam. One of the truck drivers, fearing a repetition of the morning blaze, called the fire department.

Although the plant was damaged in the morning fire the crew was able to finish the asphalt that was in the process of being mixed but the machinery will remain idle for the next two or three days while repairs are being made.

# Advance on Shanghai Continued by Communists

## IS JAILED FOR BEATING CHILD

Henry Bedard, a resident of Seal Cove, received a six-month jail sentence plus a \$200 fine when he was found guilty Friday afternoon by Magistrate W. D. Vance on a charge of beating an 11-month old infant.

Bedard gave himself up to the police Thursday after a search of the city and district which began last Monday night when the offence occurred. It was charged that he "did assault and beat Sharon Matthews, a female, occasioning actual bodily harm."

The Matthews child was a member of his household. Search for Bedard began after his wife complained that she found the infant suffering from bruises, shock and scratches in their home when she returned from downtown at midnight. Court was told that she and her husband had had an altercation while on their way to a bus and that Bedard had arrived home first.

In default of the \$200 fine, Magistrate Vance ruled that Bedard should serve an additional three months, to run consecutively to the six month sentence.

## Grits - Tories Get Together

Liberals and Progressive-Conservatives are already combining forces for the provincial election campaign in support of J. D. McRae who was chosen candidate for Prince Rupert at the joint convention on Tuesday night.

The campaign will be directed by a joint committee consisting of Robert McKay, J. T. Harvey, W. R. McAfee, E. R. Gordon and two more members yet to be selected.

Arrangements were made for a public meeting to be held in the Civic Centre auditorium May 21 to hear Premier Byron Johnson.

Coalition headquarters will be in the front portion of the Northland Dairy premises on Third Avenue.

## THE WEATHER

**Synopsis**  
Relatively dry air over southern British Columbia gives promise of clear skies and bright sunshine over the week-end. Afternoon temperatures are expected to reach 70 to 80 over the interior valley and 60 to 70 along the southern coast. Some cloudiness extends over the Queen Charlottes and northern mainland and a very weak disturbance moving into the Gulf of Alaska is likely to cause a few showers over the Queen Charlottes tomorrow afternoon. There is little indication of any marked change over the rest of the province.

**Forecast**  
Queen Charlottes and North Coast—Overcast today and Sunday, a few light showers Sunday afternoon. Winds—Light except northeasterly (20 m.p.h.) over the southern Charlottes today. Little change in temperature. Lows tonight and highs Sunday—At Port Hardy 45 and 56, Masset 42 and 50, Prince Rupert 42 and 52.

## SEEDING IS UNDER WAY

WINNIPEG — Spring seeding has commenced in all sections of the prairie provinces, under conditions varying from poor to fairly good, depending on soil moisture conditions, according to the first weekly crop report of the Department of Agriculture of the Canadian National Railways.

Seeding is general over southern Manitoba, with some districts reporting wheat seeding 75 per cent completed. In northern Manitoba, wheat seeding is two weeks earlier than last year. It is expected there will be an increase of approximately 15 per cent in acreage sown to wheat, with smaller increase in oats and barley and a definite decrease in flax. Moisture conditions are fair to good in southern Manitoba while in the northern section there is no reserve of moisture. Heavy rains would be welcomed throughout the province.

In southeastern Saskatchewan wheat seeding is about 35 per cent completed also 15 per cent of the coarse grains have been sown. Moisture condition is generally poor to fair. First seeding was reported in central Saskatchewan on April 6 but was not general until the month end. The topsoil is mostly very dry and subsoil moisture only fair. Seeding has commenced throughout northern Saskatchewan and will be general this week. Moisture conditions are fair but heavy rains would be welcomed everywhere. The grasshopper threat is serious throughout the southeastern and central sections of the province. Soil drifting has also occurred in these sections.

Northeast of Calgary seeding commenced two weeks ago and will be general within a few days. The season here is from one to four weeks earlier than last year. Moisture conditions are poor over the entire territory and rains are badly needed as drifting has occurred in several places although damage does not appear too severe. Moisture conditions in the Edmonton territory range from fair to poor with seeding well under way. Only light scattered showers have occurred this spring and general rains are essential.

Weather was dry and windy in the Peace River area with light scattered showers. Wheat seeding is well advanced and seeding of coarse grains is making good progress. Moisture conditions are generally good and germination should be well in advance of last year. Wheat acreage shows an increase, with coarse grains and forage crops being decreased.

## SENTENCE IS SUSPENDED

Judge W. O. Fulton Friday handed down six months suspended sentence to E. D. Manson after finding him guilty of a charge of unlawfully purchasing placer gold and ruled that 95 ounces of gold, valued at about \$3,000, should be held in police custody until next September 15.

The suspended sentence and adjournment of confiscation was recommended by Crown Council T. W. Brown after he and Defence Counsel Rod MacLeod had conferred with Judge Fulton at the conclusion of the two-day hearing.

In suggesting suspended sentence for six months, Mr. Brown also asked that Mr. Manson be required to contribute \$100 to the cost of prosecution and sign a recognizance for good conduct for the prescribed period.

The gold will be held in police custody until the police complete an investigation of its origin. Manson told the court that he had acquired 80 ounces of it from a man named George Duffy who said that he had mined in the Yukon and 15 ounces from Luther W. Elder of Prince Rupert.

"The police are thoroughly convinced that the 80 ounces of gold were stolen. If it was stolen, it would be unfair to the rightful owner if it were turned back to Mr. Manson. If it were not stolen, it would be just as unfair to Mr. Manson to have it confiscated," he declared.

A small amount of jewellers' scrap gold which did not feature in evidence, was ordered to be turned back to Mr. Manson after he had agreed to waive appeal against the conviction.

Friday afternoon's session heard Mr. Manson testify in his own behalf. Under questioning of defence counsel he told the court that he had "never come in contact with the provision of the Criminal Code which is the basis of this charge."

"I have never met any other jeweller who had knowledge about it either," he declared. "While I was in Vancouver recently I made a point of contacting jewellers and manufacturers of jewellery and all of them said they had never heard of it."

The section of the Criminal Code referred to is one which requires purchasers of untreated gold to file a record of the claim and the free miners' license of the vendor with the court registry office. Its purpose is to protect mine operators from high-graders.

Mr. Manson said that the man who gave his name as Duffy had the appearance of a miner and when he last saw him he assured him he would be back in the spring or fall.

"I still don't think that gold was obtained by Duffy illegally," he said in answer to a question by his counsel. He declared that he had advanced money to Duffy against the gold and that he had never made an outright purchase of it.

## SENECA COIN DERBY WINNER

CHURCHILL DOWNS—Seneca Coin won the Kentucky Derby today. Olympia, the favorite, finished seventh.

MERSTHAM, Surrey, Eng. (AP)—When a full team of made bell-ringers could not be found for the parish church here, the vicar recruited a team of women ringers.

CANADIAN DELEGATE AT U.N. ASSEMBLY—Lester B. Pearson, Canada's secretary of state for external affairs and chairman of the Canadian delegation (left), is shown with General A. G. L. McNaughton, permanent representative to the United Nations, at the second part of the third session of the U.N. general assembly at Flushing Meadows, N.Y. Nineteen items of the original 75-point agenda were held over when the first part of the session adjourned in Paris. The assembly is expected to continue in session for six weeks.

## Days of '98 Emulated

Bearded gentry, such as those who might have come in from the hills and creeks of '98 with the picks, packs and pokes, and frilly costumed women, emulating those of that turn of the century period such as might have frequented the roaring "pay-off" towns, mingled among 1500 or more persons who gathered for the Gyro Club's Klondyke Night in the Civic Centre. The event was an outstanding success in every way, including the important objective of making a stake against the club's obligations in connection with the new McClymont swimming pool. All around, it was a great and memorable night.

While the centre of things was the auditorium where the dancers jostled from 10 p.m. until 2 a.m., carnival features throughout the evening plied a roaring trade in the game room and main corridor, all helping substantially toward the general cause.

It was the second Gyro Klondyke (Continued on Page 2)

## BRITISH TRADE UNION INVOLVED

LONDON. (AP)—British trade union leaders today found themselves in an uncomfortable position caused by the Canadian Seamen's Union strike. The British Union leaders were worried about a possible split in their ranks.

Both the Canadian Seamen's Union and the Seamen's International Union are affiliated with the International Federation of Transport Workers as is the British Transport and General Workers' Union.

The International Federation has ruled that there is no cause for foreign unions to intervene in the strike.

British dock workers received a request from William Green, president of the American Federation of Labor, not to support the Canadian Seamen's Union strike. Strikers at Newport, Monmouthshire, decided that the trouble is "not our concern."

Canadian Seamen's Union President Harry Davis accuses Arthur Bird, national secretary of the dock group of the Transport and General Workers' Union of repeating "shipowners' propaganda."

## Hong Kong Hemmed In

Breach Is Blasted In Perimeter Northern China Port

HONG KONG (CP)—Chinese Communist guerrillas and professional bandits have almost hemmed in Britain's 350 square miles of leased "new territories" on the Chinese mainland opposite Hong Kong, colony police forces said. The rugged territory is ideal for bandits.

The colony's permit garrison is now being reinforced and British forces have been ordered to stand by for duty "wherever and whenever required."

Chinese communists today claimed the capture of Lingshan, 33 miles northeast of the United States naval base at Tsingtao.

Shanghai reports that Chinese communist troops are advancing on Shanghai today. They blasted a gap in the city's strongly fortified outer defence perimeter, official and press reports said. The dent was made at the southwest end in a pitched battle. Some 10,000 communists were driven back at Kunshan.

Thousands of Chinese Communist troops, said a later Nationalist communique today, hammered with little success at Shanghai's outer defences. The communique said that 15,000 Reds in two groups attacked on two sectors thirty miles west and 35 miles northwest of Shanghai but were hurled back with heavy losses.

## GENERAL MOTORS FOOTBALL CLUB

There was a good attendance at the meeting of the General Motors Football Club last evening in the Civic Centre. Doug Frizzell was enthusiastically named honorary president of the club.

An executive consisting of M. Halvorson, Jock Davidson, Joe Ward, J. S. Wilson, George Dawes and team captain Glen Olsen was named. These were given power to add to their number.

The new strips for the team have been ordered. The players have also had two practices and are very keen to get back into competition. Some new players have been added and while they will lack experience they are willing to learn.

Players available to date include Glen Olsen, Pat Wilson, Jim Hebb, Andy Owens, Charlie Currie, Tommy Boller, Bill Sunberg, Jack Sharpe, John Wilson, A. McKay, D. Mercer, David Smith, R. Robinson, Joe Haugen, Arne Lien, Louis Campagnolo and Bobbie Currie. Others wishing to try out with the team should get in touch with any player or member of the executive.

A talk on the need for practice and discussion on the five essentials for a good footballer was given by Jack Wilson. He reinforced his remarks by quoting from a recent widely-acclaimed book by Peter Doherty, the famous Irish international footballer.

## V-E DAY

FOUR YEARS AGO TODAY Germany capitulated to the Allies and the next day, May 8, was officially proclaimed as "V-E Day" to bring the European phase of World War II to a close. The war with Japan went on until late summer.

Progress toward peace has, undoubtedly, been disappointing in the four years that have elapsed since May 7, 1945. We had confidently expected this day in 1945 that, ere this, the principles for which we had fought during nearly six years of bitter and terrible conflict would have been established in the world, that peace and goodwill would have been fully prevailing, that substantial progress would have been made in the eradication of the national and economic roots of war.

Discouraged would we have been could we have foreseen that the Allies of 1945 in such a short space of time in history would have been divided between themselves in elementary conflict of ideologies and struggle for control with bitter cold war waging and the sparks of open warfare existing.

There is no use being deluded about the situation today. An encouraging factor is a seeming improvement in Germany about which, however, it would be unrealistic to be too much deluded. Yet there could be elements of conciliation and co-operation which must be exercised before there can be any general settlement of the affairs of the troubled old world.

"V-E Day" 1949 may not be replete with satisfactions but it is not without hopes of better things to come.

Of our country, anyway, and of the western world, we can at least be confident in the knowledge that our resolve is to bring about that brighter and better world for the making of which millions died and suffered with many still suffering.

Almost daily the Russians claim they were leaders in some field or other, but they have not yet claimed the diamond-studded belt for being first with the truth.

## MOTHER'S DAY

HEAVILY PERMEATING all life is the mother idea. We call them Mother Nature and Mother earth, and many peoples prefer to designate their native haunts the motherland.

Mother love is idealized as one of the greatest forces of human relationships, as indeed it is. Many a good mother has, by the strength of her love, overcome the handicaps of environment and outrageous fortune to shape a child's life for success and happiness.

This is the ideal of motherhood and challenges mothers to live up to it. Just as Mother Nature, Mother Earth and the mother country are frequently appalling in their cruelty to the children in their spheres, so the individual mother, sometimes unwittingly but oftener selfishly, can twist and warp a child so that his real capabilities are never attained.

Motherhood is a privilege, but it is also a great responsibility. The life that is born is largely in her keeping during the formative years. If she fails, a life may fail of achieving all that it might.

A Roman mother, in the company of a gaudy woman boastful of her rich possessions, finally displayed her two sons, saying proudly: "These are my jewels." That is the essence of good motherhood—self-forgetfulness and concentration on the life of the child.

Thrice blessed is the child who has a good mother. He who has not starts out with one of life's severest handicaps.

If, as has been said, history is the lie that is generally agreed on, Russia is not making much history.

## Associated Boards Smithers Meeting

Annual convention of the Associated Boards of Trade of Central British Columbia is to be held this year in Smithers but, so far, no date has been set for the gathering. W. J. Scott is chairman of the resolutions committee of the Prince Rupert Chamber of Commerce and is already seeking possible resolutions from members of the Chamber.

Try a Classified Ad for Results.

## Days of '98 Emulated

Night and fully established this as one of Prince Rupert's informal social institutions. It looks like Klondyke Night is now here to stay.

Several special events rounded out the evening and vied with each other to command general interest. Possibly the event of most widespread interest was the beard parade in which 40 or more virile gentlemen in the Klondyke character took to the stage during the midnight intermission to pose a big problem

to the judges—Jaek Guthrie, William Spencer and Jerry Lemire, all well known tonsorialists. Finally their choices settled upon Graham Watmough, to be awarded the handsome Lemire Cup and the cash prize of \$50. Second and third prizes went to H. M. Wightman and M. J. Saunders.

Costume prizes, from among many ingenious and interesting character portrayals, went to Mrs. Elsa Fudger, as a kinkily costumed "Lady Known as Lou," and Terry McNeitee as "Daniel

(Continued from Page 1)

Boone." The judges here were A. J. Dominato, who donated the prizes, Mrs. Maurice Brydges, wife of the Gyro president, and Mrs. Frank Skinner.

In a poster contest, used as a means of providing store window advertisements, High School art students Magnus L. Knutson, Raymond Hunter and Edith Johnston were awarded first, second and third prizes respectively by Judges Miss Bernice Mostad and G. A. Hunter.

A stage show, also in the period theme, elicited crowd approval. It included aerobic acts by Louis Van Pykstra and

Bill Sunberg, a "can-can" dancing act by Marissa Windle, Lois Thompson and Nina Youngman and Harold Ponder's reciting of "The Shooting of Dan McGrew."

Master of Ceremonies was Bill Stone.

Gyros and Gyrettes and other friends rallied loyally around President Maurice Brydges and Committee Chairman A. M. Hurst to carry out the various duties in connection with the big event.

The music for dancing was by Andy McNaughton and his orchestra.

# Which Way, British Columbia?

The Coalition Government, formed in 1941, combined the resources and energies of the people of British Columbia in the execution of the war effort.

Post-war problems of reconstruction and re-establishment made it advisable to continue this combination in order to speed the re-establishment of our own veterans and the many more who were taking their discharge in British Columbia, although natives of other parts of Canada.

The successful record of this Government during these trying periods, stands as ample testimony to the wisdom of the united front during these times of economic crisis.

The population of British Columbia has grown more rapidly than any other province in Canada. We have absorbed more than a quarter of a million additional people in the last ten years and if present rate of increase continues, British Columbia will have 1,500,000 people by 1959.

The people of our province have watched this remarkable growth and many of them realize that an even bigger problem faces us if we are to successfully emerge economically sound in the years to come.

British Columbia is today at the crossroads of growth and development. We WANT more people. We must be able to give them and following generations a real chance to live and work in the best province in Canada. One false step could mean chaos for an economy that is straining at the leash. Only sound business management can meet this challenge.

Let's face the facts squarely; we must weigh carefully what road to follow if we are to march ahead to the great heritage that is destined to be ours, and which we have hoped and worked for.

Industrial and agricultural growth must be encouraged and guided meticulously to ensure that we keep pace with the rising demand for jobs and a better way of life for our people.

As British Columbians, we are proud of our high standard of Social Assistance. We will continue to set the pace to assure better health values for all our people.

To continue the development of British Columbia, we must guarantee that our province will be a bulwark of free enterprise for a free people.

Some people are determined that we shall take a backward step. They demand a Socialist state of so-called "planned economy". We have but to look at the "Saskatchewan experiment", to see a glaring example of government attempts to manage expropriated businesses. The Socialist administration of that province already has closed down most of the original industries it seized, simply because Governments are not geared to compete with privately-owned organizations. The theory that there are huge profits to be made by Government-controlled companies has proven a complete fallacy. Socialist planners have "killed the goose that could have laid the golden egg" and even now admit their error by beckoning private capital to invest and manage provincial resources.

The Coalition Government of British Columbia believes that the tax burden for Social Services should fall proportionately on both industry and the people. Only a partnership of these two elements can insure a fully-rounded-out and expanding social aid programme. Efficiently managed, free enterprise industries contribute substantially to social services through taxes, thus reducing the share that must be contributed by the people. Bureaucratic mismanagement of Government industry is a burden on the people.

## This, Then, is YOUR Choice!

You can follow the fallacy of Government ownership and management by ill-trained bureaucrats . . . or . . . you can encourage private enterprise to invest, produce and compete successfully in the markets of the world.

The latter programme has, and will produce jobs for the men and women who are already here, and for the boys and girls of new generations as they leave our schools by the thousands each year.

Yes, we are at the crossroads of our existence. British Columbia must go ahead . . . it cannot go back. Your Government feel this responsibility deeply and believe it is above party lines for many months to come.

The future and welfare of all the people in British Columbia must come first. In a few weeks you will be asked to decide, not the future of any political party or parties, but the future of British Columbia. The choice is yours.

In succeeding announcements, we are going to tell you what your Coalition Government has done, is doing, and will do in the future to ensure the greatness of this province in years to come. You will read with pride, a saga of planning and achievement, unmatched in North America today.

## GRANDSON OF PIONEER HERE

Among Vancouver visitors at present in Prince Rupert is H. A. Dunn, to whom this new city of the north is perhaps of more than average interest. His grandfather, the late Thomas Dunn, was one of the early pioneers here and was also a member of the first city council in Vancouver. Mr. Dunn established a hardware establishment here long before the arrival of the first train and took an active interest in affairs prior to and after incorporation. It was Mr. Dunn who built the first substantial residence here which was all of 40 years ago. It is still standing, being located at Second Avenue and Seventh Street.

He also built the Exchange Block at Third Avenue and Sixth Street.

Miss E. Kinnaird of the local social service left on today's plane for a trip to Queen Charlotte Islands on official duties.

## HOW CAN I ???

By ANNE ASHLEY

Q. How can I store linoleum without cracking it?  
A. Linoleum must be warm when rolling it to prevent it from cracking and breaking. And before unrolling it should be placed in front of a fire and warmed.

Q. How can I insure crisp crust on the pie, preventing it from becoming soggy?  
A. After taking the pie from the oven, place it on a high wire rack to cool, instead of on a flat surface such as a table. An inverted dish drainer will serve the purpose.

Q. How can I draw out the inflammation from a finger that has been bruised by a hammer?  
A. Hold the finger in water as hot as can be borne for a few minutes.

## FIRST GAME OF FOOTBALL

At their executive meeting last evening in the Civic Centre the Football Association selected players to take part in tomorrow afternoon's pre-season football opener. According to arrangements there will be unlimited substitutions so that all players will get a chance to get into the game. This will also give the spectators a chance to see how the teams will line up for the season.

The President's team will wear the Battery colors and will strip at the Armories. The Vice-President's team, which will be

## A LETTER... from Toronto

DEAR CUSTOMERS:—  
Well here I am a long way from home trying to find new and beautiful things for your 1949 gift occasions.  
I have looked over the samples of over fifty five factories and wholesale houses and when the goods arrive in Rupert during the next few weeks I really hope our customers will think I have done a good job. Many of the pieces have never been shown anywhere till this year and most of the items have been from present stock before the new 10 per cent sales tax. They will include china, silver, copper and glass as well as the new jewellery and many interesting new things.  
Hope to see you soon.  
JOHN BULGER

## FOOTBALL PLANNING

League Season to Start On May 24  
Preliminary plans for the season were discussed at a meeting of the executive of the Prince Rupert Football Association last evening in the Civic Centre.

It is hoped to start the season on May 24. The City League draw will be made at a meeting of the executive on the Sunday preceding. Teams have been notified that all players must be registered and their names submitted on the authorized forms to the Association secretary by May 21. The registration fee for the team is also to be paid to the treasurer at the meeting May 22.

There will be at least four competitions as usual this year, and there is also a possibility that there will be an individual trophy to be awarded to the most valuable player or to the best sportsman during the season.

New equipment has been ordered, including a set of regulation football goal nets. Present at the meeting were J. S. Wilson, president; S. P. Woodside, vice-president; Darrow Gomez, Glen Olsen and Ken Yelland.

This will be the most bitter election in British Columbia's history, says Harold Winch. What induces Mr. Winch to say so and how does he know? It's fair enough to wonder how far dourness and harshness in politics helps. Sometimes it helps clear foresight and harms digestion.

According to opinion from the north this will be the last year steamers will be seen on the Yukon River, something the sourdoughs will lament, even though the change will be cheaper. One does regret it. A sail to Hazelton, forty years ago, aboard the Inlander, the Conveyor or Distributor was something to remember. You travelled some — particularly following the fast Skeena on its way to the coast.

Polling next month will be the third general election in June, in the Dominion's history. Voting was June 23, 1896, and June 11, 1945. Many have considered June a fine month in which to cast a ballot. Old Sir Wilfrid certainly thought so.

## SHADES OF YESTERYEAR...

"When I was your age..."

Things were much better in the Good... or so the Old Timers always tell the young generation. Yes, time is kind to old memories... and when we think of the good by we tend to remember only the good and to forget the bad.  
Down through the years, however, certain things have remained constant... unchanging... as good they were then—like Princeton Beer for instance. Unvarying in unique quality, goodness, mellowness, Princeton Beer is still our favorite today—just as it was when Grand-dad was a young blade.

Services in the Church

SATURDAY SERMON

MOTHER'S DAY

(By Rev. George E. Sendall, First Presbyterian Church) "As for me and my house, we will serve the Lord." Joshua 24:15 It was in a mother's arms that a new and heavenly race was cradled. When God wished to make Himself more fully known, He entrusted His revelation to the care of a mother. Ever since, motherhood has been blessed. With the coming of Jesus there enters a new relationship in the family circle. Women are now partners in a trinity of love, purity and fellowship. No longer are they the chattels of society except where the new paganism seeks to destroy the home.

to love and to pray, Mother who guides us in play and learning. She turns a household into a home if she is a wise and understanding woman. Most mothers know that molding a family is a difficult and important undertaking—may she know that God is nearby to help her in the task if she will but ask Him! The kind of politicians we have will depend upon the kind of homes we have. The kind of businessmen, will be the kind of mothers we have. The kind of churches, and schools, and institutions, will depend upon the influence of that citadel of our lives—the home and the place of mother there. It is in the home that faith is instilled in the life of the child. The notion that all religious teaching can be left to the Sunday School is a fallacy which is already sapping our strength. The church can't do for the mother what God has entrusted

to her alone. And she can't fulfill her obligations to her family without herself finding the true centre of the Christian home, even our Lord Jesus Christ. It is He who by the influence of His Holy Spirit in our lives guides us into the qualities of personality that transform our human relationships into a nobler pattern. The one thing we do need today—more Christian mothers.

Christian Science Society Second Avenue West Prince Rupert, B.C. Branch of The First Church of Christ Scientist, in Boston, Mass. Subject of Lesson Sermon: "Adam and Fallen Man." Services Every Sunday at 11 a.m. Sunday School convenes at 11 a.m. Wednesday Evening Meeting Second Wednesday of each month at 8 p.m. Reading Room Open Wednesday and Friday from 2 to 4 p.m. Advertise in the Daily News!

UNITED CHURCH TEA AND SALE

Attractive Affair Thursday Afternoon Draws Crowd

First United Church spring tea and sale on Thursday at the Church hall was attended by a goodly number of people despite the inclement weather. Rev. R. A. Wilson officially opened the sale with a short address. Mrs. Andrew Thompson, president of the auxiliary, and Mrs. R. A. Wilson welcomed the guests.

The tea room, which was convened by Mrs. R. Webber, was gay with daffodils and yellow streamers and vases of daffodils. The serving table was centred with a lovely spring bouquet of pink carnations, daffodils and blue jonquils flanked with tall green tapers in silver sconces. Assisting Mrs. Webber were Mrs. W. Faight, Mrs. Logan and Mrs. Henry. Servers were Mrs. Ciccone, Mrs. O. K. Faight, Mrs. A. J. Dominato, Mrs. Hay, Mrs. H. MacDonald, and Mrs. J. Cheil.

In charge of the fancy work table was Mrs. D. Santurbane,

assisted by Mrs. Marineau and Mrs. D.R. Barclay.

Mrs. A. S. Nickerson and Mrs. F. Wright were in charge of novelty and children's table while Mrs. C. F. Young and Mrs. Whittaker had the apron booth.

The home cooking section was in charge of Mrs. Clapp, assisted by Mrs. G. Peters and Mrs. Forman while Mrs. Seaman, Mrs. J. MacDonald and Mrs. MacAra assisted at the delicatessen counter.

Mrs. J. A. Irvine and Mrs. C. Moore acted as cashiers.

MAN WITH A \$20,000 KIT OF TOOLS

British Columbia is unusual. So many of its jobs are in "heavy industry". This means someone must spend money on heavy, expensive tools of production.

A carpenter or mechanic going on the job provides his own kit of tools. But no one says to the logger "Bring along your own railway locomotive and steam shovel—" or to the miner "don't forget your diesel compressor and pneumatic rock drill, Joe!"

The savings of thousands of investors provide such tools. Take the case of the miner. In many a B. C. mine so much in savings is at

risk that it amounts to more than \$20,000 for each employee on the job. So each miner, you might say, carries a \$20,000 kit of tools.

In the pulp and paper industry the cost of making jobs is higher still — more than \$30,000 a job.

We in B. C. need more and more venture capital — money willing to wait years for its return. But risk money will only come if it is confident that British Columbia is going to continue to be a well-governed province giving investors a square deal as it has done in the past.

**Stormy Weather Reduces Halibut Catch—  
New River Boat for Columbia Cellulose**

A whole week of rough weather reduced initial halibut landings at the port of Prince Rupert during the first five days after the opening of the season last Sunday. Total landings from all sources up to Friday evening were 353,000 pounds from the regular halibut fleet and camp packers.

Friday was the biggest day so far, with landings totalling 150,000 pounds and it was also the first day that fish was sold on the exchange. Previously, all fish had either been delivered to the Co-op or been bought privately by the companies.

Opening prices on the exchange were 15½¢, 14½¢ and 11½¢ paid by Canadian Fish and Cold Storage Co. for 17,000 pounds delivered by the Unimak. The Sea Pride, which landed

5,000 pounds, accepted 15¢, 14¢ and 11¢ from the Cold Storage. All boats which have landed so far are Canadian although it was expected that some of the American fleet might deliver here this week-end.

Up to Friday, 210 halibut fishing licenses had been issued here, a slight decrease under the same date a year ago when 220 had been issued. Salmon

trollers this year are also slightly fewer. Up to Friday 208 trolling licenses had been issued as against 235 at the same date a year ago.

Capt. Walter Redford of the fisheries protection vessel Howay brought his ship into port for a couple of days this week from patrol of the Hecate Strait fishing grounds. A number of American trollers seem to be doing fairly well off Rose Spit at the north tip of the Queen Charlottes. He gave no report on the success of Canadian trollers.

A new river work boat for Columbia Cellulose Co. has arrived in port here and will be used in preparation of the Skeena River for log drives and later for log driving. Built by the Russell shipbuilding company of Owen Sound, Ontario, the 35-foot steel-hulled vessel has the general lines of a barge. It has shallow draft and a large anchor at the bow for use in obtaining purchase for heavy pulls.

One of the highest gales of the season brought fishing to a halt Thursday. Halibutters and trol-

From Sandspit (Thursday) — J. R. L. Murphy.

ler sought shelter in coves, many of them heading for Squadaree which is a centre of trolling operations.

Capt. Alf Aspinall brought the Union steamer Coquitlam to port here at 1 o'clock Friday afternoon without making its newly scheduled stop at Port Edward. Lacking freight or passengers for the nearby port, he came directly here. The Coquitlam carried a light list of passengers both for Prince Rupert and the south island ports.
