India Seethes In Grief for Mahatma's Death

Scenes of Violence In Bombay, Poona; Body Of Prophet Cremated

BOMBAY (CP)—Grief-maddened crowds, shouting "Burn them out," exploded sudden scenes of violence in Bombay and Poona today as a minute-by-minute radio description of the funeral of Mohandas K. Gandhi, assassinated in New Delhi, boomed out over loud-speakers set up in the streets in both cities.

CHINAMAN MURDERED

Brutal Murder On Lulu Island Believed to Have Had Robbery As Motive

VANCOUVER—Body of a 70-year-old Chinese farm laborer, Mah Jau, was found Friday in his blood-spattered shack on Lulu Island and police say he was murdered with robbery believed to have been the motive. The killing was brutal. The body was bruised and battered, apparently from several heavy blows on the head, arms and legs.

Thirty Die As Ship At Hong Kong Burns

HONG KONG—Thirty persons were pushed into the water and drowned tonight when steering passengers stampeded off the burning coastal steamer Kwantung at a wharf here. Most of them were women and children. The fire is attributed to chemicals in passengers' luggage. Only slight damage was caused to the ship.

POWERS ARE SUSPENDED

Attorney General Intervenes in Two More Health and Accident Concerns

VICTORIA—Attorney General Gordon Wismer yesterday signed orders suspending powers of the West Coast Health and Accident Society and the Citizens' Health and Accident Association, both of Vancouver, following reports to him that both organizations were insolvent. It is the second time within a month that the Attorney General has moved in to halt operations of unsound health and accident benefit groups under powers given him in last year's re-written Societies Act.

HOSTEL AT SANDSPIT

Comfortable Quarters Being Installed There By Canadian Pacific Airlines

Comfortable hostel quarters for the accommodation of air travelers at the transfer point of Sandspit, Queen Charlotte Islands, on the run between Vancouver and Prince Rupert will soon have been provided by Canadian Pacific Airlines. The former Royal Canadian Air Force officers' quarters building, presently used by construction men on the installation of the radio range station nearby Sandspit, is being taken over by the air lines. It will be renovated within and separate rooms provided as well as a dining room or mess. The hostel will probably be put in charge of a couple who will keep the place in readiness for use if and when required. Ordinarily, there is only a stop of a few minutes for passengers changing planes at Sandspit but, occasionally, stress or some other cause results in longer stopovers there.

Large numbers of people attacked and, in some cases, crowds set fire to a number of premises connected with India's extreme orthodox Hindu political organization, the Hindu Mahasabha—which followed the communal line in contrast to Congress standpoint of Hindu-Moslem unity. Police opened fire in both cities to quell the attacks and Gurkha troops were moved into central Bombay. Meantime Mohandas K. Gandhi's youngest son touched off a funeral pyre that consumed the wasted body of the martyred Mahatma in Hindu tradition. Tens of thousands of Indians, sobbing and shouting the Mahatma's name, surged forward as Devadas Gandhi, heavy with grief, placed live coals on the pyre just above his father's heart and set ablaze the lower portion of the pile of sandalwood logs. A tremendous sobbing chant surged from the crowd, a Hindu hymn for India's prophet of peace who was struck down yesterday by an assassin's bullet. The Mahatma's ashes are to remain at the pyre on the banks of the River Jumna for a day and a half. Then they are to be gathered and taken to the River Ganges, sacred to the Hindus, and thrown into its waters. New Delhi police disclosed that Gandhi's accused assassin has been arraigned secretly and held without bail for investigation in connection with the murder. The 25-year-old assassin pumped bullets into Gandhi's chest and leg at close range.

GANDHI DEATH-UNITED NATIONS

Pakistan Dispute Suspended

LAKE SUCCESS—The United Nations efforts to settle the India-Pakistan dispute over Kashmir state were suspended today because of Mohandas Gandhi's death. An Indian spokesman said his delegation was making no moves here pending instructions from New Delhi. "If your whole country should go up in flames there would be little use in arguing your case before the security council," he said.

NORWAY AND SWEDEN WIN

ST. MORITZ—Norway and Sweden won the first gold medals in the dissenion-plagued fifth Winter Olympics today as bitter hockey war continued to rage. Despite an International Olympic Committee cancelling the sport, the hockey tournament continued and the amateur hockey association team of the United States, beaten in its opening start Friday, swamped Poland 23 to 4.

Czechoslovakia edged out Sweden 6 to 2 for a second win. The twenty-one year old Finn Helgeson of Oslo captured the 500-metre speed-skating title in 43.1 seconds. Frank Stack, 42-year-old Winnipeg skater, finished sixth. Sweden's Martin Lundstroem won the 18-kilometre cross-country ski race in one hour, 13 minutes and 50 seconds.

PRINCESS ANNE SEEN WEARING ENGAGEMENT RING—Princess Anne, of Bourbon-Parma, is seen when she left Copenhagen on her way to Lausanne, Switzerland, to visit ex-King Michael of Romania. She is seen wearing an engagement ring.

Jap Ban Called Off

Provincial Government Reconsiders Edict Made Regarding Timber Workers

VICTORIA—The British Columbia government's ban on Japanese working on crown land timber operations in the interior was suspended late Friday. Acting Premier Herbert Anscomb announced the suspension following a meeting of the cabinet and said that the whole question would be put before the Legislature for final decision.

The order banning the Japanese, issued a few days ago, involved some 800 timber workers. The provincial order, reinforcing a policy enacted forty years ago, prohibits employment of Orientals on crown timberlands and would have become effective April 1. Mr. Anscomb said the decision to suspend the order was made after consideration of protests of various organizations including the timber operators.

ATLANTIC IS BEING COMBED
HAMILTON, Bermuda—Some thirty planes combed the stormy Atlantic around Bermuda today, widening the search for a British air liner missing with 29 persons on board, including Sir Arthur Coningham, retired British air marshal and hero of North African air war.

TO STUDY WATERWAY

Special Committee to Study It Urged at Ottawa

OTTAWA—Establishment of a special Parliamentary committee to study ramifications of the projected St. Lawrence waterways scheme was suggested in the House of Commons by John Ross Macnicol, Progressive Conservative member for Toronto. Observing that the scheme was now before the United States Senate, Mr. Macnicol warned that that body, may be "pitchforked" into Canadian Parliament and find the membership ill-prepared to deal with it. Macnicol made the proposal during the Throne Speech debate.

PURCHASER OF BIG WAREHOUSE

The former American army warehouse, ocean dock and administration building, apparently, has been purchased by Kenneth Meek, who attempted to obtain local financial support for its purchase last December.

Government Endorsed On Its Dollar Saving Program

OTTAWA (CP)—The government's dollar-conservation program withstood its first major test in the House of Commons yesterday when members voted 84 to 70 for the principle using import restrictions as a United States currency-saving measure. The division was preceded by Finance Minister Abbott's statement that the conservation program has bolstered the country's gold and the United States dollar reserves by some \$53,000,000 during the last month.

COST OF LIVING PROBE COMMITTEE IS ANNOUNCED BY PRIME MINISTER

OTTAWA (CP)—A House of Commons committee on food prices will be asked to investigate the causes of the recent rise in the cost of living as well as profiteering and hoarding, Prime Minister Mackenzie King disclosed today. A sixteen-man committee will be asked to examine and report on:

First, the cause of the recent rise in the cost of living. Second, prices which have been raised beyond levels justified by increased costs. It is expected the minister of health, Hon. Paul Martin, will be chairman of the committee.

LIBEL TRIAL DATE IS SET

Cooke, Dingman and Whitton To Appear In Higher Court In Edmonton Monday

EDMONTON—Unprecedented charges of conspiring to publish defamatory libel, laid against Jack Kent Cooke of Toronto and Harold Dingman and Charlotte Whitton of Ottawa will be tried in the Supreme Court of Alberta with the first appearance set for Monday. They were committed for trial yesterday. Magistrate Howe set bail at \$1000 and ordered \$1000 surety filed for each accused.

Cooke is the publisher of the New Liberty Magazine. Dingman is its Ottawa correspondent and Dr. Whitton is a noted Canadian welfare expert. The charges followed publication of an article in the magazine entitled "Babies for Export."

TORONTO OFFICE BEING SEARCHED

TORONTO—Warrants to search the offices of New Liberty Magazine were served today by four Royal Canadian Mounted Police constables from Alberta. The officers said they wanted the original manuscript of the article "Babies for Export," dealing with welfare conditions in Alberta, publication of which December 27 was followed by the launching of court action against Publisher Cooke, Writer Dingman and Welfare Worker Charlotte Whitton.

GOVERNMENT IS PROFITEERING

Minister of Finance Ought to Practice What He Preaches, Senator Declares

OTTAWA—Senator Iva Falls, Progressive-Conservative, Muskoka, suggested Thursday that Finance Minister Douglas Abbott might practice what he preached and stop taking all the tax money the traffic would bear. While Mr. Abbott warned industry against exorbitant profits, Falls told the Senate in the Throne Speech debate, that he was rolling up a \$750,000,000 surplus which would give the treasury "almost an embarrassment of riches."

REPORT PROGRESS ON FIELD WORK

Amateur Status to be Protected—Invitations Being Issued

Competitors in open events in the Canadian Legion's proposed Dominion Day track and field meet probably will have to obtain amateur cards from the B. C. branch of the Amateur Athletic Union, Neil Ross, Civic Centre athletic director, told a meeting of the Dominion Day sports committee last night. While cost of the cards is negligible, their possession by competitors in open events, protects their right to the claim of Northern B. C. champions in case they come out on top, Mr. Ross said. He reported on correspondence he has had with the B. C. Track and Field Association. He said that affiliation with that group would be desirable, adding that affiliation fees probably would be small, considering that the local meet will not be large in comparison with some competitions held in the south. As program director, Mr. Ross suggested that only such events as the 100 yard and 440 yard

(Continued on Page 4)

Disaster At Britannia

Three Miners Crushed to Death Under tons of Rock

VANCOUVER (CP)—Buried under tons of rock, three miners died at Britannia mine at Britannia Beach, forty miles north of here, late last night. The dead are Julian Krill of Vancouver, Erwin G. Buckner of Buffalo and William N. Natrafowany of Fork River, Manitoba.

A fourth member of a four-man crew escaped by inches as a cave-in, believed to have been caused by a fault in rock, crashed into a stope where they were drilling. The bodies of the victims were taken out of the rock-filled stope this morning.

Mackenzie King As Governor-General

OTTAWA—During the Throne Speech debate a suggestion came from Bona Arsenaault, Liberal, Bonaventure, that Prime Minister Mackenzie King, on retirement, be appointed Governor General. He suggested that this was a means by which Canadian people could express gratitude for his services to the country.

Canada Is Unaffected

Does Not Come Under Ban of Fuel Oil and Gasoline Exports From United States

WASHINGTON—The United States government Friday ordered an 18½ percent cut in exports of fuel oil and gasoline due to "serious shortage" in the United States.

In Ottawa a high government official said that Canada would not be affected by the cut. He said that the reduction applied to "quota" shipments to foreign countries but Canada was not regarded as a foreign country and was not under the quota system.

RATIONING GASOLINE

VANCOUVER—Rationing of gasoline may start Monday in British Columbia following a three-cent-a-gallon price boost and a quota system which is being established by major oil companies. Service station operators were reported yesterday that a rationing plan would be based on both priority as during the war and the "best customer first" consideration.

CHIVALROUS KNIGHT—A chivalrous little French boy combines business with pleasure as he performs a family chore by rowing his sister by boat at night in a flooded suburb of Paris. Roads and highways were turned into canals in the area as the waters of the Marne and Seine rivers overflowed the banks, inundating residential districts and farmlands.

RY FINDS SHAP IN HWAB DEATH

Verdict of accidental death brought in Friday afternoon by a coroner's jury which indicated the death of Marjorie Schwab, whose body was found Thursday morning on the shore of a lake near the government ore plant at the foot of Smith Street.

The jury decided that he died of falling from the wharf while working near the edge of the lake between 1:05 and 5:05 p.m. Wednesday afternoon. Marjorie Schwab, a carpenter, was employed by R. C. Mutch in decking the ore sampling

Mutch told of taking Mr. Schwab to work at 1:05 and of coming to pick him up at 5:05 p.m. Not seeing him around, Mutch went home to supper and returned an hour later. He conducted a search which continued until 10 o'clock without success.

Wendolyn Schwab, son of the missing man, Harry Wilkinson, was taken to the police by Constable Taylor in the search. The body was discovered on the rocks at the high tide level following morning by Constables George Redhead and Dewitt.

It was identified Friday afternoon by Wendolyn Schwab. The factors were R. E. Montador, Constable, Robert McKay, Jr., Constable, Jack Mussallem, Constable, and Haugen, J. H. Jefferies.

THE WEATHER

Synopsis
Weather disturbance moving eastward over British Columbia is causing rain along the coast and snow in the interior and northern section of the province. This system will be out of the province tomorrow with cloudy skies expected in most sections Sunday. Little change is expected in temperature.

Forecast
Prince Rupert, Queen Charlotte and North Coast.—Cloudy with scattered showers today. Tonight, Cloudy Sunday, with west (15 m.p.h.) today. Tonight and Sunday, Little change in temperature. Low light and high Sunday.—Hardy 32 and 42, Massett 32 and 42, Prince Rupert 34 and 44.

Free Port Advantages

DURING THE PAST YEAR or so some thought has been given at Prince Rupert to the possibility of this being made a free port. The Chamber of Commerce had a special committee go into the matter but its report was not impressively favorable.

Now with ports along the Pacific Coast experiencing a decline in traffic, San Francisco, Seattle and Los Angeles, anticipating an early revival of trade with the Orient, particularly with Japan under its new five-year economic program, are interesting themselves actively in the possibility of obtaining the status of foreign trade zones.

The Journal of Commerce discusses free port advantages editorially from the Vancouver standpoint but what it says might be also applicable to Prince Rupert. This is what that trade journal has to say:

"Vancouver stands to lose much by the advantages these customs-free areas will give competing ports. Import-export traders, merchants and manufacturers will have access to goods, without paying duty, at all times of the day and every day of the week. The importer will look over his merchandise freely and save duty costs on discarded unsuitable goods. Exporters may stockpile goods in such a zone because they will ship when cargo space is available without duty or bond expense. Without customs formalities, ships can speed up discharge of cargo. New business to the port is encouraged by publicity, sent to all sections of the globe, setting out these facts.

"The free port principle has been tested successfully over many years in European countries. The American government before the war saw the advantages such areas gave these foreign ports. As a result the necessary legislation was passed to establish the first foreign trade zone in the U.S. at New York in 1917.

"Now this country is alone among the leading world traders that does not possess free ports. However, two years ago a group of financiers drew up plans for a free port at Quebec City that would also act as a model for other Canadian ports to follow. Although a committee of the Dominion Department of Transport studied the proposal, nothing further was done on the matter.

"Our government will have to bestir itself to pass the necessary legislation for establishment of free ports if Canada is to remain among the foremost business nations of the world. Local interests could well follow the San Francisco lead in campaigning for a foreign trade zone here. If not, then Vancouver stands to lose a large volume of its trade to cities wise enough to establish free ports."

Many a man has wrecked an automobile because he was so absorbed in hugging the curves on his right that he inadvertently hugged the one on his left.

WHAT OF CANOL?

SOMEWHAT INCONSISTENT with the great hue and cry that is being raised now as to the critical shortage of petroleum in the United States is the demolition decided upon some time ago and now under way, of the great Canol line, built during the war at the cost of many millions of dollars, to pipe oil from Norman Wells in the Northwest Territories of Canada to the Pacific Coast.

How great a relief it might have been if Canol were still in operation and pumping out oil at this time when both United States and Canada, in the face of unsettled and alarming world conditions, are gravely short of oil! Of course, if the oil does not really exist at Norman Wells in any great quantity, it would be a different matter.

With increasing frequency we have a spell of longing to see the dollar again strong enough to stand alone.

BOREDOM OR OVERWORK

THE ASSUMPTION that if every pay envelope was bulging everyone would be happy is a very understandable and almost universal delusion. It is natural too, that this belief should suggest the need for more idle time to enjoy our gains. Hence the recurring demand for more pay and less work. But these demands are all predicated on the belief that men dislike work, and that just isn't true. Put to it, most men would agree that they are happier in their working surroundings than almost anywhere else. There are companionship and interest and often inspiration there. It is this that keeps men in offices and shops to get things done, in their own time. It is this that as holidays draw to a close sets men itching to get back at it. Insurance statistics too quickly prove that the man who has looked forward to retirement as a happy and care-free end of a tiring life all too frequently has promptly died of a boredom that he didn't foresee at all. If work becomes a drag, it is the fault of boredom, not exhaustion.

THE WORLD'S GREATEST QUEST

PAUL A. BARBER, Full Gospel Tabernacle
"Thou wilt show me the path of life: in thy presence is fullness of joy; at thy right hand there are pleasures for evermore."—Psalm 16:11.

The world's greatest game is life. The world's greatest treasure is love. The world's greatest sin is covetousness. The world's greatest institution is the church. The world's greatest quest is happiness. Happiness is something that everyone desires, something that everyone diligently pursues, but most

people are going to the wrong source to find it. Solomon tried to find it in material wealth. He was a billionaire. It took fifteen years to build the house in which he lived. But, after he had indulged to the full in worldly pleasures and the things that money could bring him, he wrote: "It is all vanity and vexation of spirit." Thus it is with all who have tried to find happiness in earthly treasures. In Luke 12 we have the parable of a certain rich man whose goods were increased to such an extent that he tore down his barns and built larger ones. To his soul he said: "Soul, thou hast much goods laid up for many years; take thine ease, eat drink and be merry." But God said unto him: "Thou fool, this night thy soul shall be required of thee. And seek not ye what ye shall eat or what ye shall drink for all these things shall the nations of the world seek after; but rather seek ye the kingdom of God; and all these things shall be added unto you."

Man's soul is eternal. "God breathed in his nostrils the breath of life and man became a living soul." Consequently the soul can find satisfaction only at the hands of its Creator and not in the "things" that constitute this material world. The world can never satisfy the soul. It is a six-thousand-year-old swindle that fleeces everyone on whom it can get its hands and sends them bankrupt to a Christless eternity. If happiness cannot be found in "things"—money, pleasure and fame—where can it be obtained?

Christ unveiled the road to happiness more than 1900 years ago in the Sermon on the Mount. He tells us in the Beatitudes that happiness comes not from what we have or what we do, but in what we are. "Blessed are the poor in spirit... Blessed are the pure in heart," etc. Christ did not say, "Blessed is the man who has amassed a fortune," or "Blessed is the woman who has become the darling of society." Happiness is not something without, but within. The Prodigal Son thought that in order to be happy he would have to go far away from home and associates. He forgot that the fountains of sweetest joy springs up within the soul, not from without.

True happiness is not dependent upon outward circumstances, but rather upon the relation of the soul to its Creator. Jesus said: "Come unto me, all ye that labor and are heavy laden and I will give you rest." All mankind is laboring under the burden of sin but God, in Christ, hath appeared once in the end of time to put away sin by the sacrifice of Himself. Only faith in the Lord Jesus Christ as personal Saviour will secure rest and happiness for our eternal souls.

Why then spend our time at the lunch counters of earthly pleasures when we have a standing invitation to the banquet of the Grace of God? Seek the thrills God gives—joy unspendable and full of glory. There is no "morning after" taste to the joys of the Lord.

DIRECTORY

Services in all churches at 11 a.m. and 7:30 p.m.; Sunday school at 12:15 except as shown.

East End Hall, 2:30 p.m.

PRINCE RUPERT YEARS AGO

(January 31, 1923)

With a golden key presented to him in behalf of the contractors, Hon. T. D. Pattullo, Minister of Lands, officially opened Prince Rupert's new court house building.

The Board of Trade decided that, if the "persistent hostility" of Vancouver persisted, it might be advisable to institute a boycott against Vancouver merchants, Vancouver goods and Vancouver people. A suggestion that a portion of the Prince Rupert dry dock be sent to Vancouver inspired the blast.

The Agricultural Association elected a new slate of officers at its first meeting of the year. They were C. H. Orme, president; R. V. G. Lepine, vice-president, and Frank Dibb, honorary secretary.

(January 31, 1913)

Mrs. Ethel Holland, who had been visiting for the last ten days as guest of Mr. and Mrs. H. A. Philpott, sailed on the Princess Beatrice on her return to her home at Vancouver.

The first shipment of ore from the Hazelton district passed through the city. It was from the Harris brothers mine and was consigned to the Trail smelter.

The Grand Trunk Pacific Railway Co. announced officially that the name of the town-site of Fort George would be Prince George.

BANDMASTER APPRECIATED

Editor, Daily News:
The Prince Rupert Civic Band has now closed one phase of its development and is entering on a new one as evidenced by our being sponsored by the Shrine Club of Prince Rupert.

We are, therefore, desirous of expressing publicly our deep appreciation of and gratitude for the services given by the Prince Rupert Civic Band by our Bandmaster, Peter Lien.

Mr. Lien has worked for and with the Band since its inception and has been largely responsible for the fact that there is a band in the city.

We feel we are fortunate in having a musician of Mr. Lien's calibre who is willing to spend the time and effort required to conduct an amateur band. On behalf of the band members and the general public who have enjoyed the concerts given so far, we say thank you very much, Mr. Lien. We know we can count on your leadership in the better days to come.

Thank you Mr. Editor, for publishing tribute of our esteem.
F. M. Gulland, President,
Prince Rupert Civic Band.

WEDDING HONORS DAY BRIDE

Marjorie Eby was hostess of the evening at a shower for Miss Maureen Earl, bride to be, at the home of her parents, Bernard and Mrs. Earl, on Friday morning. The party was held in the dining room, which was decorated with flowers and streamers. Refreshments were served by Miss Maureen Earl, Miss Olga Sather, Miss Glenna Moore, Miss Peggy Frances Moore and Miss Eby.

BRIDE GIRL COMES BRIDE LOCAL MAN

Marjorie Eby and Bernard Earl were joined in morning ceremony at the home of the bride's parents, Miss Maureen Earl, on Friday. The bride wore a blue suit with brown accessories and a pink carnation corsage. Her attendant was Miss Leona Blain. The groom wore a tan suit with a pink carnation boutonniere. The ceremony was officiated by Rev. J. L. Green at 10 o'clock Friday.

The newly married couple left the city on Thursday night's boat, and will visit Vancouver, Victoria and Seattle before returning to their home at Zealanda.

The bride wore a blue suit with brown accessories and a pink carnation corsage. Her attendant was Miss Leona Blain. The groom wore a tan suit with a pink carnation boutonniere. The ceremony was officiated by Rev. J. L. Green at 10 o'clock Friday.

Prairie Couple Married Here

Miss Marjorie McCool Becomes Bride of Leslie Forrest

The Lotbiniere Street home of Mr. and Mrs. Lester Franklin was the setting for a pretty wedding on Wednesday when their niece, Miss Marjorie McCool, became the bride of Leslie Forrest. Both the bride and groom are from Zealanda, Saskatchewan. The ceremony was performed by Rev. R. A. Wilson of First United Church.

Given in marriage by her uncle, the bride looked lovely in a silver-grey wool ensemble. She carried a bouquet of deep pink carnations. Her only jewelry was an antique necklace, gift of her aunt.

Matron-of-honor was Mrs. Lester Franklin, attired in a brown-and-gold silk Jersey dress with corsage of yellow carnations.

Groomsman was Robert Franklin and Lloyd Franklin was guest attendant.

The vows were exchanged beneath an arch of pink-and-white streamers, centred with wedding bells.

At a reception which followed, the toast to the bride was proposed by Rev. R. A. Wilson, with response by the groom. A second toast to the bride was proposed by Robert Franklin who expressed his delight at having the opportunity to act as groomsman at his cousin's wedding.

A toast was proposed by Lloyd Franklin to his parents, on whose twenty-eighth wedding anniversary the nuptials took place.

Delicious refreshments were served, with Mrs. Samuel Dumas acting as pourer and Mrs. William Adolph and Miss Izyk and Miss Zabudney as servitors.

The newly married couple left the city on Thursday night's boat, and will visit Vancouver, Victoria and Seattle before returning to their home at Zealanda.

OLYMPICS UNDER WAY

Twenty-Eight Nations Competing in Winter Sports
ST. MORITZ—The International Olympic Committee, it is reliably learned, decided at a four-hour meeting yesterday that the ice hockey tournament will not be accepted as an Olympic event but will, instead, be designated as being for the world's championship. On that basis, the competition will go on.

With the committee room war over American hockey representation still raging, the Winter Olympics opened yesterday. Despite the verdict, the United States Amateur Hockey Association team played and lost to Switzerland 5-4. The United States Olympic Committee does not recognize the Amateur Hockey Association squad and the committee has its own team entered.

In a second game yesterday Canada won three to one over Sweden.

Skiers, skaters, bob-sledders and hockey players from twenty-eight countries were present at a colorful ceremony which marked the opening of the first post-war Olympics.

REPORT PROGRESS

(Continued from Page 1)
sprints and the broad jump being as Northern B. C. Championships competitions and that other events be classified as junior or intermediate.

CINDER TRACK IS CONSIDERED

Proposals for constructing a cinder track at Roosevelt Park were reviewed for the benefit of Alderman Robert McKay, board of works chairman. Proposed width of the track was reduced from 24 feet to 16 feet and Mr. McKay was in formed that the track would not be raised above the ground surface, but levelled off with it.

This, it was pointed out, would improve, rather than damage, the portion of the baseball outfield where the track would be situated.

Cost of building the track with 16-foot width and four-inch depth of ashes would be far below the \$1,200 estimate given for a 24-foot track, Mr. McKay estimated.

Invitations to take part in the meet have been sent, or will be sent, to the native villages in the area, Ketchikan, Terrace, Smithers, Vanderhoof, Hazelton, New Metlakatla and possibly other towns along the railway line; committee chairman James Nicoll said.

He appointed Vic Duncan, Charles Anderson and J. A. Teng to the ways and means committee. The committee will meet again on February 12 to hear progress reports.

Timely Topics from Terrace

Mrs. Jeff Lambly returned on Wednesday's train from Inverness where she had been visiting relatives.

Miss Theresa Johnson left for Prince Rupert this week where she will continue her studies at the convent.

Jim Penner returned from Prince George on Tuesday.

A false alarm called out the local fire brigade during the noon hour on Thursday and they were on the spot before a phone message got through to the firehall. A passerby saw much smoke issuing from the corner building which has been rented by W. Chesher, Hector Cote and Edgar Hamlin and sounded the fire alarm. However, the building was being fumigated hence all the smoke.

Mrs. Stratford paid a brief visit to Prince Rupert on Tuesday, returning on Wednesday's train.

The Catholic Women's League met at the home of Mrs. Honore Cote on Wednesday evening. There was a fairly good turnout of members with President Mrs. Bissonette in the chair. The main business of the meeting concerned the repairing of the Catholic Church, the inside of which was badly damaged by fire a few weeks ago. It was finally decided to request donations to carry out this work and the owners of the Terrace Bakery offered to collect contributions. In addition, the ladies decided to hold a tea on March 17 at which a cedar chest of bedding and linen will be raffled. A hearty vote of thanks was extended to E. T. Kenney Ltd. for a generous donation which will head the Church repair fund. At the close of the meeting, refreshments were served by the hostess.

At the morning service at St. Matthew's Church on Sunday, three infant children were baptized by the Rev. Roland Hills. They were Mr. and Mrs. Brock Norberg's daughter, Mr. and Mrs. Dick Dubau's daughter and the son of Mr. and Mrs. Milton Alger.

Mrs. Lloyd Johnstone and Marilyn returned on Wednesday from Victoria where they have spent the past three weeks visiting with Hon. and Mrs. E. T. Kenney. Lloyd Johnstone will be returning to Terrace within the next ten days, business matters delaying him in the south.

Better English
By D. C. WILLIAMS

1. What is wrong with this sentence? "He carried four armful of packages home."
 2. What is the correct pronunciation of "rabies" (canine madness)?
 3. Which one of these words is misspelled? Iconoclast, enthusiast, ballast.
- ANSWERS
1. Say, "He carried four armfuls." 2. Pronounce ra-bi-eez, a as in ray, i as in it, e as in ease, accent first syllable. 3. Enthusiast.

ANDERSON WINS \$379 WAGE CLAIM

In County Court here Friday afternoon, Judge E. D. Woodburn of Prince George found in favor of Charles Anderson, city carpenter, who claimed \$379 for workman's services against Mrs. Loretta Barnhardt and Diamante Zarelli. Judge Woodburn dismissed a counter-claim for \$1600 by Mrs. Barnhardt against Anderson.

J. T. Harvey acted for Anderson and Roderick McLeod was counsel for Mrs. Barnhardt and Zarelli.

TO IMPERIAL OIL DEALERS IN BRITISH COLUMBIA

Because of the recent decision of the government with regard to the price of gasoline, we have reluctantly decided to discontinue imports into this province in order to minimize our losses.

The reasons why we must take this regretted step were outlined by Mr. R. M. Pidgeon, our division manager for British Columbia, in a statement issued on January 28th when the 3-cent price increase was announced by the government. This statement follows:

"We regret that the 3 cent increase in gasoline price announced by the government is not sufficient to warrant our continuing to import gasoline into British Columbia.

Accordingly we must discontinue seeking for supplies in the California market.

"Right now gasoline is selling wholesale in Seattle for the equivalent of nineteen and a half cents per gallon. When the larger Canadian measure, duty and sales tax are taken into account, this is one and a half cents more than the government has authorized in Vancouver. Yet Vancouver and British Columbia draw supplies from the same source as Seattle.

"Since last May we have been continuously urging the Coal and Petroleum Control Board and the government for relief from the rising costs of crude oil and imported gasoline.

"Our losses are now running at the rate of approximately two million dollars per year and the increases announced would not remove us from a losing position.

"We asked for a minimum of four-and-a-half cents per gallon. Three cents per gallon represents \$725,000 less per year than four-and-a-half cents and would continue us in an unsound financial position.

"We advised the government repeatedly that failing adequate relief, we would have to minimize losses by discontinuing imports of gasoline.

"The volume of imports has been continuously increasing with resulting increasing losses. For 1948 imports would have represented between forty and fifty per cent of our total supplies.

We cannot carry on business if we must continue incurring ruinous losses and, as trustees for the many thousands of company shareholders, we have reluctantly decided that there is no alternative to the action which we are regrettably taking. We shall have to review conditions carefully before resuming importations.

"In order to conserve our existing stocks and such gasoline as we may produce at our loco refinery it will be necessary immediately to curtail shipments from our refinery and bulk plants in the province.

"This is being done. At the outset it will be necessary to curtail substantially our sales of gasoline to dealers."

In view of the fact that we must now restrict sales to the production available from our refinery at loco, we will be compelled to reduce deliveries to our dealers beginning today.

Deliveries hereafter will be at the rate of about 45 percent of what we estimate would be your normal requirements.

Waterfront Whiffs

Waterfront Bestirring Itself— Search For Tuna Is Extended

Now that February is almost here it will be only a few more weeks before there will be indications of a preliminary nature of a return of fishing industry. Since late autumn the waterfront has been dull indeed. It is now beginning to definitely bestir itself.

According to recent advice from Washington, legislation to place fish traps, in Alaska under a licensing system for fifteen years will be opposed at a joint House-Senate committee hearing by residents of the territory. Packing companies will support the legislation already approved by their representatives.

The race for the development of the fisheries of the Central Pacific has commenced. Two experimental 100-foot vessels belonging to a company headed by Nick Bez of Seattle, and well known in Alaska industry are now heading south and west from Honolulu, looking for tuna. Each has a biologist aboard.

The Salvation Army has another "William Booth." This time, however, it is an appropriately named missionary boat to be used in Alaskan coastal waters. It will pioneer a new phase of Salvation Army service as it visits isolated villages. Sixty feet long, with twin diesel motors it has a ten-anot cruising speed and, among its amenities, are an electric refrigerator, splendid sleeping accommodation and a ship to shore

telephone. The skipper is "Paddy" Paul of Salvationist at Angoon, who is well qualified for his duties, in every way.

Inbound Friday—W. R. May, J. A. Barber and Mr. and Mrs. Gordon Little.

Saturday Evening Post Article Next Week

Local newsstands report a brisk advance demand for the next issue of the Saturday Evening Post, due on Wednesday, which will print an illustrated article, descriptive of Prince Rupert.

WELL-ESTABLISHED

Britain's leather industrial belts are famous throughout the world. Some belt manufacturers have been engaged in the export trade for over a century.

FRIENDLY GULL—Seafarers often have wished they could change places with the seagull as it glides high in the sky but this centuries-old situation did a right-about face on the first voyage of the Canadian weather ship H.M.C.S. St. Stephen when a storm-tossed gull sought shelter on board. Among the close friends the bird developed in the ship's company was the commanding officer, Lieut. E. M. Chadwick, R.C.N., on whose shoulder it rests.

MINING CAMPS FEEL BUOYANT

Mining developments of considerable importance are beginning to take shape in Alice Arm and Portland Canal districts and the people of that part of the north coast were never more confident or felt more optimistic than now, said Joseph Merryfield of Vancouver, who made a trip north this week, and who left for up-river last evening. He may return south by way of Prince Rupert but, if not, will make the homeward journey by car. Mr. Merryfield who lived here in the early days is in the north in connection with political organization work.

Reminiscences By W.J. and Reflections

Ban anything and immediately comes the urge to see or possess it. The move to banish or bar reading matter regarded as harmful to youth remains. Back in our chubby and sticky childhood, we perused just about everything in sight including "Old Sleuth's Dream," "The Adventures of Buffalo Bill," "Wife In Name Only," "David Copperfield" and Captain Marryat's novels. There were plenty of lovely swear words in the latter. Anytime a book or a story looked or seemed suspicious it was invariably devoured in the hayloft—and always under the shadow of possible parental discipline if caught unaware. Even the seclusion of a good old comfortable barn was not always safe. However, summing it all up, it appears clear that nothing disastrous happened, for one has managed to live so far, with reasonably easy conscience and no jail record.

The gasoline situation comes right home to a large proportion of Prince Rupert's population. Nearly every one, in one way or another, uses fuel oil. Everything that runs on wheels must have it. Where most boats are concerned, oil is indispensable. If one took all the stoves, boats, trucks and cars away from Prince Rupert there would be precious little of anything left. The threatened American embargo could be another source of worry, yet one feels he might gamble on that.

How true it is that time slips by smoother and faster than you realize, and the best laid plans

have a way of not always turning out the way you figure. Take the man who built a boat in Seattle, and with wife and good-sized family aboard actually sailed the home made craft all the way to Juneau. He had served in the U.S. Navy, but, even allowing for that, he took a whale of a chance in ever undertaking such a haywire sort of voyage. He was nearly barred from ever leaving Puget Sound. They tarried in Prince Rupert for a few days and Juneau needing newcomers, and admiring pluck when they saw it, extended a hearty welcome. No, they didn't settle down and live in Juneau, although it looked that way at first, for land was homesteaded, and garden truck raised and sold in town. The head of the house got into a tangle over land (it happened before) pulled up stakes and returned east or south or wherever it was. And so endeth this chapter dealing with life in the storied north.

There are those who, having studied the plans of the giant G.T.P. Hotel to have been built in Prince Rupert and which appeared in the Daily News a few days ago, sniffed a bit and said they could not but wonder. The site is on Second Avenue just across from the corner of Fifth Street. One can see the size of the excavation for himself. It certainly was not dug to look at. Contemplating the lone fountain, all these years, one might be pardoned for having a few vague suspicions. But then, back in the cheerful days prior to the era of international shooting speers, there were great expectations.
