PLAY MAJOR ROLES IN MERCY FLIGHT TO EDMONTON-An R.C.A.F. mercy plane brought two sick Cresswell Bay Eskimos to Edmonton for treatment but six others were said to be lost with dog-teams in a blizzard. The Eskimos were picked up at Fort Ross, N.W.T. A mysterious ailment hit the Eskimos in the Cresswell Bay area, eight of them were brought out by trapper. Major roles in the mercy mission were played by the above trio. They are, left to right: Wing Cmdr. Hugh Bright, senior medical officer, Northwest Air Command; Flt.-Lieut. T. Benson, in charge of plane; Dr. J. H. Harvey.

Newfoundland Votes

T WAS, PERHAPS, quite natural that Newfoundland should have gone Liberal in her first provincial election. The result may be considered as a further ratification of Confederation, a principal champion in the movement for which from the outset was the Liberal Joseph Smallwood who became leader in the provisional government which is now accorded a full mandate.

The Liberals in the federal field may be excused, if not justified, in deriving considerable comfort and hope from the Liberal victory in the tenth province, particularly since the Progressive Conservative leader saw fit to visit Newfoundland during the provincial campaign and do some stiff campaigning. The Liberals will undoubtedly consider it as an indication of the impression the new national leader of the Conservatives might be making.

But possibly a more important determining factor was the undoubted personal popularity of Joseph Smallwood and the fact that Newfoundlanders, at the outset, were better acquainted and more directly identified with Liberalism than Progressive Conservatism.

COL. DANAHER'S SCHEME

THE SCHEME of Col. J. T. Danaher, special investigator for the United States Department of the Interior, of the possibilities of instituting an automobile and truck ferry service from Prince Rupert, the terminus of the Skeena River Highway, through principal southeastern Alaska ports to Haines, terminus of the Haines Cut-off, connection with the Alaska Highway, may be considered somewhat ambitious and visionary. It is hardly likely that a service of such magnitude as set forth by Col. Danaher would be immediately consummated. In the first place, the Skeena River Highway would have to be a much better and more certain artery of traffic before any such service could depend upon it. There would also have to be a sudden diversion of the normal channel of traffic from United States to Alaska. Neither of these things could be expected to be accomplished in a year or so.

Nevertheless, we may expect in the course of time to see a channel of traffic such as Col. Danaher suggests. Eventually hundreds of cars and trucks, it is to be reasonably anticipated, will travel from the railway and highway terminal at Prince Rupert which is so strategically placed in relation to Alaska. At least, Col. Danaher's scheme cannot be dismissed as impracticable even if it might seem a little premature.

A MESSAGE FROM FRANK CALDER

(C.C.F. Candidate for Atlin)

DEAR FELLOW NATIVE CANADIANS:

It is indeed an honour to have been unanimously nominated by the C.C.F. as the Candidate for the Atlin Con-

At this time, let me say that I am proud to be a Indian, and proud of my race. It is indeed a privilege to b the first native Indian to be a candidate for election in the Dominion of Canada. It is a further matter of pride that the first native Indian Candidate should seek election on C.C.F. platform

WHY AM I A C.C.F. CANDIDATE? The reasons are very simple and understandable. Not only was the C.C.F the first Party to fight for native Indian representation in Parliament, it was the first to fight in both the Provincial and Federal Houses of Parliament for equal rights and privileges for the native Indians. During the term of office the last Provincial Parliament, the C.C.F. moved an amendment to "The Provincial Elections Act" to provide that the native Indians be given the right to vote. It might be interesting for you to know that this endeavour was turned down by the Coalition Government. To further reveal the principles and outlook of the CCF., it should be known to all native Indians that the C.C.F. has continually fought for equal rights, equal privileges for all citizens irrespective of colour, race, creed or religion,

REMEMBER also that it was Mr. Harold Winch. Provincial Leader of the CCF, who was asked by the Indians to assist in drafting a petition to the Executive Cabinet in the Provincial Government. The contents of this petition had reference to the franchise; equal educational opportunities, equal rights for native students to enter any Provincial school, and equal rights in obtaining employment. Remember too, the difficulties we have encountered

during the last 60 odd years, in which time our demands for justice were heard, but not acted upon. In the present period, in which political progress is being made because of the C.C.F. fight on behalf of the native Indians, benefits will accure to the Indian population, but suddenly out of blue sky, the Coalition Government reverses its previous stand, and suddenly grants the vote to the native people. Why? Let me explain it this way. Because of Coalition nolitical expediency we have been granted the vote in the hope that you and I will aid in placing the present Government back into power. Is it not strange that after half a century of ignoring us, they are suddenly interested becouse they hope to use our vote to maintain their power? The greatest thing that ever happened to our native people is the granting of the vote, yet we must not overlook the fact that Coalition interests motivated the grant. It is an insult to our people that the Coalition Government should think that we can be bought and that we will fall for the faise propaganda which is now being handed out by the Coalition members and supporters.

Friends, we have heard enough of this in the past. Through our ignorance in the early trading days, upon the arrival of our White brothers, we sold ourselves and our heritage for beads, mirrors and fire water. Let us not be bought again for the price of the vote which is now placed in our hands. Let us keep in mind the responsibility of using this vote honestly for the betterment of our local welfare and the achievement of social justice and equal privileges for all working people.

THEREFORE, friends and fellow native Canadians. I ask you to think before you vote: ask yourselves who has emphasized the needs and requirements of our native people in the past 16 years in the Provincial Legislature? What party has consistently voiced the demand that our native people be on the same status as any other Canadian citizen, and at the same time insisted on the maintenance of just, special Indian interests? In the Constituency of Atlin, the Coalitionists have

but out false propaganda to the effect that should the C.C.F. Party be elected to power, the ministers of God would be thrown out: the churches burned to the ground; the land confiscated, and the poor native Indians forgotten. These are lying statements. I am ashamed of C.C.F. opponents, and ashamed to think that any Party should resort to such lies. I ask you to think, The C.C.F. has demonstrated its determination to see

that the native Indians are represented in the next Parliamnt of the Province, by being the only Party to nominate a native Indian. I solicit your support if you are a voter in the Atlin Constituency. I solicit your support of the C.C.F. Candidate in the Constituency in which you reside and are The Policy of the C.C.F. and their action on the floors

of Parliament on our behalf has earned them the right to expect our support. Remember this-for two thousand vears the world has been preaching the doctrines of Christ. The C.C.F. want a Province, a Nation, and a Government that practices what Christ taught. As one of your race, believing in the future of the

Province being such as to make everyone, irrespective of colour, race or religion, a greater partner in the natural resources, in industrial and agricultural development, I sincerely ask your support of the C.C.F. Candidates. Sincerely yours,

FRANK CALDER

MOUNTAIN BOY MINE OPENING

Having arrived in the city a few days previously from the East, J. O. Le Francois of Montreal sailed Sunday night on the Camosun for Stewart to start the season's development work on the well known Mountain Boy property. The 1949 program will occupy about six months' time and will be along usual lines.

No Harsh Laxatives in Two Years!

Man Finds Relief With Famous Cereal If you are nagged by constipa-tion worries, read this unsolicited

"Constipation cost me plenty of money for strong remedies! But since I started eating KELLOGG'S ALL-BRAN regularly over

to take any laxative. Doing fine, feeling fine! Wish everyone troubled as I was by constipation would try it." W. J. Riley, Molson, Manitoba. Constipated due to lack of bulk

in your diet? You may find relief from sluggishness and taking harsh laxatives. For natural results, try eating an ounce (bowlful) of crisp, tasty ALL-BRAN every day, drink plenty of water. ALL-BRAN is a delicious regulating food, not a purgative. Try one package and if it doesn't help you, you can get double your money back. Simply return empty box to Kellogg's,

HEAD OFFICE

PRINCE RUPERT, B.C.

IMPORTANCE (Continued from Page 1)

"There are many instances of thin traffic lines which are performing essential service but which are operated at a loss, even when consideration is given to their feeder value to the rest of the system. Lines of this nature will be found in all parts' of Canada—the line from Halifax to Yarmouth, the line from Centreville through Fredericton to Saint John, the line from Matapedia to Gaspe, the service from Quebee to La Malbaie, portions of the National Transcontinental. Many agragian branch lines are also of the category. To be added to this category are the Newfoundland railway and steamship services which were recently entrusted to the Canadian National for management and operation.

"These services were operated t a loss prior to union. The loss will be aggravated by substantial decreases in freight and passenger tolls and by increased operating costs and the discontinuance of subsidies.

"Under the condition described above, heavy deficits are bound to occur," says the statement.

The advantage which charges as equitably as possible appertains to the railway is the ability to conduct land transportation in volume at an economic cost far less than by any other medium.

The aim of a national transportation policy should be to secure the optimum advantage from each type of transportation and from a division of service between the various agencies to achieve and maintain a proper balance of cost and convenience. This is not a simple problem at best, and in Canada, with division of control of transport between federal and provincial governments and their respective regulatory bodies, it is especially difficult. The present chaotic condition has resulted in the railways being severely handicapped.

PARDON our pointing ... with pride.

But it's an event when the number of bank workers passes the 40,000 mark—as it did last year. That's 65% more than before the war.

It's an event, first, because it shows the increased use of Canadian bank services . . .

More deposit accounts: now over seven million... More funds: customers' deposits now reach nearly seven billion dollars. More services: to farmers; to personal and small-business borrowers; to war pensioners; to people receiving Family Allowances.

It's an event, too, because of the kind of men and women who have joined our ranks. Eager to get ahead, they are finding in banking an interesting job, a challenging career. They can tell you how important privacy in banking is to the Canadian way of doing things.

BIRTHDAY or

ANNIVERSARY

start to the day.

PRIMITIVE LOCOMOTIVE IN DARKEST AFRICA-Some expeditions penetrate even darkest Africa over some pretty fair roads and the trip is no more exciting than a Sunday spin. This expedition into Nepal, however, decided to explore the wild Karnali Valley where white men have never been seen by the natives, and were therefore forced off the beaten track and forced to use a primitive locomotive method consisting of three elephants, With the equipment and one thing and another, it became rather crowded on board the pachyderms. The expedition, incidentally, is exploring the secrets of Nepal for the National Geographic Society, Yale University and the Smithsonian institution. Crossing the Karnali Valley stream here on elephant back are, (left to right), a native helper, Edward Migdalski of Yale's Peabody museum; Howard C. Weaver, back to camera, of Fredonia, N.Y.; Dr. Dillion Ripley, associate curator of zoology at Yale and leader of the expedition; Richard G. Mack of Del Monte, Calif., and Lane county, Oregon; and the elephant's mahout.

Five local young people, Mis Bernice Mostad, Miss Boulter, Leonard Youngman John Currie and Glenn Hem mons-celebrated their birth
