

United Nations Forces Driving Ahead Again

s Still Back

Nations Forces Move in Frigid Weather

In spite of 20-degrees below zero, the United States Division moved up to miles of important installations on the 200-mile front yesterday and are from the Manchurian. The Communists are back all along the front.

Today the United Nations drove forward all along the front. Smashdowns of as much as five miles were made by the American forces.

On the northwest front, troops of the United States First Army advanced four miles yesterday and are from the Manchurian. The Communists are back all along the front.

Today the United Nations drove forward all along the front. Smashdowns of as much as five miles were made by the American forces.

HOT, HUMID AND MOIST—Three Canadian destroyers in Korean waters have found the weather hot, humid and frequently moist. It was wet, in fact, when this RCN photo was taken of Capt. Jeffrey Brock of Winnipeg and Victor, a, in oilskins, and Sub-Lieut. Robert O'Neill of Ottawa on the bridge of the destroyer Cayuga. (CP PHOTO)

MUSIC FOR NAVY— Twenty-One Piece Band For HMCS Chatham Authorized

FORD LAY-OFF
DETROIT—Ford Motor Co. is laying off 50,000 workers for intermittent periods owing to shortage of materials due to defense demands.

ARM BERLIN POLICE
BERLIN—Great Britain and the United States are arming 14,000 West Berlin police with sub-machine-guns and other weapons. Eight tanks and 200 United States soldiers have arrived.

BIG WASHINGTON WIND
WALLA WALLA—A gale up to 81 miles per hour was recorded here during the night but there appears to have been no serious damage.

TROOP MOVEMENTS OUT
NEW DELHI—Owing to the tense situation in the Tibet area and elsewhere along the northern frontiers, the Indian government has forbidden troop movements in northern India.

Revival Of Sea Cadets

Department of Naval Service
Anxious That Local
Corps Be Re-formed

Naval Service Headquarters in Ottawa is anxious that the Prince Rupert Sea Cadet Corps, once regarded as one of the finest and most enthusiastic in Canada but for the past few years inactive, be re-formed.

As a first step, the local branch of the Navy League of Canada would have to be revived.

All uniforms and training equipment are supplied by Naval Service Headquarters.

Training quarters would be at H.M.C.S. Chatham, the training staff of which would also be available.

Canucks At Fort Lewis

FORT LEWIS, Wash. (C)—Canada's 11,000-man Korean brigade, under command of Brigadier J. M. (Rocky) Rockingham, today began pouring into Fort Lewis by trooptrain. They are abandoning camps from Ontario to British Columbia in which they have been taking basic training and the movement is expected to be completed by November 23. The force will be stationed here for information training.

Not Breaking Up Coalition

But It Cannot Last Forever,
Says Attorney General

VANCOUVER.—Speaking to the Vancouver Centre Liberal Association last night, Attorney General G. S. Wismer said that, while coalition could not last forever, there was no intention of breaking it up at present. Nevertheless, if it continued indefinitely, there must be government by compromise.

Mr. Wismer reiterated his opinion that there should be early institution of the transferable vote system in British Columbia elections.

THE WEATHER

Synopsis

Seven inches of fresh snow lie on the Queen Charlotte Islands airport at Sandspit but there is none along the mainland in that area. Heavy falls of snow have occurred in the mountains of the Kootenays with some high valleys reporting over a foot on the ground this morning. In the south coastal region the air has become a little warmer because of longer travel over the ocean and all precipitation has been in the form of rain.

The storm centre affecting British Columbia weather lies off the Vancouver Island in almost the same position as yesterday. However, it is not quite so intense and winds are considerably lighter than yesterday. There is little indication that this centre will change much in the next two days and consequently the current weather pattern is forecast to continue.

Forecast

North Coast Region—Mostly clear along the mainland coast but elsewhere cloudy. Scattered snow flurries main on the east coast of the Charlottes. Little change in temperature. Winds east (25 miles per hour) except down mainland inlets, northeast 40 miles per hour. Lows tonight and highs tomorrow—At Port Hardy 32 and 40; Sandspit, 28 and 36; Prince Rupert, 25 and 35.

Egypt and Britain— King Farouk Takes Hand

Tells His Parliament to
Cancel Treaty of 1936—
London Stands Pat

CAIRO (C)—King Farouk of Egypt declared today that Egypt's government "sees that the 1936 Anglo-Egyptian treaty has lost its legality as basis of Anglo-Egyptian relations." The statement was made in the Speech from the Throne at the opening of Parliament. The king added that "there is no alternative than to decide on its cancellation."

The Throne Speech indicated that Egypt hopes Great Britain will recognize its demands to remove British troops immediately from the Suez Canal zone. Main clause of the 1936 agreement is its authorization to maintain British troops in the strategic Canal zone until 1956.

British and Egyptian governments have been holding discussions on Egypt's long-standing demands that British troops get out of the Suez Canal zone and that the Anglo-Egyptian Sudan be united with Egypt. Britain, citing the world situation, has been hanging on stubbornly to the 68-year-old occupation right.

Today a government spokesman in London said that Britain had no intention of withdrawing from the Suez Canal area.

Rangers Not Hypnotized

NEW YORK (C)—New York Rangers today know what a lot of people have suspected for some time—psychology, hypnosis or a hook, it still takes goals to win a hockey game.

Dr. David F. Tracy, New York psychologist, yesterday afternoon gave them treatment in their dressing room on how to relax but he, apparently, had little success with the Rangers for they lost 4-to-3 to the Boston Bruins.

Films depicting the operations and organization of Consolidated Mining & Smelting Co. comprised the interesting program at today's weekly luncheon of Prince Rupert Rotary Club. President A. B. Brown was in the chair and there was a good attendance of members with several guests.

**CITY OF PRINCE RUPERT
NOTICE RE HOUSING**

A PUBLIC MEETING will be held in the Common Lounge of the Civic Centre on Friday, November 17th at 8 p.m. at which Mr. J. Everett Brown, Provincial Housing Commissioner, will outline a proposed housing plan. All interested in rental or purchase housing are cordially invited to attend.

GEORGE RUDDERHAM,
Mayor

Canadian Experts Keep Korea Air Lift Moving

By DAVE McINTOSH
Canadian Press Staff Writer

McCHORD AIR FORCE BASE, Wash. (CP)—They rolled the 30-ton giant into the hanger and the ground crew swarmed over it like ants burrowing into a great silver log.

Almost a week later they rolled it out again, refreshed after the major overhaul and ready to tick smoothly on the 10,000-mile haul to Tokyo and back.

The men who keep 'em flying for the RCAF Korean airlift squadron had turned out another professional job.

Who are these men who make a squadron operational but whom you never hear about?

Take Cpl. Bill Widger, for instance. The 46-year-old Calgary has been an airframe mechanic for 10 years. He worked on Fairley Battles, Kittyhawks, Hurricanes, Ansons, Lysanders and Mosquitoes—among others—before North Stars were ever built.

"Everything back of the fire wall is my business," he says. By this, he means all control surfaces are his responsibility—everything but the engines. Ailerons, fins, rudders, flaps, undercarriage, nosewheel—all these must be in perfect working order. If an aileron should jam, a score of men might die.

GOOD MACHINES

Stocky, craggy-jawed Widger says: "I suppose aircraft become just like patients after a while and you look after them like a doctor. You jab 'em here and there and find out what's wrong. After that, you have to put it right."

He stuck his screwdriver in his pocket and leaned back against the work bench. He looked at the North Star, encased in scaffolding as men dug into its vitals.

"Seems funny about the North Star," he said. "American design. British engines, Canadian modifications. She's got good engines. She's a good plane."

Any pilot here will tell you the same thing and that no engine can beat the Rolls-Royce Merlin. And they add that the ground crew keep them that way.

"That plane will barrel through anything," was the way FO. Jack Santarelli of Montreal put it.

Ft. Lt. Cord Webb, D.F.C. and bar, of Hamilton says: "I flew B-29s in Alaska. After those, handling a North Star is like stepping from a horse and buggy into a new car."

Sgt. Ed Jacobsen of Kenora, Ont., has been an engine mechanic in the RCAF for 12 years and joined the squadron from Centralia, Ont.

His job is to see that the engines turn over and keep turning over.

WELL-TRAINED

Another task is training new men. "It takes three to four months to train an engine mechanic," he says. "There's a good deal of natural ability to it, though. An engine mechanic is more or less born, not made."

This can be pretty credible to any layman, gazing at the incomprehensible jungle of rods, valves and feed lines. Beside an engine, the myriad dials and switches of the cockpit are a piece of cake.

A ground crew man who has to be able to—and can—fathom the intricacies of the cockpit is LAC. Bill Tigges of Ottawa. He's been in the RCAF 2½ years.

"The instrument trade is pretty new," he says. "All I do is modifications, modifications." He exhibited a new flowmeter, about a third the size of the old one.

"Modifications are what make a better aircraft, though," he said.

Cpl. Leo Mancuso of Toronto is an electrician, has been for eight years. Before 1942, he was a draughtsman. He served in Europe as well as on a good percentage of airdromes in Canada.

Mancuso is responsible for all electrical circuits in the North Star. With four men, it takes five days to cover them all from nose to tail on a major check, which comes every 400 flying hours.

Airframe mechanic, engine mechanic—in the old days they were called fitters and riggers—instrument mechanic and electrician do not cover the whole range of ground work. There are radio men, calibration experts, radar mechanics.

There are 14 six-man air crews on the squadron. To keep them flying it takes more than 400 men like Widger, Jacobsen, Tigges and Mancuso.

British Planes Are Fired Upon

HONG KONG (C)—Two unidentified planes, possibly from the Royal Navy aircraft carrier Theseus, were fired upon by Chinese Communist anti-aircraft batteries along the Hong Kong-China border yesterday. Neither was, apparently, damaged. The Navy refused to comment.

Russ Plane Endangered

Alleged Act of U.S.
Jet Fighter Protested

BERLIN (C)—General Vassily Chuikov, chief of Soviet forces in Germany, charged last night that an American jet fighter had endangered a Russian hospital plane carrying French Communist leader Maurice Thorez to Moscow. American officials promptly denied the charge.

Chuikov, in a formal protest, said the fighter flew within 10 yards of the Soviet plane.

Thorez, reported to be suffering from partial paralysis, was enroute to Moscow for treatment. He is now believed to be in a sanatorium.

The incident is alleged to have occurred near Frankfurt.

It was believed to have been Foreign Commissar Andrei Vishinsky's personal plane.

John H. McDonald, living at the Pioneer Home in Westview, has entered the Prince Rupert General Hospital.

No New Flood Relief Taxes

WINNIPEG (C)—Premier Douglas Campbell last night announced that Manitoba will impose no new taxes in meeting its estimated \$6,000,000 share of the \$23,000,000 Red River valley spring flood bill.

The Premier said the province hopes to raise its share of the cost from consolidated revenue.

The federal government will pay a large share.

Shipyard Strike Is Believed Over

VANCOUVER.—Settlement of the British Columbia shipyard strike appeared in prospect today. Yesterday the operators offered a wage increase of 15 cents an hour and the strike committee is recommending that it be accepted. The union had asked for an increase of 18 cents.

Breaks With Non-Partizans

VANCOUVER.—Ald. Archie Proctor, who differed with the Non-Partizan Association on the "Open Sunday" issue, refused last night to accept the N.P.A. nomination for re-election at the forthcoming civic election but said he would run as an independent.

Australia Firm— Weak Japan, Pacific Pact, Are Wanted

SYDNEY, Australia (C)—Australia wants two things in the Pacific—a disarmed Japan and a Pacific pact that includes the United States.

There is a feeling in Canberra that Australia may use promised talks on a Japanese peace treaty as basis for "horse trading" on a Pacific pact.

The Australians have been slow to forgive Japan for its war misdeeds and this has been made known in recent talks in Britain and the United States.

**Scarcity May
Speed Plant**

According to what is heard in Vancouver the 35 per cent cut-back in the civilian use of aluminum in the United States may warrant an additional impetus toward the establishment of an aluminum industry in northern British Columbia. To date, it is indicated there is expectation of a plant being built at Kitimat, a short distance south of Prince Rupert. This would use power from the system of lakes and rivers in the interior regions.

The American cutback order becomes effective January 1, the reduction applying on everything from pots and pans to motors and machinery.

British Losses In Korean War

LONDON.—Minister of Defence Emmanuel Shinwell told Parliament today that British casualties in Korea had been 51 killed, 158 wounded and five missing.

Former Prime Minister Winston Churchill said that Britain should thank God that her casualties had not been heavier. He proposed that a message of sympathy be sent to United States in view of her much heavier casualties.

Try To Break Up Deadlock

WASHINGTON, D.C. (C)—Another effort to break the German rearmament deadlock and get on with organization of a combined defence force for Western Europe is scheduled in London, starting December 4.

France has opposed the inclusion of a large German force in the Western European army.

At the London meeting North Atlantic council of foreign ministers, deputies and military committees will try to settle their differences. Canada will be represented by Defence Minister Brooke Claxton.

Russians Help North Koreans

TOKYO (C)—The Russians have supplied North Korean communist forces with 900 to 1000 Soviet-made tanks "during the course of the war," General Douglas MacArthur's headquarters announced yesterday.

Of these, headquarters said, 595 have been destroyed and about 200 were damaged, captured or abandoned.

ALBERNI MAYOR IS RE-ELECTED

PORT ALBERNI (C)—Loran Jordan, who resigned as mayor after a probe into the civic administration, was again elected chief magistrate yesterday in a special by-election.

Jordan polled 879 votes, 173 more than William Johnstone who resigned his aldermanic seat to contest the mayoralty.

In Victoria today Hon. R. C. MacDonald, minister of municipal affairs, said there would be no action taken against members of Port Alberni's city council or municipal officials for alleged misconduct in connection with city affairs. Those involved had had their lesson and the city council should be able to put its house in order, the minister commented.

AIR PASSENGERS

From Vancouver (Wednesday) — P. McGregor, F. Budger, W. Carson, J. A. Peppar, E. J. Nicolas, N. Thomsen, P. Thickett, Mr. Kosolowsky, O. Matz.

To Vancouver (today) — Mr. and Mrs. H. S. McTier, Mr. and Mrs. C. H. Klotz, J. S. Wilson, G. Doucet.

To Sandspit (today) — E. Christiansen, Miss Christiansen.

R. G. Van der Sluys left by yesterday's plane for a trip to Vancouver.

LETTERBOX

GOD HELP TEEN-AGERS

Editor, the Daily News:
Dear Sir—I note in the News that Teen-ager states there "is nothing to do but resort to drink," unless, of course, someone donates the necessary paraphernalia for them to play some kind of games. It is enough to make a person weep, the things. We fancy that Stalin finds something for his teen-agers to do, besides play games. In our younger days there was none of this mollycoddling for young people. Their parents found plenty of work for them to do. If they wanted a new ball, bat or a mitt, or hockey stick, they found a job and earned the money for themselves. They, or their parents, would have been shocked to think of expecting any one to find these things for them. Of course, the teen-ager has become accustomed to sit, like a bird in the nest, with his mouth open, waiting for mother bird to feed him, but after he was able to fly the bird was shoved out of the nest and had to root-hog or die. We did not have baby bonuses in those days and parents raised their families without any do-gooders going around holding tag days for them or the government sending around public doctors, nurses, etc. In fact, people stood on their own feet, and had too much self respect to, accept charity from anybody. If they could not afford a thing they went without it. Nowadays, would make clothing, mend everyone seems to expect to live in the height of fashion and

luxury—at one's expense.

Today the parents do not seem to know enough to teach their children anything at all but must have the government or the schools teach them practically everything (except the fear of God). Mothers do not do any sewing but send to Eaton's for most family requirements. In the old days people made their own clothes—starting with the wool on the sheep; their own shoes—starting with the raw hide. They did not get their meals out of a tin can out of the cellar or garden.

I remember being at a farm one day, 50 years ago, when the threshing crew pulled in to thresh. The mother was away. The 15-year-old girl went ahead and cooked for them just like it happened every day, and thought nothing about it. That same girl could also sew and make things better than you get in a store today. When she married she raised a large family, without any bonus or public health nurses showing her what to do, and it was many years before she had a washing machine. Not being rushed to death with raising a large family, cooking and washing, she would often go out in the fields and stook grain, or cock hay, or harvest vegetables. This did not keep her busy so she made hundreds of pounds of butter, cured tons of meat, preserved hundreds of quarts of fruit, finding time hanging on her hands after this, she would wander off in the woods and pick wild fruits or make flowerbeds. After a day of this light work she would make clothing, mend socks, sew carpet rags and make carpets or sew pieces for mak-

ing quilts that were much better than anything one can buy in a store. Today she is 68 years old and still can get around, and do as much as many young women can do. In fact, she would have died long ago if she could not have found something to do to pass the time.

We wonder what the young people would do, or most of the older ones, if they were to be cast upon the shore of North America with as few things as our first settlers had to work with. Those people were up against practically every hazard and had to depend upon themselves or starve. They had to fight Indians and wild animals, as well as winter weather, and there was no government pap to suck. They had it much worse than the homesteaders of the last 40 years, or the stump ranches, who started from scratch—before these Socialistic ideas became prevalent. No! The teen-agers had plenty to do except play games or drink and they did not have fine cars to drive around as the young ones expect as their rights today. Dad was lucky to have a good yoke of bulls and much happier than people today.

Today the people want their cake and to eat it. They have killed the goose that laid the golden egg. It is doubtless too late but we notice the poor Yanks are at last starting to wake up from their dizzy dreams under FDR and HST. We wonder when Canucks will start to wake up after having followed FDR for so long. Possibly it is too late to save the wreck but the old boat might survive a while if she had an overhaul at once. The trouble is that we have too many mollycoddles who expect the government and the employers to pack them around on nice soft pillows. Soak the rich! In other words—rob your neighbor, who was so silly that he saved his money, although he had received small wages most of his life, and now has to pay for his living at the rate of possibly 15 hours' wages in competition with present wage-workers who can buy the same thing with one hour's work. The dumb government does not seem to figure out that angle and also penalizes those thrifty saps today by not giving them old age pension—because they saved some of their small wage, after raising their own families. There was a nice little article in the Digest, which is very appropos. It hits the nail on the head.

"In a city of Florida great

flocks of gulls are starving amid plenty. Fishing is still good but the gulls don't know how to fish. For generations they have depended upon the shrimp fishermen to toss them scraps from the nets. Now the fleet has moved to Key West."

The shrimpers had created a welfare state for the sea gulls. The birds never bothered to learn how to fish for themselves and they never taught their children to fish. Instead they lead their little ones to the shrimp nets.

Now the sea gulls, the fine free birds that symbolize liberty itself, are starving to death because they gave in to the "something for nothing" lure! They

sacrificed their independence for a handout.

A lot of people are like that, too. They see nothing wrong in picking delectable scraps from the tax nets of the government's shrimp fleet. But what will happen when the government runs out of goods? What about our children of generations to come?

Let's not be gullible gulls. We must preserve our talents of self-sufficiency, our genius for creating things for ourselves, our sense of thrift and our true love of independence.

It is time to give some consideration to these things—before it is too late. We wonder if the Yanks are waking up. It seems Australia has already

started to patch up the of state. Here is hoping not matter so much my age but I have a children and grandch will have to paddle canoe. May God help "AND

Jaycees Have Fine Evening

ber of Commerce members and visitors, totalling 30, enjoyed an enlightening evening when they were in monthly session last night.

With President Jeff Hill in the chair the business was confined to a minimum.

The Junior Chamber is going all out this year to foster Junior Citizens Day, which is being held on December 12. Arrangements are now being completed for the election of a junior mayor and council. The Jaycees are seeking the full co-operation of the citizens of Prince Rupert and particularly the business men in making this day an outstanding success for those young people that are fortunate enough to take over the reins of civic government for a day.

An active part will be played by the Junior Chamber in the actual civic campaign. They will urge all those who are eligible to vote to "Get out and vote."

After the business of the evening was completed the members and visitors viewed a film produced by the Consolidated Mining and Smelting Co. Ltd., and shown by Neely Moore, an active executive member of the Jaycees.

A. S. Nickerson represented the Senior Chamber of Commerce at the meeting.

\$6.75 buys a case of Pacific milk and 10c buys a 15-ounce tin of choice golden corn or a tin of Nabob pork and beans at SHEARDOWN'S. (11)

George Howe is sailing on the Prince George for Vancouver to join Mrs. Howe and family who recently moved south.

Hundreds of bargains tomorrow and Saturday at Bulger's big Ninety-five Sale. (267c)

S.O.N. Whist and Dance, Friday, Nov. 17, Whist, 8 o'clock. Music by Mike Colussi. Refreshments. Everybody welcome. (268)

Dr. R. G. Large is leaving on tomorrow's plane for Vancouver where he will represent the Prince Rupert Medical Association at medical meetings during the week-end. He will return to the city next Tuesday.

Children Are Best Asset

Parent-Teacher Association Hears Impressive Address

At the regular meeting of the Conrad Street Parent-Teacher Association Tuesday, an address by Mrs. Vesta A. Douglas, teacher at the Conrad School, was the highlight of the evening.

"Children are our greatest asset," stated Mrs. Douglas, "and life without them would be void of meaning. Let us each one—parent and teacher—direct our efforts into the field of child study, commonly known as child psychology, in order to give and get the best from our children. The keynote to a happy childhood and useful citizenship is obedience from intelligent direction. So govern their environment that the home, church and school acted as one complete unit."

The resignation of Mrs. T. H. Dahle, submitted following her recent bereavement, was accepted with regret and she was made honorary publicity convener.

A report was given by Principal T. G. Bateman on efforts to obtain more playground equipment and a fence for the school property. A number of volunteers agreed to assist in building the fence when the material is supplied.

Mrs. D. Gomez reported the Halloween hoedown had been a huge success both financially and in numbers attending. Mr. Blair also reported that the last card party was successful.

Three executive positions were filled by the election of Mrs. J. Cooke as literary convener; Mrs. C. Weise, representative to the music and drama festival board; Mrs. T. Parkin, publicity convener.

Following the showing of two interesting films, refreshments were served.

Navy Enjoying Roller Skating

A roller skating club has become a popular adjunct of H.M.C.S. Chatham here and no small factor in making it so is the availability of Bill Kwok, a talented roller skater, who was formerly well known in Pro-Roller skating in Vancouver. Mr. Kwok is devoting generously of his time in training the navy boys on the drill hall floor.

Last night there was an special treat when Kwok put on an exhibition of roller skating dancing with his partner and fiancée, Miss Woods, who is visiting here from Vancouver.

City Property Fairly Clean

In general, city property is found in fairly good condition, says the monthly report of Sanitarian Armine Boas to the Unit Board of Health. The routine inspection of food establishments has been carried out and apart from the non-compliance regarding the admission of animals to such places, the sanitation was adequate.

Again, the majority of complaints have been about septic tanks, says the report. These complaints will grow ever more frequent until sewers are installed. It is regretted that adequate labor cannot be employed by the city to instal sewers, the cost of which the owners are willing to bear.

"The water situation at Port Edward is a constant source of worry to the department. The quality has been repeatedly

shown to be sub-standard and, unless an adequate chlorination plant is installed, the health of the community will be in constant jeopardy."

Mr. and Mrs. H. S. MacTier left on today's plane for a trip to Vancouver.

City Hall and Health Service

A tighter relationship between the public health unit and the city council will be sought so that more effective control and service in matters involving

health matters may be assured. For instance, health unit officials feel that the method to date in the matter of consultation prior to the granting of licences for rooming houses and restaurants is too haphazard. The method has been pretty well one of verbal transmission whereas the health unit feels that there should be formal

written requests for approval or otherwise before licences are granted.

The board of health, at its meeting yesterday, also discussed lack of control of building. Statement was made that undesirable dwellings, some lacking the simplest of sanitation facilities, were being erected in residential areas. There was also some criticism of delay at the City Hall in acting upon applications for some sanitary services such as sewer extensions.

Help Prevent Tooth Decay!

BEFORE IT STARTS... INSTEAD OF AFTER IT APPEARS

This famous formula, developed by the University of Illinois Foundation, caused enormous interest in dental circles because of its promising method of attacking tooth decay. In preliminary tests conducted at the University, case after case of reduction in the incidence of tooth decay was reported.

Now the manufacturers of Listerine Antiseptic make this same formula readily available to you and to your family. Use Listerine Ammoniated Tooth Paste regularly, as directed, morning and night and right after eating. Lambert Pharmaceutical Co. (Canada) Ltd., Toronto.

AMMONIATED LISTERINE TOOTH PASTE

...designed to help prevent decay 3 ways!

1. Chemical action reduces mouth acidity. Mouth acidity encourages decay.

2. Mechanical action cleans surfaces as teeth are brushed—helps break up and remove decay-breeding deposits.

3. Chemical action checks acid-forming bacteria—a major cause of decay.

Boston Wins Over Rangers

NEW YORK.—Boston Bruins pulled out of the National Hockey League cellar last night by scoring a close 4-to-3 victory over New York Rangers with whom they are now tied for fifth place. It was the second victory of the season so far for Boston. The Rangers have only won one to date.

Tonight Toronto Maple Leafs will be in action at Montreal and Detroit Red Wings at Chicago.

The league standings:

	W	D	L	F	A	Pts
Toronto	9	3	2	47	26	21
Detroit	7	3	2	31	20	17
Chicago	7	2	3	37	26	16
Montreal	4	4	7	30	33	12
New York	1	6	8	22	43	8
Boston	2	4	8	20	41	8

Hockey Trade Is Announced

TORONTO.—Toronto Maple Leafs today announced that they had traded right winger Bill Ezinicki and left winger Vic Lynn to the Boston Bruins for three players—defencemen Fern Flaman and forwards Phil Maloney and Ken Smith.

Ezinicki and Lynn have been playing for Pittsburgh Hornets of the American Hockey League this season.

Fans are speculating on what effect the deal will have on the fortunes of the two clubs. Maple Leafs have been riding high this season at the head of the league while the Bruins have been keeping around the basement.

Chamberlain To Vancouver

CHARLOTTETOWN.—Ed—Edwin (Murphy) Chamberlain, coach of the Islanders Hockey Club in the Maritime Hockey League, reported here last night that he had been appointed coach of Vancouver Canucks in the Pacific Coast Hockey League. (In Vancouver, Coley Hall, manager of the Vancouver Canucks, denied the report from Charlottetown but said he had been negotiating with Chamberlain, former Montreal Canadiens star.)

George Martin of Northwest Construction Co. is leaving on the Prince George tonight for Ocean Falls where his company has extensive contract work under way.

Ladies' Bowls Race Is Close

With one more week of play to go in the first third of the season, Lyons is now ahead of Lucky Strikes by one game for leadership of the Ladies' Bowling League "A" Division while Rockettes and Commercial are in a tie for first place in "B" Division with Battlers only one game behind.

High single scorer for this week's play in "A" Division was Isla Garner of Gordon & Anderson with 304 while Bertha Dunbar of Lucky Strikes had the high three game aggregate of 700.

In "B" Division Mr. Baxter of B.C.G.E.A. was high single game scorer with 272 while A. Holstead had high three game aggregate of 618.

The team scores were:

"A" Division
Tollers 3, Bank of Commerce 0
Brownwoods 3, Stars 0
Lucky Strikes 3, Rosa Lee 0
Lyons 2, G. & Anderson 1
Annettes 2, Belmont 1
Wrathall's 2, McMeekins 1

"B" Division
B.C.C.E.A. 3, Savoy's 0
Commercial 3, Skeena Gro. 0
Shenton's 3, Gingersnaps 0
Manson's 3, Wallace Phar. 0
Rockettes 3, Black Cat 0
Battlers 2, Big Sisters 1

Individual scoring:

Ladies' "A"
LYONS—A. Pierce 663; B. Thompson 512; V. Anderson 538; J. Shenton 498; V. Wrathall 590.
GORDON & ANDERSON—J. Menzies 658; S. Ramsay 473; I. Garner 639; L. Anderson 435; C. Barrie 444.

Argonauts In Football Final

TORONTO.—Toronto Argonauts rode into the eastern Canada football final by smashing Hamilton Tiger Cats 24 to 6 yesterday before a Varsity Stadium crowd of 23,349 to take a two-game "Big Four" play-off series 39 to 19 on the road.

The Argos will meet Toronto Balmy Beach in a sudden death game November 18. The winner will meet Winnipeg Blue Bombers.

Are Married In Lutheran Church

The wedding of William Frederick Checkley and Miss Evelyn Skog took place at 7:30 o'clock last evening in St. Paul's Lutheran Church, the ceremony being performed by Rev. Earl Soland.

The groom is a ticket agent in the service of the Canadian National Railways and the bride was formerly a member of the city telephone operating staff.

The groom is the son of Everard Robert Checkley. The bride's father is Olaf Skog, of 1309 Sixth Avenue East.

The witnesses were Robert E. Foot and Miss Mary Wahl. A reception was held in the Sons of Norway Hall.

Tonight the couple sail on the Prince George for a honeymoon trip to Vancouver.

OSLO — An estimated 300,000 tons of coal will have been shipped from Spitzbergen to Norwegian ports before ice closes the shipping lanes this year. Some Canadian troops landed on Spitzbergen for occupation purposes in 1941.

the big fir forests cut down during the war to manufacture Mosquito bombers, torpedo boats and other weapons.

He attended Eton and Oxford, worked briefly in an airplane factory, then went into the navy where he became a destroyer lieutenant.

After the war he studied forestry abroad and came home to tutor in estate management under the Duke's experts.

Now his rangy six-foot figure can frequently be seen among the Scottish hills, touring his estates. Sometimes he goes afoot, sometimes on horseback. He drives a small, gas-saving car on occasional shopping trips to Selkirk.

When he wants to nip cross-country in a hurry, he trots out a speedy sports roadster.

Grim Story Is Told To Club

Dr. Duncan Black Recalls P.O.W. Experiences of Burma

Experiences as a Japanese prisoner-of-war were told by Dr. Duncan Black, director of Prince Rupert and District Health Unit, at the Women's Canadian Club in the Civic Centre last night.

Numbering among the 60,000 allied troops taken prisoner by the Japanese early in 1942 at Singapore, Dr. Black described their capture as "coming under the poached egg." Such a description, Dr. Black explained, was in reference to the design of the Imperial Japanese Army.

Privation and disease were found by Dr. Black in his work from the first prisoner of war hospital improvised in a Shanghai Cathedral to bamboo built field units along the railway they were forced to build through Siam.

Describing the first Japanese officer he met as "a human being," Dr. Black found in other instances the Japanese commanders were "screeching hissing, spitting, monkey-like men in lavender gloves."

"Rice was the main food eaten three times a day. In bed at night we would dream of food. But after a week's hunger the obsession for food diminished," Dr. Black recalled.

"I think I can well understand fanatics and Gandhi's who fast so long. The body weakens but the spirit does not want the food. After the first week is past you don't notice it so much," he said.

One of their main bases along the rail route built for the Japanese—Chung-Kay, Siam—was described by Dr. Black. Typical of these work camps would be the crowding of 15,000 prisoners into accommodation meant for 2,000 men at this Siam base camp.

Malaria, beri-beri, typhoid, dysentery, cholera and stomach ulcers soon prevailed under such crowded conditions. Dr. Black pointed out. In one cholera outbreak over 300 men were lost through malnutrition, exposure and want of drugs, the doctor recalled.

"Where medicine failed the first picture postcards we were able to send home were great morale builders for the sick," said Dr. Black. Concerts and many plays of Bernard Shaw's contributed largely to morale.

"Ability, tenacity, fanaticism and ferociousness made up the character of our Japanese."

"Their intellectual dishonesty was staggering," Dr. Black noted.

RUGGED SURGERY

Specially concocted paralyzing anaesthetic invented by one of the doctors from rice was used

PROMINENT MASON, KNOWN HERE, DIES

John McLeod, brother of Mrs. M. McLeod, Sixth Avenue West, resident here during railway construction days, and a well-known visitor in more recent years in Prince Rupert on various occasions on Masonic affairs, passed away yesterday in Vancouver General Hospital after a ten days' illness. He was a past first grand principal of Royal Arch Masons for British Columbia and was also active in other branches of the Masonic order. Besides his sister here, he has a brother, Alex McLeod, Vancouver, who was here during the war, and a sister, Miss Barbara McLeod of Vancouver. He was born in Scotland and was a widower.

Voters' List Is Finalized

Four names were deleted from the voters' list at the court of revision last night. This brings the voters' list to a total of 2863 voters. City Clerk H. D. Thain reports. Ninety-two of these are licence holders, 89 householders and the remainder property-owners, the city clerk said.

A comparison with last year's voters' list totalling 2843 names shows more licence and householders in 1949 but more propertyowners this year.

Of the four voters deleted Wednesday, two were deceased, one an American citizen, and the fourth was a licence holder who had left town, Mr. Thain said.

Long Life For Cut Flowers

Mrs. A. E. Carlson, 527 Herman Street, thinks she has achieved something of a record in longevity of indoor keeping for cut flowers. She has had a bouquet of asters in a vase inside her home for a whole month. Usually they only last about two weeks. The asters were grown in Mrs. Carlson's own garden.

for amputations. The butcher shop meat saw was borrowed for operating room amputations. One hundred and seventy eight legs, poisoned from bamboo scabbies, were amputated the doctor said.

Bamboo and rice were their mainstay—rice, except for plain soup, was the food; everything from latrines to railroad bridges, was made with bamboo.

By October 17, 1943 the railway was completed by the British, American and Dutch prisoners with the final help of Japanese troops.

"Perhaps the greatest tragedy of the war," Dr. Black said, "was when allied planes bombed us due to Japanese placing our camps near military objectives. Bombers from allied aircraft ran casualties and deaths to over 800."

Dr. Black said that in the three and one half years served in prisoner of war camps, 20 per cent of the men were lost through Japanese mismanagement.

The speaker was introduced to a capacity audience by Vice-President of the Women's Canadian Club, Mrs. W. A. MacLean. Mrs. MacLean explained that Dr. Black, after serving with the Indian Medical Service and British Secret Service, finally organized the first ambulance trains for the British Government at Singapore and the Malaya Peninsula.

Although 85 ladies were present, Mrs. F. E. Anfield, secretary, pressed for better attendance from the club's 150 members in her report.

Mrs. W. D. McAra was introduced as a new member.

"God Save the King" was sung

Health Service Needs More Funds

The provincial Department of Health will be asked for a larger grant next year by the Union Board of Health of Prince Rupert District. With the fiscal year now little more than half over, the board is already running short of funds such as travelling expenses in this widespread district. In addition to a larger grant next year, additional funds to carry on the rest of this year are being asked.

Islands Seek Health Nurse

Queen Charlotte Islands school district is entitled to a seat on the Union Board of Health of this district but consideration of a request of that area to be supplied with a resident public health nurse is being deferred. It was so decided yesterday afternoon at a meeting of the Union Board of Health in the local public health centre.

Dr. Duncan Black, who acted as chairman of the meeting in the absence of Ald. J. N. Forman, expressed the opinion that the service now being given the Islands at present was adequate. This consists of a visit by a public health nurse for nine or 10 days every three months, by the director a couple of times a year and by the sanitarian also once or twice a year. A full time public health nurse might not meet the situation since she would be obliged to carry out work other than that usually done by a public health nurse. In any case, it was felt that the request might be premature since the present service was of an experimental nature.

The population of the Islands

First Cold Snap Ends

With skies clouding over as wind paused between east and southeast, Prince Rupert looked forward this morning to milder weather after a brief but early cold snap. However, it started clearing up again before noon and some doubted if the spell was really over. Minimum thermometer reading was 22.9 on Tuesday night. It seemed even colder yesterday afternoon and last night because of a stiff northeasterly breeze but actually the minimum at 4 o'clock yesterday afternoon was 23 above and at 10 p.m. it was 27 above, going up during the night to 29 above at 7 o'clock this morning. The city was on the fringe of a gale area which was not felt here but had its force down the coast over Vancouver Island and extending to the lower mainland.

was estimated at 1200 to 1600, including Indians, whereas that of Terrace, a more or less concentrated community, which had only recently been granted a full time public health nurse, was 3000 or more.

"UP GUARDS AND AT 'EM"—Drawn by Robert Chambers in the Halifax-Chronicle-Herald. (CP PHOTO)

Industrial Film Interests Gyros

Prince Rupert Gyro Club was intrigued yesterday by the technicolor picture "No Man Is an Island," a graphic picturization of the widespread industrial operations of the Consolidated Mining & Smelting Co. at its Trail refining plants, the great Sullivan mine, the chemical plants at Warfield and Calgary, and the Yellowknife gold mine in Northwest Territories. There were also many fine scenic shots as well as intimate glimpses of community and domestic life in Consolidated towns.

President A. J. Dominato was in the chair at yesterday's luncheon. Guests were Capt. W. H. Kougham, Dr. Duncan Whitmore and Neely Moore.

Stikine Prospector Heads Southward

John Zallo, well known northern prospector, has been in Vancouver lately. He spent years in the upper Stikine River section, and is now looking over areas on the coast with a possibility of future developments.

Moose and Coyote Bag of Hunters

A two-year-old moose, shot on the first day of the hunt, and a coyote was the bag brought home Wednesday from the Bulkley Valley by E. D. (Al) Manson and A. J. Dominato on their annual hunt.

New Sanitarian For Interior

Hugh Hart, who has been following the calling of a plumber at Courtenay, Vancouver Island, has arrived in this district, to assume the duties as sanitarian for interior portions of Prince Rupert public health district. He arrived last week from the south and since the first of this week has been at Smithers and Hazelton being inducted into his duties by T. Mayoh whom he succeeds and who is being transferred to the Cariboo country. Later this week Mr. Hart will be at Terrace where Armine Boas, sanitarian here, will meet him.

Contract For T.B. Hospital

VANCOUVER—Smith Bros. & Wilson, contractors, have been awarded the contract for a new tuberculosis hospital at the corner of Fifty-Ninth Avenue and Heather Street. It will cost \$1,500,000 and will have 250 beds.

Masset Marks Remembrance Day

MASSET — A Remembrance Day service was conducted by Rev. M. S. Young in St. Paul's Church, New Masset, Sunday evening when a dozen or so veterans of two wars paraded at the church.

The colors were carried by Constable Weikman of the Royal Canadian Mounted Police and the color party consisted of a naval detail under Petty Officer Collins.

Besides the veterans, a large congregation took part in the service.

SHIPS and— WATERFRONT

The Union Line SS Cardena was aground for a short time during a week-end trip on the Stuart Island route. In a fog she ran on a sandbar off Savary Island. Until such time as a check-up was completed her freight berth was taken care of by Frank Waterhouse vessels. The vessel is expected to be back in service this week-end.

Two freighters, "Alaska Prince," Capt. Garrick, and the "Island King," Capt. Holmberg, were in port this morning. Coming from Skagway, the Alaska Prince continued south. The Island King, from Alice Arm, left for the Queen Charlotte's.

What About Rupert?

PRINCE RUPERT will note with interest the huge harbor terminal development project for Vancouver which the Canadian National Railways is now considering, involving the taking over of the harbor board railroad at the southern port and the installation of great terminal facilities, on the Fraser River. Most interesting locally, of course, is the idea of connecting up with the Pacific Great Eastern Railway and central British Columbia as well as Prince Rupert and Alaska via coastal shipping from this port.

There is no particular quarrel with the desire of the Canadian National to get on an equal footing with the Canadian Pacific which certainly has the terminal facilities hog-tied at Vancouver. Whether such centralization is necessary at Vancouver or the interests of better service is a question which can be discussed in the proper quarters and at the proper time.

That Prince Rupert directly wonders, of course, is the CNR may have in mind for its own port in Prince Rupert so strategically located in regard to Alaska and the Orient and being the terminus of the railway with the best grade through the Rocky Mountains and westward. At present it seems we are considered more or less as a branch line. With the north coming into its own and every-thing admitting that Prince Rupert and its hinterland play a great part to play in the future development of Canada, be it in the interests of peaceful pursuits or defence measures, it would seem that we could expect large-scale activity along this line and in the port. Possibly something like this is implied in the mention of Prince Rupert in connection with the Vancouver project although the way it reads does not seem to be due for a role subsidiary to Vancouver. Maybe the idea is to make the two complementary to each other as it would seem reasonable they should be. Prince Rupert will await the word with considerable interest.

AND UNITED NATIONS

MARSHAL TITO has just stated publicly in an interview with C. L. Sulzberger of the New York Times that, in the event of hostilities between the United States and Communist China, the Yugoslav government will adhere to an UN finding as to who is the aggressor.

Yugoslavia is a Communist state, as the world knows. Tito subscribes to Lenin, but not to Stalin. Tito has experienced how communism profits for Russia an excuse for infiltrating with agents the governments of states which fall under Communist sway.

The question before Tito was not a question of loyalty but of national independence. His efforts to declare Yugoslav independence of the Kremlin put him under heavy pressures from international communism as represented in the Russian-ized Cominform. These pressures have forced him farther and farther into the community of nations determined to remain free.

In making an advance commitment to the UN, he serves his own interest, but also the cause of national independence everywhere, though perhaps at some temporary risk to Yugoslavia. The UN today is the safest resort for all nations, large and small, whose security is jeopardized by Russian aggression. Every sincere promise to adhere to UN decisions is one more support for the structure of world order.

Ray Reflects and Reminisces

A century since the birth of Robert Louis Stevenson! Had he lived today, he might have discovered what he never found—good health. He was a teller of tales, a fascinating and natural novelist. Stevenson was on this coast in 1888. He bought the yacht Casca, sailed her to the Marquesas, and later to Samoa where, "under the wide and starry skies," he found the end of the final chapter.

Europe's fear of Soviet Russia has Matthew Halton frankly perplexed. Though with a population of almost 50 millions, it almost seems that Europe prefers to dread Russia—to think of Russia, not in a challenging or defiant mood, but humbly and fearfully. The Kremlin, it would appear, has got some where after five years of incisive cultivation.

An Army research officer, learning that certain troops near Manchuria are in summer field dress, suggests making use of Aleutian volcanoes to warm the armed forces whenever the temperature might seem to justify the attempt. But since when did a volcano feel like an open fireplace?

Scores of veterans, new to one another, marched in the ranks of the Canadian Legion Saturday. It was natural enough. Scores of those who helped settle Hitler's hash permanently were not born when the volunteers of 1914 went overseas. Time wears along. Hair turns grey or disappears. Old soldiers, it is said, never die, yet it must be admitted they are falling back.

When an unauthorized deficit is charged, as reported, it should live up to the prosaic side of the written record. Auditors warn that council members and clerk can be regarded responsible for a \$57,000 shortage. Alberni was a first rate newspaper story for weeks. Well!

In Prince Rupert's business area are blocks where parked cars line the sidewalks almost from corner to corner, as well as in their hundreds occupying space on the side streets. In reality, Prince Rupert is a small town—anywhere from 12 to 14 thousand. A community two or three times that large would still be a small town. An alderman has declared the traffic situation is becoming "very, very serious." He said it.

LETTERBOX

NEW POWER PLANT

Editor, Daily News:
Regarding the report in the Daily News of November 15, the statement given to the City Council was that "one diesel unit is assembled, the second is partially assembled, and the third is 'expected to be delivered by the end of this month or early in December. Strikes, transportation difficulties and shortage of materials have delayed earlier completion of the installation." The combined maximum rating of the three units will be 2700 K.W. not 1800 K.W.

Would you kindly publish this letter in your next issue.
NORTHERN B.C. POWER CO. LTD.
T. B. Black,
General Manager.

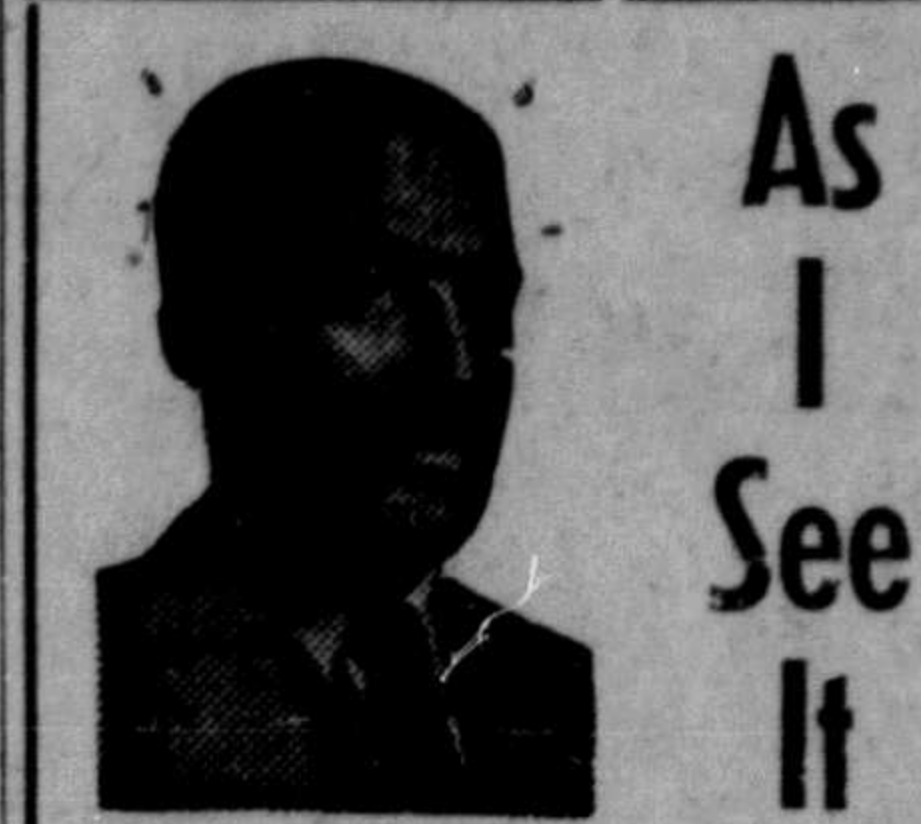

Mr. and Mrs. R. Giske, who have been on a trip to Vancouver, returned to the city from the south on the Prince George yesterday.

NEW QUICK-MIX RECIPE MOLASSES ALL-BRAN MUFFINS

No creaming, no egg-beating—one easy mixing this Kellogg-quick way!
1 cup Kellogg's All-Bran 1/2 cup molasses
1/2 cup milk 1 egg
1 cup sifted flour 2 tablespoons soft shortening
1 teaspoon baking powder 1/2 cup seedless raisins (or baking soda chopped dates)
1. Combine All-Bran and milk in mixing bowl.
2. Sift together flour, baking powder, soda and salt into same bowl. Add molasses, egg, shortening, raisins or chopped dates. Stir only until combined.
3. Fill greased muffin pans 3/4 full, or for pan bread spread in greased 8" x 8" pan. Bake in pre-heated moderately hot oven (400°F.) 20 to 25 minutes. (Slightly longer for pan bread.) Makes 12 medium muffins, or 9 squares of bread.

Canada's most famous cereal is sold in individual bags by a bowlful today!

As I See It

By ELMORE PHILPOTT

CRUSOE'S CREATOR

IN AN OFFHAND moment I recently wrote about Daniel Defoe's poem ridiculing race-superiority-mongers. I asked readers to try to dig up his poem about the ancestry of the Englishman.

I am glad I did it. For not only did I get the poem, below. But I came across a whole gold mine of information about Defoe, a really great Englishman.

Who doesn't know Robinson Crusoe—one of the most beloved books ever written?

But who knows the whole intriguing story of the man who created Robinson Crusoe?

THERE SEEMS TO BE NO doubt that the main mystery about Daniel Defoe arose because he was a secret government agent. That is, he was apparently subsidized by the English government of his day to write propaganda, in the guise of free expression of opinion.

In those days, England and Scotland were united only by having the same king, but not yet in a common parliament. The aim of the government of England was to pave the way for an organic union, actually uniting the peoples. Apparently this is the secret job that Defoe was paid to help do.

But I was wrong in guessing that Defoe's poem, "The True Born Englishman," was written primarily to make union with Scots more popular with the English. It seems that, while the poem was most widely used for

that purpose, it was actually written in 1701 to help kill English objections to the Foreign origin of their King, William of Orange.

Anyway here is the poem, copied by Mrs. Wilhelmina Pereyma out of an old book published in 1765.

The True Born Englishman

The Romans first with Julius Caesar came

Including all the nations of that name

Gauls, Greeks, and Lombards, and by computation

Auxiliaries or Slaves of every nation

With Hengist, Saxons, Danes with Suens came

In search of plunder, not in search of fame

Scots, Picts, and Irish from the Hibernian shore

And conquering William brought the Normans o'er

All those their barbarous offerings left behind

The dregs of armies, they, of all mankind

Blended with Britons, who before were here

Of whom the Welsh ha' blest the character

From this omphibious ill born mob began

That vain, ill natured thing, an Englishman

Those are the heroes who despise the Scotch

And rail at new-come foreigners so much

Forgetting that themselves are all derived

From the most scoundrel race that ever liv'd

Modern Theories May Be Harmful

CHELTEMHAM, Gloucestershire, England (C)—J. F. Wolfenden, vice-chancellor of Reading University, says modern theories that children must be allowed complete liberty to "express" themselves do more harm than good.

Wolfenden told a conference: "A sound and steady appreciation of the difference between right and wrong, true and false, beautiful and ugly, still seems to me to be more important than information about the distance of the sun from the earth or about the names of the kings of Judah."

"The theory of self-development seems to depend on the fallacy that children are born perfect and need no more for their growth to perfection than to be left alone to unfold the riches of their angelic natures."

A horrid crowd of rambling thieves and drones
Who ransacked kingdoms and dispeopled towns
The Pict and painted Briton, treacherous Scot
By hunger, theft and rapine, hitherto brought
Norwegian pirates, buccaneering Danes
Whose red-haired offspring everywhere remains
Who joined with Norman French, compound the breed,
From whence your "True Born Englishman" proceed.

After all is said and done,
how does it taste in the
cup? That is what counts!
"SALADA"
TEA BAGS
yield the perfect flavour.

Vancouver Painter Returns to Dublin

VANCOUVER — Artist Cliff Robinson doesn't mind being poor—so long as it's in Dublin. So, the 33-year-old artist recently packed up his easel, brushes and 400-odd paintings and headed for his native Ireland. He says poverty goes hand-in-hand with an artist's life. But, "It should be easier to be poor in Dublin."

Robinson was employed as a travelling instructor with the extension department of the University of British Columbia. He quit because the job didn't "pay enough to hold a competent person for any great length of time."

He'll be doing much the same in Dublin. But he expects to gain new ideas from "the new Irish renaissance."

COVENTRY, England — A prize of \$6,000 has been offered for the architect submitting the best designs for rebuilding Coventry Cathedral. The 14th century edifice was destroyed with many other buildings in the blitz of 1940.

ale! ale!
old Dublin's here!

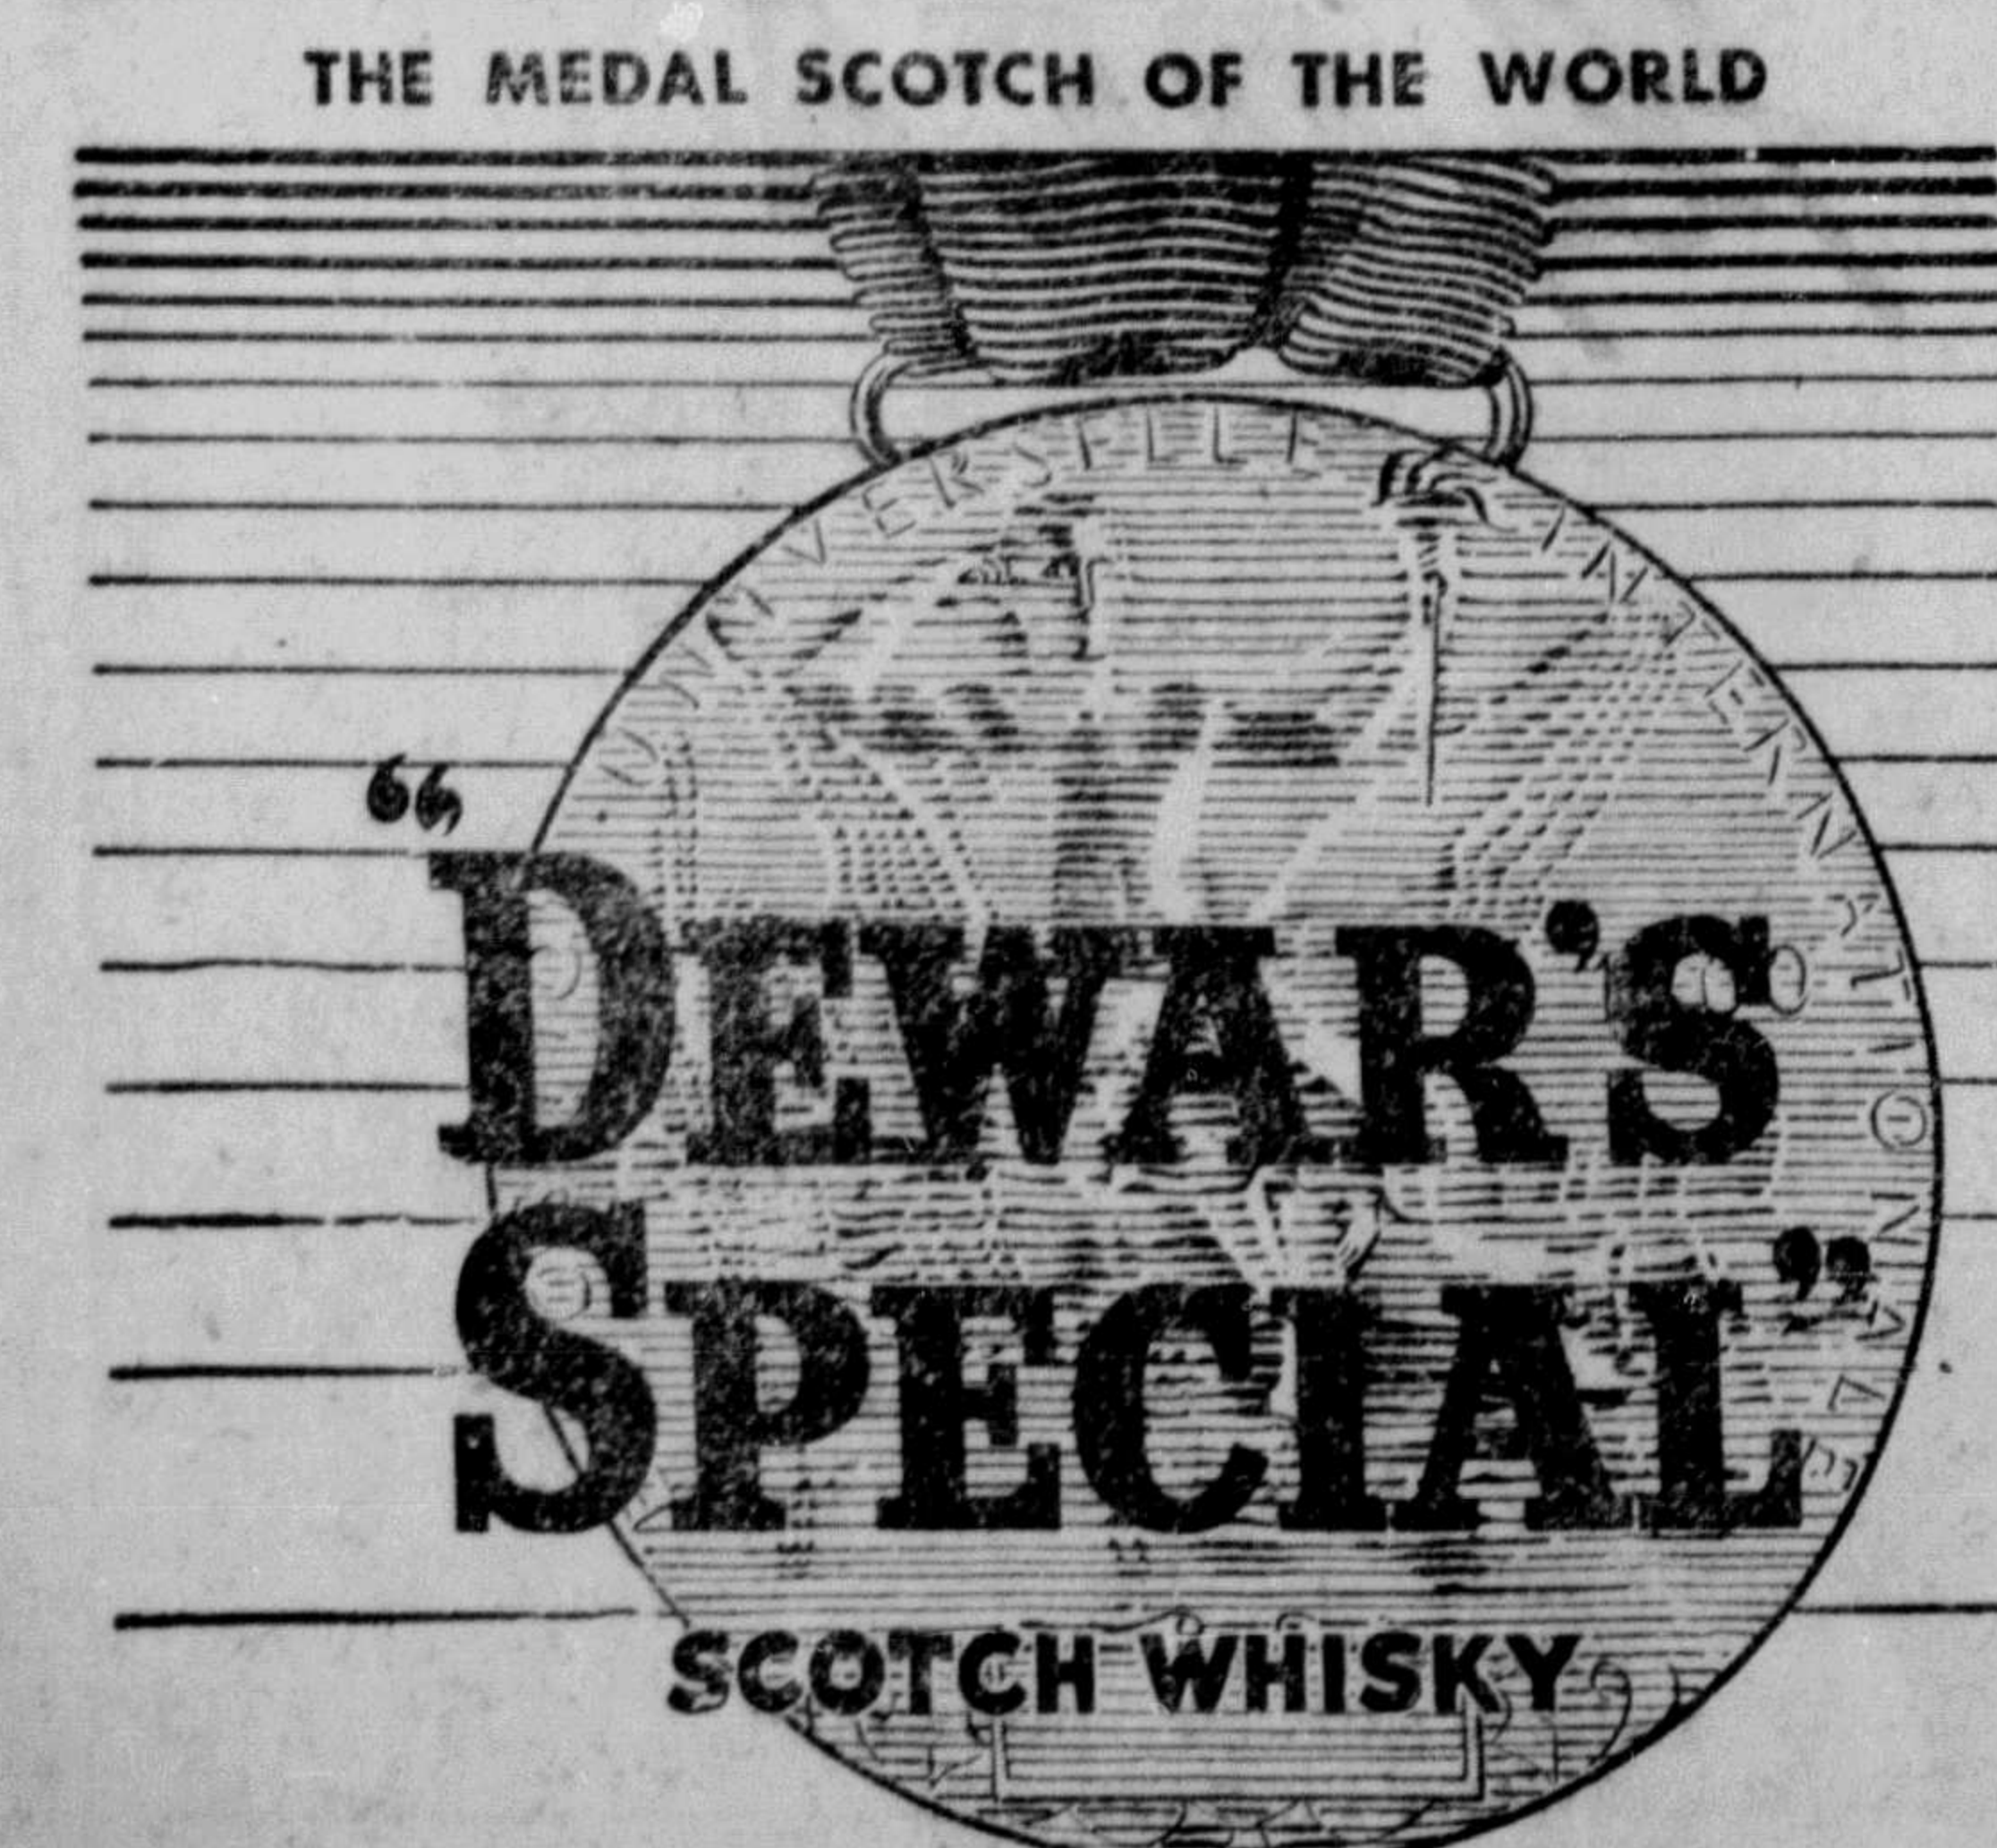

YES, this light, keen Ale from Princeton is available at least in Vancouver and at all vendors on the lower mainland! As invigorating as it's refreshing, "OLD DUBLIN" is more than equal to any imported Ale. For quality... body... and flavor, ask for—and see that you get—"OLD DUBLIN" ALE!

get a case today... now!

This advertisement is not published or displayed by the Liquor Control Board or by the Government of British Columbia.

There is a reason for the unrivalled popularity of Dewar's. It is the unvarying quality of this famous Scotch. A quality that has been awarded over 50 gold medals, at the great international fairs.

Distilled, blended and bottled in Scotland in 26½ oz. bottles.

BEFORE YOU SAY SCOTCH... SAY DEWAR'S

Warlike Measure Recoils Smartly

LONDON — Lord Woolton, chairman of the Conservative party and former food minister, believes it is high time the Labor government scrapped many of the legislative controls introduced as wartime emergency measures.

Discussing the question in the House of Lords, the erstwhile minister provoked a roar of laughter when he told of having been the victim recently of an outmoded regulation introduced by himself in 1941. It involved confiscation by the customs authorities of five pounds of sugar sent by a generous friend from overseas.

In sugar-rationed Britain the restriction had been imposed during the war because of the serious shipping situation at the time. It forbade acceptance of more than five pounds of any food in gift parcels.

Such regulations, Lord Woolton argued, now are unnecessary.

When a customs official was told of the incident he said Lord Woolton could have his sugar back, provided he gave satisfactory assurance it was sent to him as an unsolicited gift.

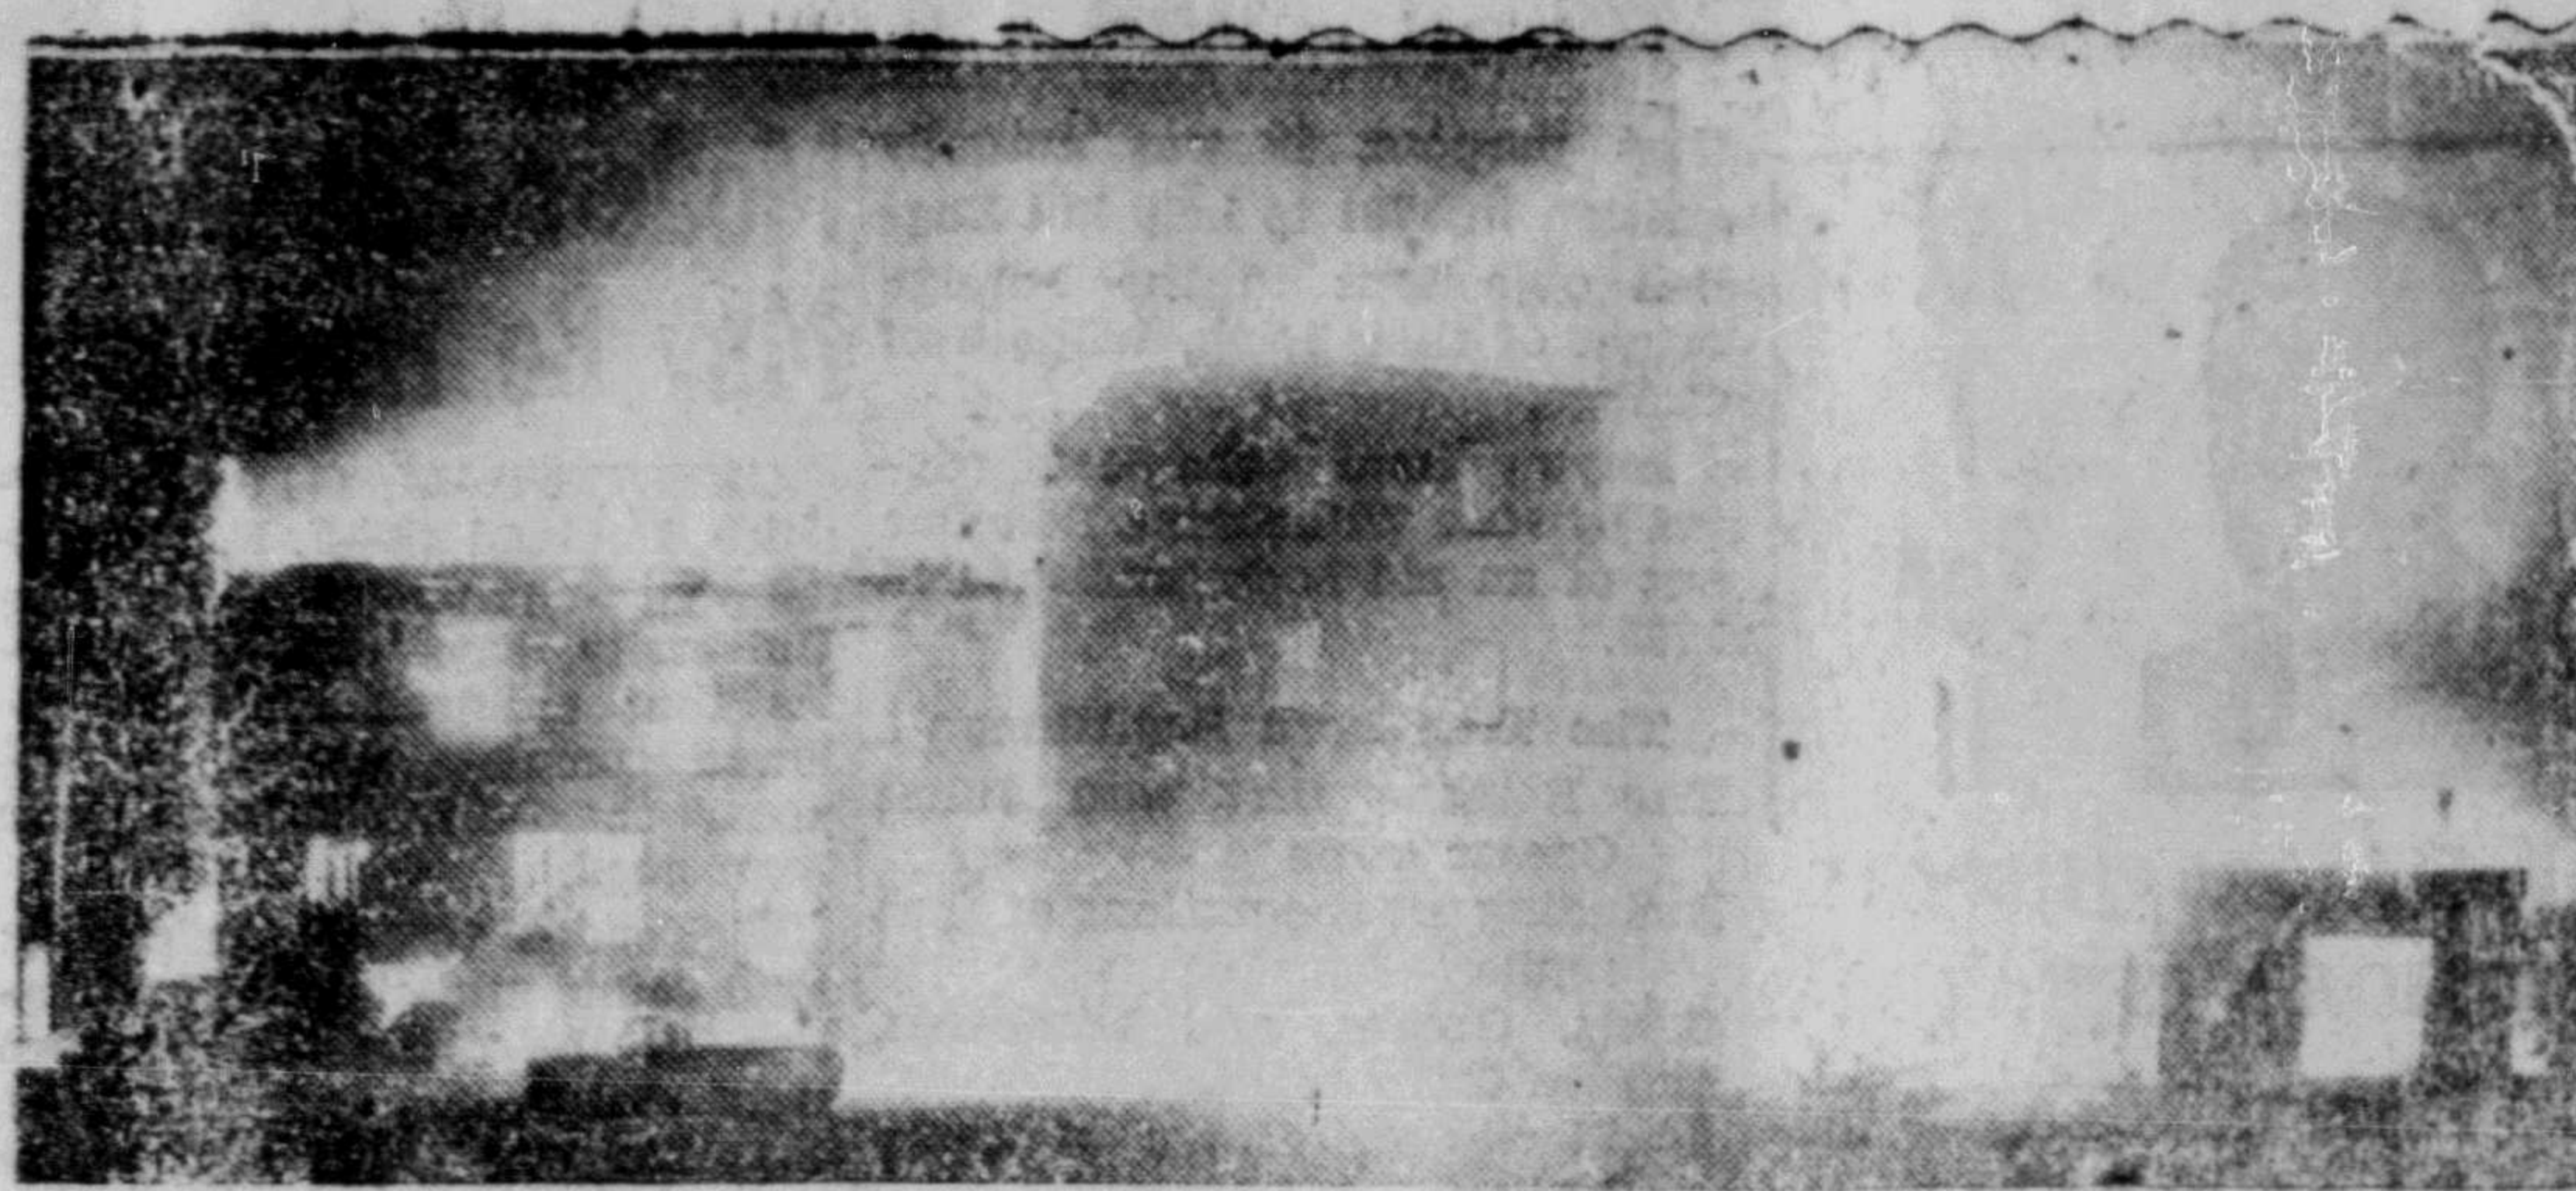

Last summer, after a West Indies firm advertised its product in the British Isles, customs officers launched a drive against shipments of sugar parcels. The authorities claimed the parcels were paid for and as such were not unsolicited gifts.

GREAT POLICEMAN
Miss Amy Etteridge, 44, is the first woman detective to be promoted a chief inspector at Scotland Yard.

PHOTOGRAPHER AND SUBJECT—Dick Bird, Regina wildlife photographer, shown here with a young double-crested cormorant at a northern Saskatchewan lake, has been awarded a fellowship in the Photographic Society of America. He was cited for "outstanding ability in the creation of color motion pictures of bird life and in the field of photographic education."

(CP PHOTO)

\$750,000 BLAZE—A spectacular fire, fanned by a 35-mile-an-hour wind, Oct. 9 levelled eight buildings and caused damage estimated at \$750,000 in one of the worst fires in the history of North Sydney, N.S. Fifty persons were left without work and 22 others homeless. A garage, 22 vehicles, an undertaking firm, two wholesale firms, a dance hall, a 40-room hotel and other buildings were destroyed. This photo shows the fire sweeping through the garage. (CP PHOTO)

German Nurses Go To Africa

PRETORIA — A total of 130 German student nurses, plus 47 were selected in Germany by

physiotherapists, radiographers and occupation therapists, have been recruited by the Transvaal provincial administration and will arrive in South Africa at the end of December. The nurses

Mrs. C. Searle, director of the Transvaal's nursing services. She said on her return here that "they are a very good type of girl," and almost all had received university education.

Chevrolet's Reputation makes Chevrolet the Leader!

A GENERAL MOTORS VALUE

The high reputation of Chevrolet...its makers... and its dealers...were three main reasons why Chevrolet led all other makes in popularity according to recent impartial surveys among automobile owners!

What safer guide can there be than reputation, when it comes to choosing a motor car? For reputation is based on the day by day and year by year experience of Canadian motorists — driving their cars in every Canadian season, on every kind of Canadian road. Every car can claim top quality. But only one car can be Canada's favorite in popularity, in sales, in value — with the highest reputation in all parts of the country

... and that's the car to buy! Recent nation-wide surveys among automobile owners have established beyond question that Chevrolet is the leading car in reputation, three ways—the high reputation of the car itself; the high reputation of its manufacturers, General Motors; and the high reputation of Chevrolet Dealers. What safer guide can there be? You simply can't go wrong when you buy the leader — Chevrolet!

Blackwood On Bridge

By Easley Blackwood

note this point about my recent series of on the proper use of THE PASS. You must I am recommending a general policy of in your bidding. Decidedly not. Per rather lean toward the aggressive side. The aggressiveness depends, of course, on the of the situation at

ant you to pass in the and I have out- cases where passing are likely to bring you than bidding. If you

have not been passing these situation, and if you will diligently remind yourself to do so, you will definitely save thousands of points.

Here, briefly, are the recom-

BUYS AND WHYS

MONTREAL, Nov. 16th.—Just for fun, I like to experiment and see how many different ways I can serve Jell-O. And there seems to be no end of exciting and economical desserts and salads that JELL-O JELLY POWDERS can make. In whips, with fruit, in fillings, or served plain—Jell-O's seven wonderful "locked-in" flavors have proved to me again and again that here indeed, is a wealth of sparkling ideas for all wonderful treats. You'll discover so many new ways of serving it are quick and easy on the budget. Serve Jell-O often!

Real Bargain For You... a wonderful 3-WAY PAN-CAKE GRIDDLE of heavy Wear-Ever Aluminum! The "Aunt Jimma" folks are offering it for only \$1.50 and 1 Aunt Jimma Pancake Flour Box or Bag Top. Simply send the money order or cash (carefully wrapped) plus the box or bag top with your name and address, to me—Barbara Brent, 1411 Crescent St., Montreal, P.Q.—and I'll get you a 3-Way Pancake Griddle... the handiest griddle it boils steaks, chops, hamburgers—it fries eggs, bacon, bakes potato cakes, buckwheat cakes and mmmm!—golden MINA PANCAKES. Ask your grocer for Aunt Jimma. Your next time you're shopping... and write to me for your 3-Way Pancake Griddle!

White Washes... without red hands? If your hands have been taking a beating from some of those no-rinse chemical soaps, then I'd switch to DUZ. After all, why should you wash with rough, red hands? DUZ clothes so beautiful and white—and leaves hands soft and white, too! You washes heaps of rich, with two active detergents really amazing cleaning plus the most marvelous for hands! You'll find much I'd recommend a Giant Economy Size. It's away! Then try it. It's big wash—see how DUZ does everything!

Yours For A Happy Recovery!... A free recipe folder, written for convalescents and folks on special diets, has been prepared by Heinz dietitians. Twenty-one delicious recipes to make any convalescent feel like sitting up and taking notice! And, with this booklet to help you, you'll find diet food so much easier to prepare... so much more interesting to eat! In fact, the whole family will enjoy these good dishes—Prune Shake, Fruit Milk Whip, Vegetable Souffle... all made with good HEINZ STRAINED FOODS. Write for your FREE COPY today!—you'll find it so useful!—Barbara Brent, 1411 Crescent St., Montreal, P.Q.—and ask for Heinz' "Special Recipes"!

Something Brand New For Baby's Bath!... a clean-as-clean—can be C-I-L-SPONGE. You see, these wonderful C-I-L Cellulose Sponges are soft as velvet when wet... kind and gentle to baby's tender skin. Holds lots of soap 'n' water! You'll like them for your bath, too—for exactly the same reasons that make them so right for baby's bathtime! And for dishes and general housecleaning, I've found there's nothing like em! C-I-L Sponges come in five convenient sizes—at hardware, department, drug, variety and grocery stores. And, when you're buying—be sure to look for the C-I-L label—it's your assurance of quality.

Women who seem to have been "born" with a talent for cooking. But good cooking is not just a happy "knack"—it's something we can all do. The simple secret is to "know your flavour tricks!" And one of the simplest, most economical ways I know to give food exciting, "This-is-delicious!" flavour is with tangy, beefy-good BOVRIL. Yes, once you've enjoyed Bovril as a hot drink, you'll want to add its meaty, deep-brown flavour to all your soups and stews—or as a cracker spread. Mmmm!—Bovril is chuck-full of the mouthwatering flavour of good meat with so many good cooks! Try it!—buy it at your butcher's next time you're shopping.

Your Budget is a problem these days of rising prices, isn't it? Just staying within your allowance calls for an eagle eye and general ex- for getting together a times 'n' dollars for like a smart new bon- well, that really calls for brains. That's when I at the BANK. TREAL can be so help- convenient, safe place money out of tempta- Personally, I put I can squeeze into my ant. It's surprising get to themselves. Just open a Savings Ac- and start sav- pennies for that special" you want

"I'll Take Canada" said Terry Eaton! New Yorker Dick Brengle did too, after their honeymoon in Terry's native Nova Scotia! But Terry's petal-soft skin gives credit to more than the Nova Scotia climate... she keeps it sparkling with extra-mild WOODBURY FACIAL SOAP—the soap with the beauty cream ingredient. It's the same softening oil used in rich face creams! So take a tip from a Canadian Woodbury bride—try the "beauty magic" of Woodbury's extra-mild, creamy lather for yourself. Daily facials with Woodbury Facial Soap will keep our complexion satin-smooth and glowing. Use Woodbury Soap in your bath, too! Just 10c a cake!

High Food Prices needn't bother your budget! For—here's the good news... you can make the most appetizing, economical meals imaginable... with luscious CANNED SALMON as the favourite! Here, for instance, is just one of many favourite Canned Salmon dishes:—

Canned Salmon: Flake 1 lb. salmon and add 1/2 tspn. salt, 1/2 tspn. oil, 1/2 tspn. lemon juice. Add 3 beaten egg yolks, mix thoroughly and then fold in 3 stiffly beaten egg whites. Bake in greased custard cups. Set in pan of hot water and bake for 30 minutes. Unmold on a hot plate and serve with a tartar sauce.

ways to use it as a main course dish. And, of course, it's good in sandwiches and salads. So economical, too! For, you see, salmon is all cooked and ready to eat—it's all food—absolutely no waste!

Each Your Pennies as wisely as I do these days, you'll wel- come the FULL VALUE—in both goodness and quantity—of the "Cream of Wheat" habit! 5 Minute "Cream of Wheat" is so easy to prepare—cooks to digestibility in just five minutes of boiling. So smooth and good, and so good for you! It contains iron necessary for good red blood cells. Yes, I always feel I'm getting a lot for my money when I buy 5 Minute "Cream of Wheat".

mentations I have given you! Don't overcall on a shabby suit just because you have a few high cards. Have a good suit—with enough solidity to guarantee a reasonable number of winners if the worst happens and you are doubled. Please don't overcall because "I had an opening bid." In overcalling, winners are more important than honor count.

Pass with a shaded raise for partner's opening bid of one in a suit, when second hand overcalls. Remember, the purpose of a shaded raise is to give partner another chance to bid if he has a fine hand. The opponent's overcall gives that chance. A raise from you now will be misleading.

PASS WHEN STRONG IN OPPONENT'S SUIT

Pass (don't double) when your right hand opponent opens the bidding and you have a hand which meets the requirements for a take-out double, but your principal strength lies in the opponent's suit. This is particularly important when you are weak in the majors or where the opponent opens one major suit and you are weak in the other one.

Pass when the strength is fairly evenly divided around the table, both sides are bidding briskly and finally you are doubled in a contract you feel sure you can make. Don't redouble unless you are certain you can set the opponents satisfactorily if they go on in their suit.

Pass when you and your partner obviously have the best cards, an opponent makes a sacrifice bid, and you are not sure whether to double or go on in your suit. In this situation partner is absolutely forced by your pass. He must either double or bid again, according to his actual holding and the previous bidding of the hand.

IODE Plans For Jubilee

The monthly meeting of the Queen Mary Chapter IODE was held Tuesday night at the home of Mrs. G. E. Moore with the Regent, Mrs. J. R. Carr, in the chair.

Two new members were initiated and four applications for membership were received.

Post War convener reported that five Christmas food parcels were sent overseas.

Child and family welfare convener reported that a needy family had been supplied with clothing and that blankets would be ordered for further use.

Arrangements were made for the Golden Jubilee Bazaar which will be held in the Civic Centre on November 23. Many beautiful articles were turned in. These will be on sale at the bazaar.

IODE calendars were given out and many of these calendars will be presented to schools and other prominent places throughout the city.

The next meeting will be held at the home of Mrs. J. Carr, Borden Street.

Mrs. R. Scherck was the winner of the monthly raffle.

WILLING HELPERS

CHOBHAM Surrey, England @—Customers turned to with a will and rolled out the barrels when the beer-store at the Cricketers' Inn caught fire. Anxious hands made light work and 108 gallons were saved.

BOOST DANISH RESORT

COPENHAGEN @—An all-out drive is planned to put the Danish island of Bornholm in the Baltic on the world tourist map. The 150-square-mile island is an eight-hour sea trip from Copenhagen.

HOUSEKEEPING

VEGETABLES TREAT ONE WELL BUT MUST BE TREATED WELL THEMSELVES

Vegetables treat you well and give you good dividends of food value only if they are treated well by the gardener, the retailer and the cook. Of the three perhaps the cook must take most of the blame for the uninteresting and unappetizing vegetables that are often served in homes and restaurants.

The slogan, "cook vegetables in as little water as possible, for as short a time as possible, in a closely covered pan", has become almost a battle cry of nutritionists in their war on malnutrition. Many families have had more enjoyment in their cabbage and carrots since the homemaker learned to cook them by recommended methods. New methods of serving old, familiar vegetables will often arouse interest and appreciation and the occasional use of an unfamiliar one will be welcomed.

Home economists suggest these ways of using common vegetables.

PARSNIP FADDIES

2 cups cooked, mashed parsnips
1 tablespoon flour
1 egg
salt and pepper to taste

Combine parsnips, flour and slightly beaten egg. Season with salt and pepper. Drop by spoonfuls in a greased hot frying pan and fry to a golden brown, turn and brown other side. Serve hot. Yield: six servings (12 puffs).

STEAMED RED CABBAGE

6 cups finely shredded red cabbage
2 tablespoons butter
1/4 cup vinegar

Salt and pepper to taste
Melt butter in saucepan. Add vinegar and cabbage with salt and pepper. Cover closely and cook until cabbage is tender but crisp, 10 to 15 minutes. Yield: six servings

CREAMED FRIED ONIONS

2 tablespoons butter
4 cups sliced onions (4 to 6 medium onions)
4 tablespoons flour
2 cups hot milk
1/4 teaspoon salt
pepper

Melt butter in a heavy frying pan. Add onions, cover and cook slowly until tender, about 1-5 minutes. Blend in flour and cook until it becomes frothy, about one minute. Add hot milk gradually and cook, stirring constantly, until thickened. Season with salt and pepper. Yield: six servings.

BAKED TURNIPS

Slice raw turnips and place in layers in a greased casserole. Sprinkle each layer with salt, pepper and a very little nutmeg. Add milk to half fill the dish. Top with crumbs and dot with butter or grated cheese. Bake in a moderately hot oven, 375 F., until tender, about 1 hour.

SET COTTON RECORD

MANCHESTER, England @—The United Kingdom cotton industry achieved a post-war record with a weekly cotton output of 21,840,000 pounds in the second week of October. Up to that point the year's output was 823,000,000 pounds against 770,500,000 in the same period last year.

Harry Bowman's Daughter Hurt

Ann, the twelve year old daughter of Hon. Harry Bowman, minister of agriculture in the provincial government, is recovering from the effects of a broken collar bone and head injuries suffered recently in Victoria. Miss Bowman was in collision with a car at Pandora and Blanshard Streets while on her way home after having been skating at the Victoria Memorial Arena.

NEW POLAR JOURNAL

OSLO, Norway @—Plans are being made for a new periodical devoted exclusively to Polar affairs, sponsored by a number of civic leaders. The new journal will contain reports of extensive work carried on by Norwegians in the Arctic and Antarctic regions.

SCANS THE SKIES—Possible air attacks keep the crews of the three Canadian destroyers operating in Korean waters at action stations for long hours at a time. This RCN photo shows Leading Seaman Donald Morton of Victoria at his twin 40-mm. anti-aircraft gun. Few enemy planes have been reported in the air over the Korean area. (CP PHOTO)

Music In Plants Is Modern Touch

By KAY REX Canadian Press Staff Writer

STOKE-ON-TRENT, England (C)—Most of the children who were yellow "A penny for Guy Fawkes" here got a shilling. How practical can you be in a town where history stalks the cobblestoned streets?

How can you stay clear of sentiment when the brick kilns of some 150 potteries are silhouetted like giant champagne bottles against an evening sky?

Stoke is a city of some 270,000 composed of six small towns. In and about are massive slag piles heaped with the refuse of more than two centuries of pottery-making.

The soot from the kilns has left its mark on the slate grey dwellings of the workers. But crisp white curtains flutter at the windows and they say the smoke nuisance has been cut considerably in the last few years.

Up-to-date equipment has been installed in the plants, and good working conditions generally prevail. There are many women employees doing such skilled jobs as painting the designs on plates. At Wedgwood they prepare the raised ornamentation for the china—a craft introduced by Wedgwood in the 18th century.

MUSIC IN FACTORIES In some cases the women work against a background of music, a feature common to many British factories. Manufacturers feel music keeps their employees happy in their work

and also speeds up production. Handwork remains all-important in china manufacture.

A cup—whether semi-porcelain or bone china—must have its handle put on individually. Its design either painted or stamped by hand.

"Every piece goes through 30 hands before you get it," said Bill Hoare of Johnson Brothers. "So you see it's difficult to turn them out like sausages."

Then there are the "firings"—trips into the furnaces—which may total as many as five before the color is fixed.

In addition skilled labor is hard to come by. There aren't many women who can graft a handle on a cup as swiftly as Mrs. O. Smith who has been doing the same job in one of the plants for the last 12 years.

Some of the firms have imported skilled help. In one of the Johnson plants Italian girls are working. There also is a lone Canadian, Adam Russell of Hamilton, Ont., who "polishes" one of the final processes through which the dishes must go.

DOCTORS BENEFIT WELLINGTON, N.Z. (C)—Health Minister T. J. Watts told parliament that one doctor received more than \$45,000 in a year from the social security fund apart from private payments. Efforts now are being made to control earnings by doctors under the government payment plan.

CIVIC CENTRE NOTES

Friday night film showings at the Civic Centre for children in the early evening and adults immediately following are:

"Champions in the Making"—Clary Settel, the old observer, finds two youngsters outside the rink where Barbara Ann Scott is practising and talks to them about Canadian sports. Track and field athletes, potential Olympic swimmers, tennis notchers and rowing-teams are described by Clary and the camera. The kids love it—but still want to see Barbara Ann. So she puts on a special show for them and film audiences, doing complex figures with controlled, apparently effortless skill.

"No Man Is an Island"—The dramatic story of one of Canada's greatest mining, metallurgical and chemical enterprises—told by the men on the job.

Blasting in the mighty Sullivan mine, a city underground, is seen—spectacular shots of molten metals—casting of lead and zinc—pouring of pure silver ingots—fertilizers made from smelter smoke—one of Canada's most northern gold mines—a unique use of Alberta's natural gas. All this is seen in full color interwoven with sport shots of hockey, curling, skiing, fishing and golfing in British Columbia's glorious mountain scenery.

High Scores In Bowling

Pin-boys were hopping and scorekeepers buzzing as the majority of bowlers took advantage of the free-for-all scoring during this week's Men's Five Pin League bowling. One bowler had a three game total of over 800 which was scored by Jack Paul of Manson's. Ten had scores over 700 and 25 had impressive totals over 600. Also among these high scorers were nine bowlers with single games over the 300 mark, Ed Musselam leading the parade with 358. Other 300 game scorers were H. Windt, 329; J. Ford, 329; J. Long, 327; J. Paul, 325; J. Gorman, 308; J. Comadina, 306; E. Hilderbrand, 304, and R. Areshenkoff, 303. As impressive and attracting greater attention in regard to team play was a hard fought and high scoring duel between Manson's and Cook's Jewellers with the latter bringing the high flying, top berth Mansons down to earth with a 3-1 defeat. Other team results were as follows:

For Clean, Courteous Service ● Late for Work ● Kiddies to School? CALL 65 "Eventually, Why Not Now?"

THE PRICE OF MILK

We sincerely regret that the Provincial Milk has increased the price of milk.

We buy large quantities of milk from Vancouver cost of which has been increased to us. We also get sixty percent of our milk from the Bulkley Valley has not increased in price.

As only a portion of our milk supply has increased in price we are therefore increasing our prices to the consumer in proportion.

We are increasing the price of quarts of just 1 cent. Pints will remain the same.

The price of milk to the schools will remain the same, as we do not wish to deprive any from having good milk.

We believe, however, that even under new prices, a fair comparison with other milk will indicate to you that milk is still your best and cheapest food to buy.

A new price list will be delivered to each customer. All present tickets held by customers will be honored.

New prices will be effective Saturday, Nov. 19.
