ROYAL ASSENT TO NEWFIE BILL

Final Phase of Canadian Negotiations Completed

Ottawa — In a sparsely-filled Senate chamber, Royal Assent was given yesterday by the Governor General to the terms of Union for Newfoundland, marking the end of the Canadian phase of negotiations which began in 1946 when a 45-man convention, elected by the people of Newfoundland, recommended this future form of government.

Assent was given by Chief Justice Thibaudeau Rinfret acting for the Governor-General.

PASSENGERS ARE MOVED

C.N.R. Line in South Cleared
—Communications Maintained With Difficulty

Vancouver — Fifty passengers on a Canadian National Railways Montreal to Vancouver passenger train, which was stalled for forty-eight hours in deep snowdrifts in the Fraser Canyon 114 miles east of here, were moving again yesterday. Train No. 1, which was due here Wednesday morning, was backed up for eighty miles and then rerouted to the Canadian Pacific Railway to Hope where it went back on the C.N.R. line.

Officials say that the fifty passengers had enough food and were not inconvenienced except for the delay.

The Canadian Pacific Railway is battling to clear the Kettle Valley line at Coryell where snow slides on Thursday buried eight box cars 200 feet over a ledge. No one was injured but the blocked track delayed passenger trains from the East.

On account of the heavy snow conditions telephone lines connecting the coast with Eastern Canada are being barely held open.

LIQUOR CAN PASS YUKON

Restrictions On Shipment Through Territory Now Removed

CALGARY — Alaskans can now drink Alberta beer without making special application to Ottawa for its transit through the Yukon. This came about when an order was tabled by Hon. J. A. McKinnon, minister of resources, revoking six liquor ordinances that formerly applied to Yukon Territory.

Hard liquor and beer is shipped along the Alaska Highway, departmental officers explain. It goes through Yukon Territory in bond. Hitherto, a special Order-in-Council had to be passed at Ottawa for as much as a single truckload of beer to go through northern Alaskan centres such as Fairbanks.

BIG INVESTMENT FOR ALUMINUM

Amounts to Between \$30,000 and \$50,000 Per Employee

VANCOUVER — The cost of building an aluminum plant, McNeely DuBose, vice-president of the Aluminum Company of Canada, told the Canadian Club at luncheon here, is very high. It requires an investment of between \$30,000 and \$50,000 for each employee, he said.

Mr. DuBose, whose company is studying the possibility of setting up a \$300,000 plant in British Columbia, gave an outline of the history of aluminum. Its production requires an enormous amount of electrical power as the metal is reduced from bauxite by an electrolytic process.

Bulletins

Final Talks On Alliance

Secretary of State Acheson May Be Able to Engineer Successful Security Agreement

WASHINGTON D.C. — Secretary of State Dean Acheson was reported to be about ready today for final talks on the proposed North Atlantic alliance after an "encouraging" session with the foreign relations committee.

Committee members spent three hours yesterday behind closed doors with Acheson suggesting ways to get around delicate spots in the treaty's wording.

The Secretary of State may lay before representatives of Canada and western European countries next week a proposed agreement which is expected to offer promise that the United States will take steps to help maintain the security of the North Atlantic area. But there will also be the reminder that United States cannot go to war unless Congress approves.

THE WEATHER

Synopsis

Sub-zero temperatures are recorded as the central interior of British Columbia is gripped by another cold wave. At Prince George the mercury dropped to 45 below to record the lowest temperature of the winter and the coldest night since January 1947.

An active Pacific storm now approaching the Washington coast will produce strong easterly winds over the exposed southern coastal waters during the day. Snow flurries are likely to spread to southern Vancouver Island and the lower mainland during the late morning and early afternoon. Cold and cloudy weather will continue throughout the week-end. There is little likelihood of much needed rain.

Forecast

Queen Charlotte and North Coast — Variable cloudiness over the Queen Charlotte and clear and cold on the northern mainland today and Sunday. Winds northeasterly, 25 miles per hour in the exposed areas. Light northeasterly elsewhere. Lows tonight and highs Sunday — At Port Hardy 25 and 35, Masset 20 and 30, Prince Rupert 15 and 30.

CONTROLS AND LIVING COSTS

OTTAWA — Opposition members told the government in the House of Commons yesterday what they felt should be done about controls and the high cost of living.

Bundles of Vancouver newspapers dating from as far back as February 9 went to city distributors for delivery to subscribers.

Harold Timmins, Progressive Conservative, Parkdale, asked the government for action to permit the removal of controls rather than extension.

F. S. Zablotny, C.C.F., Dartmouth, argued that price controls should be re-imposed, not only to lower costs of living but to provide for a fair division of national income.

STATE-CHURCH PEACE URGED

BUDEPEST — A usually well-informed source said today that Hungary's Roman Catholic bishops have received a letter from Josef Cardinal Mindszenty urging a state-church peace.

The bishops met privately yesterday, the informant said, but adjourned without making a decision on the letter.

A survey of states most affected by the severe cold and snow shows that there is little to worry about in regard to next season's prospects for wheat and other grain crops which are grown principally on the plains.

Chief worry is that floods following the heavy snows may

MERCURY HITS SEASON'S LOW

Government Probe Of Red Activities Minister's Urge

Hon. R. C. MacDonald Sees Possibility of Steel Mill Establishment

VICTORIA (CP) — Municipal Affairs Minister R. C. MacDonald charged in the Legislature yesterday that Communists had infiltrated into British Columbia schools and the university and called upon the government to investigate their activities. The charge was made in reference to the case of Gordon Martin, the law student, who was refused admission to the bar.

Just to make sure that his efforts were appreciated, he added a five-mile-an-hour north wind which put a vicious edge to the frosty air.

Temperatures throughout the rest of the province achieved record minimums in many places and forecasts generally indicate little change for the week-end.

POST OFFICE IS 'SNOWED UNDER'

Literally hundreds of sacks of mail and parcels were piled in the downtown post office early this morning after its arrival here at 3:20 a.m., the first passenger train to move into the city in almost two weeks.

The train came through from Terrace, where it picked up mail, parcels and express which had accumulated since traffic was halted on February 9 by series of snowslides and drifts which have kept snow removal crews constantly busy.

The train arrived here in the wake of a rotary snow plow which had cleared drifts from the tracks in the face of a strong wind which piled snow back on the rails almost immediately after its removal.

It was reported at Divisional Superintendent C. A. Berner's office this morning that a passenger train will leave for the east at 10 o'clock tonight following the rotary plow to Terrace.

It will be the second east-bound passenger train to leave here this week. Freight trains will follow the passenger.

The train, ordinarily due here from the East at 10:45 tonight, was held for twenty-four hours at Jasper awaiting a Vancouver train bringing two carloads of mail for points between Jasper and Prince Rupert and will not arrive here before tomorrow night.

At the post office, second, third and fourth class mail was dumped in huge piles after the train's arrival and sorting personnel worked feverishly to clear the accumulated mass.

Bundles of Vancouver newspapers dating from as far back as February 9 went to city distributors for delivery to subscribers.

Solon Low, Social Credit leader, bluntly charged the government with being the "main culprit" in the rising cost of living because of its taxation policies. He urged elimination of the eight percent sales tax, abolition of numerous taxes and payment of subsidies on selected foodstuffs.

Snow removal crews report that the snow is now banked so high along the track between Kwinitsa and Remo that in some places it is almost impossible for the rotary plow to throw new snow far enough to keep it from rolling back on the rails.

POLICE PROBE MAN'S DEATH AT BUTEDALE

The provincial police launch P.M.L. 15 will leave Sunday morning for Butedale to investigate the death of Charles Welde at his cabin at nearby Klekana Inlet which was reported to district police headquarters here this morning.

According to a radiophone call from Coroner George Graham at Butedale, Welde's body was found on the floor of his cabin by Paddy Jeffery on Friday. Jeffery had previously visited Welde on Thursday and found him in apparent good health.

It is believed that death was from natural causes but the matter will be investigated.

No-Man's Land Set In Berlin

Tension Mounts As Result of Killings Near Zone Boundaries

BERLIN — Russia set up a no-man's land through the centre of Berlin today after several border shooting incidents including at least two fatalities. "Danger zones" were established around various control points and all pedestrians and loiterers were banned.

Soviet-controlled German police yesterday killed a German while tightening their blockade within a blockade and the incident heightened tension between communists and their foes who charged that the shooting was "murder."

Rumors of a new Soviet zone currency reform meanwhile sent the Russian-sponsored eastern mark tumbling on the German markets despite Russian denial that a change is impending.

VISHINSKY IS IN BAD WAY

PRAGUE — A staff member of the Russian Army Sanatorium at Karlsbad states that the Soviet Deputy Foreign Minister, Andrei Vishinsky, is gravely ill from a nervous disorder. He is unable to concentrate on anything and cannot be seen by anyone. Karlsbad is 70 miles west of Prague near the German border. Staff employees and a nurse make no secret of their concern over the condition of Vishinsky.

Coastguard Drive

THE NECESSITY of a Coastguard service for British Columbia, which the Daily News has long advocated, is being impressed again on the federal government, through a united effort in the south with the Vancouver Merchants Exchange spear-heading the drive. The time has long since arrived for the inauguration of such a service and it is good to know that co-operation is on so wide and comprehensive a scale. Further delay seems improbable. Ship owners, shipping and towing interests, cannery units, coastwise operators, Lloyds, Boards of Trade, naval officer associations, fishing vessel owners, and underwriters are only part of the many who, more or less directly, are identified with safety at sea.

Four fully equipped, all-weather vessels are recommended with the present R.C.A.F. search-and-rescue service incorporated into this work. The ships have to be capable of performing whatever might be required at any time and located so that one will cover by continuous patrol the outside southern part of Vancouver Island, one to cover the northern end, the third to take care of the Queen Charlotte Islands and Prince Rupert, with the fourth, in reserve.

NOT MONEY—BUT INTEREST

NEXT WEEK is "Boy Scout-Girl Guide Week" and everybody will be glad to know that, for once, this is not a money-raising campaign. That does not say, however, that this now venerable movement for youth development, which as a local speaker said last week has really stood the test of time, does not have something really good to sell. What it has to sell is an organization and a curriculum which has proven itself for its capability of developing boys and girls along healthy lines of good citizenship and useful training whereby they become co-operative with another and resourceful as individuals—all in a healthy, pleasant atmosphere of useful and interesting activity.

As it is contrary to Boy Scout principles to solicit cash funds but rather to earn themselves the financial resources they require, neither they nor their organization look for monetary handouts. What they do seek, instead, is the active and hearty interest and support of the public in general, an exhibition and maintenance of which interest and support can be of the greatest psychological benefit to bolster the enthusiasm of leaders and boys and girls alike. They also seek a rally of good and worthy citizens for active leadership purposes. And of course, they want more boys and girls as members although it is emphasized that the most crying need is for the leaders.

We have known and observed the good work of Scouting and Guiding for many a year here in Prince Rupert and elsewhere and we know of no more worthy cause for which we could bespeak the interest of the community in building TODAY for TOMORROW.

QUEEN OF BANFF Shirley MacKeeen, 23-year-old Calgary stenographer, smiles happily as she is crowned queen of the 1950 Banff Winter Carnival. Miss MacKeeen who won in a field of six nominees, is being crowned by Joyce Morrison of Banff a student at University of B. C., who reigned over the 1949 show. A scarlet coated Mountie watches the proceedings. (CP Photo)

Flynn, U.S. Army news, of Philadelphia, Pa., who became the first woman to fly across the North Pole, when she flew as a passenger in a B-50 bomber. The bomber was piloted by Lieut. Raymond A. Day, of Gillman, Ill., on a winter training flight.

LETTERBOX

STRIKES

Editor, Daily News:
The Lemieux Act, passed in 1907 and cancelled in 1924 by privy council, during its life of eighteen years, set up 441 conciliation boards. Strikes were prevented in all but thirty-seven cases.

B.C. Labor Conciliation and Arbitration Act, passed in 1894 repealed a few years later—re-suits not stated.

I would suggest this gives some food for reflection.

BENEFITS OF GOD'S WORD

(By Rev. E. Soiland, St. Paul's Lutheran Church)

"Every scripture inspired of God is also profitable for teaching, for reproof, for correction, for instruction which is in righteousness; that the man of God may be complete, furnished completely unto every good work." II Timothy 3:16-17.

The report from the British and Foreign Bible Society shows a continued increase in the interest of the Bible. The demand for copies of the Bible is met only in the English speaking lands. Elsewhere, the demand far surpasses the supply of the copies of the printed Word of God. Here in Prince Rupert it is possible for anyone to own a copy of this book. There is no other book that has as great a value for anyone as the Bible. It is a book different from other books, because God is its author. When the book is properly used it imparts many things to the one who reads. Many of the benefits that the Bible offers cannot be had from any other source.

The Bible is a book that God wants you to use. It is not an ornament to grace the book shelf of your home. It should be the most read book in your possession. Some people fear to read the Bible because its message is personal. A man once told me that he had become afraid to pray earnestly for a cause, because, whenever he did, God would tell him: "Yes, I will answer your prayer" using you as my messenger."

Special Service of Music Is Presented

Special musical service will be featured tomorrow evening at First United Church. The choir will render the anthems "Thou Didst Leave Thy Throne" (Junior Choir); "I Will Lift Up Mine Eyes" (Senior Choir), and "Prayer of Thanksgiving" (Combined Choirs). J. S. Wilson will sing "The Holy City" as a tenor solo and Dr. R. G. Large, baritone, "The Penitent." As an offertory selection Mrs. L. A. Dakin and Henry Fayram will play "The Lost Chord" as organ and piano duet. Combined choirs will be under J. S. Wilson's direction.

The reader comes into direct contact with God when he reads the Bible. The Bible has a message from God to you.

God's message in the Bible is personal and it always fits the needs of the human soul. At times one is in need of information. Then God teaches by furnishing the necessary information. On another occasion a soul may be troubled by sin which must be removed. Then God reproves the evildoer and calls him to repent. Again there may be false notions which prevent spiritual growth. God has a message that will correct every false notion. The path of life is filled with pitfalls into which a child of God may step. God furnishes a complete blueprint for any life so that it may be a success in its relations to God, to itself or to its fellowmen. Only God furnishes such a plan, and that plan is in the Bible.

God's plan for the human soul is a plan of life. Jesus says that he came to give men an abundant life. The knowledge which we receive from the Bible makes our life more abundant. It is the source of the power which ennobles the soul of man. Anyone who will read the Bible prayerfully, obey its instructions and apply them in everyday life will find that he has become the possessor of the abundant life of which Jesus speaks. No one who neglects this book can develop all his faculties to their fullest degree. The Bible furnishes a liberal education, and in addition

FACTS ABOUT NEWFOUNDLAND

The cost of living in Newfoundland is higher than it is in Canada.

Gander airport, one of the largest and finest, is farther south than Vancouver. It ranks among the most strategic airbases in North America.

St. John's is in the same latitude as Montreal.

Newfoundland has a population of 320,000 of which 97 percent are of Anglo-Saxon origin.

During 1948, 450,000 passengers passed through Gander air base.

Education is chiefly in the hands of the churches.

Social services and welfare are conducted by the government.

Margarine is in general use, the proportion being 95%.

The foregoing were a few of the statements made by J. G. Howlett, Chief Commissioner, speaking in the Women's Forum, in Toronto.

 ALL-WEATHER SERVICE

Not Just On Time, but early for breakfast. That's the way your family will be when you provide them a KELLOGG'S ALL-WHEAT treat!

Yes, more and more mothers agree that All-Wheat is a favorite with everyone at breakfast time... a bowlful starts the day early and bright! Why not serve All-Wheat to your family to-morrow? They'll love those crunchy, toasted flakes topped with fruit-sugar and milk... a delicious way to serve good whole wheat nourishment to your folks! Yes, Kellogg's All-Wheat is made of Canada's choice whole wheat... whole wheat that's been magically transformed into toasty, crunchy flakes. Dish them generously!... a bowlful of All-Wheat disappears fast!

I Must Confess that occasionally I "eavesdrop" on street cars. One conversation that I listened to was about the new, improved TENDER LEAF TEA BALLS. The ladies were enthusiastic! Lady No. 1 said she was worried about her husband's attitude toward the tea she served. "He's fussy about his tea—he likes good Orange Pekoe," she said, "but I can't seem to find the right brand." "We recently switched to Tender Leaf Tea Balls," said Lady No. 2, "and we think the flavor is simply grand!" Lady No. 1 said, "Oh, that's the Orange Pekoe that's made from the little top leaves, isn't it? I've read about it." And Lady No. 2 said, "Just try it! The flavor is out-of-this-world. We're glad we switched to Tender Leaf Tea Balls and I'm sure you'll like them too!"

Cold Weather Beauty Treatment that will keep your complexion "Spring-Fresh"! A daily Woodbury Facial "Facial Cocktail" works in guard against dry skin, to help keep skin appearing in spite of the weather. Yes, daily use of JERGENS FACIAL SOAP and winter goods looks much better! Simply work up a Woodbury lather, thoroughly over face to a warm and cold, and such marvelous results. Woodbury's lather is rich with a smooth cream ingredient. Soap is made specially for skin specialists... it's skin soap! That's why I care for all your skin care needs!

You'll want to roll out the "Welcome" mat for one of your friends back again to your grocer's shelves! SHIRIFF'S GINGERBREAD MIX... combines all the good ingredients that made gingerbread a masterpiece. Sugar, shortening, flour, eggs, baking powder, ginger and all kinds of spices are prepared in a moist and moisture-proof bags. Ready for you to add just pop it into the oven! That's all there is to it... and best results! Yes, Shiriff's Gingerbread Mix rivals

the "Week" will demonstrate training in Citizenship, in Scouting and Guiding for our boys and girls.

See for yourself how the Scouts and Guides are preparing for Tomorrow... TODAY!

This is a Personal Invitation to YOU •

Come and see the boys and girls in action at Guide-Scout city-wide rally.

Classified Ads Bring Results!

This is NOT a Financial Campaign. The "Week" is designed solely to emphasize to the public the aim of Scouting and Guiding.

The aim is:

To develop good citizenship among boys and girls, by forming their character; training them in habits of observation, obedience and self-reliance, inculcating loyalty and thoughtfulness for others; teaching them services useful to the public and handicrafts useful to themselves; and promoting their physical, mental and spiritual development.

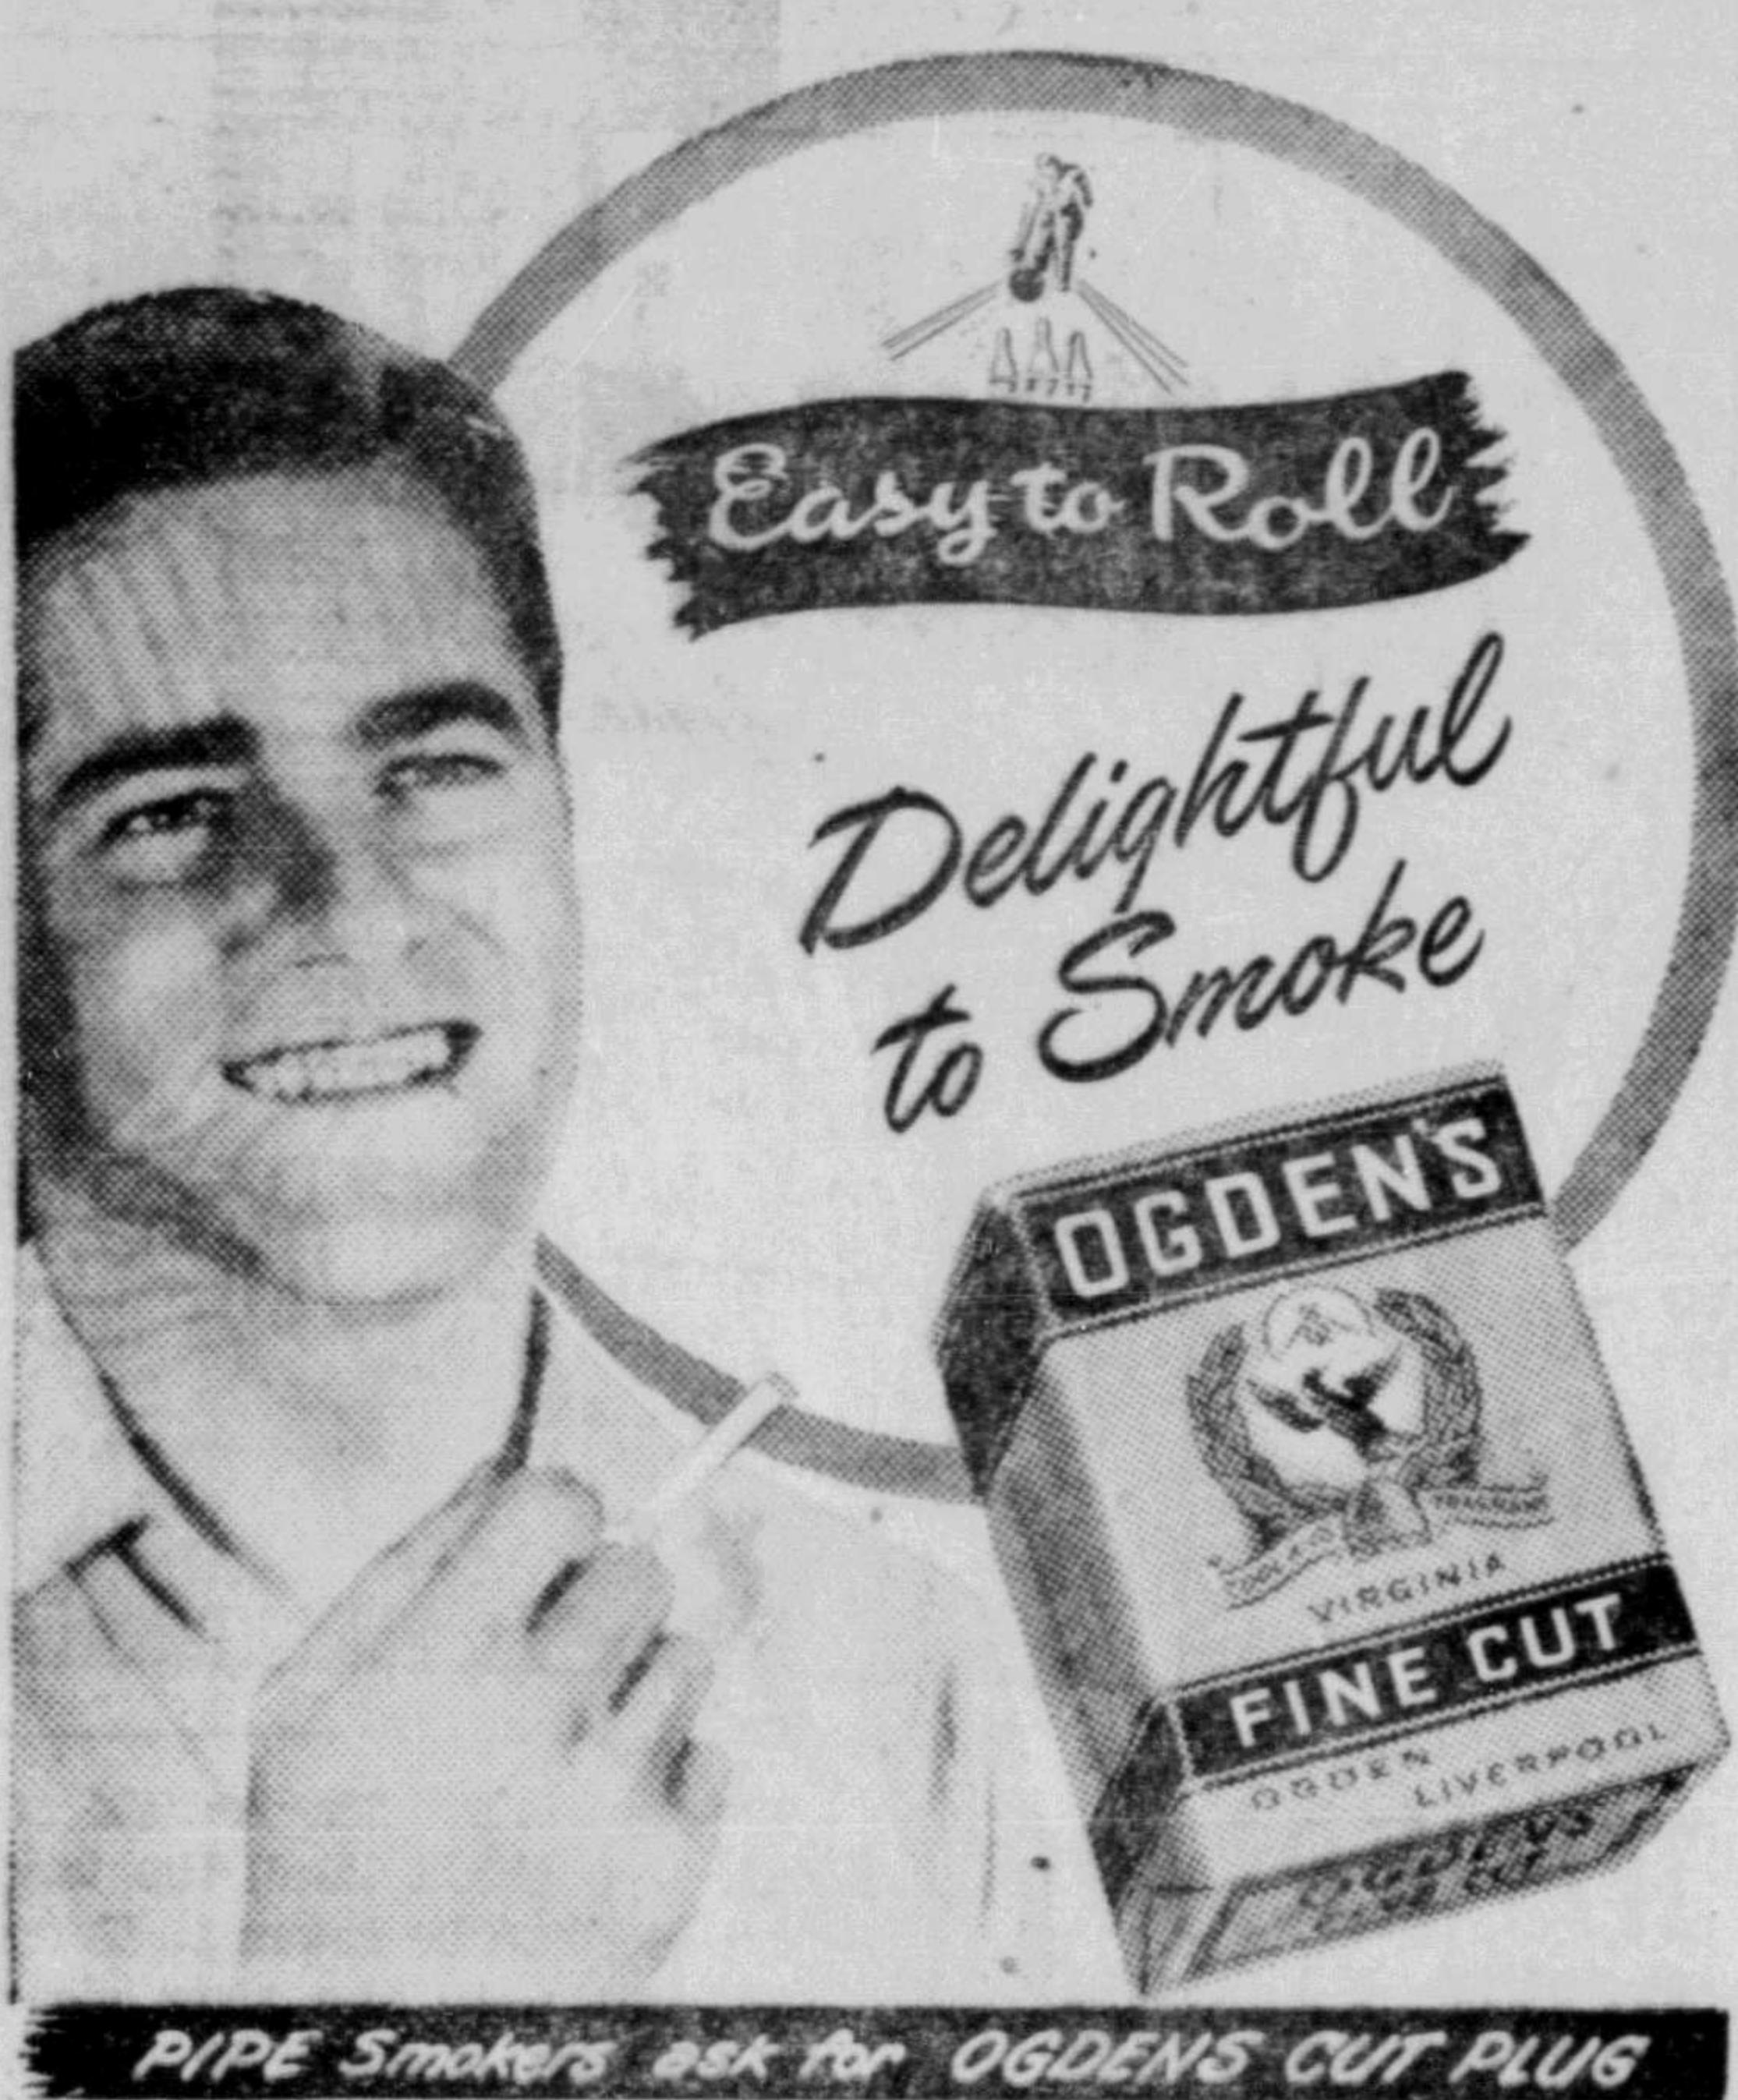

The "Week" will demonstrate training in Citizenship, in Scouting and Guiding for our boys and girls.

See for yourself how the Scouts and Guides are preparing for Tomorrow... TODAY!

This is a Personal Invitation to YOU •

Come and see the boys and girls in action at Guide-Scout city-wide rally.

By TREVOR ICETON Canadian Press Staff Writer

TORONTO — At least one enemy hockey writer expects Toronto Maple Leafs to finish the National Hockey League season with a rush that will carry them into second place.

Doug (Windsor Star) Vaughan relays the prediction he got recently in a chin-fest with Herb Ralby of the Boston Globe. The way Ralby dopes it out the Leafs will pull off their climb at the expense of his favorite Bruins, now the occupants of the second-place slot. The Berlin air lift, he is quoted as saying, "is costing the American taxpayers a million dollars a day, but when all shipping to Alaska was tied up for three months, the administration did not lift a hand to help Alaska civilians. Alaska has a thousand times the strategic value to the United States of Berlin, both now and in the future. Should Russia attack, it would require only about four hours to seize our undefended and weakly defended airfields. Kodiak is but 1600 miles from continental United States.

The Leafs and Bruins play each other six times before the schedule winds up—roughly half of the remaining games for each. The Toronto team has beaten Boston five straight so far. And Ralby adds that most of Boston's remaining games are on foreign ice. The Leafs are divided evenly—home and away.

PLUG BRODA FOR HART

If his Toronto backers get their way, Walter (Turk) Broda may be the first National Hockey League goalie to win the Hart Trophy since Roy Worters got the nod 20 years ago as the league's most valuable player.

Ralph (Toronto Telegram) Allen started a full-throated chorus on behalf of the Brandonian who tends the nets for Toronto Maple Leafs.

Allen resolved his argument into two parts: 1. A better-than-average goalie does his team more good over the season than a player in any other position; 2. Broda is the goalie who has done the most good for his team this season—keeping the Leafs in the fight when they played inept hockey and giving them solid backing in their late drive for a playoff position.

JOB NO TOUGHER

Andy (Toronto Star) Lytle got talking to Bill Durnan and found that the Montreal Canadiens' goalie thinks modern puckstoppers have a less hazardous occupation than their predecessors of 10 years ago or so.

Bill, taking the opposite line to most fans and writers, says the present-day netminder gets defensive help from all five players in front of him. Years ago only the defence helped. Now defencemen and forwards go down to block shots and save the goalie.

CURLING POPULAR

CHATSWORTH, Ont. — The local curling club has the largest number of members on record—45 this year. The Ritz rink recently brought home the trophy from Markdale.

TENDERS will be received by Central Mortgage and Housing Corporation at 603 Hays Cove Circle, P.O. Box 1220, Prince Rupert, B.C., up until 12 o'clock noon, 23rd February, 1949, for the land and buildings now occupied by the said Corporation as an administration building and warehouse and situate at 603 Hays Cove Circle, and being Lot G, Block 21, Plan 1898, Section 6, City of Prince Rupert. (41)

The highest or any tender will not necessarily be accepted.

(C. H. Coull) Administrator, Central Mortgage and Housing Corporation, Prince Rupert, B.C.

New Englander Is Dog Derby Winner

OTTAWA — The 214-pound New Englander, Bill Shearer, yesterday won the \$1000 International Dog Derby. He won by forty seconds over Wilf Lepine of Quebec. Shearer's time for the three-day grind was eight hours, forty minutes and 40 seconds.

KODIAK MAYOR IS INDIGNANT

FEELS Alaska Defence is More Important Than Feeding Berlin

WASHINGTON — For three weeks, Mayor Lee Bettinger of Kodiak, Alaska, has been attempting to arouse the government to the defence needs of the territory. He thinks the administration is more concerned with the feeding and defending of Berlin Germans, than with Alaska and Alaskans.

The Berlin air lift, he is quoted as saying, "is costing the American taxpayers a million dollars a day, but when all shipping to Alaska was tied up for three months, the administration did not lift a hand to help Alaska civilians."

Alaska has a thousand times the strategic value to the United States of Berlin, both now and in the future. Should Russia attack, it would require only about four hours to seize our undefended and weakly defended airfields.

Kodiak is but 1600 miles from continental United States.

A Visit to St. John's

RUGGED CITY OF SEA, HOSPITALITY

(By W. J. R.)

It was aboard a weatherbeaten tramp, the S.S. Carthaginian, that our little party, soon to be out of uniform, sailed into St. John's on a gray November evening years ago.

Outward bound, her band playing smartly, a British man o' war passed. This was not long after

there.

The North Atlantic had given the Carthaginian a rough crossing but, as far as passengers were concerned, she was a light-hearted ship. There were not so many, but all were young and lusty. They joked with the crew, satisfied ravenous appetites spent most of the daytime on the pitching decks, watched port holes playing in the dark waters and looking at life found it pretty fair, after all.

It was with satisfaction, however, that one passed through the narrow entrance into St. John's perfect, land-locked harbor. For this was drawing close to home. It needed stamina and fortitude to stand up to a Newfoundland's idea of hospitality.

From the dock, the boys were escorted to the city's chief club, there to spend the rest of the night accepting St. John's bounty which was of a most lavish character. The following day was devoted to becoming acquainted, seeing the sights, attending a few private functions and a banquet that did not appear to have terminal facilities.

No matter where one rambled on a stroll through the old, solid looking city, there was no getting away from the authority of the deep and all its works, fishing fleets and sealing crews, sou'westers and sweaters, ropes and tar. So many of the very men your glance took in had about them in appearance or dress, the suggestion that "they went down to the sea in ships and did business on great waters." The same rugged type live in Prince Rupert.

The Octagon Castle may not

be standing today but more than

forty years ago it was a local

establishment of unique renown.

Our third evening of robust enter-

tainment was spent there. Its loca-

tion was a few miles out the highway.

There, more, fearing and quaffing,

telling tales and rousing singing gladdened every heart and distended every stomach.

GRIM FURNITURE

The proprietor, an elderly gentle- man, who had known Baltimore earlier in life, shed the light of a jovial personality on his guests. It might seem odd for one who appeared to enjoy life, to have a reminder of eternity, always before him. Yet, he did just that. He kept his casket in the drawing room and nothing pleased him more than displaying whatever fine points it might have. Never before had any of us seen a cof- fin used as parlor furniture.

The Carthaginian had sailed from Halifax, after a short stay in port, and we followed by land.

The railway, built through the centre of Newfoundland, linked that had shown, to a few chance visitors, kindness without limit,

on Cabot Strait, just across from a land perhaps destined to loom

Sydney in Nova Scotia. We large in the future history of

thought it a lonely, silent land, the Dominion.

Big Opportunity For Chosen Few

FAIRBANKS—"Not since the Klondyke Rush has there been such a golden opportunity for a chosen few," said the Junior Chamber of Commerce of this city, in a reference to the Liquor Control Bill, placed before the Alaska Legislature.

**Ancient Causeway
Found in Britain**

BRADFORD-ON-AVON, Eng.—A man digging in his garden unearthed a stone-paved causeway he believes was built during the Neolithic age—4,000 years ago.

ALPHETON, Eng., ©—Stripping 17 layers of wallpaper off the walls of his living room, S. E. Jones, of Sunset Cottage, found the last layer to be pages of a newspaper dated November 29, 1901.

and because of the myriad bays and inlets nowhere was any place very far from the sea. There were streams and forests, empty valleys, mountains and hills—with winter around the corner.

And so, it was farewell to an island that today will, within a few more weeks, become a province of Canada. It will be the Dominion's true front door,

the Carthaginian had sailed

from Halifax, after a short stay in port, and we followed by land.

The railway, built through the centre of Newfoundland, linked

that had shown, to a few chance visitors, kindness without limit,

on Cabot Strait, just across from a land perhaps destined to loom

Sydney in Nova Scotia. We large in the future history of

thought it a lonely, silent land, the Dominion.

Yacht Club Floats Repaired—New Site Being Considered—Negotiating Salmon Prices

Repair of the Prince Rupert Yacht Club floats, badly damaged last December by a northwest gale that brought grief to a number of boats, was completed on Wednesday by Armour Salvage Co. The work involved the driving of a pile dolphin at the seaward end of the float and renewal of parts of the float itself.

During the gale, the dolphin broke off and the float drifted over to the Standard Oil Co. dock after several boats, trapped by its movement, had been released. The new dolphin consists of a single creosoted pile surrounded by four untreated piles and is situated, not in the middle of the float as was the former one, but on the east side of it. Some old deck planking was renewed and a couple of berth logs replaced.

The Yacht Club plans to hold its annual meeting next Thursday night at which points of future policy will be discussed and 1949 officers elected. Among points of discussion will be the matter of whether or not the club should move from its present site to a new one. Members have been pondering this problem for some time and the executive has been inspecting possible new locations for the edification of the membership. Behind the possibility of a move lies the suggested likelihood that, with the expansion of the city, a larger membership of agent visited the city. A strong boat owners can be anticipated attitude is expected to be taken and also the fact, as demonstrated during the December storm and earlier ones, that the faced with demands for higher present location offers little salmon prices by the union and shelter from a westerly wind, the Native Brotherhood. Again this is the fact that the present location is bound up in the history of the organization, unit on deck, Union steamer Co. a bond of tradition that few would like to see removed, and Friday from Vancouver where also the convenience of the cen-

New Reporter

JUNEAU—Peter Gruening, son of Governor and Mrs. Gruening, is now a member of the United Press covering the Legislature session at Sacramento, California. He recently graduated from the School of Journalism, University of California.

Modern Etiquette

By ROBERTA LEE

Q. Is it obligatory that a woman remove her hat in the theatre?

A. Not if the hat is small and flat, without any protruding ornaments.

bias Cellulose Co. She arrived here three-quarters of an hour behind her usual arrival time of 1 o'clock. The Coquitlam sailed at 10 o'clock last night for the north Queen Charlotte Islands and will be back here tomorrow morning to sail south at 10 p.m.

Construction of Dr. R. G. Large's new cruiser is nearing completion at McLean Shipyard, Seal Cove. The twin Packard engines which will drive her have arrived and will be installed in the near future. Dr. Large's brother, Dr. Gordon Large of Vancouver is considering having a similar boat built here.

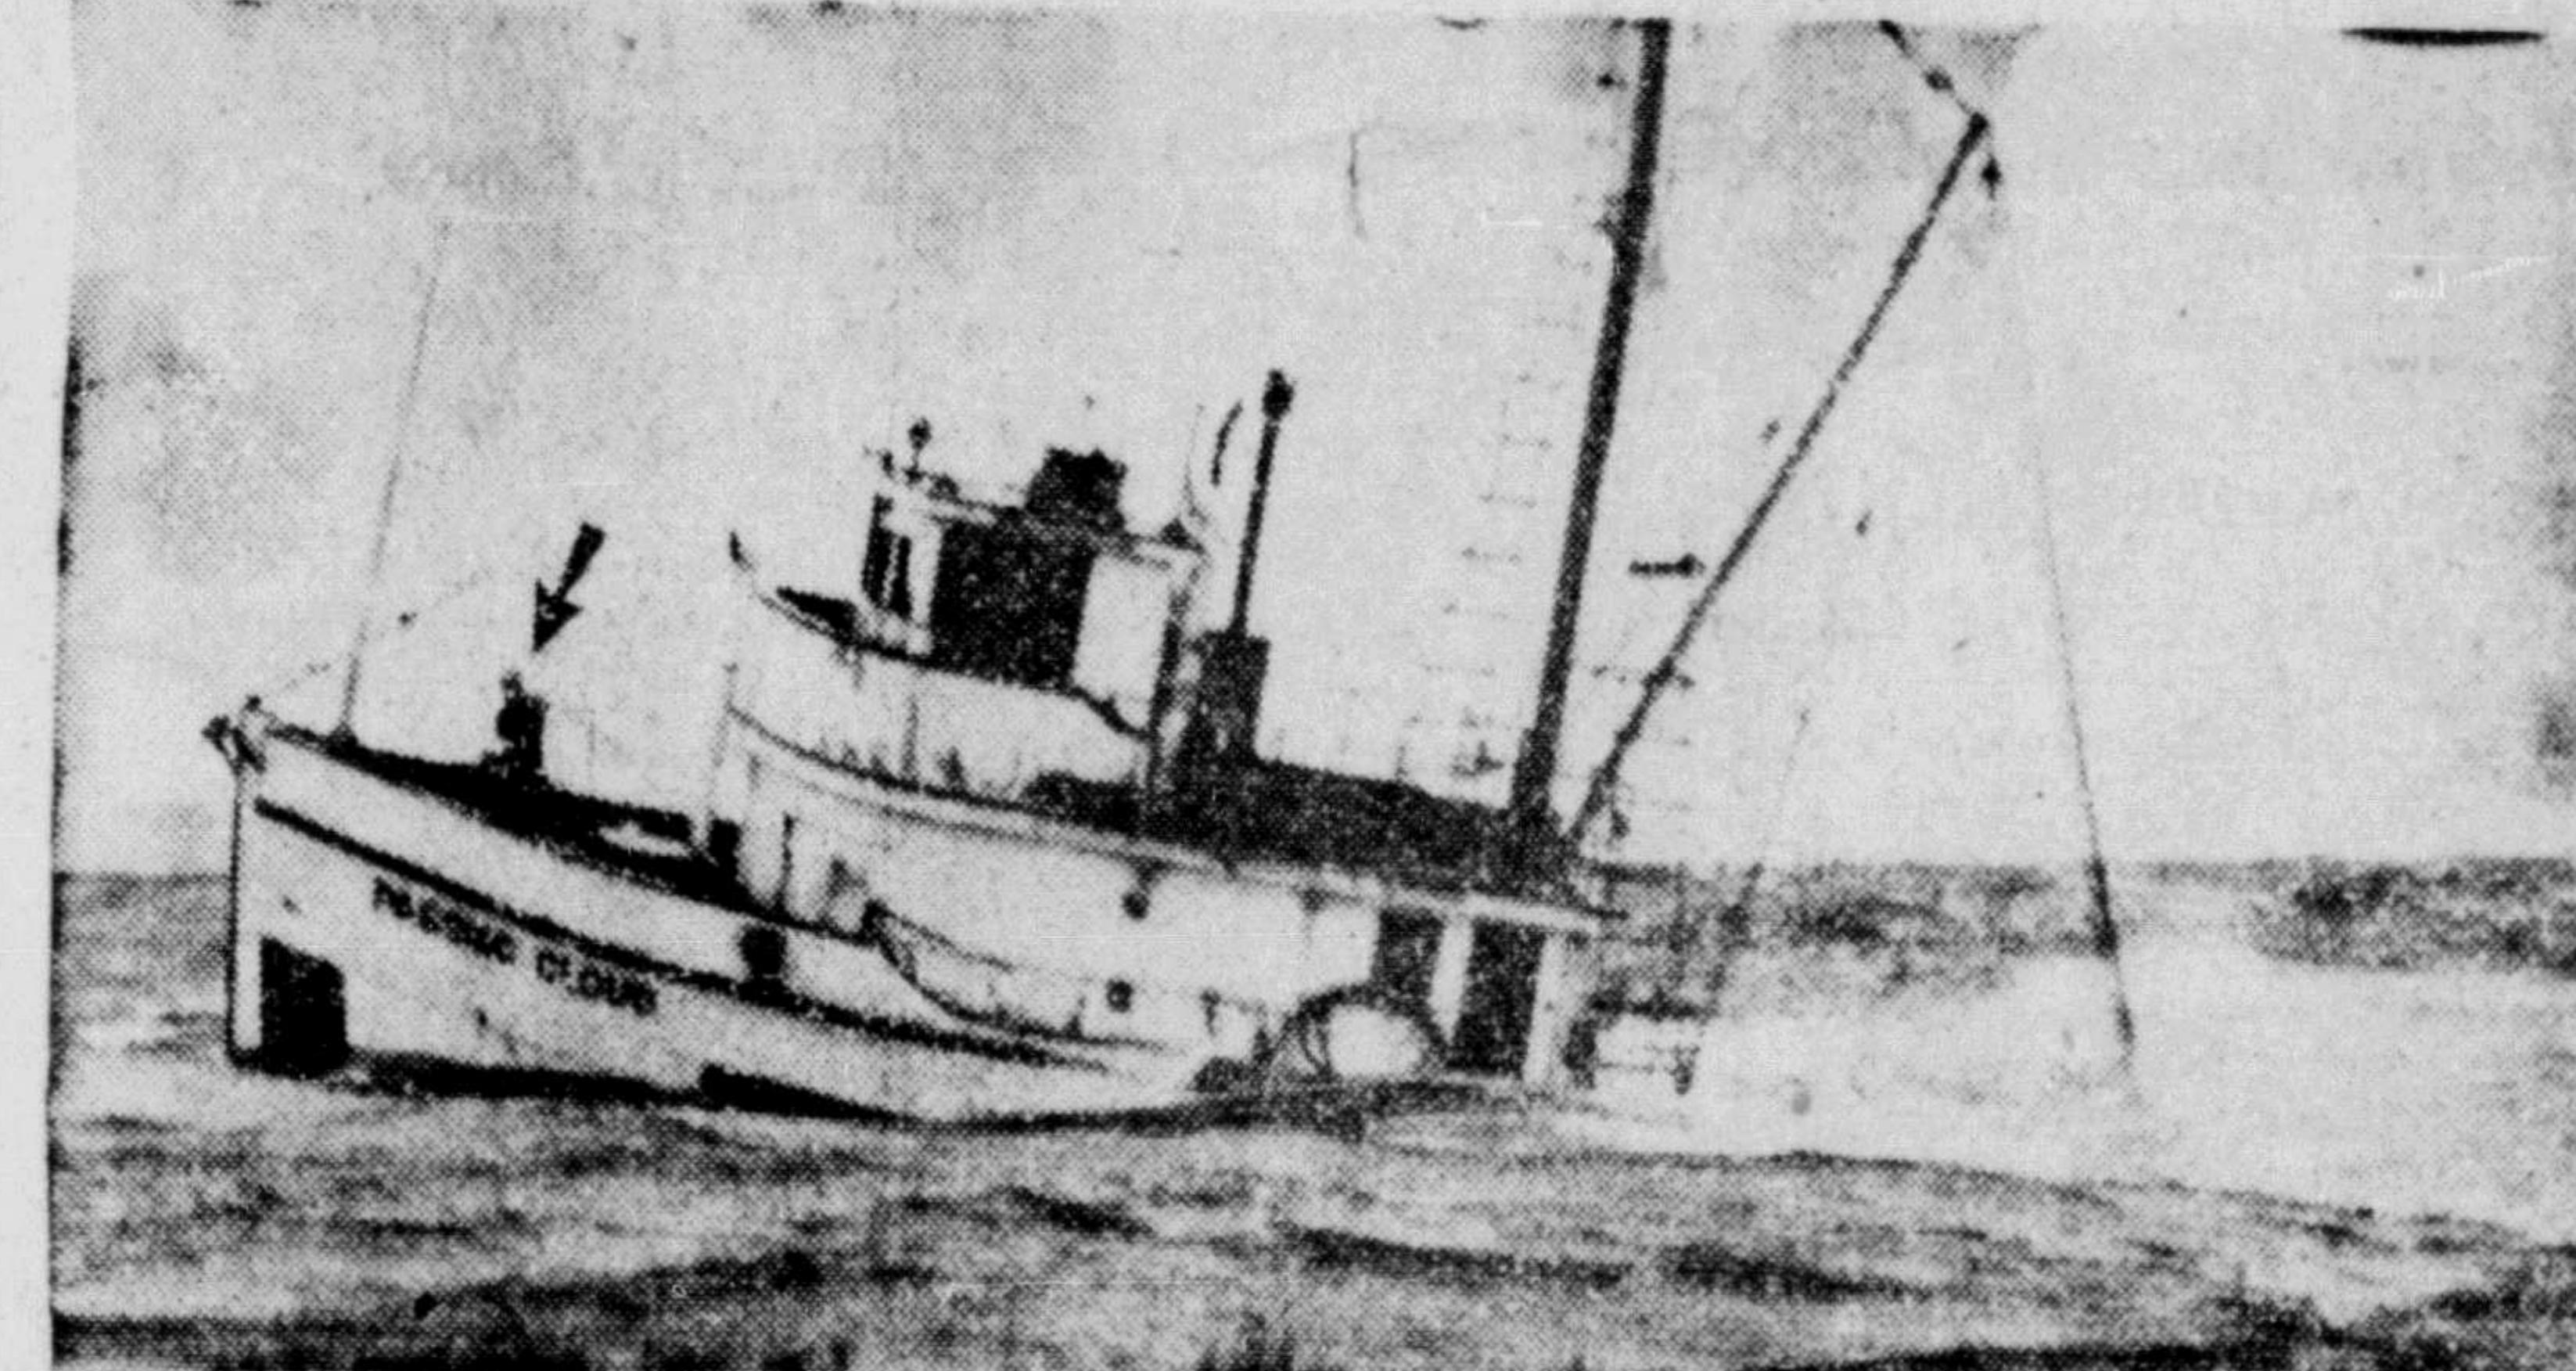

New superstructure is taking shape on Tony Crawley's cruiser A.P.C. which was damaged by fire in the Cow Bay boat shop last November. Changes from the old lines involve the raising of a door on the port side of the pilot house. The plywood canopy also is a few inches higher over the after end and extends closer to the stern.

Hull repairs are being done at Cow Bay to the troller Pitt, which was recently purchased by A. G. Nelson from the Prince Rupert Fishermen's Co-operative.

British-American Oil Co.'s float required repairs amounting to about \$300 to damage done by last Sunday's sudden westerly storm. The swinging float caused the gangway to foul the approach and gangway and approach fell into the harbor. The gangway was recovered and put back into place but the landing had to be renewed.

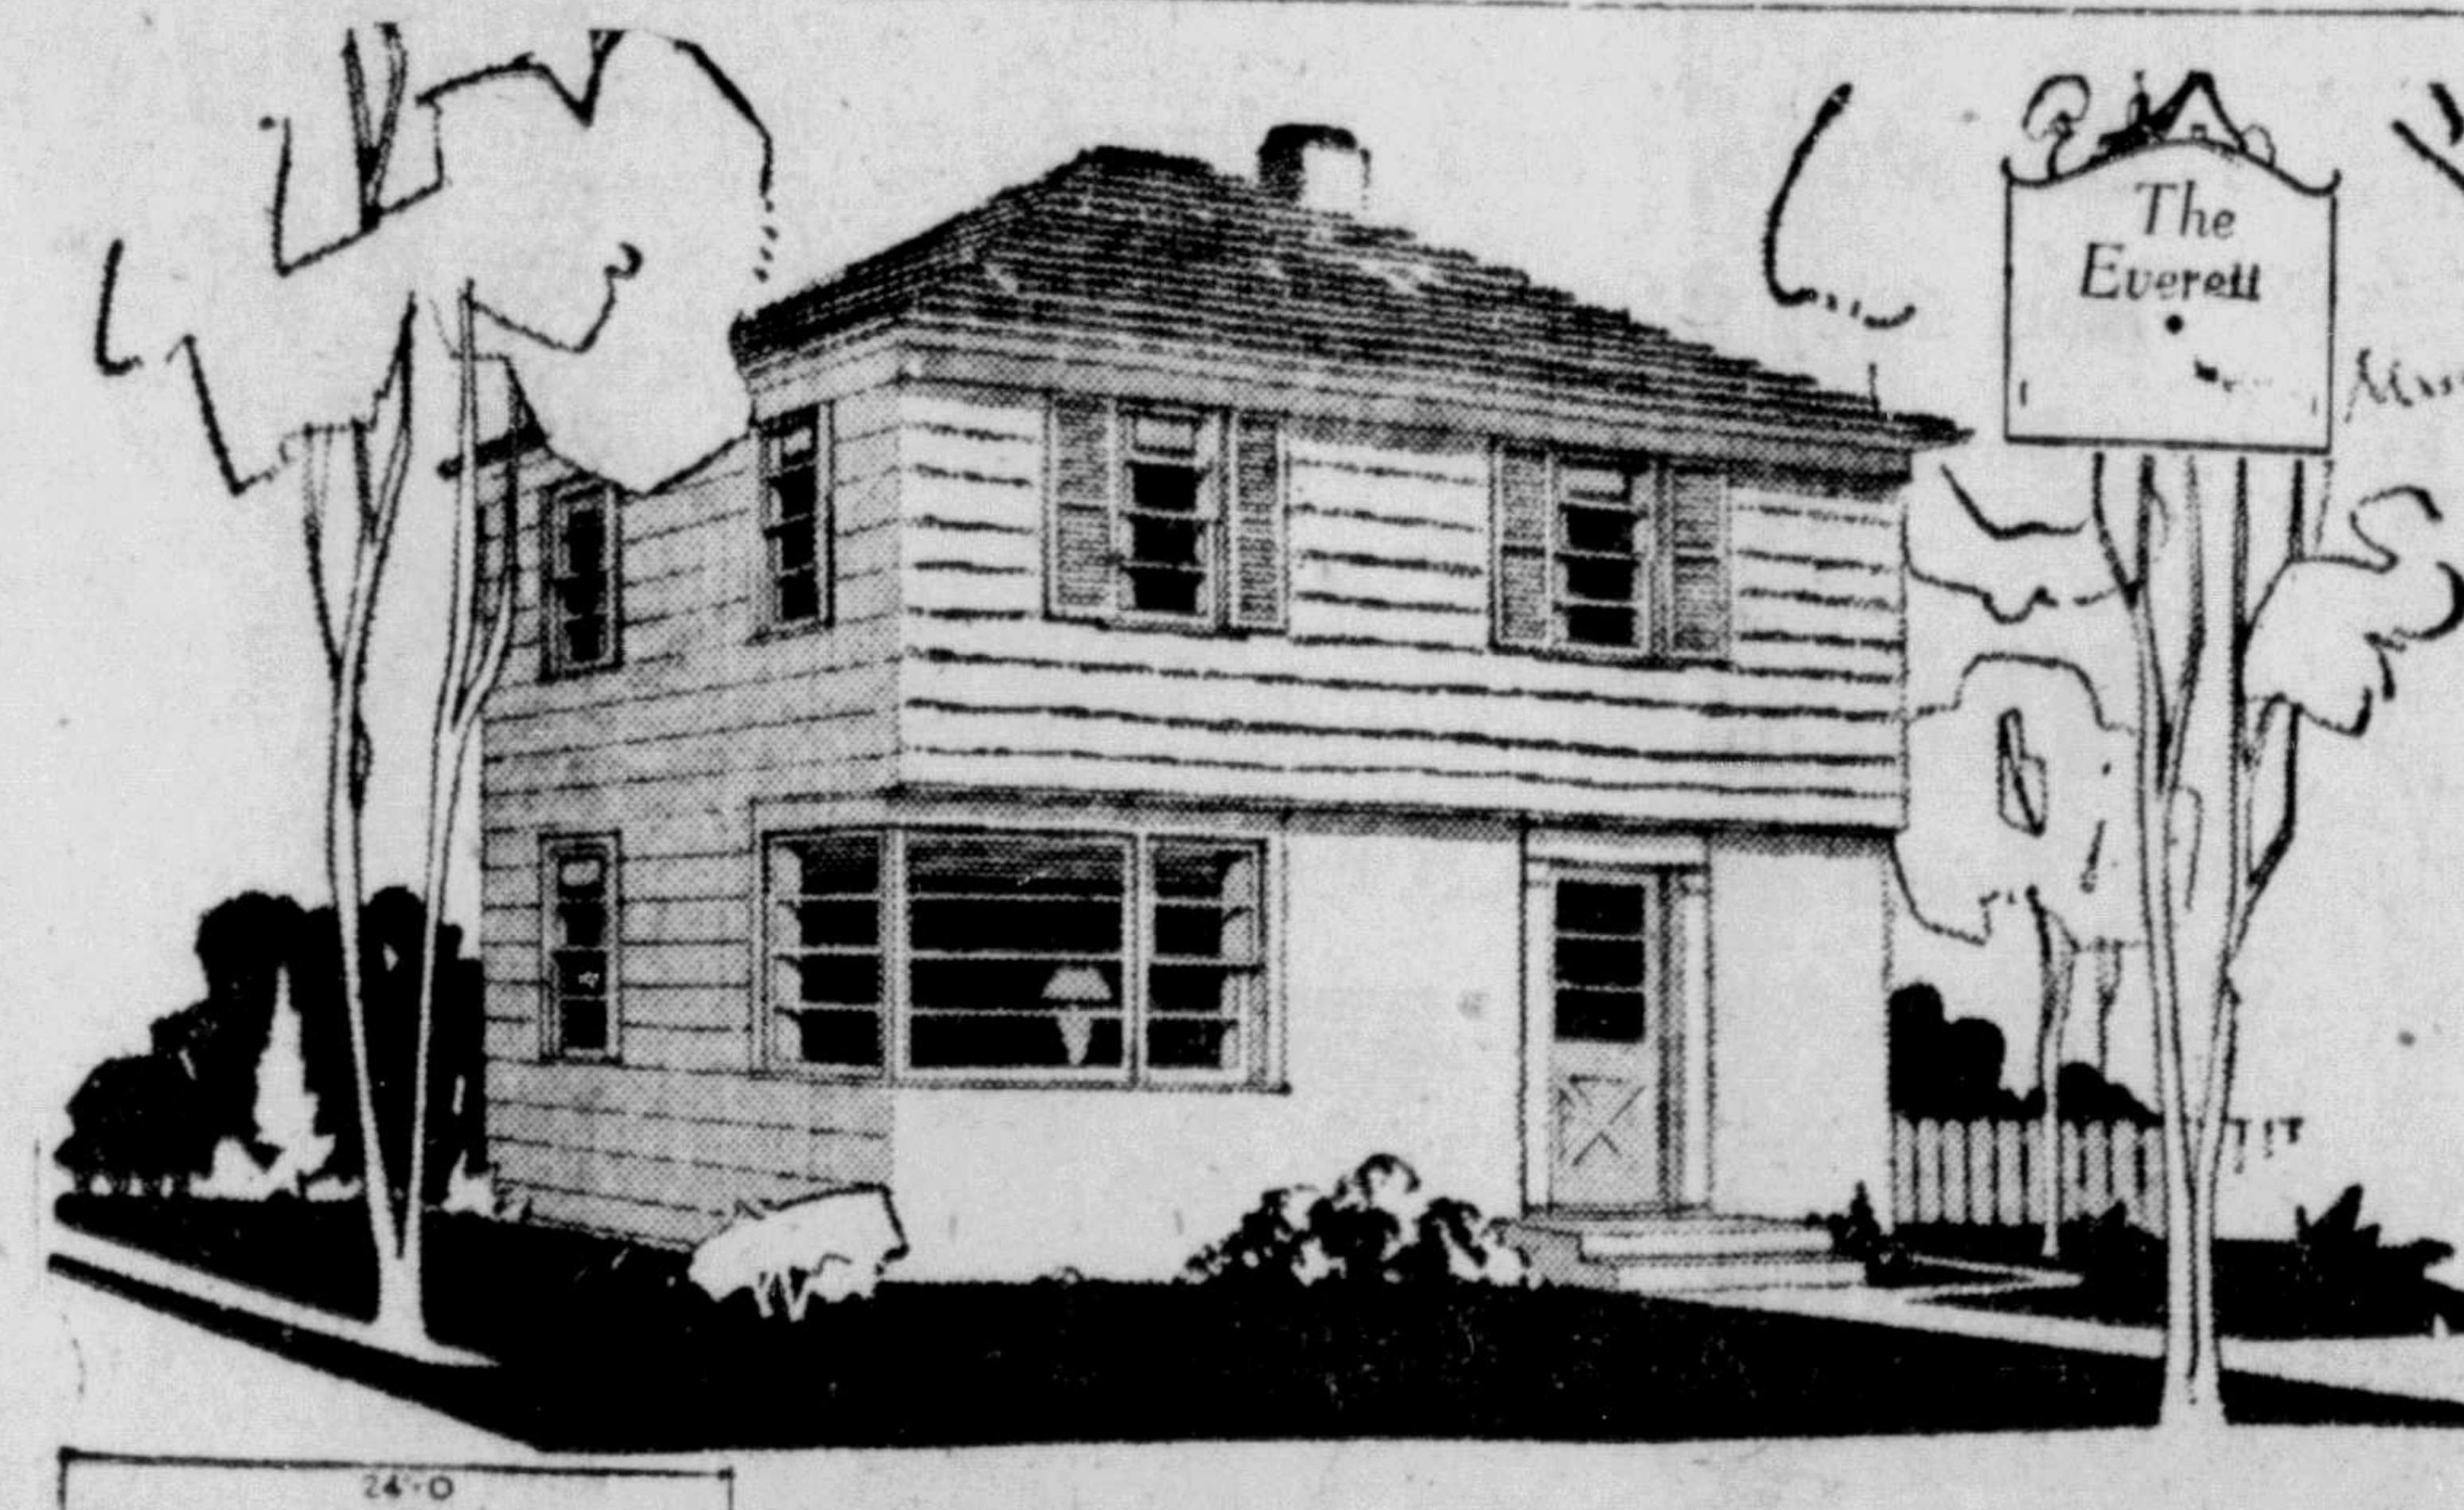

FARNHAM, Surrey, Eng., Oct. 1—Landscape artists are being consulted to decide the color of a new gasholder here.

LAST TO LEAVE—Robert McCaffrey, cook, was the last survivor to leap from the sinking fishpacker Passing Cloud in raging seas of Queen Charlotte Strait. Here he stands on the upturned bow of the ship, as indicated by the arrow, seconds before he jumped to safety aboard the rescue ship Southisle. Two companions also jumped to safety after Capt. G. G. Brown was swept overboard and drowned. This photo was taken by A. Ellason, Southisle crew member.

(C. P. Photo)

THE EVERETT is a 3-bedroom compact home for the larger family. It has a spacious, pleasant appearance given to it by large corner windows, second floor overhang and a brick veneered lower half. Every one of the 3 bedrooms on the second floor of The Everett is a breeze-catching corner room. There is good closet space in each of the bedrooms; a linen closet; comfortable-sized bath and a minimum of space taken up by the hall.

The Everett has a full basement. Plans call for frame construction, siding exterior and asphalt shingle roof. The lower half of the front is faced with brick.

The house measures 24 feet across the front; 22 feet deep; and covers an area of 528 square feet with 14,784 cubic feet.

DOCTOR-NURSE
FILM ROMANCE

"Homecoming" With Gable And Turner Co-Starred

"Homecoming," to be shown Monday, Tuesday and Wednesday here at the Capitol Theatre, gives Clark Gable and Lana Turner every opportunity in the heart-moving story of a doctor whose entire outlook on life is changed when he falls in love with the nurse who stands by him in his greatest crisis.

Gable plays the doctor, who leaves his adoring wife (Anne Baxter) and a successful practice behind when he goes overseas with a medical corps at the outbreak of World War II. His attitude that the war is just another chance for him to come back with a lot of medals undergoes a drastic change under the influence of Miss Turner, the responsibilities of
