President Vincent Auriol is continuing his search for a new Premier following the dispute over the Army budget which toppled France's middle-of-the-road government of Premier Robert Schuman. It is expected Auriol will first try to find someone who could reunite the "Third Force" coalition of Mouvement Republicain Populaire, Socialists and Radical Socialists.

Until the falling out, these three political groups had united in the old government to oppose the communists on the left and General Charles DeGaulle's French People's Party on the right.

Some of the resolutions endorsed will include, according to expectation of the committee, outlawing of the Communist party, social security program, retirement pensions at 65 without means test, increased unemployment insurance, accident and sickness insurance benefits, new housing program, Dominion-provincial conference, farm prices, marketing, immigration and freight rates.

General Clay Hurrying To Washington To Talk It Over With President

Allies May be Taking Steps to End Blockade Despite Russian Obduracy

BERLIN, (CP)—General Lucius D. Clay, American military governor of Germany, is enroute to Washington to report to President Truman and the government on the growing Berlin crisis. Sudden summons of Clay to Washington appeared to foreshadow the planning of new steps to end the blockade. He left Frankfurt last night on a plane.

Meantime some observers of the situation say it has become one of "greatest seriousness" and that Russia may be preparing to go to war rather than wait longer. The British licensed press said today that the Russians were preparing to pull the switches and signal equipment on the railroads to Berlin if the western Allies try to force their way through the Soviet blockade.

FIGHTING THO' TRUCE IS ON

Who Bombed Cairo Monday Night is Unsettled Question

CAIRO, —Jewish sources in Haifa said yesterday that fighting was still going on in northern Palestine in spite of the United Nations-imposed truce. The Israeli government said that it was not one of their planes which was reported to have blasted the main thoroughfare of Cairo Monday night. A single unidentified plane dropped an aerial mine which damaged a vacant moving picture theatre and two department stores.

PACIFIC MILLS PROFITS DOWN

VANCOUVER, —Net profit recorded by Pacific Mills Ltd. of Vancouver and Ocean Falls for the year ending April 30 was \$2,484,372, a drop of about \$80,000 from the previous year. The annual report, issued by President Paul E. Cooper, showed total sales of \$17,306,451.

TITO BOASTS TO COMRADES

BELGRADE, —Premier Tito told 2,000 wily cheering Yugoslav communists today that their party had become the "strongest and most successful Marxist-Leninist movement in the country's history."

This, apparently, was his answer to charges from the Soviet Union that Tito and other Yugoslav communist leaders had deviated from the Marxist line and are pursuing an anti-Russian policy.

FIRST COLUMBIA CELLULOSE CO. BONDS SOLD ON LOCAL MARKET

Five thousand Columbia Cellulose Company Ltd. general mortgage bonds, five per cent, series "A," were sold in Prince Rupert Tuesday by the brokerage firm of S. D. Johnston Ltd. to an unnamed buyer for the original offered price of \$98.75 each. Mr. Johnston announced this morning.

The sale is the first to be made locally of the \$5,000,000 issue which will help to finance the company's Watson Island cellulose-acetate mill. Purchased at the initial selling price as offered by Nesbitt, Thompson & Co. and Wood, Gundy and Co., the bonds will yield an interest of 5.1 per cent until they mature in 1968.

So great has been the demand for the bonds, Mr. Johnston said, that the complete \$5,000,000 issue has been sold out and further purchases will have to be made at a price expected to be \$99. Mr. Johnston said that he hopes to be able to obtain further quantities of the bonds to satisfy an indicated local demand. These will have to be obtained from individuals or companies which purchased them at their original offered price with the idea of turning a quick profit on re-sale. The \$5,000,000 issue of 5 per cent general mortgage bonds should not be confused with the \$15,000,000 issue of first mortgage bonds, one-third of which pay 3 1/2 per cent until maturity in 1958 and two-thirds of which will pay 4 1/2 per cent until they mature in 1965. Neither of these latter two issues are available for public subscription.

Political Rejuvenation

IN THIS EVENTFUL political year in Canada the retirement of John Bracken as national leader of the Progressive-Conservative party is another of many important incidents.

Personalities are always appealing and so interest in the two national conventions will naturally centre on the choice of leaders. In fact, it seems that national conventions of the old parties are never held unless the occasion is for the selection of a leader.

Meantime speculation as to the future leaders is a subject of interest. So far, the contest for the Liberal leadership appears to be centred between Mr. St. Laurent and Mr. Gardiner unless a movement which is now developing for a younger man increases materially, as it might well, between now and convention time.

As for Mr. Bracken's successor, it is no secret that for a long time, there has been a movement in Conservative old Ontario to supplant him with Premier George Drew.

MRS. ARNOLD'S BLUNT TALK

MAJOR NORA ARNOLD of Prince Rupert, who has just been chosen Canada's Woman of the Year by the Canadian Federation of Business and Professional Women's Clubs, thinks that trade unions are making recovery impossible by insisting on "less work for more money."

She spoke her piece at a banquet in her honor at Regina. She said hard work, overtime and strict economy are the answers to any catastrophe that strikes a home—and yet, just after the world has been stricken with its greatest catastrophe, the trend is to less work.

Mrs. Arnold says just what statesmen, industrial leaders and economists have been saying, in more guarded language usually, ever since the end of the war. Mrs. Arnold is blunt but blunt language may be needed.

It's a far cry from what people were saying during the depression days of the 30's. There was talk then of the need for a 30-hour week to spread employment. It was also argued that if the Machine Age were really to function for the benefit of mankind, a work week of even less than 30 hours would be possible.

This dream may not be altogether impossible of attainment but the time is not yet, obviously. It does not do to be deceived by high wages and a gloss of prosperity. In several industries wages may have gone up, year by year, to levels unknown before, but the real wages are less because prices have kept pace and in many instances gone ahead of wage levels.

The answer which Mrs. Arnold indicated is more production. It can hardly come by making new jobs for more people because the labor force is working to the fullest extent. It must come through the better use of each man-hour.

Mrs. Arnold puts the trouble down to apathy. If it is apathy, the time has come for labor to swing out of it and take a new view of its responsibilities in the economic set-up.

Says Tories Are Vermin

Class Hatred Still Evident in Great Britain

By Stuart Underhill Canadian Press Staff Writer

LONDON, (C)—When Health Minister Aneurin Bevan in a scornful speech said that to him Conservatives were "lower than vermin," he lifted the lid on class hatred that still smoulders in many hearts in this country.

The war and ensuing financial upheaval has blurred class distinctions. Ten years of comparative prosperity and improved conditions for the working class have soothed much of the bitterness but in the mean back streets of industrial towns and pubs where miners drink there is not much love for "toffs."

Bevan knew his remarks would win nods of approval from this huge section of the electorate, many of whom have been grumbling that the Labor government is too cautious and too solicitous of upper-class feelings.

The Health Minister said his "deep burning hatred for the Tory party" had its roots in the bitter experience of his youth when he was unable to get work. That experience—and similar emotion—is understood by millions of his contemporaries.

The younger generation of the working people is inclined to be a bit more tolerant of the upper classes because they feel they are dying out. High taxation is steadily reducing the huge incomes which a few privileged families enjoy.

Some of them still live on a lavish scale but often have to draw on their capital to do so. They have little compunction about it because high death duties make short work of family fortunes.

For example: Viscount Hambleden, heir of the Smiths news-

stands fortune, left £2,900,000 (\$11,600,000) of which £2,000,000 was taken in taxes.

The head master of exclusive Eton College took note of this new trend by contrasting the boys of today with those of the last generation. Few Eton boys now contemplate a life of leisure, he said. They apply themselves more diligently to studies because they have to earn a living.

But it is still a long way from the corner pub in London's East End to the exclusive West-End ballrooms where expensively-gowned debutantes dance with young men who have been known to sport stuffed humming-birds in their button holes.

Mr. and Mrs. Alex Mitchell Hosts for Mr. and Mrs. Howard Frizzell

Mr. and Mrs. Howard Frizzell, Prince Rupert born couple, who were married in Chicago recently, met many old friends and new ones as well last Tuesday afternoon when Mr. and Mrs. Alex Mitchell entertained at a delightful reception in their honor at their home, Fourth Avenue East. The bride was the former Miss Noel Roerig, daughter of the late J. B. Roerig and Mrs. Roerig. The groom is the son of Mr. and Mrs. George Frizzell of this city. They are leaving tonight on the Prince Rupert to make the round trip to Ketchikan and thence to Vancouver enroute back to Chicago.

Opening the door for the guests at the reception were Miss Patricia and Master Bobby Mitchell who kept a book for the bride in which each of the guests signed on arrival. Mrs. Mitchell received the guests and introduced them to the couple.

Mrs. L. W. Kergin, Mrs. J. Lorne MacLaren and Miss Blanche Curtin presided at the pouring table which was attractive indeed with its handsome lace cloth, adorned with a lavish bouquet of beautiful red roses and ivory tapers.

Assisting in serving were Mrs. Angelo Astoria, Mrs. Tommy Fraser, Mrs. C. A. Kellett, Mrs. P. M. Ray, Mrs. W. D. Lambie, Miss Dorothy Kergin, Miss Muriel Vance, Miss Frances Moore, Tommy Fraser, Douglas Frizzell and W. D. Lambie.

LIVE ELECTRICALLY AND ENJOY THE Difference!

ENJOY wash day! Save your hands—let an electric washer do the hard work by gentle motion which forces creamy suds through soiled clothing and linens!

ENJOY a cleaner wash! Yes, electric washing is more thorough because suds are not swished through parts of the garments a few times, but through all parts many times!

ENJOY a quicker job! An electric washer does the work, allowing you time for other matters, and in far less time than it takes to scrub by hand, your laundry is thoroughly washed, rinsed and out on the line!

JACK McNEIL IS MOURNED

Funeral of Well Known Pioneer of Bulkley Valley This Afternoon

SMITHERS—Funeral of the late J. J. (Jack) McNeil, pioneer businessman and rancher of the Bulkley Valley, was held this afternoon from Smithers United Church with interment in the Smithers Cemetery. Many friends of deceased were in attendance to pay their final tributes of respect to his memory.

Mr. McNeil died in the Bulkley Valley District Hospital at 3 o'clock Monday afternoon from the effects of a self-inflicted gunshot wound in the head. The shooting occurred Sunday night at approximately 10:30.

A few minutes prior to this Mr. McNeil phoned Wall's Taxi, requesting to be picked up and taken into town to a restaurant. The call was answered by George H. Wall, proprietor of Wall's Taxi, who arrived at deceased's home to find it in darkness.

On receiving no answer to the sound of the horn, Mr. Wall entered the kitchen of the house and called several times. Believing then that Mr. McNeil had phoned from some place else he returned to his car and on the way discovered deceased lying in the grass at the roadside. Believing him to be suffering from a heart attack, Mr. Wall immediately summoned medical aid.

The call was answered by Dr. Graham Mills who found McNeil alive with a bullet wound in the right temple and a 41 calibre revolver clasped loosely in his right hand. Dr. Mills immediately called the police and Dr. L. M. Greene and Mr. McNeil was rushed to hospital.

An inquiry held late Monday afternoon and Tuesday, under Coroner H. C. Davies attributed death to premeditated suicide due to ill health.

Mr. McNeil was born in the United States and came to the Bulkley Valley about 40 years ago from the Yukon where he had followed the gold rush of '98. He first settled in Aldermere where he operated a hotel, later moving to Telkwa where he engaged in ranching and stock raising for many years. He also owned a large general store in Telkwa which he operated until 12 years ago when he moved to Smithers. He was 73 years of age.

QUEEN MARY AT FILM PREMIERE—Her Majesty Queen Mary, accompanied by Mrs. Clement Attlee (right), is shown greeting Lady Dalrymple-Champneys (left), as young screen star John Howard Davis looks on. This photo was taken at the world premiere of the film "Oliver Twist" of which young Davis is the star. Mr. and Mrs. Ronald Neame are in the background.

NOT MOVIE FANS LONDON, (P)—A recent questionnaire sent to school children in Britain showed that the majority of boys liked playing football best in their leisure time, with cycling next. Most children liked reading, but movie going did not take top place as a favorite pastime.

Reminiscences and Reflections
By W.J.

A writer in a western publication, commenting on the trend of international affairs, says: "The British are in the most insecure spot, both in an economic and military way than at any time since Nelson destroyed the Spanish Armada." After that, he probably co-operated with Admiral Sampson in luring another Spanish fleet into the harbor of Santiago on the southern coast of Cuba.

Time does slip along: A quarter of a century ago this month since W. G. Harding, only president in American history to do so, toured Alaska. He died in San Francisco a few weeks later.

Others of that memorable journey north—Mrs. Harding, Governor Scott Bone—and they were but a few, have followed the long, long trail.

To note a heavy increase in the granting of automobile licenses at Prince Rupert is to feel a certain satisfaction. First of all, more cars are being made and marketed. More people are doing sufficiently well to be able to buy and use them. More Prince Rupert residents are experiencing the pleasures and advantages that car ownership implies. And now that there are highways, the city is in more direct touch with North America.

Basking sharks, dead or alive, are no slouches as publicity hounds. A launch off Alberni, skimmed over the back of one as it loafed in a lazy sea and nearly overturned. Another one, found in an over ripe shape on an island shore near Prince Rupert years ago, set the whole country in a sweat, for no one could say what the creature was. Gentlemen of science, however, soon calmed the quick spread of fevered imagination.

Leadership appears to be a natural law. In any group, small or larger, it invariably makes itself felt. You hear the familiar expression "a born leader," and it is truth. This capacity, gift, talent, or genius comes early and is quickly recognized. Sometimes it is a blessing to a country, as seen in national growth and development. But if there is leadership in godliness, there is also a chieftainship in evil, of which Hitler was the most outstanding example of modern times. And who knows who is following in his footsteps.

CANCER FEAR TALK DECRIED

TORONTO—Two of Great Britain's most eminent cancer specialists, visiting Toronto, condemned the "frighten-the-people" method of making people cancer-conscious.

The former said: "The fear approach is all wrong. You should emphasize good health, and tell people that when anything is wrong with them, they should see their doctor about it."

Said Dr. Cade, radiotherapist and surgeon at Westminster Hospital, London: "Fear is a fine weapon, perhaps, for collecting money in a cancer campaign but all this coarse shouting about the number of persons who die each year from cancer brings only misery to people."
