SNOWY—British Columbia last week experienced heavy rains in some areas were troubled with snowslides. Top photo shows an auto marooned in Victoria. Bottom photo shows a Canadian National train was held up for 50 hours 140 miles east of Vancouver. Snow and others caused the rerouting of many trans-continental trains.

ALLEGED VANCOUVER WIFE KILLER ARRESTED

EMBARGO ON PASSENGER TRAINS ENDS, TRAIN IS DUE HERE TONIGHT

Passenger train service between Terrace and Prince Rupert was expected to be restored tonight for the first time in a week with the announcement by the railway divisional office here that the west-bound train from Jasper would arrive here on, or shortly behind, its scheduled time of 10:45.

WATTS IS NAMED TO CONCILIATION BOARD BY CITY

Former Mayor and Ex-Alderman Thomas Elliott Will Represent Opposing Sides in Firemen's Wage Hearings—Chairman to be Named.
City Council Friday afternoon named William M. Watts its representative on a conciliation board which will seek settlement of a wage dispute between the Prince Rupert Fire Fighters Union and the city following the breakdown of negotiations and earlier conciliation efforts.

Mr. Watts received the appointment at a special meeting of council held at 5 p.m. yesterday. He will sit with Thomas Elliott, who was announced by the firemen Friday as their member to the board. The two will choose a chairman to complete the board.

No date for the board hearings has yet been announced, but it is expected that it will take place in the near future, since wages are an important item on the city budget which is now being drawn up.

While any decision of the board is not necessarily binding on either the city or the firemen, it is believed that its recommendations will be accepted. An earlier attempt by a provincial Department of Labor conciliator to settle the wage differences failed.

Basic firemen's claim is for the current Vancouver wage scale, plus a \$25 a month increase which is also being sought by the Vancouver firemen. The city's initial counter-offer was 7 1/2 per cent increase over the 1948 scale, amounting to about \$15 a month.

Negotiations, which have been under way since late in January, failed to bring an accord between the two groups.

Mr. Watts is a former mayor of the city and Mr. Elliott has served as an alderman.

MERCY FLIGHT TO FAR NORTH

Another "Obscure" Epidemic Visits Arctic Village
OTTAWA—A vast area of Canada's sub-Arctic is under quarantine as the government prepares to investigate an "obscure" malady which has afflicted 25 persons, killing four and causing rapid and severe paralysis. The sickness has struck at Chesterfield Inlet, 350 miles north of Churchill, Manitoba, on the northwestern shore of Hudson Bay. Both white and Eskimo persons are believed affected.

To reach the point a Royal Canadian Air Force Dakota will take off from Winnipeg next week on a 1,000-mile mercy flight carrying three nurses and 300 pounds of medical supplies.

Trying to Rescue Marooned Trio

SEATTLE—The United States Coastguard reported last night that an effort would be made today to rescue a woman and two men who are marooned on Grass Island, forty miles southeast of Cordova, Alaska. High winds and heavy seas are buffeting the island on which the power barge *North Cloud* foundered Monday.

NORTHERN B.C. IS 'VAST EMPIRE'

VANCOUVER—Attorney-General Gordon Wismer said last night that the provincial government is opening up and will continue to open up the vast northern parts of British Columbia which he describes as "vast undeveloped Empire." He said that millions of dollars in natural resources lie dormant in British Columbia's north country.

FORM COMPANY ON ISLAND RESORT

Officers of Limberlost Lodge Limited Elected at Meeting Thursday Night
Limberlost Lodge Limited, new local company which has been organized to take over the Sangar River resort on the famous North Beach of Graham Island and develop it for all-year tourist trade, held its initial meeting Thursday night when company officers were elected as follows:

President, Neil Kingston.
Vice-President, Ross M. Kingston.
Secretary - Treasurer, R. C. Barbour.
Directors—George H. Martin and J. T. Harvey.

Ross Kingston will be leaving next week for Sangar River to overhaul the existing premises and prepare for the construction of new cabins and recreation hall.

FINANCIAL BURDEN RELIEVED BUT HOSPITAL STILL SELF-DIRECTING

Although 1948 marked an "historic change" in methods of hospital financing here, just what extent the changes will effect administration are hard to tell, President C. G. Ham said in his annual report to the Prince Rupert General Hospital Association last night.

Mr. Ham was chosen president again for the current year following the election of five members to the board of directors. C. A. Berner was named vice-president.

Other directors are Martin F. Stuart, Earl Gordon and Sydney Elkins. They will sit with Government Agent Gordon Forbes and William Watts, provincial government representatives, Alderman Harold S. Whalen, city council representative, and Dr. W. S. Kergin, medical representative.

The hospital was operated last year at a deficit of almost \$6,000.

RESTRICTIONS ON POWER ARE OFF

VANCOUVER—Hydro-electric water reserves have improved to such a point that British Columbia Electric Co. lifted all restrictions on use of light and power as from midnight last night. Street lights are on again throughout the night.

A. E. Grauer, president of the British Columbia Electric, lifted the restrictions on the hydro-short and winter-weary lower mainland as the drought which lasted 61 days gradually ended.

Rationing of industrial power had been lifted Wednesday and company officials said that starved reservoirs in the hills had been replenished to a safe point. Rain which started 15 days ago is continuing.

President Anfield who also thanked H.M.C.S. Chatham for making the drill hall available.

Percy Baker of Burnaby Taken in New Orleans

VANCOUVER (CP)—Wanted for nine months for the mutilation slaying of his pretty 30-year-old waitress wife, Julia, Percy Jean Baker, aged 31, of suburban Burnaby, has been captured by the police in New Orleans.

Baker, who eluded a continent-wide manhunt since May, was taken into custody in the Mardi Gras city on a charge of vagrancy. He was under the alias of James Allan Harris.

Burnaby police charged Baker with murder after his wife had been found strangled and stabbed 63 times with scissors. Baker vanished the night of the slaying.

Police are now trying to find out how he got across the border, legally or illegally. It is expected he will be either deported or extradited to stand trial here.

PLANE IS IN FROM TERRACE

Skeena Air Transport's SeaBea Arrives for First Time in Week
Skeena Air Transport's SeaBea plane arrived Thursday afternoon from Terrace, breaking at least momentarily the blockade on passenger traffic between here and the interior town owing to snow conditions which have tied up the railway. The *SeaBea* had been held grounded at Terrace for several days owing to snow conditions on the air field there which was finally cleared of drifts which were as deep as six feet. Finally the rotary snow plow and blower were able to clear enough space for Pilot Tom Scheer to take off with his mach line. He brought in three passengers—Dr. E. B. Browsey of Smlthers, R. C. Ellis of Vancouver and Herb Young of this city.

Take-off of the *SeaBea* for Alice Arm with Miss Ruth Dickey R.N. of the X-ray chest clinic of the Department of Tuberculosis Control took place today. A planned flight of the Canadian Pacific Airlines *Canso* to Terrace was cancelled because of poor visibility at Terrace.

THE WEATHER

Synopsis
The northern section of a weakening Pacific storm off the B.C. coast has now moved inland over southern Alaska and will affect only the Queen Charlottes. Another active Pacific storm located about 1500 miles west of Vancouver Island is expected to bring rain and strong southeasterly winds to the north coast by Sunday morning and to the southern coast late Sunday night. For most sections of the province however the week-end will be sunny and mild.

Forecast
North Coast and Queen Charlottes—Cloudy this afternoon. Overcast Sunday. Continuous rain beginning Sunday morning. Winds southerly (20 m.p.h.) today, increasing to south-east (35) Sunday. Little change in temperature. Lows tonight and highs Sunday: Port Hardy 40 and 46, Massett 40 and 44, Prince Rupert 40 and 45.

The Budget

MINISTER of Finance Anscomb's budget speech in the Legislature yesterday brought us up-to-date on British Columbia's financial position. It told how the province is spending its heavy revenues and what it plans to do in the way of future outlay. Actually the budget speech was a reflection of the recent development program as announced by Premier Johnson, giving further details of the financing thereof and, incidentally, disclosing some particulars from the dollars and cents standpoint.

It was disclosed by Mr. Anscomb how huge are becoming the costs of social services and the substantial proportions that aid to municipalities are assuming. Much of this is being financed by the veritable gold mine of the much-protested and still unpalatable three percent sales tax which sounds possibly a little sweeter under the resounding title of "Social Security and Municipal Aid Tax." Incidentally, there was not the least indication of any amelioration of the impost.

Out here in the west of Central British Columbia we will be waiting with interest to hear how much of the Johnson-Anscomb melon we shall be getting. We have already acknowledged the general benefit that we should all experience through the government's Pacific Great Eastern extension project and its active efforts to encourage the establishment of industry in this rich basket of natural resources.

Possibly Mr. Carson will be disclosing soon some more details of the public works program which we hope will provide a substantial measure of outlay for these parts which are contributing more and more to the government coffers.

A GOOD MAN

IF THERE is one member of the provincial cabinet who commands the respect and esteem of all persons, regardless of their political stripe, it is Hon. George Pearson, minister of health and welfare. Under dramatic circumstances, Mr. Pearson told the Legislature Thursday that "politics is the ruination of government." He appealed to new members of the House, and in so doing, gave occasion for reflection to the old ones as well, to "stick to their principles" regardless of political considerations. Mr. Pearson was speaking to the men and women of all parties and, knowing him as we do, we can acknowledge that he spoke from the heart. That is the kind of a man Mr. Pearson is and everybody who knows him knows that what he said and the manner in which he said it came from the depth of sincerity.

The dean of the cabinet by many years in length of service, his friends know all too well that his hard and conscientious work as a minister over those years has been a contributing factor in shaking his health. Possibly another factor has been his sorrowful perception of many occasions where public principles have been allowed to give way before political considerations. If there were more George Pearsons government would be more sympathetic, conscientious and understanding.

A DELUSION

SOME MEMBERS of our intelligentsia hold strong feelings about criticism of Russia. They seem to feel that Russia is the hope of humanity, that its policies are the "wave of the future," and that any rough, despotic stuff being engaged in over there is only a temporary interlude necessary to get people lined up for Utopia.

The Russian revolution has been under way for more than 30 years. Yet so depressed is the "common man" that thousands continue to flee from Soviet domains at every opportunity. Over there the individual is nothing, the state is everything and the rulers are ruthless. Millions have perished in prison, before firing squads or of starvation.

The wonder is by what process the highly polished brains of some of the intelligentsia continue to harbor delusions about Russia. The Asiatic mind and Asiatic modes have nothing to offer America. Civilization simply hasn't overtaken that area.

An old man at an evening function cried quietly while a young woman sang the ballad, "My Old Kentucky Home." The hostess tiptoed up to him and asked tenderly, "Pardon me, are you a Kentuckian?" "No madam, I'm a musician."

Sermon Subject: "Making Life Count."

CARDINAL SHOWN DURING BUDAPEST TRIAL—Josef Cardinal Mindszenty, shown seated beside a guard at his trial in Budapest, told the five-man people's court that he wished to pay Hungary in full for any damage caused Hungary through illegal sale of thousands of dollars he is accused of receiving from sources in the Vatican and the United States. A dramatic break came at the trial when the prosecution read a brief letter written by the cardinal saying that if he ever pleaded guilty to the treason charges it would be because of "weakness of the flesh" and should be considered "null and void." Hungary's Communists published a bitter attack on the cardinal who was later convicted and sentenced to life imprisonment. They called his trial a defeat for the west.

Services in the Church

SATURDAY SERMON

GOD'S INVITATION

(By Paul A. Barber, Free Gospel Tabernacle)
"Look unto Me, and be ye saved, all the ends of the earth." Isa. 45:22.

God, through His prophet Isaiah, here speaks not only to Israel but also to us today. He is reminding us that salvation is to be found alone in Him. This is convincingly proven in Acts 4:12. "Neither is salvation in any other, for there is none other name under Heaven given among men whereby we must be saved."

Note too that Isaiah does not say "Look to the preacher or to any particular church or creed but he says to look unto Me—unto God. Of the comparatively few people who do give any thought to spiritual things today, many even of them are looking to the wrong means for salvation.

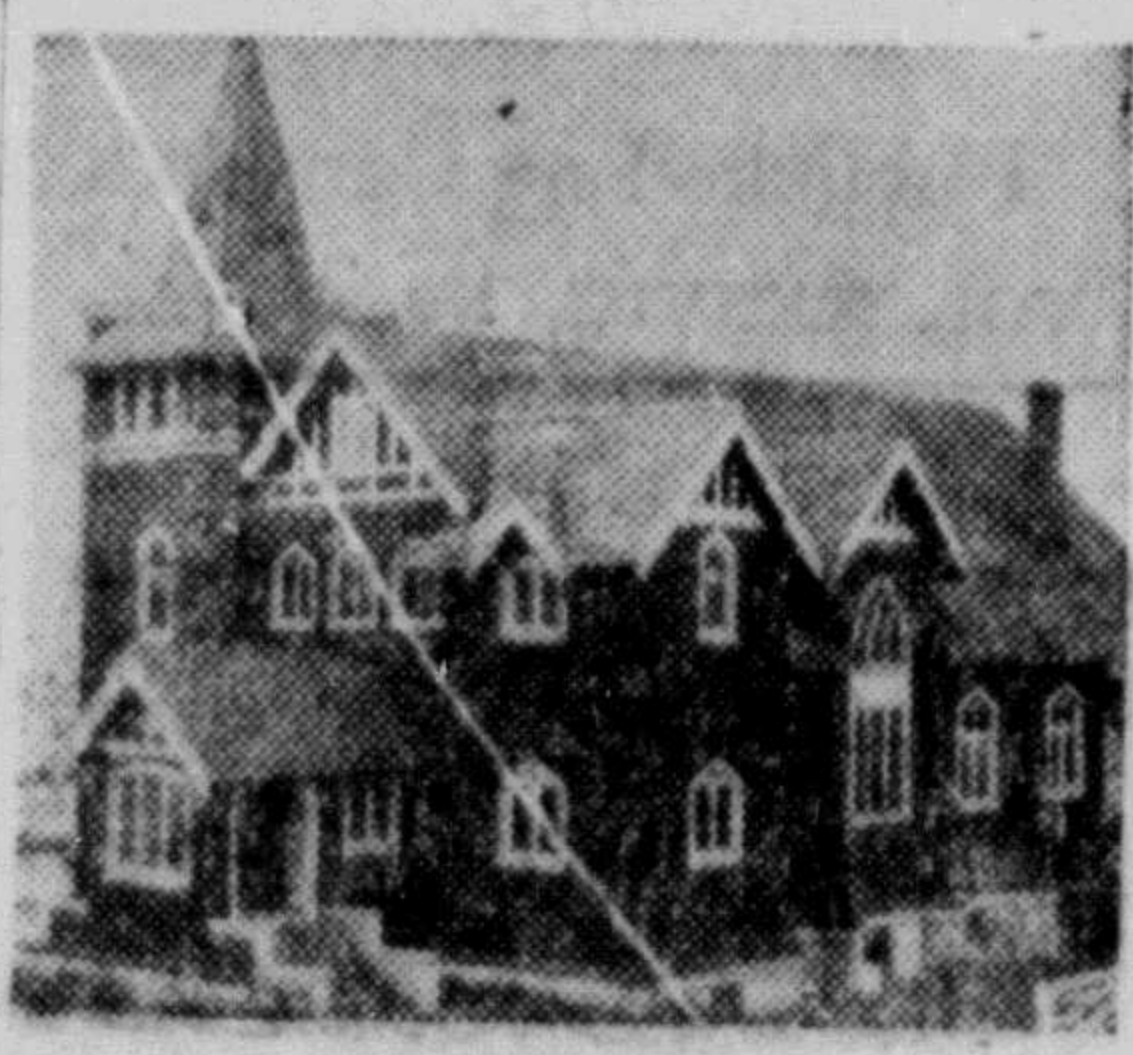

The greatest need of the present generation is a spiritual awakening and of the individual of all generations is personal salvation. It is not only the need in far-off heathen countries but it is the need in America. It is universal because the Word tells us that "All have sinned and come short of the glory of God. There is none righteousness, no, not one."

Some people say, "My greatest need right now is a home." True there is a housing shortage many places but there is a far greater need than a home. Others say: "My greatest need is money. I am in debt and have scarcely enough to eat. The greatest need, I have is money. If I have money I can take care of my other needs." No you cannot. The Bible tells us, "Seek ye first the Kingdom of God and His righteousness and all these things shall be added unto you." When you have Christ

you have everything because He supplies your every need. Your greatest need is not the material things of life but the spiritual. Your greatest need is salvation from sin, from judgment, and from an eternity of separation from God.

Our text tells us how to be saved. Simply "Look." Everyone can do this. You need not have great talents or be able to do great things but you can secure salvation by "Looking unto Jesus, the author and finisher of our faith." We are to look to a Person. Do not look to any particular church or to other people! Do not look to the good moral life you may lead because that is not enough to merit heaven! The Word says, "For by grace are ye saved through faith and that not of yourselves; it is the gift of God; not of works, lest any man should boast. If thou shalt confess with thy mouth the Lord Jesus and shalt believe in thine heart that God hath raised Him from the dead, thou shalt be saved."

This is the way of salvation and it is so simple. Look unto Me and be ye saved, all the ends of the earth. Have you accepted God's invitation? If not, accept it today while you still have the opportunity. Today is the day of salvation.

First Presbyterian Church

Modern Etiquette

By ROBERTA LEE

Q. If a woman and her ten-year old son are registering at a hotel, would it be correct for her to sign "Mrs. W. J. Smith and son?"

A. No; she should write "Mrs. W. J. Smith, Chicago, Ill., on the first line, then "James Smith" or "Master James Smith" with a ditto mark under "Chicago" on the second line.

Q. What should one do when being introduced to someone who recalls having met you at another time?

A. Try to recall it, but if this is not possible, express regret that you do not remember the occasion.

Q. If a bride is going on a honeymoon trip that is to last several weeks, how soon should she write notes of acknowledgment for her gifts?

A. She should do so before she leaves, or within a week after she leaves.

BRIGADE OF FIRST AIDERS

Concrete steps toward the formation of a St. John Ambulance Brigade in Prince Rupert were made Thursday night when the first 10 members signed the roll at an organizational meeting held in the Canadian Pacific Railway office.

D. H. E. McLean, C.P.R. agent here, who holds the rank of Ambulance Officer in a division of the Victoria brigade, outlined the opportunities for public service which are open.

Minimum membership required for the formation of a brigade is 16 and Mr. McLean feels that there is developing a sufficient interest for that objective, and for creation of a nursing division at a later date. The nursing division is open for women.

Officers of the brigade will be appointed at a meeting on March 10.

Brigade members will be provided with uniforms and will be dedicated to providing skilled first aid treatment at public gatherings or in cases of emergency.

Those enrolled at Thursday night's meeting were J. F. Eyoifson, R. E. Eyoifson, H. J. Grant, J. C. Grant, T. J. Boulier, Norman S. McGee, R. Slater and Ham.

B BASKETBALLS W WETS

Regardless of how long young "Monk" Sunberg may play the game of basketball there is little doubt that he has had his greatest hour. Forced into the game Thursday night due to Don Scherk being sidelined with injuries, he emerged a hero. His heroism will not be forgotten around Bo-Me-Hi for a day or two. How "Monk" finally scored the winning basket after keeping his team in the running all through the game is a feat few could adequately relate. With no less than three opposing players all over him like a tent he managed to find an opening that just didn't appear to exist.

In the mad melee following the final bell Don Scherk was spotted by this writer trying desperately to break another shoulder. He was in the middle of a huge crowd of student, rooters and players fighting his way through to congratulate Sunberg—a very dangerous practice with three arms.

There were tears—real men tears—around Bo-Me-Hi dressing room after the game. Jim Platen—Rainmaker's captain, felt very downhearted over the showing he made throughout the series. Yet he was the only one that seemed to feel it. No one

could say that he let up at any moment of either game and that's what counts. If his weren't clicking and his shots were a wee bit off was just one of those things, and the way the Dukes kept him trapped indicated their respect for him. Jim still has the Provincial Play-offs to worry about so should forget the past.

Art Olsen did what no one in the south seems to be able to do and that is stop the high scoring Mr. Flynn. Art not only messed up Flynn's scoring plans completely but matched him in points while doing it.

Johnny Comadina had one of his bad evenings judging from the reception the fans gave him on occasions. His allowance of a basket to the visitors in the dying moments of the game after the foul had been committed while the player was still in the act of dribbling was a dangerous blow to the Bo-Me-Hi hopes of victory and was not received very well by the large crowd.

So to ALEX BILL and then on down the line, it was a grand job and next stop is New Westminster and the Championship.

—Art Murray

Hoop Shoot Innovation

Everybody Can Get In On Basketball Contest

Basketball fans will see an added feature at league games during the next few weeks. League Secretary Don Forward has organized a Hoop Shoot contest patterned after that recently held in Vancouver and Seattle. The contest gets underway tonight with contestants playing off at half-time and between games intervals throughout the evening.

Principle of the Hoop Shoot is this: Contestants will be paired off by the tournament draw method, each of the pair taking fifteen foul shots with the high scorer staying in for the next round of the contest and the low scorer being eliminated from further competition. There will be three divisions, one for players under fifteen years of age at January 1, 1949, an open

division, and a division for girls and women. Anyone can enter and it is not necessary for a contestant to be a member of any team. In fact, with the present interest in Old Timers' basketball, it is expected that several of Prince Rupert's former greats will be in there to show the modern player just how to pot those foul shots. The contestants must wear basketball shoes but strips are not required.

Entries will be received up to next Saturday evening at the Civic Centre office. There is no entry fee. Finalists in each division will shoot off a few weeks from now with valuable prizes for the winners and runners-up.

Tonight's draw will feature Ray Davidson vs. Norm Scherk and Steve Dumas vs. Bill Chesney taking their fifteen shots at the half-time interval of the Junior game. Eric Moore vs. Charlie Forbes and Sid Scherk vs. Everett Pierce are paired off for the intervals between the Junior and Intermediate games with Jim Flaten vs. Bill Davidson and Mickey Webster vs. Glen Carlson at the

SKI CHAMPS — Art Thibault of Three Rivers (left) was crowned junior ski jumping champion at the Dominion ski championships at Fort William during the week-end. Bill Irwin of Winnipeg (right) captured the senior cross-country and jumping titles. (CP Photo)

You Don't Have to Work for Peanuts!

Going Steady... with B.C.

NAT BAILEY, PROPRIETOR, WHITE SPOT RESTAURANTS

"You don't have to work for peanuts all your life in this country. I speak from experience. I started by working for peanuts, literally, as a kid. Some of you probably remember that booming voice at the ball park or the old Arena 29 years ago: 'Peanuts at the ballgame!'"

Well, with the aid of that voice, a few new ideas on the restaurant business, and some good breaks, I managed to get somewhere. The basket of peanuts has grown into

Nat Bailey's White Spot Restaurants.

Now, here's my point. I couldn't have done that in a socialist country... nor could any other young man with a new idea who wanted to make a better life for himself. New ideas get strangled at birth in socialist red tape.

That's why our way of doing business in B.C. looks good to me. It gives you and me and the other fellow, who started out working for peanuts too, the opportunity to get ahead."

Clubs...

Radio Technicians

The Radio Technicians Club, under the direction of Mr. Adlem and Mr. Grasdahl, consists of boys from grades 7 to 12. Several of the boys have built one-tube radio sets and most of them have built crystal sets. Each of the boys pays a nickel at every meeting to provide money for the parts used. Since radio parts are hard to get, Bob Williamson donated some, provided the club builds him a small radio transmitter. This will be the club's project.

Officers:
President, Alfred Blackaby.
Secretary, J. Sharpe.

We'd Love to See...

1. A rainy day when the rain doesn't seep through the ceiling and make "torrents of winter" in the upper hall OR a rainy day when we can swim in the upper hall.
2. Somebody go into business selling plaster dust and plaster water. They could make a fortune.
3. A P.A. system installed so we could hear "Brahms Lullaby" when the wind is rocking us to sleep in the typing room.
4. Escalators instead of stairs so we can save our strength for old age.
5. A day when there are no lates or absences.

Cooking and Needlework Active

Home Economics Sewing Classes

Cooking has begun once again for the Grade 10 girls but for the Grade 7 girls is a new experience. Miss Townsend, the teacher in charge, says that the girls are doing very well in their studies. Right now the Grade 7 girls are taking up the "Breakfast Unit" which covers cocoa and milk, cereals and fruit. In one of their recent classes they made junket which aids in the explanation of the parts of milk—curd and whey.

The Grade 10 girls are studying "Food Preservation." They have learned how to use the pressure cooker and hope to be able to cook a dinner with it. They would also like, sometime soon, to make pickled herring, so all donations of herring will be gratefully received.

—M. B.

Dukes Entertained

A school assembly was held Wednesday afternoon for the purpose of acquainting the students with the Duke of Connaught players. Principal Hurst said a few words and then introduced Ken Wright, coach of the team. The assembly was turned over to Diane Kennedy, school president, who welcomed the visitors on behalf of the school. Following the singing of the school song, Diane called upon Red Fraser to introduce the Dukes. Larry Moore, manager of the Rainmakers, then introduced the locals. A musical program, consisting of two instrumental and two choral selections, was presented. The three cheer leaders led the squad in several rousing cheers.

The Duke of Connaughts and the Rainmakers were the guests of honor at a social evening held in the Common Lounge of the Civic Centre Wednesday night. Refreshments were served at the beginning of the evening, after which dancing took place. Because of the games the next night, the party broke up early, too early for most. Sonny Nelson, on behalf of the Dukes "thanked the Student Council, sponsors of the affair, for an enjoyable evening.

young working girl become acquainted with the special someone?"

BACHELORS AND PERFECT WIVES

NEW YORK, (C)— Advice for bachelors: don't sound off on what you think the ideal wife should be. A group of New York bachelors tried it, and the ladies are still storming.

The consensus of a doctor, lawyer, engineer, art student and two U.S. Navy ensigns was that the girl should:

1. Be attractive.
2. Be neat.
3. Have a sense of humor and responsibility.
4. Have the courage to be herself.
5. Have a low, pleasant voice.
6. Have no family.
7. Possess cooking ability.
8. Be discreet.
9. Stop working after marriage; and, above all,
10. Love her husband.

Stopping work brought most kicks from the girls.

"We'd be glad to," the chorused, "if our men made more money." One young model said the bachelor's theories about non-working wives are "outdated."

"Girls who go to business are better dressed, better groomed

HOW ABOUT MEN?

Another angry young woman wrote a New York newspaper: "Attractive, neat, humorous and well-spoken are traits that may be attributed to either sex. Do these young men meet the qualifications of their so-called dream girls?"

What's more, wrote another irate reader, too many chaps demand that girls must have a "right address" before they become interested.

"If men would only learn that a woman likes to be treated as such instead of looked upon as a self-reliant creature! We don't care if they're not all Burt Lancasters but we are interested if he is considerate and thoughtful, a good athlete, with a good sense of humor, a good steady job and, most of all, loves the girl of his choice."

The bachelors had this advice for the girls: "Don't be too eager. It scares off eligible men faster than a double dose of poison!"

But the women had the last word. Wrote one:

"There is no doubt there are many young women who come from an average family and who have the majority of the qualities mentioned by these young men, who would rather love and be loved, stay home after being married, eventually raise a family, etc. But the problem is, where can such a

Production Under Control Down Under

Since 1941 Australia has experienced so-called controlled production under a Socialist Government. Professor Copland, one of the Australian Government's "intellectuals," speaks from long experience and first-hand knowledge when he says:

"An examination of Australian figures available suggests that the increase of production over the pre-war level is in no way comparable with the increase that has taken place in the United States and Canada. In the United States a policy of decontrol has resulted in a rise of industrial output to 85 per cent above pre-war level. Australian production has hardly anywhere risen above 1939 levels, and in important areas is below them."

Freedom to produce means more jobs, more abundance to distribute. Socialist control of prices and production has nowhere produced as high a living standard as is to be found in Canada under our Freedom System. Our system is not perfect. It is constantly being improved. But by measured results it beats any other system thus far tried anywhere in the world.

Discussion
Albert Ammons has made a wonderful recording of the "St. Louis Blues." His piano artistry is predominant throughout the whole record and he gives the tune a treatment that will make it stand out in the Blue's Hall of Fame. The reverse side is an oldie "Shufflin' the Boogie," and it has a good, steady, boogie beat.

Reminiscences

By W. J. — and REFLECTIONS

Another cruiser race from Seattle north is planned for next July. It will be from Seattle to Juneau. To share in one is good for what ails you. The Seattle-Prince Rupert contest, years ago, was not only remarkable for the general interest it aroused. The beauty and value of the silverware was little short of stunning.

A woman columnist strongly urges that a special annual tax of a thousand dollars a year should be levied on each unmarried man. Which leads the Juneau Empire to inform her, and quite correctly, she should know a tax on liberty is unconstitutional.

Question! With times quiet for years, and housing shortage taken as a matter of course how much shorter will the shortage be when the spending of 25 million dollars a few miles out of town will start becoming translated into industrial action?

There is still a place on the surface of the seas and lakes for the tall mast and swelling sail. It sounds a shade romantic but, for the moment, we're in the mood. Coming down to cases, though, Lloyds' Register lists 750 sailing clubs in the

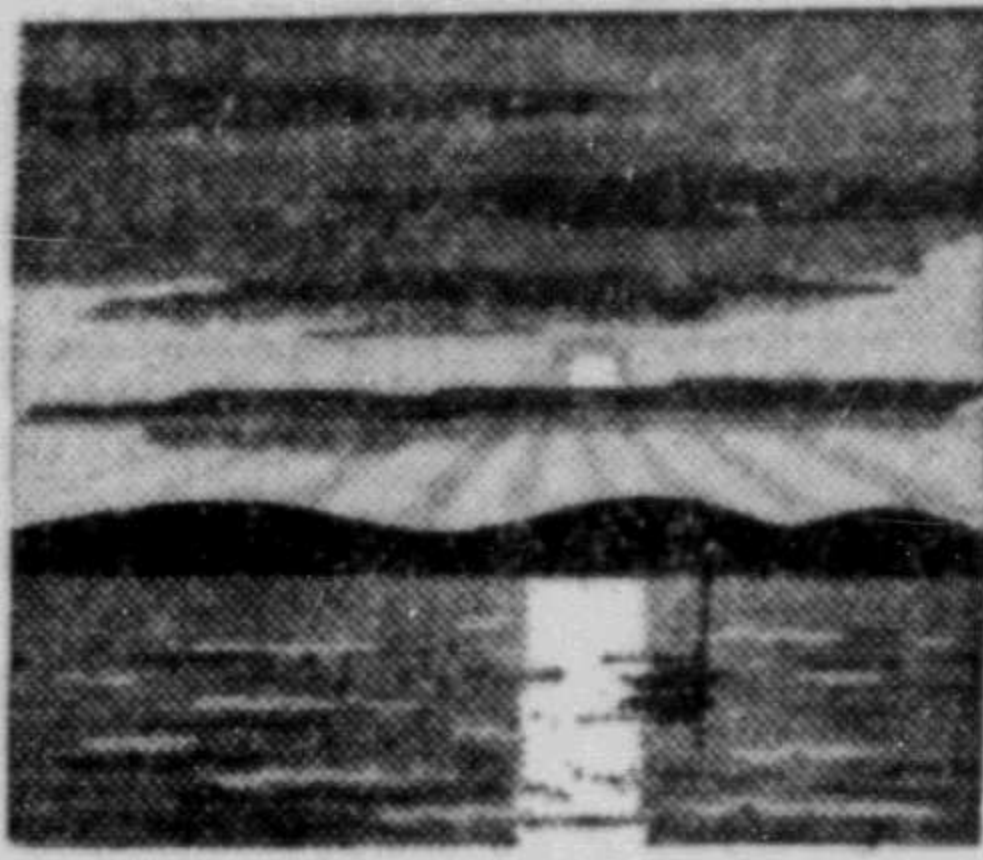

Down comes a jack pine to be cut into six-foot lengths and hauled to rivers. Thousands of logs on ice at Stevens, Ont., await spring thaws which will float them downstream.

United States, and there would be far more were Canada included. There's plenty of water north of the border, and all the boats are not power-driven.

How do you like to hear people saying "hospitalized," "readied," "contacted" or "guys"? No harm done, of course. Easy to pronounce, remember or spell. Yet, one keeps thinking of music, a bit off key.

There has been snow on the British Columbia coast. No one will deny it. But this still remains Canada's evergreen land. The east will continue to think of the Pacific slope as a verdant region where winter air lacks the sting, the breeze is soft, and there's the trickle of rain. And the east won't be wrong.

A young woman who had recently taken charge of a kindergarten entered a trolley car, and as she took a seat, smiled pleasantly at a gentleman sitting opposite her. He raised his hat, but it was evident that he did not recognize her. Realizing her error, she said in tones:

Waterfront -- Whiffs

Port Edward Shipping Herring Oil—Ocean Vessel Coming—Q. C. I. Camps Reopening

An American tanker, under charter to the Frank Waterhouse line, will dock at Port Edward tonight to load a quantity of herring oil for shipment to Vancouver. It is the 162-foot vessel Argo, which will dock at Nelson Bros. herring reduction plant on her first northern trip in Canadian service.

Throughout the winter, the Argo has been in the Waterhouse service carrying similar cargoes from west coast of Vancouver Island points, Ucluelet, Ceepeece and others.

At Port Edward, she will load 80,000 gallons of oil, then proceed back south to Butedale and Kientu where she will take on the balance of her 200,000-gallon capacity.

Manned by an American crew and officers, she will carry a Canadian pilot, Capt. Jack Woods of the Waterhouse line.

The cargo will be delivered to the Lapointe Pier at Vancouver where the various fishing companies have storage tanks.

A cargo of structural steel for the Watson Island pulp plant of the Columbia Cellulose Co. is expected to arrive at Port Edward within the next month or so aboard a Belgian deep sea vessel. The steel will come from the eastern United States.

The Kelchikan fish packer Sydney, Capt. Osmond Hendrickson, arrived in port here Friday to discharge four carloads of frozen fish for rail shipment to the United States market. It was her first trip in more than a week because of the uncertainty of rail transportation out of this port.

Approach of spring is restoring some activity to the Queen Charlotte Islands logging industry. The Union steamer Coquitlam, which docked here at 1 p.m. Friday from Vancouver, carried 50 loggers for Aero Camp, Gamsheva Inlet, which is opening next week. Eight loggers embarked from Prince Rupert to work at the camp. Other camps are expected to open in the near

By ANNE ASHLEY

Q. How can I remove scorched spots from woolen fabrics?

A. This is difficult to do because even light scorching on wool weakens the fibres. Try wetting the scorched spots immediately with glycerine and letting them remain about a half-hour before washing. If fabric is not washable, rub lightly with a piece of white flannel, wrung very dry out of cold water and slightly moistened with glycerine.

Q. How can I make a key turn more easily in a door lock?

A. Try dipping the key in oil, then lock and unlock the door a few times. It will soon turn smoothly. The same treatment can be given an obstinate bolt.

Q. How can I whiten the skin?

A. An application of equal parts of rose water and lemon juice acts as a skin whitener.

audible throughout the car: "Oh! Please excuse me! I mistook you for the father of two of my children."

A A thirteenth of the earth's crust is aluminum. It is found in mountains and gems, in vegetables and clay, in meat and water — practically everywhere.

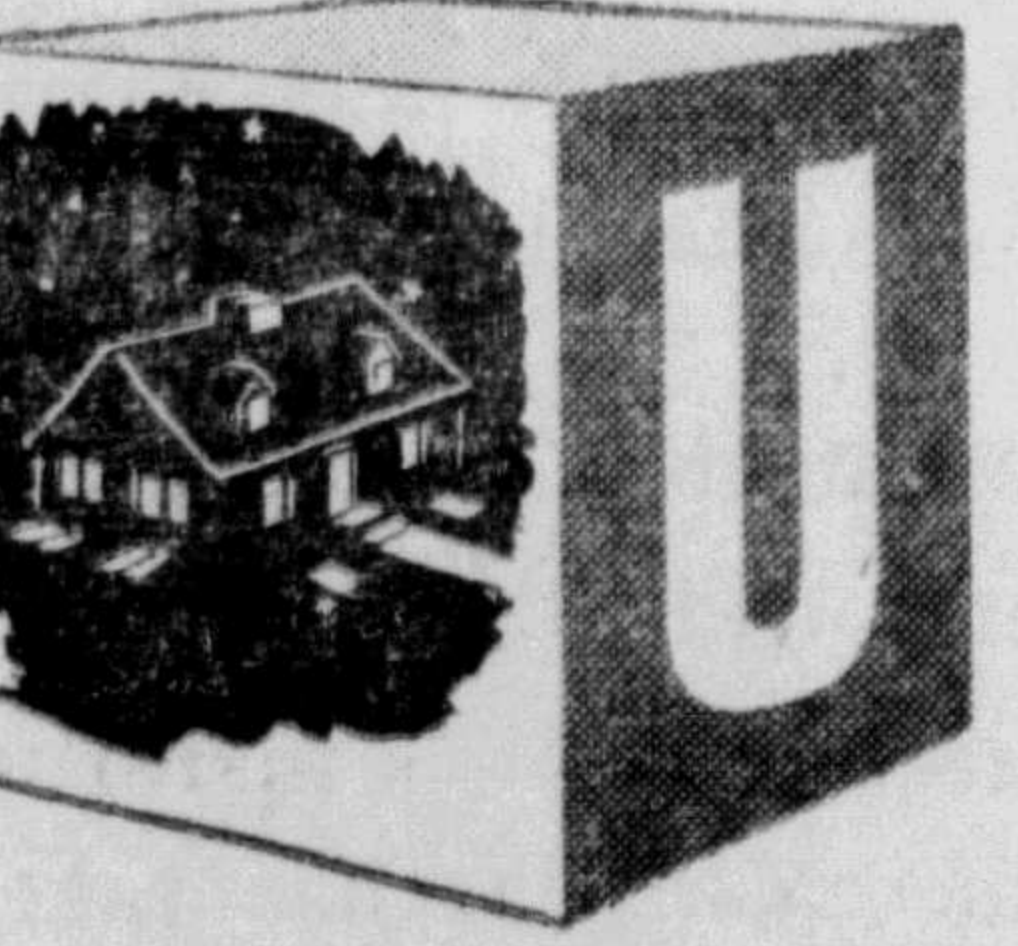

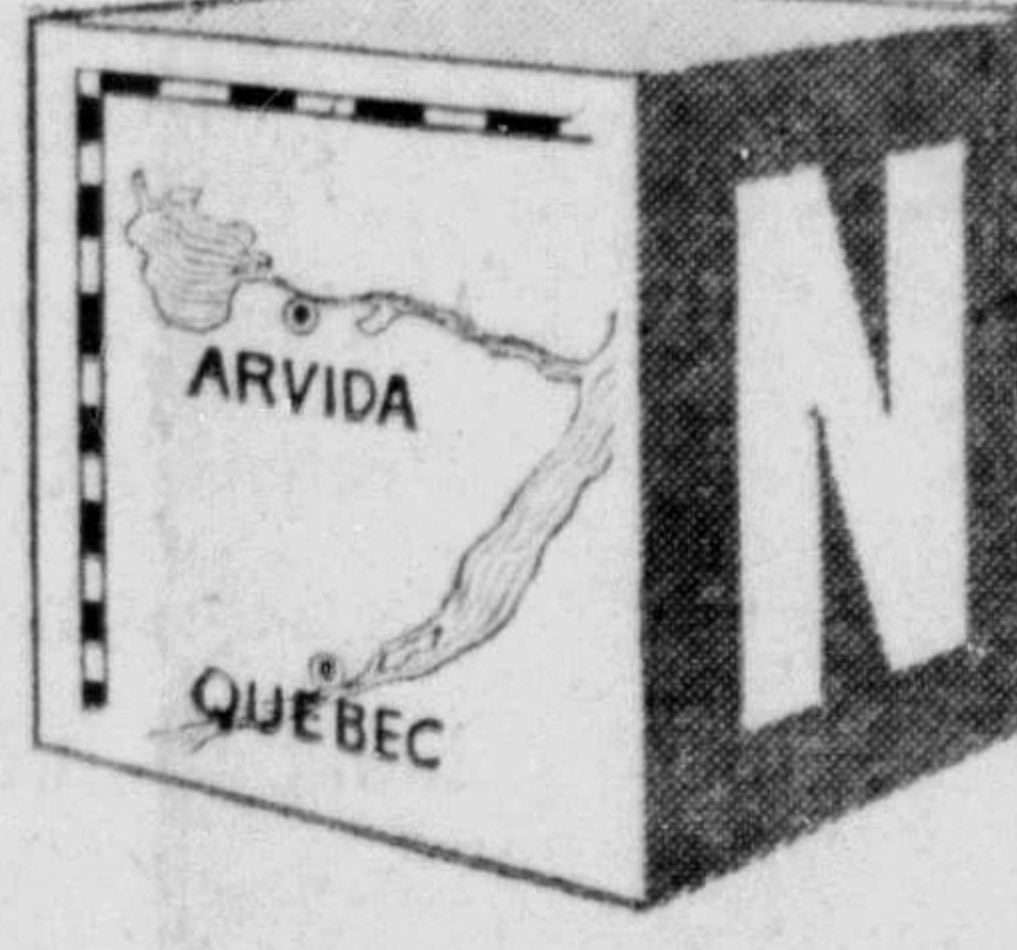

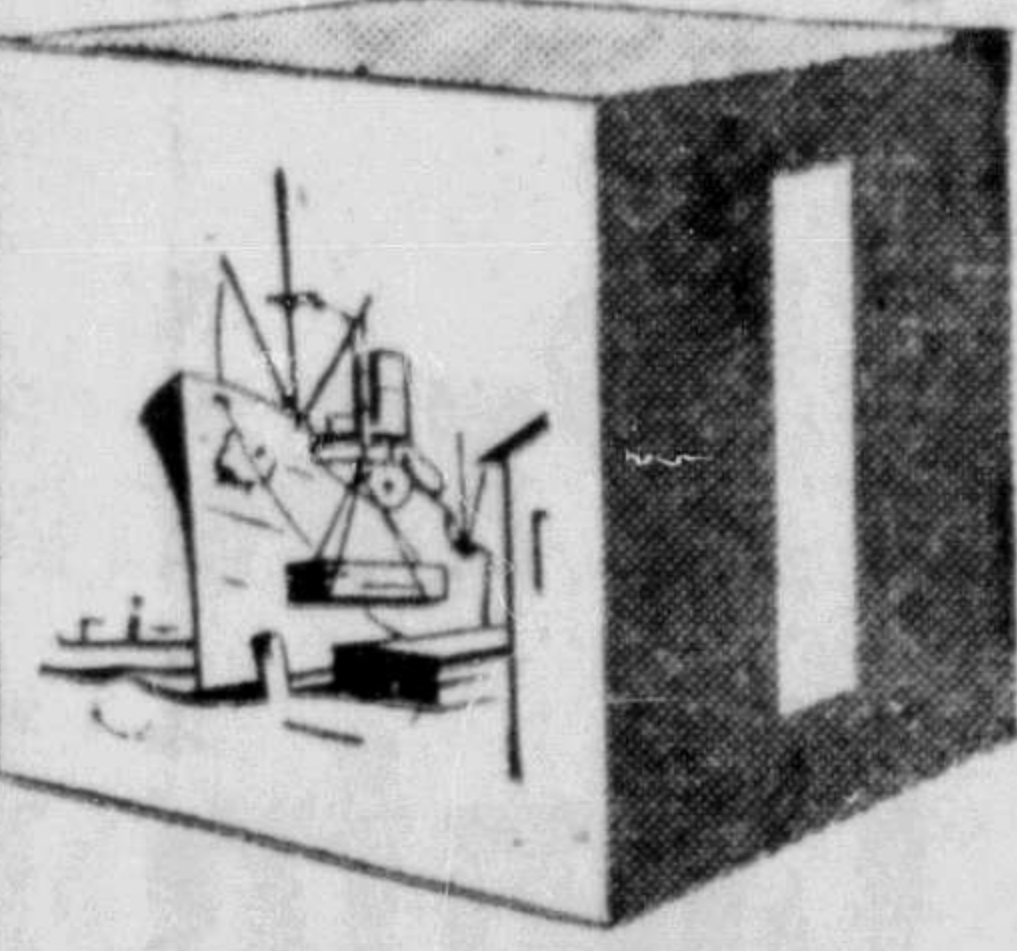

L Long ago the Romans knew it as a salt. They called it "alumen" and used it as a medicine or for dyeing cloth.

U Until the middle 1800's, the metal aluminum was rarer and more costly than gold. Napoleon III had his own personal tableware made of it.

M Modern science found a way to make it cheaper. That is why, today, everybody can buy useful and lasting articles made of aluminum.

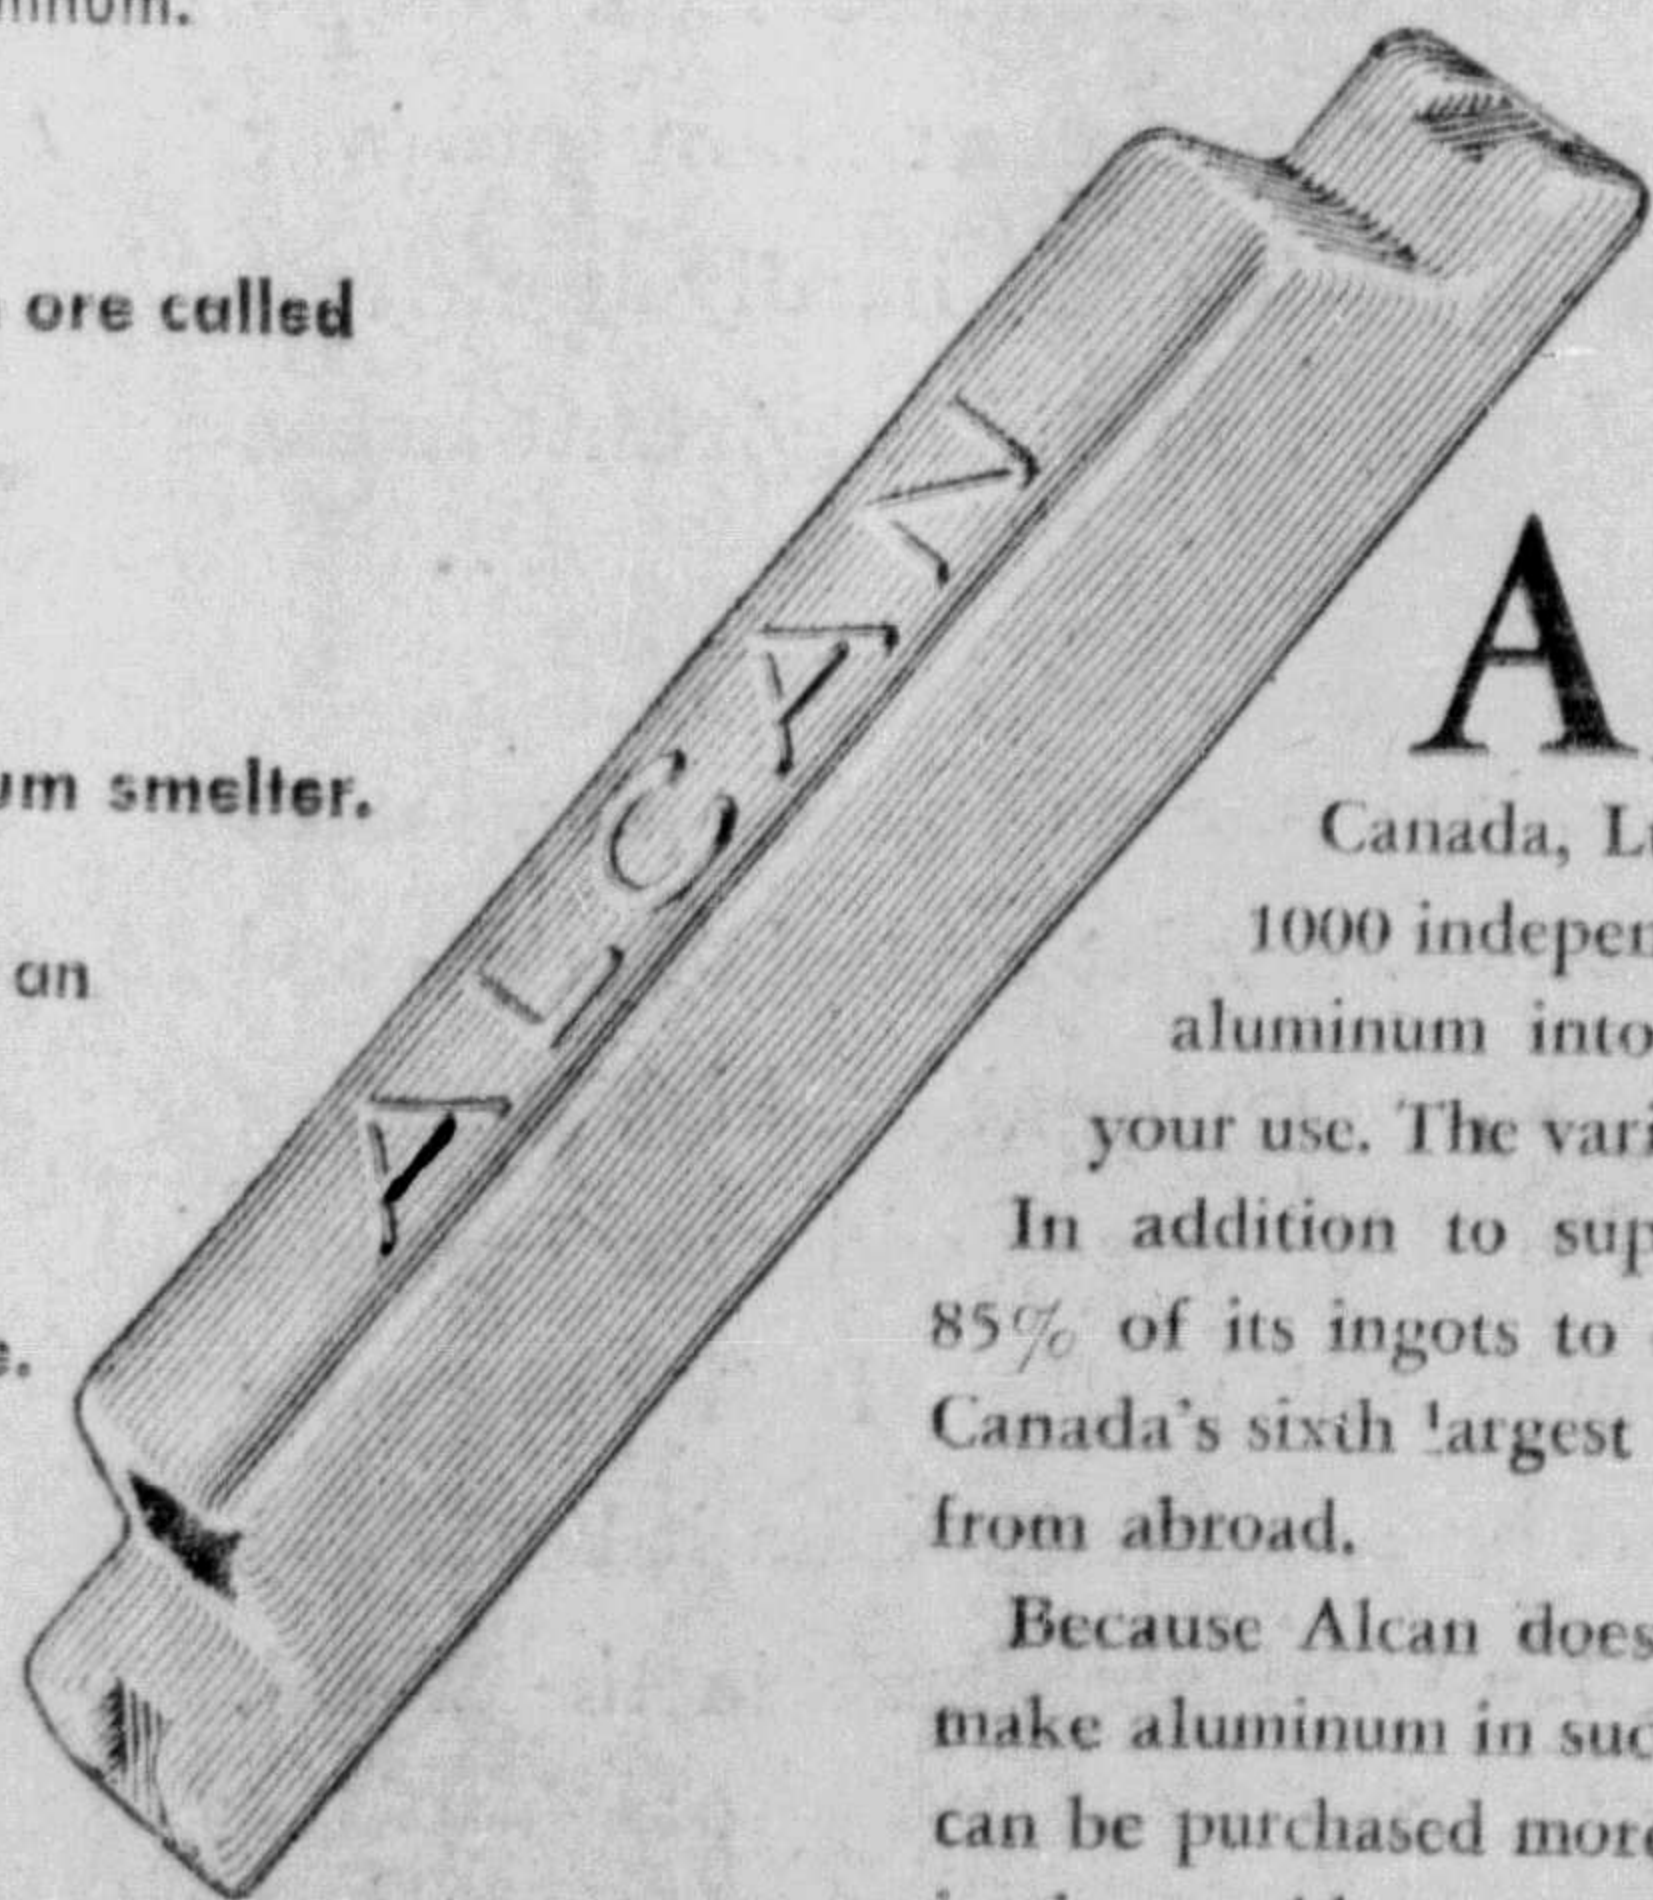

I In Canada we have none of the high-grade aluminum ore called "bauxite". Canadians bring it in by shipload from British Guiana — a voyage of 3000 miles.

N Northeastern Canada has the world's largest aluminum smelter. Alcan built it there, at Arvida. This site was chosen because it is close to both a port for ocean ships bringing bauxite and an abundant source of hydro-electric power.

U Until Alcan harnessed this water power, it ran to waste. Smelting aluminum needs vast supplies of power. The electricity required to produce one ton of aluminum would light your house for fifteen years.

M More than 15,000 people operate this Canadian industry. They earn more than thirty-five million dollars a year. These earnings flow across Canada.

Alcan

(Aluminum Company of Canada, Ltd.) makes aluminum ingots. More than 1000 independent manufacturers across Canada shape aluminum into light, strong, non-rusting articles for your use. The variety grows daily.

In addition to supplying these firms, Alcan sells about 85% of its ingots to other countries. This aluminum is now Canada's sixth largest export, a source of much needed money from abroad.

Because Alcan does market so much abroad, it is able to make aluminum in such large quantities that, in ingot form, it can be purchased more cheaply in Canada than anywhere else in the world.

WOLVES AND DEER
Editor, Daily News:

Lovers of wild life are aware that this winter of heavy snows and low temperatures has made existence for the deer on this coast a very trying ordeal. They were not aware though that provincial government regulations are protecting the lives of wolves who are finding the heavy snow a real ally and wholesale slaughter of deer has been and is going on in and around this district. The writer has seen deer approaching the shoreline driven from the heights by snow and followed closely by the wolves. On a short trip along the shore line beside my cabin I counted 10 partly eaten deer and gory evidence of wanton destruction of life. The writer believes that, were he granted permission to trap these wolves and other like permits were granted persons in a position such as myself, much could be done to re-establish the balance of nature and there would soon be fewer wolves. Thanking you Mr. Editor for this space in your paper.
R. RINGHOLM,
Tucks Inlet.

BLANCHE, N.S. — Reuben Smith and Olsen Perry, local fishermen, while on the job found a gull unable to fly, a mile and a half from shore. Investigation showed it had a muskrat trap attached to its leg.
