Gas Strike Collapses

LONDON (CP)—A 21-day wildcat strike by London gas workers collapsed today under pressure from the Labor government.
A few hours after ten alleged leaders of the walk-out were each sentenced to a month in prison, 1400 decided at a mass meeting to return to work on Monday.
The government had marshaled sailors and soldiers to manage gasworks if necessary.
The gas supplies to 2,000,000 residents of North London were cut off or depleted by the walk-out.
The men are demanding a pay raise of three pence (3½c) an hour.

25,000 Murdered In Korea

South Koreans Moving Ahead

Have Reached Sixty Miles Above 38th Parallel
TOKYO (CP)—Beating down the strongest resistance yet encountered in North Korea, the Korean Republic's third division Thursday seized Changjon, 60 air miles north of the 38th parallel.
United States Eighth Army headquarters estimated that Red infantry division and company of Red marines made a stand three miles south of the east coast town.
Associated Press correspondent William Jordan, with the last moving Republican Third Division, said the town fell to the South Koreans after an all-day fight.
Thirty-five miles south of this deepest penetration of North Korea, the Republican capital division engaged a bypassed force of about 1200 Reds in the hills west of Hwangpo.
First notable show of Red defence came as a United Nations Army of up to 175,000 troops was massing to yank down the iron curtain all along the 38th parallel and wipe out Communist resistance in all Korea.

Invasion Repelled

KARACHI, Pakistan (CP)—Pakistan announced Wednesday that her northern borders had been invaded by a large force of Afghanistans, tribesmen and regular troops. Both countries have been engaged for more than two years in a "little cold war" over Pathanland, a long stretch of barren hills.
Pakistan forces, military and civil, with air support, are reported today to be chasing the Afghan invaders back to their mountain homes. The invaders retreated after a skirmish with Pakistan troops.

MacArthur Forces Are Poised For Knockout Blow In North Korea

LAKE SUCCESS (GP)—The United Nations political committee today overwhelmingly approved an eight-power plan for the uniting and building up of Korea under a stronger United Nations commission. The committee vote was 47 to 5, dissenters being members of the Soviet bloc.
Western leaders rejected efforts for a compromise with an opposing Russian bloc plan. This compromise would have referred the matter to a sub-committee for further study. It was proposed by India which abstained on the final vote.
The plan is taken as giving implied approval for United Nations forces to cross the 38th parallel dividing North and South Korea to put down North Korean aggression.
South Korean forces are already sixty miles above the parallel but American forces are hovering on the frontier awaiting General MacArthur's orders to move when he feels they can strike a knock-out blow.

New Judge Is Heard

Mr. Justice Clyne Talks of Shipping And Shipbuilding
Mr. Justice John V. Clyne, who as the chairman of the Canadian Maritime Commission, planned the rehabilitation of the Canadian shipbuilding and shipping industries following their collapse after World War II, told the Prince Rupert Gyro Club frankly at luncheon yesterday that Prince Rupert was not one of four strategically located places in Canada which had been considered all that could be supported by the amount of government and naval shipbuilding work which there was to be around. Of course, in the event of war, the Prince Rupert yard would, no doubt, become as busy again as it had in the last war and would do as good a job.

Another Sentence On Ernest Jabour

Ernest Jabour was yesterday sentenced in police magistrate's court to 18 months in penitentiary for breach of recognizance. The breach was in respect to a two years' suspended sentence handed down in March when he was convicted of retaining stolen property. He was bound to keep the peace during the two year period. His conviction Tuesday in Supreme Court Assizes on a charge of supplying hot water and castle soap, knowing such were to be used to bring about an illegal miscarriage constituted the breach of recognizance.

United States Mine Sweeper Is Sunk By Mine Off Korean Coast

WASHINGTON, (CP)—The Navy announced today the mine sweeper Magpie has been sunk by a floating mine near North Korea. Twenty-one men are missing. It was the third ship to hit a mine in North Korean waters. Two destroyers, the Brush and Mansfield, were damaged by earlier collisions with mines, and 11 men on the Brush were lost.
The Magpie hit the mine Sunday near the city of Chouksan-Dong. Twelve survivors were picked up by a sister ship. The 136-foot, wooden hulled Magpie sank about two miles offshore. The commanding officer, Lt. (J.G.) Warren R. Person, is among the missing.

Native Acquitted— Says Police Abused Him

Accused Makes Charges at Assize Court Trial Here
Tommy Mitchell of Moricetown is a free man.
It took the Assize Court jury 25 minutes to weigh the evidence brought out by the Crown and the defence in the case against Tommy Mitchell, charged with assaulting a peace officer while lawfully engaged in the execution of his duty. The verdict was "not guilty." J. T. Harvey was defence counsel, R. M. MacLeod prosecuted.
Other constables following Edmund Corson, alleged to have been assaulted, gave evidence that accused had attacked Corson. Two Indians, the Pete brothers, were also heard.
Accused, in giving evidence on his own behalf, denied he had struck the constable. On the other hand, he said the constable had attacked him on several occasions. He said he had cursed the police for arresting his son and at John Brown Creek he had been thrown from the police car onto his face and Corson had beat him over the head with a flashlight and he had put up his right arm to ward off the blows. He was later thrown back into the car and a little farther down the road he was again thrown out of the car and handcuffs put on him with his hands behind his back. He was thrown back into the car. He kept telling the police he had a broken arm, he said, but they paid no attention to him.
When they arrived at the jail at Smithers he again asked for medical attention, he said, for a broken arm. The police did not reply. He was bleeding about the face and head, he continued. He was thrown in the cell and, then breakfast was brought to him the following morning, he said he again asked for medical attention for a broken arm. He was told to wash his face.
When he came up for trial that morning, he pleaded guilty to a charge of having liquor in his possession and fined \$75 and costs, but "not guilty" to a charge of assaulting a police officer. He was remanded for trial and taken back to the cells. There, he said, Corson had advised him to plead guilty, that his sentence would probably be lighter if he threw himself on the mercy of the court. He said he refused. He then asked to go before the magistrate again. There he refused again to plead guilty, he said. Bail was set at \$50. When he was returned to the cells again, Corson again suggested he plead guilty so that he would receive a lighter sentence. He refused. Corson asked him not to mention to anyone, he continued, that he had suggested pleading guilty.
He said that from time to time he had asked for medical attention. It was not until about 5 p.m. that he was taken to a doctor, who had him removed to hospital and his arm set in a cast. There also the wounds on his head were treated by a nurse. He was put in custody for about three days and not allowed to use the telephone, he said, to get in touch with a company that was holding sufficient of his money to pay his fine and his bail. He finally got word out through a man who was visiting another prisoner and was released shortly after.
On cross-examination, he cal-

Demonstrators Stop All Traffic

VIENNA (CP)—Communist demonstrators halted all rail traffic in and out of Vienna today. The federal railway administration said no trains are running into or from the Austrian capital in any direction. Crowds of shouting Communists, apparently angry over the failure of the general strike call yesterday, initiated the blockade of both rail and road traffic. Police, despite Russian orders not to interfere, tried unsuccessfully to stop the demonstrators.

Autopsy and Inquest Coming

There will be an autopsy today on the remains of Arthur Jennings, 56, whose body was found floating yesterday in the harbor near Prince Rupert Drydock. An inquest into his death will be held tomorrow at a time not yet made known.
Mr. Jennings, cook on the fisheries patrol craft Arrow Post, was popular among his associates. He was described by Capt. McColl of the Arrow Post today as being a good shipmate and a very good cook. With the department on and off since 1946, he was away for a while in Vancouver and rejoined the boat here last spring.
Born at Pemroke, Ontario, Mr. Jennings was a veteran of the first and second world wars. He was sergeant in the last war. He is believed to be survived by a sister in Olympia, Washington.

FOR SAFETY—British Columbia is the first province to install the new Danish-designed guard rail way safety. The concrete rail is curved so cars can't go through nor over. First installation is at the approach to the bridge on Vancouver Island's scenic Malahat Drive. District engineer, right, inspects the rail with W. S. [Name], the company which built it. (CP PHOTO)

DiMaggio Breaks Up Battle With Homer

DiMaggio breaks up battle with Homer in ninth inning finish.
New York Yankees 2, Philadelphia Phillies 1.
The Yankees broke through the Phillies' defense in the ninth inning to win the game. DiMaggio hit a home run in the bottom of the ninth to give the Yankees a 2-1 victory. The game was a close one, with the Yankees leading 1-0 in the eighth and 2-0 in the ninth. The Phillies' pitcher, Grover Cleveland Alexander, pitched a strong game, but was unable to hold the lead. The Yankees' pitcher, Alvin Dark, pitched well, but was unable to hold the lead. The game was a classic example of the Yankees' ability to win close games.

Vancouver Has Bank Robbery

VANCOUVER (CP)—Police reported no progress today in the hunt for three bandits who yesterday robbed the branch of the Royal Bank of Canada at First Avenue and Renfrew Street of \$2500.
Meantime, detectives, acting on a woman's tip, believed today that they had cracked the \$4700 hold-up of the Canada Packers payroll office last Thursday. Donald Olsen, aged 29, is charged with robbery with violence and a pick-up order has been issued for two companions. The police report \$900 of the loot recovered.

THE WEATHER

Synopsis
Another surge of Pacific air has moved inland over the Washington and southern British Columbia Coast but the main centre of low pressure remains offshore. More than an inch of rain fell on the west coast of Vancouver Island in the past 24 hours and slightly more than three-quarters was measured at Vancouver Airport overnight. Temperatures stayed well above freezing in all regions of the province. Afternoon temperatures will range from 50 to 60 degrees. Somewhat unsettled weather will persist during the next 24 to 48 hours but the continuous rain will decrease to widely scattered showers during the afternoon.
Forecast
North Coast Region—Cloudy over the northern mainland today and Friday. Cloudy with scattered showers over the Queen Charlottes and northern Vancouver Island. Little change in temperature. Winds southerly (15) in the exposed areas and light elsewhere. Lows tonight and highs Friday— at Port Hardy and Sandspit, 45 and 50, Prince Rupert, 45 and 55.

Morrison is For Caution

MARGATE, England (CP)—Deputy Prime Minister Herbert Morrison urged Britain's Labor party yesterday to follow a go-slow policy but pledged it to carry out more state ownership plans.
Morrison, who is also the party's election strategist, specifically listed sugar and cement industries and industrial life insurance concerns to be taken over.
He declined, however, to say when these will be socialized.
"We do not think it wise at this time to commit the party to a time-table of nationalization," Morrison told the party's annual conference.
Morrison urged discipline both in unions and the rest of the country.
He called upon the people to "sacrifice material things for the good of the community" and promised that material gains would come "in time."

Defence Rumors Are Heard Here

Notices received recently by some residents of Eleventh Avenue that their property might be required by the federal government, presumably in connection with defence plans, were heard at the regular monthly meeting of the Prince Rupert Chamber of Commerce. W. H. Crocker of Prince George, who was present, told the meeting that similar notices were received from time to time there but they were considered of more or less routine matter.
Another rumor heard at the meeting was that the Canadian Fishing Co. might not be moving its cannery from Carlisle to the ocean dock here. However, there seemed to be no basis in fact for such a report since the plant was already in process of being removed to the city.

Chief Steward Is Retiring

Ship and shore associates of Chief Steward Alexander M. Drummond of the Canadian National steamer Prince George honored him on Monday in Vancouver at a presentation ceremony in the ship's ballroom to mark his forthcoming retirement after a marine career which commenced in 1902.
The popular "Chief" received an engraved silver tray and purse and a pearl necklace for his wife from his co-workers. Presentations were made by G. A. MacMillan, superintendent CNSS.
A native of Edinburgh, "Alex" Drummond has literally sailed the seven seas with various lines. He joined CNSS as chief steward on the "Canadian Observer" in 1923, subsequently working on many other Canadian National passenger vessels servicing B.C. and Alaska ports. Mr. Drummond became chief steward of s.s. Prince George two years ago.
His lengthy catering experience will be put to good use ashore when he moves to Williams Lake in the Cariboo where he and Mrs. Drummond will operate "Drummond Lodge," a small hotel in that district.

Newfie M.L.A. Is Expelled

ST. JOHN'S, Newfoundland (CP)—Premier Joseph Smallwood yesterday expelled Samuel Drover, member of the legislature for White Bay, from the Liberal party for "inexcusable violation of party discipline."
Drover charged the government with "gross neglect" of his district. He is now expected to sit as an independent.
This would leave the standing in the legislature at:
Liberals 31
Progressive Conservatives 5
Independents 2

Rail Flier Hits Tanker

ERIE, Pa. (CP)—A New York Central railroad flier, clipping along at better than a mile a minute, smashed into a derailed oil tank car today, setting off an explosion which rocked Mid-Two Erie. No one was killed, but between 40 and 50 were injured. The tank car was hurled into the path of the express train from a freight train travelling on a parallel track.

Chilean Coal Mine Disaster

SANTIAGO, Chile (CP)—Thirty-two coal miners were killed and five injured today in a gas explosion in Pique Grande mine at Lota, Concepcion Province. The mine workings extend under the ocean floor. The blast went off at a point beneath the South Pacific.

The U.S. Warehouse

PRINCE RUPERT will be the poorer, with the warehouse dismantled and shipped to Edmonton as lumber. An important facility will be removed from a port which is on the eve of great development. The city will be back to where it was seven years ago.

It is possible demolition will be cancelled. But every day sees the great building being further reduced. If this is to be halted, then immediate and strong action must be taken.

Granting the warehouse has plenty of room to spare, that admission does not in the least degree, excuse its sale, and transfer to the Alberta city. Here it was built, and here it should remain, and this holds good even if there was no such thing as a disturbed world situation. Eventually, an asset of such major value and usefulness would, in some way, be taken full advantage of. The beginning might be of small or minor moment, but it would at least be a start, and increase in scope as Prince Rupert's business and influence expanded.

Who knows what was in mind when this mammoth warehouse was planned, or that it was being erected just as much for 1950 as for 1943? It is common knowledge that when the Americans first saw Prince Rupert they were agreeably surprised with the strategic position of the port. They might be astounded to be told that this masterly example of their handiwork only a few short years ago, is today being torn down because Edmonton wants some lumber.

There is large scale business just ahead at Prince Rupert. Early in the New Year, the cellulose industry will open. The aluminum enterprise, which means the spending of scores of millions, will be in this district, if indications mean anything.

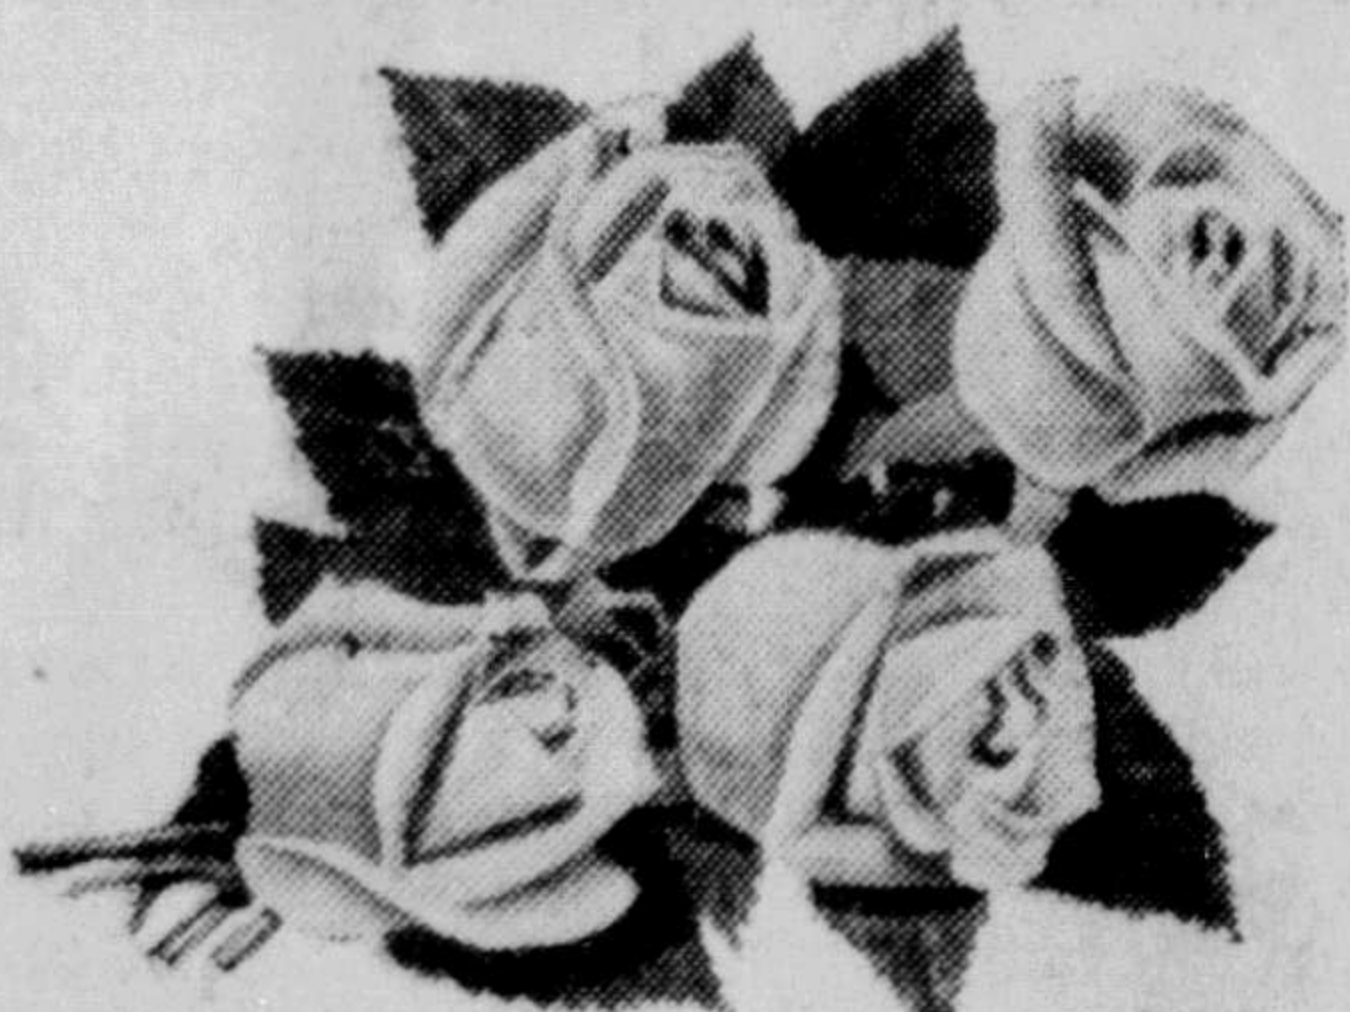

The trend is all on a large scale, and in keeping with the size of the warehouse, immense as it is.

None can deny that today, the possibility of war broods over the earth. There is certainly a threat touching the islands and the lands bordering the Pacific. All countries, if they have defences, are making the most of them. While a warehouse, such as the one at Prince Rupert, cannot be called a weapon, it nevertheless comes within the meaning of defence.

As I See It

By ELMORE PHILPOTT U.S.-Canada Merger

NOT LONG AGO I was asked to assist at an international gathering of the Y.M.C.A. clubs. The Phalanx and Wiseman groups of this part of the continent were having their annual get-together.

My job was to act as consultant for one of the five discussion groups. Our topic was "Should the United States and Canada be one country?" About 18 young chaps took part. They were about equally divided between the U.S. and Canada. There was one keen young Canadian in Active Army uniform and one bright young man of Chinese race. The Chairman and Secretary were from Everett, Washington.

I WAS A BIT nervous about this topic before we got under way—and wondered whether it would end in a pitched battle with the Americans all saying "yes" and the Canucks saying "no".

Actually I have never been in a more helpful discussion group. Instead of debating the question and simply hearing arguments pro and con we proceeded by quite a different technique.

The group as a whole decided simply to list the greatest probable advantages or difficulties. By this method we by-passed any possibility of a pitched battle.

We agreed in the first instance not to discuss each point at length, but simply decide whether to list it or not. Then we went over the points one by one and anybody who wanted to comment did so.

THERE WAS NO hard and fast record kept of the discussion and no attempt was made to come to any conclusions. But the group agreed that the following were the main possible advantages of an out and out union between the U.S.A. and Canada.

Greater military security.
 Free trade in products and the movement of people would be a benefit, especially to Canada. The lines of intercourse would run naturally, more north and south than east to west.
 One money would end exchange troubles.
 Saving on cost of governments and number at border customs points etc.

THE MAIN DISADVANTAGES were listed:

Canadians would regret to lose their national identity and British Commonwealth connection and feel a sense of failure if merely absorbed into U.S.A.

French Canadians would probably resist and resent this even more than English-speaking Canadians. As a minority of about three million in a sea of English speaking people of about 163 millions their political influence would be very minor, compared with the present in Canada.

Increased military power which would result from an outright merger might be offset by increasing the danger of world

Defences Of Prince Rupert

Local Warehouse Mentioned in Article

In American Magazines
 Howard Green, M.P. (PC) broadcasting from Prince Rupert has been calling attention to the necessity of greater defence measures in Northern British Columbia according to New Liberty magazine.

Mr. Green, and other members, it says, are planning to blow a whistle on defence in the north as soon as the Federal Parliament convenes which will be early in the New Year.

This, the New Liberty goes on to say, will fit in neatly with what it calls an "expose" by

war. If Canada were annexed to U.S.A. would not Russia's answer be the outright annexation of all the countries in eastern Europe?

SOME DECLARED that a better answer than a U.S.-Canada merger would be a federation of all western democracies.

In that way, they argued we could get all the economical and military advantages of annexation to U.S.A. without any of the disadvantages.

Leslie Roberts, in Colliers concerning Prince Rupert and Alaska airdromes.

In the reference to Prince Rupert, the writer tells about the huge warehouse and other installations put in by the United States army during the second world war.

Liberty says "the millions in work and material at Prince Rupert, the warehouse, staging areas, plus the ancillary things that go with these installations have either been sold at five cents on the dollar by War Assets, or are falling apart."

The Prince Rupert Chamber of Commerce and the Daily News have been campaigning for a long time for retention of the warehouse air field development and other matters which would fit into the defence picture at Prince Rupert.

SHIPPING

Mr. Justice Clyne then turned to the subject of Canadian shipping industry. During the war Canada had become the fourth largest shipping nation in the world.

After the war the government had disposed of a fleet which had cost \$270,000,000 for \$200,000,000 and had created a ship-

ping industry. However, it became impossible to compete with Canadian operated ships at a cost of \$800 per day compared with \$400 for United Kingdom ships.

Factors which His Lordship gave as causing "the axe to fall" had been devaluation and the strike of seamen with their Communist-dominated organization which had tied up Canadian ships throughout the world.

Here, the judge said in passing, was an illustration of the methods which Communists had, were and would adopt.

Now Canada was faced with the laying-up of 200 ships with a loss of employment and money invested in ships and there was still the object of maintaining the shipping industry in national defence.

The solution of the problem had been reached in the conversion of Canadian ships to the United Kingdom flag, something to be regretted but which appeared to be the only alternative.

The speaker described the arrangement for the pooling of earnings and division of disbursements under existing exchange conditions as the operation of ships continued.

Under the Atlantic Pact, the ships were available to the requirements of the member nations in peace or war according to their requirements.

President A. J. Dominato was in the chair and the speaker was introduced by G. A. Hunter and thanked by W. J. Scott. Congratulations were extended on his elevation to the bench and welcome back to Prince Rupert expressed. (His Lordship started out in the practice of the legal profession here twenty-three years ago.)

Luncheon guests were Al Lucas of Vancouver, H. G. Perry of Prince George, T. W. Brown, K.C., J. T. Harvey and George Cook.

Men Hosts at Church Dinner

An enjoyable dinner meeting of First Presbyterian Church congregation was held in the church hall last evening.

The dinner had been prepared by the men while the ladies of the congregation had been invited as special guests. Many were the favorable remarks of the culinary capabilities of the men.

After the dinner community singing was enjoyed and interesting moving pictures were shown by Dr. Duncan Black.

This was followed by the general business of the evening with

reports of the renovation and painting of the church and manse being received and discussed.

An inspiring address was delivered by Rev. Dr. E. A. Wright, the minister, who urged all Presbyterians to get behind the work at hand. He declared that he and Mrs. Wright were very happy to be here and a lot of good work could be done if all would do their part.

A formal call was then presented to Dr. Wright, this call being unanimously endorsed by all present.

Gordon Fraser had arranged the decorations, and flowers for the tables, and all looked very attractive. George Murray acted as chair-

Customs Revenue Is Up This Year

HOUSEKEEPING

AUTUMN DESSERTS TAKING PLACE ON MENU AS WEATHER GETS COOL

AUTUMN DESSERTS
There are some people who are satisfied with a meal which has no sweet to top it off, but they are unusual. Most homemakers are greeted daily by the homecoming members of their families with the cry, 'What's for dessert?'

With cooler weather the heavier desserts such as hot batter puddings and pastries take their place on the menu again. Custards and light fluffy dessert are acceptable all year round particularly for the children.

Home economists have several rather new ideas for cool weather desserts.

Snowball Pudding
1/3 cup shortening
2/3 cup sugar
1/2 teaspoon almond extract
1 1/2 cup sifted pastry flour
1/2 teaspoon salt
1 1/2 teaspoons baking powder
1/2 cup milk
3 egg whites
1/3 cup sugar

Cream shortening with the 2/3 cup of sugar. Add flavoring. Mix and sift flour, salt and baking powder and add alternately with milk to the creamed mixture. Make a meringue of egg whites and the 1/2 cup sugar and fold into batter. Fill individual greased moulds 2/3 full. Cover tightly with waxed or brown paper, and steam 1/2 hour. Serve hot with fruit sauce. Yield 8 individual moulds.

Apple Pancakes
1 cup sifted all-purpose flour
1/2 teaspoon soda
1 1/4 tablespoons sugar
1/2 teaspoon salt
1 cup buttermilk
2 tablespoons shortening, melted
1 egg
1/2 cup raw apple, peeled and grated.

Mix and sift flour, soda, sugar and salt. Add buttermilk and melted shortening to well-beaten eggs and stir quickly into dry ingredients, mixing until smooth. Stir in grated apple. Drop by spoonfuls on hot griddle or lightly-greased frying pan. Cook until bubbles form on the top and

edges are cooked. Turn and cook on the other side. Serve immediately. Yield: 12 medium sized (4-inch) pancakes. Note: 1/2 cup sweet milk plus 2 tablespoons white vinegar may be substituted for 1 cup buttermilk.

Squash Pudding
2 cups cooked, sliced squash
2 cup milk
2 eggs
3/4 cup brown sugar
2 tablespoons melted butter
1/4 teaspoon ginger
1/2 teaspoon cinnamon
1/2 teaspoon nutmeg
1/2 teaspoon salt
1/2 cup raisins

Mix squash with milk, strain, add well-beaten eggs, sugar, melted butter, spices, salt and raisins. Beat well. Pour into greased baking dish, set in pan of hot water and oven-poach in a moderate oven 350 Degrees F., for 35 minutes. Chill. Yield: six servings.

for Contented Babies

"A Prescription from My Doctor"
"No wonder I'm healthy and contented! My Carnation Milk is nourishing as milk can be; easily digested because it is homogenized and heat-refined; it has 400 units of "sunshine" vitamin D in every pint. Mother knows it is safe, because Carnation is sterilized after it is sealed in its air-tight can; and a Carnation formula is so easy to prepare. Ask your doctor about a Carnation formula for your baby. Carnation is the milk every doctor knows."

Extra Body-Building Benefits for Children of All Ages
AFTER BABY'S bottle days, no need to change from the milk the doctor recommends. For "creaming" cereals and desserts, children love the flavor of undiluted Carnation—and it has twice the food value of an equal amount of bottled milk.
FOR DRINKING, making cocoa or cooking, dilute Carnation with an equal amount of water for a milk of extra smoothness and rich flavor.

Fiery, Itching Tyes and Feet

Here is a clean, stainless antiseptic oil that will do more to help you get rid of your trouble than anything you've ever used.
Its action is so powerfully penetrating that the itching is quickly stopped, and in a short time you are rid of that bothersome, fiery torture. The same is true of Barber's Itch, Salt Rheum, Eczema—other irritating unsightly skin troubles.
You can obtain Moone's Emerald Oil in the original bottle at Ormes Drugs or any modern drug store. It is safe to use—and failure in any of these ailments is rare indeed.

Blackwood On Bridge
By Easley Blackwood

At rubber bridge you simply cannot evaluate the bidding and play of each hand as a separate entity—with the possible exception of the very first hand dealt in a particular session. Every subsequent hand is influenced by the "history" of the game—the varying results of previous deals and their effect upon the score and upon the players themselves.

In today's hand my friend Mrs. Keen continues her initiation into rubber bridge play. Yesterday having a partial score of 60, she doubled a rash opponent who attempted to save the game by overcalling her two spade club with three clubs. That netted her 500 points.

Partial scores not only drive your opponents into sometimes very disastrous contracts, but their advantages go on from there. After taking several bad sets the enemy's morale is often lowered to the extent that they will tighten up, missing profitable partials and even games of their own.

Mrs. Keen was East and dealer in hand shown today. Her hand is a minimum but a perfectly proper opening bid especially with so many cards in the majors. She bid a spade to which her partner Mr. Masters correctly responded with one no trump. Now Mr. Abel, with the history of the previous hand fresh in his memory, did not relish the possibility of another 500 set or worse. He passed and then Mrs. Keen bid two hearts. Mr. Dale had no chance to get into the bidding on his meager holding, and two hearts was made the contract, which was made an overtrick.

Take another look at the North-South cards. With the favorable location of the ace of spades and the queen of clubs, Mr. Abel could have made five

1 cup sifted Swans Down Cake Flour
1/4 tsp. salt
1/2 tsp. grated lemon rind
1/4 tsp. mace
2/3 cups sugar
2 eggs, unbeaten
2 tspns. shortening
1 1/2 cups hot milk

Beat eggs with rotary egg beater until they are foamy. Add sugar gradually, beating constantly until very thick and shortening is beat in. Add all flour and lemon rind and beat with rotary egg beater until smooth. Turn into saued, which have pat-
tern deep, which has been lined on bottom with paper, but not
cake in moderate oven (375 deg. F.) about 15 minutes. Cool in
half spread whipped cream or custard filling between
slices and spread sugar over top of cake.

Wednesday's Game — Epic Battle Of Hurlers

PHILADELPHIA — Vic Raschi, big New York Yankee fireballer, bested amazing Jim Konstanty of Philadelphia Phillies Wednesday in a brilliant pitching duel as the American League champions scored a 1 to 0 victory in the World Series opener. Fogging his fast one down the middle in the clutches, Raschi sent the young Phils down on two hits—both singles—and didn't allow any opponent to reach third. He struck out five and walked one.

Konstanty, starting his first game since 1948 and his first in the Big Leagues since 1946, was almost as good as Raschi, his control and "stuff" allowing the Yankees only four hits. Russ Meyer relieved him in the eighth when Konstanty was yanked for a pinch hitter and allowed only one hit the rest of the way.

The damage came in the fourth when lead-off batter, Bobby Brown, third baseman, doubled. Hank Bauer drove deep to centre when Ritchie Ashburn had to catch over his shoulder on the run and Brown went to third. Gerry Coleman lifted one out to left for the second out but Brown scored easily on the throw-in. That was the game.

Konstanty was in trouble in the first inning on a walk and jingle but got the Yank's big shots out easily.

In the third Raschi singled. Gene Woodling walked and moved to second and third on a sacrifice but Konstanty again got heavy-hitting Yogi Berra, Joe DiMaggio and Johnny Mize to fly or foul out. He walked six and struck out one.

With one out in the fifth, Willie Jones got his first hit through the box past Raschi and Andy Semenk, with two out, moved him to second on a solid single. But Mike Goliat fanned.

Konstanty's appearance had been much as a surprise because, although he holds the modern record, made this year, of appearing in 74 games as a star reliever, he was not expected to start.

PERSONALS

Mr. and Mrs. W. B. George, who have been spending the summer at Stewart where Mr. George has been interested in mining since the early days, are sailing by the Prince George tonight on their return to Victoria.

G. S. Lindsay, general baggage agent, Canadian National Railways, Winnipeg, and J. R. McGuire, travelling baggage agent, Vancouver, arrived in the city on the Prince George yesterday from the south. They are making the round trip to Kelchikan today and will be back this evening southbound.

Appreciation to Allan Armstrong and W. M. Watts for their representation of the Prince Rupert Chamber of Commerce at the recent convention of the Associated Boards of Trade of

Criminal Cases Now Concluded

Charged separately, Simon Muldoe and Clarence Wells, both natives from Hazelton, both pleaded guilty at Supreme Court Assizes today to charges of receiving one case of beef, knowing same to have been stolen.

Each was fined \$50, and the pair were ordered to pay \$29.75, the value of the stolen goods. Both fines and the damages were paid.

T. W. Brown prosecuted in both cases. Darrall S. Collins defended Muldoe. R. M. MacLeod defended Wells.

As these cases concluded the criminal docket for the court, Mr. Justice Clyne dismissed the jury. In doing so, he thanked them on behalf of the Crown for their services and the sacrifices they had made from their regular activities.

The Assize is now proceeding with civil work.

The ancient typewriter in the office of the secretary of the Prince Rupert Chamber of Commerce is at last to be replaced. The Chamber, at its meeting Monday night, authorized the purchase of a new machine from McRae Bros., who offered a substantial trade-in allowance for the old one.
