New Deal For Canadian Indians Proposed

Scrapping Of Present Act Urged

NATIVES SHOULD BE REGARDED AS HUMAN BEINGS—"CITIZENS" NOT "WARDS"

OTTAWA (CP)—Parliament's Indian Affairs committee recommended today that the 68-year-old Indian Act be virtually scrapped. A proposed new Act is "based on the proposition that an Indian is a human being entitled to certain rights and freedoms according to 1948 conceptions." The bill urges gradual transition of the Indian from the status of wardship to citizenship.

The committee recommended that every section of the present Act be either repealed or amended.

Among other things it is recommended that Indian children be educated with "other Canadians."

Bulletins

TUG WIRELESS LOST
VANCOUVER—The tug Wireless, well known in Prince Rupert, burned and sank in Jervis Inlet. The crew of six made their escape in a lifeboat.

MAYOR MURDERED
MONTREAL—Mayor John Paul Cardinal of Montreal North was shot to death in the Diamond Taxi Co. office by a taxi driver who took his own life. There had been an altercation. Cardinal was secretary of the taxi company.

SALES TAX SOON
VICTORIA—Canadian Press says that the provincial government will proclaim the next three percent sales tax to become effective July 1.

Cattle Rustling Latest Trouble In Flood-Stricken Fraser Valley

VANCOUVER, (CP)—Army authorities controlling flooded Fraser River districts have a new worry—cattle rustling. All roads leading to the flood districts are now under guard against modern rustlers who have feroceous horses for trucks and cars.

Soldiers and police patrols are stationed along strategic highways and feed lots where hundreds of cattle have been herded since the early days of the flood.

But the soldiers are unarmed and as one soldier on road guard said: "Suppose a truck roars past us, what can we do? We sure look stupid waving our

Republicans Have Drawn Platform To Please All

Possibility of Returning of Fisheries Station Discussion

Little encouragement was given the Prince Rupert Chamber of Commerce, in conference with the Fisheries Research Board of Canada today, in its case for the re-establishment of a branch fisheries research station at Prince Rupert. Dr. J. R. Dymond O.B.E. of Toronto, vice-chairman of the board, acting as spokesman in the absence of the chairman, Dr. G. B. Reid O.B.E. of Kingston, told a delegation of the Chamber that, in view of the limitations of appropriated funds and available personnel, it was felt that the coast could be better served as a whole from the central technological station now established at Vancouver and the biological station at Nanaimo. However, he expressed the anxious desire of the Board to serve the interests of this as well as all other areas to the best possible advantage and gave assurance that the fullest efforts would be made in the way of further research with a view to extending the utilization of the fisheries resources of this area.

FIRST TRAIN SINCE FLOOD FOR JASPER

First train to leave Prince Rupert for Jasper in a month cleared the Canadian National Railways depot this morning after section crews and extra gangs had finally linked flood-broken tracks two weeks after the swollen Skeena and Bulkley Rivers subsided.

The passenger train left Prince Rupert at 8 o'clock this morning bearing an additional three cars of fresh fish, first to be shipped from here since May 21.

Tomorrow morning the first train to arrive from Jasper since May 22 is due to arrive at the station at 1:05, an hour and 20 minutes behind its scheduled arrival time.

Track crews, working to complete a bridge at Shames, were expected to finish the job at 2 o'clock this afternoon in time to allow the eastbound train to pass, it was announced at Superintendent C. A. Berner's office.

Last train to arrive at Jasper from Prince Rupert left here on Friday, May 21, while the last incoming train was Saturday, May 22. The following Monday, a passenger train, carrying an extra load of 11 cars of halibut, was halted at Pacific by the sudden rise of the Skeena River.

The train managed to get back to Prince Rupert before the tracks on both sides of the divisional point were washed out. It travelled through water almost as high as the coach floors.

After that, the waters rose to inundate the town of Usk, endanger Terrace and destroy embankments at numerous places from Kwinitsa to Houston, 300 miles east of Prince Rupert.

Damage done to the Skeena River Highway between Prince Rupert and Terrace was almost equal to railroad damage. Public Works crews working west from Terrace hope to have the road in passable shape by the end of this week. Major obstruction now is replacement of a bridge at Shames.

PUBLISHER IS HEART VICTIM

SUDBURY, Ont., (CP)—William Edge Mason, aged 66, owner and publisher of the Sudbury Star and North Bay Nugget newspapers, died in hospital today from acute coronary thrombosis.

One of the Northland's best known figures, Bill Mason was considered a "tough boss" but he mellowed many men who gained prominence in journalism throughout the country.

Blackaby and E. T. Applewhite. They submitted that the re-establishment of a sub-station in Prince Rupert for

MUST GO WITH UNITED STATES

OTTAWA, (CP)—Minister of External Affairs St. Laurent, told the House of Commons that the government felt adherence of Canada to Europe's western union would be "very little use" unless the United States also entered the pact.

If war should break out, there might be "great value" in a regional pact in which western European countries, the United States, the United Kingdom and Canada guaranteed each other's security.

Father Arrested For Throwing Small Son
ERIE, Pa.—R. J. Hoge has been arrested. He had whipped his six year old son, because the child had lost a toy. Hoge used a web army belt. When he noticed his boy turning pale, he called his wife. The wife called the police.

LITTLE VICTIM OF FLOOD GETS TREATED—Evacuated from flood-ravaged Vanport, Oregon, a child is cared for in Portland Red Cross headquarters. Built during the war on a flood plain, the city of Vanport was completely demolished when rampaging waters of the Columbia river broke through a dike. Meanwhile, a new flood was reported building up in the head-waters of the mighty river, bringing a threat of further inundation and destruction.

PROMPT AND EFFECTIVE ACTION OF GOVERNMENT IN FLOOD EMERGENCY

Hon. Herbert Anscomb Sees Future Development Arising From National Disaster

VICTORIA—"I want to speak to you quite plainly about the tremendous disaster that has befallen our fellow citizens in the Fraser Valley owing to the flood and also in no less measure in other parts of the province; although perhaps on a much smaller scale than that of the Fraser Valley," said Hon. Herbert Anscomb, minister of finance, last night in an address on the topic "Challenge of the Floods."

"There has never been a time to my knowledge, and that extends over quite a long period of time in British Columbia when any Premier acted with greater promptness and of a more decisive character to get action than has our present Premier in this instance, and far from political trickery being used to side-track the needs of the victims, let me say that this Government has made itself very clear so that all may understand from the start to finish that we were going to do what was right and proper and within our power as a Province for the victims of this disaster. We had a right, as a government, to see what assistance could be secured from the national authority because of the extent of the disaster and it was our duty to take action rapidly in that connection. That action was taken, Premier King made his declarations, recognizing the matter was a national disaster. That was followed by Orders in Council of the Dominion Government which one must assume are the voice of the Government and arrangements were made to deal with it, as also did we take the required action.

"Since then these arrangements have been further completed and we have authorized the Minister of Agriculture and Municipal Affairs to proceed directly with the actual organization preparatory to rehabilitation under the direction of the Committee set up by the National Government and ourselves. The public can rest assured that

Gold Shares Weak After Gov't Change

LONDON, June 18—Gold mining share values fell by an estimated \$40,000,000 on the London stock exchange, following news of the defeat of the Smuts government.

Palestine Jews Are Now Fighting One With Other

TEL AVIV, (CP)—Possibility of civil war, Jew fighting Jew, today cast a grim shadow across the new state of Israel.

The Israel government disclosed that Hagana, regular Jewish army, and members of the extremist Irgun Zvai Leumi have clashed over the landing of a boat carrying Irgun arms.

An Irgun broadcast said that "some of our people have been killed and wounded." It threatened a bloody battle between Jews if Hagana did not stop attacks upon Irgunists defending the arms ship.

Presidential Candidate Is Still Obscure

PRUDENT FOREIGN AID, BETTER HOUSING ARE AMONG PLANKS

PHILADELPHIA (CP)—Republicans, whooping it up for a November presidential victory, got their platform all but finished today but are still in the fog as to who will be their choice for President. All night meetings served only to draw the lines of choice tighter in the Dewey-Taft-Stassen struggle for the nomination. Nominations will start tomorrow night, it is expected, followed by roll call voting.

The platform draft was brief with, as usual, a little something to offer everybody.

A foreign plank pledges aid to peace-loving countries but within "prudent limits of our own economic welfare."

As for the contentious housing problem it was decided that the federal government should help to provide low rent housing when the job cannot be done by the states, local communities or private enterprise.

Senator Kenneth S. Wherry of Nebraska said that German recovery is the key to stopping communism. He and Clare Booth Luce assailed the international agreement made by Franklin D. Roosevelt and President Truman, saying that these "short-sighted agreements today stand as road blocks in the path we now have determined as the course to world peace."

IS DROWNED AT QUEEN CHARLOTTE

Another Marine Fatality at Island Settlement With Lawrence Brunelle Victim

QUEEN CHARLOTTE CITY—Queen Charlotte City has had its third drowning tragedy in less than a month and the fifth within a year. The latest victim is Lawrence Brunelle, fisherman, who lost his life early Saturday.

Brunelle was found drowned at 3:30 a.m. Saturday, a few feet from his home. The body was discovered by Norbert Smith of Nanaimo lying on the beach when he was returning to his fishing craft.

It is believed from evidence adduced at the inquest that deceased, after visiting with a sister whom he had not seen for several years, called on a fisherman friend aboard a boat tied to a float nearby. He slipped from the float and fell into the water, being unable to save himself.

Verdict of accidental drowning was returned by the jury

We Agree, Mr. Baker

PUBLISHER WILLIAM L. BAKER of Ketchikan, in the editorial from his Chronicle newspaper which we re-printed here last week, suggests that we should endorse his idea that the Canadian National do something about according, under the circumstances, some sort of relief for demurrage and other extra charges involved when several carloads of fish from Ketchikan became caught in the interior during the recent floods and had to be hauled back to Prince Rupert and re-routed south. Without hesitation, we would heartily recommend such a course to the most generous consideration of the railway people.

Of course, the floods were no more the fault of the Canadian National than they were the fault of the Ketchikan shippers. It would seem reasonable though that some means might be found of reaching a mutual adjustment. It would certainly be a fine way for the Canadian National to win some goodwill in its campaign to develop trade of long-suffering Alaska for its line from this gateway port.

Prince Rupert representatives of the Canadian National, no doubt, have to go by the book, even under exceptional and embarrassing situations, but we are sure they would be only too happy to "go out of their way" to do everything possible to induce the powers that be to give some special consideration in dealing with the matter to which Mr. Baker has referred.

FREEDOM OF PRESS

ADVERTISING, being by preponderance, the chief source of newspaper revenue, allows opportunity to inquire why all goods and services legally on the market cannot be found within the advertising columns. Yet it is a fact there are certain laws that deny what would appear to be legitimate rights.

Mention is made of this in the action taken recently by the Canadian Daily Newspaper Association, requesting government guarantee of press freedom. Only eternal vigilance will preserve it.

One has not far to look to discover that in other countries there are restrictions, the application of which could be attempted in Canada. That is to say, there is no present barrier in the constitution against it.

FORM OF MORONISM

THE SEVERE BEATING of small children by parents, seems to be increasing in frequency if one can judge from the number of cases ordered investigated. In a mid-western State, this month, a father, using an army belt, thrashed his son because he had lost a toy. Noticing the five-year-old child turning pale, he called his wife who summoned the police. The boy died.

In Eastview, near Ottawa, a couple stand charged with the brutal punishment of their five-year-old son. Admitting that people today live under a nervous strain, that the cost of living, with so many, is a source of worry, and that ill health we have always with us, it is, nevertheless, hard to think of excuse or palliation for cruelty gone to the extreme. Such conduct is exactly the reverse of what is natural—a form of moronism.

THIS AND THAT

Band Concert Aids Rupert Flood Fund

An audience which just about filled Capitol Theatre enjoyed the concert of the Prince Rupert Shrine Club Band and assisting artists last night, and at the same time helped to build up another substantial contribution for the British Columbia Flood Emergency Relief Fund. It was the Shrine Club's effort towards this worthy cause. About \$400 was realized.

The city band, now under the sponsorship of the Shrine Club with Peter Lien, wielding the baton, was in fine form as it played two groups of selections to display its concert talents which are now encompassing an increasingly wider repertoire with marked technical improvement on each successive appearance. The Band's numbers were Charles Payne's "Punjab" march, an operatic mangle arranged by Perry, King's serenade "A Night in June," selection "Somewhere A Voice is Calling" with George Brown as trumpet soloist, Keler-Bel's overture "Lustspiel," Dr. L. A. "Serenade," the minuet from "Don Juan" (Mozart-Laurendau), the hymn "Abide With Me" and a rousing selection of Irish Airs "Carlton" March was an acceptable encore.

Popular rounding out artists for the program were Mike Colussi with two groups of piano-accompanied numbers and Harold Whalen, vocalist, who delighted the crowd with his vocal solos—"Beautiful Dreamer" and "Smoke Gets in Your Eyes," accompanied by Andy McNaughton.

The full picture program was also shown including the feature "Framed," the interesting "Home Town Newspaper," a captivating short "Dancing Blades" with Barbara Ann Scott and a news reel.

Master of Ceremonies was F. E. Anfield who kept the program moving in fine style. In the course of brief remarks, he thanked Mayor Arnold for sparking the relief fund drive here, Job's Daughters for activity in ticket selling and Manager J. H. Black and Capitol Theatre staff.

Mr. Anfield appealed to Prince Rupert people to continue giving of their dollars to put the drive "over the top."

One of the highlights of the evening was the announcement that the native village of Port Simpson had sent in a contribution of \$198 for the relief fund. Joe White of Port Simpson was given an ovation when he came to the stage with a personal contribution which put the fund over the \$200 mark.

Better English

By D. C. WILLIAMS

1. What is wrong with this sentence? "Bob is not near as good looking as his brother."
2. What is the correct pronunciation of "alienate?"
3. Which one of these words is misspelled? Dilemma, disadvantageous, diffidence.
4. What does the word "ob-jurgation" mean?
5. What is a word beginning with an "a" that means "to destroy the existence of?"

- Answers
1. Say, "Bob is not nearly so good looking as his brother."
 2. Pronounce al-yen-at, both a's as in ate, e as in men unstressed, accent first syllable.
 3. Dilemma.
 4. Reproof. "It was an imperial ob-jurgation that brought fear to the king's subjects."
 5. Annihilate.

Government in Flood Emergency

(Continued from Page 1)

unteers made the success achieved possible, without them all—Civilian and Forces—one cannot visualize how much greater the disaster might have become.

"Many of you may have seen the statement in which I made the suggestion that while we were going to see, in conjunction with the federal government, that the present dykes were replaced and made better, if that be possible, than they were before in order to take care of future difficulties, I was convinced that was not a final solution to the problem and that I thought from a long range viewpoint we should investigate and see if it was possible and proper to go into a vast engineering undertaking in the upper regions of the Fraser River by which a system of dams could be constructed which would have the effect of holding

back the water and letting it out at times when the river was not in flood and/or using it for a vast irrigation project in and around where the dams are located.

LARGE HYDRO DEVELOPMENTS

"In addition to that it seemed possible to me that large hydro electric developments could be undertaken. I am still convinced that that is within the realms of engineering possibility and it would have a very marked effect in the development of parts of British Columbia hitherto undeveloped but which could be made a green pasture as far as the province is concerned. By that process it is also possible that it would help decentralize present industry to some extent; but it would at least allow for development of very great industrial sections in British Columbia where power would be available.

"Many times you find people speaking of cheap power—

cheap power is not so important as the fact of having power. It should be understood that when I made this statement I did that with the full knowledge that British Columbia by itself could not undertake it alone from a financial viewpoint. It would be of such magnitude that it should be a national government project, a very large project, the cost necessary for the development of the province.

EAST, PRAIRIES SHARE INTEREST IN CITY RITES

Eastern Canada and the prairies shared interest with Prince Rupert in a wedding solemnized Saturday evening at St. Andrew's Cathedral when Miss Grace Merrill, only daughter of Mr. and Mrs. M. H. Merrill, of Ottawa, became the bride of Lieut. John L. Quinn, R.C.N., only son of Col. and Mrs. H. J. Quinn of Regina.

Officiating at the ceremony, which was attended by a number of friends, was Rev. Basil S. Prockter, rector of St. Andrew's. A reception at the home of Dr. and Mrs. L. W. Kergin followed the ceremony.

Wearing a street-length dress of powder blue crepe with white accessories, the bride was given in marriage by Dr. Kergin. She carried a colonial bouquet of pink rosebuds, sweet peas and stephanotis with pink and silver streamers. Her neck was encircled by a string of pearls, a gift of the bridegroom.

The bridesmaid was Miss Mar-

RETURN OF FISHERIES STATION?
 (Continued from Page One)

both biological and experimental studies, even on a limited scale, could be extremely beneficial to the fishing industry in the north central coast region of British Columbia and that the fisheries of the northern Pacific areas were of magnitude and importance fully justifying the Fisheries Research Board in giving every consideration to the request.

Meeting the Prince Rupert delegation were Dr. J. R. Dymond, vice-chairman of the board; Prof. D. L. Thompson of McGill University; Prof. I. M. Fraser of University of Saskatchewan; Dr. J. H. L. Johnston of Halifax; O. F. McKenzie of Prince Rupert. Also in attendance were Dr. A. G. Huntsman of Toronto, Dr. R. E. Foerster, Nanaimo, and Dr. Neal Carter of Vancouver.

Dr. Reid, chairman of the Board, was unable to be in Prince Rupert this morning but will be arriving this afternoon by Royal Canadian Air Force aircraft from the East where he had been called in connection with his duties with the Defence Research Board.

Later this morning the full board, whose first visit it is here in 10 years, met with the Skeena advisory and had a luncheon with the local industry at noon.

Later today the members of the Board are leaving by Skeena Air Transport aircraft for Lakelse and other points in the Skeena River watershed to inspect research operations there, Dr. A. L. Pritchard of the Nanaimo Biological Station being their guide on this tour.

May Be Swan Song For Joe

NEW YORK, N.Y. — Joe Louis' twenty-fifth defence of his title Wednesday night might conceivably be his swan song after eleven years as heavyweight king. However, the betting shows he is a 5 to 13 favorite to retain the crown and a 5 to 6 choice to flatten Walcott. By ringtime these odds might approach one to two or less since Louis' record shows he never failed to knock out a troublesome opponent in a return bout. The Walcott camp is hopeful with Jersey Joe in good shape to go the limit and prepared again to dismay the champ with elusive, shifty tactics.

Louis looks a little more like his old self with viciousness of punches again showing up. He says he'll knock Walcott out fast but is training for the limit.

ALBERTA PRODUCES LESS COAL
EDMONTON — Coal production in Alberta for the four months ending April 30 totalled 2,246,247 tons, a drop of 471,437 tons for the same period in 1947. In April, output increased 86,407 tons to 700,884 tons.

TAXIMEN DOWN C.N.R.A. 13-9

Have Yet to Suffer Defeat in Fastball

Undisputed leaders of the city baseball league, 99 Taxi last night added their fourth unbeaten victory to the record by defeating C.N.R.A. by a score of 13 to 9 in the regular Monday night league fixture which saw the railroaders clearly outthit.

The swath which the taximen have so far cut through their league playmates has netted them a victory against every team except Co-op and that game was postponed on account of rain. However, considering the Co-op record, it is likely that 99 Taxi may take that one too when the time comes to play it.

Taxi opened with Christoff on the mound, replacing him in the sixth with Bebak after CNRA had netted seven runs off four hits. Christoff walked seven men. Bebak kin the final four innings held the railroaders down to two runs off three hits, performing three strikeouts in the seventh.

Bebak walked one man in the sixth and two in the ninth. Lloyd Lahti hurled for CNRA for seven and two-thirds innings being replaced by Vanetta. He allowed 12 hits and three walks from which netted the taximen 10 runs. Vanetta, who moved in from first base in the final moments of the eighth, allowed two hits and a walk for three runs in the ninth.

CNRA got off to a strong lead, taking four runs in the second and three in the fourth. Score at the end of the fourth was 7-3 for the railroaders. However, the taximen rallied in the fifth and brought in 10 runs in the last five innings.

Taxi's big inning was the seventh when they scored six off four hits. Pierce and Gurvich doubled. Gurvich scored, but Pierce was left on base when the side retired. Gurvich hit three doubles during the game.

SHORT SPORT

The story of the Olympic Games, embodied in a beautifully-produced 176-page souvenir program for the 14th Olympiad to be held in London this summer, will help finance the expenses of the United States Olympic team. Outlining the history of the games—from the contests of ancient Greece through to the 13 previous games of modern times—the book is a multi-colored, magazine sized wealth of information.

Recorded for the information of sports fans—and of equal interest to thousands of others—are hundreds of highlights of previous games such as: The marathon hoax in the 1904 games at St. Louis, when the winner admitted having ridden more than half the way in an automobile. The well known story of Jim Thorpe whose medals for his feat of winning the pentathlon and decathlon events were taken from him when it was discovered he was technically a professional.

Listing the winners of all modern games, the program is a gold mine of sports background in neatly tabulated and profusely illustrated records. Added to the Olympic aspects of the games, the program also includes a complete historical sketch of each of the sports which make up the game. An entire section is devoted to "The

SEEING-EYE DOG SEES

ONCE AGAIN—After a delicate eye operation "Ethel," the guide dog of blind leather worker Ralph Cross, Los Angeles, Calif., is happily back at her appointed task; that of leading her master. She sports a big pair of goggles. For a while, when cataracts dimmed Ethel's sight, it was a case of the blind leading the blind. The cataracts were removed by Dr. George Blasdel, eye specialist, who has also fitted Ethel with the goggles to protect her eyes and secure proper vision.

TITLE FIGHT IS DEFERRED

CHICAGO — The Ray (Sugar) Robinson-Bernie Descoenen fight for the world's welterweight championship was postponed Monday until next Monday night. Threatening rain and Robinson's failure to make the regulation 147 pounds forced postponement of the fight. The 15-round fight had been first set for last week and was postponed to last night.

SHIPS AND WATERFRONT

Faster service on the Union Steamship Catala between Vancouver and Prince Rupert will be begun on June 29 with the dropping of two ports of call on the northbound voyage. The Catala, which now arrives Saturday afternoon, sailing for the south again Saturday night, will arrive at 9 a.m. Friday, heading south at 5 p.m. The Catala will continue her calls to the Skeena River canneries but will no longer stop at Bella Coola or Pliffold. Ocean Falls northbound under the new schedule. The Catala will continue to leave Vancouver Tuesday evening. The Camoosun, which is to take over the Vancouver-Stewart run on June 25, will be on a faster schedule, too. Her arrival time has been set for 6 p.m. on Sundays and she will leave here for the north at 10 p.m., instead of midnight. She will maintain her present schedule southbound, arriving at Prince Rupert from Stewart about 10 a.m. Tuesdays and sailing for Vancouver at 1:30 p.m.

BIRDS AFFECTED BY HIGH WATER

JASPER PARK LODGE—Evidence that the sudden high waters in the rivers and streams in the Jasper Park area this spring may considerably reduce the wild water fowl population has been found by Dick Bird, A.R.P.S., F.Z.S., well known Canadian naturalist of Regina, Sask., in the course of his work here making a motion picture on Rocky Mountain wild life for the Dominion government.

Mr. Bird, in displaying a colored motion picture to guests of Jasper Park Lodge last night, said he believed the Canada Goose would be most affected by the flood conditions. The waters rose rapidly after the birds had nested, washing out the eggs and destroying this year's hatch.

Significant also, he stated, was the fact he had seen large groups of Canada Geese together at this time of year when they should be paired and nesting.

Win your Wings with the **RCAF**

IMAGINE the thrill you'd feel flying a jet propelled aircraft or navigating a modern multi-engined plane to a pin point location with split second timing. This is yours to achieve in the R.C.A.F. You will train as a Flight Cadet under a team of expert instructors using the most modern scientific equipment available in the world today — a training valued at just about \$35,000. It will be a proud day for you when you graduate as a full-fledged Pilot or Radio Navigator and receive the coveted Wings of the R.C.A.F. You will become a member of a team of outstanding young men — a team playing a foremost part in the defence and security of Canada. As a Flight Cadet under training, your total income is \$228.00 a month and, on graduation, you will receive your appointment to the rank of Flying Officer with a monthly income of \$274.00.

Requirements
• Age 18 to 24 years.
• Unmarried.
• Senior Matriculation or better — A University degree is an advantage.

Senior Matriculants are eligible for a short service commission of six years duration — University graduates for a permanent commission.

A selected number of personnel holding short service commissions are granted permanent commissions on a competitive basis. The remainder receive a substantial gratuity on the termination of their engagement.

A NEW AIRCREW COURSE EVERY 8 WEEKS.

and
In the Matter of the "Administration Act"

TAKE NOTICE that by order of His Honour Judge W. O. Fulton, made the 10th day of June, A.D. 1948, I was appointed Administrator of the Estate of Carl (Charles) Albert Kallstrom, deceased.
All parties having claims against the said estate are hereby required to furnish same properly verified to me on or before the 31st day of July, A.D. 1948 after which date claims filed may be paid without reference to any claims of which I then had no knowledge.
All parties indebted to the estate are required to pay the amount of their indebtedness to me forthwith.
DATED at the city of Prince Rupert, Province of British Columbia, this 14th day of June, A.D. 1948.
GORDON FRASER FORBES
Official Administrator
Prince Rupert, B.C.

Seasonable Ideas for Housekeepers

HOT BREADS FOR LUNCH AND SOME OTHER INTERESTING SEASON IDEAS

What to have for lunch is an ever-present problem. Something tempting yet satisfying is what the meal planner is always seeking.

Hot breads, plain or fancy, fill the requirements. Plain baking powder biscuits or muffins with honey or jam are ambrosia to many people. There are others who prefer coffee cakes or loaf breads either hot or cold.

All breads and biscuits of this type are made pretty much by the same method and require careful handling. There is an old ballad which goes like this: Cookin's like religion is Some's lected an'some ain't An' rules don't no more mek a cook Den sermons mek a saint Such sentiments make an excellent alibi for the cook who turns out poor food but home economists do not agree with it. They say that if the rules are followed exactly there should be no failures.

Spider Cake
1½ cups corn meal
½ cup sifted all-purpose flour
1 teaspoon baking soda
½ teaspoon salt
¼ cup sugar
2 eggs
1 cup sour milk
2 cups sweet milk
2 tablespoons shortening
Mix and sift corn meal, flour,

soda, salt and sugar. Combine well-beaten eggs, with sour milk and 1 cup of the sweet milk. Add to first mixture. Melt shortening in a 9-inch frying pan. Pour in mixture, then add the remaining cup of milk without stirring. Bake in a moderate oven, 350 degrees F., for 50 minutes. When the cake is baked there will be strips of custard across it. Cut and serve in wedges. Yield: Eight servings.

Feather Squares
1 cup sifted all-purpose flour
½ teaspoon salt
2 teaspoons baking powder
½ cup sugar
1 egg
½ cup milk
4 tablespoons shortening, melted
2 tablespoons brown sugar
½ teaspoon cinnamon
Mix and sift flour, salt, baking powder and sugar. Stir in beaten egg, milk and melted shortening, mixing only enough to combine. Pour into a well-greased 8" x 8" x 2" pan. Combine brown sugar and cinnamon. Sprinkle over batter. Bake in a hot oven, 400 degrees F., for 20 minutes. Cut in squares and serve hot. Yield: 16 pieces (2" x 2").

Butterscotch Nut Bread
1 egg
1 cup brown sugar

2 tablespoons shortening, melted
2 cups sifted all-purpose flour
½ teaspoon baking soda
¾ teaspoon baking powder
¼ teaspoon salt
1 cup buttermilk or sour milk
½ cup chopped nuts
2 teaspoons grated orange rind
Beat egg, add sugar gradually, beating until light and creamy. Add melted shortening and blend well. Mix and sift flour, soda, baking powder and salt and add to egg mixture alternately with the buttermilk or sour milk and stir until mixed. Add nuts and orange rind. Pour into a greased loaf pan, 9" x 5" x 3" and bake in a moderate oven 350 degrees F., for 1 hour. Yield: 24 slices.

QUICK DETECTION
VANCOUVER — Police turned in one of the quickest crime solutions on record here recently. A man said he had "lost \$230 but because he was slightly "under the weather," he was searched and \$17 was found in his shoe.

DO BLEACHES MAKE CLOTHES WHITE?
SOME-BLEACHES REMOVE STAINS, BUT BLUING MAKES CLOTHES WHITER!
Mrs. STEWART'S BLUING

Modern Etiquette

By ROBERTA LEE

Q. What is an appropriate toast to offer a bridegroom?
A. "Here's to the health, wealth, and happiness of the bridegroom. He is leaving us for a happier life, but we shall never leave him."

Q. When a house guest wishes to give his hostess a little gift, when should he present it?
A. He may bring it along and present it soon after his arrival, or just before he departs, or northern Alberta district.

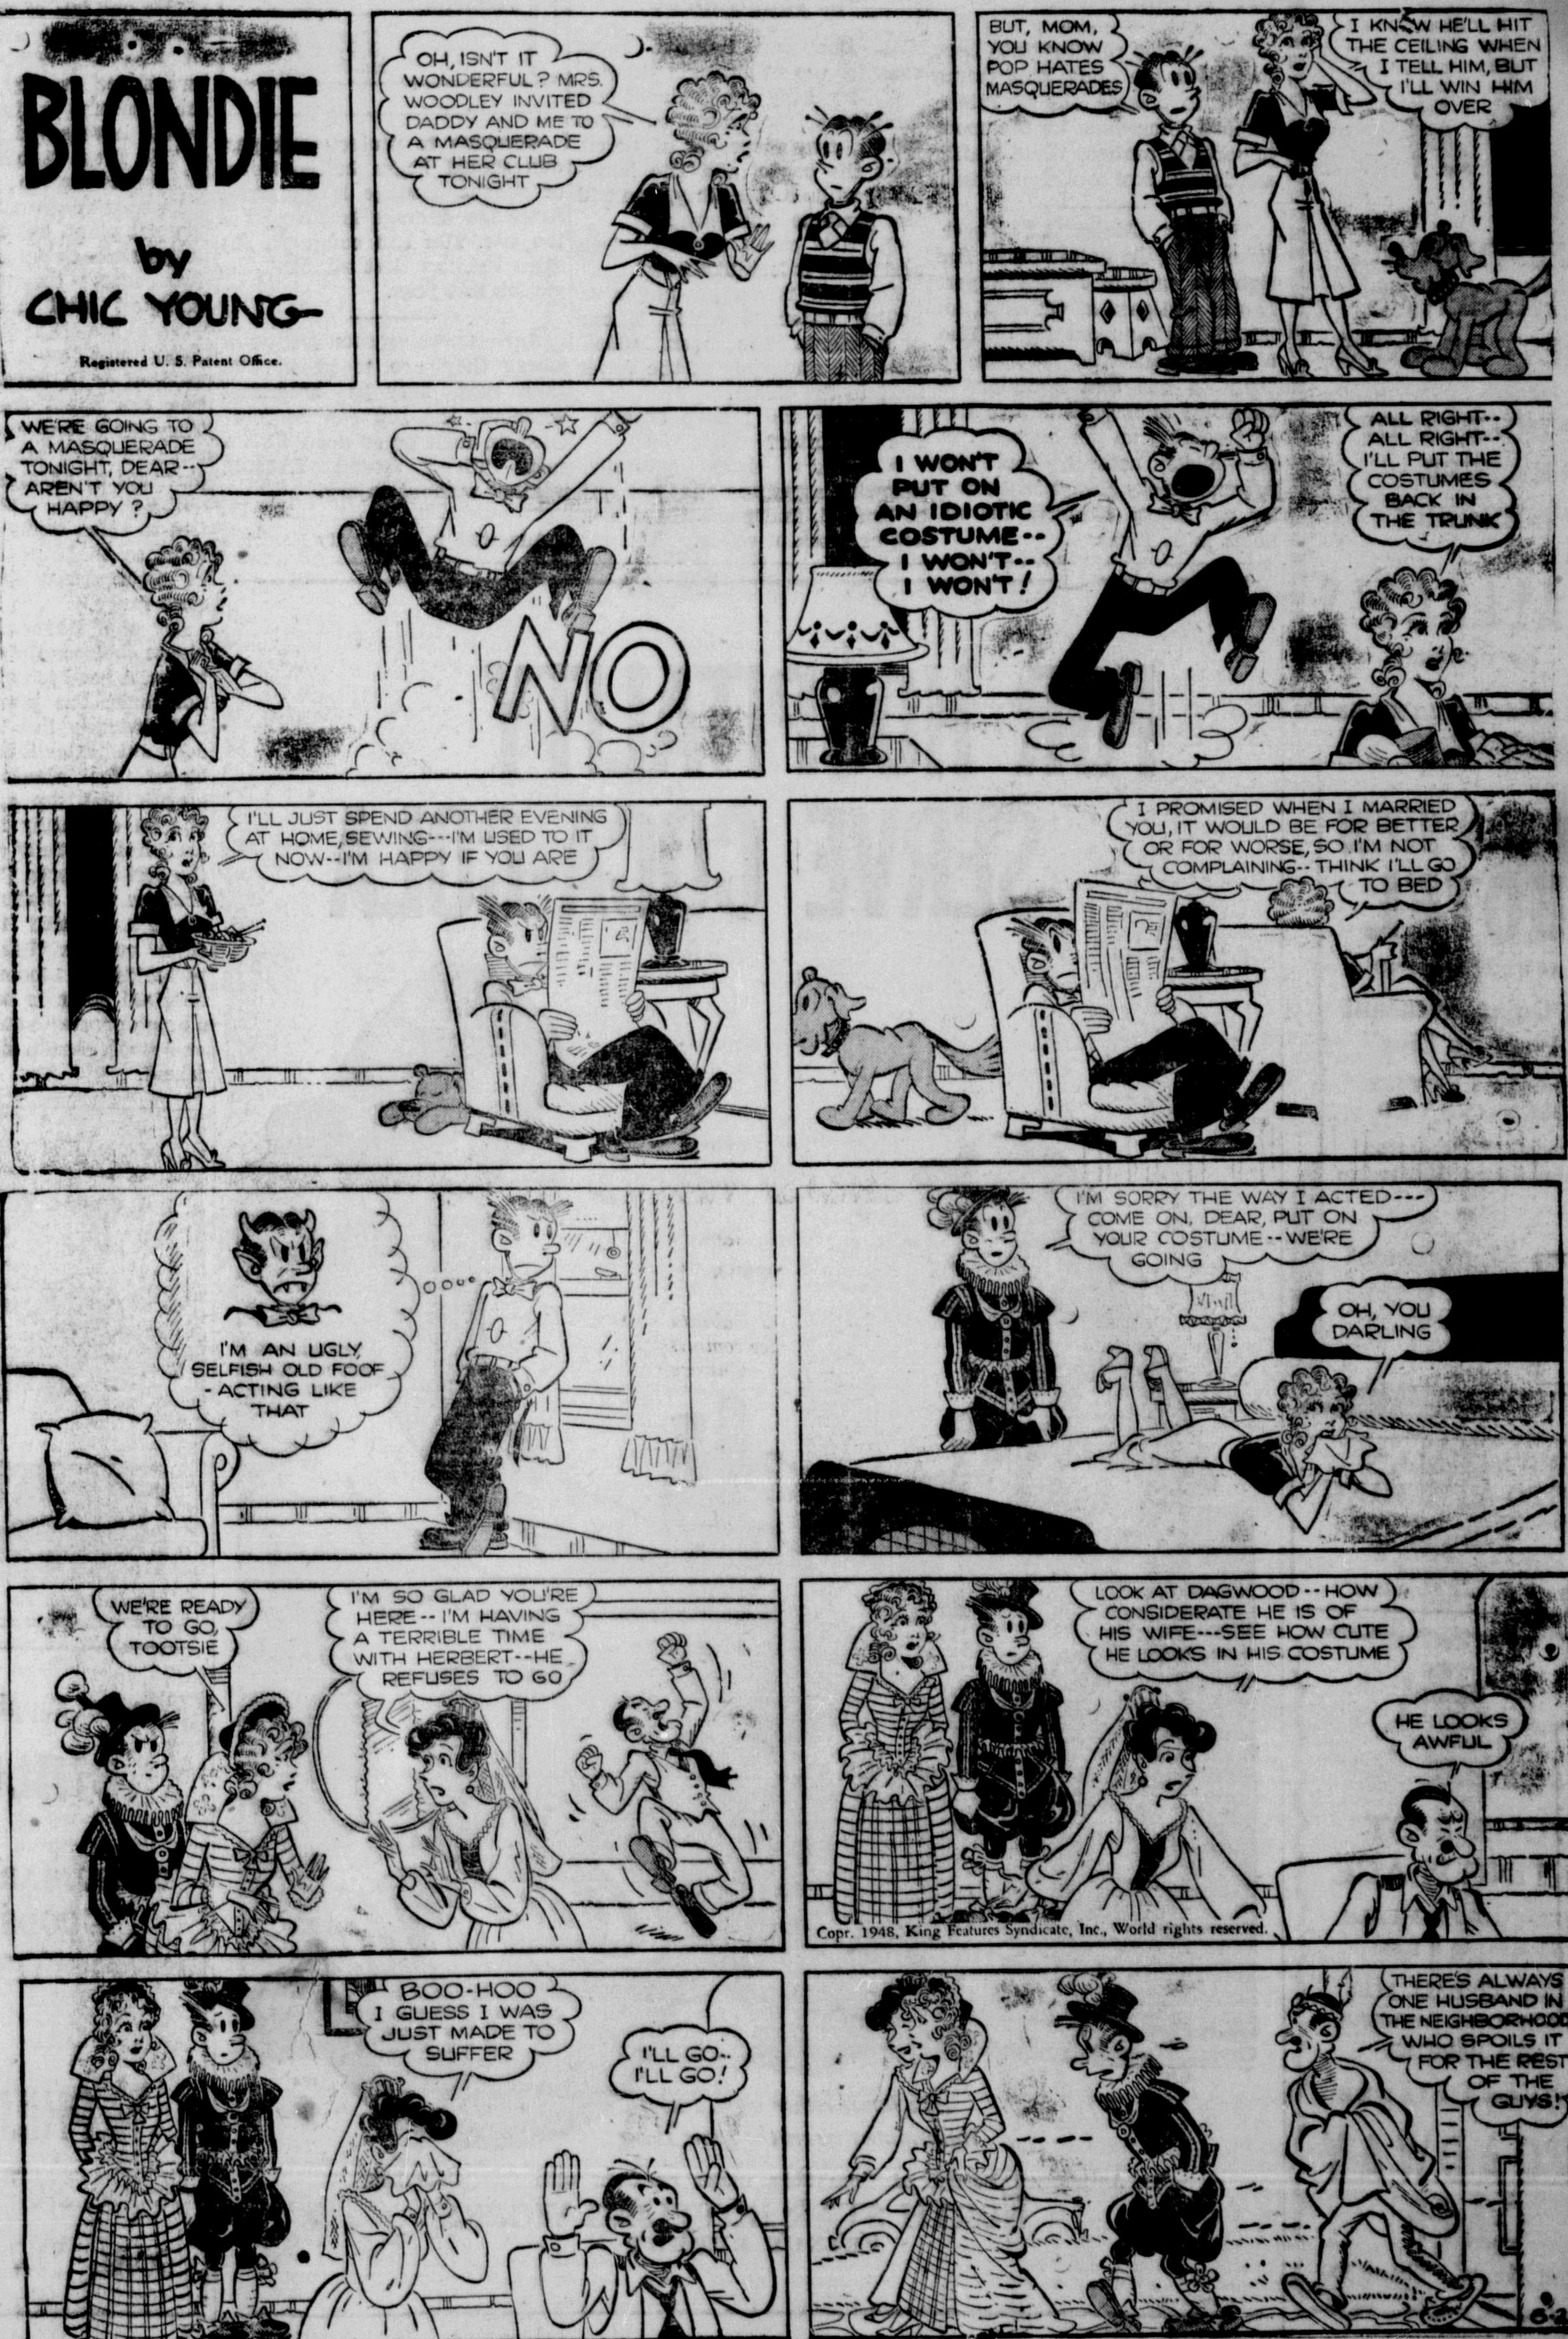

send it to her soon after his return home.

Q. When should one tip the porter on a train, at the beginning or at the end of the journey?
A. The porter should receive his tip at the end of the journey.

NEW INDUSTRY URGED
WATERWAYS, Alta. — The Waterways - McMurray chamber of commerce has decided to promote the establishment of a pulp-wood industry in this or just before he departs, or northern Alberta district.

A Delicious Cool Drink
Directions: Make tea exactly as usual... While still hot pour into glasses filled with cracked ice... Add sugar and lemon to taste...

Reminiscences By W.J. and Reflections

It's astonishing what a morsel of yellow metal can do! Faint echoes of the Prince Rupert gold strike out Park Avenue some months ago are still noted in the mails. They come, as a rule, in the form of casual inquiries in letters from far off parts. Gold! The most indefinite of hints, and it's enough. Distance and time have no meaning. Men are still prepared to gamble on the strength of treasure being found in the wreck of ships presumably sunk centuries ago. Capt. Kidd's doubloons are buried in at least six different places along Atlantic shores between New York and Newfoundland.

It must be all of twenty years ago, or longer, since Chataqua entertained the local public. For several reasons this cheerful and

clever organization came regularly to be cordially received by those who like talent and variety. When Chataqua finally did suspend further appearances, the absence became permanent. No one appeared able to explain. Looking back, it does not seem to have been due lack of patronage.

It was stated officially, in the public print yesterday, June 21, that the day should have had the longest period of sunlight of any day of the year. This column, without prejudice, is prepared to swear the statement was all wrong, the weather being damp, chilly, grey and muggy from 5:11 a.m. (PDT)—pretty darned dull—to high noon anyway.

There's an invisible army among the thousands of tourists now visiting the north. All unseen, they have, nevertheless, been here before. They came from over the continent and found life pretty good, even allowing for the Japs and Nazis. The troops, stationed at Prince Rupert and elsewhere in Skeena during the war had fewer years and fewer cares then, and when the time came to leave, did so with the resolve to come again some time. They are doing so right now, and many have budied—for life.

Trains stop running into Berlin about the same time trains begin to operate out of Prince Rupert. Somehow in the more important centres, these traffic snarls will now and then arise.

"Smoky" (James A.) Greer, formerly of the United States fire fighting unit in Prince Rupert, is still stationed at Okinawa, an island not far from Japan. Had a letter yesterday, it being a reply to one that contained a snapshot of the S.S. Prince Rupert coming up the harbor. "I sure looks natural, too," he writes. Smoky always had a yen for the north, although his old home is in Texas.

Wilkins and Party Pass Through Here

An expedition to Mount St. Elias, north of Yakutat, continues assembling at Juneau. Five passed through Prince Rupert last week aboard the Princess Louise. There will be twenty all told, including Sir Hubert Wilkins, famous explorer. The expedition is sponsored by the Arctic Institute of North America. The Seward Glacier, seven thousand feet high on Mount St. Elias, is to be explored.

GREY GHOST IS NOW AT JUNEAU

JUNEAU—The Grey Ghost, a former United States sub chaser, which called in Prince Rupert last week with 34 Sea Scouts from Tacoma aboard, arrived at Juneau last evening. After leaving Prince Rupert they visited Ketchikan. The Scouts will call at Government House in Juneau to meet the Acting Governor, Lew M. Williams. Gov. Gruening is at present in the south.

SNAKES OCCUPY FLOODED HOME

Home owners in the Fraser Valley have been having more than too much water to contend with. An Agassiz farmer and his family, returning to make their dwelling fit to live in, had to drive out snakes first. To escape the flood they had crawled in and kept crawling higher as the water rose.

HOW CAN I ?? ? By ANNE ASHLEY

Q. How can I make burnt cork for use in minstrel shows?
A. By using one grain of best lampblack, six grains of cacao butter, five drops oil of neroli. Melt the cacao, add the lampblack while it is cooling, and add the perfume while stirring.

Q. How can I restore velvet, and make it look like new?
A. Hold it over a gallon of boiling water, to which ½ cup of ammonia has been added. Hold the underside of the velvet next to the steam.

Q. How can I keep cranberries all winter?
A. Sort them carefully, throwing away any that are soft or bruised, and place them in a keg or crock of water.

KING AND QUEEN ARE REGISTERED

LONDON, @—The King and Queen and other members of the Royal Family will register for free medical attention when the government's new national health scheme becomes effective July 5. "The King and Queen set the example for any authorized national plan," a Buckingham Palace official said.

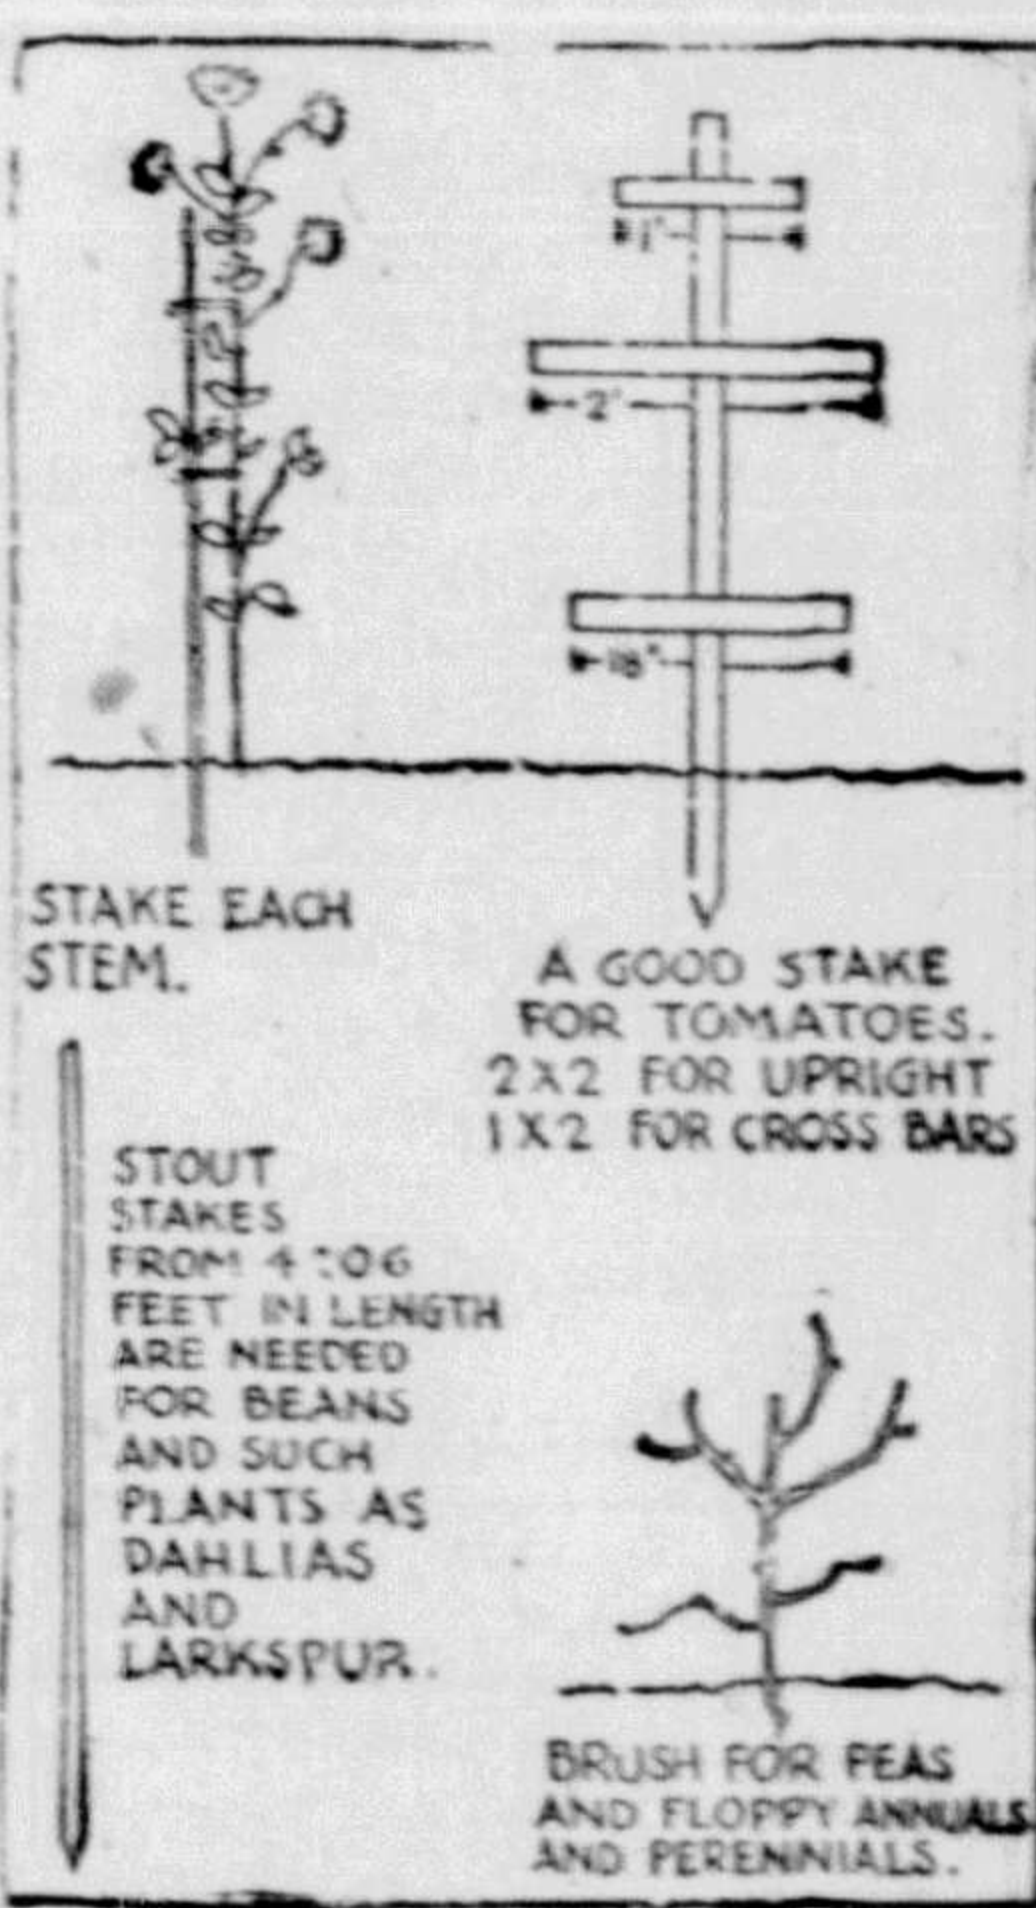

F. J. Skinner, Union Steamships Agent, returned Monday afternoon on the Chilcotin from a 10-day visit to Vancouver.

NEW BALLOTING SYSTEM IN N.B.

FREDERICTON—The system of balloting in the provincial election in New Brunswick June 28 is to be different. No ballots are printed by the government bearing the names of all candidates in the riding. Instead, each party prints ballots containing only the names of its own candidates, or a voter can use blank paper provided by the returning officer.

GARDEN NOTEBOOK

PLANTS NEED HELP TO KEEP
THEM IN UPRIGHT POSITION

STAKE EACH STEM.
A GOOD STAKE FOR TOMATOES. 2x2 FOR UPRIGHT 1x2 FOR CROSS BARS.
STOUT STAKES FROM 4-10 FEET IN LENGTH ARE NEEDED FOR BEANS AND SUCH PLANTS AS DAHLIAS AND LARKSPUR.

Brush for peas and floppy annuals and perennials.

Properly staked plants insure an orderly garden. Lack of proper staking means that you are reasonably sure to have some wrecked and messy beds later in the season. A heavy rain or wind storm is likely to knock over tall and heavy foliage plants which naturally have stems not sufficiently sturdy to stand up under such circumstances.

Delphiniums are the first plants in the garden to show the need for staking. The heavy spikes of bloom on these stately perennials make them singularly susceptible to destruction by winds or heavy rains. Stake them before the buds start to open.

Gladioli with heavy spikes of bloom are likely to need stakes. Lilies and iris of the taller types also need this assistance. Tall African and French marigolds are tipped over by wind or rain and become a jungle. Staking would have saved them.

The first requisite of good staking is that the stakes should be strong and capable of holding up the plant, but as unobtrusive as possible. Green painted stakes are least conspicuous. The cheapest and most efficient stakes are the bamboo canes. They may be bought already painted or in natural color and you can paint them yourself. They are strong and durable.

Heavy wire stakes are least obtrusive of all especially when painted green. Plants can be tied to them easily and held up right so that the tying cannot be distinguished until viewed at close range.

Set the stakes and tie the plants before they come into bloom. A good job of staking will not make the plant look stiff and obviously tied up cannot be done until after it has come into bloom. for plants of lighter growth that are apt to sprawl and be of untidy habit, twiggly branches carefully applied make the best supports. The tall snapdragons need staking. If pinched back and tied the tall types throw out branches and become pyramids of blooms. The long terminal spike is sacrificed but a much greater quantity of bloom and finer garden display is obtained.

Lost Sense of Smell;
Gets \$3000 Damages
CAMBRIDGE, Eng.—A 58-year-old man who lost his sense of smell through a fall from a bus has been awarded \$3,000 damages from the bus company. The judge: "To a man of 58 there are not many joys left in life in the times in which we live. Some of the best things to be had from his point of view are gone."
