

Surgery Performed On Babe By Vancouver Doctors

PRINCE RUPERT (CP)—A two-day-old infant from Prince Rupert will be able to cry and breathe following a delicate throat operation performed by doctors at the General Hospital here.

The baby was flown here by Canadian Pacific plane and was found to have a "blind" swallowing tube following diagnosis of who delivered the child in Prince Rupert.

The operation here in a two-hour operation termed "successful," detached the lower part of the infant's breathing tube and connected it to the end of the upper part of the swallowing tube. This type of surgery is very unusual in Vancouver, and the problem of the infant's age, added another difficulty to the operation.

No Menace To Lighthouse Completion On Egg Island

THE Egg Island lighthouse, twice demolished in the last half century, will be a concrete structure when its reconstruction is completed by the Department of Transport workmen next October 1.

The concrete-based structure which was destroyed by a January leaving the island and his family married to a steel-reinforced concrete which will be able to withstand the fiercest of the weather.

The three-storey building rises 40 feet above the water level and is built of concrete, but the outside walls are of masonry. The building is built on a rocky island for a steel-reinforced concrete which will be able to withstand the fiercest of the weather.

The ground floor contains a 12 by 16 kitchen, fully modern, a 10 by 16 living room, bedroom and modern bathroom. The third floor contains three bedrooms.

But the former lightkeeper, Robert Wilkins, who with his wife and son underwent a night of horror and four days of exposure when the light was destroyed last January, will not be its new occupants. Mr. Wilkins spent part of the summer with the 25-man construction crew, but recently resigned from the Department of Transport and now has a construction job at Watson Island.

No new appointment has been made for the lightkeeper's job, but it is expected that the Civil Service Commission will shortly invite applications.

(Continued on Page 6)

RAIN MAY EASE EASTERN FIRES

TORONTO (CP)—A forecast of showers in widely scattered parts of eastern Canada holds promise of easing the seriousness of bush fires blazing in the woodlands of three provinces made tinder-dry by late summer heat.

Widely scattered showers are looked for in Kirkland Lake district, northern Ontario, where a ban on bush travel was imposed yesterday. The ban extends to northwestern Quebec districts.

The conscription of men to fight bush fires raging in Timiskaming, Quebec is indicated as the seriousness of the situation increases.

BIGGEST TWINKLE
Arcturus is the brightest star in the northern hemisphere, situated in the constellation Bootes.

WOMAN FLIER NEARS HOME

REYKJAVICK, Iceland (CP)—Mrs. Richarda Morrow-Tait landed at Keflavik airport last night after an 850-mile flight from Greenland. The 26-year-old British housewife has only one more flight, from Iceland to Britain, to realize her ambition of becoming the first woman pilot to fly a single-engine plane around the world.

It was just a year ago today when Mrs. Morrow-Tait started her flight.

Trade Boards Parley Opens at Smithers

SMITHERS—After the first heavy frost of the season in the Bulkley Valley Wednesday night, Smithers turned on brilliant sunshine to greet delegates from all parts of Northern and Central British Columbia, Alaska, and the lower mainland, for the opening today of the annual convention of the Associated Boards of Trade of Central British Columbia.

Delegates faced a busy couple of days considering resolutions on a wide variety of matters pertaining to the welfare and development of their vast district. This morning was devoted to registration of delegates and saw the resolutions committee, under chairmanship of Dr. L. M. Greene of Prince Rupert, move into action.

Convention session proper opened this afternoon with President A. M. Patterson of Prince George in the chair. Late this afternoon there was a tour around the district of Smithers which is the railway and administrative center of the lush Bulkley Valley agricultural area which is also active in lumber and coal production.

Tonight the delegates go out to picturesque Telkwa, twelve miles east for a buffet supper and later, social activities will center at Lake Kathryn, summer resort at the foot of Hudson Bay mountain for a dance at the Beach Pavilion and a weiner roast.

Business sessions will continue on Friday and Saturday with a closing banquet that night followed by a dance in the Elks' Hall.

Prominent guests include Senator Gray Turgeon, E. T. Applewhite, M.P.-Elect for Skeena, George Murray, M.P.-Elect for Cariboo, Hon. Harry Bowman, provincial Minister of Agriculture, J. D. McRae, M.L.A.-Elect, Prince Rupert and Cecil Steele, M.L.A.-Elect, Omineca. Featured speakers will include Mr. Turgeon, Mr. Applewhite, Mr. Murray and Mr. Bowman. Another special guest is Col. J. B. Norris, Territorial Highway Commissioner from Alaska.

Alaska delegates include L. S. Ferris, prominent businessman of Ketchikan and W. L. Baker, publisher of the Ketchikan Chronicle.

FARE INCREASE INCITES RIOTS

SANTIAGO, Chile (CP)—Disagreement over a half-cent boost in bus fares has caused bloody rioting in Santiago and has cost seven lives. The situation has brought Congress into emergency session and inspired government charges of Communist agitation. Rioting, which the government says is Red-inspired, has raged for the last two days.

The Senate approved today a request from President Videla for extraordinary powers to cope with the situation. Besides the seven killed at least twenty-one persons were injured.

WHERE BODY FOUND—Inspector James Anderson, left, of the St. Catharines police, holds a flashlight while police dig up the body of John Sanborski, found Monday buried in cement in the basement of his house practically in the shadow of the St. Catharines Jail. Watching at right is Chief Constable Duncan Brown. Sanborski had been missing since July 18. (CP Photo)

TURKEY HIT BY TREMBLOR

ISTANBUL (CP)—A violent earthquake rocked a large part of eastern Turkey last night. The Ministry of the Interior reported today. The hardest hit point was Kigi in Bingol Province where four people were killed. Twenty houses were levelled in the quake which lasted for thirty-four seconds.

SIX WOMEN DIE IN AUTO CRASH

HOPKINSVILLE, Ky. (CP)—Six women died in a flaming death early today when their auto and a car of soldiers crashed into a transport truck between here and nearby Camp Campbell. The bodies of the women were charred almost beyond recognition.

ANGEL MONEY
The Angel was a gold coin first used in France in 1340, and introduced into England by Edward IV.

POLICE, LOGGERS MIX IN FINLAND

HELSINKI (CP)—Police and striking lumberjacks exchanged fire today in first skirmish of a new Communist strike offensive which government officials say is aimed at seizing power in Finland. The exchange took place at Kemi a lumbering town.

Up to 1500 strikers broke through police lines in an attempt to attack others reporting for work at a timber sorting dam. One striker is reported shot and troops have been called to the Kemi area.

Earlier the Social-Democrat government used emergency powers to declare Hango on the southwest coast an open port. This action was taken to break the country-wide dockers' strike called by the Communist-led Workers' Union.

HOUSE SLASHES ARMS PROGRAM

WASHINGTON, D.C. (CP)—The House of Representatives voted tentatively today to slash the European arms aid amount from \$1,160,000,000 to \$580,495,000 and also to cut off the program next June 30.

The move is interpreted as a stunning set-back for President Truman's program for \$1,450,000,000 in arms help for Western Europe, Greece, Turkey, Korea, Iran and Philippines.

The action came after State Secretary Dean Acheson had warned that the cut might be interpreted as "indicative of suspension and distrust of our allies." The amendment to cut the European part of the program was adopted by a teller vote of 172 to 137.

There can be a roll-call vote on the amendment later and the result may be changed.

Production of Champagne And Motor Cars In Russia Is Up

MOSCOW (AP)—The recent official communique of the central statistical administration of the U.S.S.R. reveals important increases in the output of luxuries and semi-luxuries as well as of the necessities of life.

At the same time this communique claimed that Soviet industrial workers had increased their productivity of labor by 15 percent as compared with a year ago.

The central statistical administration claimed, for instance, that the output of champagne in the second quarter of 1949 was 353 percent over that of the second quarter of 1948.

It said that output of passenger cars which are on general retail sale here to all citizens, rose 123 percent, that production of prefabricated homes rose 47 percent, of bicycles 43 percent, radio-receivers 106 percent, phonographs 70 percent, sewing machines 48 percent, watches 99 percent and cameras 18 percent.

It also claimed that output of spirits had risen by 28 percent in the same period, of cigarettes 20 percent, of grape wines by 27 percent and of beer by 26 percent.

The central statistical administration also reported that the sales of radio-receivers were up 60 percent, of bicycles 55 percent, of motorcycles 80 percent and of watches 150 percent.

The output of foodstuffs and clothing—and also sales of foodstuffs and clothing—was reported also as having risen considerably.

For instance, according to this official communique, during the second quarter of 1949 output exceeded that of the same quarter of 1948 for food and clothing items by the following percentages:

meat 15 percent; sausage items 82; fish 27; animal fats 6; vegetable fats 47; confectionary goods 38; canned goods 51; tea 40; cotton cloth 16; linen cloth 22; woolen cloths 24; silk cloth 34; leather footwear 28; footwear 27; stockings and socks 35.

Sales of necessities also rose rapidly. Thus the communique reports that in the second quarter of 1949 15 more food products were sold than in the same period last year in the U.S.S.R. including 51 more meat, 40 more confectionary goods, and 17 percent more sugar. It added that wool cloth sales increased in the same period 87 percent, silk cloth by 60 percent, garments by 24 percent, and leather shoes by 27 percent.

Every worker here knows that the more items he turns out the larger his pay. During the last two years prices have been reduced not only on necessities but particularly on some luxury items so that they are now within the reach of more workers budgets.

In addition increasing amounts of advertising of all sorts encourages workers to purchase luxury and semi-luxury items.

The figures in the central statistical administration's communique seem to indicate quite clearly in any case that:

1. Soviet industrial workers are striving to increase their production.
2. These workers are spending more money on durable goods and luxuries such as champagne, as well as on foods and clothing which are in the class of necessities.
3. The Soviet government is doing much to increase the output of durable goods, luxuries and semi-luxuries to satisfy this increased demand.

CZECH PRIMATE BREAKS SILENCE

PRAGUE (CP)—Archbishop Joseph Beran broke two months' silence today and accused Communist government of holding him captive in violation of his constitutional rights.

The stocky little 60-year-old Roman Catholic Primate has not appeared in public since June 19 when as he tried to preach a sermon he was shouted down by Communist hecklers.

He claims now that he has been interned and isolated in his palace at Prague. He also accuses the government of illegally seizing his consistory (administrative office) and confiscating the funds of the Prague diocese.

CYNTHIA NORTON HEADING SOUTH

Miss Cynthia Norton of Terrace, who will be "Miss Prince Rupert" at the Pacific National Exhibition next week and candidate for "Miss P.N.E." honors arrived in the city yesterday from the interior and will head south on the Prince Rupert tonight for her big adventure. Accompanying her as chaperone will be Mrs. Don Morton of this city.

Miss Norton was driven in from Terrace by Charles M. Adam, proprietor of the Terrace Theatre, and Mrs. J. B. McKay. Mrs. Grant and Mrs. Bush and child also came in. They will be returning to Terrace today.

THE WEATHER

(Synopsis)
Other than for a few patches of cloud along the coast and in the central interior skies are clear over the province this morning. Under clear skies temperatures dropped sharply in the northern interior. An overnight low of 31 was recorded at the airport in Prince George and 32 at Smithers. Although the weather picture over the ocean to the west continues rather unsettled it appears likely that the province will enjoy clear warm weather today and again tomorrow.

(Forecast)
North Coast Region—A few clouds today and Friday. Little change in temperature. Wind light. Low tonight and high Friday at Port Hardy and Massett, 45 and 65; Prince Rupert, 48 and 70.

JAMES PREVOST STILL SOUGHT

One Pair of Pants

WHEN THE TEN PROVINCES meet with the federal government this Fall to discuss taxation agreements elected representatives should remember that, though the vast sums of money that are spent by our many governments may seem to come out of many different pockets, all the pockets are really in one pair of pants—the Canadian taxpayer's.

The government of a village, a county, a town, a city or a province is very greatly in the wrong if it presumes it should spend money just because it can recover all or part of it as a grant from other government. It is very easy for a public body to overspend if it doesn't have to do all of its own fund-raising—but the ultimate fact is that all of the money that is spent by all governments in Canada must come out of the Canadian taxpayer's pockets. There may be lots of pockets but there is only one pair of pants.

WORTHY OR NOT

STATING THAT there is in prospect the establishment of several new agencies in the health and welfare field, the magazine Health comments editorially in the current issue that there should be some means of deciding whether some or all of these proposed agencies have any rightin that particular field.

Health states it has always stressed the importance of voluntary associations in general and especially those in the field of health and welfare, but asks whether some of these new organizations will accomplish anything beyond an ephemeral activity which will do little more than interfere with the success of existing organizations already qualified to do the work.

"The great voluntary associations of Canada have on the whole been organized because of real needs," states Health. "This has been the only justification of their continued existence. Where organizations are created for other and unworthy reasons they will probably die a lingering death in any case but it is a pity that they should even be born.

"Appeals will doubtless be made to the public shortly for support of a variety of new associations, all of which, according to their promoters, are necessary. Our suggestion to the general public called on to support new associations especially is that their claims be examined carefully and that giving should not be based on emotional or sectional appeals from persons who have made promotion a profession, but on the considered opinion of authorities in the fields of scientific medicine, health and welfare.

Where such authorities aware as they are of the acute needs are the originators and sponsors of health and welfare movements there can be no question of their virtue. Some of these authorities themselves, however, have recently expressed concern at their appearance, side by side with worthy projects, of schemes engineered by professional promoters which bear the earmarks of self interest rather than a sincere desire to contribute something toward the health of our citizens."

LOOKING BACK

25 Years Ago

August 18, 1924

Northern B. C. Timbermen's Association decided to protest a proposed increase in timber royalties on grounds that the industry could not stand such a levy. The provincial government had announced that the amount of royalties would be tripled after January 1, 1925.

Hundreds of city children enjoyed the flag day celebration sponsored by the Elks Club at Acropolis Hill. The events included a parade, field events and two baseball games as well as candy and ice cream.

Market conditions in Japan made it unlikely that lumber export to that country would begin in the near future, according to H.R. McMillan, Vancouver lumber exporter who was in the city on business. He inspected the lumber mill at Big Bay in which he held an interest.

10 Years Ago

August 18, 1939

Premier Pattullo said in an interview here that he favored a westerly route, via Hazelton for a highway to Alaska. Such a route, he said, would not only be strategic, but it would open up northern B. C. to development.

The 102nd Battery was called out for volunteer defence duty as war fear mounted. The unit consisted of 125 men under command of Col. S. D. Johnston.

Hon. W. J. Aseltine, provincial minister of mines and trade and industry, passed through the city northbound for a visit to his riding of Atlin. He planned to include Atlin and Telegraph Creek in his itinerary.

FRIENDS HONOR WILLIAM DENNING ON RETIREMENT

Almost 30 years of service for the B. C. Liquor Control Board was honored Tuesday night in the Canadian Legion hall when 20 friends of William Denning, whose retirement took place on July 30, joined in presenting him with an initialed travelling bag and extending their best wishes for a happy retirement.

Mr. Denning, who is one of the pioneer residents of the city was employed by the Liquor Control Board here since 1921.

The initialed travelling bag was presented by Bobby Reid, after which several employees and former employees of the local liquor store expressed the esteem in which they held their retired fellow employee.

C. L. Youngman, manager of the local store was chairman of the gathering.

Weather in Paris has been warm enough to fry eggs on the sidewalk. Next time, try soft-boiled for a change. The French government is usually in hot water.

Delegates to the convention in Smithers will find an agreeable change. The city is far enough from the coast to permit the viewing of contrasts. Some, possibly have not been in Smithers since last year. Here, the productive Bulkley Valley is showing its fertility. Stately Hudson's Bay peak draws the eye. So does the quiet beauty of Lake Khatyn. It will be timely to meet the people, renew old friendships and size up the general situation in a district of B. C. that today is commanding such widespread attention.

There is this difference between the Mennonites and the Doukhobors. The former who never gave authorities any grief, were persuaded to move from the prairie west to South America and are still feeling sorry for themselves. The latter gave Ottawa and Victoria scores of headaches, and would not leave Canada on a bet.

Some of us think of Yellowstone National Park in Eastern Montana as a dry—almost semi-arid region—but that is wrong, says Arthur Brooksbank, who has been enjoying a holiday there. In fact, the idea might be regarded as "all wet." The rainfall, he states, is heavy at certain times. Midsummer is best for vacation. Anyone who goes too early in the season or delays until autumn can usually be certain of downpours.

Khatada Lake, back in the mountains from the Skeena River provided trout fishing for officials of the Columbia Cellulose Company Ltd., who flew in the other day. It is said to have been the sort of sport men like to remember. Khatada has always enjoyed a local renown, but getting there is not always so simple. It took, time, effort and generally speaking, hard work. Using a plane is today's only system. Find your plane, first. Oh yeh the only "fly" most of us know anything about is the kind one sticks in his hat band.

Lloyds, from a coffee shop start three centuries ago, has grown to substantial proportions. It is the fashion today, to be critical of private enterprise, and advocate letting the other fellow occupy the seat of authority. Harkens to what Matthew Drysdale, Chairman of Lloyds says on the subject: The thing that, more than anything else makes Lloyds' men proud to be members of the society is that its whole history is the history of honorable dealing, private adventure and private enterprise. Nobody planned us or directed us or told us what to do. We took our fate in our hands, risked our own money, bore our own losses and achieved our own successes."

HARVEST HELP

WISBECH, Cambridgeshire, England — Between 3,000 and 4,000 volunteer workers picked strawberries in this district at a rate of 30 tons a day. The season's crop was valued at £1,000,000 (\$4,000,000).

LETTERBOX

AN APPRECIATION

Mr. Editor and People of Prince Rupert:
Thank you! It sounds so little to say in return for the overwhelming generosity I have found here in Prince Rupert.

To the people here who voted for me during the contest at the Capitol Theatre and to the merchants who have given me such a complete and beautiful wardrobe, appreciation alone is inadequate.

It will be an honor and a responsibility to represent you of Prince Rupert and the beauties of our north country the way you should be represented.

It will be my very great pleasure to be your ambassador for the friendliness of you people and the hospitality of Prince Rupert.

And now in my letter I'd like to tell you all about my lovely gifts from your merchants.

The answer to all girls' dreams—her first fur coat! Bill Seuby gave me a beautiful grey squirrel! shorty coat; Mrs. Annette Mansell gave me a very chic green coat and tan hat and bag, also lovely lingerie.

Also from Annette's came a smart beige and tan suit, a beautiful two-piece black informal dinner dress and a silk print afternoon dress, also a

Skinny men, women gain 5, 10, 15 lbs.
Get New Pep, Vim, Vigor

What a thrill! Body limbs fill out, ugly hollows fill up, neck no longer straggly, body loses half-starved, sickly "lean-pipe" look. Thousands of men, women, men, who never could gain before, are now proud of shapely, healthy-looking bodies. They took the special vitaminizing, health-building tonic, which, its tonic, stimulates, invigorates, feeds, vitamins B₁, calcium, extra blood, improves appetite and digestion so food gives you more strength and nourishment; put flesh on bare bones. Don't fear getting too fat. Stop when you've gained the 5, 10, 15 or 20 lbs. you need for normal weight. Come little. New "Tone" acquired—size only size. Try famous Chiesi Tonic Tablets for new vigor and health, surely, this very day. At all drug stores.

sequin dinner blouse. These things were bought with money given by Terrace merchants and business people for this purpose and \$50 for spending money.

Fraser & Payne game me as gifts anything I chose. I received lingerie, gloves and hose and nylons to match my outfit. Bobby Woods and George Brown of Brownwoods gave me a pair of black suede pumps and the most beautiful nylons I've ever owned. Mr. Dods of Terrace gave me a beautiful alligator cosmetic case complete even to toothpaste and theatrical make-up.

Mr. Van Meer has given me a large color portrait of myself which my mother will take back to England for my father. Mr. Adams of the Terrace theatre gave me a blue taffeta formal and Mr. Black of the theatre here gave me a cheque for \$25 spending money.

You've all been so wonderful. I'm kind of scared and I'm terribly excited, but I'll do my very best to make you proud of me.

Thank you all again.

Charles L. Shaw, veteran Van-
couver and Victoria newspaper-
man, arrived in the city on the
Prince Rupert yesterday from
the south. He is now identified
with Miller Freeman Publica-
tions as their Vancouver rep-
resentative and is here to do an
article on the Columbia Cellu-
lose project at Watson Island.

G. M. Morris, assistant ex-
ecutive secretary of the Van-
couver Board of Trade, and Mrs.
Morris arrived in the city on the
Prince Rupert yesterday from
Vancouver and proceeded by
the evening train to attend the
convention of the Associated
Boards of Trade of Central British
Columbia in Smithers.

World Chews Gum On U.S. Pattern

WASHINGTON — Foreign-
ers are sticking to the chewing
gum habit they learned from
United States service men dur-
ing the war. The commerce de-
partments says a record 11,000-
000 pounds was exported last
year. That is an increase of 11.8
per cent over 1947 and almost
four times as much as the aver-
age annual pre-war shipment.
"Foreign manufacturers have
not yet been able to duplicate
the quality of the U. S. product
or produce in quantity to the
point where their chewing gum
can compete with ours," the de-
partment says. It estimates
more than 95 per cent of the
world's chewing gum is made
in the United States.

LATE FROSTS PRAYED FOR

MORINVILLE, Alta. — The
rains come after a discourag-
ing early drought but Narcisse
Fortier, typical of most prairie
farmers, hasn't stopped worry-
ing about crops.

The 63-year-old French-Can-
adian, who came to Alberta
from Quebec's Papineau coun-
ty 42 years ago, is wondering
when the first fall frost will
come.

Recent rains have revived Mr.
Fortier's crop of oats but may
cause him some headache in the
fall. The oats have taken
on a second growth because of
the rain and these new shoots
because they were late in start-
ing need time to ripen.

That's why Mr. Fortier,
whose whole life is wrapped up
in his 320 acre farm, is hoping
that frost doesn't hit until late
this year.

IT'S A GOOD POT THAT PLEASES ALL

VANCOUVER — Gerald
Schluter, visiting here from
England, maintains coffee back
home is an "unspeakable bev-
erage." He should know—he's
a coffee importer in London.
"It's hard to get good coffee in
England since the war," he
says. "And then we don't use
enough to make a good strong
drink."

But his Toronto-born wife
says much the same thing
about Britain's favorite bev-
erage as its prepared on this con-
tinent: "American tea is just
as bad."

ALASKA GROUP TO CONVENTION

Delegation of three arrived in
the city on the Princess Norah
yesterday afternoon heading for
the annual convention of the
Associated Boards of Trade of
Central British Columbia in
Smithers. They were W. L.
Baker, publisher of the Ketchi-
kan Chronicle; L. S. Ferris, pio-
neer hotel proprietor and gen-
erally prominent business man
of Ketchikan, and Miss Eliza-
beth Winn, Juneau newspaper-
woman. They proceeded to the
interior by the evening train
and will be back here at the
week-end on their way back to
Alaska.

FOOTBALL HEADS HOLD MEETING

At a meeting of the executive of the Prince Rupert Football Association last evening in the Canadian Legion clubrooms, the president was authorized to write to the Commanding Officer H. M. C. S. Ontario expressing the

disappointment of the Association at the failure of the navy to field a team for the second of the two-game series on the occasion of the recent visit of the ship to Prince Rupert.

It is hoped to have holes for the framework for the goal nets drilled in the near future and also holes for the corner flags.

At present the Mobley Cup series is being played off. This schedule will be interrupted when the knock-out Stuart Shield is played. The draw was made last evening and the Battery will meet the Canadian Legion with the winner meeting the General Motors who drew a bye into the final. The first game will be played on August 29th and the final on September 1st.

Players were reminded that they are to be on hand for the starting of games on time. With the evenings drawing in, a late start will mean that a game may finish in darkness. The referee will call the game and teams will have to start with what players they have on hand.

Present at the meeting were J. S. Wilson, president; S. P. Woodside, vice-president; Jack Davidson, treasurer; Darrow Gomez and Jack Eby.

FOOD HANDLING AND PROCESSING CONSULTANT...

P. E. PAULSON

Refrigerated Foods Engineering Ltd., specialists in design and construction supervision of food handling and processing plants, announce that Mr. P. E. Paulson has joined the company as Vice-President and Managing Director.

Mr. Paulson is well known in the U.S. and Canada as an expert in modern methods of food handling and processing. He was formerly general superintendent of Canadian Fishing Co. Ltd., for whom he designed and supervised construction of canneries and refrigeration and cold storage plants. He also served for two years as mechanical engineer for Frosted Foods Inc., Oregon, U.S.A.

Head Offices of Refrigerated Foods Engineering Ltd. and associate company, Industrial Designing Service Limited, are at 529 Seymour Street, Vancouver, B.C.
Refrigerated Foods Engineering Ltd. recently completed design and supervision of construction of the \$2,500,000 plant of B.C. Ice and Cold Storage Ltd., Vancouver, Canada. Unique features of refrigeration and materials handling make this one of the outstanding plants of its kind in North America.

VETERAN MARKSMAN—

Jock Saldler of Edmonton, a former member of Canadian Bisley teams, is still an expert marksman after shooting in meets for 46 years. At the Dominion of Canada Rifle Association meet near Ottawa, he won a medal in the MacDougall match. He fired 49 out of a possible 50 at 300 yards and 73 out of 75 at 600 yards—three more than the runnerup.

(CP Photo)

LAND RECORDING DISTRICT OF PRINCE RUPERT

TAKE NOTICE that Canadian Fishing Company of Vancouver, B.C., Fish Processors, intends to apply for a lease of the following described lands for the purpose of operating a fish camp, situate in Skidegate Harbour, Queen Charlotte Islands, fronting Blocks 1, 2 and 4, Lot 3, Q.C.D. Plan 948:

Commencing at a post planted at the Southeast corner of Lot 10, Block 4, District Lot 3, Plan 948; thence South 647 feet more or less to the intersection with a line drawn East from the Southeast corner of Lot 11, Block 1, D.L. 3; thence West 488 feet more or less to the Southeast corner of said Lot 11, Block 1; thence Northerly and Easterly following the shoreline of Skidegate Harbour to point of commencement, and containing 6.5 acres, more or less.

Dated July 23rd, 1949.

HONOR PRIZE WINNER—Lt. Col. Stephen Johnson of Calgary is carried triumphantly away in a chair after winning the Governor-General's Match at the Dominion of Canada Rifle Association competition at Connaught Ranges near Ottawa. The 44-year-old, 220-pound marksman, said it was a thrill of a lifetime as fellow snipers carried him off—the traditional way of congratulating the winner of the featured match of the shoot.

"RAILROADERS", CHILDREN HAPPY; JOYLAND TRAIN STARTS RUNNING

The ghosts of railroad builders Jim Hill and Donald Mann joined a myriad of Prince Rupert youngsters in heaving sighs of relief when they learned that the Civic Centre, McBride Street and Pacific Railroad had finally got into operation this afternoon.

Casey Jones gave an almost audible whoop of joy when he learned that engineering difficulties, such as he once encountered fatally himself, had been overcome and that the roadbed was now adjusted to carry traffic.

Problems which have plagued the directorate of the miniature railroad on McBride Street have been dominated by concern about how to get the train running during Carnival Week, and many an hour's frantic planning has resulted.

To help solve the trouble of grades and turns, Jim Gilbert, assistant C.N.R. section foreman was called in for expert advice.

Railroad President Bill Stone, construction engineer Norton Youngs and treasurer Don Forward became the targets for endless demands from the town's small fry that the road be put in operation immediately.

What's the use of having a railroad if you can't ride on it—even in circles.

Things were at this impasse this morning when the problem was eventually solved. It was then that Mr. Forward, quite happily announced that this afternoon the trains would be running on the old C.C.M.S. & P.R.

PLAY BALL

If you see the baseball executive going around with fingers crossed don't be alarmed, they are just hoping the Weatherman will co-operate for the Smithers series here this week-end. Already this year, two proposed visits from the Ketchikan team have been cancelled due to threatening weather. Last year in two trips here the Smithers team managed to play one seven-inning game and that through a steady rain. On their second sortie here on Labor Day the downpour did not let up long enough for the teams to get into their uniforms and the local Association took a financial beating.

When the Prince Rupert All-Stars travelled to Smithers this year they divided games with the Interior club. It was the hottest day in the Bulkley Valley centre and the coast players were somewhat exhausted after eighteen innings of play.

If the law of averages really works the time is due for a break from the weather this week-end and some good baseball should be on the program.

Tonight, play in the City League continues when Merchants meet Savoy.

Francois Lake News

Mr. and Mrs. L. W. McClure (nee Eleanor Corliss) stayed a short time with Mrs. McClure's parents, Mr. and Mrs. Clarence Corliss, while on their way to Vancouver by car from Prince Rupert. They expect to live in Vancouver for a time.

The John Thompson family of Prince Rupert has been staying with Mrs. Thompson's sister, Mrs. Seymour Loveth, at the Co-op Sawmills for a month. The Abilt family returned to Vancouver by car this week.

Miss Jane Millar returned to North Battleford, Saskatchewan on Saturday. She teaches school near there and has been spending several weeks here with her brother Charles Millar and family.

Jack Walker and his wife and small daughter Sharon are now living on the ranch where Mr. Walker's parents, Mr. and Mrs. Andy Walker, formerly lived.

George Corliss has a badly lacerated face which he sustained when he was thrown from his bicycle on the Tweed Ranch driveway. Fortunately his eye was not damaged.

On Tuesday evening M. Bedford and C. Carter of the Shantymen's Christian Association showed the film "Voices of the Deep" in the Institute Hall here. About eighty people were present and all appreciated very much having the privilege of seeing this wonderful film.

Wayman Weldon's nieces, Mrs. Cotterel and Mrs. Metcalfe, are staying at Southbank with him, having come up by car from Beverley Hills, California. They gave an interesting "Chalk Talk" before the picture show. While Mrs. Cotterel talked, Mrs. Metcalfe did pastel drawings to illustrate the talk.

On Friday afternoon more than thirty gathered in Mrs. Earle Hanke's home at the Co-op Settlement for the Women's Christian Association meeting. Mrs. Cotterel and Mrs. Metcalfe offered their services, and spoke on "Women of the Bible." Mrs. Cotterel wore a beautiful Jewish dress and head-dress which gave weight to her talk and made it seem more real. Several hymns were sung and, after a short social period, the hostess served a delicious lunch assisted by her sister, Mrs. Watt.

More than thirty gathered at the Calder home on Sunday afternoon at the weekly service and Sunday School.

Continued rains are making a serious situation as regards the hay crop. Very little has been hauled in, and that cut in the fields is rotting.

New Zealand Fears McMenace of Hamsters

WELLINGTON, N.Z. (C)—New Zealand has placed a rigorous ban on the importation of the hamster, the mouse-like little animal widely raised as a pet in England and North America. Giving warning that he would press for a very heavy penalty on anyone trying to smuggle any of the animals into New Zealand, Minister of Internal Affairs, W. E. Parry declared that the hamster could become a worse menace than the rabbit in New Zealand. "Indications are that a hamster couple head an army 25,000,000 strong before 1952," he added. "Each hamster eats up to 100 lbs of food a year and the ravages they could inflict will be readily appreciated."

VETERAN OF RIEL UPRISING DIES IN CITY

Alfred S. Carter, pioneer of Alberta, died in the Prince Rupert General Hospital Tuesday in his eighty-ninth year. He had been a patient there, since the autumn of 1948.

Surviving members of the family are a son and daughter, Charles Carter of Dewdney, B. C., and Miss May Carter, residing in Edmonton. Both are now in the city. The funeral will take place tomorrow in the chapel of the B. C. Undertakers with interment at Fairview Cemetery. The hour will be 10 a.m.

The long career of Mr. Carter spans the growth and development of Alberta since the era of the frontier, and during the period when small settlements such as Calgary and Edmonton grew into flourishing cities.

He was in Calgary when the northwest rebellion flamed into hostilities, and served in the units directed by General Strang in the spring of 1885.

It was an anxious time for everybody and his recollections were of deep interest and unique value. He was frequently heard to say when commenting on the early days and the revolt launched by Reil, that had the Blackfeet gone on the warpath, the outcome in the thinly populated regions of Alberta might indeed have been doubtful.

However, the influence of the Crowfoot, noted Blackfoot chief, and Father Lacombe, long resident of the Canadian west in the early days went far in helping preserve peace so far as the Blackfeet were concerned.

Mr. Carter was born near Niagara in 1860. His father was prominent in the expansion of shipping and steam navigation on the Great Lakes.

Mr. Carter could remember, as a child, the visits to Canadian farms of agents of the American government. Their business was to buy horses for the Union Army, then engaged in the American Civil War.

The building of the C.P.R. attracted many thousands westward, and among them was Mr. Carter. He spent a while in Manitoba. He was aboard the first passenger train to enter Calgary, and he had not been there long before he made the

acquaintance of two other young men—founders of a newspaper that has long been one of the outstanding dailies of Western Canada, the Calgary Herald. He was in the employ of the C.P.R. around Banff for a while and later started a stage service between Calgary and Edmonton, conducting it for years and gaining, in this way, considerable knowledge of the country, and the incoming population.

It was after this that he became a rancher, operating a fine property at Innisfail, between Red Deer and Edmonton. This, he eventually sold and moved to Edmonton where he engaged in business until he decided to make another move, this time to Prince Rupert, a city in which he had unbounded confidence. This was around twenty years ago.

He was in the service of the C.N.R. at Prince Rupert, subsequently taking a position with the city, until advancing years made retirement necessary. Mr. Carter was a familiar figure on the streets. He was well known and esteemed, and there was nothing he liked better than to tell his friends about the old west, and stirring times before

Alberta and Saskatchewan were provinces.

FROM SHOES TO RADIO
LONDON (C)—Stewart MacPherson, 40-year-old Winnipeg-born former shoe salesman, has voted British radio's top broadcaster in a newspaper poll.

HEAVY RAIN IN ALASKA

But Akron Father and
Daughter Have Enjoyed
Long Drive

While rain had spoiled their fishing and muddy and high impassable roads in western Alaska made driving difficult, W. A. Whittington, retired attorney and contractor of Akron, Ohio, and his High School teacher daughter, Miss Dorothy Whittington, said as they visited here yesterday on their way home that they had enjoyed every minute of it and would not have missed the adventure for anything.

In their black Plymouth sedan with blue car-top boat lashed thereto, they arrived Tuesday night on the Prince George from Haines and started driving yesterday over the Skeena River Highway.

Starting from Akron June 10, Mr. Whittington and daughter went north through the prairies and Edmonton over the Alaska Highway and went on from Fairbanks to the coast at Anchorage. It was on the Richardson Highway and the Tok cut-off that they encountered heavy rains and very bad road conditions. They had to be practically pulled through at places. Notwithstanding high water, however, Mr. Whittington did get in some fishing.

They will drive through Central British Columbia and the Cariboo, turning eastward from Cache Creek to travel by the Big Bend and Lake Louise on the homeward drive.

It Pays to Advertise!

THEIR FIRST PEEK—The Pollard boys of Harrow, Ont., "see" their sisters sooner than they expected. With their father, Raymond Pollard, they are shown with a photo of their mother and her triplet daughters, born Saturday at a Windsor, Ont., hospital. The sons, left to right, are: Jimmy, 20 months; Brian, 3½ years; Larry, five; and John, seven. The parents had hoped their next child would be a girl but the trio surprised them. The babies averaged more than five pounds. (C. P. Photo)

Jo-Jo Sole Feline Entry as Centre Pet Show Goes to Dogs

Large and small, black and white, exuberant and timorous. That was the range of characteristic and personality exhibited by more than a dozen dogs who dominated the entries in the pet show which was a feature to last night's Civic Centre Carnival.

There also was a single cat, named Jo-Jo, well groomed and a bit worried about it all, offended perhaps because she was classified under the heading of "Best Alleycat."

Formal pet show judges would have shuddered at the judging classifications selected, but everybody, dogs, their youthful owners—especially their youthful owners—audience and judges enjoyed it all.

Only casualty was Roy Wheeler, Chief Judge and master of ceremonies who bore a claw mark on his cheek where Jo-Jo exercised her hooks while being shown to the audience. Jo-Jo has a retiring nature, her young mistress, Louise Anderson explained.

But Mr. Wheeler in the true tradition of showmanship, took it in his stride and Jo-Jo suffered her moment of glory without further protest.

The dogs, most of them affable, some of them shy, were the exclusive entries in contests for the blackest, whitest, largest, smallest and oddest pets in the city.

Some slight confusion arose among the three judges when two dogs named "Daisy" competed in the various events, but each was labelled according to the name of her owners—Pat

Phillipson and Jerry Gilchrist—and the fog cleared.

Following the judging by Mr. Wheeler, Ken Fegan and J. K. McLeod, all the pets and their owners were introduced from the stage. Each received an entry prize, while special prizes went to the winners of the various classifications.

Winners of first and second prizes are listed: Whitest Pet—Nipper, entered by Archie Parent; Daisy, entered by Jerry Gilchrist; Patch, entered by Maurice Trudeau.

Blackest Pet—Weiny, entered by Donald Letourneau; Buddy, entered by Mary Lou Lunn; Prince, entered by Doug Ferguson; Pal, entered by Larry Linklater.

Largest Pet—Dinty, entered by Kenneth McKinnon; Rex, entered by Jimmy McLean.

Smallest Pet—Buster, entered by Jimmy Rosedale; Skipper, entered by Andrew Beckett; Daisy, entered by Pat Phillipson; Boots, entered by Gerald Desautels; Bing, entered by Eleanor Walker.

Oddest Pet—Daisy, entered by Pat Phillipson; Daisy, entered by Gerry Gilchrist.

Best Alleycat—Jo-Jo, entered by Louise Anderson.

SYNTHETIC BRAVERY
Some tribes of Africa anoint themselves with lion's fat in order to gain courage.

WAR DANGER PERSISTS
OSLO (AP)—Officials say that floating mines will continue to menace coastal shipping for many years to come. Since the war's end some 7,500 mines have been taken from Norway's territorial waters.

COLOR LACKING
Blue is unknown as a pigment in feathers.

STORM NO MENACE (Continued from Page 1)

Most of the material for the new building was transported by barge from Boswell Cannery, nearest steamship stop, but part of it was shipped from Prince Rupert by the lighthouse tenders Alberni and Birnie.

The Alberni, a sturdy coal burner which is the workhorse of the service in northern waters was nearly lost a month ago in Fitzhugh Sound after delivering materials to Egg Island. Inexplicably, a section of her bottom plate opened, leaving a gaping hole. Her skipper, Capt. Joe Peterson managed to beach her before she sank. Later she was patched and is now in service again.

Designer and supervisor of construction for the new Egg Island light is A. B. Carswell, departmental construction engineer of Ottawa. His on-the-job assistant is L. E. Slaght, also of Ottawa who is immediately in charge of the workmen.

Weather and isolation have been responsible for a fairly large turnover in labor, particularly cooks. The men live in quarters on Egg Island. A causeway connects the islet to Egg Island itself.

The first light at Egg Island, a pivotal point in coastwise navigation, was built in 1898. Some years later it was destroyed by a gale. Both it and its second replacement were of wooden construction and placed more vulnerably to the sea than the present one.

The new light will be of the vapor pressure and its candle power will be determined mainly by the type of reflectors used in the lantern tower.

"Heavenly Chiffon Pie,"

Says Mrs. Robert Blair, Toronto
former Hospital Dietitian, and Teacher
"MY FAMILY raves about Carnation desserts like this Chocolate Chiffon Pie," says Mrs. Blair. "No cooking, no baking. And it's easy on my budget because it's velvet blended with Carnation to save cream."

Mrs. Blair is well qualified to appreciate Carnation's convenience—undiluted in recipes that call for cream, mixed half and half with water for whole milk purposes. She appreciates Carnation's fine nourishment, because all three of her children were Carnation fed.

Try Carnation Evaporated Milk in your cooking. Ask your doctor about a Carnation formula for your baby.

CHOCOLATE CHIFFON PIE

- 1 cup wafer crumbs
 - 3 tablespoons melted butter
 - 1 envelope unflavored gelatin
 - 1/4 cup cold water
 - 3/4 cup chocolate syrup
 - 1 cup Carnation Milk, chilled to ice-crystal stage
 - 1/4 teaspoon mint extract or 1/2 teaspoon vanilla
 - Shaved chocolate
- Mix crumbs and butter; press firmly into buttered deep 9-inch or 10-inch pie plate. Chill 1 hour. Soften gelatin in water. Heat syrup just below boiling; add and dissolve gelatin; chill until cold but not thickened. Whip Carnation Milk; fold in flavoring and chocolate mixture. Pour into crust; chill. Decorate with shaved chocolate.

My roof leaked like a sieve

***DUROID** fixed it
like this...

First—to aid in determining the required quantity—we checked our roof for size.

Then—my wife and I visited our local Sidney Dealer and viewed DUROID samples for color. She chose red. I picked green. That's right—the roof is red.

Easy-to-follow directions for application were contained in every bundle. So in no time at all we had finished the job. Bright DUROID Shingles were applied right over the old roof.

It was amazing—our home was new again! No more leaks—no more patching or painting. Our colorful DUROID roof provided a permanent end to expensive repair bills and seasonal upkeep.

*SOMETHING TO REMEMBER!
Genuine DUROID Shingles are made only by Sidney Roofing and Paper Co. Ltd.

A WEEKLY INFORMATION

MONTREAL, August 18.—Just in "Pickling Time"! ... this free 16-page of recipes called "Pickling Success" piled by the experts who have prepared Vinegar for every cooking purpose. Yours for the asking! Simply write to me, Barbara Brent, 1411 Crescent St., Montreal, P.Q. I'll send you a copy of this FREE VINEGAR to help you with your pickling. It will not only be easy ... it will be a sure success! Vinegar is made from corn, barley, malt and rye—distilled in wood to bring out the full aroma and flavor. Just a few cents more will give you the flavor of Heinz Vinegar—the flavor that has made Heinz own pickles famous.

Resigned To Dull, Lack-Luster Hair From Using Drying Shampoo? Cheer up! ... here's your chance to get a 30c bottle of wonderful KREML SHAMPOO for just 10c!

Kreml Shampoo has a natural oil base so it can't possibly dry or break your hair. In addition, Kreml contains the magic ingredient, "Folisan" (P. O. ... it cleanses your hair gently, yet thoroughly, and rinses away quickly! This amazing shampoo leaves even lifeless-looking locks radiant with natural sheen! Since only seeing is believing, why not take this grand opportunity to try Kreml Shampoo now? Write to me—Barbara Brent, 1411 Crescent St., Montreal, P.Q.—enclosing 10c ... and I'll send you 30c bottle of Kreml Shampoo—post-haste!

Enjoy Your Summer Tennis—Cr. Swimming for eyes that feel sun-water-burned, do this rest them with the eye-fortifying refreshment. Just 2 drops of Monocine will give them a new comfort to use in the morning. You see, Monocine is a natural eye-balm to help give you the cure they deserve. Monocine and eye medicine are a thing of the past. Monocine is the eyes call for relief from feeling.

Tea-Time, I've always thought, is one of the pleasantest customs. Whether you're working all day or feel the need of refreshment after an afternoon of golf or tennis—a hot cup of tea is a delightful "pick-me-up". But—oh!—the disappointment if it isn't good! That's why I urge you to choose your brand carefully for extra-good flavour ... choose TENDER LEAF TEA! It's the tea that's made from the little top leaves and they give it that added touch of zest and sparkle that means real tea enjoyment. Tender Leaf Tea—rich—fragrant—grand—find it in the grocer's in convenient size packages. Ask for it—for "real" tea-time satisfaction!

A Reader Writes: "I'd like a helpful hint or two on how to keep my skin fresh-looking and smooth in spite of its forty-odd Summers' maturity!"

Nicest "beauty-treatment" I know for helping to keep complexion satin-smooth (be they youthful or mature) is a daily "Woodbury Facial Cocktail"! Here's how!—Work up a creamy-rich lather with WOODBURY FACIAL SOAP. Massage thoroughly over face to cleanse and soften. Follow with two rinses—a warm and a cold. It's one of the most effective beauty habits I know! You see, Woodbury Soap contains a soothing beauty-cream ingredient—leaves no dry, tight feeling! Try it!—see and feel your smoother skin after a beauty-mild cleansing with Woodbury Facial Soap!

For Cool, Nourishing Milk Drinks ... quick ice cream this Chocolate Syrup, like all dishes made with BAKER'S CHOCOLATE, has the real chocolate flavour and deep-rich colour, everyone loves! Baker's Chocolate is all pure chocolate, satin-smooth, with nothing added, neither taken away.

CHOCOLATE SYRUP

3 squares Baker's Unsweetened Chocolate Dash of salt
2/3 cup water 1/2 cup corn syrup
1/2 cup sugar 1/2 teaspoon vanilla

Place chocolate and water in saucepan. Cook slowly until blended, stirring constantly. Add corn syrup, salt. Remove from heat. Cool slightly; add vanilla. Pour into 1 jar, in refrigerator. About 1 1/2 cups syrup.
