Big Things Take Time

WHEN IT IS PLANNED to spend hundreds of millions, those who do the spending are not going to be hurried. The Aluminum Company of Canada is a case in point. It will be another year before a definite decision is made as to the site of the plant to be established in British Columbia—that is to say what part of British Columbia. There have been many suggestions leading to the expectation that Tweedsmuir Park-Kitimaat will be the selection. All very well but, before the final step is taken, it is necessary to be sure that Tweedsmuir Park-Kitimaat is really the best.

One remembers the period that elapsed between the original suggestions and the time that the local celanese mill project got under way. Now everything is proceeding most satisfactorily, probably better than if there had been precipitate or ill-considered commencement.

BLESSED RAIN

RAIN CAME TO ALBERTA this week. It was welcome but filed to save the crop. It's been a dry, hot, dusty summer in Alberta. Grain growers prayed for rain. The supplication was answered—but too late. No city in America has been more consistently abused, because of a generous rainfall, at certain seasons, than Prince Rupert. Rain! Can it be so bad as all that? Are we to be pitied, because we have more rain than Alberta? Rain! The unloved moisture came too late to save Alberta's live-giving harvest and peace of mind.

GOING TO UNITED STATES

LAURENCE STEINHARDT, United States Ambassador to Canada, who was here today, says this country, from the industrial and economic standpoint, is today where the United States was standing in 1890. He could not, he said, understand why so many Canadian youths keep flocking across the border. It will take more than the seasoned judgment of this experienced and observant diplomat to cause much or any difference. Once a young fellow makes up his mind, rightly or wrongly, he's off. Mr. Steinhardt's viewpoint, is nevertheless, timely. It certainly strengthens the vision of Laurier, and where the twentieth century belongs.

CANADA, FRANCE, U.S. DEDICATE HISTORIC SITE—Representatives of France, the U.S. and Canada gathered recently on tiny St. Croix island to dedicate the historic seven-acre plot of ground as a national park of the United States. Site of the ill-fated winter settlement of Samuel de Champlain and the Sieur de Monts in 1604-05. St. Croix island belonged first to France, then to England and finally to the United States. It is situated in mid-stream in the St. Croix river which forms eastern extremity of the border between the United States and Canada. In the photo Hon. D. L. MacLaren, Lieutenant-governor of New Brunswick, is shaking hands with U.S. senator Owen Brewster. Plaque erected in 1904 is seen in the immediate background. Left to right are Wesley Stuart, M.P., Charlotte County, N.B.; M. W. McCoombe, mayor of St. Stephen, N. B.; Hugh Balkam, M.L.A., St. Stephen, N.B.; Maj. W. A. Schofield, St. John, N.B.; aide-de-camp to lieutenant-governor; D. A. MacLaren and Senator Brewster; Senator Burton Cross, president of the Maine State Senate; Hon. C. Girard Davidson, assistant U.S. Secretary of interior, and Mayor Henry English of Calais, Maine.

BOY HOOKS FISH, FISH PULLS BOY, DAD SAVES BOTH—When eight-year-old Donnie Sellers hooked this bass in the Rocky Mount lake, North Carolina, he set off a fast and furious chain of events. The bass, fighting furiously, pulled Donnie into the lake, but Donnie held on to his fishing pole. Dad Sellers plunged into the lake to rescue his son, and pulled him to dry land. Donnie was still holding fast to his fishing pole, and Mr. Bass was still at the other end.

LETTERBOX

LIKES LIMBERLOST

Editor, Daily News:
For many years it has been my endeavour to spend my vacations in different parts of British Columbia with a view to learning more about our province. Upon hearing that Limberlost Lodge, Masset, Queen Charlotte Islands, was to be opened on June 25, I immediately decided to spend my vacation there.

After a delightful and restful sea voyage on the steamer Coquitlam from Vancouver we arrived at the beautiful village of Masset and immediately proceeded to Limberlost Lodge where we were assigned to a clean and cosy cabin.

Limberlost Lodge is all and more that the management claimed in their prospectus. The beds are very comfortable. The meals are excellent and the setting is ideal with one of the finest ocean beaches imaginable a few yards from your door which is the healthful delight of every child and adult.

The express purpose of this letter is to inform you of my reactions to this beautiful vacation spot and to recommend it to you and your readers who may be planning a vacation and want to go to a place where

they can rest, fish, enjoy organized sports and be assured of good, well-cooked food.

The management of Limberlost Lodge are to be highly commended for their praiseworthy efforts in establishing this resort on the Queen Charlottes which is so accessible to the people of Prince Rupert in particular and the citizens of British Columbia in general. I wish them every success.

E. G. ROWEBOTTOM,
Deputy Minister of Trade and Industry, Victoria.

ISLE OF ELY, Cambridgeshire England—The 180-year-old toll bridge at nearby Chatteris has been freed for tolls.

Ray Reflects . . . and Reminisces

Travel overseas this summer is heavy and those who make it their business to be well informed say it will be far greater in 1950. There are reasons. In 1945, the war ceased officially. During the preceding five years, boys in uniform met girls in Britain and Europe. The new relationships had far-reaching consequences. There has been time to feel a vital interest in people and places—to mingle with virtual strangers yet who had become kin—hear what could be said, see the stains and scars of struggle, and view the resting place of loved ones. Visitors from Canada, returning from a first sojourn across the seas, will do so possibly with new impressions of the meaning of war.

Life is often saved through the speed of air travel. So is time. But there is another side to the picture when one realizes that since last January, the crashes reported from different parts of the globe cost between 550 and 600 lives. Uneventful flights are not heard of and the same is true of motoring, steamship and railway services. Distinctly, accidents are inevitable. Precautions will reduce them, and that's about all.

Kay Marshall of Moose Jaw (Saskatchewan), aged thirteen, has won the grand prize for the best essay on "Our Navy and Seaborne Trade." She will be the guest of the Navy League and experience a sail on a warship. Moose Jaw is approximately the same distance from Hudson's Bay, the Great Lakes, and somewhat nearer the Pacific than the Atlantic. If the home town makes any claim to being an inland city, the assertion may be described as well established.

Hot Food Seen Cancer Cause

British Experiments Suggest Frying Pan Quietly

By WILLIAM BOSS
Canadian Press Staff Writer

LONDON, — Overheated foodstuffs are being investigated as a possible source of cancer, the British Empire Cancer Campaign has announced.

Tabling its annual report, the society, of which the King is patron and Viscount Hallsham chairman, noted that malignant tumors have been induced in mice fed with emulsions of cottonseed oil previously heated to 350 degrees centigrade.

The news lifts the household frying pan into the category of a possible contributor to the disease if the grease is overheated.

"A study of the temperatures reached during various types of cooking procedures showed that in open frying, temperatures above 320 degrees centigrade may be concerned," said the report.

Normal frying temperatures for deep-fat frying were given as 250 degrees "whereas the temperature of fats in the open frying pan frequently exceeds 320 degrees."

The document reviews cancer research throughout the Commonwealth, and besides

various Canadian provincial reports includes one from the National Cancer Institute of Canada.

TUMOR REGISTRY

In its first report to the coordinating organization, the N.C.I.C. disclosed the establishment in Ottawa of a Canadian central tumor registry under Dr. Esmond Magner, Pathology Professor at the University of Ottawa.

It is one of the first in the Commonwealth for maintenance of "a central collection agency and tumor library where typical and unusual tumors may be filed and made available to provincial laboratories and university centres."

The British organization's consultant panel predicts collaboration with the Canadian registry, enabling broader exchange of notes.

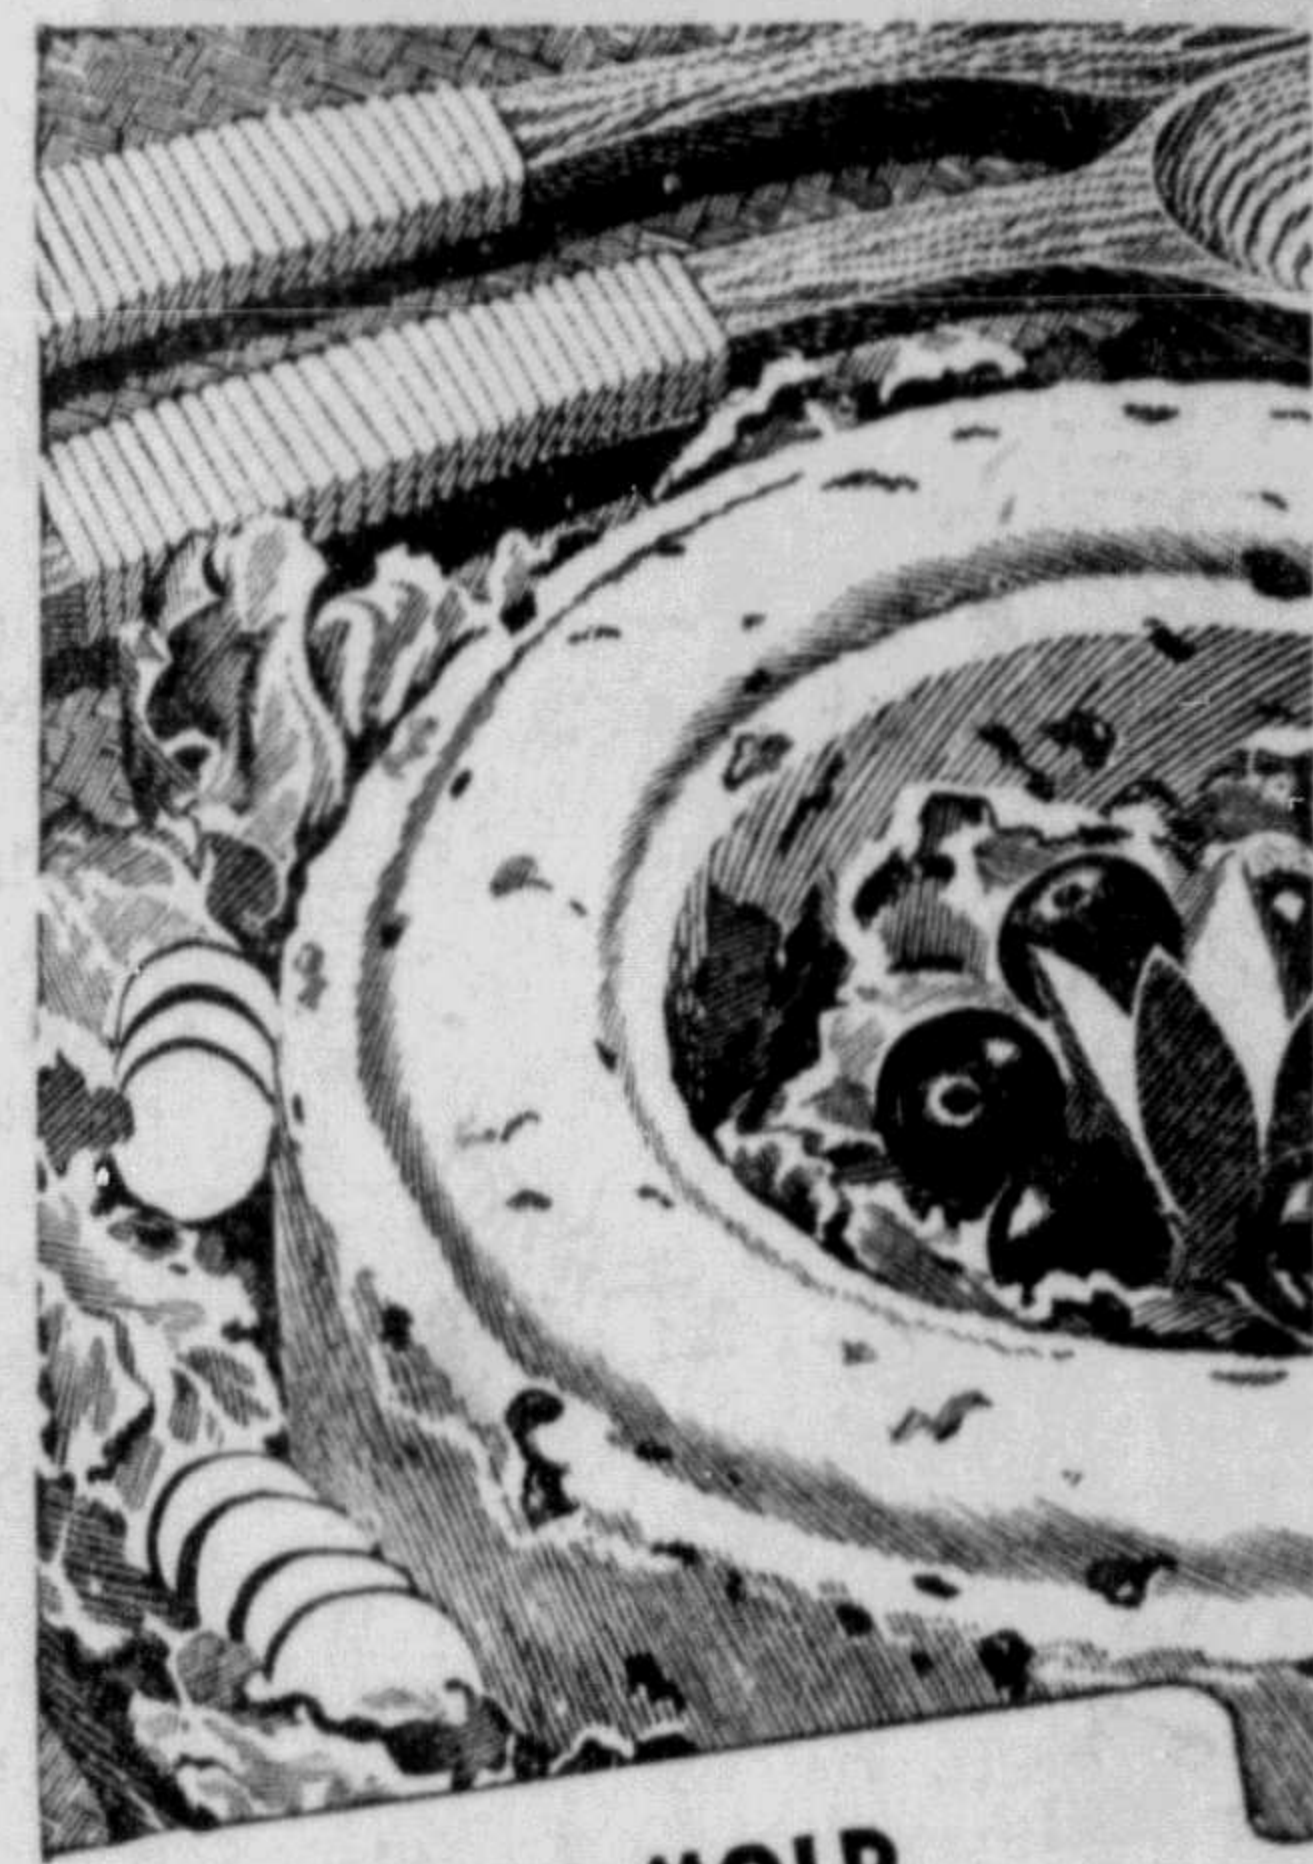

Exchanges of fellowships between Canada and Britain — two in each direction yearly — are made known and "it is hoped the first two Canadian fellows will start work in England in the coming autumn."

The Canadian institute expressed the opinion that in Canada research might best continue in the universities and their associated teaching hospitals. "A large central cancer research institute would tend to withdraw trained research personnel from the periphery, a policy not justified by the paucity of trained workers in Canada."

The Saskatchewan Cancer Commission, noting the Dominion Institute's statement that lay and "professional education in recognition of early symptoms of cancer must be intensified" said full value from this was impossible without a clinical follow-up.

A four-page report—one of the longest in the 320-page review—was devoted to describing the province's scheme for free cancer treatment.

"Save on Summer Salads"

TUNA MOLD

- 1 envelope unflavored gelatin
- 1/4 cup cold water
- 1 cup Carnation Milk
- 2 egg yolks
- 1 teaspoon salt
- 1 teaspoon prepared mustard
- 1/4 teaspoon paprika
- 2 tablespoons lemon juice
- 1 7-oz. can tuna (or 8-oz. can salmon), drained and flaked
- 1/2 cup diced celery (optional)
- 1/4 cup pimiento (optional)

Soften gelatin in water. Heat milk in double boiler, add gelatin and stir until dissolved. Combine egg yolks, salt, mustard, paprika, and beat slightly; add small amount of the milk and return to double boiler. Stir constantly over hot (not boiling) water until mixture thickens. Cool. Add remaining ingredients. Chill in large mould.

A CANADIAN PRODUCT

DECISION

(Continued from Page One)

No field work will be performed next winter but the company will keep observers in the area to record the water flow and report on general weather conditions.

Shortly before Mr. Dubose

and party left Nechako, B.C., in the morning, there arrived a nationally known geologist, Prof. Karl Terzaghi of the University of California. He will explore the site of the proposed Nechako dam, and explore the geological structure of what is selected before reporting to company officials.

A Nourishing Hot Lunch - Quick to Prepare

It's no trouble at all to give your children the hot lunch they need when you have Libby's Deep-Browned Beans on hand. Just reach for a tin, heat and serve. Libby's is a dish that appeals to healthy young appetites for it's rich in appetizing aroma and hearty, satisfying flavour. And Libby's Beans are always mealy and tender, Deep-Browned right through to the centre by an exclusive Libby process. Another point to remember Libby's are thrifty, too—a generous serving costs about 5c—yet it provides a wholesome, nourishing lunch. Order a good supply of Libby's Deep-Browned Beans—you'll agree Libby's are the best you have eaten or Libby's will pay you double the purchase price.

DISTRICT NEWS

Timely Topics from Terrace

Mrs. C. R. De Kergommeaux, Terrace Reporter

Hon. and Mrs. E. T. Kenney arrived in town at the end of last week and are holidaying at their summer camp at Lakelse Lake.

The small daughter of Mr. and Mrs. Duncan Kerr had the cast removed from her leg last Saturday and is getting along well at home, her leg having sustained no permanent injury when she broke it in falling down the basement steps some time ago.

W. Osborne left last Thursday by train and plane for Vancouver returning on Tuesday afternoon by truck.

Mrs. Shirley Preston of Prince George and children are spending a holiday with relatives in town.

Mr. and Mrs. G. McAdams travelled to Prince Rupert on Thursday last to see their house guests, Mr. and Mrs. Roger Phillips, off on the evening boat to Vancouver.

Mrs. J. Atwood returned last week from Trail where she has spent the past three weeks on holiday.

Mrs. H. Lynum, wife of the superintendent of the Celanese Corporation in Terrace, has arrived to spend the summer months with her husband.

RAPID HEADWAY ON ATLIN ROAD

STEWART—Reports from the town of Atlin, recently received here, indicate that the work on the new highway from Atlin to Jake's Corner on the Alaska Highway, is proceeding apace. Eleven miles of grading had been done at the time of the report and it is expected that it should be through to Atlin by October 15 this year.

Brigadier Connolly, in charge of Army Administration, stationed at Whitehorse, in the Yukon, is in charge of construction.

NEW BUILDING FOR TERRACE

TERRACE—Monday morning Martin Brothers and Campbell started work on Lakelse Avenue, directly east of the telephone office, on the excavation of the building which will be erected by Sargent, Robin and Salt Limited merchants of McBride and Vanderhoof. E. E. Sargent and his brother, Paul, are here from Hazelton to supervise the work and they expect to open a modern grocery and meat store by October 15. E. Sargent has purchased the property of Joe Spitzel to which he will be moving his family some time in August.

MOVE PAPER TO TERRACE

TERRACE—Mrs. T. Fraser of the Omineca Herald spent Thursday evening and Friday last in town on business. Mr. and Mrs. Fraser expect to be able to move the printing plant down to Terrace by the end of the week where the paper will be published here in future. They have taken over the Skeena Cafe for their business premises.

STEWART

Air Service Boon to Stewart—Girls in Camp—Mining Activity

R. H. Dunlop, general foreman, Department of Public Works for Atlin, was a passenger on the Queen Charlotte Airlines plane to Alice Arm on routine business. R. G. Hutchings, local butcher, also left on the same plane for Prince Rupert on business. It is expected that a weekly trip will be made to Stewart if the necessary arrangements can be made. If this arrangement comes to fruition it will be of incalculable benefit to this community as the doctor can take advantage of the service, coming by plane he can leave on the Monday boat which would give three days to take care of the patients here. In case of emergency it would also be of great value.

Under the auspices of the Stewart Parent Teachers' Association, fifteen girls went into camp at Bear Lake. They had two or three days of fair weather, but had to cut their outing short on account of torrential rains experienced towards the end of the week. Mrs. L. A. Behnsen, Mrs. R. Barwise and Miss Jeanann Crawford were in charge of the camp. Notwithstanding the dampness of the weather, the girls all voted that they had a good time.

Bill McLeod, piloting a Queen Charlotte Airlines plane, flew in last Friday from Prince Rupert. During his stay he took Al Phillips and supplies to Summit Lake, Phillips was en route to the mining property on Tide Lake, a few miles further up the salmon River Valley, to prepare for his summer's work on his claims. While the Summit Lake is open, the pilot said that there is quite a bit of ice on the lake.

The Silver Tip Mining Co. are in the course of making preparations for the season's work. Supplies are now being taken in by the Crawford Transfer Co. The going is pretty difficult as there is still three or four feet of snow on the Missouri flats. W. R. Tooth is the local representative of the company. George Winkler, Managing Director of the company is expected in a few weeks.

Official reports from the George Enterprise, indicate that a fairly large body of high grade ore has been uncovered during recent operations. This property adjoins the George Copper which is owned by the Consolidated Mining and Smelting Co. Ltd. Mr. and Mrs. W. B. George are in charge of operations.

Sheldon Black, inspector for the Bank of Montreal, has been in town during the past week on routine business.

CANTERBURY, England—Calling for silence at a football referees' dinner here, the toastmaster dispensed with the gavel and, blew a whistle.

GOOD TIME, MONEY BACK

Terrace Girl Guides Camp Memorable Outing

Terrace community never backwards when it comes to helping out with any entertainment for children, came forward generously this year with donations of money and food and offers of service to the Girl Guides who were making their first camping trip out to Lakelse Lake. These contributions brought down the initial cost of the ten days' holiday to the Guides to the extent of approximately forty per cent and there will, accordingly, be a welcome refund to each girl of part of her camp fee.

This was disclosed at Monday afternoon's meeting of the Girl Guide Association held at the home of Mrs. Duncan Kerr. There was a good attendance of members presided over by Mrs. Head.

Mrs. Clifford and Mrs. Gavan, who had served on the camp buying committee, had purchased the supplies to the very best advantage. Cars had been provided free of charge by Harold Smith, John Sikler and Constable Brue.

The whole trip had been made possible through the generosity of the Prince Rupert Kinsmen Club who had donated the use of their camp at the south end of Lakelse Lake for the time required.

The outing had been successful from every angle and the girls had had a wonderful holiday with the opportunity to work for their badges at the same time.

Routine business of the association followed the camp report.

Guide cookies to the amount of \$300 had been sold in the district, the money going to headquarters in Vancouver for Guide work with a small proportion of it being returned to

the local groups.

A hearty vote of thanks was extended to Mr. and Mrs. C. J. Norrington who presented the Terrace company with the standard which had been unfurled at the camp at Lakelse and kept flying the whole time the girls were there.

The association decided to do what is necessary to have the Anglican Church hall made ready for the Guides and Brownies when they meet again in September.

There will be no meeting of the Association in August, the next one being scheduled to take place at the home of Mrs. McIlroy in September.

News of Francois Lake

Mr. and Mrs. J. Viereck of Prince Rupert paid a visit to the Landing on Sunday.

Mr. and Mrs. Jack McDougall have taken up residence in their new home which was recently left by Mr. and Mrs. W. E. Funnell when they moved to Burns Lake.

Mr. and Mrs. Stevens, who

Finest Quality Tea

"SALADA" ORANGE PEKOE

formerly lived near Uncha Lake, have been visiting here for a few days. They are now living in Vancouver and are going on by car to Lloydminster to attend the one hundredth birthday of Mrs. Stevens' father there.

Mr. Hann's son-in-law and daughter, Mr. and Mrs. G. W. Robinson, and their two daughters, Carol and Gail, of Smithers are staying at Southbank for two weeks.

Captain Bruce Little, Mrs. Little and Harry have been renewing acquaintances in the

district for a few days, having come up by road from Kelowna.

On Thursday evening several carloads of young people surprised Joe Hendricks when they gathered at his summer home by the lake. They roasted weiners round a campfire and sang songs accompanied by guitars and an accordion. They danced in the house and left in the small hours of the morning after having had a most delightful time.

ADDISCOMBE, Surrey, Eng. — Non-smoking inspector Fred Piper has collected 250,000 cigaret cards and 70 pipes,

WESTERN UNION NATIONS CO-ORDINATE NAVAL STRENGTH—In the largest assembly of naval might since the war vessels of four western union nations of Europe, Holland, Belgium, France and Britain mass a hundred strong at Mounts Bay, near Penzance, England, to start combined manoeuvres as a single fighting fleet.

roof leaked like a sieve

*DUROID fixed it like this...

First—to aid in determining the required quantity—we checked our roof for size.

Then—my wife and I visited our local Sidney Dealer and viewed DUROID samples for color. She chose red. I picked green. That's right—the roof is red.

Easy-to-follow directions for application were contained in every bundle. So in no time at all we had finished the job. Bright DUROID Shingles were applied right over the old roof.

It was amazing—our home was new again! No more leaks—no more patching or painting. Our colorful DUROID roof provided a permanent end to expensive repair bills and seasonal upkeep.

SOMETHING TO REMEMBER! The DUROID Shingles are made only by Sidney Roofing and Paper Co. Ltd. your Sidney dealer today.

The Experts Say...

Cream Desserts — Whipped cream, combined with fresh or canned fruits, makes delicious summer-time desserts.

Home-economists say that when whipped cream is required whipping cream—that which tests at least 30 percent butter-fat—should always be used.

Cream should be at least 24 hours old; cream and utensils should be cold; only a small amount of cream should be whipped at one time; if cream is whipped until stiff and dry it will stay whipped for several hours; sweetening, salt or flavoring should be added to cream after it is well whipped.

Frozen fruit pudding fits the menu whether it be luncheon or dinner. And it is bound to become a favorite with the family.

Ingredients: one egg white; one-quarter cup honey; one cup whipping cream; one cup diced fruit (fresh or canned).

Beat egg white and honey to a stiff meringue (about seven minutes). Whip cream and fold in, then fold in fruit. Pour into the freezing tray of the refrigerator and freeze until firm. Yield: six servings.

Ice Cream Cake—Ice cream cake is another refreshing des-

COMMODORE JOINS IN SING-SONG—Shortly after her return from an Italian holiday, Princess Margaret joins in some good girlish fun at a camp fire in Hylands, Park, Essex, England. As a Sea Ranger Commodore, Princess Margaret went to a Girl Guide rally at the park. She took the salute at the march past of 6,000 Girl Guides, then the formalities over, she sat herself down on a log and sang with the best of them in a bout of community singing. Left, is Lady Baden Powell, chief guide, and right, Miss K. Daniels, county commissioner for Essex.

sert in these hot weather days.

Ingredients: light cake, one inch in thickness; one ice cream brick; three egg whites.

Halve the cake and cutting ice cream lengthwise place on one of the halves. Cover with the other half of the cake. Beat the three egg whites until dry and add six tablespoons of white sugar. Cover the cake top and sides with egg white and brown in the oven as for pie.

Honey for Sugar—Honey may be used as a substitute for sugar in many a recipe, and with delightful results. Here are a few rules which should be followed when using honey in a dish which calls for sugar.

Measure honey in liquid form. For every cup of honey used, reduce the liquid called for in the recipe by one-fifth. One cup honey is as great in sweetening power as one cup of sugar. Use one-quarter to one-half teaspoon soda to each cup of honey. Increase the amount of salt by one-eighth to one-quarter teaspoon. When substituting honey for sugar in cake, reduce the liquid of the recipe by one-fifth and use half honey and half sugar. In pie filling add the honey with the thickening agent.

Honey Cream Filling — **Ingredients:** one-half cup honey; 1 1/4 cups milk; one-eighth teaspoon salt; one-quarter teaspoon vanilla; three tablespoons cornstarch; one tablespoon milk.

Combine honey and milk and bring to a boil. Combine other ingredients and beat until smooth, add to first mixture and cook over hot water for 10 minutes.

IS HONORED FOR QUICK THINKING

Saskatchewan Boy, Who Prevented Tragedy, is Feted

SASKATOON—A sixteen year old boy was the toast of Saskatchewan here last evening when he was the guest of honor at a dinner in the Bessborough. The dinner was in recognition of his clear thinking and quick initiative on June 9 when he ran more than a mile to report to the Canadian National agent at Zenon Park, Saskatchewan, that more than 50 feet of the railway track had been completely washed out by a cloudburst. He saved what might have been a great tragedy as the passenger train was ready to leave as he arrived.

The boy was Robert April, son of Emile and Mrs. April, who farm three quarters of a section, and is one of ten children. The dinner was presided over by Superintendent D. C. Gough and was attended by Mayor J. S. Mills, of Saskatoon, Inspector Buchanan of the Royal Canadian Mounted Police, S. McEachern, manager of the Chamber of Commerce, newspaper and railway officials.

During the evening Robert April was presented with an engraved wrist watch by the railway company in appreciation of his outstanding act.

It was the thrill of young Robert's life as it was only the second time he had ever been on a railway train when he arrived in Saskatoon and the first time he had ever seen a city.

RAILWAYMAN IS RETIRING

WINNIPEG—Bringing to a close a railway career that dates back to 1906, during which time he has covered every part of Canada and most parts of the United States, James M. Macrae freight traffic manager, Canadian National Railways, Winnipeg, will retire to private life at the end of this month. Mr. Macrae will be succeeded in Winnipeg by Walter Hatley, presently general freight agent at Vancouver.

Mr. Macrae is one of the most widely known railway traffic men on the continent and one of the best informed. He has been a close student of transportation requirements as related to the various communities under his jurisdiction had ready entry in all shipping circles.

Born in Stornoway, Scotland, he started with the Canadian Northern Railway in 1906 as a clerk in the Audit Department in Winnipeg. After serving as a stenographer and in other positions for some years he was transferred to Saskatoon as district freight agent. In 1919 he was appointed assistant general freight agent in Winnipeg and in 1920 was moved to Vancouver as general freight agent.

In 1939 he was appointed assistant freight traffic manager in Winnipeg and moved to Montreal in 1942 in a similar capacity. In 1946 he was promoted freight traffic manager on his return to Winnipeg.

Walter Hatley started as a biller in Hamilton in March 1904 and after serving in the east until 1913 he was transferred to Winnipeg. He was promoted to chief clerk in 1915; in 1919 was appointed assistant general freight agent and in 1939 as general freight agent and remained there until his present promotion and transfer to Winnipeg.

TIME TO GET BUSY MAKING JAM AND JELLY

For Quick, Easy Sure Results Take Your Choice of **CERTO** or **CERTO Crystals**

Jam and jelly-making need not be a chore. The sensible, modern way to do it is with the help of CERTO or "CERTO" Crystals. Both are fruit pectin—the natural substance in fruit that makes jams "jam" and jellies "jell" — extracted and concentrated for efficient jam and jelly making. The name "CERTO" is a trade-mark.

Please yourself which you choose... some prefer the liquid — some the crystals. Each ends guesswork and tedious long-boiling. Each gives sure results if you follow the instructions exactly.

Why CERTO Fruit Pectin or "CERTO" Crystals Make Better Jams and Jellies... Easier... Quicker

1. VERY SHORT BOIL. When you use or "CERTO" Crystals you need only MINUTE full, rolling boil for both jams and jellies. Such a saving of time and energy.
2. MORE JAM OR JELLY. Very little time to boil away as it does in old-fashioned long-boiling. You get up to 50% more jam or jelly from the same amount of fruit.
3. FRESH-FRUIT TASTE... COLOUR. The taste and colour of the fresh fruit in jams and jellies because the boiling is so short that it does not spoil the one or dull the other.
4. NO GUESSWORK. With either CERTO or "CERTO" Crystals you get tested and different one for each fruit. Follow exactly and you'll have no failures.
