Setting Up of Separate Communist Government Further Complicates Crisis

BERLIN ()—Russian-backed Berlin communists established Tojo and Six War Criminals a separate city government today in opposition to the elected anti-communist administration. The communists thereby made virtually complete the political division between eastern and western Berlin.

A new anti-communist government to administer western sectors of the city occupied by the United States, Great Brittain and France will be chosen in elections Sunday. The Russians have forbidden voting in their sector of the city and the communists ordered their followers to boycott the election.

Establishment of a seperate government came in the city's MOOSE JAW Soviet sector at a mass meeting, called with the avowed aim of taking "decisive measures for the protection of united Berlin."

The new communist move is expected to nullify a latest compromise plan of the United Nations "neutrals' 'to settle the Berlin crisis, which compromise the Russians had expressed of supporting."

C.C.F. Shows Strength

THE Liberal Progressive-Conservative Coalition tour, also visiting the central Ernest Ricky and Edward home one had to negotiate three the man. I government candidate in South Okanagan byelection has been elected by a close margin and in Rossland-Trail the government candidate has gone down to defeat by a narrow majority at the hands of the Socialists in a riding where the livelihood of the most of the people is due to the operation on large scale of one of the country's greatest free enterprise corporations.

The electors might be said in both contests to have expressed some dissatisfaction with the coalition government. Possibly the three percent sales tax, in spite of all the protestations of its necessity and justification, was responsible more than any other factor.

Unless something drastic is soon done to stem the tide, the results in Rossland-Trail and, to lesser - degree in South Okanagan, may be accepted as suggestive of what might come in a general election.

The results pose a problem and a challenge not only for the coalitionists but for those who would stem the rise of socialism in British Columbia with all that might be implied if they got into power which now would seem to be quite a possibility.

NEW HOTEL HERE

THE announcement of the incorporation of a new company with the objective of establishing a fine, large hotel in Prince Rupert is of timely interest and importance. The city has long felt the need of a modern up-to-date hotel offering all the facilities and services of a first class hostelry.

Prince Rupert fo rmany years has known what it has been to have a dearth of suitable hotel accommodation. The existence of a fine hotel would attract more travel and visitations here.

Meantime with large new industrial development about to commence, more extensive hotel facilities with full services will be not only justified but very necessary in Prince Rupert. It is satisfactory to hear that a move is now being made to satisfy the need.

POLITICAL CHANGES

A ORE is due to be heard of the move to break up the provincial coalition. The Young Liberal Association convention, calling for the party to go it alone again, brings the matter into the open. Next the British Columbia Liberal Association executive is due to meet in Vancouver and the future -course of the party in relation to coalition will, undoubtedly, be also considered there.

Meantime, there are also the elements in the Progressive-Conservative ranks who have been active in keeping the provincial entity alive.

With a provincial election due probably within a year, some interesting decisions will, undoubtedly, have to be made and there is every possibility that there may be considerable change in the British Columbia political picture.

SITUATION IN CHINA

N SPITE of occasional resurgences of resistance, the outlook looks dismal for the Nationalist government forces in China. Even United States military observers, keenly interested in what is going on, have admitted that it is extremely doubtful if the communist sweep of China can be prevented even if America naid should be forthcoming. Fact a is that there is a strong difference of opinion in the United States as to whether more extensive aid should be given. The President himself has given no clue as to what it is planned to do and the chances are that it will be nothing.

Japan will probably be retained as the anticommunist bastion.

In China it is not exactly a case of liking communism the more but of liking Chiang Kai-Shek the less.

AROUSED BY JONES ACT

CRAMED AND PUT into effect for the increased protection of United States business interests, the Jones Act is gradually becoming more burdensome than beneficial and this is particularly felt in Alaska where the territory is so similar and convenient to Northern and Central British Columbia. One of the latest illustrations of this growing hostility toward the Act is seen in the decision of G. G. Kadow, a director of the Alaska Field Committee and a citizen of prominence in the north, to lose no time in working for its repeal. He has had personal experience with how great a handicap it can be, and realizes it cannot continue without arousing far reaching discontent.
