LIBERAL RALLY, Civic Centre SATURDAY NIGHT, JUNE 25 at 8 p.m. Hear Applewhaite Speak Everybody Welcome

BROADCASTS TED APPLEWHAITE-Friday, June 24, 4:20

When you, the electors, go to the polls to cast your ballot, remember that ballot is cast for your choice of selecting the government that will carry on the destinies of Canada for the next four years.

Before casting that ballot you should give thought and consideration to the issues and ask yourselves-Do you think that we have had a good government since 1945?

Do you think the government did the right thing when it started Family Allowances in 1945?

Do you think our savings Banks should be kept free from political control?

grants to the provinces under the National Health Plan? Do you think the children of Skeena Riding have a better chance in life because their parents receive about \$89,000 a month under Family Allowances?

Do you think the government is right in making health

Are you of the opinion that the working people are more secure because unemployment insurance was started in 1940?

Are you of the opinion that men will be put out of work if we amalgamate the railroads by socializing the C.P.R.? Do you think your representative can do more for you

if he is a supporter of the government rather than in the opposition, as during the past four years? If you believe in these things, and that the Marshall Plan, and the Atlantic Pact will help preserve peace then you will cast your ballot for Ted Applewhaite, who repre-

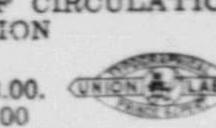

sents the government that has brought prosperity to Canada. FOR INFORMATION PHONE 550 OR 551

IT'S YOUR RESPONSIBILITY

THERE ARE far too many people who decide that the best thing to do is to stay away from the polls. They have the curious idea that in doing this they are not taking a part in the selection of a government. Nothing could be further from the truth. Whether you go to the polls or not you assist in selecting a candidate. If it so happens that a man whom you did not believe could be elected is chosen to represent you the fault for that situation is more yours than any other citizen's. You cannot escape the responsibility.

Whether you like it or not, as long as you are on the voters' list, you are going to be held responsible by future generations for the type of government selected.

The best thing to do is to go out and select the candidate you like. That does not mean that you have to vote for the man that other people suggest but the man you think honestly is the best man to represent you. The main thing to remember is that, if you stay away from the polls, you are actually casting your ballot for the man or party you do not want elected.

LIVEN BEGINNERS make jam and jelly like experts with the help of Certo Fruit Pectin or "Certo" Crystals. It's the efficient and truly natural way . . . because both Certo and "Certo" Crystals are nothing but fruit pectin - the natural substance in fruit that makes jams "jam" and jellies "jell", extracted and concentrated for easier, quicker, BETTER jam and jelly-making.

It doesn't matter whether you choose the liquid or the crystals. Both end guesswork and tedious longboiling. Both will give SURE results if you follow the instructions exactly.

SAVE TIME and WORK

Just a ONE-MINUTE full rolling boil for both jams and jellies. That's all you need when you use Certo or "Certo" Crystals. It's so quick and easy.

INCREASED YIELD

Since very little juice has time to boil away, you get an average yield of 50% more jam or jelly from the same amount of fruit.

FRESH-FRUIT TASTE . . . COLOUR

Cooking time is so short it does not spoil the fresh-fruit taste or dull the lovely natural colour. They stay right in your jam or jelly.

JAMS AND JELLIES TURN OUT RIGHT

Follow exactly the kitchen-tested recipes you get under the label of every bottle of Certo or in every package of "Certo" Crystals and you'll always make delicious, sparkling jams and jellies.
