

Dramatic Homer Gives Yankee Series Opener

ACTS WERE RECOMMENDED DEPARTMENT OF EDUCATION

(By A. BRUCE BROWN)

For the past three years the Board of School Directors in this district has been giving attention to the improvement of the school system by way of new school buildings for the city of Prince Rupert.

The board has realized for some time that it was faced with new construction due to the ever-increasing population and the inadequacy of the existing school buildings.

Living Cost Index Down

Drop of Half a Point in Month of August Recorded

OTTAWA.—The cost of living index dropped half a point during August to 162.3, due principally to lower food prices, the Bureau of Statistics reported today.

This was the first decline in the index since last March.

The food index dropped 2.2 points from its peak of 209.2 in July.

AIRLINE OFFICIALS PRAISE COAST ON VISIT HERE FROM LOS ANGELES

Top officials of the continent's oldest scheduled airline visited Prince Rupert today en route to Edmonton where they plan to complete arrangements for the probable extension of their service into the Alberta Capital.

They are Terrell C. Drinkwater, president of Western Airlines, which operates 5,000 miles of routes out of Los Angeles, Marvin W. Landes, vice president, Col. Art Kelly, Allan Randa and S. R. Shotto, officials of the line.

Arriving on the Prince George this morning, they plan to leave by train tonight for Edmonton, where they will establish contacts for the expansion of what they term will be a "main line" route between oil centres in western Canada and the United States.

Currently the company has an application in to the Canadian and American governments to extend their service from Lethbridge to Edmonton under the recent inter-governmental air agreement.

The line, Col. Kelly said, is the oldest one in continuous scheduled service on the continent, and the first to carry air mail. It started operations in 1926.

Oriental Get Vote Thursday

Thursday's school bylaw plebiscite will mark the first time in a municipal vote in Prince Rupert in which persons of Chinese, Japanese or East Indian origin will be entitled to cast ballots.

A change in the Provincial Elections Act earlier this year made it permissible for people of oriental background, hitherto denied the franchise, to cast ballots. Municipal elections carry similar qualifications to those set out under the Elections Act.

However, in order to vote in Thursday's plebiscite, the Chinese, Japanese or East Indians must have property qualifications similar to other voters and be British subjects.

Those affected in Prince Rupert will be predominantly Chinese, although there may be a few Japanese in the district with proper qualifications.

WEATHER

Forecast:
Coast Region—Cloudy with showers today and tomorrow. Wind—westerly, 10 to 20 m.p.h., except westerly, 10 to 20 m.p.h., over the southern sector tomorrow. Lows to 45 and 52, Sandspit 45 and 52, Prince Rupert 38 and 45.

Tides

Premier Of France Quits

Political Crisis in Republic Comes to Head

PARIS.—Premier Henri Queuille of France resigned today, the resignation being made to President Vincent Auriol. The official announcement followed an earlier statement by a cabinet spokesman that Queuille had virtually decided to resign.

Queuille's coalition government, in office for more than a year and longer than any previous post-war French cabinet, ran into crisis with the insistence of the Socialist party that Labor's demands for wage increases be satisfied.

Speaking of the government deadlock over wages and prices, Robert Bruynell, Under Secretary of State and cabinet spokesman, had said that Queuille would see President Auriol later in the day.

Queuille headed the Radical Socialist (Conservative) party.

75,000TH N.H.A. HOUSE—R.C.A.F. veteran Paul Bergman, of Winnipeg, and his family found there was special significance to completion of their five-room bungalow when they were greeted by a ceremony at their new home last week. Built by the owner's father, Winnipeg contractor Walter Bergman, the house is the 75,000th unit constructed with National Housing Act financial assistance. Among the hundreds on hand to welcome the young couple and their daughter, Gail Denise, were: Hon. Roland Fairbairn McWilliams, K.C., Lieutenant-Governor of Manitoba; Mayor Garnet Coulter, K.C., of Winnipeg, who presented the keys of the house to the Bergman family; Mrs. Monica McQueen, Winnipeg, a member of the Board of Directors of Central Mortgage and Housing Corporation and Major-General Hugh A. Young, C.B., C.B.E., D.S.O., of Ottawa, Vice-President of the Crown Company.

Work Progresses on Galloway Road Contract; Finish in Dec.

Work on reconstruction of the five miles of road between the city limits and the Galloway Rapids bridge is progressing rapidly and it is anticipated that it will be completed in advance of the December 31 deadline set in the contract between the Provincial Public Works department and Wood, Parr and McClay, the contractors.

Heaviest part of the work, extending better than a mile beyond the city limits, is well on the way to completion with the slashing of right-of-way finished and material being dumped into the fills.

In place of the present series of sharp curves each a potential "death corner" will be a series of gentle, crescent-like embankments designed to give good visibility and a wide surface.

Promontories of the sharp turns are being joined by the new right-of-way in carefully designed surveys which will eradicate the hair-pin angles which have been a danger to travellers between the city and the bridge.

Currently, a power shovel and a drag-line and two trucks are dumping hundreds of cubic yards of base material into the depressions along the new right-of-way near the city end and what will emerge will be a 30-foot-wide grade. The travel surface will be 24 feet in width.

The twisting trail, which is the present road, ranges between 16 and 18 feet in width.

The contract with Wood, Parr and McClay calls for completion of a gravel-surfaced road by the end of the year and makes no allowance for black-topping at present.

A considerable amount of blasting of rock shoulders has been required to widen the road and increase visibility at the corners where the new road touches the old grade near the city end. Much of this has been done since the company began work little better than a month ago.

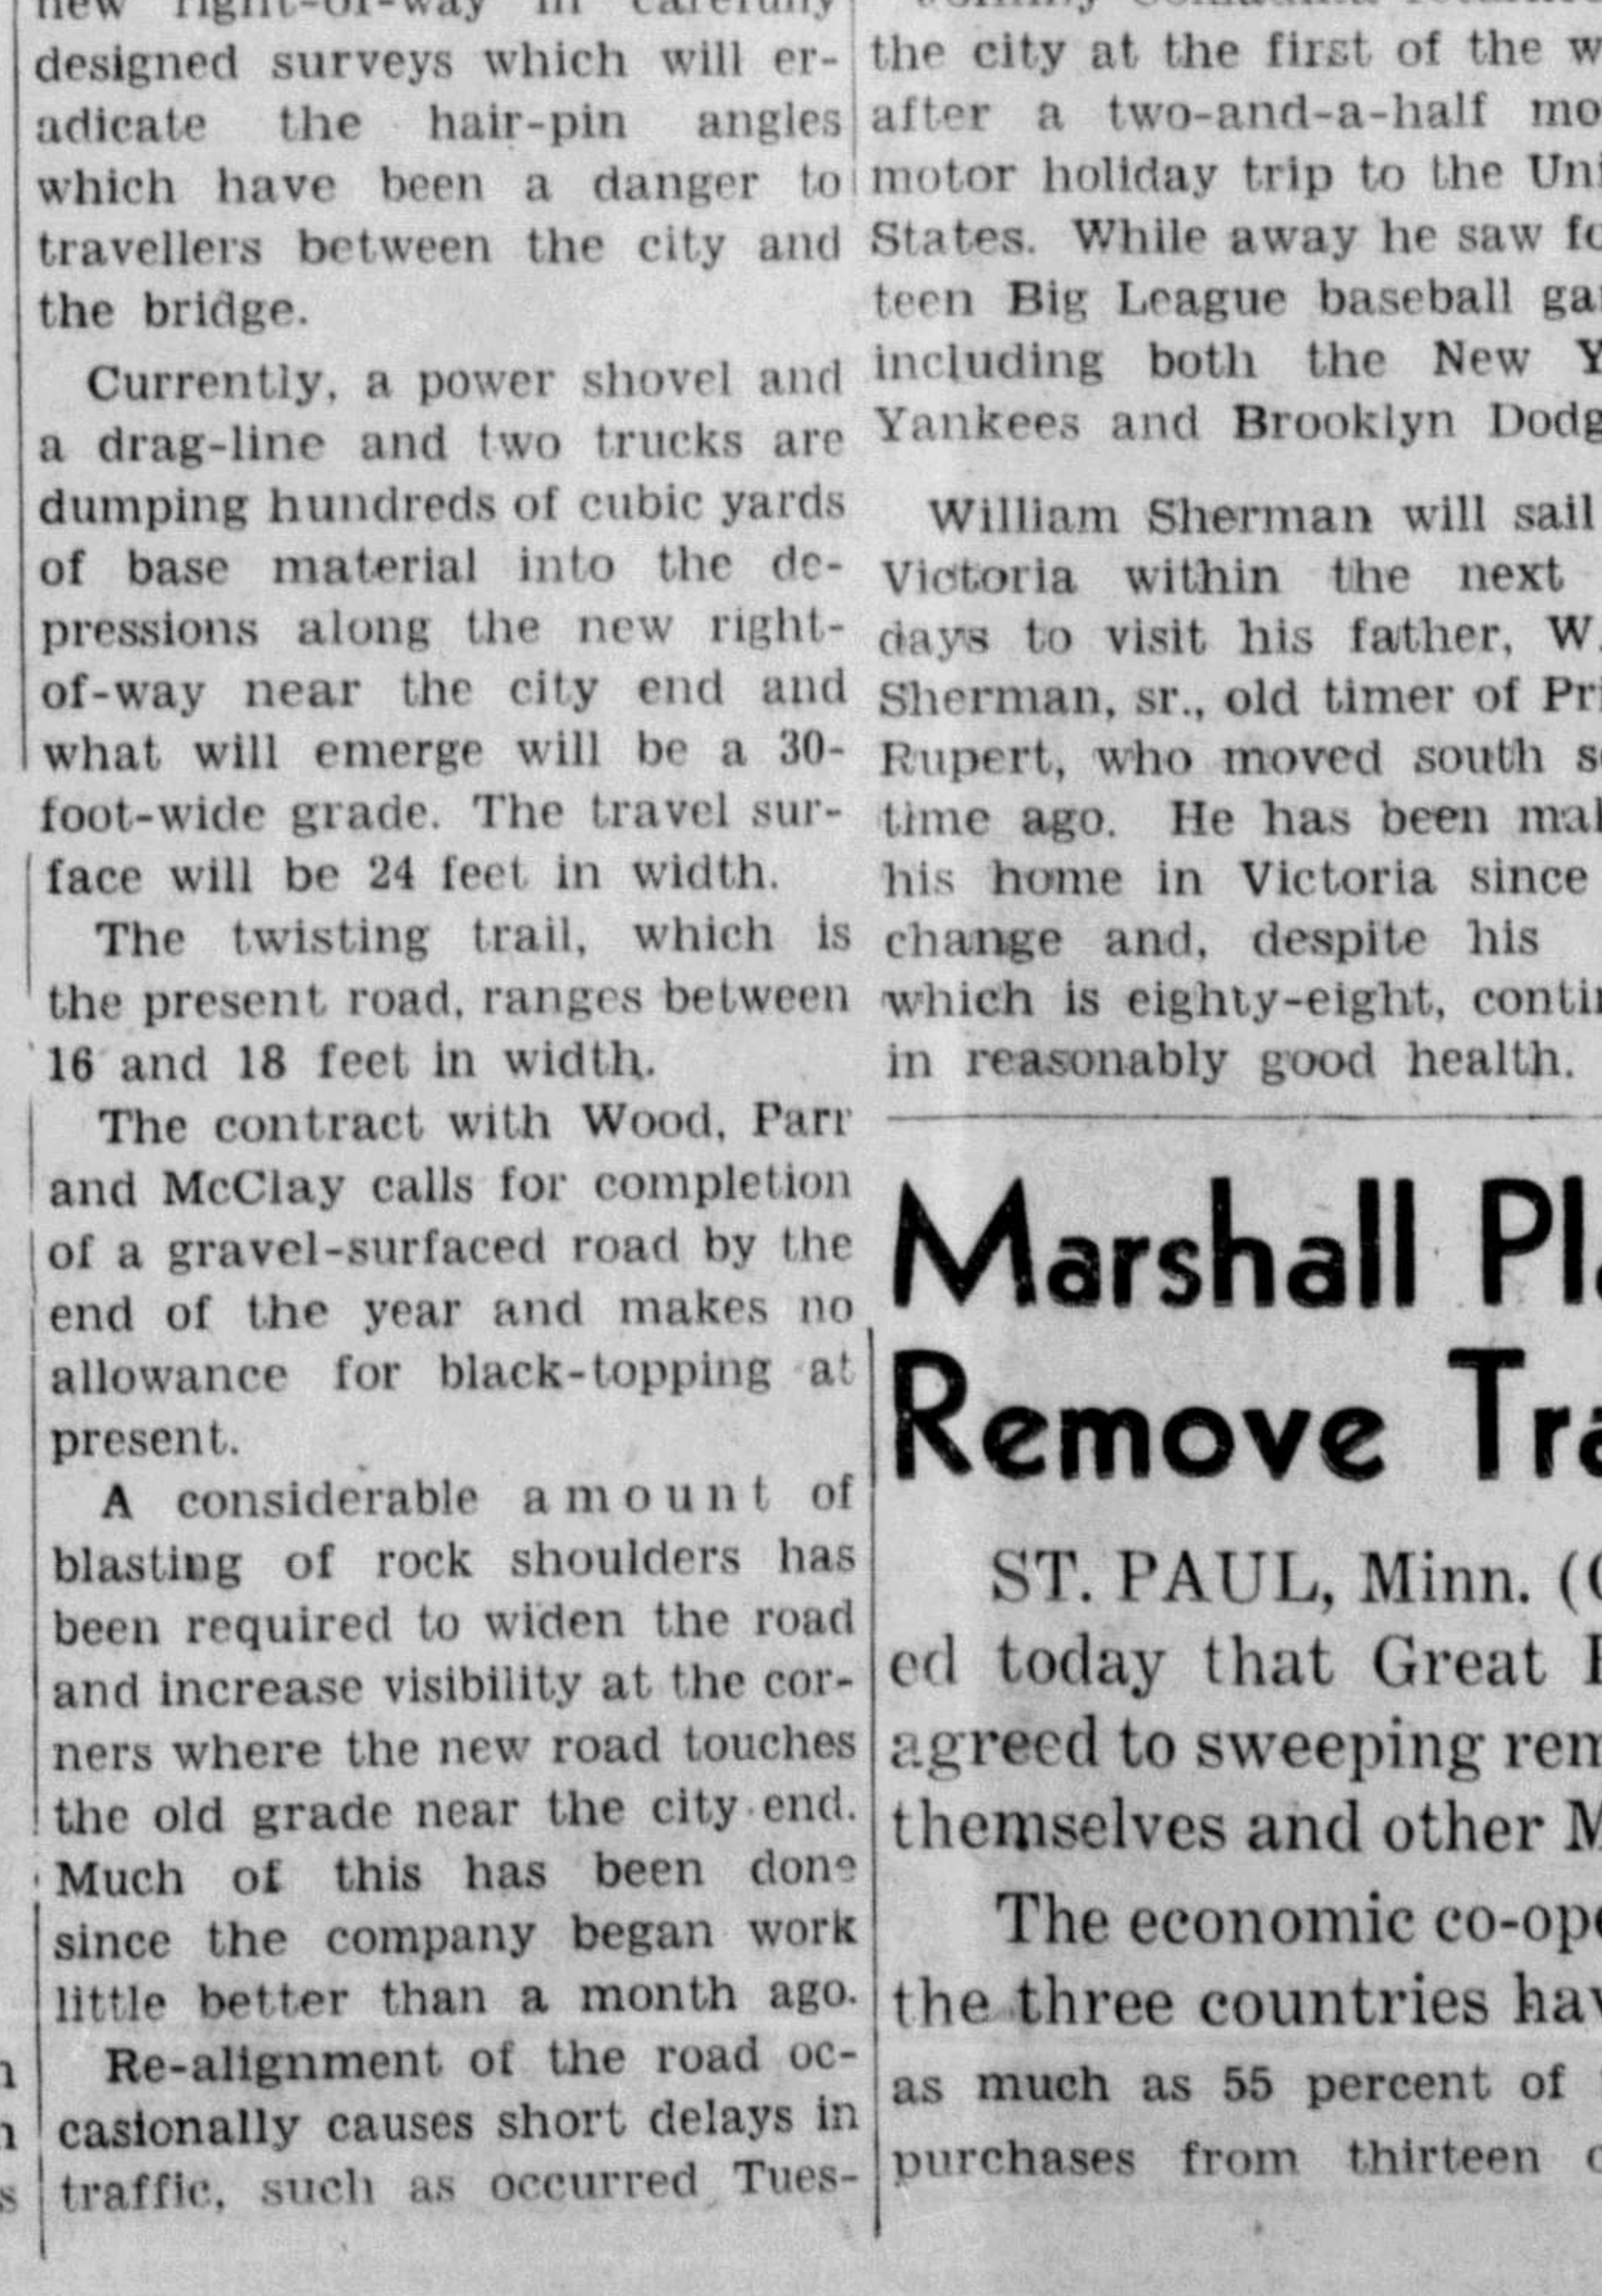

Re-alignment of the road occasionally causes short delays in traffic, such as occurred Tuesday afternoon, but these are said to be infrequent.

Past the most rugged area in the first mile and a half from the city limits, the new location will follow closely the present road thus eliminating much of the difficult and costly work which has marked the first part of the contract.

When finished, the new road will extend an even five miles from the city limits to the Galloway Rapids bridge.

Johnny Comadina returned to the city at the first of the week after a two-and-a-half month motor holiday trip to the United States. While away he saw fourteen Big League baseball games including both the New York Yankees and Brooklyn Dodgers.

William Sherman will sail for Victoria within the next few days to visit his father, W. H. Sherman, sr., old timer of Prince Rupert, who moved south some time ago. He has been making his home in Victoria since the change and, despite his age, which is eighty-eight, continues in reasonably good health.

ORIENTAL STEWARDESS—First Chinese stewardess to serve on a Canadian airline, Miss Dulcie Hall of Hong Kong is shown on her arrival in Vancouver aboard the Canadian Pacific Airlines.

CAPT. TAYLOR TELLS STORY

TORONTO—Captain William Taylor today continues his recital of events surrounding the burning of the Noronic, Great Lakes cruise ship, destroyed at her Toronto pier with loss of possible 130 lives. The captain's testimony before a federal inquiry into the September 17 disaster was interrupted yesterday to allow four survivors from Ohio to tell their stories of the fire. The four flew here to testify and returned to their homes last night by plane.

Taylor said he had been instructed by the company to waive certain emergency practices.

Mr. and Mrs. Thomas Beattie returned to the city on the Prince George today after a holiday trip to Vancouver.

HIGH SCHOOL DISCUSSION GROUP AGREED ON NEED FOR NEW SCHOOLS

A panel discussion sponsored by Booth High School Parent-Teachers' Association in the school auditorium last night explored the educational picture in Prince Rupert, emerging with the unquestioned conclusion that popular approval of the two forthcoming school finance bylaws is necessary.

The group, representing only a fraction of the P-T-A membership, held round-table discussion on the bylaws to authorize replacement of Booth and King Edward schools from the standpoint of the ratepayers, parents, teachers and students.

The meeting was under chairmanship of Canon Basil S. Procter, P-T-A president.

Popular belief that to finance the school district's share of \$407,515 will mean an increase of five mills on the city tax rate is not wholly true, School Trustee A. Bruce Borwn told the gathering.

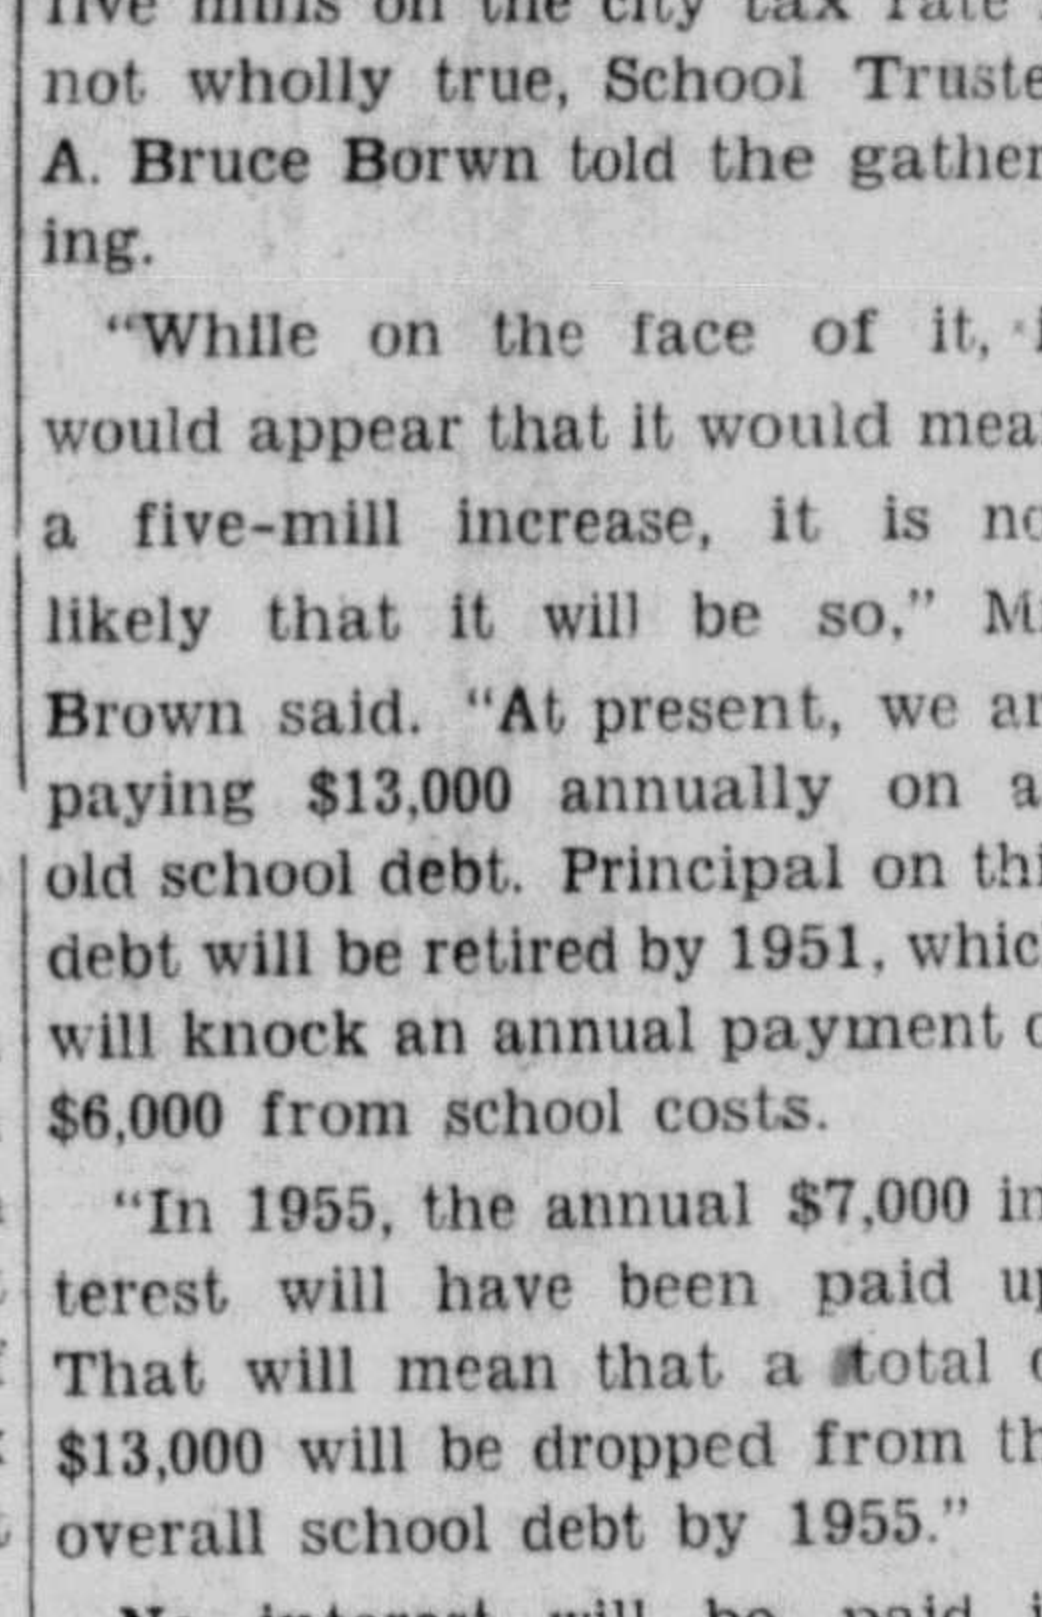

"While on the face of it, it would appear that it would mean a five-mill increase, it is not likely that it will be so," Mr. Brown said. "At present, we are paying \$13,000 annually on an old school debt. Principal on this debt will be retired by 1951, which will knock an annual payment of \$6,000 from school costs.

"In 1955, the annual \$7,000 interest will have been paid up. That will mean that a total of \$13,000 will be dropped from the overall school debt by 1955."

No interest will be paid in 1950, the first year of the new loan, so the total tax increase of the city's share of \$340,000 of the new loan will not be felt on the tax rate until 1951. Total annual payments on the new loan will be about \$25,000 for 20 years. However, a reduction of \$13,000 caused by completion of the old loan would leave an actual amount of \$12,000 for the remainder of the period, he declared.

"It is also obvious that the amount of rural taxable property will increase in the next few years with the growth of new industry. This will mean that a portion of the cost will be assisted in that way."

Mr. Brown said that while currently, the provincial government allows grants of 50 percent toward the construction of new schools, it is possible that this policy may change and the size of the grants may be reduced greatly.

LINKED WITH UNDERWORLD—Johnny Young, described by police as ruler of the Montreal underworld, faces charges following record seizure of \$140,000 worth of narcotics in his apartment. Police consider his arrest in an RCMP raid a powerful blow against the drug traffic in Canada. (C P. Photo)

MRS. PITRE TAKES STAND

QUEBEC—Mrs. Arthur Pitre, stocky, 41-year old acquaintance of a Quebec jeweller, charged with murder of his wife, returns to the stand today to describe incidents which occurred before the plane crash on Sept. 9, which took 23 lives. The Crown maintains that the jeweller, J. Albert Guay, 32, caused a time bomb to be placed aboard the plane in a plot to kill his pretty wife, Rita. The plane crashed 40 miles down the St. Lawrence River from Quebec, killing everyone aboard.

Mrs. Pitre said yesterday that she had purchased ten pounds of dynamite on Guay's behalf, that she delivered a mysterious parcel to the plane at his request and that later he had advised her to "disappear," telling her to take sleeping pills and open the jets of her gas stove.

Tommy Henrich Is Hero Of Baseball Classic

	R	H	E
Brooklyn	0	2	0
New York	1	5	1

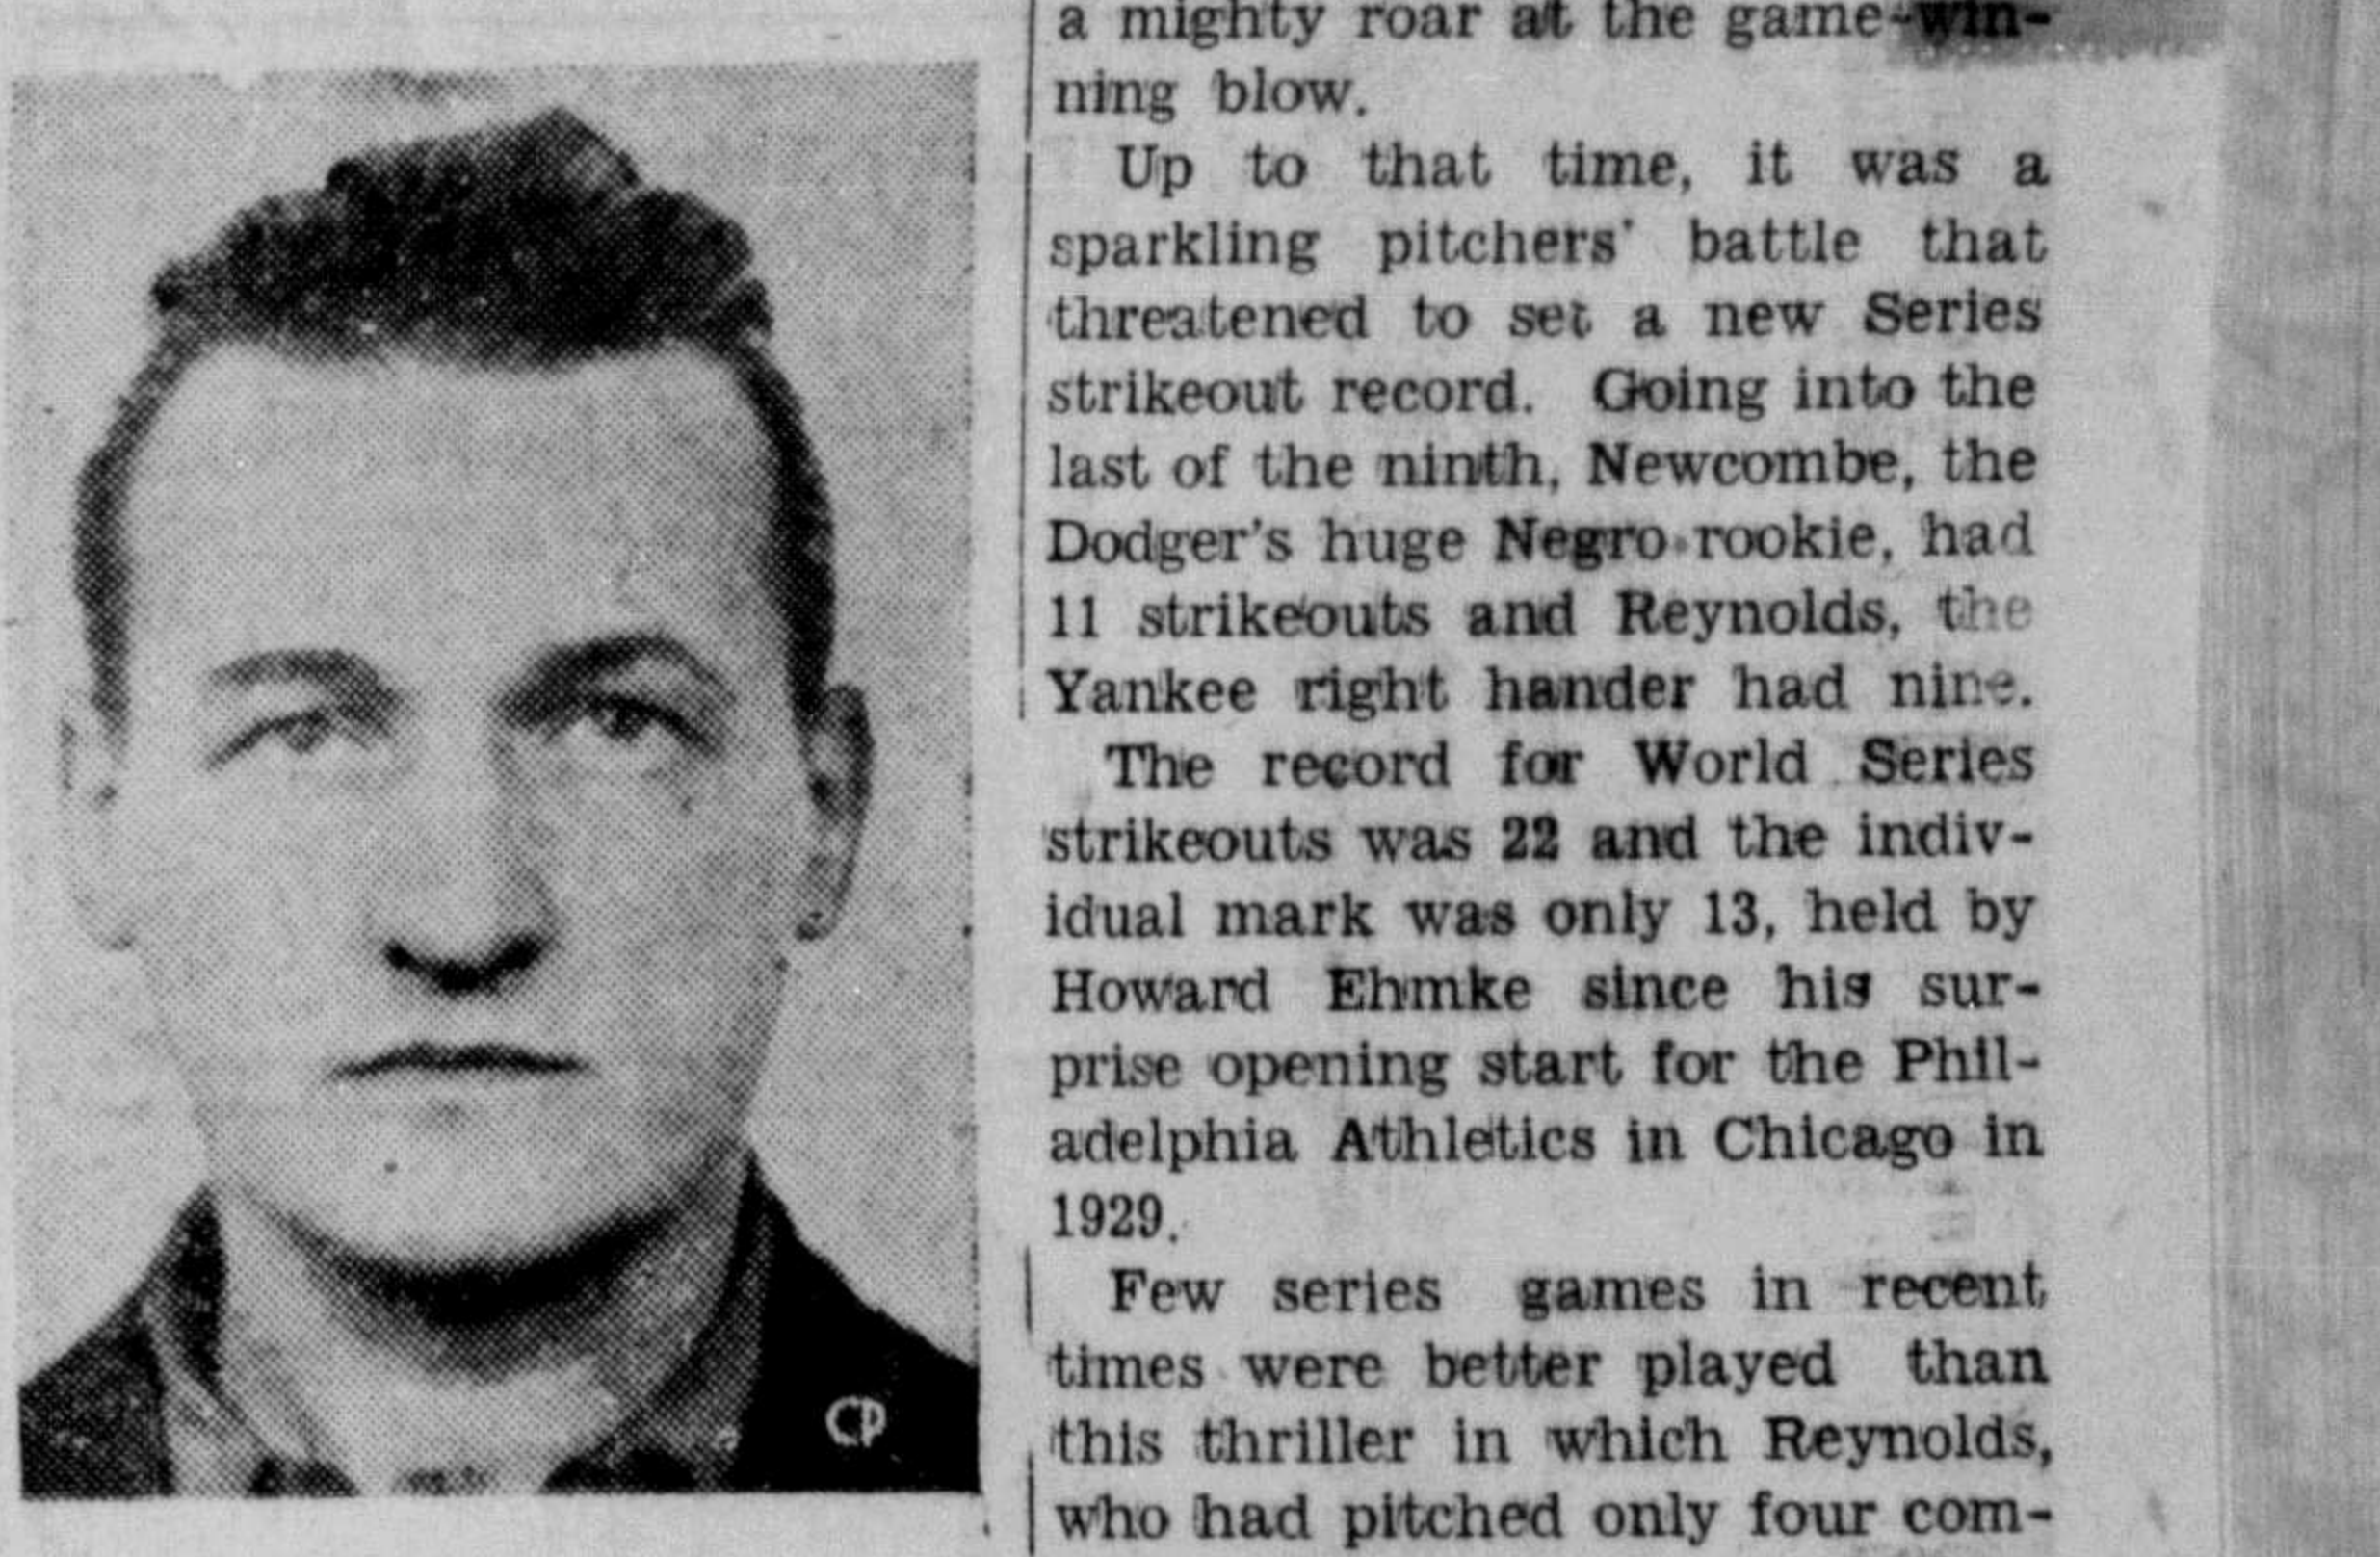

YANKEE STADIUM—A sudden bullet-like home run into the lower right field seats by First Baseman Tommy Henrich gave the New York Yankees a dramatic one to nothing World Series opening victory over the Brooklyn Dodgers today. The circuit clout broke up the ball game as 66,224 fans were settling only two hits off the winning pitcher, Allie Reynolds, who made nine strike-outs but allowed four bases on balls as his control wavered in early stages of the game.

It was the first time in World Series history that a game had been won by a single home run. Henrich was the first batter up in the ninth when he made the clout.

The game was played in sunny weather conditions and was from start to finish a striking exhibition of power pitching by two orthodox hurlers.

RELIEVING CONGESTION

Extent to which the two proposed schools would relieve overcrowding which at present afflicts King Edward and Conrad Street elementary schools and (Continued on Page 2)

Apprenticeship Here

IF THE DEPARTMENT OF LABOR wishes its apprenticeship program to be more generally accepted in Prince Rupert it would do well to concentrate promotion of same among the boys of the city and their parents. We believe that the business men and small industries in Prince Rupert are all for the apprenticeship system and are ready and willing to accept boys and give them training in the trades to the best of their facilities to do so—if the boys can be obtained. Indeed, we know of cases here where apprentices have been sought but could not be obtained because the boys were able to get employment in unskilled work at higher wages and were foolishly attracted thereby. Unfortunately, as is being emphasized, these boys, many of whom are not thrifty with their easy earnings, would find themselves a drug on the unskilled labor market should recession conditions develop and would regret that they had been improvident enough not to learn themselves a trade.

As was pointed out at the Chamber of Commerce meeting Monday night, it is the boys of Prince Rupert and not the businessmen or industrialists of this community that require to be educated in the long-term benefits to be derived from application to the trades in the apprenticeship program.

THE WORLD SERIES

IF THE WORLD SERIES baseball classic steals the headlines of the newspapers or the next few days, maybe we should not consider it a dereliction from the more serious matters such as atomic developments, economic crisis, international conflicts, death and destruction with which the front pages have been so sated these recent times. Who is to blame us if we seek a period of respite and escape in the great sporting events which the most of us are intrigued by at this time of each year?

It is an old adage that "all work and no play makes Jack a dull boy." So let dull care be gone as we follow the doings of the New York Yankees and Brooklyn Dodgers in their contest during the ensuing week. It will be refreshing to our minds and our thoughts.

School for Tomorrow

The newspaper boy . . . the boy who delivers your papers . . . is a typical Canadian boy. He is the business man of tomorrow. And as a carrier, he learns those lessons which will prepare him for a successful future.

Carrier Competition

Starting on October 3 the Daily News is sponsoring a carrier competition with a bicycle as first prize and many other valuable cash prizes. The boys will be awarded points for obtaining new subscribers for dependability and for efficiency in collections. So any help that you can give your carrier will be appreciated by him and he in turn will try to serve you . . . his customer . . . to the utmost of his ability.

Ray Reflects and Reminisces

Ernest Bevin, British Foreign Secretary, is in Ottawa for most of this week. He says he is there to renew old friendships and make new ones. And presumably there will not be any devaluation of either.

Broadcasting from Ottawa, the pleasant voice of Anne Francis, Sunday, touched on news of the day. Incidentally (but without mentioning names), she spoke of Pacific coast members pressing for lighthouses and coastguard service. One might do a bit of guessing.

It will not be the fault of earnest advocates of such extension, if the P.G.E. Railway does not eventually tie up with Fairbanks. Already, newspaper maps are printed showing the north-south line, with names like Telegraph Creek, Watson Lake, Norman Wells and Dawson along its course.

No less than 197 minor earth tremors are reported to have been felt on the Queen Charlotte Islands since August. Some of the residents, after a few efforts, managed to become accustomed to the feeling. There

Premier Nehru of India, who will be in British Columbia next month, has a food problem and to solve it, he plans on having every citizen of his country miss a meal every week. Mass practice of food-denial was one of Gandhi's favorite resources. Needless undertaking in America, with unwanted fruit in Canadian orchards, and thousands of tons of surplus spuds in Maine potato fields.

Frances Cloyd, wife of a garage mechanic and regarded as beautiful, is hailed as "Miss America." The lady looks it. And along comes a most matter-of-fact individual with one question, and one only. "Can she cook?" he inquires. After all, that's the important thing.

HIGH SCHOOL (Continued from Page 1)

Booth High School was discussed by the three principals.

Principal T. G. Bateman of Conrad Street, which has more than 240 in its six classrooms, said that by next year, Conrad Street would be filled "by the first three grades" and that he looked hopefully toward a new King Edward school to take the overflow from Grades Four, Five and Six.

Principal R. G. Moore of King Edward declared that "We haven't space to accommodate the pupils we have now. The new school would give us two more classrooms which we badly need right now."

Relief from the pressure of

Miss Cross Coming Back

Tailoring and Home Furnishing Courses at Civic Centre

The Civic Centre has made arrangements with Miss Eileen Cross, head of the Home Economics Department of the U.B.C. Extension, to visit Prince Rupert again after the New Year.

For two weeks beginning Jan. 15 Miss Cross will teach in the afternoons, tailoring, and in the evenings, home furnishing. The tailoring course will deal with all the short cuts and finer points in sewing, so will only be open to those who have done some sewing before, not to beginners. Each person taking the course will have her material and pattern ready to make whatever article she wishes, such as a suit, dress or coat.

Each evening Miss Cross will give her home furnishing course that many found so interesting last year and have asked for again. Some of the work done during the course last winter was shown at the Hobby Show, the refinished tables and picture frames, lined curtains, recovered lamp shades, and chairs that had new slip covers or were rebuilt and upholstered.

All such work may be done

TEACHES TARS—Commander Pat Budge of Toronto is helping train Canada's peacetime sailors. An executive officer of the Cornwallis naval base of Annapolis Basin in Nova Scotia, he has just graduated his first class of 123. Budge is a 44-year-old veteran of the Murmansk convoy run.

(C. P. Photo)

overcrowding would be carried into Booth, which, according to Principal A. M. Hurst, lacks adequate facilities to carry out any type of school program. Construction of the new unit would make it possible to provide sufficient classrooms in the old building by housing technical and other rooms in the new building.

Mrs. G. A. Hill said that "It's the parents of pre-school and primary school children that should take an active interest in obtaining new schools. It is their children who will receive the benefit."

Adequate, modern school buildings will be a factor in bringing in new, substantial people with families, whereas, unsatisfactory schools will have just the opposite reaction, the group agreed.

The Family that Prays Together -Stays Together

"Thou shalt love the Lord thy God with thy whole heart, with thy whole mind, with thy whole soul and with thy whole strength, and thy neighbour as thyself."

This summary of the Ten Commandments contains the complete Law of God and Our Lord said of it: "Do this and thou shalt live."

Commenting on the essential need for the observance of this Divine Law in order to save the homes of our day, John Edgar Hoover, Director, Federal Bureau of Investigation in the United States, recently made the following statement:

"A weak family life serves as a springboard for criminality. A home where family life is unstable is a home without order and discipline, and therefore a home without respect for law. Where there is no respect for law, there is no love for God. The home must be a bulwark of protection, a temple of love, and an arena of Christian decency. The home must be a cradle of simple faith where youthful minds are instilled with the thought that without God they cannot hope to live justly with their fellow-men."

"We must return to the days when family life was simple and sincere. We must return to the beautiful, refreshing custom of family prayer. The family that kneels together in common prayer builds a fortress against the angry waves of evil and temptation."

The Catholics of this city are sponsoring a PUBLIC RALLY to promote FAMILY PRAYER on Sunday, October 9th at 2:30 in the Civic Centre. We invite you to join us.

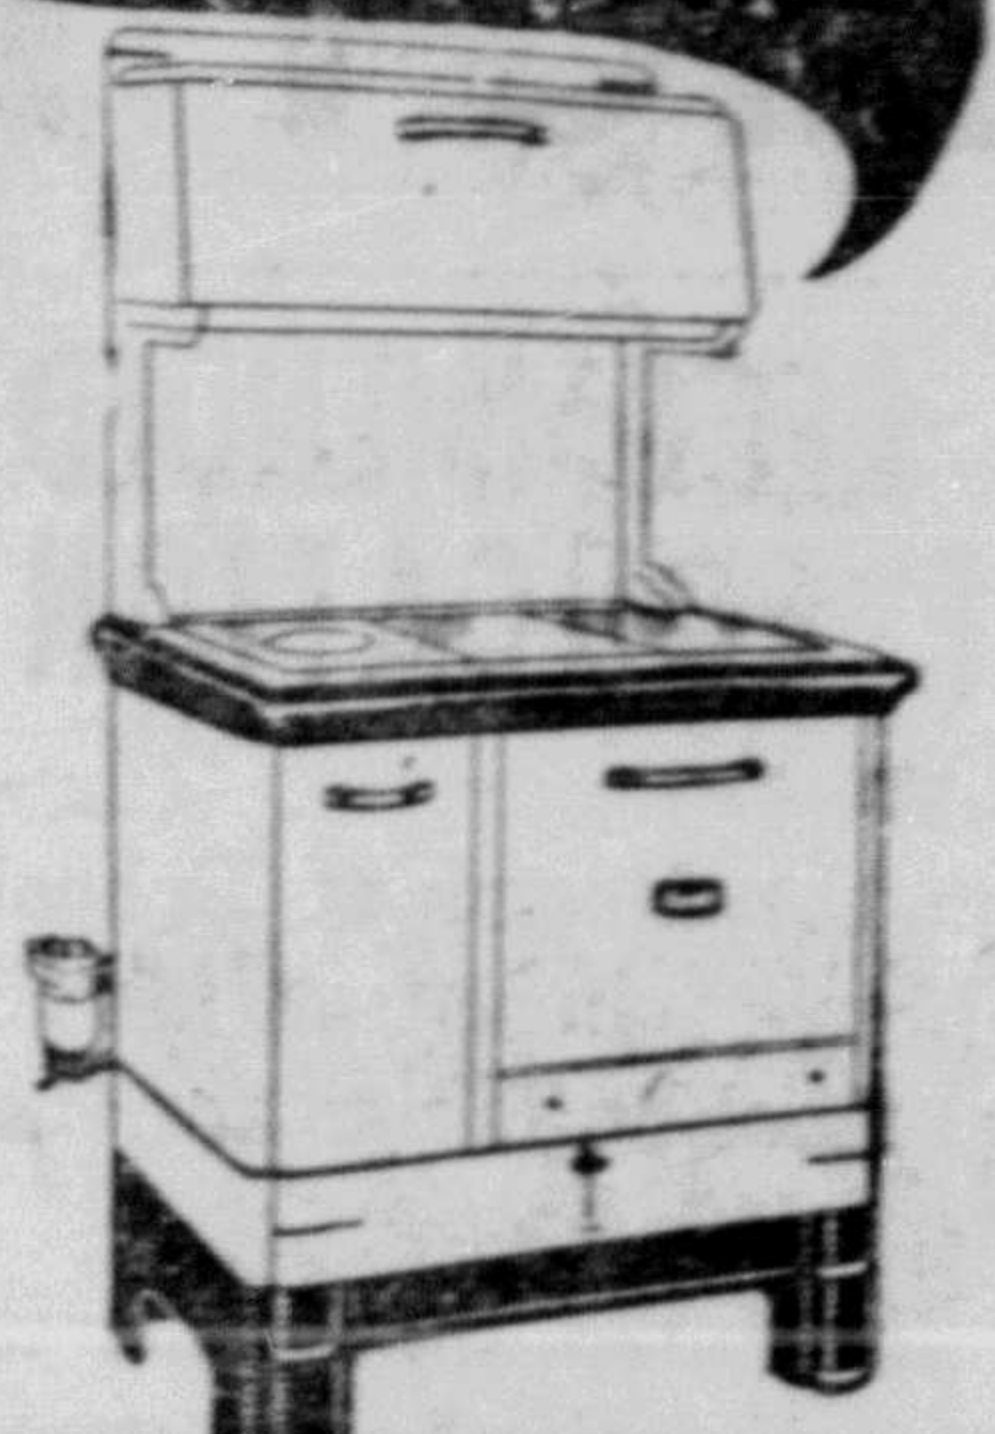

this time and it is expected that many may like to come and just watch the demonstrations so they will know how to do similar things later on at home.

Mrs. J. T. Harvey is taking the leadership in organizing the courses for the Civic Centre.

ORGANIZING OF CRAFT CLASSES

The craft classes for Civic Centre members this winter will vary a little from those presented last year. This year the crafts will include beadwork for the Junior girls, woodwork for the Junior boys and leathercraft for the Teenage boys and girls as well as the adults. The adult beginners will meet on Monday evenings in two separate classes. Tuesday night will be reserved for the advanced pupils who have a general knowledge of the craft and information regarding the ordering of tools and materials will be given. Wednesday and Thursday afternoon the craft room will be open to class members. At this time the crafts may be combined with a social hour. The Junior members of the Civic Centre will meet for crafts on the following days. Monday afternoon, Woodwork for the Junior boys, tools and materials supplied. Tuesday afternoon, Teenage leathercraft. Wednesday afternoon, Junior girls beadwork, beadlooms and beads supplied at cost. Wednesday evening, Teenage boys leathercraft, some tools supplied. As there is no extra fee charged, outside of the Civic Centre membership, for these craft

classes, it is felt that those interested in taking the course will be sufficiently keen to purchase their own tools. Sample tool kits will be on display at the Civic Centre which can be ordered and sent direct to the pupils home C.O.D. This applies to the project kits also and when registering for the course, it would be advisable to obtain any further information regarding these necessities. It will be understood that it is to the advantage of the craftsman to have his or her tools so that no waiting will be necessary during the class, while more work can be accomplished during leisure hours at home. The handling of tools and project kits will facilitate a more active craft club this year but anyone wishing assistance in ordering special supplies will find ready enthusiasm and friendly advice. These classes will start the first Tuesday after Thanksgiving and registration for the same will begin at the Civic Centre this week. Arrangements may be made while securing membership.

AIRLINE OFFICIALS
(Continued from Page 1)

Completion of service to Edmonton will give it a route extending from Canada's oil capital to oil centres in Texas and Oklahoma and they anticipate that because of the current boom in Alberta oil it will be extremely busy. "We have met nothing but good will from officials of Trans Canada Airlines and Canadian Pacific Air Lines," Mr. Drinkwater said. "We anticipate little opposition to our application." Only Canadian point now reached by Western Airlines is Lethbridge, which connects from Great Falls, Montana. A western route branches to Los Angeles. The officials were high in their praise for west coast scenery and commended highly the service and courtesy on the Prince George. This afternoon, they visited industrial plants and other points of interest here and at Watson Island.

Hospital Guild of the Women hosts. Present were Mrs. Har- of the Moose met at the home of old Muncney, senior regent, Mrs. Mrs. Ada Hopkins. After a brief E. Blair, Mrs. J. Wilkinson, Mrs. business session, delicious re- L. Schwab, Mrs. M. Holstead and freshments were served by the Mrs. A. Hopkins.

You gotta keep feeling RIGHT... living gets no cheaper!

"Can't afford to slow up with the kids... Jane... today's prices... gotta keep throwin' that punch... that means - keep fit." You have to feel right and work right to be in the money. YOU CAN'T if you're troubled by irregularity due to lack of bulk foods in what you eat. Post's Bran Flakes help provide gentle, natural laxative action. Help make food wastes move promptly - keep you feeling fit and on your toes. Enjoy wholesome wheat nourishment too - Post's Bran Flakes are made with other parts of wheat. And flavorful Post's Bran Flakes make good eating every morning. Large or regular package. Insist on POST'S BRAN. **Sure - he needs Post's BRAN FLAKES - likes 'em too!** WITH OTHER PARTS OF WHEAT

LODE BACKS SCHOOL BYLAW

Endorsement of bylaws which tomorrow will ask Prince Rupert and district residents to authorize borrowing of money to build two new schools in the city was favored at the monthly meeting of Municipal Chapter, I.O.E. in the Civic Centre Monday evening. The approval followed a discussion period in which members expressed support of the new school program.

of these days you'll live in an... **aluminum house**

ANY PEOPLE, perhaps you yourself, already live in houses which are as much "aluminum" as others are "brick" or "stucco". Just look at the amount of aluminum which already is going into Canadian buildings: Siding - Last year alone about 100 Canadian fabricators shaped thousands of tons of aluminum for use as roofs and exterior walls. Windows - Today a score of Canadian companies are making aluminum windows and sash which have unique advantages: they never warp, swell, shrink or crack, and never need painting. Insulation - Aluminum has outstanding insulating properties. Already numerous Canadian companies adapt it to keep homes warm in winter, cool in summer. Paints, Flashing, Trim, Architectural Hardware - Because aluminum is attractive and lasts a lifetime, dozens of Canadian manufacturers are now kept busy making it into all sorts of forms for use outside and inside the house.

Why Aluminum?
Aluminum is becoming more and more popular for use in home building because...
... it does not rust... is practically indestructible. Therefore maintenance costs stay low.
... it is light and easy to handle, is very strong, needs only correspondingly light supports.
... it has an attractive natural finish, and can be painted if desired.
... like other building materials, aluminum can be used in houses of any design.
Ask your architect or contractor about aluminum for building. He knows the story of Alcan's continuing research into its uses. So he can tell you about its overall advantages and how you can profit from them when building or remodeling.

NURSES HEAR OF STOCKHOLM MEET

Members of the Prince Rupert Chapter, Registered Nurses' Association of British Columbia, meeting Monday night in the nurses' home at Prince Rupert General Hospital with their president, Miss Margaret Steeves P.H.N. in the chair, heard an interesting account by Miss P. M. Mooney of the international conference of nurses which she attended in Stockholm, Sweden during the past summer. Miss Mooney gave many impressions and sidelights of the great professional gathering which attracted nurses from all parts of the world. She told of new nursing ideas and practices and of modern facilities in hospitals and equipment.

Following Miss Mooney's address, refreshments were served and a social period enjoyed.

Challenge Withdrawn Baseball Game Is Off

Merchants, winners of the city baseball championship this year were to have played a challenge game with Commercials on Sunday but the game failed to materialize at the last moment as the Commercials withdrew the challenge.

New Musical Hit Showing

"Good Old Summertime,"
Fresh From Big Cities,
Week-End Feature Here

Combining the good old days with a modern adaptation, a new and popular screen hit, "In the Good Old Summer Time" is coming to the screen of the Capitol Theatre this Thursday Friday and Saturday. The picture is fresh from the screens of the big cities of the country where it has been meeting with high acclaim. Within the last week Yonge Street in Toronto, for instance, gave the picture a big reception.

It is a new romantic high when Judy Garland and Van Johnson romance together for the first time in this delightful technicolor musical. The top notch cast also includes S. Z. (Vuddles) Sakall, Spring Byington, Clint Sundberg, Buster Keaton and Marcia Van Dyke.

An extremely entertaining feature of the show is the song hit parade which includes such old time favorites as "In the Good Old Summer Time" itself, "Meet Me Tonight in Dreamland," "Play That Barber Shop Chord," "Last Night When We Were Young," "Merry Christmas," and "Wait Till the Sun Shines, Nellie."

"Souvenir de Moscow," played by violinist Marcia Van Dyke, is an outstanding feature.

JOE NORTON IS MARRIED

Whitehorse, Yukon Territory, was the scene September 24 of the quiet marriage of Prince Rupert-born Joseph Norton, younger son of Mr. and Mrs. A. Norton of this city, and Miss Dorothy Easton of Port Arthur Ontario.

Frank Lacey was groomsman. For many years Joe Norton was identified with the staff of the Family Shoe Store here and later went to Long Lac Ontario. Recently he was in the city on his way to Whitehorse where he is now in the service of the Poole Construction.
