## DISPOSITION OF RAIL STRIKE IS GOING BEFORE PARLIAMENT

### Food Shortage Is Being Felt

Dorreen, one of the smaller communities in the Skeena Valley entirely dependent on the railway for communication and transportation, is running short of food and at least two people have made their way thirty miles westward to Terrace. They rowed across the Skeena River and caught a ride to Terrace. Disrupted communications today made it difficult to get a picture of the plight of other people in Dorreen and other communities.

### Oil And Gas In Fair Supply

Oil and gasoline supplies in the interior are still in fair shape, according to reports from local wholesalers this morning. All dealers were well stocked before the rail strike went into effect. General opinion seems to be that by the end of this week, if no settlement has been effected, things will begin to tighten up at Terrace and Smithers. Conditions in the city of Prince Rupert are good, as seamen on the tankers do not belong to the International Seafarers' Union, which is on strike.

### Second Extra Schedule Run

Tomorrow Canadian Pacific Airlines will make their second extra schedule run since the rail and steamship strike went into effect last Tuesday. This time it will be to take 13 of 24 employees of Carlisle cannery who are leaving tomorrow. Last Thursday two extra flights were made to take care of members of the Elgar Choir back to Vancouver. Planes are now loaded to capacity for each trip, and reservations this morning were for nearly two weeks in advance. There have also been heavy demands for freight space.

### Missing North Of Prince George

PRINCE GEORGE—Air search has commenced for Mr. and Mrs. J. P. Walworth of New Westminster and a two year old child missing on flight north of here. They left Grande Prairie yesterday in rented Vancouver U-Fly plane and failed to arrive here as planned. Three Royal Canadian Air Force planes have commenced search.

creases and effective date. Whether hotel and water transport workers should get the same treatment as the other classifications.

### Negotiations Once More In Collapse

Unions Bitterly Assail Gordon

OTTAWA — Frank Hall, chairman of the striking railway unions, said today that the men would go back to work if the government ordered it. He did not anticipate that there would be any "arbitrary or dictatorial" government order but, at the same time, local unions had been advised to call special meetings and warn the government against making any such order. The cabinet had a meeting for 2 1/2 hours this morning and is meeting again this afternoon to discuss possible legislation to Parliament. Prime Minister St. Laurent had no statement to make.

TORONTO — Canadian Congress of Labor and Trades and Labor Congress of Canada, in a joint statement last night, bitterly indicted Donald Gordon, president of the

Canadian National Railways, for trying to further his own ambitions in negotiations in the railway strike dispute. They further charge Gordon with trying to use Parliament against the workers.

The statement followed publication of a report in the Toronto Globe and Mail that the government would present a bill at the special session of Parliament this week which would face the railwaymen with going back to work or losing their jobs and pension rights.

At Ottawa, Hon. M. F. Gregg, minister of labor, would neither confirm or deny this report.

With the collapse of latest negotiations between railway and union leaders Saturday night, it now appears that there will be no settlement of the dispute until Parliament meets in its special session. The session opens tomorrow and the government may present its formula on Wednesday. All this means that the paralyzing strike will continue at least three days longer.

Negotiations, which had been resumed at the end of the week at the request of Prime Minister L. St. Laurent, came to end without agreement on such points as to amount of wage in-

IS HE THROUGH? — General Douglas MacArthur whose statement is intercepted by President Truman.

### MacArthur Statement Withdrawn At Order Of President Truman

WASHINGTON, D.C. — It was admitted at the White House today that a statement on the Formosa situation, which had been given out by General Douglas MacArthur, had been withdrawn from publication on order of President Truman.

Asked if MacArthur would be relieved of his command, a White House spokesman said "The incident is closed."

The statement, which got out in one magazine before the withdrawal order, said that occupation of Formosa was vital to United States interests.

An official government statement, to clear the air, expressed the opinion that Formosa must be neutralized as far as the Korean war is concerned.

### Caught In Shaft Leg Fractured

Suffering from severe compound leg fracture sustained when he became caught in the tailshaft of a gasboat on Klum Lake where he was engaged in logging for Carl Pohle, John Olsen, son of Mrs. Oscar Carlson, Eighth Avenue West, was brought to the city from Terrace last evening. He is receiving treatment at the Prince Rupert General Hospital where his condition is reported as fair. He is also suffering from shock. The accident occurred at 2:30 yesterday afternoon and the patient arrived here at 8 o'clock last night by truck.

### Australia Wins Davis Cup Play

FOREST HILLS, New York — Australia Saturday won the Davis Cup which United States has held for four years. Australia won four games, clinching with the doubles Saturday. Honors in the two final singles yesterday were divided, United States being saved from a shut-out.

### Wild Storm Adds to Tie-up Caused By Railway Strike

Prince Rupert Almost Incommunicado—Trees Over Highway, Railway and Telegraph Lines

A wild and sudden wind and rainstorm on Saturday afternoon added further to the discomfort and inconvenience which Prince Rupert and the central interior is suffering from the railway strike interference with transportation and communications.

The storm carried down large numbers of trees

INTERESTED HERE — Dave Mulligan, well-known hotel man in Canada and the United States, is chairman of the Board of Realty Hotels in New York. The 80-year-old native of Pembroke, Ont., held management posts in Ottawa and Windsor and was general manager of the Canadian National Hotels from 1914 to 1924. He is interested in the Sir Charles M. Hays hotel promotion at Prince Rupert. (CP Photo)

across the railway track and highway between here and Terrace and broke the telegraph lines at several points. The city is entirely out of communication with the interior by long distance telephone. Even the railway dispatcher's telephone is out of commission.

Divisional Superintendent C. A. Berner this morning described communications as a "total failure." The storm which swept through the Skeena Valley Saturday afternoon was one of the worst ever known in the district. It was felt as far as Burns Lake. Velocity is estimated at 60 to 70 miles per hour.

With regular linemen out on strike, Relief Roadmaster Mike Kawalluk, B. and B. Master H. C. Halliday and Telegraph Manager W. E. Simmons took to the road and spent all Sunday removing trees and patching up the telegraph line to restore company communications. When darkness came last night they had got as far as Shames, 76 miles eastward, and had cleared out four large trees as well as other line restoration work. They went on to Terrace for the night and were back on the job this morning.

Motorists on the highway during the week-end reported public works crews at work clearing fallen trees from the road. Other trees were lying across the railway track. All along the line tributaries to the Skeena River became swollen torrents.

In the city Superintendent of Utilities Jack Edwards reported over 1000 telephones out of commission with three major breaks in cable lines—in Westview, Seventh Avenues West and East and part of the business section. There were numerous other smaller breaks elsewhere.

City linemen were at work for eighteen hours yesterday endeavoring to restore service. They were out again today and the superintendent expressed hope this morning that all telephones would be in operation again by Tuesday night.

Even the telephone between the city and Digby Island was out of commission so the meteorological station could not be contacted for a check on wind velocity or the amount of torrential rainfall.

The excess precipitation sent torrents of water running down the streets and caused basement flood problems as it forced new channels. The basement of the new Daily News building was among the sufferers. As far as can be learned, there were no major casualties at sea although strong gale winds were reported in exposed waters from which small craft scurried for shelter.

The only long distance communication out of Prince Rupert since Saturday night has been to Vancouver with a three to six hour delay.

### New Harbor Master Here

Capt. W. H. Koughan, until recently deputy port warden at Vancouver and formerly assistant marine superintendent for eastern Canada Steamships at Vancouver, arrived in the city in the Coquitlam Saturday night. He has been appointed harbor master and port master at Prince Rupert, effective September 1. He replaces Capt. J. R. Elfert, who died last year.

Good Resolution

PRINCE Rupert can take satisfaction out of several of the resolutions that were passed at the annual convention of the Associated Boards of Trade of Central British Columbia at Prince George last week and not the least satisfying is that which calls for the blacktopping of the Northern Trans-Provincial Highway eastward from Prince Rupert.

Normal trunk road projects, where both ends are accessible, it is usual practice to work from both ends and it would seem to be very sensible to do so in this case.

The important thing is to induce the public works department, under the ministrations of Mr. Carson, to at least somewhat relax its apparent policy that all public works should radiate from the south and let the rest of the country wait.

GOOD PRESIDENT

THE Associated Boards of Trade of Central British Columbia has got itself a good president in Joe Scott of Prince Rupert and we, his friends here, should know it.

The Associated Boards will get strong leadership and sensible action under Joe Scott and, with him at the helm, can be assured of a good and useful year ahead.

ABILITY RECOGNIZED

WHILE some may not have fared so favorably, notable recognition has come from the Royal Canadian Mounted Police to at least one officer of the British Columbia Police under the new regime.

Inspector Woods-Johnson has been known here as a quiet, unostentatious officer who has been able to exercise authority and command respect both from his men and from the public.

He will have a very special job to do at Regina and his progress with the Dominion force, which has imposed special responsibility in him, will be watched with interest.

As I See It

By ELMORE PHILPOTT STASSEN'S FOLLY

WE LIVE IN STRANGE times. One of the strangest features of these strange times is in the swinging from one extreme to another.

Here are some samples: A. A. Milne, who wrote the famous pacifist "best seller" of the 1930's (Cry Havoc) is now whooping it up for making world war three an atomic affair.

Bertrand Russell, another famous ex-pacifist, is now for starting a war against Russia to compel her to accept his (Russell's) ideas of world government.

Harold Stassen, a probable second-time contender for the Republican nomination for the U.S. Presidency in 1952, favors immediate declaration of war against Russia if there is any further military aggression by any of Russia's so-called satellites.

STASSEN IS NOT only one of the six men likeliest to be the next President of the U.S.A. He is also obviously saying out loud what a lot of Americans are thinking.

Here is the Stassen line of argument: The Communist countries form one big bloc. They are, in fact, controlled from the Kremlin—in Moscow, by the 14 men around Stalin. If they continue their tactics of local aggression, as in Korea, they can compel the U.S.A., and her associates, to commit large forces in campaigns which will have no bearing on the outcome of the real war, when it comes.

Hence, says Stassen, the U.S.A. should tell Russia that any future attack by the armies of China, Poland, Hungary, Bulgaria, Romania would bring immediate war BETWEEN THE U.S.A. AND RUSSIA.

MR. STASSEN would have the U.S. proclaim such a policy, by declaration passed by Congress, and then submitted to the Assembly of the UN for ratification.

In my opinion such a plan would boomerang disastrously against the U.S.A. I do not believe that more than five or six countries, out of the 59 UN members, would vote for any such provocative measure.

I have pointed out in this column before that not-heads in the U.S.A. were all for going to war AGAINST RUSSIA when Yugoslavs shot down American planes flying without permission over Yugoslav territory. Yet all the while there was a bitter fight going on in secret between the Yugoslav and Moscow Communist big-shots. How do we know that the same stresses and strains are not working today; or at least, will not be working tomorrow, especially between China and Russia?

THE STASSEN PLAN, proclaimed in advance, would have the effect of making every little war into a world war. We may yet get that world war. But we would be the prize idiots of all if we did not do everything possible to avert it, or if it comes, to localize it, and shorten it.

For if it comes atom bombs will surely fall on Russia. But they, or similar deadly devices, will not fall on Russia alone. They will bring death to London, Paris, Rome, New York,

### Commercials Trounce Watson Island To Enter Final Series

In yesterday's baseball game between Commercials and Watson Island, a replay of last Sunday's protested game, Commercials made no mistake right from the start and defeated Watson Island 12 to 4. The Hotel men, as a result, go to the final play-off series with Abel and Odowes.

Richard Letourneau pitched superb ball for the Commercials for the first five innings, striking out eleven men on not hits, and was relieved by Rosedale who gave up four hits in his four innings of pitching.

Commercials started off right in the first inning when they scored three runs on three hits and two errors. They went further ahead in the third when Marshall, first man up, grounded out and Hawryluk was safe on

an error. Sinclair, next man up, was safe on a fielder's choice with Hawryluk taking second. Morgan then came through with a nice two-bagger to score the two runners ahead of him and came all the way home on an overthrow to second. D. Scherk was walked and Spring followed with a hit to score Scherk to put the Hotel men ahead 7-0.

Commercials scored single runs in the fourth and fifth inning.

Watson Island came to life in the top of the sixth when Kurish, first man up, was hit and Howard hit safely. Barr, next man up, flied out and Maddock grounded out with Kurish scoring. Burquist followed with a hit to score Howard, and Teichman flied out to end the inning with the Commercials ahead 9-2.

In the last of the sixth, Hawryluk first man up hit, Sinclair struck out and Morgan was safe

on an error. Then D. Scherk hit safely to score both runners, and as the ball got past the outfielder, Scherk ended up on third base. Spring, next up, struck out and Rosedale flied out to end the inning.

Commercials scored another run in the seventh inning to go ahead 12-2.

In the top of the ninth Watson Island revived and Burquist, first up hit safely followed by Teichman's two-bagger to score Burquist. Doswell grounded out and Carolei grounded out with Teichman scoring. Next two men up, Carroll and Kurish were walked but Howard struck out to end the game with Commercials the winners 12-4.

Next game will be Tuesday night between Commercials and Abel & Odowes.

**HOW CAN I ???**

Q. How can I renovate a hat band?  
A. By brushing with a sponge, or small brush, with a solution made by dissolving 1½ ounces each of sulphuric ether and water of ammonia. Rinse in clear rain water.  
Q. How can I remove dust from a black straw hat?  
A. When cleaning a black straw hat, rub with black velvet instead of brushing. The dust will be completely removed.  
Q. How can I avoid difficulty in raising and lowering a stubborn window?  
A. Paraffin rubbed on the cords will often work wonders.

Mail Gets  
Priority

OTTAWA —The mails will get top priority whenever the government decides to use its power to mobilize and control civilian air transport for the duration of the rail strike. The air transport board has made public a directive sent to all commercial air lines inform-ing them that an order-in-coun-cil has been passed giving the board power to establish pri-ority controls over air travel. So far, the board is depend-ing on commercial air lines—without government supervision—to meet all the exigencies of the transport emergency. However, if it is required, the priority system will be put into effect. First priority, said the board, will be given to the post office department for the transpor-tation of mail.

PRIORITIES

- Other priority ratings:
1. Emergency movement of passengers requiring hospital or medical attention or of a doctor or nurse to attend a patient and emergency movement of medi-cal supplies
  2. Passengers and goods nam-ed by the transport depart-ment's priority officer as requir-ing transportation "in the pub-lic interest."
- The board said that if it be-comes necessary to displace pas-sengers who have booked pas-sage or goods which have been accepted for transport, the fol-lowing order of displacement will be adopted:
1. Passengers travelling for pleasure, on leave or on fur-ough.
  2. Passengers travelling on private business.
  3. Perishable goods transport-ed for the general welfare of the public.
  4. Passengers travelling on public business of an urgent nature or for national defence.
- If possible, the board said, passengers and goods travelling long distances will be given preference over those moving over short distances.

The system, if enforced, will apply principally on all routes of the following air carriers: Trans-Canada Air Lines, Cana-dian Pacific Air Lines, Mari-time Central Airways, Queen Charlotte Airlines, Quebec Air-ways and Central Northern Air-ways.

A group of 40 children left Residential School after spending Sunday night on the Camosun for Alert Bay, where they will resume studies at the Indian cannery points.

## As Terrace Prepares For Labor Day Chinese Want Food, Shelter

**LEADERS PUT OUT SIGN** — Joe Schultzig, president of Terrace kinsmen, and Ben Dodds, president of Terrace Civic Centre, post bills to advertise loggers' sports and baseball games arranged for Labor Day at the interior town. Sports features of the day at Terrace will include baseball between Watson Island and Terrace and an evening boxing tournament between Prince Rupert and Terrace. Loggers' sports will again be a major attraction and a giant barbecue will be the refreshment feature. Softball, carnival games and children's sports will be included in the program with a grand dance in the evening rounding out the proceedings.

## Chinese Want Food, Shelter

VANCOUVER — Mr. and Mrs. Bedos, from China, are here en route to Montreal. The former, an import and export merchant, spent ten years in northern China. He believes Communist influence there will be, finally absorbed.

"There is," he stated, "no outward sign of Russian influence, but there is the constant feeling that you might be arrested any minute."

The average Chinese does not care whether he is communist or democrat. He wants enough to eat and some sort of roof over his head. He also wants freedom.

Gerald Bissonnet, Terrace, left on the Camosun last night for Vancouver.

## Well Pleased With His Men

RCMP Inspector Takes Over B.C. Force Here

"We have gained a lot of fine men," Inspector W. Fitzsimmons, RCMP, said yesterday, referring to the men taken over by his force from B.C. provincial police in the merger August 15. Inspector Fitzsimmons arrived in the city Thursday afternoon to swear in the former provincial men of this district to the RCMP. Stationed in Edmonton, the inspector has been in this province since the middle of the month. He has completed swearing in the men of the province now, except for the Peace River Block. He will do that before returning to Edmonton. The men, he said, are of the same high calibre the Dominion force calls for and are larger physically. He thinks the RCMP gains by having the "Provincials" join them.

He was high in his praise of Inspector F. B. Woods-Johnson for his assistance in organizing the district to ease his trouble in covering it. Thursday evening and Friday morning and early afternoon were sufficient to see all local men. He drove to Smithers Friday afternoon and arrived back here Saturday after

swearing in the men there. On his return from Smithers, Inspector Fitzsimmons ran into the unseasonable gale that struck the district. Trees were blown down across the road and were falling all during the trip. At one point, when he and Constable Anderson were halted by a large tree across the road, another crashed behind them to block the road both ways.

He said it was one of his most frightening experiences since joining the service. They finally reached Prince Rupert about 11:30 that evening instead of at eight o'clock as planned. Travelling by RCMP aeroplane with Sgt. N. Beaumont as pilot, he has been able to cover the whole province in a short time. He said he was very pleased to have the assignment as he had got to know the new territory and the men who are policing it.

During his stay in Prince Rupert, the inspector met an old friend, Don Tucker, who had joined the Force at the same time he had and with whom he took his initial training. Inspector Fitzsimmons left in his plane yesterday afternoon for the last leg of his swearing in duties.

## SHIPS and WATERFRONT

Laden to capacity with passengers taking the last opportunity to get south before the coastal passenger services become completely strike-tied, Union steamer Camosun, Capt. William McCombe, sailed last night at 9 o'clock for Vancouver and the Coquitlam, Capt. John Boden, got away at 1:30 this afternoon. Both ships will be tied up on arrival at Vancouver until there has been some settlement of the Seafarers' International Union strike against Union Steamships. They will join other vessels of the fleet which will be moored alongside the company's dock at Vancouver "for the duration." All will be steamed down with the exception of the Cardena which will be the stand-by ship. The Camosun returned here at 4:30 yesterday afternoon from the south end of the Queen Charlotte Islands. The Coquitlam, which arrived here Saturday night from the south, sailed at midnight for Alice Arm and Stewart and returned here at 11 o'clock this morning.

In addition to the Dagney, the Alaska motor vessel Sidney was in port last week with 6000 cases of canned salmon from the Ketchikan area for transshipment East over Canadian National Railways. The cargo was discharged at the ocean dock for storage pending resumption of railway service following the strike.

Frank Waterhouse freighter Chilliwack, Capt. William Gleason, arrived in port at 2:30 p.m. Saturday from Vancouver via Ocean Falls. Here she unloaded 40 tons of steel for B. C. Bridge and Dredging Co. for construction of the new Booth High School and King Edward School. twenty five tons are for Booth and 15 tons for King Edward. She also unloaded here 100 bales of insulation, Columbia Cellulose Co. is receiving bunk springs, ends and mattresses. For Philpott-Evitt were 200 tons of coal, 15 tons of concrete drain tile and cylinders. 206 tons of coal was unloaded for the Department of Transport. From here the Chilliwack went to Watson Island with freight for the Columbia Cellulose and Nelson Bros. She will pick up salmon on the Skeena and then proceed to Alice Arm and Stewart to deliver freight and load ore.
