Mysterious Lingering

Statements Made By Publisher Bill Baker of Ketchikan

KETCHIKAN (CP) -Publisher William L. Baker, writing for the Ketchikan Chronicle after a three weeks' tour of Alaska, said today that reports of Russian planes having violated the Alaskan skies are correct. The article added, however, that both American and Russian planes crossed the border into each other's territory over a period of sveral months.

He also said that a "mysterious submarine" had lingered in Aleutian Island waters for about ten days. The Navy had a fix on the submarine by radar and had awaited word from Washington as to what action to take. Several thousand personnel at Aleutian bases had been put on

the alert and leaves cancelled. The Chronicle also said that it had reports that a B-29 which after Christmas "had a Soviet shell in her belly."

United Church

COMMENDING itself to all church people and those who are convinced of the importance and necessity of making Christianity a more effective instrument than it is today at a time when the influence is so sorely needed must be the new move instituted by the heads of the Anglican and United Churches to form union between the two most influential and strongest Protestant denominations in Canada. Undoubtedly, a weakness of the Protestant faith is its division into denominations which have no reason for separate existence other than the narrow desire of some of their followers to perpetuate certain forms of worship which to the average practical Christian mean nothing and certainly tend to weaken the "one foundation." Union of the churches would serve to bring about a greater degree of efficiency and, once accepted, would probably bring about a new and unified enthusiasm, something which is badly lacking today.

The point we endeavour to make might well be illustrated in Prince Rupert where the majority of Protestant denominations struggle along in duplicating effort and working at cross purposes in almost constant financial embarrassment, often without permanent and settled clergy and with pitifully sparse congregations and church organizations which are not only discouraging but ineffectual.

In fact those who can or will see beyond narrow denominational considerations can perceive a ridiculous and, if one may be pardoned for putting it that way, a most inefficient and unbusinesslike situation.

WOMAN OF YEAR

THE FACT of Prince Rupert having a woman mayor is paying off once more from a publicity standpoint with the selection of Nora Arnold as Canada's "Woman of the Year." The city and Mrs. Arnold may be congratulated on the distinction thus attained.

When Mrs. Arnold goes to Regina this summer to be honored as a national figure she may be depended upon to, as usual, give a good account of herself and bring credit to her home city.

She joins the "Hall of Fame" of Canadian women and a distinguished company.

GYRO'S BIGGEST UNDERTAKING

DRINCE RUPERT Gyro Club, venerable after its quarter of a century of existence as a local organization but maintaining its perpetual youth, is synonymous with playground development in this city. In fact the Gyro Club is directly responsible for practically all Prince Rupert's playgrounds and in providing them has established the honor and value of its career.

Last night the Gyro Club essayed the greatest of its entire career—undertaking to provide this year a new \$8500 swimming pool.

It is a courageous project to which the Gyros have pledged their resources and their efforts. They will require and, no doubt, receive the cooperation and support of the public as a whole whenever and however the occasion arises.

Citizens claim that the gun site would drive away tourists and retired people looking for a quiet place to settle down and would affect the town's business because one of the main roads leading to it would have to be closed during the firing.

There are a few farms in the zone on which farmers continued to graze their sheep during the war. They tried to gather in their flocks whenever firing ook place.

"We suffered losses almost every week through direct hits or through their straying beyond reach," said one farmer whose land has been in the family for generations. "All work on the farm had to

come to a standstill at these times, for, apart from risk of being hit, it was impracticable to use horses while the noise of gunfire was continuing."

Other spots already affected and even to a worse degreeinclude the ancient village of their party organ here, so they can, Imber in Wiltshire, whose 200 inhabitants, moved out during the war, have been told that they cannot return.

The government estimates that a total of 1,000,000 acres is needed by the various services, mostly for training. This is 10,-000,000 acres less than required during the war.

JUST TRY THIS TONIGHT

 Why waken tired and listless when you can do what thousands of happy people are doing! They simply take a cup of Ovaltine at bed time to wake up fresh and alert each morning.

For Ovaltine acts in three ways: First, taken warm at bedtime. it fosters sound refreshing sleep, without drugs.

Second, it supplies essential food elements to rebuild vitality while you sleep!

Third, it also furnishes important vitamins and minerals in a delicious, more natural way for all-round health and vigour. So why not try Ovaltine beginning tonight? See if you don't wake up refreshed and vigorous in the morning, ready to start the day with a song.

NO MORE BUTTER IN DRUG STORE

MONTREAL-Le Pharmacie, a city drugstore, has ended a promotional stunt. It managed to obtain 400 pounds of butter despite the fact of grocers and butchers being unable to do so. A pound of butter went free with every \$7 purchase. "It's ali over now," said the proprietor. 'No more butter. And we want to forget all about it."
