# Gold Drop Brings Crisis To British Labor Party

## To Get Farm Illustration Minister Tells House

(Special to the Daily News)  
The Terrace district probably an agricultural illustration station, of Agriculture, Hon. J. G. Gardiner, House of Commons last night. Minister made the statement in reply to a question by E. T. Applewhaite, M.P. for the Terrace district in the debate on the Agriculture Department estimates.

## How To Combine Business and Pleasure In Canadian Tour

USSHER—Sask., Oct. 4; Saskatoon, Oct. 6; Regina, Oct. 8; Winnipeg, Oct. 10; Toronto, Oct. 17; Niagara Falls, Ont. Oct. 18; London, Ont. Oct. 20.  
Melchior, who wore a white shirt, a gayly-patterned tie and tan trousers, said his program won't all be "heavy" music. He will give his audiences a mixture of Scandinavian songs, some Wagner and classical numbers and finish up with a series of popular songs, including some he has sung in his movies.

"The thing is not to make the printed program too long," he continued. "That way, you can give lots of encores when people applaud—and that makes the audience happy, because they think you are doing something extra for them."  
"I try to get up to Canada every year for some hunting and shooting," he said.  
His fan mail runs to about 35 letters a day, Melchior added. The other day he was advised he had been made an honorary member of a James Melton fan club.  
"They carefully explained to me that I must understand that Mr. Melton is Number One in their esteem," he laughed. "But I am very happy to be Number Two."

## ANYBODY WANT WARTIME MEDAL?

Department of Veterans Affairs in Ottawa will begin distribution of campaign stars and medals to more than 1,000,000 Canadian veterans of World War II on October 1, Veterans Affairs Minister Milton F. Gregg, V.C., announced today.

Although the exact number of veterans in B.C. eligible for these awards is not known because of post-war fluctuation of population, records show that 97,649 men and women enlisted from this province. This total comprises the following: army 60,225, navy 13,191, airforce 23,533.  
Mr. Gregg explained that in the vast majority of cases veterans will have to apply for their medals. Reason is that D.V.A. does not have up-to-date addresses for thousands of ex-servicemen and women. To facilitate application, special postage-free cards will be placed in all post offices and also in Canadian Legion branches.

Members of the permanent force, however, and certain reserve units will receive their decorations, without application, through the Department of National Defence.  
"Next of kin of veterans who died on active service are entitled to receive their stars and medals, but no application is necessary, as we have accurate addresses for them," state the Minister. "However, the official next of kin of those who died since discharge of a non-service disability should make application in the same way as a veteran."

## ACHESON AFFIRMS POSSIBILITY OF WORLD PEACE

NEW YORK—State Secretary Dean Acheson today reaffirmed his belief that East-West differences can be ended peacefully, but warned that the solution will not be quick and easy.  
In an American policy speech before the United Nations Assembly, Mr. Acheson promised the delegates from 59 countries that the United States is ready to do her part.

As expected his tone was conciliatory. However, he said that there was no hope of agreement on international control of atomic energy unless the Russians are willing to "co-operate in the world community."

In the only other direct reference to the Soviet Union in his 2,500-word address, he called on Russia to help solve the war between the Greek government and the communist guerrillas.

OFF TO STUDY ARCTIC DEFENCE PROBLEM—The U.S. joint chiefs of staff began a military inspection of Alaska and the Arctic on Sept. 6. In the first photograph of the joint chiefs of staff under the new national security organization, Gen. Omar N. Bradley, new chairman of the group (second from right) points out the next stop on a globe. Left to right are Gen. J. Lawton Collins, army chief of staff; Admiral Louis E. Denfeld, navy chief, who will not be able to make the trip; Gen. Bradley; and Gen. Hoyt S. Vandenberg, air force chief. The function of the new organization is to advise the president, secretary of defence and national security council on matters pertaining to North American defence.

## REBUILDING PREMIER MINE

STEWART—Rehabilitation work at the Silbak Premier is proceeding slowly, but it is confidently expected that substantial progress will be made by the end of October.

## T.C.L. CONGRESS ROUTES COMMIES

CALGARY—With most of its left-wingers on the run or taking cover, the Trades and Labor Congress of Canada Tuesday administered a sound thrumping to communists in Canadian unions.  
In a lop-sided 702 to 77 vote, it threw out the red-tinted Canadian Seamen's Union, storm-centre of the strife over communism in the 450,000-member T.C.L. for more than a year.  
The communists were beaten for the second time later in the day when the convention rejected a left-wing resolution on trade after a hot debate.

## QUEBEC GOV'T TO INTRODUCE LOTTERIES

CHICOUTIMI, Quebec—Premier Maurice Duplessis last night announced plans for the establishment of a provincial lottery in Quebec and today legal experts at Ottawa were pondering the legality of such a step.  
Duplessis said that the Union Nationale government would introduce legislation at the next session of the Quebec legislature to institute a provincial lottery.  
A high spokesman for the Justice Department in Ottawa said "most lotteries" were illegal under the Criminal Code of Canada which takes precedence over provincial legislation.

## REDS BOAST CZECH PRODUCTION, TRADE MAINTAINING SCHEDULE

By SYDNEY BROOKES  
PRAGUE (Reuters)—Production in Czechoslovakia is increasing steadily, communist authorities claim. Foreign trade, they add, has been unusually successful this year with both exports and imports increasing.  
From these same official sources, the need to spur workers and industry on to greater efforts has produced a number of other facts which prompted one expert to say, in an official publication last month, that "clear-sighted organizational activity" is necessary.

This monthly survey, published by the National Bank of Czechoslovakia, said the fault to be corrected were slight but added they were faults which resulted in non-fulfillment of planned quotas.  
The bank review listed a number of fields in which the Czechoslovak economy was discovering obstacles to the smooth progress of a closely-planned economy.  
Some of the troubles arose from shortage of raw materials, a symptom, observers here believe, of Czechoslovakia's increasing difficulty in trading with the west.  
All industry was feeling the effects of a decrease in the production of hard coal.

## Six Stowaways

MONTREAL—Four Negro stowaways who lived seven days in the hold of the freighter Car-mell with seven coconuts for food and two others who claimed to have spent 17 days in the freighter Penden's lifeboats brought this port's total of "free riders" to the highest number in years. They are being held pending deportation proceedings.

AFTER THE TYPHOON STRUCK—Wreckage of homes and buildings strewn along the banks of the Tone river marks the path of the disastrous typhoon "Kitty" that swept Japan's mainland island of Honshu last week. The big wind and resultant floods left 144 persons dead or missing, thousands homeless and damage to property running into the millions.

## GREEK BORDER WARFARE ENDED

NEW YORK—The United Nations special commission on the Balkans announced today that the Greek army has eliminated organized guerilla resistance along the northern Greek borders. However, this does not mean that the Greek civil war has ended. Communist-led bands still rove parts of the interior.

## SEVERAL MINES PRODUCE SMALL ORE SHIPMENTS

STEWART—Small shipments of ore will shortly be made from various properties in this district. John Lehto, who has been working the Black Hill property on Glacier Creek says he has a hundred sacks ready for shipment as soon as he can have them transported from the property.  
The Silver Tip on the upper Salmon River has over two hundred sacks which will be ready for shipment about September 26. William R. Tooth, representative of the company here, says this shipment will average \$150 to the ton.  
Shipment from Al Phillips property is on the way and Owen McFadden is busy getting out a shipment from the Northern Teminus Group on American Creek.

## THE WEATHER

Synopsis  
A series of diffuse disturbances moving across Northern British Columbia gives little hope for much improvement over those regions of the province. Cloudy skies and occasional light rain are reported to continue during the next 24 to 48 hours. The path of these disturbances has become almost stationary in the past 12 hours. Relatively clear skies are general in the southern regions with little present indication of any marked change the near future. Fog patches will form along the low lying coastal areas tonight and frost will again touch the valleys of the interior mainly in the Kootenays.  
Forecast  
North Coast Region—Overcast with intermittent light rain or drizzle today. Cloudy tonight and Thursday with occasional light rain Thursday morning. Little change in temperature. Winds light. Low tonight and high Thursday at Port Hardy, Masset and Prince Rupert, 50 and 55.

## EXTORTION PLOT AIRED IN LOS ANGELES COURT

LOS ANGELES—Charges of a former Hollywood actors' agent that "hundreds of thousands of dollars" are being wrung from its victims by a "ring of prostitute extortionists" were on file today in court here.  
A transcript of testimony by Paul R. Behrman, 41, was filed yesterday by District Attorney William E. Simpson in support of a motion by a witness who had been declared in contempt of court for refusal to answer questions before a grand jury.  
Behrman's allegations that the extortion ring had shaken down numerous "innocent victims" was made in a memorandum which Behrman identified as his own and which Simpson read to the jury.

Mr. and Mrs. Terry Grumble and son, Ross, are leaving Thursday evening for Duncan, Vancouver Island, where they will take up future residence.

## Trade Unions Suspicious of Devaluation

LONDON (CP)—Britain's Labor government faced a political crisis within its own ranks today when the trades unions threatened revolt against high prices resulting from money devaluation.

Outside Britain, repercussions of the drastic slash in the British pound's value continued to jolt the world's markets.  
Belgium became the twenty-second country to cheapen its money by slicing the value of its franc by 12 percent.

France proposed to Italy, Holland and Belgium that the four countries act together to ease trade barriers and make their currencies freely interchangeable.  
The threat of a British crisis was raised by the general council of the Trades Union Congress whose 8,000,000 members are the backbone of the ruling Labor party.

The council—instead of endorsing government policy as in the past—decided last night that it "could not pass on the necessity of devaluation."

It called for assurances from economic chief Sir Stafford Cripps that the government would make every effort to limit the price rises which will be the sure outcome of cheaper money.

## CANADA GETS KEY ROLE IN ATLANTIC PACT

OTTAWA—One historic factor in the defence machinery being established under the Atlantic Pact is the inclusion of Canada in the regional planning group for western Europe where she has committed her army to action in two wars.

That means that she will have a direct active voice in three of the five regional groups whose plans will be co-ordinated and integrated by a key military body, the Anglo-French-American "standing group."

Her role in the two regional groups is obvious. One is the Canada-U.S. group which already exists in joint preparation of North American defence.

The second is the north Atlantic ocean group where her anti-submarine convoy navy has an apparent place.

## KEY SAWMILL WORKERS MAY GO ON STRIKE

VANCOUVER—Threat of a strike that would tie up a large part of British Columbia's lumber industry was made Tuesday by the policy committee of the Lumber Inspectors' Union (C.C.L.).

The committee recommended rejection of a conciliation board's majority report and asked its membership of 280 men—key figures in the lumber industry—to authorize a government-sponsored strike vote.

The inspectors will ask full support from other unions of their 35 cent-an-hour wage increase demand which would mean that if the membership did strike, all work handled by the 280 key men would be declared "hot."

This would mean that other workers would not touch the lumber, thereby tying up the majority of mill workers.

## Domestic Picture in England in Healthy Shape, Mrs. Black Finds

Mrs. J. S. Black Back From Flight Overseas  
For the first time in twenty-six years, Mrs. J. S. Black, of 732 Fifth Avenue West has been on a visit to her old home in England.  
A pioneer of this city, and long active in community work, Mrs. Black found her sojourn in the Old Country one of absorbing interest and pleasure. She travelled by air, and that also was an experience to be long remembered. The return flight was by way of Iceland and Greenland, this route being somewhat shorter.  
Travel time was greatly reduced.  
(Continued on Page 2)

## Into Maturity

TAKING A LAWSUIT to the Privy Council is an expensive process, as many a Canadian citizen of average means has discovered. Parliament is now debating amending of the constitution, the purpose of which is to have the Supreme Court of Canada, and not the Privy Council, the final authority.

Constituting the Supreme Court of Canada as the highest judicial authority, the court of last resort in place of the Privy Council, will have the effect of reducing one of costly processes of law without in any way unbalancing the justice dispensed.

While Canadian law, with the exception of Quebec civil law, is based on British tradition, Canada nevertheless is a separate country and its occurrences and problems are becoming increasingly divergent from the course of events in Britain's tight little Isle.

Therefore, it is reasonable that a Canadian judiciary, whose roots are solidly clinched in the tradition of British justice, yet whose members are individually Canadian, should be capable of giving final rulings on things Canadian.

As one of the estates of the realm, the judiciary should now be allowed the maturity which Parliament achieved under the Statute of Westminster some 18 years ago. If Canada is to take the place in the world which events are relentlessly forcing on her, she should face the world with an internal independence as well.

However, in revising the constitution, it is patently necessary that great care should be taken that careless thinking or selfishness is now allowed to have any influence.

CLASSIFIED ADVERTISING IN THE DAILY NEWS PAYS!  
THE CANADIAN ARMY—"INSURANCE FOR PEACE"

In towns and cities across the country, Canada's Citizen-Soldier is enthusiastically engaged in an all-important job. The spare evenings he devotes to training help to assure the well-being of Canada, because the Reserve Force forms an important part of this country's defence forces.

The new Reserve Force offers many personal advantages: trade and technical training; Active Service rates of pay for time spent in training and summer camp; a full programme of sports and social events for men who get a kick out of working together.

Visit the Regiment or armoury of your choice for complete details. You can help yourself and Canada by joining the Reserve Force.

## Ray Reflects . . . . . . and Reminisces

Yesterday, in the general drift of news, there was occasion to print the name of a Canadian dignitary, the Hon. Leslie Pearson, Minister of External Affairs. Everything about it was all right except that in composition, the letter X was left out. For once, the proof-reader was on to his job.

The C.C.F. motion to amend the old age pension act through removal of the means test, was defeated, as expected. The test has been the target for forceful criticism ever since it was first heard of. A fellow, it seems, has to be really hard-up before being able to qualify. Some say it involves replacing a certain part of one's trousers.

Lower wages and reduced cost of living, or keep on as we are? This query was put to a worker shortly after the devaluation stories started coming in early this week, and quick as a flash he said he preferred lower wage scale. But there were plenty of others who could not share his opinion. They all seem to like the feel of a fat envelope, even if they have to let go, ere long.

Tippling is said to be discouraged when making a lengthy air journey. Naturally! There's nothing like patronizing a good strong steady plane.

The Minister of Fisheries is launching an "eat more fish" movement, for the consideration of the Canadian people. For some strange reason, the consumption of fish, from one end of Canada to the other, has always been on the small side. Who was the misguided individual that first tried to make

it appear that fish should be served only once a week?—on Friday only. There's a damp-fool notion, to begin with. Kill it, and do it now.

Until last week-end a loaf of bread in England, cost nine cents. But from now on, according to devaluation reports, it's going to be twelve. A family, say, averages three. A single loaf is precious little. A husky boy or girl can put away more bread than Dad. Three times three! A couple of dozen meals and snacks a week? Figure it out.

A lady out our way had company one afternoon last week and the smart advance lot of baking included a cake.

The cake looked so good, it merited not only an exclamation of delight, but also, an icel-g. Well, later on, when the guests were all chatting, sighing, smiling and exchanging news and views and all, that the hostess noticed something.

We forgot to mention—she owns a comfortable-looking cat, appearing pleased with life in general, as it came stalking slowly into the room.

"I wonder what you've been up to," was the unspoken thought of the owner. She slipped into the kitchen. The cat had also admired the cake, for about three-fourths of the icing had been licked off.

### SNOW COVERS STEWART PEAKS

STEWART—Fresh snow appeared on the peaks around here just to remind us that winter is just around the corner. The wood and coal merchants are busy supplying their customers with the wherewithal to keep warm this winter.

### SPECIAL BURDENS

From early times, white mules were reserved for the use of honored persons.

### DOMESTIC PICTURE (Continued from Page 1)

"I left London September 8 and arrived in Vancouver September 9," remarked Mrs. Black. "Weather, most of the way was fine."

After the lapse of twenty-six years, there was a great deal to see and do, and hear, in the United Kingdom. Her home city, Gainsborough, near Nottingham withstood severe attacks of the enemy during the second Great War.

Practically a complete city square was wiped out by bombing and by fire, and has not yet been rebuilt. In many other cities, including London of course, restoration has been largely advanced. Her brother, prominent business man of Nottingham, is at the head of a long-established tailoring enterprise.

Of the many cities and towns in which visits were made, could be mentioned London, Glasgow, Edinburgh, Gainsborough, Nottingham, Newcastle, Whitley, Lincoln, Newark, Mansfield, Spalding, Cleaford, Skegness and Spilsby Hexham and Nr. Newcastle.

"I should say," said Mrs. Black, summing up impressions of England and Scotland, after her stay overseas since early in the summer, "that general business and industrial affairs are on the whole favorable. Everyone who wants to work can find it. It would not be at all surprising to see the return of the Labor government in the next election, whenever that may take place.

Since the devaluation of the pound sterling went into effect the attitude may have changed, however.

How about the man on the street? Do people appear to be enjoying life, with all of their problems? she was asked.

Mrs. Black laughed, "Do they? Theatres are packed. People, in a city like London, are everywhere. All appear to be busy enough, and in a good enough humor. 'Oklahoma' has been showing for almost two years steady. There is no liquor question. If anyone wishes a drink—and it seems nearly everything is on sale—he just walks in and buys. For the

entire time I was in England I never saw anyone under the influence of drink. And right here is where I'd like to speak of something that is scarce. It's soap. Yes, sir, just plain, everyday soap."

Mrs. Black has many complimentary remarks to make about the all round skill, care and attention displayed by the Trans Canada Air Lines on which she travelled both ways. Leaving Newfoundland, outward bound, there were thirty-eight passengers and there was the same number when returning. Nothing, apparently was forgotten or overlooked that could, in any

way, contribute to the general comfort and convenience of those on board. There was an hour's stay in Reikjavik, chief of city of Iceland, and later, when flying over southern Greenland, the plane dropped low enough for all to clearly follow the snow fields and icy peaks of some of the more remote places. "And there is something I almost forgot to mention," concluded Mrs. Black, "tips have been abolished on transAtlantic air liners. It's about time, for the thing had become nothing more or less than a racket."

**SOCIAL and PERSONAL**

• Gordon & Anderson sell Trimz Wall Paper. (221)

• Men! Get your fall suit and topcoat at William F. Stone's half price sale. Starting Friday morning at 9 a.m. See our ad in Thursday's paper.

Mr. Nels Robinson was taken from the Pioneer Home to the General Hospital at 5:00 p.m. yesterday by the city ambulance.

• Sons of Norway meeting Wednesday the 21st at 8 p.m. sharp. Initiation followed by a social for members and escorts. (221)

City Clerk and Mrs. H. D. Thain returned today on the Prince George from a holiday spent in Vancouver and the southern interior.

• There is no devaluation of the dollar at William F. Stone's half price sale. Your money is worth twice as much Friday at Stone's. See our ad in tomorrow's paper.

Mrs. M. M. Roper left today for Terrace to attend the wedding of her son Emerson Forbes to Miss Ina Smith, which takes place at the interior town this evening.

• Free trousers tomorrow at William F. Stone's. Don't miss this opportunity to get quality merchandise at greatly reduced prices. Watch for our ad Thursday.

Mr. and Mrs. Don Creed are leaving on tonight's train for Ottawa where Mr. Creed will attend a national convention of the Canadian Brotherhood of Railway Employees. They plan to be away about a month, visiting at Montreal and in Saskatchewan after the 10-day Ottawa convention.

Mr. and Mrs. Lorne Vanetta left today by air for Vancouver where Mr. Vanetta will take charge of the Overwaitea Co. store, after holding a similar position here for the last two years. He is replaced here by B. H. Lane, formerly of Vernon, who has arrived in the city with his wife.

Miss Elizabeth L. Forbes, Women's Editor of the Victoria Daily Times is a visitor in the city, guest of her brother and sister-in-law, Mr. and Mrs. Gordon Forbes. She arrived by train from the interior Tuesday evening and will sail on the Prince George Thursday night.

Col. A. Hamilton Grant, Veterans' Officer in the National Employment Service of the Department of Labor here for the past four years, has received a reassignment to the Department of National Defence as personnel officer at the Royal Canadian Navy establishment at Kamloops. Col. and Mrs. Hamilton Grant will be leaving the city shortly to take up their new residence at Kamloops.

KIRKWALL, Scotland — Copinsay, 144-acre Orkney island, is for rent. Orkney's most powerful lighthouse is on top of its 211-foot cliff.

Attention Co-op Members. Kaien Co-op butcher with wife and two kiddies needs decent living accomodation. Please contact Gorge Hills or Eric Faure. This is urgent. (223)

**Out on the line...  
IN HALF THE TIME**

Yes, a modern electric washer is a fast worker. It gently forces hot soapy water hundreds of times through soiled clothing — thoroughly and quickly. Imagine the backaches, skinned knuckles and tired feet, the wear and tear on clothes, if you tried the same process by hand! Expensive? No, a few cents worth of electricity will do the largest wash.

A new electric washer is an energy-saving, time-saving investment. Why not order the model you want, in time for next wash-day?

**NORTHERN BRITISH

## Car Styles Offer Unlimited Scope For Future, Famed Designer Says

by DAVID J. WILKIE  
DETROIT (AP) — The last word in automobile styling still is in the indefinite future. That's the opinion of Thomas Walker, noted industrial designer. Walker should know. He has been styling automobiles—along with a host of other things—for more than 20 years. Before that Walker, a former rubber-factory worker and professional football player, designed women's gowns, shoes, handbags and hats. More recently he helped design the 1949 Ford car which won a citation for Ford and Walker in the fashion academy award.

Canton Bulldogs and Cleveland Panthers in 1923 and 1924. At the same time he was getting retainers as a fashion designer. An ardent apostle of "efficiency of design," he says the time never should come when automobile styling will have reached its limit. "Just as research opens new fields to the automobile engineer, so it does for the automobile stylist." Walker says the motor car has about reached its maximum width and minimum height. But that doesn't mean that its lines can't be changed for greater eye appeal and greater comfort. The Walker influence can be seen in most of today's automobiles, even if he didn't style all of them. He had a large part in ridding the automobile of the trunk that in the early '30's was bolted on the rear. He made it an integral part of the vehicle.

**KROL SPARKS ARGOS TO 26-18 WIN OVER CATS**—Starting Big Four's 1949 season with a bang, Toronto Argonauts exploded to a 26-18 win over Hamilton Wildcats before 12,200 football fans at Varsity Stadium in Toronto. Star of day was Argos' big Joe Krol, who outpassed, outran and outkicked his opponents and teammates to account for 20 of his team's 26 points. Here Argo man is seen being tagged by a Wildcat player during first half of game.

### Egg-Cultured Vaccine to Protect Cattle

Eradication of rinderpest, the disease which kills some 2,000,000 farm animals every year is now a practical possibility, the Food and Agriculture Organization of the United Nations (FAO), reports. During the war American and Canadian scientists discovered that by growing the virus inside hen's eggs, speedy mass production of rinderpest vaccine is possible. Here, a FAO technician is seen harvesting egg membranes rich in rinderpest virus.

## NEAR-MISS IN CHEMICAL DISCOVERY DELAYED HEALING ART GENERATION

By ALTON L. BLAKESLEE  
NEW YORK (AP)—In 1908 a German chemist made a new chemical, then stuck it away in a laboratory safe. It lay gathering dust for 25 years, until in 1933 another German scientist took a look at it. Two years later he announced discovery of prontosil, first of the amazing sulfo drugs. Prontosil was the chemical made in 1908. It is one of the classics in stories of near-misses in medical research. By a hair's breadth, scientists have dismissed recognizing drugs that could have saved millions of lives if they had been put to use earlier. Prontosil was one of the hundreds of chemicals made when Paul Ehrlich was seeking his magic bullets to kill germs. Why it was never put to a test is a mystery, Dr. Boris Sokoloff writes in a new book, "The Miracle Drugs." (Zig-Zag Co.).

Rediscovered in 1935, prontosil was the springboard for chemical research that brought on sulfanilamide, sulfapyridine, sulfathiazole and other sulfa drugs that fought certain infections like no other drugs ever had. In the Second World War, the sulfa drugs were one of the reasons why 97.3 percent of all wounded United States servicemen survived. Sir Alexander Fleming discovered penicillin in 1928. Mold spores floating in the air got onto agar plates on which he was growing bacteria. One mold produced this chemical that fought powerfully against the germs. He kept working at his discovery but it attracted little attention. It took a war to get penicillin born. Scientists took up the

### TRAIN SCHEDULE REVISIONS WITH TIME CHANGE

Revisions in C.N.R. passenger train schedules on various routes in British Columbia become effective Sunday, September 25 with the return of Standard Time.

In making the announcement Canadian National officials suggest that rail travellers contemplating trips on and after that date would be wise to check with local agents for accurate information on the new times.

For the particular information of passengers arriving or departing Prince Rupert, train No. 195 from the East, will arrive Prince Rupert at 10:15 p.m., instead of 10:30 p.m., Tuesdays, Thursdays and Saturdays.

There will be no change in the departure time of east-bound train No. 196, which will continue to leave Prince Rupert at 8:00 p.m. Standard Time, Mondays, Wednesdays and Fridays.

### Borthwick Leads Gold Pro Tourney

SEIGNIORY CLUB, Quebec —The second half of the Canadian professional golfers' association championship tournament was threatened by rain today. In yesterday's play, Dick Borthwick of Hamilton led the field of 52 through the first 36 holes of the 72-hole tourney. Borthwick fired 143 to hold a one-stroke margin over Bob Gray of Toronto. Borthwick had 75 out and 68 in. Par for the course is 71.

**Business Women Hold First Meet Of Fall Season**  
An enthusiastic meeting of the Business and Professional Women's Club was held in the Civic Centre last night following a dinner in the dining room. Plans for the coming season were discussed.  
It was decided that future dinner meetings would be followed by a social evening at homes of various members of the club. A violin concert to be given by Miss Donna Gresco at the Civic Centre October 23, was discussed and plans for the

sale of tickets and other arrangements were made. Resignation of Miss Geraldine Cade as secretary was accepted and Miss Mary MacMillan was elected in her place. A social hour followed the business meeting.  
**SHIPBUILDING CENTRES**  
The cinque ports—five seaports on the southeast coast of England—were used in early times to furnish shipping for the state.  
**SCANDINAVIA'S ADAM**  
Ask, in Scandinavian mythology was the name of the first man created.

**AUSTRIAN REFUGEE MAKES FRIENDS**—Leonard Gawlitza, an Austrian refugee who swam from ship in the St. Lawrence river three miles to the shore to avoid deportation, is now learning the fundamentals of Canadian farming near Dunnville, Que. He was released by immigration officials on \$1,000 bond while his case is being reviewed. Here Gawlitza is shown with some of his new-found friends who are helping him to acquire a knowledge of our country.

**SMITHERS P.-T.A.  
HEARS CHAIRMAN  
OF TRUSTEES**

SMITHERS — J. MacDonald, chairman of the School Board, gave a short talk explaining the duties of the Board, at the regular monthly meeting of the Smithers P.-T.A. in the grade school Monday evening.

Mr. MacDonald outlined the enormous amount of work which had been successfully undertaken by the local Board in the last few years, pointing out that

the arranging of schedule was not the work of the Board but of the education committee.

The meeting was well attended. Chairman J. Davidson thanked all those present for their interest and suggested that the P.-T. could help with the library project as well as with the school lunches.

He also stressed the point that anyone interested in the welfare of children could join the organization regardless of whether they were actually either parents or teachers.

Membership fees are \$1 per annum and there is an excellent Parent-Teachers' magazine published at 50¢ per annum.

**BORDEN P.-T.A.  
ENDORSES NEW  
SCHOOL BYLAW**

An enthusiastic meeting of the Borden Street School Parent-Teacher Association held in the school last evening heard an interesting and informative talk by school trustee W. J. Scott on the various steps leading up to the formulation of the school by-law to be presented to the ratepayers of Prince Rupert on October 6.

Mr. Scott referred to the necessity of having the by-laws passed this year so that the building program might be started at least in time for next fall. His recapitulation of the work done by the members of the board was most revealing. For three years now they had been concerned with the questions of sites, ways and means of financing and then the plans themselves.

Over forty meetings, and correspondence with the Department of Education, the architects, the school inspectors and the inspector of municipalities had meant a great deal of work. He paid tribute to A. M. Hurst, principal of Booth Memorial High School, and R. G. Moore, principal of King Edward school for their invaluable help in discussing plans for their respective schools, and to the teachers generally.

Four sets of plans had been studied for the King Edward School before the adoption of one, while no fewer than twelve plans had been considered for the first wing of the High School before one was agreed upon.

He pointed out that the School Board was not a political body with funds available for a campaign but he was sure that the ratepayers were sufficiently convinced of the necessity of building new schools immediately that they would make it their business to turn out and vote in favor of the bylaw.

A hearty vote of thanks to Mr. Scott was endorsed with acclamation, and a committee of three, Mrs. Flood, J. S. Wilson

She was judged first-prize winner in the talent division after singing Sempre from La Traviata.

and S. A. Cheeseman, with power to add, was named to assist in whatever effort might be considered desirable to get the people out to vote.

After the routine business had been dealt with, the installation of officers was impressively carried out by Honorary President J. S. Wilson. Those installed and positions to which all were appointed are as follows:

President—Mrs. H. C. Flood.  
Vice President—Mrs. A. J. Dominato.

Secretary—Mrs. Grissel.  
Treasurer—Mrs. Halverson.  
Programme Convener—Mrs. Logan.

Refreshment Convener—Mrs. P. Bond.

P.T.A. Council Representative—Mrs. W. McLeod.

Film Council Representative—Mrs. C. Strand.

Literature Convener—Keith Faught.

Membership Convener—Mrs. Watmough.

Several new subscribers were added for the P.T.A. News.

Principal J. S. Wilson introduced.

In the course of the evening, all the members of the staff to the audience and in the social period that followed, during which refreshments were served, the parents met the new teachers and one another. Miss Y. Larson played for the singing.
