MADAME CHIANG AT WASHINGTON

Unlikely That Much Aid Will Be Forthcoming

WASHINGTON — Madame Chiang Kai Shek, whose husband is the Generalissimo of the Chinese National Army, arrived here Wednesday afternoon, to seek United States assistance in preventing defeat by the Communist forces.

Unless this is done, the Chinese leader has already advised President Truman, there is small likelihood of the Communist advance being halted. As far as is known there has been no action taken by the President or the government, other than a formal acknowledgment of Chiang's letters.

Madame Chiang Kai Shek was given a cordial welcome, but it appears to be a foregone conclusion that China will receive no major co-operation. Just what will be done, no one can say at present.

When Madame Chiang Kai Shek was last here, no aid was too great, for then, the United States was at war with Japan, and China's help was of importance.

Today, in Washington, the prevailing wish is that she had not come at all. The suggestion that some leading U.S.A. General, such as General MacArthur, direct the Chinese National Army is not warmly received. Such action would only lead to unheard of costs and drag the United States deeper into the morass that China is gradually becoming.

1,164 ATTEND CITY SCHOOLS

Enrolment at the city's five public schools in November was 1,164, the same as for the previous month, reports of principals read at last night's School Board meeting revealed.

A drop in enrolment at Booth Memorial High School was offset by increases at the three elementary schools, leaving the total the same as the previous month. Attendance records were excellent.

Booth Memorial's enrolment dropped from 456 to 449 as a result of seven students leaving the city, Principal A. M. Hurst reported.

Borden Street's enrolment increased by one over October and was 220 last month. Attendance percentage was 95, Principal J. S. Wilson's report stated.

At Conrad Street, the enrolment was 212, according to Principal T. G. Bateman. It was up two over October. Percentage of attendance was 95. Reports were received from only two of the district's four rural schools. Enrolment at Port Essington was 43, according to Principal Ellen Elynyk. Miss Margaret Moret reported an enrolment of 10 at Port Edward.

CASES SETTLED OUT OF COURT

Two civil actions against Duncan Wing of Prince George were settled out of court after having been set for hearing yesterday in County Court by Judge W. O. Fulton. William Bailey and Lemuel Rapp, both former partners in a roofing firm with Wing, each brought suit for \$1,000 in court here. On November 1, Judge Fulton set date for the hearing as December 1, but meantime, settlement had been achieved out of court. Rupert Fulton acted for Wing in both cases, while counsel for the plaintiffs was A. Bruce Brown.

WILL THESE TWO MEN MEET?—Moscow newspapers have given widespread publication to a Tass dispatch which reports that President Truman might go to Russia for a personal conference with Premier Stalin. The two men are pictured above during a meeting in Potsdam, Germany, in 1945. Standing between them is a Russian interpreter. Assistant White House Press Secretary Eben Ayers denied that the President would go overseas to meet Stalin, but said he would gladly meet him in the United States.

MORE CONSCRIPT SERVICE

LONDON—House of Commons last night approved principle of a government bill to increase the service of future conscripts in the armed forces from twelve to eighteen months. Former Prime Minister Churchill and the Conservatives supported the measure but not before the Opposition leader had accused the government of "mishandling and squandering defence resources." Churchill said that Great Britain has a "highly organized Communist fifth column, a small number but active in all parts of the country."

WASHINGTON MOVES SLOWLY

WASHINGTON—Officials moved slowly today on urgent appeals from the Chinese Nationalist government for help. Two factors working against American aid are: First, Congress which must authorize the aid will not meet for a month. Second, military and political conditions in China are too unstable. Officials believe that aid would not help now.

COMMUNISTS CLAIM SUCHOW

SAN FRANCISCO—The Communist radio today claimed the capture of Suchow, big Nationalist base, 200 miles northwest of Nanking. The radio, monitored by Associated Press here, said the city fell yesterday. There were no details. Pilots dropping rice, reported that the Communists were within a few miles of Suchow, abandonment of which was ordered by the government earlier in the week.

NEW SENATORS NAMED

OTTAWA—Prime Minister St. Laurent announces two new Liberal Senate appointments, boosting the Liberal representations from 63 to 65. Joseph Willie Comeau, 74, minister without portfolio in the Nova Scotia government, and George H. Ross, 70, Calgary barrister and House of Commons member for Calgary East from 1940 to 1945, are the appointees.

SEEK CONTROL OF BERLIN

BERLIN—A divided Berlin braced itself today for new Communist attempts to disrupt western sector plans after hecklers last night tried to break up a western political rally. In Russian-occupied Eastern Berlin the new government gathered for its first session in the City Hall from which the legally elected government was ousted. Western Allied officers attached to the city government were withdrawn today from the centrally located hall.

'PHONE BYLAW FINAL READING

Approval for Plebiscite Given by Council

Final approval to bylaw authorizing a plebiscite in which city voters will express their opinion on a proposal to borrow up to \$550,000 to rehabilitate the city's telephone system was given by city council at a special meeting Wednesday.

The plebiscite will be one of two to which the voters will be asked to give answers at the December 16 civic elections in addition to electing five aldermen and three school trustees.

The other will seek the opinion of voters on a proposal to institute a special levy of one mill on the city tax rate for five years to be used solely for the improvement of Roosevelt Park.

The telephone plebiscite will be purely an expression of opinion and will not be a vote on the bylaw itself, although popular opinion may influence the provincial government in giving its approval to such a bylaw.

City Council had hoped to submit the telephone rehabilitation bylaw to the ratepayers at the annual elections, but failure to receive provincial government approval to a draft prepared more than two months ago has caused a delay.

The Department of Municipal Affairs countered with a proposal that it should prepare a bylaw which would be acceptable under the Municipal Act, although no objection was raised to the city's finance plan during discussions between civic finance representatives and department heads at Victoria a month ago.

Council has termed the department's objections as "vague" and "in need of clarification."

At what time the department's version of the bylaw will be ready is not known.

At its special meeting yesterday, approval was given to a routine bylaw authorizing the city to borrow from the Bank of Montreal up to \$50,000 to cover ordinary expenses until next year's tax month is received. Interest on amounts borrowed will be at four per cent. Provincial government bonds, owned by the city will be used as security for the loan.

A land sale bylaw and one permitting purchase of a wartime house for social service purposes also were approved.

LOUIS STARR DIES IN CITY

Chief Louis Starr of Port Essington died Wednesday while visiting relatives in the city. He succumbed, apparently, in his sleep, at the home of his niece, Mrs. Bertha Ness, 28, Cow Bay, and was found dead in bed. He is survived by a sister, Mrs. Cecilia Mills of Port Essington, and a brother, Paul Starr, of Cassiar. Mr. Starr, who was unmarried, was 56 years old.

MARTIN BAN IS UPHELD

Bar Association Ratifies Decision of Benches

VANCOUVER, Q.—The Vancouver Bar Association has ratified the British Columbia Benches' decision to exclude Gordon Martin, Communist law student, from practicing law in B.C.

The Benches recently turned down Martin's application for admission on the ground that he was an improper person to be called to the bar. He is a self-admitted member of the Labor-Progressive Party.

At the annual meeting of the Bar Association last night it was reported that Martin has the right to take the Benches' decision to the courts for consideration, and to the Supreme Court of Canada, if necessary. One member added: "And it won't cost Martin a nickel."

Damage and Inconvenience Caused By Wild Storm On Lower Mainland

VANCOUVER (CP)—End of a deluge of rain was forecast today but last night wind-driven rain and sleet still battered the west coast. Tons of mud and small rocks crashed down on the Great Northern depot at New Westminster yesterday, crumpling a wall and filling the waiting and baggage rooms. No one was injured. Several painters had a narrow escape as a slide fell from a 50-foot cliff behind the station. Heavy rain was blamed.

NOT PLANNING CONSCRIPTION

OTTAWA, Q.—Canada is not considering peacetime conscription, Defence Minister Brooke Claxton said today. He was commenting on reports that Canada's obligations under the North Atlantic Security Pact might make necessary compulsory service.

Makes Plea For Natives

Are Capable, if Given Chance and Developed Properly, of Becoming High Type of Citizen

The Indian is just as capable as any other citizen of assuming his role in the affairs of country and community and had proven himself, particularly during the war, in the business, industrial and military field, declared Dr. P. E. Moore, director of medical service, Department of Indian Affairs, Ottawa, who took time off yesterday during an inspection visit here to address the weekly luncheon of the Prince Rupert Gyo Club. Wherever the Indian was given a fair chance he had been able to play a full part. This had been demonstrated here in this district in the fishing industry after the departure of the Japanese.

Commending an increasing interest on the part of the white community in the problems of the Indians, whose home, after all, this country had been before the white men came, Dr. Moore invited visitations to such places as Miller Bay Hospital. He was sure that no one could be impressed by the children there. There were no brighter or sweeter children than these which suggested that, somewhere along the line, something was being missed in the development of the Indian toward adult citizenship. To ascertain what was wrong with Indian policy and act accordingly was a challenge to every thinking man and woman in Canada.

BYPASS ISRAEL'S U.N. APPLICATION

PARIS, Q.—Action by the Security Council on Israel's bid for membership in the United Nations may be delayed until her political future is settled. The council met today to consider the application. The signs were that the council would side-step making a judgment.

SNOW LEAVES, COMES AGAIN

Sodden snow and odd lots of ice almost disappeared yesterday afternoon. At some points in Section I the streets had almost been washed clean. However, another light snowfall came during the night with clearing and cooler skies today.

"Snow has no business in Prince Rupert anyway. I'm glad to see it going." This appeared to reflect the general feeling. There was a bit of a shock this morning when window blinds were raised and more flakes were falling with ground covered again.

Rod MacLeod acted for the accused couple.

The Mised Dean

VERY Rev. Dr. Hewlett Johnson, Dean of Canterbury, because this is a democratic country and everyone can have his say, has been going about expressing the opinion that Communism, as they have it in Russia, is a lovely thing and that earth might be nearer Heaven if we only had a little more of it.

The people of Russia probably do not want war. Neither do the people of Canada, the United States, Great Britain nor any of the other democracies of the world. They have an absolute horror of war, its bloody sacrifices, the prodigious waste of it. Russia is a despotism. If we have a war it will come from despotism, not from communism. Nine-tenths of the world's wars have had their geneses in the minds of despots.

If the armies of despotism, those Red armies, stood on the opposite side of the English Channel and attempted to cross, as they have done in some countries which have fallen into the Soviet orbit, would the Red Dean, kindly, generous though gullible he may be, still tell us that communism is a Christ-like thing and these people were trying to conquer the Island Kingdom for the good of its inhabitants? Would he still proclaim that this was the coming of a new era, the supreme hope of man?

Let us assume that all the Red Dean says is true and that Russia is a comfortable country to live in and work in and that people can be happy there, then why doesn't Russia lift the curtain and let others see the way men live under Communism? Then why—unless the Russian rulers see danger in it, are Russian women not permitted to leave Russia to join the English husbands they married during the war?

Surely all the great newspapers of the world, Socialist ones too, cannot be misrepresenting Russia. Editors are sometimes mistaken, reporters may misunderstand but, if the bars were down, we would know the truth about Russia.

The simple fact is that the world does not know what goes on in Russia—nor can the average Russian understand the differences between democracy and despotism. He has never known freedom. Some day the sun will shine through the darkness of the darkened mists of despotism may become a reality. It can't come too soon for the peace and sanity of the world.

INDIANS AS CITIZENS

THE DIRECTOR of Indian medical services for Canada, here from Ottawa, addressed a local service club yesterday on the work coming under his jurisdiction. The most interesting part of his address came when he digressed to discuss the relationship of the native to citizenship and the possibilities of his taking a fuller and more responsible part in the community. There is much in what Dr. Moore said with which we agree and which, in our humble way, we have ourselves at times advocated.

It was interesting to hear the doctor say, and if anyone knows from personal experience it should be himself, that there is no child "brighter or sweeter" than the Indian child, but somewhere along the way, he continued, something is being missed in the Indian policy that does not tend to develop that child into a responsible citizen. Dr. Moore, reasonably, made much of the point that it was the wrong policy to segregate the Indian. In other words, there should be acceptance of the natives—an acceptance that would be much the easier if it started from the phase of childhood.

There has been too much paternalism in the Indian policy of this country. There has been too much exploitation. As a result many of the Indians, and it started probably somewhere in early childhood through the way he has been handled, have acquired the worse things rather than the better things from association with the white man.

But, in spite of the white man and the weaknesses of Indian policy, Dr. Moore truly enough pointed out that there have been Indians who have made good and become just as fine and responsible citizens as any white man. Unfortunately, however, many have fallen along the wayside from childhood.

As the doctor suggested, the question of the Indian is one that can well receive our serious thought.

LETTERBOX

MR. BRETT PLEASED

Editor, Daily News:
I was greatly interested in your editorial of November 24, with respect to maintenance of the Skeena River Highway.

It is obvious from your criticism that you have come to realize that the actions of government are not always based on the welfare of the people but rather at times on political expediency. More power to you, Sir, and it is apparent from the news in Wednesday's issue of your paper that your efforts and those of others are bringing results, at least in the way of promises from the Minister of Public Works.

With reference to my duty in the matter, which you suggest in your editorial referred to and with which I agree, I submit, Sir, that it is somewhat discouraging to have the Member of a neighboring riding, especially when that member happens to be a Cabinet Minister and whose constituents are also vitally interested, rap one severely on the knuckles for daring to suggest that this stretch of highway should receive better attention from the Department.

It is more than passing strange that Mr. Kenney has effected a complete about-face in the matter and is now throwing his full support behind the people of this community in their efforts for better treatment from the Department of Public Works. Can it be that there is any difference as to who makes the representations or could it possibly be that the results of recent by-elections in the Province have anything to do with the change of attitude?

However, Mr. Editor, regardless of who gets the credit, I am more than glad to see that there has been a change and that we can look forward to better treatment in the way of roads in this part of the Province than we have received in the past.

W. H. BRETT, M.L.A.

MAKES PLEA

(Continued from Page 1)

today was as large as it had ever been. Their increase was the largest of any racial group in Canada—th annual rate being 1000 to 1500.

Speaking of his own particular line of work, Dr. Moore explained that neither law or treaty imposed any responsibility upon the federal government to furnish medical services to the Indians. However, there had been an alarming situation among the Indians, particularly in regard to tuberculosis, and it had appeared a human duty and a matter of self-preservation that something be done about it on the federal scale. The Department of National Health had, therefore, embarked on a program of preventative medical service with the objective of eradication of preventable diseases, not only in the interests of the Indians themselves but of the population generally.

The doctor proceeded to outline the expansion of medical services among the Indians. Today 20 large hospitals were being operated in Canada. Whereas 10 years ago only 50 Indians were receiving treatment in sanitarium, today there were 1700.

Miller Bay at Prince Rupert, its capacity of 153 patients now filled with 50 awaiting admission, was but one of these hospitals. Constantly endeavouring to improve equipment along modern lines, the Indian medical service was now saving lives from what had formerly been regarded as fatal diseases, at the same time improving the general standard of the health of the Indians, particularly through controlling the spread of disease.

Dr. Moore commended the interest in the Indian problem which was being taken in Prince Rupert. He spoke of the amicable relations between the Department of Indian Affairs here on the Prince Rupert General Hospital from the financial standpoint. After all, of course, the natives were an important economic factor in this community. There were things which the community could do to help the Indians and the department.

Dr. Moore was thanked for his address by Dr. R. G. Large who agreed that every effort that could be made to make truer and better citizens of the native people was deserving of the interest and support of the citizens.

President O. G. Stuart was in the chair and Dr. J. D. Galbraith, medical superintendent of Miller Bay Hospital, was a guest.

Next Wednesday night there will be an evening business session of the Gyro Club followed by a stag party at the home of the President.

HARRY TRUMAN ENJOYS HOLIDAY

KEY WEST, Fla.—President Truman during his recent holiday in Florida, smiling broadly, strolled unexpectedly into a pressroom at his vacation headquarters and to three pool-playing photographers put this query: "Whose behind the 8-ball?" There it is—the rusted, barnacled remains of battleships, cruisers, carriers, destroyers and submarines which only a few years ago set out to conquer half the world.

The metal of the once proud ships now is being used to build pots and pans and farm implements and mechanical toys. By a humiliating twist of fate, former officers and seamen who sailed and fought these ships are obliged to do the scrapping and breaking up. They are being torn apart, plate by plate.

Seasonable Ideas for Housekeepers

MEAL FROM FREEZER INTERESTING DIVERSION FOR GRACIOUS LIVING

This is the dawn of a new "ice age" in which one may discover that frozen foods can give more time for better and gracious living. Everyone enjoys entertaining but too often there is a tendency to put it off as being too much work and trouble for the pleasure finally derived from it. Now with frozen foods becoming more accessible to every housewife, complete meals can be quickly and nutritiously planned around them.

There is no longer any limit to the variety of interesting dishes which can be added to the dinner menu. Fruits and vegetables know no season and can be enjoyed the year round. Here is an interesting dinner party menu.

Frozen Fruit Cocktail
Fried Spring Chicken Cranberry sauce
July—fresh green beans
August corn-on-the cob
September cauliflower
June Strawberry whip

Home economists offer some helpful advice as to the preparation of such a meal. They say that it is important to cook or serve frozen foods at just the right stage or otherwise they will not show off their good points to advantage. It would, therefore, be wise to assemble the main items of the meal to be served, an hour beforehand in order to allow time for some of them to thaw.

Plan to leave the vegetables in the freezing compartment of the refrigerator until the last few minutes before cooking. The chicken for frying should be completely thawed and cooked as the fresh would be. Frozen chicken pieces will take about 4 hours to thaw at room

temperature.

Don't forget to thaw the cranberry sauce too. The strawberries for the dessert should also be thawed before using. They will require about 2 hours at room temperature or about twice as long in the refrigerator. Corn-on-the cob should also be thawed at room temperature for about 4 hours.

Dredge chicken pieces with flour, salt and pepper. Brown pieces well on both sides in a heavy pan in melted fat then reduce heat and confine to cook covered for about 3 to 35 minutes depending on the size of the pieces and age of the birds.

Vegetables should be cooked only for a very few minutes and served at once. The green beans and cauliflower require only 3 minutes cooking and are put on to cook as a frozen block. Have water boiling vigorously as the cooking period is timed from the boiling point only. Most frozen vegetables are now packed dry and for cooking require 3/4 cup of boiling water and 1/2 teaspoon salt for one 16 oz. package. Corn-on-the cob requires 7, 9 or 11 minutes cooking time depending on

APPEAL IS DISMISSED

The Experts Say

By KAY REX
Canadian Press Staff Writer

Here are some recipes which are high in vitamins, but low in cost:

Liver Loaf (serves six)—Ingredients: one pound liver; one-half pound hamburger, one cup bread crumbs; one onion chopped fine; juice of half a lemon; one egg, well beaten; two tablespoons tomato catsup; one teaspoon salt; one-quarter teaspoon pepper; tomato juice or milk to moisten.

Skin liver, parboil in salted water from 10 to 15 minutes. Drain, chop and mix with other ingredients. Pack mixture into a greased baking-pan. Bacon may be used to line pan or may be placed on top. Bake at 350 degrees for one hour.

Oatmeal Cookies (two dozen)—Ingredients: one-half cup shortening; one-quarter cup brown sugar; one-half teaspoon vanilla; one-half teaspoon baking soda; one-quarter cup hot water; one-third cup raisins; one-half cup flour; one cup oatmeal; dash salt.

Cream shortening with vanilla and sugar. Add hot water. Add oatmeal and sifted dry ingredients. Drop by teaspoonful on baking sheet. Press flat with fork. Bake at 375 degrees Fahrenheit for eight minutes.

Here is a "Food Rule" menu for one day: Breakfast—To-

mato juice; shredded wheat with milk; whole wheat bread; milk or cocoa, made with milk. Lunch or Supper—Baked beans; whole wheat bread and butter; baked apple; oatmeal cookies; milk. Dinner—Roast beef; baked potato and beets; coleslaw; gingerbread; milk of tea.

Home economics recommend the use of honey at the breakfast and dinner table.

"Mixed with peanut butter or chopped dried fruit or cottage cheese it quickly makes a delicious sweet sandwich-spread for use at home or to pack in a lunch-box," says the department. "Honey sauce for pudding or ice cream always meets with approval."

When it comes to cake-baking the size of the egg often means the difference between success and failure. Home economists of the department of agriculture have been making tests on eggs and have found that, although the yolks of different sized eggs did not vary greatly, there was a difference in the whites.

To obtain one cup of egg whites, 10 pullet eggs are required, but only six large eggs. When beaten, the whites of two large eggs make a generous deep meringue for a pie. Three pullet eggs were required for approximately the same volume.

Resignations were received from Miss Mable Gall and Miss Laurie Hart, the former of the Grade Three class at King Edward School and the latter of the Grade Four class at the same school.

Miss Bertha Gray of Vancouver was appointed to fill the position on the Conrad Street staff left vacant by the resignation of Miss Adela Haugland.

All three resignations are to be effective at the Christmas holidays.

Terrace Boy Decorated

High Boy Scout Honor Conferred on Roy Clifford

OTTAWA — Roy Clifford of Terrace was decorated in Ottawa yesterday in the presence of a large and distinguished company. So also were two other lads who, like him, had earned distinction through personal bravery. The others belong in Eastern Canada. Each had prevented a drowning.

As is well known in Prince Rupert, Roy Clifford tried to save his brother when their home caught fire. The injuries and burning suffered by the brother proved fatal.

There were decorations for adults, but the chief interest seemed to be centered on the three boys. They were given a great deal of admiring attention.

TERRACE RED CROSS W.A.

Group is Formed with Mrs. Dudley Little as President

TERRACE—At an organization meeting of the Terrace Red Cross Hospital Auxiliary in the Nurses' Lounge Sunday afternoon, it was decided that the main objective would be the securing of an incubator. Other aims would be the supplying of equipment as far as mending and sewing are concerned, supplying supplementary furnishings of the nurses' quarters when necessary, building up a hospital library and giving attention to special occasions for the enjoyment of the patients and to help in the summer time with the canning.

A box is being placed in the Skeena Mercantile for donations of canned fruit and juices or for contributions for Christmas gifts for the patients. Monthly meetings will be held on the fourth Thursdays.

The workers are being divided into four groups, one of which will represent that group on the executive. The first group will meet on Monday afternoons

and their representative has not yet been chosen. The second group, headed by Mrs. McGilvery, will be the home workers. The third group will meet on Wednesday afternoons and the fourth will meet on the Thursday evening. Heading the third and fourth groups will be Mrs. Glanzer and Mrs. I. Frank.

Officers are:
President, Mrs. D. G. Little.
Vice-President, Mrs. Giraud.
Secretary, Miss E. Head.

Reminiscences and Reflections

By W.J.

Coming! Coming! Elevation of the hotel on Second Avenue! Skeena Highway to be polished until it shines! People who had been living within easy distance of Vancouver planning on moving to within a few hundred miles of Prince Rupert!

Struggles in China, the birth of a babe who may live to ascend the throne of Britain, the assassination of Mahatma Gandhi! Harry Truman's whirlwind victory, strikes and more strikes, the Communist headache may be said to have been some of the highlights in 1948 so far, as the twelfth and last month commences. You can't call it a year to be particularly grateful for, or happy over. A little good was mixed with considerable woe.

This story is late for Education Week, but it will serve. The president of the Society for the Retention of Corporal Punishment in Schools is Eric Wildman, doing business in England. With a choice assortment of canes and an eye for sales, he called at a school to display and lecture. A class seized him, and gave him seven sound strokes with one of his own canes. Perhaps all this was not according to Hoyle, but it was nevertheless, a healthy sign. Had the class said "Thank

you Sir," after hearing him and retired to meditate on the beauty of humility, one might have had reason to despair of the future of England.

It used to be said of Victoria that the town was a quiet sort of place. But when a man, Mr. Spenser for example, could found a small business within its limits, and a few generations later, sell the works for about seventeen millions, there must have been something there.

Prince Rupert learned this week that more people are arranging to settle in the roomy and fertile country that can be accurately described as Central British Columbia. They are not strangers to the province. They are only getting around to the conviction that some districts in B. C. are to be preferred to others. It's a fine thing to be blessed with good judgment.

New Hydrographic Ship Nearly Ready

OTTAWA—The new 500-ton ship, the C.G.S. "Cartier," will shortly be in commission, it is announced. She is 140 feet long and is the first diesel driven ship of the hydrographic fleet of a dozen craft. The little vessel can work equally well in the semi-tropical warmth of the Gulf Stream or in the near Arctic waters off Labrador.

PRESIDENT'S JOB IS NO SINECURE

Better to be Corporation Lawyer, Sports Promoter, or Restaurant Operator

NEW YORK—A good corporation lawyer, a live sports promoter or restaurant operator can make more money than President Truman and have much more fun and infinitely less anxiety, worry and responsibility.

The president's salary is \$75,000 but when he has paid his income tax and all the expenses of his personal staff and household, he has about \$10,000 net salary for personal and family needs.

Hours are long and responsibility tremendous.

The chief writes his name on documents about 400 times daily. Every day he shakes hands about twenty times. At receptions, the handshake can be anywhere from 1,000 to 2,000 times. During a winter there can be at least half a dozen receptions. The President is supposed to know every affair of any importance and must answer all questions without any hesitation. He cannot say he does not know. He must sign every legislative act, and be able to explain all about it as well as saying why he signed it.

CANADA HAS LONG SUMMER

Mildest Weather For This Time in Memory of Pioneers

WINNIPEG—Until late autumn, the prairies enjoyed the mildest weather in the memory of old-timers. Dandelions were noted and golfers were out on the links in Edmonton and Calgary. The latter city enjoyed one of the longest and brightest Indian summers ever known.

Around the lakehead, butterflies were not uncommon and in Ottawa lilac trees were in bloom in Brantford, Ont., chrysanthemums were seen. Weather experts explained that the great currents of air which, as a rule, sweep eastward across southern Canada and the Great Lakes bringing icy Polar air moved across regions much farther north, leaving the southerly parts of the country to bask in almost spring-like weather.

Modern Etiquette

By ROBERTA LEE

Q. Is it all right for a person to finger things on the table during a meal, his glass, knife, fork, etc.?

A. No; the only things this indicate are nervousness and self-consciousness. It is also very annoying to other guests. A person who is poised and perfectly at ease will not do so.

Q. Is it obligatory that a girl secretary send her employer a wedding present?

A. Not unless she received an invitation to the wedding.

Q. Which is the correct form, "I want to see you," or "I wish to see you?"

A. "I wish to see you" is correct. Wish expresses desire, want implies lack.

WROTE

THIS BILLION-DOLLAR STORY

Across the nation — in cities, towns and villages — the B of M has kept your money, and the money of 1,700,000 other customers, hard at work in 1948... helping Canadians in every walk of life to make a better future for themselves and for Canada.

Here is the money that makes the wheels of commerce turn... that provides thousands of business enterprises — from the largest corporation to the smallest one-man show — with the credit they need to carry on from day to day.

To citizens on salaries... to farmers with seasonal incomes... to merchants, manufacturers, businessmen in every worthwhile line of endeavor... to municipalities, school boards and governments... to churches, hospitals and all types of public institutions... hundreds of millions of dollars are being loaned by B of M managers at more than 500 branches from the Atlantic to the Pacific.

That's a glimpse of the 1948 worksheet for your savings... the sum of your contribution to Canada's progress added to that of 1,700,000 other Canadians in the B of M family.

B of M depositors' savings — your savings — thus play a vital part in maintaining our high Canadian standard of living and in making Canada the third greatest trading nation of the world.

Yes, by saving at the B of M today, you are helping to build the greater Canada of tomorrow, while securing your own future.

JACK KISER

Blood Thirsty Evening With Grunts And Groans Coming Up Next Week; Jack McLaughlin Versus Jack Kiser

Matchmaker Don Forward today completed negotiations with two of the Pacific Coast's topnotch professional wrestlers for a match in the Civic Centre on December 10.

The well known Jack ("The Cat") McLaughlin of Vancouver, popular with local fans—has been signed to take on Jack Kiser of Portland, Oregon. Kiser, weighing 188 pounds, will come into the ring against

McLaughlin at 182, both fighting for two falls in a best of three contest. McLaughlin, although lighter in weight, is an equal match for his opponent as he is probably the fastest man in the wrestling ring on the coast. When McLaughlin fought here in February 1947, fans were treated to all the types of skull-duggery known to the professional wrestler of today, including hair pulling, knuckling the spine, rabbit punching and, of course, plenty of topnotch wrestling.

Just now the main problem confronting the Civic Centre is to coax George Howe into refereeing the show. Last year Howe nearly lost his shirt and shirts were scarce then. He ended up outside the ring on one occasion and was missing a shoe when the match was over. However, he survived the ordeal and local fans are eager to see him in the ring again as the third man.

Fans will be treated to some five and possibly six, two and three round boxing preliminaries. The Civic Centre junior boxing club under Trainer Watmough, will provide one paper-weight match when Jackie MacGinis, age 5, at 42 pounds, takes on Styles Stokes, age 4, at 48 pounds in 2 one-minute rounds.

There are also four 3-round fights slated, as follows:

Carl Jackson, age 9, weight 65 pounds, vs. Dick Bury, age 9, weight 64 pounds.

Danny Newfield, age 10, weight 90 pounds, vs. Billie Watmough, age 9, weight 65 pounds.

Rockie Terry, age 10, weight 90 pounds, vs. Arthur Turcotte,

Saturday—New York at Montreal, Chicago at Toronto, Detroit at Boston.

Sunday—Montreal at Boston, Toronto at Chicago, Detroit at New York.

The league standings to date:

Two more matches were contested last night in the Canadian Legion billiard tournament. In the first game, Mickey Fudger, with a handicap of plus 25, defeated his opponent A. Holbrook who had 5 points more handicap, by a score of 150 to 114.

In the second game, George Abbott (x 25), playing George R. Brett (scratch), made a comeback to his old-time form and won easily by 74 points. Shortly after passing the century mark, Abbott made a faultless break of 39, the highest break in this

FRANCOIS LAKE BRIDE HONORED

FRANCOIS LAKE—The Partington home was the scene of another gathering on Saturday evening when more than fifty friends gathered to honor Jean Peebles, who will shortly be married. The large living room was daintily decorated with pink and white streamers and a huge doll, dressed as a bride, stood in the window recess. Mrs. Gordon Funnell, on behalf of the Women's Institute, was mistress of ceremonies and conducted several amusing contests.

Jean, Mrs. Peebles and Corry Stanton were conducted to the seats of honor placed under silver bells and streamers at the end of the room. Daisy and Cecile Nichols carried in a basket full of parcels and placed

News of Francois Lake

Mrs. Svenkenson has moved to the north side of the lake at the settlement at the Co-op mill.

Lawrence Gerow returned home to Burns Lake last Friday after being at the Lee-Cooper Ranch since August.

Clarence Snyder is home from the United States. His son-in-law and daughter, Mr. and Mrs. Clares Miller, and little son, Gary, came with him.

The Cowan Brothers and crew of Clearetta have finished baling hay on the north side of the lake and are now working at Southbank. Their power outfit can bale thirty tons of hay a day and the boys have baled more than five hundred tons this fall so far.

After a thaw the roads have been very slippery and it has been difficult to walk. A light fall of snow on Friday night helped a lot and will make the roads better for driving. At present almost all the cars have to use chains.

He never barks in public." The dog lapped up a little turtle soup, and took a couple of licks of champagne. Then he nibbled a little roast partridge. When speaking began, he became bored and fell asleep.

it on the floor in front of Jean who unpacked them, assisted by her mother. They passed the numerous and useful presents round for all to see and then thanked all, and invited them to pay a visit when they are settled. Members of the Women's Institute served lunch and the gathering broke up at about 1:30.

How could he tell this trusting girl of a fear that driving him mad... a memory of blurred terror... frantic, lingering doubt that pered: "You killed him!"
