Knows Nothing About Secret Documents Taken From United States Files

NEW YORK, (CP)—Mr. and Mrs. Sam Carr testified briefly today before a grand jury investigating Communist activity in the United States and were then taken back to Ellis Island.

Questioning of Carr, key figure in Canada's post-war spy trial, was held in camera and newspapermen were not allowed to query him. It was learned from his counsel, however, that Carr had told the jury that he knew nothing about secret documents taken from United States government files.

Stalin's Peace Talk

RECENT Communist statements and actions have caused speculation that the Soviet Union is launching a "peace offensive" but by many observers they will undoubtedly all be considered a propaganda move. The latest pronouncement of Premier Joseph Stalin calling for a meeting with President Truman of the United States might well be considered as part of a propaganda campaign portraying the Communists as peace lovers and all who differ with them as opposed to peace.

The Stalin pronouncement may convince many Russians that their leader really wishes to meet Truman and talk peace but foreign diplomats may be much more cautious—even doubtful. Russia has talked that way before as did Adolf Hitler and Nazi Germany before 1939. Of course, we need not be too suspicious about the whole thing but it is difficult after all that has gone before not to be skeptical.

It is to be noted that Great Britain and France are not mentioned in this meeting but, undoubtedly United States, will consult with Great Britain and France on the possibilities of a settlement between Russia and the United States, something which would vitally affect the foreign relations of all.

POWER AND MORE POWER

FROM NIAGARA down there has been a lot of water power harnessed in North America since men first became interested. With few exceptions, these developments applied to practically all of the older settled parts of the continent. Now, as enterprises multiply and scope of operation covers so much wider a scale, the power born of wild grandeur in mountains, forests and plain becomes in major demand. Constant power shortage in industrial Ontario shows that.

Today, studying the future, industry is looking to the northwest much of which is a virgin land where the problem of water power is concerned. There is no other direction in which to look. The increasing demand for aluminum is just another illustration of potential industrial expansion and decentralization. The establishment of plants on the British Columbia coast would galvanize the region into vigorous life. The outlay of hundreds of millions of dollars could lead to nothing else.

ANCIENT AND HONORABLE

THE SERVICES of printers have been of no small consequence in the founding and subsequent growth of Canada and Canadian affairs. Few, if any trades, have been closer to the science of government and administrative affairs. This fact was an interesting feature of the recent convention of the International Association of Printing House Craftsmen, held in Ottawa. Printing has been tied to the country's history since the earliest days.

Arrival of the first printer dates away back to 1751. Bartholomew Green, in that year, moved his little outfit from Boston to the village of Halifax but died before he became established. However, the paper didn't. The partner of Bartholomew followed in 1752, and revived the enterprise, which remains a going concern to this day.

Two printers from Philadelphia founded the Quebec Gazette and had, at first, abundance of grief. Tightness of cash was a permanent condition.

The first printer to do business in Montreal was a young Frenchman, who published more essays than news. He frequently offended the government and was no stranger to prison. This was in 1777. He called his enterprise the Montreal Gazette, still published as Montreal's English speaking daily.

William Lyon MacKenzie, in Ontario; John Ryan and William Lewis, in New Brunswick; James Robertson, in Prince Edward Island; William Buckingham and William Coldwell, in the Northwest Territories, and John Robson and Amor De Cosmos, in British Columbia and Vancouver Island, were foremost in the ranks of the pioneer printers and journalists.

In 1886, Vancouver's first paper, The News, appeared. It continues to publish under the title of the Vancouver Sun.

Chinese New Year Was Quiet Here

Last week-end was Chinese New Year but there did not appear to be much evidence of it in Prince Rupert. For the most part Chinese in British Columbia appear to have adopted the calendar of the western world. What the Chinese call the complete year thirteen months required. The New Year enters the sign of Aquarius on the new moon after the winter solstice.

AIR TRANSPORT HEAD — John R. Baldwin, 36, formerly of the Privy Council staff, is the new chairman of the government's Air Transport Board. The appointment was announced by Prime Minister St. Laurent. Reminiscences and Reflections

By W.J. and Reflections

In a northern land there is sometimes a sense of relief when January is farewell. The first month of the year is a time of recovering one's poise and general equilibrium. January has nothing in particular to arouse affection. It means the depth of winter, and has been known to go the limit in storms, slush and general cussedness. The month we waved good-bye to last night can be remembered as an example.

The destroyer Crescent, often a Prince Rupert visitor, is on her way from Esquimalt to China. There are fellows who, perhaps, would just as soon live ashore as on the rolling wave, but the tars do get around. All that many of us know about China is to sit at a lunch counter now and then.

Anthony Eden appears to be the sort of a man large enough to enjoy an alleged pleasure made at his own expense. In Vancouver last week there were references in the press and in conversation to his appearance—that is, he was not the faultless dresser he had been some years ago and a suggestion that perhaps he didn't have the money. Not exactly pleasant to listen to, and close to what many would consider a personal matter. But Eden's diplomacy more than took care of what could easily have been an embarrassing situation.

When Stewart was a flush camp and Bill and Dan, Canadian Northern railway barons, contemplated linking up Portland Canal with Peace River, no one ever heard any mention of "ice" except on the glaciers. That was a long time ago.

Another month or so and Newfoundland will come over and be part of the family. Then, give her plenty of time and don't be effusive. Allow her ample opportunity to look things over, size up the house from garret to cellar, the way things are done, and the cooking! You know how it is among the "In-Laws" at first.

For Rehabilitation

MONTREAL, Q.—Senator Cairine Wilson, chairman of the Canadian national committee on refugees, expressed "great admiration" for the work of organization for rehabilitation through training and said its displaced persons graduates have been accepted readily abroad — in "some countries hitherto not hospitable to Jewish immigration."

Senator Wilson said: "My own experience with refugees makes me realize the value of re-training. With the opportunity to secure new skills will come the healing of minds and spirits broken through suffering."

TOO COLD IN VANCOUVER—Yvonne von Rensburg, 26, exchange school teacher from South Africa, traces the route she will take when she leaves Vancouver shortly because it's "too cold." She said winter in South Africa is warmer than summer in Vancouver. Then too, there's a boy friend at home. It will cost her four months' pay and a substitute teacher's salary for that period to break her contract but she says it's worth it. (CP)

Poor shooting in the first quarter by Savoy left them with a 5-point deficit as the second quarter began in Saturday night's Senior League basketball games. Morgan was their only player to score. Arney then took over the scoring duties and dropped in 9 needed points to keep Savoy right on the heels of the showmen.

Brownwoods' teamwork and slightly better shooting kept them in front and gave them a 22-19 lead at half time.

At the beginning of the third quarter Forman and Pierce took personal charge of Brownwoods' scoring and quickly built up an 11-point lead. Then the showmen slumped and Savoy came right back with a scoring blast of their own and kept the score

close at 36-33 at the end of the quarter.

In the final 10 minutes Savoy crept to within two points of Brownwoods but could not develop a sustained drive to put them in front. Brownwoods had enough staying power to hold their lead and win 53 to 48.

Ev Pierce came up with his best playing and scoring game in several seasons. Many of his 18 points were dropped in when needed to keep the lead. His shooting position is much more stable than previously when he took his shots from a moving position. The improvement showed in his scoring Saturday night. With Pierce adding to the offensive strength Brownwoods will be a dangerous team from here into the final play-off drive. Savoy have felt the loss of

Davis and Ciccone. At the beginning of the season Savoy were reputed to have the strongest reserves but now they have come up with a depleted roster due to work keeping these players out of town. Also, Mel Holkstad has not fully recovered from his ankle injury. Arney and Morgan are the only players hitting the basket.

Savoy scored 20 field goals from 110 shots and made half of their 16 free throws. Brownwoods scored 21 baskets from 102 shots. They also canned half of their 22 free throws.

In the Intermediate League High School's fast break was stalled completely, mostly by poor passing and slowness of the guards to clear the ball properly. Shooting was also off. Merchants came through with flashes of good teamwork and passing but their shooting was wild and at times queer.

Danny Bill began hitting the basket for the first time this season. Webster and Sunberg were off their shooting and this was a telling effect on the rest of the team. Bob Anderson played an aggressive game. Hebb topped the scoring, mostly on his ability to hit from the free lane where he scored 7 of 9 free shots.

Merchants took 63 shots and scored 13. They made 10 of 25 free shots. High School took 63 shots and scored 11. They made 7 of 22 free shots attempted.

A surprisingly determined Miller Bay held the Rainbirds to 10 points in the first half of the Ladies' League game while

garnering 7 for themselves. Miller Bay floored 7 players and, when they lost Aschoff through an injury, it was too much of a strain on their playing and they wakened enough for High

School to bang in basket after basket in the second half. High School's passing was fine but most of it was nullified when poor shooting finished it off.

High School took 46 shots and scored 13. They made 1 of 4 free throws. Miller Bay took 25 shots and scored 6. They scored 3 of 6 penalty shots.

The Junior League game was won and took all the way with Kinsmen coming from behind to tie it up with Rupert Hotel at 22-22 with only minutes remaining. In their attempts to get possession of the ball Kinsmen committed three fouls and Rupert Hotel players came through and sank two of them and took one on the side. This strategy gave them the victory.

Rupert Hotel are showing improvement in every game and

will be a team to watch when play-off time rolls around. Morison, a big rangy guard was

their top scorer with 10 points. Accuracy at the free lane actually gave the hotel boys the game. For the second time this season a team has gone through a game without a foul being charged against it, Rupert Hotel being the team Saturday night.

Helin and Ciccone were the only potent scorers for Kinsmen while Letourneau, McKay and Dumas were held to two each. This was a factor in their loss.

Kinsmen took 59 shots and made 11. They had no free throws. Rupert Hotel took 36 shots and scored 8. They canned 8 of 10 free throws.

Individual scoring:

HIGH SCORING, MEN'S LEAGUE

Bobby Woods and R. Burns Set High Marks

Mighty deeds were wrought at the week-end session of the Men's Five Pin League, resulting in some notable accomplishments in the scoring department. Bobby Woods of Brownwoods set a league record for a single game high score when he rang up 352 in his second game. He was well on his way for top three-game score too, except that R. Burnie of Malkins put up a steadier performance totalling 801, against Wood's 767.

Burns and Scotians made clean sweeps in team scoring, Burns running up the night's high aggregate score of 3,183 against Stones and Scotians taking Jay Cees by default.

Brownwoods, who took three points from Stones, still retain a one-point claim on league leadership, with 20 points. Burns are breathing down their necks with 19.

Burns 4, Mallets 0. Scotians 4, Jay Cees 0 (default).

High School took 46 shots and scored 13. They made 1 of 4 free throws. Miller Bay took 25 shots and scored 6. They scored 3 of 6 penalty shots.

The Junior League game was won and took all the way with Kinsmen coming from behind to tie it up with Rupert Hotel at 22-22 with only minutes remaining. Didn't Go to Church, Bad Week Followed

Did you ever have one of those days, asks C. H. Sawle, of the Omineca Herald, New Hazelton, when everything seems to go wrong? Of course you have. Well, last week we had several days the first of the week when everything seemed to go wrong and that was why the Herald was late in issuing. The padre says it was because we did not go to church the Sunday before but we suspect the sub-zero weather had something to do with it too!

BAND CONCERT WELL RECEIVED

First Performance of Season by Shrine Club Band

An enthusiastic response by an audience of 300 greeted the Prince Rupert Shrine Club Band Monday evening at the Civic Centre when it presented its first concert of the season with the aid of assisting artists.

Presenting a well-balanced program under the baton of Bandmaster Peter Lien, the group of 29 musicians showed every evidence that months of practice are welding them into a highly organized musical unit. Marked improvement in technique was a tribute to the leadership of Mr. Lien and the perseverance of the musicians.

The program was a versatile one, giving every section of instruments an opportunity for expression. It ranged from marches, waltzes and overtures through operatic excerpts in which solo instrumentalists were required to sustain the illusion that the parts were being presented by vocalists, as intended by the composers. Success in this is a high mark of proficiency.

Two special features were the presentation of an instrumental trio consisting of N. E. Gerard, clarinet, B. F. Sprinkle, saxophone and Mrs. J. G. Gilker, piano, which presented the final movement of Beethoven's "Trio No. 4 in B-flat, Opus 11," and George L. Rorie, who played a novelty marimba solo, "Down South" by W. H. Myddleton. Both were warmly received.

The band program was as follows:

"The Bandmaster," overture by A. J. White; "Minuet from Berenice" by G. F. Handel; "La Cinquantaine," an air in ancient style by Gabriel-Marie; "The Southland," medley by A. J. White; "Asleep in the Deep," H. W. Petrie; "Victorious Legions," march by Rosenkrans; "El Abanico," march by Javayes-Hume; "Bower of Beauty," waltzes by Ellis Brooks, "Echo of the North," Norwegian air arranged by Wick-Roberts; "My Moonlight Madonna," by Fibich-Scotti and "A Night in June," serenade by K. L. King.

Q. How can I keep gold teeth clean?

Q. How can I clean burned spots on granite?

A. Remove them by covering the spots with a teaspoonful of soda, mixed to a paste with a little water, then heating it. Never scrape with a knife.

THIS AND THAT

SLAM IN SPADES—That rarity in bridge, four perfect hands, turned up in London, Ont., this week despite the millions of chances against it. The smiling women who held the hands pose with them, left to right: Mrs. Margaret Gale, hearts; Mrs. Hilda Liddell, diamonds; Mrs. Bernice Barbeau, clubs; Mrs. Dora Gunning, spades. Mrs. Gunning was the dealer but the other girls crossed their hearts that the cards were well shuffled. All Mrs. Gunning had to do was bid a grand slam in spades.

TOO PRETTY TO BE PROSECUTED

ST. LOUIS—A young woman, charged with careless driving was not prosecuted because she "was too pretty." The judge ordered the case dismissed. The accused struck a fire hydrant, and received a bill for \$93. Her car had skidded, she said. And anyway, it was the city's fault.
