IMMIGRANTS TO FLOOD LANDS

T.C.A. Planes Also Bring Butter for British Columbia

VANCOUVER—One hundred and fifty immigrants from Europe and Great Britain reached Vancouver in four Trans-Canada Airlines North Stars over the week-end ready for their new start in life in this area. For some of them their new start in Canada will call for all their resolution. They are the ones who left England near the end of May aboard the Aquitania for Canada headed for the Fraser Valley district and filled with plans for making their living from its rich soil. Only after reaching Canada early last week did they learn that the flood waters of the Fraser River were inundating their future farm-lands.

The extent of the flood damage was learned more forcibly when it was necessary to transfer them from the special Canadian National Railways cars that had brought them to Calgary from Halifax to the TCA planes for the journey over the mountains. But they arrived at Vancouver airport still determined to carry out their plans although with full knowledge that the immediate future is uncertain.

The TCA flights were the first large scale movement of immigrants to the Pacific Coast by air and most of the group were to be established in the Vancouver area, with some going to Victoria. On the same planes were thousands of pounds of butter to relieve the shortage in the city which has been cut off from rail traffic for more than a week. It was only part of the more than 30,000 pounds that TCA brought in over the week-end, together with large quantities of penicillin and serum, the latter needed to combat the threat of epidemic caused by the floods.

TransCanada continues to operate its shuttle service over the Rockies with 16 flights daily between Vancouver and Calgary. Six of them operated as far east as Montreal.

THE WEATHER
Synopsis
The weather continues clear and warm over the southern and central portions of British Columbia today. However, a gradual increase in cloudiness is expected in these regions tomorrow. For the North Coast and Northern Interior little change is expected in conditions with cloudy skies persisting today and tomorrow.

Forecast
Prince Rupert, Queen Charlottes and North Coast—Variable cloudiness today and Tuesday. Wind light. Little change in temperature. Lows tonight and highs Tuesday—Port Hardy 50 and 65, Massett 48 and 60, Prince Rupert 48 and 64.

Rain Honors To Vancouver Double Rupert

The weather summary in Vancouver during May recorded 6.05 inches of rain while in Prince Rupert there was a mere 2.6 inches.

These are official meteorological figures.
Hours of sunshine in Vancouver amounted to 143.

BUSY MORNING IN CITY COURT

City police court was a busy place this morning as a result of police activity over the week-end. Liquor and vagrancy charges predominated.

William McDonald, Richard Orvis and Edwin Webb, each charged separately with intoxication under the Government Liquor Act, were fined \$10 and \$3.25 with an option of spending five days in jail.

Jeremiah Murphy and J. E. Morrison were each fined \$15 and \$3.25 costs on charges of drunkenness.

John Brown, charged with illegal possession of liquor under the Indian Act, was fined \$25 and \$3.50 costs or a month in jail.

Violet Frandle, who pleaded guilty to causing a disturbance, was fined \$25 with an option of seven days in jail.

Leonard Parnell pleaded guilty to a charge of drunkenness and was fined \$15 and \$3.50 costs. The charge was laid under the Indian Act.

Richard Robinson and Victor Robinson, charged with possession of liquor contrary to the Indian Act, were each fined \$25 and \$3.50 costs with an option of one month in jail.

Adolph Christopherson, who pleaded guilty to a charge of having liquor in a restaurant, was fined \$50 and \$3.25 costs or one month.

Glen Barlow was fined \$15 or seven days in jail on a charge of vagrancy.

JUNE HEAT IS RECORD

Further Floods Expected As Snow Melts Suddenly

Yesterday the weather was hot on the lower mainland and through the southern interior and to a lesser degree in the north. Four-year record June temperatures were recorded along the Fraser and through to the border while in the United States it was even warmer. More melting snow and flood runs are looked for as a consequence.

In Prince Rupert, Sunday afternoon was warm with rain in the evening.

Kamloops was the warmest point in British Columbia with 91 while 88 readings were recorded in the Kootenay. At the 6,000-foot level in the mountains, where the snow is rapidly melting, 61 was recorded.

FLOOD CONTROL IS KEY PROBLEM

BANFF, Alberta, @ — Flood control is one of the key problems facing Canada's engineers today, Dean Morrison Finlayson of the University of British Columbia, newly inducted president, told the final session Saturday of the 62nd annual convention of the Engineering Institute of Canada. He said the Institute would do everything possible to aid British Columbia.

MANY HAPPY RETURNS—Today is observed as the official birthday of His Majesty, King George VI, although the actual date of his birth was December 14, 1895.

Government to Pay University Deficit

REGINA, @ — The provincial government will take immediate steps to pay up an accumulated deficit of \$456,000 to settle the debt of the University of Saskatchewan.

PALESTINE TRUCE PLAN PRESENTED

Via Army Signals)

CAIRO, @ — Count Folke Bernadotte, United Nations truce commissioner, handed to six Arab powers today his proposal for the starting time and conditions of a four-week armistice in Palestine. Peace appears to be unlikely this week.

Palace sources in Amman, TransJordan, said that the Arab League political committee will not meet before Saturday. Fighting is still continuing.

Bernadotte also has communicated his proposals to Jewish authorities in Tel Aviv.

COLUMBIA RIVER BATTLE STILL ON

PORTLAND, Ore., @ — The Army today threw a fresh engineering field command against the Columbia River in a desperate attempt to hold the weakening 100-mile dyke front from here to the Pacific.

The flood toll of the Columbia and Fraser Rivers in Oregon, Washington, Idaho and British Columbia mounted, with 27 dead, 52 missing, about 60,000 homeless and damage of perhaps \$140,000,000.

The new flood crest was deep in the already hard-hit industrial area around Portland and Vancouver, across the Columbia River in Washington.

APPROVE PLANS FOR GERMANY

LONDON, @ — The British cabinet today studied and quickly approved proposal by six nations on the future of Germany, a government source said.

RELIEF FUND FOR ALL B.C.

The British Columbia Flood Emergency Fund is being raised for the benefit of all affected areas, according to a statement received by Mayor Nora Arnold, chairman of the local committee, from Austin C. Taylor, the general chairman for British Columbia. This is Mr. Taylor's reply to the request of the local committee for reassurance that the relief requirements of this area will be fully taken care of out of the general fund for the province.

WIRE SERVICE IS RESTORED

Commercial telegraph service to Prince Rupert has been restored to normal with the teletypes working again following the interruption since May 27 when Skeena and Bulkley River flood waters carried out the lines. Actually service was restored on a somewhat uncertain basis on Friday. Temporary repairs have been made and it is requiring the greatest vigilance of regular and extra linemen to keep the wires up.

BIG STORM AT PORTAGE

PORTAGE LA PRAIRIE, @ — Heavy damage was left today in the wake of a gale of cyclonic proportions that struck this town 55 miles west of Winnipeg on Sunday at the supper hour.

Wind and rain flattened a number of small buildings, disrupted telephone and power circuits, tore off a portion of the roof of the collegiate and ripped up big trees.

The wind approached from the northwest and reached a velocity of 75 miles an hour. The storm lasted 15 minutes.

The Royal Canadian Mounted Police said there were no reports of persons injured.

U.S. FREIGHTER VISITS PORT

The Alaska freighter Sword Knot, Capt. A. C. Hare, docked here this morning from Ketchikan to load four carloads of fish for Seattle. The fish was American halibut held in bond here for shipment to the United States.

Minister Impressed

VANCOUVER—“The situation is appalling. There will be no delays for survey of damage before giving aid in relief and rehabilitation,” declared Rt. Hon. Louis St. Laurent, minister of external affairs, who flew over the flood areas yesterday on behalf of the federal government. He landed at Abbotsford for a conference with military leaders who are directing the battle against the raging Fraser River.

Halibut Sales

American	
Senak, 44,000, Pacific, 19.6c, 18.5c and 10.5c.	
Canadian

New German Gov't Plan

WASHINGTON, @ — In the face of certain Russian opposition, the Western Powers today announced a five-point proposal for the creating of a separate, federal government in western Germany.

New Crests Threaten In South Flood Areas

King's Birthday Celebration Suspended As Battle of Fraser Dykes Continues

NEW BREAK AT MISSION

MISSION—More damage from flood occurred in the Mission area today. Southern approach to the Mission bridge was carried away and the southern span is sagging. An additional breach in the dyke has occurred. Now that the bridge is impassable, a ferry has been put in operation between Abbotsford and Mission.

Via Army Signals

VANCOUVER (CP)—Heat-born mountain freshets today threatened to swell B.C.'s already swollen rivers and hurl a new challenge at thousands of workers who, during the week-end, appeared to be winning their long, bitter battle.

The new threat followed yesterday's heat wave recording the year's hottest for most sections of B.C., some centres marking a four-year high for June.

Benes Has Resigned

President of Czechoslovakia Relinquishes Office

PRAGUE, @ — President Edouard Benes of Czechoslovakia resigned today. Premier Klement Grotwald's office announced the resignation was accepted at a special cabinet meeting.

A successor will be elected by Parliament. Grotwald is in line if he desires.

An informant said that, until a new president was elected, presidential powers will be vested in the cabinet which will call the first session of the newly-elected assembly this week.

State of Benes' health will most probably be given as the reason for the resignation, the informant added, although in other sources it has been said he resigned rather than accept the new communist constitution.

Benes' salary will be continued, it is said.

Terrace Flood Relief Fund

Enthusiastic Response—Drive Is Under Way

TERRACE—Duncan Kerr, president of the Terrace Board of Trade, called a meeting on Wednesday evening in the Oddfellows' Hall at which representatives of the various active organizations in town formed a committee for the purpose of raising money in support of the Provincial Flood Relief Fund.

B. R. Dodds acted as chairman with Mrs. M. Peeke-Vout as secretary and F. Jackson, treasurer.

The response for canvassers for the district was excellent, all those present volunteering to collect. As it was thought that one week would be enough to cover the whole district, it was decided that the campaign should close this Wednesday.

Those present at the meeting were D. Kerr, W. Osborne, E. Haugland, T. Olsen, T. Cote, F. Jackson, B. R. Dodds, Mrs. Peske-Vout, Rev. J. McAllister, R. Corey, Mrs. C. R. de Kergommeaux, R. Brey, Mrs. F. Hall.

The latest climb was from 151.6 on April 1 to 153.3 on May 1, the latter being a new historic peak.

A year ago the index was 133.1 while the rise since the outbreak of the war in 1939 has been 52.1 per cent.

MEAT AND VEGETABLES

OTTAWA, @ — Increase in the price of meat and vegetables was largely responsible for the sprint which the official cost of living index took during April when it advanced 1.7 points, according to report of the Dominion Bureau of Statistics at the week-end. It might be a resumption of the rise which started last fall.

Business Looks Better

THE PASSAGE of the European recovery program, the more optimistic business sentiment in the United States and spring expansion of big construction work have improved the economic atmosphere and worries about an imminent recession appear to have receded.

The Canadian economy is operating close to capacity and generally throughout the country employment continues at record levels, the principal disturbing element at the moment being the possibility of deterioration of labor-management relations which might bring about unemployment and hurt everybody, more especially the working people and the public.

As for business generally, there is a closer balance between demand and supply than there was last year. Employment conditions are showing signs of stabilizing despite some growling and threatening. Labor turnover is much lower and the demand for additional workers less than a year ago.

Backlogs of consumer demand look less impressive in a number of lines and in some higher priced lines surpluses have developed at prevailing prices. The rise in living costs has had a clearly restrictive influence on consumer purchases, even though incomes have increased further.

The business structure is becoming more dependent on continued high capital investment and on high exports and is therefore somewhat more vulnerable to any unfavorable turn of events. But, on the whole, the picture remains favorable of an economy operating at capacity with a cost structure that compares well with other countries. It is a picture of a nation adding substantially to its capacity to produce—its real wealth.

THE FLOOD IMPACT

WHILE THE GENERAL economic picture in Canada may look favorable, the great and disastrous floods in British Columbia will have a demoralizing effect for the time being at least. This must obviously ensue when one considers that hundreds of people have lost their homes or had them seriously damaged, that much of the province's most prolific agricultural area in produce and stock has been inundated and put out of business for one year at least, that important industries, particularly sawmilling and possibly mining, have been disrupted or suspended, that the tourist business has been seriously upset at a time when it starts getting into high gear for the season and that a large number of old, retired folk have been deprived of their security and comfort in their declining years.

So far a lot of people, including we in Prince Rupert, suffered only some minor inconveniences as a result of the flood situation. Other effects which may not be felt now will become apparent a little later on.

The impact of the disaster will be felt increasingly and gradually. Here in Prince Rupert, of course, the worst we may suffer will be little in comparison with the trials, tribulations and downright hardship of the poor folk in the actual flood areas. It is trying their stamina and their courage. Here we can be thankful and sympathetic and, fortunately, we have the opportunity to show that thankfulness and sympathy in a practical way.

CLAUS PETERSON OF OONA RIVER PASSES AWAY

The body of Claus Peterson, 73-year old fisherman, was brought to the city Saturday from his home at Oona River, where he died late last week. Mr. Peterson was a well-known resident of the Porcher Island settlement, having lived there for 10 years. He had spent many years on the coast. The late Mr. Peterson was born in Sweden. He was pre-deceased by his wife about a year ago. The funeral city this week.

NAAS RIVER MAN DIES

Percy Stephens, 22-year old resident of the Naas River settlement of Greenville, died at Miller Bay Hospital at the weekend. He had been ill for a considerable period. He is survived by his wife.

FIRST USE OF GAS

The use of gas for lighting purposes in Canada was introduced in 1840.

PRINCE RUPERT YEARS AGO

June 7, 1923

Half a million feet of lumber which was to be shipped from the George Little sawmill at Terrace to Japan was expected to begin moving through this port in the near future. The C.G. M.M. freighter Canadian Transporter was to carry the cargo.

First Baptist Church celebrated its fourteenth anniversary in Prince Rupert. Pastor of the church was Rev. J. J. Smithson.

A meeting of the Retail Merchants Association decided that

TENDERS FOR COAL (Western Provinces)

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Coal for Western Provinces," will be received until 3 p.m. (E.D.S.T.), Tuesday, June 8, 1943, for the supply of coal for the Dominion Buildings and Experimental Farms and Stations, throughout the Provinces of Manitoba, Saskatchewan, Alberta and British Columbia. Forms of tender with specifications and conditions attached can be obtained from the Purchasing Agent, Department of Public Works, Ottawa; the District Resident Architect, Winnipeg, Man.; the District Resident Architect, Saskatoon, Sask.; the District Resident Architect, Calgary, Alta.; and the District Resident Architect, Victoria, B.C.

Tenders should be made on the forms supplied by the Department and in accordance with departmental specifications and conditions attached thereto. Coal dealers' license numbers must be given when tendering. The Department reserves the right to demand from any successful tenderer, before awarding the order, a security deposit in the form of a certified cheque on a chartered bank in Canada, made payable to the order of the Honourable the Minister of Public Works, equal to 10 per cent of the amount of the tender, or Bearer Bonds of the Dominion of Canada or of the Canadian National Railway Company and its constituent companies, unconditionally guaranteed as to principal and interest by the Dominion of Canada, or the aforementioned bonds and a certified cheque, if required to make up an odd amount.

By order,
J. M. SOMERVILLE,
Secretary,
Department of Public Works,
Ottawa, May 19, 1943.

Reminiscences and Reflections

By W.J.

A n authority on the subject—how he gained that distinction is not common knowledge—says women's feet are becoming not only broader but larger. Next thing, the rude fellow will assert that ankles are becoming thicker. That would be too dreadful.

Prince Rupert receives a generous allotment of fresh water but some judgment is used in its distribution. It was never known to flow through one's home, cause illness and just about bring ruination.

Suppose, back in the sixties, Mr. Seward had asked the Czar of Russia: "Want to sell Alaska? How about six or seven million. That's plenty." And suppose the Czar had said "Nay, ye jesteth with a Czar." So what? It's a subject for debate, for it's certain that with Moscow dominating a large part of the northwest of America, the course of history would in certain respects have been different.

To find out a name and be careful to remember it is a useful thing to do. How often do you know someone—or think you do—and the day comes when he quietly dies. It's embarrassing and unfortunate to be unable to fix an identity yet it frequently occurs. One thinks he recalls the acquaintance who has gone but nothing short of certainty is enough.

Wonder if Bert Wearmouth is still tilling the garden soil

city stores would not be closed during the King's birthday. The day was a legal holiday for banks and government offices.

June 7, 1913

W. A. Pettigrew returned from a week's visit at Kitsumkulum where he made a survey for the provincial government. He spoke enthusiastically of the prospects of the area.

William D. Black of the mechanical staff of the Daily News died in hospital. He was 24 years of age and came from Fergus, Ontario.

C. L. Youngman and C. A. Vaughan opened a cigar store in the Westholme theatre. Mr. Youngman left for Vancouver on the Prince George on a buying trip.

somewhere on Vancouver Island? Anyway he moved away down south years ago after being lord of a little island all to himself and wife just across the bay from Prince Rupert. They built a comfy home, with flowers and vegetables. But Bert's long suit was eggs. His 600 or 700 chicks were good producers and their owner was a rustler. One had to pack home all the feed for that flock, and market the produce. Prince Rupert took it all.

NEW JOBS FOR OLD
WANTED MEN WITH IDEAS
Whatever job you're doing today, chances are, in this part of the world anyway, that it's a "new job"—that a few years back it just didn't exist.
Where do these "new jobs", which usually carry higher pay and better working conditions come from?

Under our "Opportunity System," management is responsible for most of them.

To fill old needs, to raise our standard of living, management develops new ideas into new industries into new markets, creating at the same time thousands and thousands of "new jobs."

An automobile, a mechanical refrigerator, a radio, a new food, a sheet of plywood are all new ideas turned by management into "new jobs" paying new and higher wages, offering more opportunities for advancement to more workers.

To date the North American continent and the North American standard of living offer solid proof that no other system yet devised—socialist, communist or fascist—is able to develop so efficiently and so quickly new ideas into "new jobs" for the highest standard of living in the world.

Under the Opportunity System every worker has ample opportunity of taking new and more rewarding jobs in place of his old. Where else today does this freedom prevail?

These views are presented in this newspaper by the British Columbia Federation of Trade and Industry

Letters to the Editor

MUDDY ROADS

Editor, Daily News:

It is hard to visualize muddy, impassable roads when walking the streets of Victoria. Without good drainage our roads are a quagmire in spring and fall. Our road men forget what a team and plow can do draining roads. There is a mile or so of road well drained out towards Giscome. The rest of the road is a sea of mud and holes. This is proof of what ditches will do. In Ontario they use mechanical ditchers, why not here?

It is a waste of money hard-surfacing our roads where the drainage is not perfect. This money should be spent on drainage and all B.C. would benefit. We cannot expect tourists to return when we force them to pay \$50 for shipping their car when a few ditches would allow them to drive through.

If you are interested in bringing in tourists and helping the local motorists, you may print this in your paper. Your complaint will make them take notice and use all the equipment available.

MURDOCH McLEOD,
Prince George.

WORKING WOMEN

Editor, Daily News:

Answering last Monday's letter, why should married women work when their husbands bring in good incomes, yet they grab for more money. By all means give work to widows and deserving cases.

MRS. DAPHNE PICKARDING.

N. B. GEOGRAPHY

Editor, Daily News:

In an item the other day you told about Lord Beaverbrook being ill at Fredericton, New Brunswick and that he had come to receive an honorary degree from Mount Allison University.

The University of New Brunswick is located at Fredericton and Mount Allison College is located at Sackville. As Sackville is on the C.N.R. main line and there are two airports at Moncton, some 30 miles away, Lord Beaverbrook would not have to go to Fredericton if he was to receive an honorary degree from Mount Allison College.

LARRY HENNING.

POLICE AND WOMEN

Editor, Daily News:

I think it is high time that somebody made a complaint about the type of policing that we have in Prince Rupert. I have never before been so insulted in my life in Canada or in other countries as I have been here in Prince Rupert.

Saturday evening I was sitting enjoying a late lunch with my wife and friends when in steps our police. One member of the force stoops and shines his flashlight under the table among the ladies' legs, saying: "Are you folks hiding any liquor?"

If peaceful citizens have to continue to put up with such methods it is time our lady Mayor did something to keep our fair sex from being insulted in this way or I and others will find it necessary to move to parts of Canada where at least the police respect our women.

E. NIELSEN.

It takes more than kisses to keep a man happy! If you want your man always to be proud of you... if you want always to look your youngest, slimmest, and loveliest... you must watch your diet! And, in any diet to gain a lovely figure, you should eat certain special foods because of their vital "protective" qualities.
That is why Kellogg's All-Bran is included in scientific weight-control menus. All-Bran is made only from

the outer layers of the wheat. This is the vital part so rich in certain other "protective" elements your body must have. Not only is All-Bran a "protective" food but it is guaranteed double-your-money-back keep your regular natural regularity is always able, diet or no diet. Make up your mind to take care of yourself. Start on All-Bran today.

FOR REDUCING DIETS

INDUSTRIAL OUTPUT RISING
LONDON (A)—A further rise in the volume of United Kingdom production is shown by the latest official index published recently. This index, which is provisional, shows that during February the average volume of production for all industries rose to 124 percent of the 1946 average, that is, 5 percent above the January, 1948 level.

Old Timers Down Rookies

Flood Fund Benefits To Extent of \$100

OLD TIMERS 8, ROOKIES 7.

Prince Rupert's baseball Old Timers used Sunday's emergency relief fund benefit game at Roosevelt Park to demonstrate their superiority over Rookies by defeating them by an 8-7 score in a fan-pleasing exhibition.

Despite the threat of rain, which began to materialize about the seventh inning, the flood relief fund is expected to profit in the neighborhood of \$100 as a result of a good turnout of fans.

The game was one in which both sides used a large array of talent on the mound. The Old-timers opened with Lambie who held the youths down to one run and five hits for the first five innings.

He was then replaced by Jack Rosedale, Moose southpaw, who pitched three innings, allowing three runs off seven hits. Jack Lindsay pitched the ninth.

The youngsters opened with Dick Letourneau, star mound-smann of Merchants, who faced 22 batters, allowing four runs off seven hits in four and two-thirds innings. Jack Sharpe then climbed on the hill for one and one-third innings and allowed four runs off five hits—two of them doubles—before he was relieved by Alex Bill in the seventh. Bill held the Old-timers hitless during his time on the mound.

Up to the fifth inning, when Letourneau began to weaken, the game was held at a 1-1 tie. Both sides scored in the second, Arney bringing in the youngsters' first run off a double. He was advanced to third on an error by Lindsay and came home on a hit by Letourneau.

In the bottom of the second, Windle singled, gained second on a pass ball and came home on an error by Bruce Simundson.

Lambie starred in the third inning by snagging two hot grounders for first base put-outs, then catching a fly off Davis. He retired from the mound in glory, too, because he struck out three men in a row in the fifth.

In the first two-thirds of the fifth, Letourneau, who up to that time had been steady, allowed four hits. One of these was a triple by Lindsay which brought in Dahl and Lambie. Windle singled to bring home Lindsay.

Sharpe cleaned up the fifth inning by striking out Lewis and managed a no-hit, no-run spasm in the sixth. However, in the seventh, he too began to weaken and allowed five hits for four runs before he was replaced by Alex Bill.

By the seventh inning, the score was 8-1 for the Old Timers, a situation which the youngsters did their best to correct in the eighth and ninth.

In the eighth, the youngsters got six hits off Rosedale, scoring three runs to bring the score to 8-4. Another three were scored off Lindsay in the ninth.

It was in the ninth that Morgan, Rookies' catcher, clouted the second three-bagger of the day. He did not score himself but did bring Nivk Pavlikis home.

**Australian Cheese
Lands Tropic Heat**

MELBOURNE, (C)—A cheese does not exude fat at tropical temperatures has been developed in Queensland, Australia, by officers of the state's division of dairying. A Queensland cheese factory has installed plant for commercial manufacture, and many inquiries have been received from outside Australia, although export licences are limited.

ANNOUNCEMENT

Change of Ownership
C. Lunch Cafe, Hazelton
Lee Fat Fon, the under-
manager, has bought out his
partners, Lee Q. Loy and Lee
Ten, in the B.C. Lunch Cafe
the land, building, business,
equipment and furniture.

Anyone having claims
against the partners must re-
sult before June 15, 1948.
The designed will not be re-
sponsible for any debts re-
sulted after that date.

The partners wish to ex-
press their thanks and appre-
ciation to all their customers
for past patronage and the
designed hopes for their
continued patronage in the
future.

(Signed) LEE FAT FON,

GARDEN 'NOTEBOOK'

HOE WITH LIGHT TOUCH
TO SPEED YOUR GARDEN

Cultivating the garden not only benefits the plants, but gives posture training to the planter

Of all the agricultural prac-
tices which have come to us
from the past, the one most
under attack in current sci-
entific investigation is cultivation.
Many consider cultivation of
the soil, once seed has been
sown, to be harmful. But also
harmful is weed growth, and
the development of a hard soil
crust which prevents the free
circulation of air, so the plant

shoots may breathe.

Few now contend that culti-
vation checks evaporation of
water from the soil, rather it
is believed to help dry out the
top soil.

It is still one way in which
weeds can be killed and the soil
crust broken up; and both
these objects can be accomplish-
ed by shallow stirring of the top
soil, not deep enough to disturb
the surface roots of plants, or
to dry out the soil unduly.

For the amateur the rule
would seem to be: Go easy with
the hoe. Cultivate often, to kill
weeds when they are small
white sprouts, which can be
brought to the surface by stir-
ring the soil not more than one
inch deep. Or else use a mulch
to take the place of cultivation.

Mulches have been shown by
a scientific test to be superior
to cultivation as a means of
keeping the soil moist, pre-
venting the formation of a
crust and insuring aeration.

Mulches of fresh organic ma-
terial, such as manure, straw,
alfalfa, moss, lawn clippings
and others, stabilize the granu-
lar structure of soils and pre-
vent surface compaction.

In testing various mulching
materials, it was found that
when seeds of Cheung's fescue
grass were sown between
plant rows, it produced the same
effect as a good manure mulch,
at considerably less expense.

Sown at the rate of 3 pounds
to 100 square feet, this grass
makes a thick growth. Toward
fall the grass dies out. Crop pro-
duction is said to be as good
as when any other mulching
material is used, and the cost
less.

Many other materials have

BULGER'S

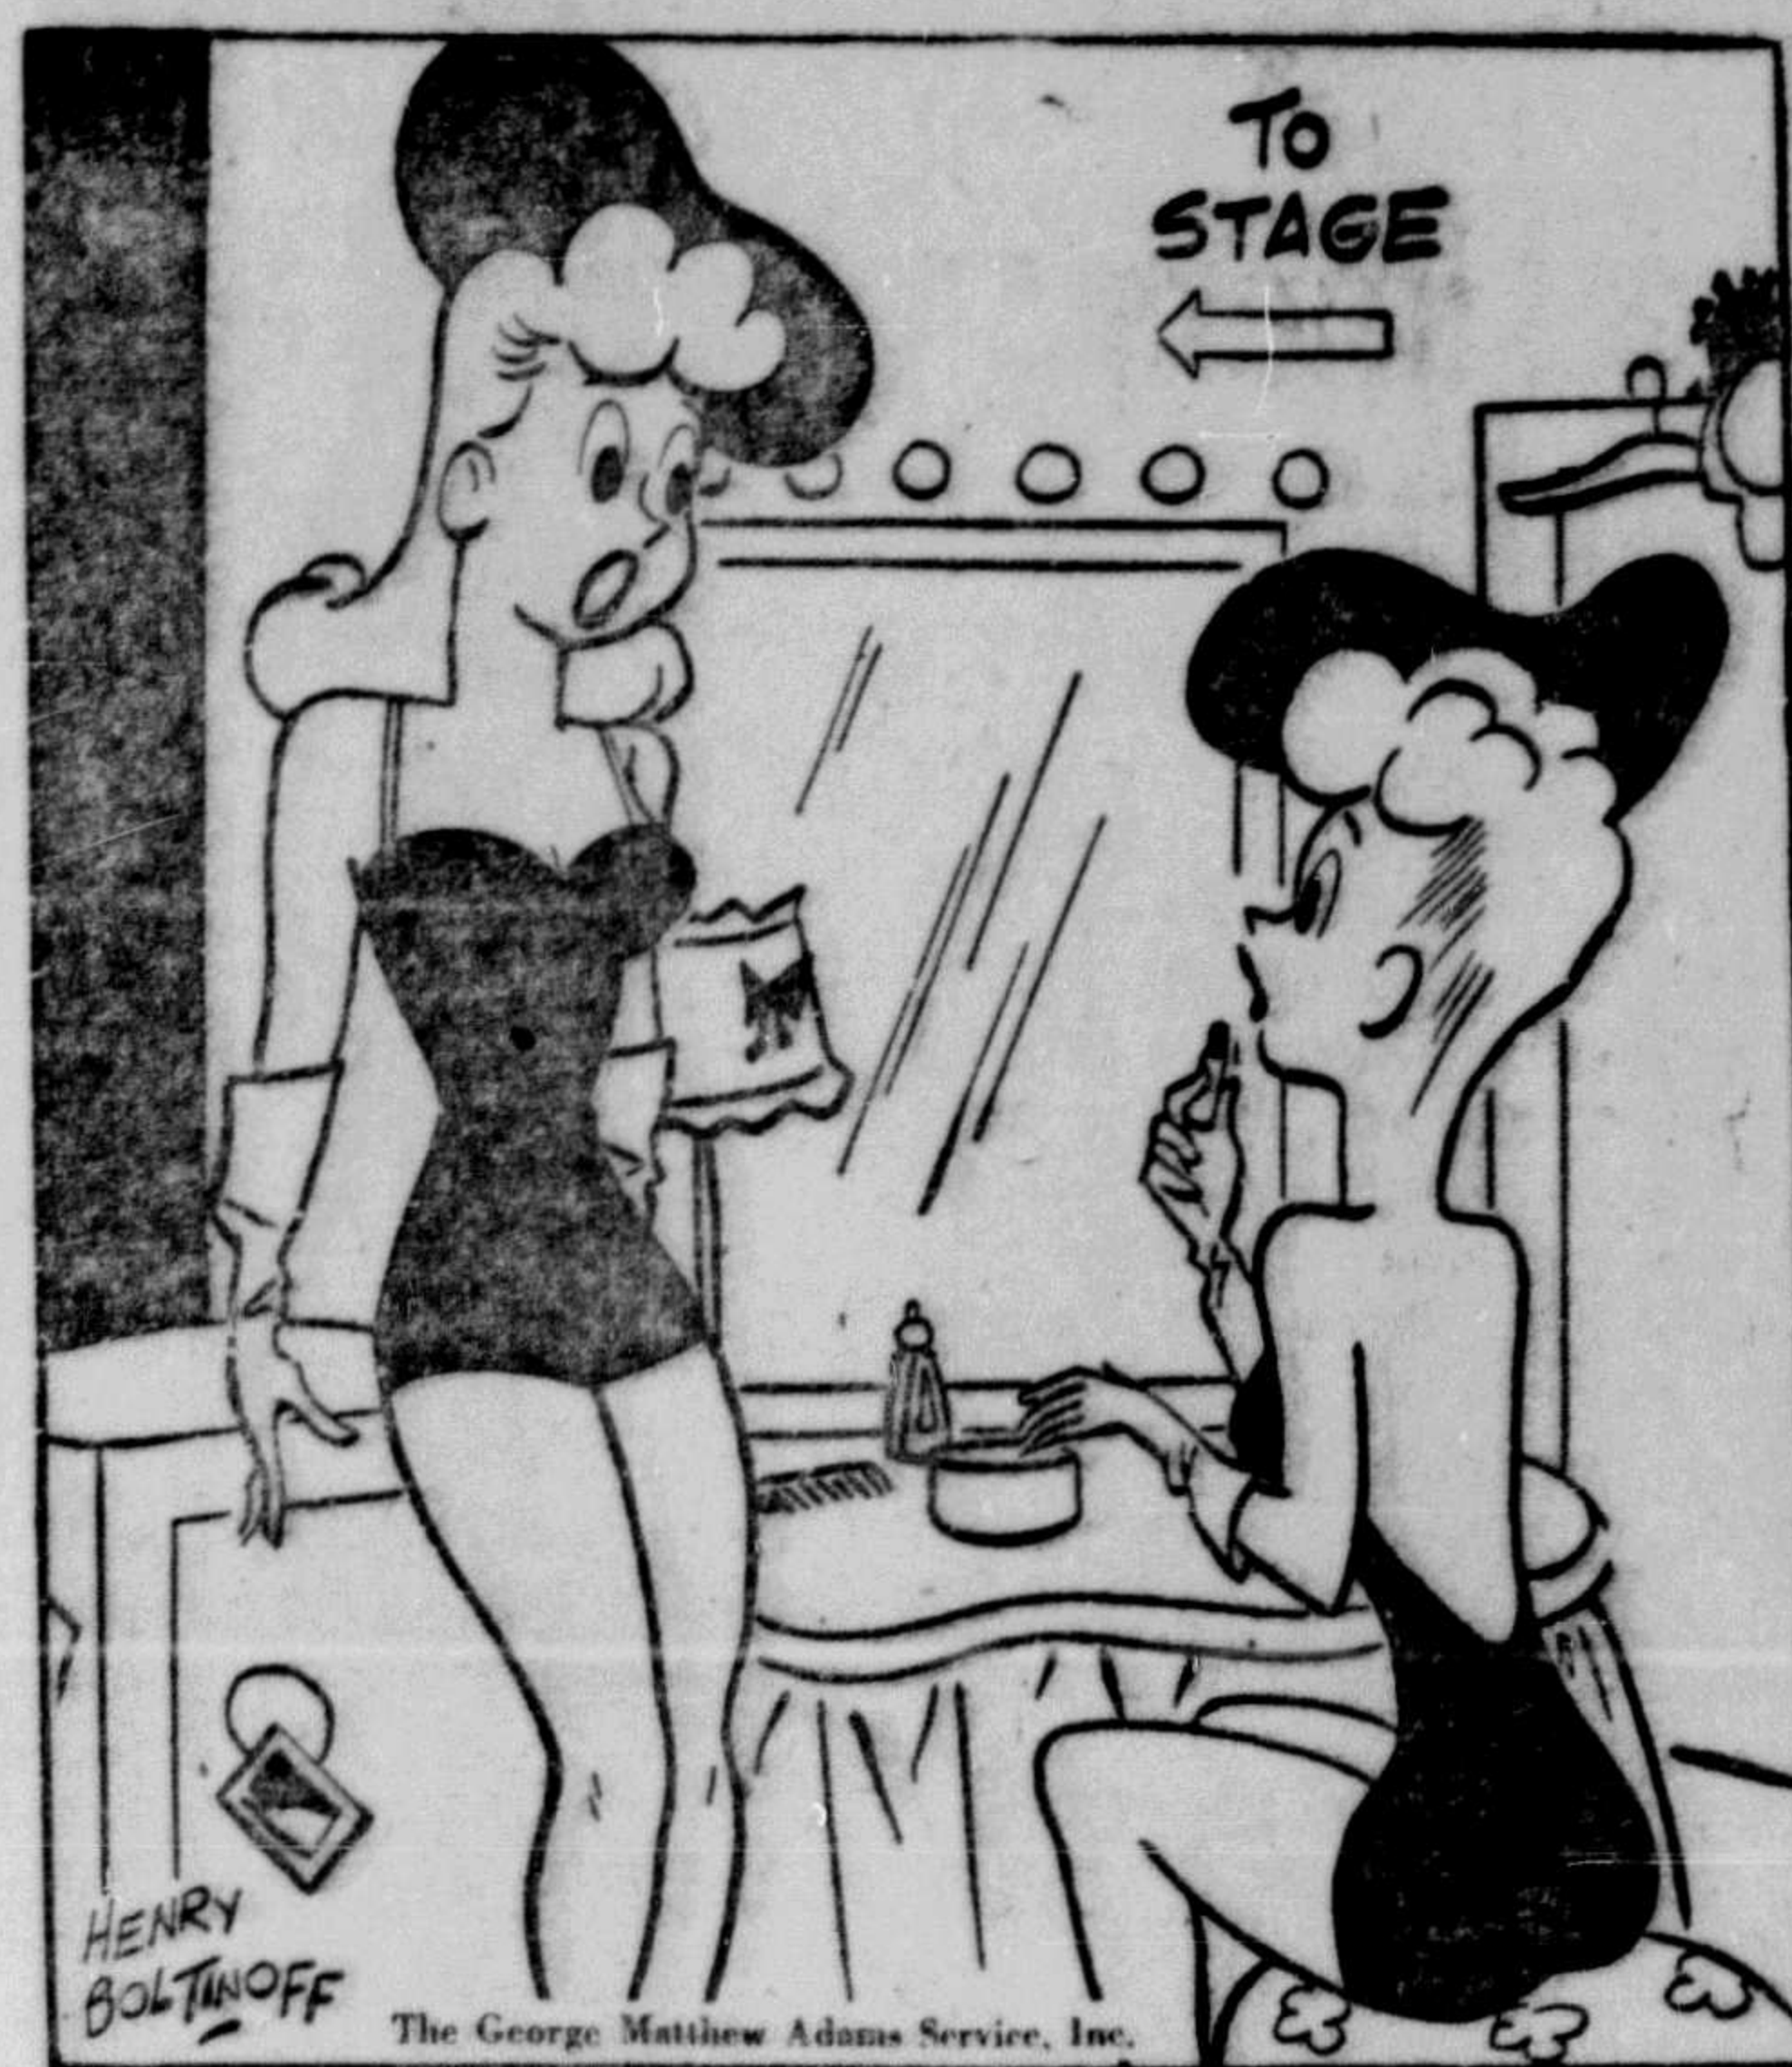

Real Estate Agents Run Central Bureau

EDMONTON, (C)—Edmonton
real estate agents have estab-
lished a central bureau where
they list properties they have
trouble selling. Theoretically
the bureau's cards will list all
the available housing in the
city. In practice dealers will reg-
ister with it only those houses
they please. And in no case
will a property be listed without
the consent of the owner. The
idea is that the bureau will
"farm" out to dealers properties
they are more likely to sell than
the agent with whom it was or-
iginally placed. Fees accruing
from sales are distributed two
per cent to the broker who origi-
nally had the listing, two and a
half per cent to the selling
agent and .05 per cent to the
central bureau.

been used successfully to mulch
gardens. Newspapers will serve
for this purpose, laid down wet,
using several thicknesses, and
anchoring with staples or
stones.

Excellent results can be ob-
tained from a heavy mulch of
lawn clippings, applied a little
at a time. The first application
should be well mixed with the
top soil; and then it may be
built up to several inches in
thickness, so that weeds are
kept down and evaporation
checked, but at the same time
rains are allowed to penetrate
the soil.

Francois Lake News

Phil Kelly has arrived at the
Landing. He motored up from
Vancouver, an adventurous trip,
taking four days. The ferry made
a special trip across to take him
home to Southbank.

Fred Gardner is now working
on the road, hauling gravel in
his truck.

W. B. Stewart of the Depart-
ment of Agriculture stayed at
the Bench House while here on
business.

The school teacher, Mr. Ken-
nedy, is in hospital but expects
to be home soon.

Eugene Beach of Prince George
and John Teibe of Edmonton
are staying in the district. They
belong to the Salvation Army
and expect to hold a few meet-
ings on their way south.

District Agriculturalist John-
son showed some interesting and
instructive films in the hall on
Thursday evening. He also show-
ed two which the Women's In-
stitute had sent up from Van-
couver.

Dave Murray is again on duty
for the Forestry on Parrot Moun-
tain.

Frank Forbes is staying with

John Manderson on the J.P.
Ranch for a few days.

On Wednesday evening Burns
Lake Junior Baseball team play-
ed Francois Lake Juniors at the
hall grounds here. The score re-
sult was 7 to 8 in favour of Fran-
cois Lake.

Going Steady

How food protection makes jobs for Canadians

From gardens,
farms, orchards,
lakes and seas
come vast quan-
tities of food of every variety for use
on Canadian tables. Food pro-
cessors have constantly been seek-
ing new ways to protect the purity
of food. International Nickel has
cooperated in this work, and has
carried on a great deal of research
aimed at developing better and
better equipment.

So today the
equipment used
to handle, cook
and process
fruits, vegetables
and soup; meat, fowl and fish, is
largely made of Nickel or Nickel

alloys. These metals resist the
action of food acids, do not rust or
corrode, do not discolor or con-
tamine foods.

As a result of
scientific re-
search, processed
foods are safe,
pure and tasty.

More and more
Nickel and Nickel alloys are used
for utensils, cooking vessels and
other food processing equipment.
The production of this Nickel pro-
vides jobs for scores of Canadians.

Thus does research develop better
products, increase the use of Cana-
dian Nickel and create more
employment.

ANNIVERSARY OF D-DAY

Yesterday was the fourth anniversary of D-Day when the greatest amphibious force in history was landed on the beaches of Normandy to commence the March on Berlin which culminated in the surrender on May 8, 1945. General Dwight P. Eisenhower, Allied commander-in-chief, observed "D-Day" by assuming the presidency of Columbia University.

Trains For Kitwanga

Expected to Be Resumed
That Far West This Week

Canadian National Railways are hoping this week to restore train service from Jasper as far west as Kitwanga, west of Hazelton, following flood damage which washed out the roadbed along the Bulkley and Skeena Rivers.

Completion of repair work on a five-mile stretch between Tatlow and Smithers, east of that divisional point, expected this week, will permit train service as far west as Kitwanga.

However, on the Skeena River section between Kitwanga and Kwinitsa, restoration work will take longer, possibly several weeks. Several miles of roadbed have to be replaced and two or three bridges rebuilt.

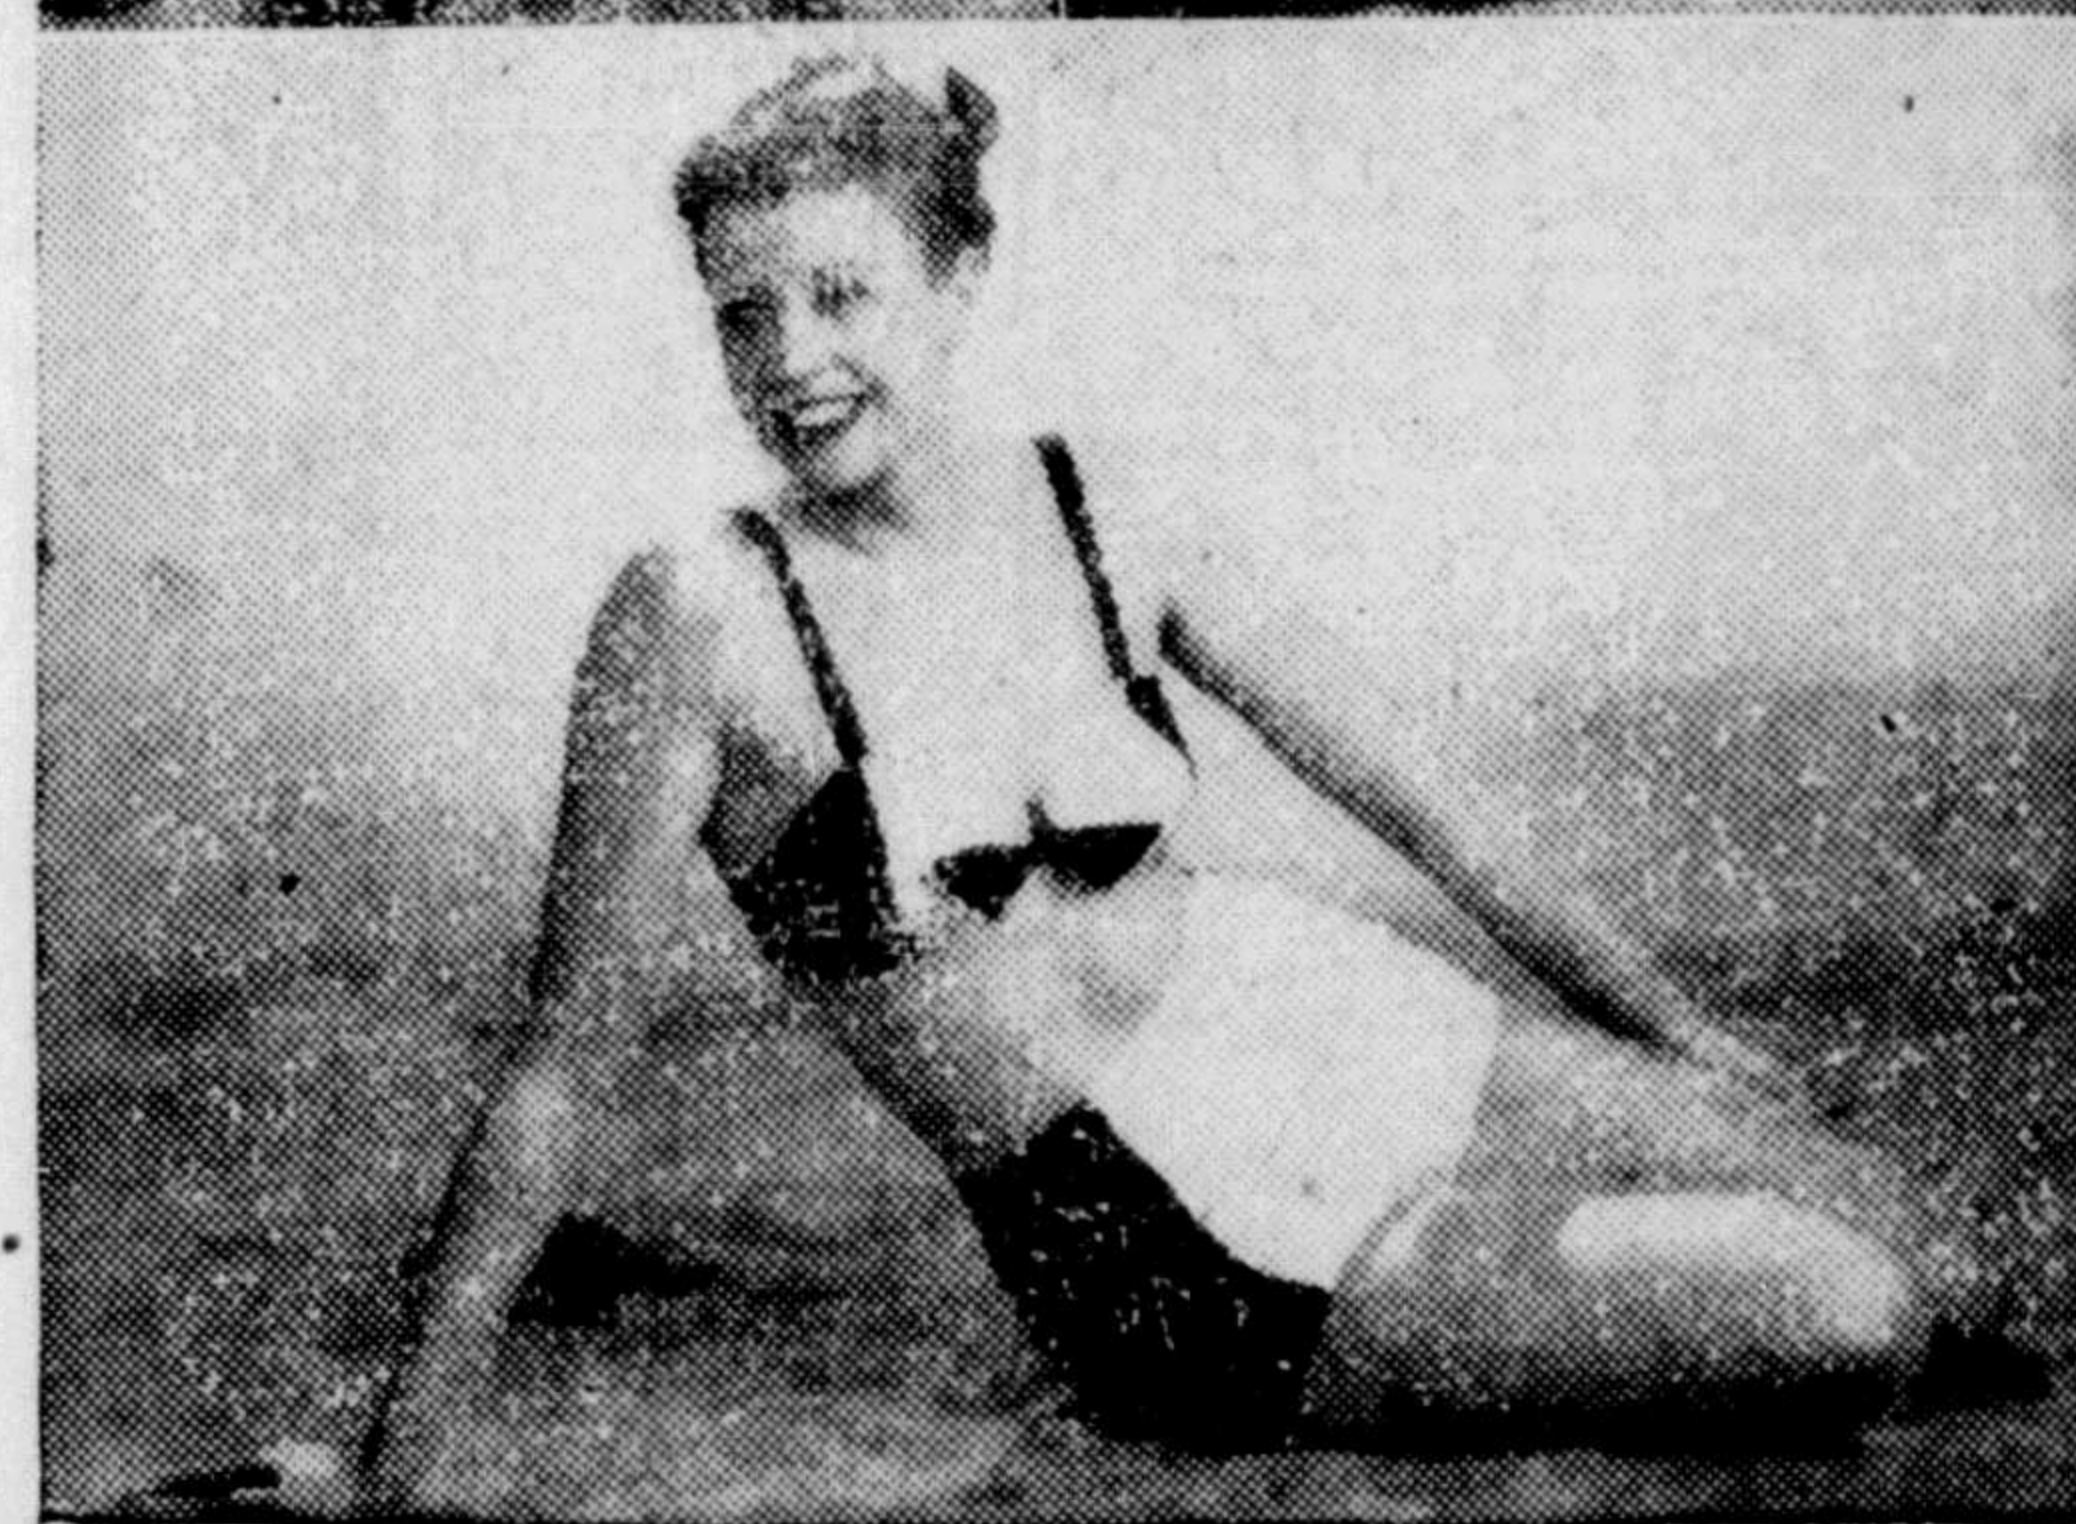

A work train left Prince Rupert Sunday morning for Kwinitsa, 45 miles east of Prince Rupert and moved another 10 miles eastward to Salvus this morning. Repair work at present is centred around Salvus.

Level of the Skeena River is reported to be gradually reducing to normal.

ONTARIO VOTE LIGHT TODAY

TORONTO, (C) — Voting was light today in the early stage of Ontario's third general election in five years. In most ridings the voters were greeted by overcast skies, with rain in some districts. The 290 candidates for 90 seats ended their campaigns Saturday. The major parties—Progressive—Conservative, Liberal and C.C.F.—have 261 candidates in the race.

Mr. and Mrs. Harry Seaman and small daughter, Leah, returned to the city this morning on the Coquitlam from Massett where they have been visiting as guests of Indian Agent and Mrs. J. A. Finlay.

PRETTIES IN NYLON—There is no lack of variety in beach fashions this year. Here are three of the latest creations by top Canadian designers. The dressmaker type (upper left) is of nylon printed-twill carrying a gay sailfish design. A neat one-piece number in crisp nylon taffeta with contrasting white piping is shown (upper right). The cool-looking black and white two-piece suit (below) is another nylon twill which should prove highly popular with those who find sunbathing as exhilarating as swimming. Nylon's ability to keep its shape, its quick-drying and lightweight properties, make it ideal for beach wear.

FLOOD

Smilingly flowed the Fraser in the bygone days of her beauty, Rippling above the shallows, dimpling in swirling eddies, Rolling away to the ocean in waves of shimmering splendor, Bearing a song in her bosom, a whisper of peace in her waters.

Sullenly flowed the Fraser 'neath springtime's furious torrents, Rushing too soon from the mountaintops to brim the swift, tumbling river,

With plunging maelstrom of flood, swollen, menacing, terrible, Challenging man-made barriers with fierce and pent-up fury.

Treacherously the Fraser, sweeping along in the darkness; Crouched, beastlike, in her levees, licking the topmost sandbags, Searching the weaker places; then, relentless, devouring, Swallowing peaceful farmlands, the homes of our friends and neighbors.

In grim flood-tide the fierce Fraser, the raging Skeena— Columbia,

Flowing above rich meadows, the toil and the travail of thousands;

While tirelessly still the battle wages, twist man and the rushing waters, That our valleys may smile in the years to be and peace return to the Fraser.

SKEENA ROAD IS STILL BLOCKED

Prince Rupert motorists who drove up to Kwinitsa, 45 miles east of the city, on Sunday, were surprised today to hear that they might have driven on to Prince George if they so desired.

That is what they were told on a news broadcast at noon, although they all found yesterday that it was not possible to drive very far beyond Kwinitsa.

Although the Skeena River has receded six feet below its flood crest level at Kwinitsa, condition of the road makes it impossible to go much beyond that point. Grade washouts and rough surface conditions resulting from the flood made a barrier beyond which cars could not pass.

In addition to that, there are a couple of highway bridges washed out east of Salvus, so any car getting beyond that point would either have to sprout wings or else use the railway bridges.

Last week, Assistant Public Works Engineer W. E. Bottomley, of Smithers, travelled the 200-odd miles between Smithers and Prince Rupert and after a survey of the damage, he estimated that it would be "in the

S.O.N. DANCE NETS \$50 FOR FLOOD FUND

The B. C. Emergency Flood campaign will benefit to the extent of \$50 as a result of a dance held by the Sons of Norway Lodge in the lodge hall Friday night. The proceeds will be turned over to the fund by the organization. A large number of people enjoyed the dance, music for which was provided by Mike Colussi and his piano accordion. Nels Gunderson was master of ceremonies and Knut Slatta was in charge of the door.

HARD-WORKING ANIMAL

neighborhood of three weeks" before through traffic begins to move again.

FUNERAL NOTICE

LUNDGREN—In the city, Friday, June 4, 1948, Johan Gottfred (Fred) Lundgren, age 48 years. Funeral services will be held at the Grenville Court Chapel on Tuesday, June 8 at 2:30 p.m. Interment to follow in Fairview Cemetery, B.C. Undertakers in charge of arrangements.

Flood Victims' Greatest Need Still Ahead!

When stricken families leave temporary shelter to return to damaged homes, their needs become greatest. Houses must be repaired, furniture mended, clothing found... and all at once.

The B. C. Flood Emergency Fund, administered by the Red Cross, must help meet these immediate needs before government rehabilitation takes over.

Without your aid the flood victims will suffer double hardships in this period.
